ACCOUNTANT'S REPORT

Honorable Nathan B. Cain, II and
Board of Aldermen
Village of Norwood, Louisiana
P. O. Box 349
Norwood, Louisiana 70761

We have compiled the accompanying balance sheets of the Village of Norwood's General, Special Revenue and Proprietary Funds as of June 30, 1990, and the related statements of revenues, expenditures and changes in fund balances for the governmental fund types and the related statements of revenues, expenses, cash flows and changes in retained earnings for the proprietary fund types for the year then ended.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

In accordance with the terms of our engagement, we have also issued a report on applying agreed-upon procedures dated August 18, 1990.

VILLAGE OF NORWOOD, LOUISIANA
NOTES TO THE FINANCIAL STATEMENT
FOR THE YEAR ENDED JUNE 30, 1998

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Norwood, Louisiana was incorporated on January 18, 1948, under the provisions of the Louisiana Act (LA R.S. 33:321-483). It operates under a Mayor-Board of Aldermen form of government. They are compensated for their services.

The purpose of the Village is to promote the general welfare and safety, health, peace, good order, comfort, convenience and morals of its inhabitants. The following services are provided: public safety, water, sewer and fire protection.

Financial Reporting Entity: This report includes all funds which are controlled by or are dependent on the Mayor and Board of Aldermen. Control by or dependence on the Village was determined on the basis of election or appointment of the governing body and other general oversight responsibilities, including accountability for fiscal and budgetary matters, designation of management of governing authority and authority to issue debt.

Based upon the above, it has been determined that there are no governmental organizations which should be excluded from the accompanying financial statements.

Fund Accounting: The Village of Norwood, Louisiana uses funds and account groups to report on its financial position and results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect not expendable available financial resources.

Funds of the Village are classified into two categories - governmental and proprietary. In turn, each category is divided into separate fund types. The fund classifications and a description of each existing fund type are as follows:

1. Governmental Funds: Governmental funds are used to account for all or most of the Village's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fund assets and the servicing of general long-term debt. Governmental funds include:

General Fund - the general operating fund of the Village which accounts for all financial resources except those required to be accounted for in other funds.

VILLAGE OF MORRISWOOD, LOUISIANA
NOTES TO THE FINANCIAL STATEMENT
FOR THE YEAR ENDED JUNE 30, 1999

Special Revenue Funds - accounts for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

2. Proprietary Funds - Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. These funds differ from governmental funds in that their focus is on income measurement, which, together with the maintenance of equity, is an important financial indicator. Proprietary funds include:

Enterprise Funds - accounts for operations (a) where the intent of the governing body is that the costs (expenses including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Basis of Accounting: The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds report increases and decreases in net current assets. The modified accrual basis of accounting is used by all governmental fund types.

All proprietary funds are accounted for on a flow of economic resources measurement focus and a determination of net income and capital maintenance. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. The proprietary funds use the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized at the time liabilities are incurred.

The following revenue sources have been treated as susceptible to accrual under the modified accrual basis: taxes which includes sales, franchise, beer and video taxes.

Budgets and Budgetary Accounting: The Village adopts an annual budget for the General Fund, Special Revenue Fund and all Enterprise Funds. It is prepared in accordance with the basis of accounting utilized by that fund. Any revisions that alter the total expenditures must be approved by the Board of Aldermen.

Cash, Cash Equivalents and Investments: Cash includes amounts in demand deposits and interest bearing demand deposits. Cash equivalents include amounts in

time deposits and those investments with original maturities of 90 days or less. Under State law, the Village may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts or time deposits with State banks organized under Louisiana law and national banks having their principal offices in Louisiana. Investments are stated at cost plus interest if that interest is reinvested.

Restricted Assets: Certain proceeds of enterprise funds are classified as restricted assets on the balance sheet because their use is limited. Components of these assets are as follows:

	Water	Sewer	Total
Cash and equivalents	\$16,861.08	\$13,888.12	\$29,860.20

Fixed Assets: Fixed assets of governmental funds are recorded as expenditures at the time purchased or constructed, and the related assets are capitalized in the General Fixed Assets Account Group. Public domain or infrastructure are not capitalized. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost or estimated cost if historical cost is not available. Donated assets are valued at their estimated fair value on the date of donation.

Fixed assets used in the proprietary fund operations are included on the balance sheet net of accumulated depreciation. Depreciation of all exhaustible fixed assets used by proprietary fund operations is charged as an expense against operations. Depreciation is computed using the straight-line method over the estimated useful lives as follows:

Water system	33 years
Sewer System	40 years

Compensated Absences: The Village does not have compensated absences.

