LAFOURCHE PARISH SEWERAGE DISTRICT NO. 1 <u>LAFOURCHE</u> PARISH POLICE JURY <u>THIBODAUX</u>, Louisiana

Notes to the Financial Statements As of and for the Year Ended <u>DECEMBER</u>, 31, 2003

## INTRODUCTION

[Include specific information about the district, such as:

- How the district was created, including making reference to the specific Louisiana Revised Statutes, if applicable.
- 2. The purpose of the district.
- 3. Number of board members, how appointed, and whether they are compensated.
- 4. Geographic location and size of the district.
- 5. The population of the district or the number of people served.
- 6. Number of employees or an explanation if there are no employees.
- 7. Quantitative information about the district's operations (number of and type of facilities maintained, approximate number of miles of sewerage lines, water lines, etc.).]

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## A. BASIS OF PRESENTATION

The accompanying general purpose financial statements of the <u>LAFOURCHE</u> Parish <u>SEWERAGE</u> District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

#### REV. 9/98

• • • •

## **B. REPORTING ENTITY**

The district is a component unit of the <u>LAFOURCHE</u> Parish Police Jury, the financial reporting entity. The police jury is financially accountable for the district because it appoints a voting majority of the board and has the ability to impose its will on them.

The accompanying financial statements present information only on the funds maintained by the district and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

## C. FUND ACCOUNTING

NO. 1

The <u>LAFOURCHE</u> Parish <u>SEWERAGE</u> District is organized and operated on a fund basis whereby a self-balancing set of accounts (Enterprise Fund) is maintained that comprises its assets, liabilities, fund equity, revenues, and expenses. The operations are financed and operated in a manner similar to a private business enterprise, where the intent of the governing body is that the cost (expenses, including depreciation) of providing services on a continuing basis be financed or recovered primarily through user charges.

#### D. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Enterprise Fund is accounted for on a flow of economic resources measurement focus and a determination of net income and capital maintenance. With this measurement focus, all assets and all liabilities associated with the operation of this fund is included on the balance sheet. The Enterprise Fund uses the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. The Enterprise Fund uses the following practices in recording certain revenues and expenses:

#### Revenues

(This space should be used to describe when various revenues are reported. <u>Specifically, ad valorem taxes</u> [if ad valorem taxes are received, the details of the property tax calendar, including lien dates, levy dates, due dates, and collection dates must be included], <u>fees for services, grants, and any other material revenues should be described.</u>)

8

#### Expenses

(This space should be used to describe when various expenses are reported. Specifically, salaries and major expenses should be described.)

## E. CASH AND CASH EQUIVALENTS

Cash includes amounts in demand deposits, interest-bearing demand deposits, and time deposits. [Include the district's established policy concerning which short-term, highly liquid investments it will treat as cash equivalents. For example, cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less.] Under state law, the district may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

## F. INVESTMENTS

Investments are limited by Louisiana Revised Statute (R.S.) 33:2955 and the district's investment policy. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents.

[GASB Statement No. 31 requires the following disclosures:

- 1. The methods and significant assumptions used to estimate the fair value of investments, if that fair value is based on other than quoted market prices.
- The policy for determining which investments, if any, are reported at amortized cost.
- 3. For any investments in external investment pools that are not SECregistered, a brief description of any regulatory oversight for the pool and whether the fair value of the position in the pool is the same as the value of the pool shares.
- 4. Any involuntary participation in an external investment pool.
- 5. If an entity cannot obtain information from a pool sponsor to allow it to determine the fair value of its investment in the pool, the methods used and significant assumptions made in determining that fair value and the reasons for having had to make such an estimate.

9

> Any income from investments associated with one fund that is assigned to another fund.

GASB Statement No. 31 requires the district to report investments at fair value in the balance sheet, except as follows:

- 1. Investments in *nonparticipating* interest-earning contracts, such as nonnegotiable certificates of deposit with redemption terms that do not consider market rates, should be reported using a cost-based measure, provided that the fair value of those contracts is not significantly affected by the impairment of the credit standing of the issuer or other factors.
- 2. The district may report at amortized cost money market investments and participating interest-earning investment contracts that have a remaining maturity at time of purchase of one year or less, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer or by other factors. Money market investments are short-term, highly liquid debt instruments that include U.S. Treasury obligations. Interest-earning investment contracts include time deposits with financial institutions (such as certificates of deposit), repurchase agreements, and guaranteed investment contracts.

