## INDEPENDENT AUDITORS' REPORT

To the Board of Directors  
The ASSIST Agency, Incorporated  
Crowley, Louisiana

We have audited the accompanying statement of financial position of The ASSIST Agency, Incorporated (a nonprofit organization) as of December 31, 1998, and the related statements of activities and cash flows for the year then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As explained in note 10 to the financial statements, The ASSIST Agency's ownership interest in two partnerships is not recorded in the financial statements. In our opinion, generally accepted accounting principles require that such investments be recorded using the equity method of accounting for investments. Information was not available to determine the effects of the unrecorded investments on the financial statements.

In our opinion, except for the effects of not recording investments, as discussed in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of The ASSIST Agency, Incorporated as of December 31, 1998, and the changes in its net assets and its cash flows for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, We have also issued our report dated June 3, 1999, on our consideration of The ASSIST Agency, Incorporated's internal control over financial reporting and our tests of its compliance with certain provisions of law, regulations, contracts, and grants.

Our audit was performed for the purpose of forming an opinion on the basic financial statements of The ASSIST Agency, Incorporated taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations," and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Nature of Activities:

The ASSIST Agency, Incorporated (formally Acadia-Vermilion Community Action Program, Incorporated) is a nonprofit organization chartered by the State of Louisiana on March 15, 1976. The corporation is recognized by the Internal Revenue Service (IRS) as a tax-exempt organization under 501 (c) (3) of the Internal Revenue code. The primary function of the Agency is to provide services to low-income, handicapped and homeless individuals. Such services include: weatherization assistance, emergency food and shelter, food distribution, low-income housing assistance, energy assistance and other related social services. The Board of Directors govern its operation. Board members receive no compensation for their services.

Basis of Accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles, and accordingly, reflect all significant receivables, payables, and other liabilities, except as indicated in Note 10.

Support and Revenue:

The Agency receives its grants and contract support primarily from the U. S. Department of Health and Human Services, passed through the State of Louisiana, Department of Social Services, Office of Community Services and State of Louisiana, Department of Employment and Training (see Note 2 - Summary of Grants/Contracts Funding). Support received from those grants and contracts is recognized either on a pro-rata basis over a twelve month period, which represents the service period for certain contracts, or to the extent of expenses. Revenue recognition depends on the contract. Other revenue and interest income are recognized when earned.

Fixed Assets:

Fixed assets acquired by the Agency are considered to be owned by the Agency. However, State funding sources may maintain equitable interest in the property purchased with grant monies, as well as the right to determine the use of any proceeds from the sale of these assets. The State has a reversionary interest in those assets purchased with its funds which have a cost of \$500 or more and an estimated useful life of at least two years. Fixed assets in the amount of \$22,514 represents the total amount of assets purchased with state funding sources.

The remaining fixed assets of \$65,646 represents assets purchased directly by the Agency with funds generated by the Agency, other than state or federal funding sources. The Agency has elected not to depreciate fixed assets over the estimated useful life of the asset.

Functional Allocation of Expenses:

The costs of providing the various programs and other activities has been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Beginning in 1997 and continuing through the year ended December 31, 1998, the Agency participated in the HUD 203(k) housing renovation program established for the purpose of providing affordable home ownership to eligible individuals. The program requires that the Agency locate property at a reasonable price and submit a proposal which budgets the original acquisition, as well as estimated costs for renovations. The Agency is to locate eligible home owners and arrange for a lease purchase.

The Agency had one property in inventory with an original purchase price of \$35,000, \$28,000 for the structure and \$7,000 for the land. The Agency estimated renovation to amount to \$21,700. Financing was arranged in the amount of \$56,700. Total renovations exceeded estimated amounts by \$12,691 of which the Agency could not finance and was required to pay cash up front. The total cost of the home amounted to \$69,391 and is reflected as inventory in the financial statements at that cost.

During 1998 the Agency entered into a lease agreement, which contained an intent to purchase clause, with an eligible buyer. The purchase agreement was contingent on the individual obtaining financing. At year end the individual had not obtained financing and the month to month lease was left in place.

