TOWN OF VIENNA, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 1998

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Vienna was incorporated on April 15, 1876, by the Louisiana Legislature. The town operates under a Mayor - Town Council form of government.

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. In November of 1984, the GASB issued a codification of governmental accounting and financial reporting standards. This codification is recognized as generally accepted accounting principles for state and local government. The accounting and reporting policies of the Town of Vienna, Louisiana, conform to these generally accepted accounting principles and the requirements of Louisiana Revised Statutes 24:517 and to the guides set forth in the Louisiana Municipal Audit and Accounting Guide and to the industry audit guide, Audits of State and Local Governmental Units, published by the American Institute of Certified Public Accountants.

A. Reporting Entity

Based upon standards for defining and reporting on the financial reporting entity, the Town of Vienna is a primary government. Component units can be identified by financial accountability and whether exclusion would create misleading or incomplete financial statements. No component units of the Town of Vienna were identified.

B. Fund Accounting

The accounts of the Town of Vienna are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into two broad fund categories and two generic fund types. The following funds and group of accounts are used by the Town of Vienna:

Governmental Funds--

General Fund

The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

General Fixed Assets Account Group--

The General Fixed Assets Account Group is used to account for fixed assets used in governmental fund type operations for control purposes. All fixed assets are valued at

historical cost. No depreciation is recorded on general fixed assets. General fixed assets are recorded as expenditures in the governmental fund type when purchased.

C. Measurement Focus

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decrease (i.e., expenditures and other financing uses) in net current assets.

D. Basis of Accounting

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

The Town considers all governmental revenues as available if they are collected within 60 days after year end. Expenditures are recorded when the related fund liability is incurred. Purchase of various operating supplies are regarded as expenditures at the time purchased.

Those revenues susceptible to accrual are franchise taxes, tobacco taxes, and interest income. Royalties and rental income are not susceptible to accrual because generally they are not measurable until received in cash.

E. Budgetary Practices

The Town of Vienna, Louisiana, adopted an operating budget, on a basis consistent with generally accepted accounting principles, on its governmental fund type for the year ended April 30, 1998, as required by Louisiana law. There were no amendments made to the budget.

The budget for the General Fund is presented in the statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual. Appropriations lapse at year - end and must be reappropriated for the following year to be expended.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES(continued)

F. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

G. Cash and Investments

Under state law, the Town of Vienna may deposit funds in demand deposits, interest - bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana. At April 30, 1998, the Town of Vienna had cash on hand and interest - bearing demand deposits.

Under state law, the Town of Vienna may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are stated at cost. At April 30, 1998, the Town of Vienna had investments in certificates of deposit.

H. Vacation and Sick Leave

The Town of Vienna does not pay any salaries and there is no vacation or sick leave.

I. Fixed Assets

The accounting and reporting treatment applied to the fixed assets associated with a fund are determined by its measurement focus. Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group, and are recorded as expenditures in the governmental fund types when purchases.

The town has elected not to capitalize public domain ("infrastructure") fixed assets consisting of certain improvements. No depreciation has been provided on general fixed assets.

All fixed assets are stated at historical cost. Donated fixed assets are stated at their estimated fair value on the date donated.

J. Memorandum Only - Total Columns

Total columns on the general purpose financial statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE 2 - CASH AND CERTIFICATES OF DEPOSIT

The town maintains its cash accounts in Central Bank, which is insured by the Federal Deposit Insurance Corporation (FDIC). FDIC coverage is \$100,000 for all demand deposits and \$100,000 for all time deposits (time deposits are defined as any interest bearing account.) At April 30, 1998, the bank balance was \$69,541 and the carrying amount was \$67,263 on interest bearing accounts, which was all covered by FDIC insurance. Deposits are carried at cost which approximates market value. There were no non-interest bearing accounts at April 30, 1998.

Besides demand deposits and certificates of deposit, the Town has \$3,632 of cash on hand.

NOTE 3 - ACCOUNTS RECEIVABLE

Annual Sworn Financial Statements and
Certification of Revenues \$50,000 or Less

The annual sworn financial statements are required by Louisiana Revised Statute 24:514 to be filed with the Office of Legislative Auditor within 90 days after the close of the fiscal year. The certification of revenues \$50,000 or less, if applicable, is required by Louisiana Revised Statute 24:513 (1) (1) (c) (i).

Personally came and appeared before the undersigned authority, William R. Graham who duly sworn, deposes and says that the financial statements herewith given present fairly the financial position of the Town of Vienna as of April 30, 1998, and the results of operations for the year then ended, in accordance with the basis of accounting described within the accompanying financial statements.

In addition, William R. Graham, who, duly sworn, deposes and says that Town of Vienna received \$50,000 or less in revenues and other sources for the fiscal year ending April 30, 1998, and accordingly, is not required to have an audit for the previously mentioned fiscal year end.