You should refer to GASB Statement No. 31 for guidance relating to the reporting and disclosures of investments and investment income.]

#### G. INVENTORIES

Inventories consist of N/A and are recorded as an expense when consumed. Inventories are valued at the lower of cost (first-in, first-out; last-in, first-out; etc.) or market.

#### H. PREPAID ITEMS

(Describe the district's policy for prepaid items.)

## I. RESTRICTED ASSETS

Certain proceeds of the Enterprise Fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. (Include the specific restrictions.)

**REV. 9/98** 

10

#### J. FIXED ASSETS

Fixed assets of the district are included on the balance sheet of the fund. Interest costs incurred during construction are (are not) capitalized (or construction period interest is immaterial and is not capitalized). Depreciation of all exhaustible fixed assets are charged as an expense against operations. Fixed assets reported on the balance sheet are net of accumulated depreciation (if reported net on the balance sheet). Depreciation is computed using the <u>S/L</u> method over the estimated useful lives of to <u>45</u> years for <u>PLANT</u> (asset type) and <u>N/A</u> to <u>years</u> for (identify any other type).

#### K. COMPENSATED ABSENCES

The district has the following policy relating to vacation and sick leave:

(If the district does not have a formal leave policy or the leave policy does not provide for the accumulation and vesting of leave, the notes should so state.)

The district's recognition and measurement criteria for compensated absences follows:

[GASB Statement No. 16 provides that vacation leave and other compensated absences with similar characteristics should be accrued as a liability as the benefits are earned by the employees if both of the following conditions are met:

- The employees' rights to receive compensation are attributable to services already rendered.
- b. It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

GASB Statement No. 16 provides that a liability for sick leave should be accrued using one of the following termination approaches:

a. An accrual for earned sick leave should be made only to the extent it is probable that the benefits will result in termination payments, rather than

be taken as absences due to illness or other contingencies, such as medical appointments and funerals.

b. Alternatively, a governmental entity should estimate its accrued sick leave liability based on the sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination

11

REV. 9/98

. . .

payments as well as other employees who are expected to become eligible in the future to receive such payments.

## L. LONG-TERM LIABILITIES

Long-term liabilities are recognized within the Enterprise Fund.

## M. FUND EQUITY

## **Contributed Capital**

Grants, entitlements, or shared revenues received that are restricted for the acquisition or construction of capital assets are recorded as contributed capital. Contributed capital is (is not) amortized based on the depreciation recognized on that portion of the assets acquired from such contributions. (If amortized, add the following: This depreciation is closed to the contributed capital account and is reflected as an adjustment to net income.)

#### Reserves

Reserves represent those portions of fund equity legally segregated for a specific future use.

## 3. FUND DEFICITS N/A

At December 31, 2003, the unreserved retained earnings deficit totals \$\_\_\_\_\_. (Give management's response for elimination of the deficit.)

%

#### 4. CASH AND CASH EQUIVALENTS

At December 31, 20 03, the district has cash and cash equivalents (book balances) totaling \$ 79193 as follows:

Demand deposits	\$ 65533
Interest-bearing demand deposits	13660
Time deposits	
Other	
Total	\$ 79193

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the

federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At December 31, 2003, the district has \$\_\_\_\_\_\_ in deposits (collected bank balances). These deposits are secured from risk by \$\_\_\_\_\_\_ of federal deposit insurance and \$\_\_\_\_\_\_ of pledged securities held by the custodial bank in the name of the fiscal agent bank (GASB Category 3). [If deposits are not

13

fully secured, add the following: The remaining balance of \$\_\_\_\_\_ is not secured by the pledge of securities and is a violation of state law.]

Even though the pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement No. 3, R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the district that the fiscal agent has failed to pay deposited funds upon demand."

#### 5. RECEIVABLES

The following is a summary of receivables at December 31, 2003:

Class of Receivable	Current Assets	Restricted Assets	Total
DUE FROM CUSTOMERS	<b>\$</b> 4377	\$	<b>\$</b> 4377
Totai	\$ 4377	\$	<b>\$</b> 4377

(There should be a discussion of bad debt accounting and write-off policy.)