Long-Term Obligations: Long-term obligations expected to be financed from governmental funds are reported in the General Long-Term Debt Account Group. Expenditures for interest and principal payments are recognized in the governmental funds when due. The Village does not have any general long-term debt. Long-term obligations expected to be financed from proprietary fund operations are accounted for in those funds.

Fund Equity: Fund equity includes the following:

1. **Contributed Capital** - is recorded in proprietary funds that have received contributions from customers or other governments.

2. **Reserves** - represents those portions of fund equity not appropriable for expenditures or legally segregated for a specific future use.

VILLAGE OF NORTWOOD, LOUISIANA
 NOTES TO THE FINANCIAL STATEMENT
 FOR THE YEAR ENDED JUNE 30, 1998

3. Designated Fund Balances - represents tentative plans for future use of financial resources.

Interfund Transactions: All interfund transactions, except quasi-external transactions, are reported as operating transfers.

Sales Taxes: Sales taxes are collected by the Parish of East Feliciana governmental unit, and the applicable portion is remitted to the Village.

Total Columns on Combined Statements: Total columns on the combined statements are captioned "Memo Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns does not present financial position, results of operations or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

**INDEPENDENT ACCOUNTANT'S REPORT
ON APPLYING AGREED-UPON PROCEDURES**

August 18, 1988

Honorable Nathan B. Cain, II and
Board of Aldermen
Village of Norwood, Louisiana
P. O. Box 349
Norwood, Louisiana 70761

We have performed the procedures included in the Louisiana Government Audit Guide and enumerated below, which were agreed to by the management of the Village of Norwood, and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about the Village of Norwood's compliance with certain laws and regulations during the year ended June 30, 1988 included in the accompanying Louisiana Allocation Questionnaire. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Public Bid Law

1. Select all expenditures made during the year for material and supplies exceeding \$5,000, or public works exceeding \$50,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2251 (the public bid law).

The cash disbursements journal was scanned and expenditures exceeding \$5,000 identified. There were no public works expenditures in excess of \$50,000.00. For those expenditures to which the public bid law applied, proper procedures were followed.

Code of Ethics for Public Officials and Public Employees

3. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics), and a list of outside business interests of all board members and employees, as well as their immediate families.

Management provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period under examination.

Management provided us with the required list.

4. Determine whether any of those employees included in the listing obtained from management in agreed-upon procedure (3) were also included on the listing obtained from management in agreed-upon procedure (2) as immediate family members.

None of the employees included on the list of employees provided by management in agreed-upon procedure 3 appeared on the list provided by management in agreed-upon procedure 2.

Budgeting

5. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the original and amended budget.

5. Trace the budget adoption and amendments to the minute book.

We traced the adoption of the original budget to the minutes of a meeting held on June 26, 1997, which indicated that the budget had been adopted by the Board of Aldermen of the Village of Norwood, Louisiana by a vote of 3 in favor and none opposed. We traced amendments to the original budget to the minutes of meetings held on February 12, 1998, and June 11, 1998. The minutes indicated that the amendment was adopted by the Board of Aldermen by a vote of 3 in favor and none opposed.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues or expenditures exceed budgeted amounts by more than 5%.

We compared the revenues and expenditures of the final budget to actual revenues and expenditures. Actual expenditures did exceed budgeted amounts by more than 5% on these line items: General Fund - Repairs & Maintenance and Capital Outlay and Special Revenue Funds - Payroll Taxes. However, the Village expenditures did not exceed \$250,000 and are, therefore, not required to adhere to a budget as outlined in RS 50:1303.

Management's Response - The Village's management will review such items that exceed 5% in the future.

Accounting and Reporting

- B. Randomly select 6 disbursements made during the period under examination and:

(a) Trace payments to supporting documentation as to proper amount and payee:

We examined supporting documentation for each of the six selected disbursements and found that payment was for the proper amount and made to the correct payee.

(b) Determine if payments were properly coded to the correct fund and general ledger account; and

All six of the payments were properly coded to the correct fund and general ledger account.

(c) Determine whether payments received approval from proper authorities.

Inspection of documentation supporting each of the six selected disbursements indicated approval from the accountant and the Mayor. The list of monthly disbursements are noted in the minute book as approved.

Meetings

- B. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:1 through 42:12 (the open meetings law).

The Village is required to publish the minutes of the Board's meetings which was evidenced both from paid invoices and a copy of the public notice.

Gifts

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

We inspected copies of all bank deposit slips for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees which may constitute bonuses, advances or gifts.

The payroll records and minutes for the year were examined, and we noted no instances which would indicate payments to employees which would constitute bonuses, advances or gifts.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of the Village of Norwood, Louisiana and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. However, this report is a matter of public record and its distribution is not limited.
