BOARD OF COMMISSIONERS COLUMBIA HEIGHTS SEWERAGE DISTRICT NO. 1 Columbia, Louisiana

I have compiled the accompanying general purpose financial statements and supplemental information schedules, as listed in the foregoing table of contents, of the Columbia Heights Sewerage District No. 1

as of December 31, 1998, and for the year then ended, in accordance with standards established by *Statements on Standards for Accounting and Review Services* issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements and schedules information that is the representation of management. I have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

In accordance with the Louisiana Governmental Audit Guide and the provisions of state law, I have issued a report dated April 30, 1999, on the results of my agreed-upon procedures.

## COLUMBIA HEIGHTS SEWERAGE DISTRICT NO. 1 Columbia, Louisiana

Notes to the Financial Statements As of and for the Year Ended December 31, 1998

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Columbia Heights Sewerage District No. 1 was created by the Caldwell Parish Police Jury as authorized by Louisiana Revised Statute 33:3881. The district is governed by a five member board appointed by the police jury. As provided by Louisiana Revised Statute 33:3887, the Columbia Heights Sewerage District No. 1 commissioners receive \$60 per meeting attended. The district is responsible for maintaining and operating a sewerage collection and disposal system within the boundaries of the district.

#### A. BASIS OF PRESENTATION

The accompanying general purpose financial statements of the Columbia Heights Sewerage District No. 1 have been prepared in conformity with generally accepted

accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for established governmental accounting and financial reporting principles.

#### **B. REPORTING ENTITY**

As the governing authority of the parish, for reporting purposes, the Caldwell Parish Police Jury is the financial reporting entity for Caldwell Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the Caldwell Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body,

and;

-10-

## COLUMBIA HEIGHTS SEWERAGE DISTRICT NO. 1 Columbia, Louisiana Notes to the financial statements (Continued)

- a. The ability of the police jury to impose its will on that organization and/or;
- b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
- 2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.
- 3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the police jury appoints the governing body of the district and has the ability to impose its will on the district, the district was determined to be a component unit of the Caldwell Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the district and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

### C. FUND ACCOUNTING

The district uses funds and account groups to report on its financial position and the results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities (general fixed assets and general long-term debt) that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories; governmental, proprietary, and fiduciary.

#### Each category, in turn, is divided into separate fund types. The fund classifications and

See accountant's compilation report.

-11-

## COLUMBIA HEIGHTS SEWERAGE DISTRICT NO. 1 Columbia, Louisiana Notes to the financial statements (Continued)

a description of each existing fund type follows:

#### **Governmental Funds**

Governmental funds are used to account for all or most of the district's general activities, including the collection and disbursement of legally restricted monies and the servicing of general long-term debt. Governmental funds of the district include:

#### **Debt Service Fund**

The debt service fund accounts for the collection of ad valorem tax revenue levied to pay principal and interest on general obligation bonds issued for the purpose of constructing the sewerage system.

#### **Proprietary Funds**

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Proprietary funds differ from governmental funds in that their focus is on income measurement, which, together with the maintenance of equity, is an important financial indicator. Proprietary funds include:

#### **Enterprise Fund**

The enterprise fund is used to account for operations of the district, where the intent of the governing body is that the cost (expenses, including depreciation) of providing services to customers in the district on a continuing basis be financed or recovered primarily through user charges.

## D. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current

# financial resources measurement focus. With this measurement focus, only current assets

See accountant's compilation report.

-12-

Columbia, Louisiana Notes to the financial statements (Continued)

and current liabilities generally are included on the balance sheet. Operating statements for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for reporting the debt service governmental fund type. The district uses the following practices in recording revenues and expenditures of the debt service fund:

#### Revenues

Ad valorem taxes and the related state revenue sharing are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed on a calendar year basis and attach as an enforceable lien and become due and payable on the date the tax rolls are filed with the recorder of mortgages. Louisiana Revised Statute 47:1993 requires that the tax roll be filed on or before November 15 of each year. Ad valorem taxes become delinquent if not paid by December 31. The taxes are normally collected in December of the current year and January and February of the ensuing year.

Interest on demand deposits is recognized when it has been earned and credited to the fund's account.

Interest on time deposits is recognized when it has been earned.

#### Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized when due.

The Enterprise Fund is accounted for on a flow of economic resources measurement focus and a determination of net income and capital maintenance. With this measurement focus, all assets and liabilities associated with the operation of this fund are included on the balance sheet. The Enterprise Fund uses the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Sewer service fees and tap fees are recognized in the period they are

## collected by the Columbia Heights Water District, which is the collecting agency for the

-13-

#### COLUMBIA HEIGHTS SEWERAGE DISTRICT NO. 1 Columbia, Louisiana Notes to the financial statements (Continued)

district. Salaries and other expenses are recognized when incurred.

