BOARD OF COMMISSIONERS CADDO PARISH FIRE DISTRICT NO. 2 Blanchard, Louisiana

I have audited the general purpose financial statements of Caddo Parish Fire District No. 2, a component unit of the Caddo Parish Commission, as of October 31, 1999, and for the year then ended, as listed in the table of contents. These financial statements are the responsibility of Caddo Parish Fire District No. 2's management. My responsibility is to express an opinion on these general purpose financial statements based on my audit.

Independent Auditor's Report

GOVERNMENTAL

PRACTICE LIMITED TO

ACCOUNTING, AUDITING

I conducted my audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

116 FROFESSIONAL DRIVE, WEST MONROE, LOUISIANA 71291 PHONE 318.325.2121 TOLL FREE LOUISIANA 1.800.541.5020 FAX 318.324.1630

In my opinion, the general purpose financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Caddo Parish Fire District No. 2 as of October 31, 1999, and the results of operations for the year then ended in conformity with generally accepted accounting principles.

BOARD OF COMMISSIONERS
CADDO PARISH FIRE DISTRICT NO. 2
Blanchard, Louisiana
Independent Auditor's Report, October 31, 1999

In accordance with *Government Auditing Standards*, I have also issued a report dated April 7, 2000, on Caddo Parish Fire District No. 2's compliance with laws, regulations, and contracts, and my consideration of the agency's internal control over financial reporting. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of my audit.

CADDO PARISH FIRE DISTRICT NO. 2 Blanchard, Louisiana

Notes to the Financial Statements As of and for the Year Ended October 31, 1999

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Caddo Parish Fire District No. 2 was created by the Caddo Parish Commission, as authorized by Louisiana Revised Statute 40:1492. The district is governed by a five member board appointed by the commission. The district is responsible for maintaining and operating fire stations and equipment and providing fire protection within the boundaries of the district.

A. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the Caddo Parish Commission is the financial reporting entity for Caddo Parish. The financial reporting entity consists of (a) the primary government (commission), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the Caddo Parish Commission for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial responsibility. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

- 1. Appointing a voting majority of an organization's governing body, and:
 - a. The ability of the commission to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the commission.

2. Organizations for which the commission does not appoint a voting majority but are fiscally dependent on the commission.

-7-

3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the commission created the district and appoints a voting majority of the district's governing body, the district was determined to be a component unit of the Caddo Parish Commission, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the district and do not present information on the commission, the general government services provided by that governmental unit, or the other governmental units that comprise the Caddo Parish financial reporting entity.

B. FUND ACCOUNTING

The district uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts that comprises its assets, liabilities, fund equity, revenues, and expenditures. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities (general fixed assets and general long-term obligations) that are not recorded in the "funds" because they do not directly affect net expendable available financial resources. They are concerned only with the measurement of financial position, not with the measurement of results of operations.

Funds are classified into three categories; governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types." Governmental funds are used to account for a government's general activities, when the focus of attention is on the providing of services to the public as opposed to proprietary funds when the focus of attention is on recovering the cost of providing services to the public or other agencies through service charges or user fees. Fiduciary funds are used to account for assets held for others. The district's current operations require the use of only governmental fund types. The governmental fund types of the district are described as follows:

-8-

CADDO PARISH FIRE DISTRICT NO. 2

Blanchard, Louisiana Notes to the Financial Statements (Continued)

General Fund

The General Fund is the general operating fund of the district and is used to account for all financial activities not required to be accounted for in other funds. Primary funding is provided by an ad valorem tax and service charge approved by voters of the district, state fire insurance rebates, state revenue sharing, and interest earnings on investments.

C. FIXED ASSETS AND LONG-TERM DEBT

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the general fixed assets account group, rather than in the General Fund. Fixed assets are valued at actual historical costs. No depreciation has been provided on

general fixed assets.

D. BASIS OF ACCOUNTING

The financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for reporting all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The district uses the following practices in recognizing and reporting revenues and expenditures:

Revenues

Ad valorem taxes, service charges, and the related state revenue

sharing are recorded in the year the taxes are due and payable. Ad valorem taxes and the service charges are assessed on a calendar year basis and attach as an enforceable lien and become due and payable on the date the

-9-

CADDO PARISH FIRE DISTRICT NO. 2

Blanchard, Louisiana Notes to the Financial Statements (Continued)

> tax rolls are filed with the recorder of mortgages. Louisiana Revised Statute 47:1993 requires that the tax roll be filed on or before November 15 of each year. Ad valorem taxes become delinquent if not paid by December 31. The taxes are normally collected in December, January, and February of the fiscal year.

Intergovernmental revenues such as fire insurance rebates are recorded when the district is entitled to the funds.

Interest income on demand and time deposits are recorded when the interest has been earned and the amount is determinable.

Based on the above criteria, ad valorem taxes, service charges, state revenue sharing, and other intergovernmental revenues have been treated

as susceptible to accrual.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

E. BUDGET PRACTICES

A preliminary budget for the ensuing year is prepared by the board of commissioners in September and made available to the public. The budget is then adopted during the regular October meeting. The proposed budget for the General Fund is prepared on the modified accrual basis of accounting. The budget is established and controlled by the board of commissioners at the object level of expenditure. Appropriations lapse at year-end and must be reappropriated for the following year to be expended. All changes in the budget must be approved by the board of commissioners.