**B. FINDINGS - FINANCIAL STATEMENT AUDIT**

**REPORTABLE CONDITIONS**

1. Investments in Limited Partnerships

*Condition:* The ASSIST Agency entered into two partnership arrangements, as a managing general partner in each partnership. The partnerships each own a housing facility, designated specifically for low-income individuals. The partnership agreements establish the Agency as a 25% owner in each property. The Agency has not established any accounting policies and procedures to record and maintain the asset, investment in partnerships.

*Criteria:* Accounting policies and procedures should be in place to insure the appropriate recording of assets in the financial statements.

*Effect:* The Agency has ownership in an asset that the value has not been determined and is not reflected in the financial statements.

*Recommendation:* Procedures should be established to insure the appropriate accounting of investments.

*Response:* We concur with the recommendation. Such a procedure will be implemented immediately.

Continued

## 2. Cash Disbursements

*Condition:* The Agency lacks appropriate internal control over cash disbursements. Currently, one person has authority to approve cash disbursements, issue payment, has control over signature stamps, and reconciles the bank statements.

*Criteria:* Internal controls should be in place to provide for safeguarding of assets, specifically, segregation of responsibilities.

*Effect:* Because one individual has too much control, assets are at risk of being misappropriated.

*Recommendation:* Procedures should be established to segregate accounting duties to insure the appropriate safeguarding of assets.

*Response:* We concur with the recommendation. Such a procedure will be implemented immediately.

## C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

### U. S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

1. Community Service Block Grant Program – CFDA 93.569 – Grant No. CFMS515105 – Grant Period: 01/01/98 through 12/31/98.

LIHEAP Energy Assistance Grant Program – CFDA 93.568 – Grant No. CFMS514706 – Grant Period 01/01/98 through 12/31/98.

Weatherization Assistance for Low-Income Persons Grant Program – CFDA 93.568 – Grant No. CFMS515912 – Grant Period 04/01/98 through 03/31/99.

*Reportable Condition:* As discussed in B2, one individual has excessive accounting control of the cash disbursement function. Because of the lack of adequate control over the cash disbursement function, expenditures of federal awards could be inappropriately disbursed without the approval or knowledge of management. Procedures should be implemented requiring appropriate segregation of accounting responsibilities.

## REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of  
The ASSIST Agency, Inc.

We have audited the financial statements of The ASSIST Agency, Inc. (A nonprofit organization) as of and for the year ended December 31, 1998, and have issued our report thereon dated June 3, 1999. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### Compliance

As part of obtaining reasonable assurance about whether The ASSIST Agency's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance that are required to be reported under *Government Audit Standards* and which are described in the accompanying schedule of findings and questioned costs as items B1 and B2.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered The ASSIST Agency's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgement, could adversely affect The ASSIST Agency's ability to record, process, summarize, and report financial data consistently with the assertions of management in the financial statements. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items B1 and B2.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, we consider both findings to be material weaknesses.

This report is intended for the information of the audit committee, management, and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited.

## REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Directors of  
The ASSIST Agency, Inc.

### Compliance

We have audited the compliance of The ASSIST Agency, Inc. (a nonprofit organization) with the types of compliance requirements described in the "U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement" that are applicable to each of its major federal programs for the year ended December 31, 1998. The ASSIST Agency's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of The ASSIST Agency's management. Our responsibility is to express an opinion on The ASSIST Agency's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations." Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about The ASSIST Agency's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of The ASSIST Agency's compliance with those requirements.

In our opinion, The ASSIST Agency, Inc. complied, in all material respects, with the requirement referred to above that are applicable to each of its major federal programs for the year ended December 31, 1998. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item C1.

### Internal Control Over Compliance

The management of The ASSIST Agency, Inc. is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered The ASSIST Agency's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operations that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect The ASSIST Agency's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as item C1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable condition described above, we consider it to be a material weakness.

This report is intended for the information of the audit committee, management, and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited.

*Condition:* The Agency lacks appropriate internal control over cash disbursements. Currently, one person has authority to approve cash disbursements, issue payment, has control over signature stamps, and reconciles the bank statement.

*Recommendation:* It was recommended that procedures be established to segregate accounting duties to insure the appropriate safeguarding of assets.

*Current Status:* Similar findings were noted in the 1998 audit, as the recommended policies and procedures were implemented at the conclusion of the audit for the previous year. The annual audit for the year 1997 was concluded in October of 1998.
