Notes to the Financial Statements As of and for the Year Ended December 31, 1998

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

District No. 6, Claiborne Parish Fire Department, Inc. was originally created as the Lisbon Fire Protection District by resolution of the Claiborne Parish Police Jury on May 7, 1987. The district was incorporated on August 6, 1987. The name of the district was changed to District No. 6, Claiborne Parish Fire Department, Inc., by resolution of the police jury on February 11, 1988. The district was created to purchase and maintain fire equipment and provide fire protection for people within the district as provided by Louisiana Revised Statutes 40:1491-1501. Fire protection for the district is provided totally by volunteers. The district has fire stations located in Lisbon, Sharon, Arizona and Antioch. A resolution by the Claiborne Parish Police Jury on August 5, 1993, allowed District No. 6, Claiborne Parish Fire Department, Inc., to annex the station at Summerfield and to add stations at Hebron, Bailey Town, and Gorden. The district is governed by a five member board of commissioners: two members

appointed by the Claiborne Parish Police Jury, two members appointed by the Mayor and Board of Aldermen of the Village of Lisbon, and one member by the other four members. Members serve two-year terms.

A. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the Claiborne Parish Police Jury is the financial reporting entity for Claiborne Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the Claiborne Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial responsibility. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

-7-

Notes to the Financial Statements (Continued)

- 1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the police jury to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
- 2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.
- 3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included

because of the nature or significance of the relationship.

Because the police jury created the district, appoints certain commissioners of the district, and has the ability to impose its will on the district, the district was determined to be a component unit of the Claiborne Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the district and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the Claiborne Parish financial reporting entity.

B. FUND ACCOUNTING

The district uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts that comprises its assets, liabilities, fund equity, revenues, and expenditures. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities (general fixed assets and general long-term obligations) that are not recorded in the "funds" because they do not directly affect net expendable available

financial resources. They are concerned only with the measurement of financial position, not with the measurement of results of operations.

-8-

Notes to the Financial Statements (Continued)

Funds are classified into three categories; governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types." Governmental funds are used to account for a government's general activities, when the focus of attention is on the providing of services to the public as opposed to proprietary funds when the focus of attention is on recovering the cost of providing services to the public or other agencies through service charges or user fees. Fiduciary funds are used to account for assets held for others. The district's current operations require the use of only governmental fund types (General Fund). The General Fund is the general operating fund of the district and is used to account for all financial activities not required to be accounted for in other funds. Primary funding is provided by an ad valorem tax approved by voters of the district and state fire insurance rebates.

C. FIXED ASSETS AND LONG-TERM DEBT

General fixed assets are not capitalized in the fund used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures (capital outlay) in the governmental fund and the related assets are reported in the general fixed assets account group. All purchased general fixed assets are valued at historical cost. Donated fixed assets are recorded at their fair market value on the date of donation. Approximately 98 per cent of general fixed assets are valued at actual cost while the remaining 2 per cent are valued at estimated cost, based on the actual historical cost of like items. No depreciation has been provided on general fixed assets.

The cost of normal maintenance and repairs that do not add to the value of fixed assets or materially extend their useful lives are not capitalized.

Long-term debt expected to be financed from governmental funds is accounted for in the general long-term debt account group, not in the governmental funds.

D. BASIS OF ACCOUNTING

The financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

-9-

> The modified accrual basis of accounting is used for reporting all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The district uses the following practices in recognizing and reporting revenues and expenditures:

Revenues

Ad valorem taxes are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed on a calendar year basis and attach as an enforceable lien and become due and payable on the date the tax rolls are filed with the recorder of mortgages. Louisiana Revised Statute 47:1993 requires that the tax roll be filed on or before November 15 of cach year. Ad valorem taxes become delinquent if not paid by December 31. The taxes are normally collected in December, January, and February of the current year.

Other intergovernmental revenues are recorded when the district is entitled to the funds.

Interest income on demand deposits is recorded when the interest has been earned and the amount is determinable.

Based on the above criteria, ad valorem taxes and other intergovernmental revenues have been treated as susceptible to accrual.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

E. BUDGET PRACTICES

The proposed budgets, prepared on the cash basis of accounting, were prepared and adopted by the board of commissioners in December, 1997. The budget is established and controlled by the board of commissioners at the object level of expenditure. Encumbrance accounting is not utilized in the district's records. Appropriations lapse at year-end and

-10-

> must be reappropriated for the following year to be expended. All changes in the budget must be approved by the board of commissioners.

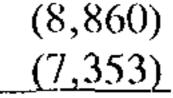

> Formal budgetary integration is not employed as a management control device during the year. Budgeted amounts included in the accompanying financial statements include the original adopted budgets and all subsequent amendments. The following reconciles the excess of revenues over expenditures as shown on the budget comparison Statement C (budget basis) to the same amounts shown on Statement B (GAAP basis):

Excess (Deficiency) of revenues over expenditures (Budgetary basis) Adjustments:

(\$4,039)

Receivables Payables

Excess of revenues and other source over expenditures (GAAP basis)

(\$<u>20,</u>252)

F. CASH

Under state law, the district may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The district may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At December 31, 1998, the district has demand deposits (book balances) totaling \$70,623.

