INDEPENDENT AUDITOR'S REPORT

To the Honorable Carroll P. Bourgeois, Mayor and Members of the Board of Aldermen Addis, Louisiana

I have audited the accompanying general purpose financial statements of the Town of Addis, Louisiana, as of and for the year ended December 31, 1998, as listed in the table of contents. These general purpose financial statements are the responsibility of the Town's management. My responsibility is to express an opinion on these general purpose financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluation the overall general purpose financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Addis, Louisiana as of December 31,1998, and the results of its operations and the cash flows of its proprietary fund types for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, I have also issued my report dated June 25, 1999, on my consideration of the Town of Addis, Louisiana's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grants.

My audit was performed for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The financial information listed as "Schedules" in the table of contents is presented for purposes of additional analysis and is not a required part of the general purpose financial statements of the Town of Addis, Louisiana. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in my opinion, is fairly stated in all material respects in relation to such statements taken as a whole.

The accompanying notes to the financial statements are an integral part of this statement.

Introduction

The Town of Addis was incorporated September 1915, under the provisions of Title 33, Chapter 2, Part 1, of the Louisiana Revised Statutes (Lawrason) Act - Act No. 36 of 1898). The "Town" operates under a Mayor - Council form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, sanitation, health and social services, culture-recreation, public improvements, planning and zoning and general administrative services.

1. Summary of Significant Accounting Policies

A. Basis of Presentation

The accompanying financial statements of the Town of Addis, Louisiana have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental funds. Generally accepted accounting principles for local governments include those principles. prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication Audits of State and Local Governmental Units and by the Financial Accounting Standards Board (where applicable).

B. Financial Reporting Entity

GASB Codification Section 2100, as amended by GASB Statement No. 14, established criteria for determining which component units should be considered part of the reporting entity. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes: (1) appointing a voting majority of an organization's governing body, and the ability of the reporting entity to impose its will on that organization's governing body, and/or the potential for the organization to provide specific financial benefits to or impose specific financial burdens to the reporting. entity; (2) organizations for which the reporting entity does not appoint a voting majority but are fiscally dependent on the reporting entity; and (3) organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because. of the nature or significance of the relationship.

For financial reporting purposes, in conformance with GASB Statement No. 14, the Town of Addis, includes all funds, account groups, and activities that are controlled by, or dependent on, the Town executive and legislative branches (Mayor and Board of Aldermen). Control by or dependence on the Town is determined on the basis of budget adoption, taxing authority, authority to issue debt, election or appointment of governing body, and other general oversight responsibility. The accompanying financial statements present only information on the funds maintained by the Town and do not present information on any other governmental entity.

C. Fund Accounting

The accounts of the Town of Addis are organized on the basis of funds and account groups, each of which is considered to be a separate accounting entity. The operations of each fund or account group are summarized by providing a separate set of self-balancing accounts which include assets, liabilities, fund equity, revenues and expenses or expenditures, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped in the financial statements in this report into two generic fund types under two broad fund categories as follows:

Governmental Funds Types:

General Fund - The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - Capital Projects Funds account for financial resources to be used for the acquisition or construction of major capital facilities which are not financed by Proprietary Funds.

1. Summary of Significant Accounting Policies (Continued)

C. Fund Accounting (Continued)

Proprietary Fund Types:

Enterprise Fund - Used to account for operations that are financed and operated in a manner similar to private business enterprises, where the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis are financed through user charges.

General Fixed Asset Group:

The General Fixed Asset Group is used to record the fixed assets used in governmental fund type operations.

D. Basis of Accounting

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current period, or soon enough thereafter to be used to pay liabilities of the current period. The Town considers sales taxes available when in the hands of the intermediary collecting governments and are recognized as revenues at that time. Expenditures are recorded when the related fund liability is incurred.

The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

E. Budget and Budgetary Accounting

The Town follows these procedures in establishing the budgetary data reflected in these financial statements:

- 1. The Mayor prepares a proposed budget and submits same to the Board of Aldermen prior to the beginning of each year.
- 2. The budget for the next fiscal year is adopted through passage of a resolution at the last council meeting of each fiscal year.
- 3. All budgetary appropriations lapse at the end of each fiscal year.
- Budgets for the General and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgeted amounts are as originally adopted, or as amended from time to time by the Board of Aldermen.
- 5. Expenditures may exceed budgeted amounts providing funds are available and subsequent to the board's approval.
- 6. Formal budgetary integration is employed as a management control device. Budgeted amounts included in the accompanying financial statements include the original adopted budget and all subsequent amendments. All budgetary appropriations lapse at the end of each fiscal year.

The Town of Addis Police Department does not adopt a budget for the Special Revenue Fund since the revenue derived from seized assets related to drug law enforcement is not predictable and therefore, does not lend itself to reasonable estimate.

The Town does not adopt a budget for the Capital Project Fund since budgetary control is maintained on an individual grant basis. Since the

grant period differs from the Town's fiscal year, a comparison of budgeting information for the Capital Projects Fund would not be meaningful and has not been presented in the accompanying financial statements.

1. Summary of Significant Accounting Policies (Continued)

F. Encumbrances

Encumbrance accounting is not employed by the Town of Addis.

G. Statement of Cash Flows

For purposes of the Statement of Cash Flows, the Enterprise Fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

H. Comparative Data

Comparative totals for the prior year have been presented in the accompanying combined financial statements in order to provide an understanding of changes in the City's financial position and operations. However, presentation of prior year totals by fund type has not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read.

Total columns on the statements are captioned Memorandum Only to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

I. Fixed Assets

The accounting and reporting treatment applied to fixed assets associated with a fund are determined by its measurement focus.

All governmental fund type operations are accounted for on a spending or "financial flow" measurement focus and only current assets and current liabilities are generally included on their balance sheets.

Fixed assets used in governmental fund type operations are accounted for in the General Fixed Assets Account Group, and are recorded as expenditures in the governmental fund types when purchased. The Town has elected to expense public domain ("infrastructure") fixed assets consisting of certain improvements other than buildings, including roads, bridges, curbs and gutters, streets and sidewalks, and drainage systems. Depreciation is not provided on general fixed assets.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus, and all assets and all liabilities (whether current or non-current) associated with their activity are included on their balance sheets.

The utility plant recorded in the Enterprise Fund represents the costs incurred for construction of the municipal sewer system. The utility plant and equipment are recorded at cost and depreciation is computed on the straight-line method over estimated useful lives of 8-50 years. Depreciation expense was recorded in the proprietary fund. Interest costs incurred during the construction phase is capitalized.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their estimated fair value on the date donated.

J. Compensated Absences

Employees of the Town earn vacation or sick leave at varying rates based upon length of service. All leave in noncumulative, therefore, no accrual has been made.

2. Cash and Cash Investments

Cash - State statutes require that all deposits in financial institutions be fully collateralized and that the market value of the deposit collateral have a market value of not less than the principal amount of the deposits. At December 31, 1998 the carrying amount of the Town's deposits, (including cash on hand of \$400), was \$353,125. The respective bank balance of the Town's deposits, including savings, money market funds and certificates of deposit shown below as cash investments at year end was \$713,670. Of the bank balances, \$467,145 was covered by federal depository insurance. The remainder was covered by collateral comprised of pledged securities having a market value of \$400,000 held by First National Bankers Bank in the name of Iberville Trust and Savings Bank (Uncollateralized - Category 3).

Investments - State statutes, and Town investment policies authorize the Town to invest in obligations of the U.S. Government and its agencies or instrumentalities, collateralized mortgage obligations directly issued by a federal agency or instrumentality and insured or collateralized certificates of deposit of state banks organized under the laws of Louisiana or national banks having their principal offices in the state of Louisiana. The General Fund holds the following investments:

| | Carrying _Amount | Market |
|-------------------------|---------------------|-----------|
| Cash Investments - | | |
| Money market & savings | \$ 79,102 | \$ 79,102 |
| Certificates of Deposit | 126,391 | 126,391 |

5. Contributed Capital

The following is a summary of capital contributed for construction of the Town's sewer system. This contributed capital is being amortized over a period of 43 years using the straight-line method.

| EPA | \$ 1,719,980 |
|-------------------------------------|--------------|
| LCD Block Grant | 628,806 |
| West Baton Rouge Parish Police Jury | 68,000 |
| State of Louisiana | 50,000 |
| West Baton Rouge Parish | 10,000 |
| 1994 LCD Block Grant | 332,452 |
| Municipality - General Fund | 211.692 |
| Total | 3,020,929 |
| Less: Accumulated Amortization | (413,984) |
| Net Contributed Capital | \$ 2,606,945 |
| | |
| | |

6. Sewer User Fees

Charges for sewer use are as follows:

\$10 plus \$1.50 per 1,000 gallons after 4,000 for residential \$20 plus \$1.50 per 1,000 gallons after 4,000 for non-residential

7. Pension Plan

Police employees of the Town of Addis are members of the state retirement system for municipal police employees, a cost sharing multiple-employer public employee retirement system. Benefit provisions are authorized within Act 189 of 1973 and amended by LRS 11:2211-11:2233. Any member is eligible for normal retirement after he has been a member of the System for 1 year, if he has 25 years of creditable service at any age or has 20 years of creditable service and is age 50 or has 12 years creditable service and is age 55. Benefits rates are 3 1/3% of average final compensation per number of years of creditable service no to exceed 100% of final salary. The plan also provides for disability benefits calculated a 3% of average final compensation multiplied by years of creditable service, but not less than forty percent nor more than sixty percent of average final compensation.

The payroll for employees covered by the System for the year ended June 30, 1998 was \$103,082, the Town's total payroll was \$285,362. The Town employs only five employees eligible for this plan. Covered employees are required by State statute to contribute 7.5% of their salary to the plan. The Town is required by the same statute to contribute the remaining amounts necessary to pay benefits when due. The contribution requirement for the year ended December 31, 1998 was \$16,984 which consisted of \$9,264 from the Town and \$7,720 from employees; these contributions represent 9% and 7.5% of covered payroll respectively.

The "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure, which is the actuarial present value of credited projected benefits, is intended to help users assess the System's funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among PERS and employers. The System does not make separate measurements of assets and the pension benefit obligation for individual employers. The pension benefit obligation at June 30, 1998 for the System as a whole, determined through an actuarial valuation performed as to that date was \$905,210,260. The System's net assets available for benefits on that date (valued at market) were \$1,018,384,354, leaving an unfunded (Assets in excess of) pension benefit obligation of (\$113,174,094). The Town's 1998 contribution represented .005 percent of total contributions required of all participating entities. Ten year historical trend information showing the System's progress in accumulation sufficient assets to pay benefits when due is presented in the System's June 30, 1998 comprehensive annual financial report.

8. Deferred Compensation Plan

The Town offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan, available to all permanent Town employees, permits them to defer until future years up to 25% of annual gross earnings not to exceed \$8,000. The Town contributes on behalf of its employees based upon employee contributions with a maximum match of 5%. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. All amounts of compensation deferred under the plan, and all income attributable to those amounts, are solely the property of the Town, subject only to the claims of the Town's general creditors. Participants' rights under the plan are equal to those of general creditors of the Town in an amount equal to the fair market value of the deferred account for each participant. Investments held by the deferred compensation fund are recorded at market value.

It is the opinion of Town management that the Town has no liability for losses under the plan but does have duty of care that would be required of an ordinary prudent investor.

9. Commitments and Contingencies

The Town of Addis receives Federal and State grants for specific purposes that are subject to review and audit by Federal and State agencies. Such audits could result in a request for reimbursement by the Federal and State for expenditures disallowed under the terms and conditions of the appropriate agency. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

On January 6, 1999, the Town of Addis entered into a construction contract with Construction Specialists, Inc. for asphalt road work. The total amount of the contract was \$201,070 and is to be financed through an LCDBG grant in the amount of \$217,182 which was awarded the Town on August 20, 1998. The project is expected to be completed in early 1999.

10. COPS FAST Grant

In June 1995, the Town received a three year grant from the Office of Community Oriented Policing Service (COPS) for the purpose of hiring additional police officers. In the first year, the grant pays 80% of the cost of additional police officer salaries and fringe benefits, in the second and third years it pays 76% and 70% respectively. An additional grant was awarded 1998. Amounts spent through December 31, 1998 are detailed as follows and are reported as current expenditures in the General Fund:

| | Total Expenditures | |
|--------------------------|-----------------------|--|
| Salaries | \$ 37,470 | |
| Fringe benefits - | | |
| Medicare/Social security | 828 | |
| Retirement | 3,316 | |
| Health insurance | 11,601 | |
| Workmans Comp insurance | 2,971 | |
| Total | \$ 56,186 | |
| Federal Share | 41,212 | |
| Local Share | \$ 14,974 | |
| | | |

11. Fund Balance Reserve

A reserve of the General Fund fund balance has been established for the interfund receivable from the Enterprise Fund of \$688,841. The amount of

the receivable represents general fund revenues expended for construction of the Town's Sewer System which was placed in service in 1992.

12. Related Party Transactions

Fire Protection Sub-District No. 1 of West Baton Rouge -

The Town entered into a lease agreement with the District for the lease of one 1995 Ford Truck. The only consideration is for the Town to carry the truck on the Town's fleet policy. The District is responsible for all costs related to the truck including payment of the insurance premium.

West Baton Rouge Parish Water Works District No. 1

A service agreement effective through December 31, 1998, was formed between the District and the Town to continue an on-going activity in which the District invoices and collects sewer fees from water customers living within the Town. The sewer rates are based on water usage, and customers may have their water service discontinued for non-payment of sewer fees. No compensation is paid to the District, but the Town accepts customer payments for water, sewer, and garbage charges on behalf of the District. The amount due from the District for customer sewer fees at December 31, 1998 was \$12,138.

10. Year 2000 Issues (Unaudited)

The Year 2000 Issue is the result of shortcomings in many electronic data processing systems and other electronic equipment that may adversely affect the government's operations as early as fiscal year 1999.

The Town has completed an inventory of computer systems and other electronic equipment that may be affected by the Year 2000 Issue and that are necessary to conducting the Town's operations. Based on this inventory, the Town is in the validation/testing stage in that hardware and software believed to be year 2000 compliant for the financial reporting systems has been purchased, installed and currently in use. Testing and validation of the systems will need to be completed.

Because of the unprecedented nature of the Year 2000 Issue, its effects and the success of related remediation efforts will not be fully determinable until the year 2000 and thereafter. Management cannot assure that the Town is or will be year 2000 ready, that the Town's testing and validation efforts will be successful in whole or in part, or that parties with whom the Town does business will be year 2000 ready.

.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Members of the Board of Aldermen Town of Addis, Louisiana

I have audited the general purpose financial statements of the Town of Addis, Louisiana, as of and for the year ended December 31, 1998, and have issued my report thereon dated June 25, 1999. I have conducted my audit in accordance with generally accepted auditing standards, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Town of Addis, Louisiana's general purpose financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the Town of Addis, Louisiana's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be a material weakness.

This report is intended for the information of the mayor and members of the Board of Aldermen of the Town of Addis, Louisiana and the State of Louisiana. However, this report is a matter of public record and its distribution is not limited.