Formal budgetary integration is employed as a management control device during the year. Budgeted amounts included in the accompanying financial statements include the original adopted budget amounts and all subsequent amendments.

F. CASH AND CASH EQUIVALENTS

Under state law, the district may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The district may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

At October 31, 1999, the district has cash and cash equivalents (book balances) totaling \$159,776 as follows:

Demand deposits	\$124,409
Petty Cash	50
Time deposits	35,317

Total

These deposits are stated at cost, which approximates market. Under state law, these deposits, or the resulting bank balances, must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Cash and cash equivalents (bank balances) at October 31, 1999, are secured as follows:

Bank balances	<u>\$162,371</u>
Federal deposit insurance Pledged securities	\$135,314 147,370
Total	<u></u>

Because the pledged securities are held by a custodial bank in the name of the fiscal agent bank rather than in the name of the district, they are considered uncollateralized (Category 3) under the provisions of GASB Codification C20.106; however, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the district that the fiscal agent has failed to pay deposited funds upon demand. Further, LRS 39:1224 states that

securities held by a third party shall be deemed to be held in the fire district's name.

-11-

G. RISK MANAGEMENT

The fire district is exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and injuries to employees. To handle such risk of loss, the fire district maintains commercial insurance policies covering property, general liability, employee dishonesty, and workers compensation insurance. No claims were paid on any of the policies during the past three years which exceeded the policies' coverage amounts. There were no significant reductions in insurance coverage during the year ended October 31, 1999.

H. TOTAL COLUMN ON COMBINED STATEMENTS

The total columns on the combined statements are captioned Memorandum Only (overview) to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

2. LEVIED TAXES

The following is a summary of authorized and levied ad valorem taxes:

	Authorized	Levied	Expiration	
	_ Millage	Millage	Date	
District taxes - general maintenance	9.68	9.68	2003	

In November 1993, the voters of the district approved the levy of an annual service charge not to exceed \$75 on each residential dwelling and commercial structure subject to taxation within the district for a period of ten years beginning with the year 1994 and ending with the year 2003. The proceeds of the service charge, less a 7.5 percent collection fee paid to the Caddo Parish Sheriff, are used to provide fire protection within the district.

-12-

3. CHANGES IN GENERAL FIXED ASSETS

The following presents the changes in general fixed assets for the year ended October 31, 1999:

	Balance at November 1, 1998	Additions	Deletions	Balance at October 31, 1999
Building	\$24,000			\$24,000
Fire fighting equipment	609,656	\$3,720	NONE	613,376
Total	<u>\$633,656</u>	\$3,720	NONE	\$637,376

4. PENSION PLAN

The district's two compensated employees are members of the Firefighters Retirement System (System), a cost-sharing, multi-employer defined pension plan administered by a separate board of trustees.

Membership in the Louisiana Firefighters Retirement System is mandatory for all full-time firefighters employed by a municipality, parish, or fire protection district that did not enact an ordinance prior to January 1, 1980, exempting itself from participation in the System. Employees are eligible to retire at or after age 55 with at least 12 years of creditable service or at or after age 50 with at least 20 years of creditable service. Upon retirement, members are entitled to a retirement benefit, payable monthly for life, equal to 3.3 per cent of their final-average salary for each year of creditable service not to exceed 100 per cent of their final-average salary. Final-average salary is the employee's average salary for the 36 consecutive months or joined months which produce the highest average. Employees who terminate with at least 12 years of service, and who do not withdraw their employee contributions, may retire at or after age 55 (or at or after age 50 with at least 20 years of creditable service at termination) and receive the benefit accrued to their date of termination. The system also provides death and disability benefits. Benefits are established by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Firefighters' Retirement System, Post Office Box 94095, Baton Rouge, Louisiana 70804, or by calling (504) 925-4060.

Plan members are required by state statute to contribute 8.0 percent of their annual covered salary and the Caddo Parish Fire District No. 2 is required to contribute at an actuarially determined rate. The current rate is 9.0 percent of annual covered payroll. The contribution requirements of plan members

-13-

CADDO PARISH FIRE DISTRICT NO. 2

Blanchard, Louisiana Notes to the Financial Statements (Continued)

and the Caddo Parish Fire District No. 2 are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. Caddo Parish Fire District No. 2's contributions to the System for the years ending October 31, 1999, 1998, and 1997, were \$2,792, \$5,005, and \$5,883, respectively, equal to the required contributions for each year.

5. LITIGATION AND CLAIMS

The district is not involved in any litigation at October 31, 1999, nor is it aware of any unasserted claims.

PRACTICE LIMITED TO

Independent Auditor's Report on Compliance and Internal Control Over Financial Reporting

CADDO PARISH FIRE DISTRICT NO. 2 Blanchard, Louisiana

I have audited the general purpose financial statements of Caddo Parish Fire District No. 2 as of and for the year ended October 31, 1999 and have issued my report thereon dated April 7, 2000. I conducted my audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

GOVERNMENTAL

ACCOUNTING, AUDITING

AND FINANCIAL REPORTING

Compliance

As part of obtaining reasonable assurance about whether Caddo Parish Fire District No. 2's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations and contracts, noncompliance with which could have a direct and material effect on the determination of financial amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Caddo Parish Fire District No. 2's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the internal control over financial reporting and its operation that I consider to be