#### 6. INVESTMENTS N/A

Investments are categorized into these three categories of credit risk:

- Insured or registered, or securities held by the district or its agent in the district's 1. name
- Uninsured and unregistered, with securities held by the counterparty's trust 2. department or agent in the district's name
- Uninsured and unregistered, with securities held by the counterparty, or by its 3. trust department or agent but not in the district's name

[For an illustration of how to calculate, display, and disclose the increase or decrease in the fair value of investments, refer to Appendix C of GASB Statement No. 31.]

(This disclosure should acknowledge any violation of the state's investme nt laws or the district's investment policy.)

## 7. FIXED ASSETS

A summary of fixed assets at DEC. 31, 2003, follows:

	Cost	Accumulated Depreciation	Net	
Land	<b>\$</b> 4000	\$	\$ 4000	
Buildings				
Furniture and fixtures				
(Other) PLANT & LINES	396736	287876	108860	
Total	<u>\$ 400736</u>	<u>\$ 287876</u>	<b>\$</b> 112860	

(A narrative should be included to explain the useful lives of the assets and the depreciation methods used or this can be incorporated in the schedule.)

15

#### 8. PENSION PLAN N/A

(Describe the pension plan and make all disclosures required by GASB Statement No. 27. If the district is a member of the Parochial Employees' Retirement System of Louisiana, the following should be used.)

Plan Description. Substantially all employees of the \_\_\_\_\_ Parish \_\_\_\_\_ District are members of the Parochial Employees' Retirement System of Louisiana (System), a cost-sharing, multiple-employer defined benefit pension plan administered by a separate board of trustees. The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. [All employees of the district are members of (Plan A) (Plan B).] [or Some employees of the district are members of Plan A, and some are members of Plan B.]

All permanent employees working at least 28 hours per week who are paid wholly or in part from parish funds and all elected parish officials are eligible to participate in the System. [Under Plan A, employees who retire at or after age 60 with at least 10 years of creditable service, at or after age 55 with at least 25 years of creditable service, or at any age with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3% of their final-average salary for each year of creditable service. However, for those employees who were members of the supplemental plan only before January 1, 1980, the benefit is equal to 1% of final average salary plus \$24 for each year of supplemental-plan-only service earned before January 1, 1980.] [Under Plan B, employees who retire at or after age 62 with at least 10 years of creditable service or at or after age 55 with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 2% of their final-average salary in excess of \$100 for each year of creditable service. Furthermore, employees with at least 10 years of creditable service, but less than 30 years, may take early retirement benefits commencing at or after age 60, with the basic benefit reduced 3% for each year retirement precedes age 62. In any case, monthly retirement benefits paid under Plan B cannot exceed the lesser of 100% of final-average salary or \$70 multiplied by total years of creditable service.] Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above and do not withdraw their employee contributions may retire at the ages specified above and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established or amended by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Parochial Employees' Retirement System, Post Office Box 14619, Baton Rouge, Louisiana 70898-4619, or by calling (504) 928-1361.

16

Funding Policy. [Under Plan A, members are required by state statute to contribute 9.5% of their annual covered salary and the district is required to contribute at an actuarially determined rate. The current rate is 5.5% of annual covered payroll.] [Under Plan B, members are required by state statute to contribute 2.0% of their annual covered salary in excess of \$1,200 and the district is required to contribute at an actuarially determined rate. The current rate is 2.50% of annual covered payroll.] Contributions to the System also include one-fourth of 1% (except Orleans and East Baton Rouge Parishes) of the taxes shown to be collectible by the tax rolls of each parish. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The contribution requirements of plan members and the district are established and may be amended by state statute. As provided by R.S. 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. [The district's contributions to the System under Plan A for the years ending December 31, 1998, 1997, and 1996, were \$\_\_\_\_\_, \$\_\_\_\_, and \$\_\_\_\_\_, respectively, equal to the required contributions for each year.] [The district's contributions to the System under Plan B for the years ending December 31, 1998, 1997, and 1996, were \$\_\_\_\_\_, \$\_\_\_\_\_, and \$\_\_\_\_\_, respectively, equal to the required contributions for each year.] (If the required contributions and the actual amount contributed do not equal, disclose the required contribution in dollars and the percentage of that amount contributed for the current year and each of the two preceding years.)

## 9. OTHER POSTEMPLOYMENT BENEFITS

[GASB Statement No. 12 requires, as a minimum, the following disclosures if the district provides other postemployment benefits (OPEB). The disclosures may be made separately for one or more types of benefits or in the aggregate for all OPEB provided.

