INDEPENDENT AUDITOR'S REPORT

To the Board of Levee Commissioners
of Red River, Atchafalaya and Bayou
Bourf Levee District
State of Louisiana
Alexandria, Louisiana

We have audited the accompanying general purpose financial statements of the Red River, Atchafalaya and Bayou Bourf District, a component unit of the State of Louisiana, as of and for the year ended June 30, 1998, as listed in the table of contents. These general purpose financial statements are the responsibility of the Red River, Atchafalaya and Bayou Bourf Levee District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards, Government Auditing Standards issued by the Comptroller General of the United States, and the Louisiana Governmental Auditing Guide. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Red River, Atchafalaya and Bayou Bourf Levee District as of June 30, 1998, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated September 30, 1998 on our consideration of the Red River, Atchafalaya and Bayou Bourf Levee District's internal control over financial reporting and our tests of its compliance with laws and regulations.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The "schedule" listed in the table of contents is presented for purposes of additional analysis and is not a required part of the general purpose financial statements of the Red River, Atchafalaya and Bayou Boeuf Levee District. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Respectfully submitted,

McKinnon & Associates

**RED RIVER, ATCHAFALAYA AND BAYOU BOEUF LEVEE
DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008**

INTRODUCTION

The Red River, Atchafalaya and Bayou Boeuf Levee District was created by Louisiana Revised Statute(R.S.138:151.05). The levee district includes all or portions of Rapides, Acycolles, and St. Landry parishes. The levee district primarily provides flood protection for those areas contained in the district. The governing board administers the operations and responsibilities of the levee district in accordance with Louisiana statutes. There are three board members appointed by the governor. The levee district employs two administrative personnel, a field staff of 16, and temporary employees as needed. The Louisiana Department of Transportation and Development provides certain engineering services to the levee district, and the United States Army Corp of Engineers serves as an advisory body, as well as periodically inspecting the integrity of the levee system.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting principles and reporting standards.

B. REPORTING ENTITY

GASB Codification Section 2100 has defined the governmental reporting entity to be the State of Louisiana. The levee district is considered a component unit of the State of Louisiana because the state exercises oversight responsibility in that the governor appoints the board members and public service is rendered within the state's boundaries. The accompanying general purpose financial statements present information only as to the transactions of the Red River, Atchafalaya and Bayou Boeuf Levee District, a component unit of the State of Louisiana. Actually, the

**RED RIVER, ATCHAFALAYA AND SAVAN BOHEM LEVEE
DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1998**

State of Louisiana issues general purpose financial statements, which include the activity contained in the accompanying financial statements.

C. FUND ACCOUNTING

The levee district uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

The levee district has one fund (General Fund) that is classified as a governmental fund. The General Fund accounts for the levee district's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. The General Fund is the general operating fund of the levee district and accounts for all financial resources.

D. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The General Fund is accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The operating statement of the General Fund presents increases and decreases in net current assets. The General Fund uses the modified accrual basis of accounting and the following practices in recording revenues and expenditures:

**RED RIVER, ATCHAFALAYA AND EASTO BOSSUP LEVEE
DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1998**

Revenues

Ad valorem taxes and other related state revenue sharing are recorded in the year the taxes are assessed. Ad valorem taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on December 31. The taxes are generally collected in December, January, and February of the fiscal year.

Interest income on time deposits is recorded when the time deposits have matured and the interest is available.

Substantially all other revenues are recorded when they become available.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except for accumulated annual leave, which is recognized when paid.

Other Financing Sources

The proceeds from the sale of assets are accounted for as other financing sources as the underlying event occurs.

B. BUDGET PRACTICES

The proposed budget for the year ended June 30, 1998, was made available for public inspection at the levee district's main office on March 5, 1998. The budget, which included proposed expenditures and the means of financing them for the General Fund, was published in the official journal. The budget is prepared on the modified accrual basis of accounting. All unexpended appropriations lapse at year-end. The levee district does not recognize encumbrances; therefore, encumbrances are not reflected for budgeting or accounting purposes. Budget amounts included in the accompanying financial statements include the original adopted budget and all subsequent amendments. Formal budget integration (within the accounting records) is not employed as a management control device during the year. Changes or

**RED RIVER, ATCHAFALAYA AND BAYOU BOULLE LEVEE
DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1990**

amendments within various budget classifications are made upon the approval of the board of commissioners. The budget practices of the Red River, Atchafalaya and Bayou Boquet Levee District are subject to the provisions of R.S. 38:318.

F. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include petty cash, interest-bearing demand deposits, and time deposits. Under state law, the Red River, Atchafalaya and Bayou Boquet Levee District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. Furthermore, the levee district may invest in certificates of deposit of state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

G. INVENTORIES

Inventories are valued at the lower of cost or market, which approximates cost. The levee district uses a periodic inventory system and values its inventory using the first-in, first-out (FIFO) valuation method. Inventories in the General Fund are recorded as expenditures at the time of purchase. Year-end balances are offset by a fund balance reserve that indicates this portion of the fund balance does not constitute available spendable resources.

H. FIXED ASSETS

Fixed assets are recorded as expenditures at the time purchased or constructed, and the related assets are capitalized (reported) in the general fixed assets account group. Public domain or infrastructures are not capitalized. No depreciation has been provided on general fixed assets. Buildings and equipment, which represent approximately 83 percent of total fixed assets, are valued at actual historical cost. The majority of land was conveyed to the levee district before January 1, 1980. It represents approximately 17 percent of total fixed assets and is valued at estimated fair market value at date of conveyance. Therefore, the budget is known as a nonappropriated budget.

RED RIVER, METCALF AND SAVANNAH BOHEM LEVER
DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1998

1. COMPENSATED ABSENCES

Employees earn and accumulate annual and sick leave at various rates, depending on their years of service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon termination, employees or their heirs are compensated for up to 100 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, unused annual leave in excess of 100 hours plus unused sick leave are used to compute retirement benefits.

The costs of current leave privileges, computed in accordance with GASB Codification Section 687, is recognized as a current-year expenditure in the General Fund when leave is actually taken. The cost of leave privileges not requiring current resources is recorded in the general long-term obligations account group. The liability for unused annual leave payable at June 30, 1998, computed in accordance with GASB Codification Section 687.108, is estimated to be \$60,363. This amount is recorded in the general long-term obligations account group.

2. COMPENSATORY LEAVE

Employees who are considered having non-exempt status according to the guidelines contained in the Fair Labor Standards Act may be paid for compensatory leave earned. Upon termination or transfer, an employee will be paid for any time and one-half compensatory leave earned and may or may not be paid for any straight hour for hour compensatory leave. Compensation paid will be based on the employee's hourly rate of pay at termination or transfer. The liability for accrued payable compensatory leave at June 30, 1998, computed in accordance with the codification of Governmental Accounting and Financial Reporting standards, section 687.108 is estimated to be \$3,984. The leave payable is recorded within the general long-term obligations account group.

RED RIVER, ACACAFALAYA AND BASOU BOQUIP LEVEE
DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1998

K. TOTAL COLUMN ON BALANCE SHEET

The total column on the balance sheet is captioned Memorandum Only (overview) to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation.

L. CASH AND CASH EQUIVALENTS

At June 30, 1998, the levee district has cash and cash equivalents (book balances) totaling \$1,814,753 as follows:

Money cash	\$	50
Interest-bearing demand deposits		206,703
Certificate of Deposit		1,528,000
Total		<u>\$1,814,753</u>

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At June 30, 1998, the levee district has \$1,814,753 in deposits (collected bank balances). These deposits are secured from risk by \$206,000 of Federal Deposit Insurance (FDIC Risk Category 1) and \$1,314,753 of pledged securities held by the custodial bank in the name of the fiscal agent bank (S&P Risk Category 1).

Even though the pledged securities are considered uncollateralized (Category 1) under the provisions of GSSB Statement 3, P.S. 38:3225 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the levee district that the fiscal agent has failed to pay deposited funds upon demand.

**RED RIVER, ATCHAFALAYA AND BAYOU BOHEP LEVEE
DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDING JUNE 30, 1990**

3. RECEIVABLES

At June 30, 1990, the levee district does not have any receivables.

4. CHANGES IN GENERAL FIXED ASSETS

A summary of changes in general fixed assets follows:

	Balance July 1, 1987	Additions	Deductions	Balance June 30, 1988
Land	\$ 387,636			\$ 387,636
Buildings	467,183			467,183
Equipment	1,332,480	220,322	202,889	1,349,913
Total	<u>\$2,187,300</u>	<u>\$220,322</u>	<u>\$202,889</u>	<u>\$2,335,613</u>

5. PENSION PLAN

Substantially all employees of the levee district are members of the Louisiana State Employees Retirement System (System), a cost-sharing, multiple-employer public employee retirement system (PERSA). The System is a state-wide public retirement system, which is organized for the purpose of providing retirement and other benefits for employees of the state and its various departments and agencies and their beneficiaries, and is administered and controlled by a separate board of Trustees. Contributions of participating state agencies are pooled within the System to fund accrued benefits, with contribution rates approved by the Louisiana legislature.