#### E. RESTRICTED ASSETS

Certain resources of the Enterprise Fund set aside for the repayment of revenue bonds are classified as restricted assets on the balance sheet because their use is limited.

#### F. CASH

Cash includes amounts in demand deposits and interest-bearing demand deposits. Under state law, the district may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with banks organized under the laws of the State of Louisiana and the laws of any other state in the union, or the laws of the United States.

#### G. INVESTMENTS

Investments are limited by Louisiana Revised Statute (R.S.) 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents. At December 31, 1998, the district's investments consist of nonnegotiable certificates of deposits with original maturities that exceed 90 days that are reported in the accompanying financial statements at cost. The bank balances of the deposits are fully secured from risk by federal deposit insurance.

#### H. FIXED ASSETS

Fixed assets of the district are included on the balance sheet of the enterprise fund and are recorded at actual cost. Fixed assets reported on the balance sheet are net of accumulated depreciation. Depreciation of all exhaustible fixed assets is charged as an expense against operations. Depreciation is computed using the straight-line method over estimated useful lives of 40 years for the sewerage system, 10 to 39.5 years for buildings and 5 to 10 years for equipment.

-14-

See accountant's compilation report.

## COLUMBIA HEIGHTS SEWERAGE DISTRICT NO. 1 Columbia, Louisiana Notes to the financial statements (Continued)

#### LONG-TERM OBLIGATIONS 1.

General obligation bonds financed from governmental funds by ad valorem taxes assessed against property owners in the district are reported in the general long-term obligations account group. Expenditures for principal and interest payments for long-term obligations are recognized in the governmental funds when due. Revenue bonds financed from Enterprise Fund operations are accounted for in the Enterprise Fund.

#### **CONTRIBUTED CAPITAL** J.

Contributed capital is recorded in proprietary funds that have received capital grants or contributions when such resources are restricted for the acquisition or construction of capital assets. Contributed capital is not amortized based on the depreciation recognized on that portion of the assets acquired from such resources.

#### TOTAL COLUMN ON THE К. **COMBINED BALANCE SHEET**

The total column on the combined balance sheet is captioned Memorandum Only to indicate that it is presented only to facilitate financial analysis (overview). Data in this column does not present financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

#### 2. CASH

At December 31, 1998, the district has cash (book balances) totaling \$53,634 (net of bank overdraft of \$5,481) as follows:

Demand deposits:	
Non-interest bearing	(\$5,481)
Interest-bearing	59,115
Total	<u>\$53,634</u>

or the resulting bank balances, must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. Cash (bank balances) at December 31, 1998, are \$118,861, and are fully secured from risk by federal deposit insurance.

## 3. LEVIED TAXES

For the year ended December 31, 1998, taxes of 7.00 mills were levied on property with assessed valuations totaling approximately \$3,610,665 and were dedicated as follows:

#### **RESERVED RETAINED EARNINGS** 6.

The bond covenant for the 1979 sewer revenue bonds discussed in note 5 above, requires the district to establish the following reserve accounts:

- A "Sewer Reserve Fund". The district must transfer into this fund each month an Α. amount equal to 5 percent of the monthly sinking fund payment until a total of \$19,950 is accumulated. Such amounts may be used only for the payment of maturing bonds and interest coupons for which sufficient monthly sinking fund payments have not been made.
- A "Sewer and Depreciation Contingency Fund". The district must transfer \$103 **B**. into this fund each month. Money in this fund may be used for the purpose of paying the cost of extraordinary repairs or replacements which are necessary to keep the system in operating condition and for which money is not available in the maintenance and operation fund. Money in this fund may also be used to pay principal and interest on the bonds at any time there is not sufficient funds in the other bond funds.

The bond covenant for the 1993 sewer revenue bonds discussed in note 5 above, requires the district to establish the following reserve accounts:

- A "Sinking Fund". The district must transfer into this fund each month, one-Α. twelfth of the principal and interest falling due on the next payment date. Such transfers will be fully sufficient to assure the prompt payment of principal and interest installments as they become due and may be used only for such payments.
- A "Reserve Fund". The district must transfer into this fund \$58 each month until В.

#### a total of \$13,871 has been accumulated. Such amounts may be used only for the

payment of maturing bonds and interest coupons for which sufficient funds are not on deposit in the Sinking Fund and as to which there would otherwise be default.

C. A "Contingency Fund". The district must transfer into this fund \$55 each month. Money in this fund may be used for the purpose of paying the cost of extraordinary repairs or replacements which are necessary to keep the system in operating condition and for which money is not available in the maintenance and operation fund. Money in this fund may also be used to pay principal and interest on the bonds at any time there is not sufficient funds in the other bond funds.

At December 31, 1998, the district has set aside \$55,855 to meet the reserve requirements. Of that amount, \$15,844 is offset by accrued interest payable and the current portion of long-term debt, with the remaining \$40,011, reported as a reserve of retained earnings on Statement A.

#### 7. LITIGATION AND CLAIMS

The district is not involved in any litigation at December 31, 1998, nor is it aware of any unasserted claims. The district maintains insurance coverage to reduce the risk of loss resulting from property damage or liability claims.

#### 8. YEAR 2000 ISSUE

•

The Year 2000 Issue is the result of shortcomings in many electronic data-processing systems and other equipment that may adversely affect the district's operations in the year 1999 and beyond. As of December 31, 1998, the district has conducted a review of its computer systems to identify the systems that could be affected by the Year 2000 Issue and expects its Year 2000 compliance plan to be completed on a timely basis. However, there is no assurance that the systems of other governmental agencies or companies on which the district relies will be timely converted or that any such failure to convert by a governmental agency or other company would not have an adverse effect on the district's operations.

Independent Accountant's Report On Applying Agreed-Upon Procedures

BOARD OF COMMISSIONERS COLUMBIA HEIGHTS SEWERAGE DISTRICT NO. 1 Columbia, Louisiana

I have performed the procedures included in the Louisiana Governmental Audit Guide and enumerated below, which were agreed to by the management of the Columbia Heights Sewerage District No. 1 and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about Columbia Heights Sewerage District No. 1's compliance with certain laws and regulations during the year ended December 31, 1998, included in the accompanying Louisiana Attestation Questionnaire. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, I make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

## **Public Bid Law**

1. Select all expenditures made during the year for materials and supplies exceeding \$15,000, or public works exceeding \$100,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2251 (the public bid law).

A review was made of all disbursements for the year. There were no disbursements for materials and supplies exceeding \$15,000 nor disbursements for public works exceeding \$100,000, made during the year.

## **Code of Ethics for Public Officials and Public Employees**

2. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics), and a list of outside business interests of

#### all board members and employees, as well as their immediate families.

Management provided me with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period under examination.

Management provided me with the required list.

4. Determine whether any of the employees included in the listing obtained from management in procedure number 3 above were also included in the listing obtained from management in procedure number 2 above as immediate family members.

One of the employees included on the list of employees provided by management in agreed-upon procedure (3) was also included on the listing obtained from management in agreed-upon

procedure (2) as an immediate family member. However, the employee was hired by the district prior to 1980.

# Budgeting

5. Obtain a copy of the legally adopted budget and all amendments.

The district is not legally required to adopt a budget and no budget was adopted.

6. Trace the budget adoption and amendments to the minute book.

See procedure #5.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues or expenditures exceed budgeted amounts by 5% or more.

See procedure #5.

## Accounting and Reporting

- 8. Randomly select 6 disbursements made during the period under examination and;
  - (a) trace payments to supporting documentation as to correct amount and payee;

#### I examined supporting documentation for each of the six selected disbursements and found

that the payment was for the proper amount and made to the correct payee.

- (b) determine if payments were properly coded to the correct fund and general ledger account;
   The six selected payments were properly coded to the correct fund and general ledger account.
- (c) determine whether payments received approval from proper authorities.

Inspection of documentation supporting each of the six selected disbursements indicated approval from the proper authorities.

## Meetings

9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:1-12 (the opening meetings law).

The district publishes a notice of each meeting in its official journal at least 24 hours prior to the meeting.

### Debt

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

I inspected copies of all deposit slips for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

#### **Advances and Bonuses**

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees which may constitute bonuses, advances, or gifts.

A reading of the minutes of the board meetings and an examination of payroll records indicated no payments which may constitute bonuses, advances, or gifts.

Board of Commissioners
Columbia Heights Sewerage District No. 1
Independent Accountant's Report on
Applying Agreed-Upon Procedures
December 31, 1998

The accompanying schedule of prior year findings provides details on the actions taken by management with regards to the findings reported in my report dated May 29, 1998.

I was not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, I do not express such an opinion. Had I performed additional procedures, other matters might have come to my attention that would have been reported to you.

This report is intended solely for the use of management of the Columbia Heights Sewerage District No. 1 and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. However, this report is a matter of public record and its distribution is not limited.