- A. A description of the OPEB provided; employee groups covered; eligibility requirements; and the employer and participant obligations to contribute, quantified in some manner (for example, the approximate percentage of the total obligation to contribute that is borne by the employer and the participants, respectively, or the dollar or percentage contribution rates).
- B. A description of the statutory, contractual, or other authority under which OPEB provisions and obligations to contribute are established.
- C. A description of the accounting and financing or funding policies followed; for example, a statement that the employer's contributions are financed on a pay-asyou-go basis or are advance-funded on an actuarially determined basis. If OPEB are advance-funded on an actuarially determined basis, the employer should also disclose the actuarial cost method and significant actuarial assumptions (including the interest rate and, if applicable, the projected salary

17

increase assumption and the health inflation assumption) used to determine funding requirements, and the method used to value plan assets.

- D. The following expenditure/expense information, depending on how OPEB are financed:
  - 1. If OPEB are financed on a pay-as-you-go basis, the amount of OPEB expenditures/expenses recognized during the period by the employer (net of participant contributions); also, disclose the number of participants currently eligible to receive benefits. If expenditures/expenses for OPEB cannot readily be separated from expenditures/expenses for similar types of benefits provided to active employees and their dependents, employers should use reasonable methods to approximate OPEB expenditures/expenses. If a reasonable approximation cannot be made, employers should state that OPEB expenditures/expenses cannot be reasonably estimated.
  - 2. If OPEB are advance-funded on an actuarially determined basis, the number of active plan participants, the employer's actuarially required and actual contributions for the period (net of participant contributions), the amount of net assets available for OPEB, and the actuarial accrued liability and unfunded actuarial accrued liability for OPEB according to the actuarial cost method in use.
- E. A description (and the dollar effect, if measurable) of any significant matters that affect the comparability of the disclosures with those for the previous period (for example, a change in benefit provisions).
- F. Any additional information that the employer believes will help users assess the nature and magnitude of the cost of the employer's commitment to provide OPEB.]

## 10. COMPENSATED ABSENCES N/A

At December 31, \_\_\_\_, employees of the district have accumulated and vested \$ \_\_\_\_\_\_ of employee leave benefits, which was computed in accordance with GASB Codification Section C60.

#### 11. LEASES N/A

Long-term liability payable at,	 \$

A detailed listing of general long-term liabilities follows, with the funding and reserve requirements:

## **13. RELATED PARTY TRANSACTIONS**

(FASB 57 requires the disclosure of the description of the relationship, the transactions, the dollar amount of the transactions, and any amounts due to or from that result from related party transactions. List all related party transactions.)

## 14. RISK MANAGEMENT

[Describe the risks of loss to which the district is exposed and the way in which those risks of loss are handled (for example, purchase of commercial insurance, participation in a public entity risk pool, risk retention).

20

If the district has significant reductions in insurance coverage from coverage in the prior year, participates in a risk pool, or retains the risk of loss, refer to GASB Codification Section C50 for additional required disclosures.]

## 15. LITIGATION AND CLAIMS

At <u>DEC. 3198</u>, 20 03, the district is involved in litigation or is aware of claims totaling <u>NONE</u>, which are not covered by insurance. (Include the legal counsel's opinion as to the ultimate resolution of those remaining amounts.) Claims and litigation costs of <u>NONE</u> were incurred in the current year and are recorded as a current-year expense.

#### 16. SUBSEQUENT EVENTS

(A reporting government should disclose any material event affecting it that occurs between the close of the fiscal period and issuance of the financial statements.)

## 17. ON-BEHALF PAYMENTS FOR FRINGE BENEFITS AND SALARIES

(Note to the preparer of the financial statements: GASB Statement 24 requires that on-behalf payments for fringe benefits and salaries be recognized as revenue and expenditures or expenses and that the notes to the financial statements disclose the amounts recognized. On-behalf payments include pension plan contributions, employee health and life insurance premiums, and salary supplements or stipends. You should refer to GASB Statement 24 for guidance relating to the recognition and measurement of on-behalf payments for fringe benefits and salaries.)

Certain operating expenses of the district are paid by the parish police jury and are not included in the accompanying financial statements. These expenditures are summarized as follows:
