Independent Auditor's Report

HONORABLE DON HARRIS, CLA
WEST CARROLL PARISH ASSESSOR
Oak Grove, Louisiana

I have audited the accompanying general purpose financial statements of the West Carroll Parish Assessor, a component unit of the West Carroll Parish Police Jury, as of December 31, 1999, and for each of the years in the two year period then ended, as listed in the table of contents. These general purpose financial statements are the responsibility of the West Carroll Parish Assessor's management. My responsibility is to express an opinion on these general purpose financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards and Government Auditing Standards, issued by the Comptroller General of the United States. These standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the West Carroll Parish Assessor as of December 31, 1999, and the results of operations for each of the years in the two year period then ended in conformity with generally accepted accounting principles.

In accordance with Government Auditing Standards, I have also issued a report dated May 23, 2000, on the Jackson Parish Assessor's compliance with laws, regulations, and contracts, and my consideration of the agency's internal control over financial reporting. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of my audit.

WEST CARROLL PARISH ASSESSOR
Oak Grove, Louisiana

Notes to the Financial Statements
As of and For the Two Years Ended December 31, 1999

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As provided by Article VII, Section 24 of the Louisiana Constitution of 1974, the assessor is elected by the voters of the parish and serves a term of four years, beginning January 1 following the year in which elected. The assessor assesses all real and movable property in the parish, subject to all valuer's taxation, prepares tax rolls, and submits the rolls to the Louisiana Tax Commission and other governmental bodies as prescribed by law. The assessor is authorized to appoint as many deputies as necessary for the efficient operation of his office and to provide assistance to the taxpayers of the parish. The deputies are authorized to perform all functions of the office, but the assessor is officially and pecuniarily responsible for the actions of the deputies.

At December 31, 1999, there are 17,341 real, movable, and public service assessment listings totaling \$45,729,847. For the year ended December 31, 1998, there were 17,338 real, movable, and public service assessment listings totaling \$44,299,027. This represents a decrease of 17 assessment listings at December 31, 1999 and an increase of 29 assessment listings at December 31, 1998. The total assessed valuations increased by \$1,430,820 for the year ended December 31, 1999, and increased by \$2,389,152 for the year ended December 31, 1998.

A. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the West Carroll Parish Police Jury is the financial reporting entity for West Carroll Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 establishes criteria for determining which component units should be considered part of the West Carroll Parish Police Jury for financial reporting purposes. The basic criteria for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

WEST CARROLL PARISH ASSESSOR
Oak Grove, Louisiana
Notes to the Financial Statements (Continued)

1. Appointing a voting majority of an organization's governing body, and:
 - a. The ability of the police jury to impose its will on that organization and/or;
 - b. The potential for the organization to provide special financial benefits to or impose specific financial burdens on the police jury.
2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the police jury maintains and operates the parish courthouse in which the assessor's office is located, the assessor was determined to be a component unit of the West Carroll Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the assessor and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

II. FUND ACCOUNTING

The assessor uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by aggregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts that comprises its assets, liabilities, fund equity, revenues, and expenditures. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities (general fund assets and general long-term debt) that are not recorded in the "funds" because they do not directly affect net expendable available financial resources. They are concerned only with the measurement of financial position, not with the measurement of results of operations.

WEST CARROLL PARISH ASSessor
Oak Grove, Louisiana
Notes to the Financial Statements (Continued)

Funds are classified into three categories; governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types". Governmental funds are used to account for a government's general activities, where the focus of attention is on the providing of services to the public as opposed to proprietary funds where the focus of attention is on recovering the cost of providing services to the public or other agencies through service charges or user fees. Fiduciary funds are used to account for assets held for others. The assessor's current operations require the use of governmental funds (General Fund) and fiduciary funds (Deferred Compensation Agency Fund). Ad valorem tax revenue, authorized by Louisiana Revised Statute 47:1823.3, is accounted for in the General Fund. General operating expenditures are paid from the General Fund.

**C. GENERAL FIXED ASSETS
AND LONG-TERM DEBT**

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the general fixed assets account group, rather than in the General Fund. Fixed assets provided by the police jury are not recorded in the general fixed assets account group. Approximately 90 per cent of fixed assets are valued at actual historical costs, based on the actual costs of like items, while the remaining 9 per cent are based on estimated historical costs. No depreciation has been provided on general fixed assets. The assessor has no long-term debt at December 31, 1999.

D. BASIS OF ACCOUNTING

The financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for reporting all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when measurable or accrual (i.e., when they are both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The assessor uses the following practices in recognizing and reporting revenues and expenditures:

WEST CARROLL PARISH ASSESSOR
Oak Grove, Louisiana
Notes to the Financial Statements (Continued)

Revenues

Ad valorem taxes are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed on a calendar year basis, which is an enforceable lien, and become due and payable on the date the tax rolls are filed with the recorder of mortgages. Louisiana Revised Statute 47:209 requires that the tax roll be filed on or before November 15 of each year. Ad valorem taxes become delinquent if not paid by December 31. The taxes are normally collected in December of the current year and January and February of the ensuing year.

State revenue sharing, which is based on population and households in the parish, is recorded as revenue in lieu of taxes in the year received which coincides with the recognition of the related ad valorem taxes discussed above.

Fees for preparing tax rolls are recorded in the year prepared.

Interest income on demand deposits is recorded monthly when the interest is earned and credited to the account.

Based on the above criteria, ad valorem taxes, state revenue sharing, and fees for preparing tax rolls have been treated as susceptible to accrual.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

K. BUDGET PRACTICES

The proposed budget for the General Fund, prepared on the modified accrual basis of accounting, is made available for public inspection at least fifteen days prior to the beginning of each fiscal year. The budget is then legally adopted by the assessor and amended during the year, as necessary. The budget is established and controlled by the assessor at the object level of expenditures. Appropriations lapse at year-end and must be reappropriated for the following year to be expended. All changes in the budget must be approved by the assessor.

WEST CARROLL PARISH ASSessor
Oak Grove, Louisiana
Notes to the Financial Statements (Continued)

Fiscal budgetary integration is employed as a management control device during the year. Budgeted amounts included in the accompanying financial statement include the original adopted budget amounts. There was one budget amendment for the year ended December 31, 1999, however, there were no budget amendments for the year ended December 31, 1998.

F. CASH AND CASH EQUIVALENTS

Under state law, the assessor may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The assessor may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At December 31, 1999, the assessor has cash and cash equivalents (bank balances) totaling \$87,678, as follows:

Demand deposits	\$21,279
Time deposits	<u>66,400</u>
Total	<u>\$87,678</u>

These deposits are stated at cost, which approximates market. Under state law, these deposits, or the resulting bank balances, must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Deposit balances (bank balances) at December 31, 1999, total \$97,920, and are fully secured by federal deposit insurance.

G. VACATION AND SICK LEAVE

All employees are granted from 10 to 31 days of noncumulative vacation leave and 12 to 18 days of sick leave each year, depending on length of service. Sick leave is granted on an individual basis with proper documentation of actual illness. At December 31, 1999, there are no accumulated and vested benefits relating to vacation and sick leave that require accrual or disclosure.

The cost of leave privileges, computed in accordance with GASB Codification

WEST CARROLL PARISH ASSESSOR
Oak Grove, Louisiana
Notes to the Financial Statements (Continued)

Section 530, is recognized as a current-year expenditure in the General Fund when loans is actually taken.

II. RISK MANAGEMENT

The assessor is exposed to various risk of loss related to acts; theft of, damage to, and destruction of assets; errors and omissions; and injuries to employees. To handle such risk of loss, the assessor maintains commercial insurance policies covering workmen's compensation and surety bond coverage. No claims were paid on any of the policies during the past three years which exceeded the policies' coverage amounts. There were no significant reductions in insurance coverage during the three years ended December 31, 1999.

1. TOTAL COLUMN ON THE BALANCE SHEET

The total column on the balance sheet is captioned Memorandum Only to indicate that it is presented only to facilitate financial analysis (overview). Data in this column does not present financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation.

2. PRINCIPAL TAXPAYERS

The following are the principal taxpayers for the parish and their 1999 assessed valuations:

	1999 Assessed Valuation	Per cent of Total Assessed Valuation
Trunkline Gas Company	\$11,585,170	35.54%
Energy Louisiana, Inc.	1,889,060	5.87%
BelSouth Telecommunications	1,200,440	3.69%
Regions Bank of Louisiana	1,154,250	3.61%
Southern Natural Gas Company	1,089,840	3.38%
ANR Pipeline Company	1,054,440	3.30%
Balfin Building Systems, Inc.	700,530	2.19%
Northeast Louisiana Power Corp.	\$660,470	2.04%

WEST CARROLL PARISH ASSESSOR
 Oak Grove, Louisiana
 Notes to the Financial Statements (Continued)

	1999 Assessed Valuation	Per cent of Total Assessed Valuation
Wal-Mart Stores, Inc.	400,470	0.28%
Hibernia National Bank	344,990	0.75%
Total	<u>\$749,827,820</u>	<u>43.36%</u>

3. CHANGES IN GENERAL FIXED ASSETS

A summary of changes in office furnishings and equipment follows:

Balance at January 1, 1998	\$29,367
Additions:	
1998	NONE
1999	15,899
Deletions:	
1998	NONE
1999	<u>(12,189)</u>
Balance at December 31, 1999	<u>\$32,842</u>

4. PENSION PLAN

Substantially all employees of the West Carroll Parish Assessor's office are members of the Louisiana Assessor's Retirement System (system), a multiple-employer (cost-sharing), public employer retirement system (PERS), controlled and administered by a separate board of trustees.

All full-time employees who are under the age of 60 at the time of original employment and are not drawing retirement benefits from any other public retirement system in Louisiana are required to participate in the system. Employees who retire at or after age 55 with at least 12 years of credited service or at or after age 50 with at least 30 years of credited service are entitled to a retirement benefit, payable monthly for life, equal to 5 per cent of their final-average salary for each year of credited service, not to exceed 100 per cent of their final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least 12 years of service and do not withdraw their employer contributions may retire at or after age 55 and receive the benefit accrued to their date of termination. The system also provides death and disability benefits. Benefits are established by state statute.

WEST CARROLL PARISH ASSESSOR

Old Grove, Louisiana

Notes to the Financial Statements (Continued)

The system issues an annual publicly available report that includes financial statements and required supplementary information for the system. That report may be obtained by writing to the Louisiana Assessor's Retirement System, Post Office Box 1136, Shreveport, Louisiana 71166-1786, or by calling (518) 425-4446.

Plan members are required by state statute to contribute 7.00 per cent of their annual covered salary and the West Carroll Parish Assessor is required to contribute at an actuarially determined rate. The current rate is 5.75 per cent of annual covered payroll. Contributions to the system include one-fourth of one per cent (one per cent for Orleans Parish) of the taxes shown to be collectible by the tax rolls of each parish, plus revenue sharing funds appropriated by the legislature. The contribution requirements of plan members and the West Carroll Parish Assessor are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:109, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The West Carroll Parish Assessor's contributions to the system for the years ending December 31, 1999, 1998, and 1997, were \$7,323, \$6,647, and \$6,168, respectively, equal to the required contributions for each year.

5. LITIGATION AND CLAIMS

At December 31, 1999, the West Carroll Parish Assessor is not involved in any litigation, nor is he aware of any unasserted claims.

6. EXPENDITURES OF THE ASSESSOR'S OFFICE PAID BY THE POLICE JURY

The West Carroll Parish Assessor's office is located in the parish courthouse. The cost of maintaining and operating the courthouse, as required by Louisiana Revised Statute 58:475, is paid by the West Carroll Parish Police Jury.

**Independent Auditor's Reports Required
by Government Auditing Standards**

The following independent auditor's report on compliance and internal control over financial reporting is presented in compliance with the requirements of *Government Auditing Standards*, issued by the Comptroller General of the United States and the *Louisiana Governmental Audit Guide*, issued by the Society of Louisiana Certified Public Accountants and the Louisiana Legislative Auditor.

Independent Auditor's Report on Compliance and Internal Control Over Financial Reporting

HONORABLE DON HARRIS, CPA
WEST CARROLL PARISH ASSESSOR
Oak Grove, Louisiana

I have audited the general purpose financial statements of the West Carroll Parish Assessor as of and for the two years ended December 31, 1999 and have issued my report thereon dated May 23, 2000. I conducted my audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the West Carroll Parish Assessor's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the West Carroll Parish Assessor's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operations that I consider to be material weaknesses.