These deposits are stated at cost, which approximates market. Under state law, these deposits, or the resulting bank balances, must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Cash (bank balances) at December 31, 1998, total \$71,053 and are fully secured by federal deposit insurance.

G. TOTAL COLUMN ON COMBINED BALANCE SHEET

The total column in the combined balance sheet is captioned Memorandum Only (Overview) to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation.

II. RISK MANAGEMENT

The fire district is exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; and injuries to employees. To handle such risk of loss, the police jury maintains coverage on the fire district. The policy covers general liability, property, employee liability, and public officials liability. No claims were paid on any of the policies during the past three years which exceeded the policies' coverage amounts. There were no significant reductions in insurance coverage during the year ended December 31, 1998.

2. LEVIED TAXES

The district is authorized to levy a maximum tax of 11.15 mills on property within the boundaries of the district for maintenance and operation of the district. The district levied 12.1 for 1998. The tax will expire with the 2006 tax roll.

The difference between authorized and levied millage is the result of reassessments of taxable property in the parish, as required by Article VII, Section 18 of the Louisiana Constitution of 1974. The following are the principal taxpayers for the parish and their 1998 assessed valuation.

BOARD OF COMMISSIONERS DISTRICT NO. 6 CLAIBORNE PARISH FIRE DEPARTMENT, INC. Lisbon, Louisiana

I have performed the procedures included in the *Louisiana Governmental Audit Guide* and enumerated below, which were agreed upon by the management of District No. 6, Claiborne Parish Fire Department, Inc. and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about District No. 6, Claiborne Parish Fire Department, Inc.'s compliance with certain laws and regulations during the year ended December 31, 1998 included in the accompanying *Louisiana Attestation Questionnaire*. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of the procedures is solely the responsibility of the specified users of the report. Consequently, I make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

GOVERNMENTAL

ACCOUNTING, AUDITING AND FINANCIAL REPORTING

Public Bid Law

1. Select all expenditures made during each year under examination for materials and supplies exceeding \$15,000, or public works exceeding \$100,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2251 (the public bid law).

A review was made of all disbursement for the year. That review disclosed no expenditures made during the period under examination for materials and supplies exceeding \$15,000. No expenditures were disclosed for public works exceeding \$100,000.

2. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics), and a list of outside business interests of all board members and employees, as well as their immediate families.

Management provided me with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period under examination.

The district has no employees.

4. Determine whether any of the employees included in the listing obtained from management in procedure number 3 above were also included in the listing obtained from management in procedure number 2 above as immediate family members.

The district has no employees.

Budgeting

5. Obtain a copy of the legally adopted budgets and all amendments.

Management provided me with a copy of the original budgets and amendments.

6. Trace the budget adoption and amendments to the minute book.

I traced the adoption of the original budgets to the minutes of meetings held on December 7, 1997, which indicated that the budgets had been adopted by the Board of Commissioners of District No. 6, Claiborne Parish Fire Department, Inc. by votes of all in favor and none opposed. I also traced the adoption of amendment to the 1998 budget to the minutes of the meeting held on December 14, 1998.

7. Compare the revenues and expenditures of the final budgets to actual revenues and expenditures to determine if actual revenues or expenditures exceed budgeted amounts by 5% or more.

I compared the revenues and expenditures of the final budgets to actual revenues and

expenditures. Actual revenues did not fail to meet budgeted amounts by 5% or more, nor did actual expenditures exceed budgeted amounts by 5% or more.

Accounting and Reporting

- 8. Randomly select 6 disbursements made during each period under examination and;
 - (a) trace payments to supporting documentation as to correct amount and payee;
 - (b) determine if payments were properly coded to the correct fund and general ledger account;
 - (c) determine whether payments received approval from proper authorities.

An examination of six randomly selected disbursements disclosed the following:

- (a) All six selected disbursements were for the proper amount as reflected on supporting documentation and were made to the correct payce.
- (b) All six payments were coded to the correct fund and general ledger account.
- (c) Inspection of documentation supporting each of the six disbursements indicated approvals from one board member. Further, the types of disbursements made were included in the district's approved budget.

Meetings

9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:1-12 (the opening meetings law).

I inquired of management whether agendas for meetings were posted at the meeting place at least twenty-four hours prior to the meeting. Management stated that agendas were posted and a copy is retained with the minutes. From examination of these notices I determined that the date and time of posting is written on the notice to indicate compliance.

Debt

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

1 inspected copies of all deposit slips for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees which may constitute bonuses, advances, or gifts.

As stated in number 3 above, the district has no paid employees. A reading of the minutes of the board for of the year indicated no approval for the payments noted. I also inspected disbursements journals for of the year and noted no instances which would indicate payments to board members which would constitute bonuses, advances, or gifts.

I was not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, I do not express such an opinion. Had I performed additional procedures, other matters might have come to my attention that would have been reported to you.

This report is intended solely for the use of management of the District No. 6, Claiborne Parish Fire Department, Inc. and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. However, this report is a matter of public record and its distribution is not limited.
