Basis of Accounting:

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The financial statements have been prepared on the accrual basis of accounting whereby revenues are recognized in the accounting period in which they are earned. Expenses are recognized in the accounting period in which the liability is incurred, if measurable.

Budget Policy:

Budgets for the various programs are prepared by the Organization's Executive Director and approved by the grantee of the funds for each respective program. Budgets are prepared on a basis consistent with generally accepted accounting principles.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles include the use of estimates that affect the financial statements. Accordingly, actual results could differ from these estimates.

Property and Equipment:

All fixed assets are stated at historical cost or estimated historical cost if actual historical cost is not available. Depreciated fixed assets are stated at their estimated fair market value on the date of donation.

Depreciation is provided in the financial statements over estimated useful lives on a straight-line basis. The following estimated useful lives are generally used:

Furniture and equipment 5 to 15 years

Expenses for additions, major renewals and betterments are capitalized and expenses for maintenance and repairs are charged to operations as incurred.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors
Red River Employment Services, Inc.
Shreveport, Louisiana

We have audited the financial statements of Red River Employment Services, Inc. as of and for the year ended June 30, 1997 and have issued our report thereon dated October 16, 1997. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Red River Employment Services, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Red River Employment Services, Inc.'s internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of internal control over financial reporting would not necessarily disclose all matters in internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information of the Board of Directors, management and all applicable state and federal agencies. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITORS' REPORT

To The Board of Directors
Red River Employment Services, Inc.

We have audited the accompanying statement of financial position of Red River Employment Services, Inc. (a nonprofit corporation) as of June 30, 1997, and the related statement of activities and statement of cash flows for the fiscal year then ended. These financial statements are the responsibility of the Corporation's board of directors. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Red River Employment Services, Inc. as of June 30, 1997, and the changes in net assets and its cash flows for the year then ended in conformity with generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued a report dated October 16, 1997, on our consideration of Red River Employment Services, Inc.'s internal control structure and on its compliance with laws and regulations.