All full-time levee district employees are eligible to participate in the system. Benefits vest with 10 years of service. At retirement age, employees are entitled to annual benefits equal to \$348 plus 2.5 percent of their highest consecutive 36-month average salary multiplied by their years of credited service. Vested employees may retire at (a) any age with 30 years of service, (b) age 55 with 25 years of service, or (c) age 48 with 10 years of service. The system also provides death and disability benefits. Benefits are established by state statute. The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the

**RED RIVER, ATCHAFALAYA AND MAYOU MOSEF LEVEE
DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1990**

System. That report may be obtained by writing to the Louisiana State Employees Retirement System, Post Office Box 44213, Baton Rouge, Louisiana 70884, or by calling (804) 333-6460.

Covered employees are required by state statute to contribute 7.4 percent of gross salary and the levee district is required to contribute at an actuarially determined rate. The current rate is 12.4 percent of annual covered payroll. The contribution requirements of plan members and the levee district are established and may be amended by state statute. As provided by R.S. 11:131, the employer contributions are determined by an actuarial valuation and are subject to change each year based on the results of the valuation from the prior fiscal year. The Red River, Atchafalaya and Mayou Mosef Levee District contributions to the System for the years ending June 30, 1988, 1987, and 1986, were \$70,384, \$74,064, and \$68,377, respectively, equal to the required contributions for each year.

6. POSTRETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

The levee district provides certain continuing health care and life insurance benefits for its retired employees. Substantially all of the levee district's employees become eligible for these benefits if they reach normal retirement age while working for the levee district. These benefits for retirees and similar benefits for active employees are provided through the Louisiana State Employees Group Benefits Program. Retirees' monthly premiums are paid jointly by the retiree and levee district. Monthly premiums for active employees are paid by the levee district. The levee district recognizes the cost of providing these benefits (levee district's portion of premiums) as an expenditure when paid during the year, which was \$126,438 for the year ended June 30, 1988. The cost of providing these benefits for seven retirees was \$28,823 for the year ended June 30, 1988.

7. LEASE OBLIGATIONS

The Red River, Atchafalaya and Mayou Mosef Levee District does not have any leases as of June 30, 1988.

**RED RIVER, ATCHAFALAYA AND BAYOU BOHEP LEVEE
DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1998**

8. CHANGES IN GENERAL LONG-TERM OBLIGATIONS

The following is a summary of the long-term obligation transactions for the year ended June 30, 1998.

Compensated absences payable at July 1, 1997	\$54,646
Deductions	<u>888</u>
Compensated absences payable at June 30, 1998	\$53,758

9. LITIGATION AND CLAIMS

At June 30, 1998, the levee district is involved in four lawsuits. In the opinion of the levee district's legal counsel, the ultimate resolution of these lawsuits will not represent a material liability to the levee district.

10. LEVEE DISTRICT TAXES

Article 8, Section 39 of the Louisiana Constitution of 1974 provides that, for the purpose of construction and maintaining levees, levee drainage, flood protection, hurricane flood protection, and for all other purposes incidental thereto, the levee district may annually levy a tax not to exceed five mills. If the levee district needs to raise additional funds in excess of the amount collected constitutionally, the taxes in excess of five mills must be approved by the majority of the vote of the electors. The following is a summary of authorized and levied ad valorem taxes:

	Authorized Mills/acre	Levied Mills/acre
District taxes:		
Constitutional	5.00	1.62
Acresage	.25/acre	.45/acre
Rail	\$100/mile	\$40/mile

DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1988

12. ADVANCE TO OTHER GOVERNMENTS

On May 3, 1983, the levee district pledged to contribute \$12,500 annually for a period of six years as one of the local sponsors to the Atcha-Bigolette Area Flood Control Project (state of Louisiana Project Number 878-22-02823). The levee district contributed the first \$12,500 installment on January 18, 1983; the second \$12,500 installment on February 3, 1983; and the third and fourth installments on June 28, 1984. The levee district has not contributed the last two installments of \$12,500 each. The levee district's contributions are held by the Town of Colfax in an interest-bearing escrow account. The Town of Colfax, Grand Parish Police Jury, Rapides Parish Police Jury, Red River, Atchafalaya and Boyce Bosch Levee District, Louisiana Department of Transportation and Development, and the United States Army Corp of Engineers are the sponsors of the project. According to United States Army Corp of Engineers, the project is underway. As of June 30, 1988, the levee district has advanced \$38,000, which is held in escrow and is recognized as an asset on the accompanying balance sheet, to the Town of Colfax on behalf of the Atcha-Bigolette Area Flood Control Project.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

BOARD OF LEVEE COMMISSIONERS
OF RED RIVER, ATCHAFALAYA AND
BOYOU BOEUF LEVEE DISTRICT
STATE OF LOUISIANA
Alexandria, Louisiana

We have audited the general purpose financial statements of Red River, Atchafalaya and Bayou Boeuf Levee District Alexandria, Louisiana, as of and for the year ended June 30, 1998, and have issued our report thereon dated September 23, 1998. We conducted our audit in accordance with generally accepted auditing standards and Government Auditing Standards, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Red River, Atchafalaya and Bayou Boeuf Levee District general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with these provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards..

Internal Control Over Financial Reporting

In planning and performing our audit of the general purpose financial statements of Red River, Atchafalaya and Bayou Boeuf Levee District, Alexandria, Louisiana, for the year ended June 30, 1998, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control structure. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the

design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the Iowa District's ability to record, process, summarize and report financial data consistent with the assertions of management in the general purpose financial statements. Reportable conditions are described in the accompanying schedule of findings and questioned costs as Finding 1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions, we believe Finding 1 to be a material weakness.

This report is intended for the information of the board of commissioners, management, and Legislative Auditor's Office. However, this report is a matter of public record, and its distribution is not limited.

RED RIVER, ACCHAPALAYA AND BRADFORD MONROE LEVEES
DISTRICT

STATE OF LOUISIANA
SCHEDULE OF INTERNAL CONTROL STRUCTURE REPORTABLE CONDITIONS
FOR THE FISCAL YEAR ENDED JUNE 30, 1988

Finding 1 - Inadequate control of signature stamps

Condition: The Board allows the use of a signature stamp to sign checks. The signature stamp can be used by the administrative staff to sign payroll and payable checks without any board supervision.

Criteria: Having one person in control of signature stamps represents a failure in the internal control process.

Effects: The effect is such that errors, either intentional or unintentional, in the processing of payroll and payable checks could occur and not be detected in a timely manner and in the ordinary course of operations.

Cause: At least one person should manually sign all checks and a signature stamp could be used by the staff member not involved in the preparation of payroll or payable checks.

Recommendation: The board should require that all signature stamps be kept under lock by the payroll clerk. At least one signature should be manually signed on each check and documentation should be reviewed by that person. In addition, a board member should review the backup documents and checks monthly.

Auditor response: The Board will establish procedures for controlling the signature stamps and having a board member manually sign all checks.

Finding 2 - Inadequate segregation of duties

Condition: The Board is not large enough to permit an adequate segregation of employee duties for effective internal control over the purchasing (invoice approval, processing and general ledger) and reporting (journal entry preparation, approval and recordation) cycles.

Criteria: The processing of purchases and journal entries under the control of one person represents a failure to segregate the incompatible accounting activities.

Effects: The effect is such that errors, either intentional or unintentional, in the processing of purchases and journal entries could occur and not be detected in a timely manner and in the ordinary course of operations.

RED RIVER, ATCHAFALAYA AND NAYOU BOBOUF LEVEE
DISTRICT
STATE OF LOUISIANA
SCHEDULE OF INTERNAL CONTROL STRUCTURE REPORTABLE CONDITIONS
FOR THE FISCAL YEAR ENDING JUNE 30, 1998

Cause: The size of the Board and the limited number of employees does not permit an adequate segregation of incompatible duties.

Recommendation: Due to the size of the Board's operations, it does not have sufficient staff to establish adequate segregation of duties. Therefore, the cost associated with reducing this deficiency in the design or operation of the internal control structure may not be considered justified.

Auditor response: Management has noted this condition and has determined that the cost necessary to establish adequate segregation of duties is not justifiable at the current time.

September 25, 1998

MANAGEMENT CORRECTIVE ACTION

In response to Finding 1 - Inadequate control of signature stamps, the following action will be taken:

1. Stacy Rollins will prepare all checks with supporting documentation and will endorse the President of the Board's signature by using his signature stamp. The checks and documentation will be given to the Secretary of the Board, Rita Maloney, who will review them and manually sign the check.
2. On a monthly basis, the canceled checks and documentation will be reviewed by a member of the Board other than the person whose signature is on the check.
3. On a monthly basis, the President of the Board will review the canceled checks to verify signatures and documentation.
4. When not in use, the signature stamp will be maintained under lock by Stacy Rollins.
