**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**JUNE 30, 2021**

The Management's Discussion and Analysis of the Ware Youth Center's (the Center's) financial performance presents a narrative overview and analysis of the Center's financial activities for the year ended June 30, 2021. This document focuses on the current year's activities, resulting changes, and currently known facts. Please read this document in conjunction with the Center's financial statements, which begin on page 10.

**FINANCIAL HIGHLIGHTS**

- Revenues exceeded expenditures by approximately \$500,000 for the year as compared to the prior year when expenses exceeded revenues by approximately \$1,900,000. This difference was the result of the decrease in employees for the current year.
- The fund level financial statements (see description on page 2) report fund balance of approximately \$2,678,086, an increase of approximately \$780,000 from the prior year. This level of fund balance equals 30.4% of annual expenditures.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

The following graphic illustrates the minimum requirements for the Center as established by Governmental Accounting Standards Board Statement 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*.

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the basic financial statements (including the notes to the financial statements), and required supplementary information.

**BASIC FINANCIAL STATEMENTS**

**Government-Wide Financial Statements**

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 10 and 11) provide information about the activities of the Center as a whole and present a longer-term view of the Center's finances. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position and the Statement of Activities report the Center's net position and changes in them. The Center's net position, the difference between assets plus deferred outflows, and liabilities plus deferred inflows, is one way to measure the Center's financial health, or financial position. Over time, increases or decreases in the Center's net position are one indicator of whether its financial health is improving or deteriorating.

### Fund Financial Statements

Fund financial statements start on page 13. The Center utilizes only one fund, its General Fund, which is considered to be a governmental fund type. All of the Center's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Center's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Center's activities as well as what remains for future spending.

### FINANCIAL ANALYSIS OF THE ENTITY

Total	<u>\$8,627,745</u>	<u>\$8,994,401</u>

#### Long Term Liability

The Center had \$214,719 in compensated absences payable (annual leave) at year end compared to \$225,541 at the previous year end, a decrease of \$10,822 or 4.80%. The Center recorded pension liabilities of \$12,783,770 and \$13,840,611 as of June 30, 2021 and 2020, respectively. This liability represents the Center's proportionate share of the Net Pension Liabilities of the Louisiana State Employees Retirement System (LASERS) and the Teachers Retirement System of Louisiana (TRSL). The Center recorded OPEB of \$253,884 and \$208,848 as of June 30, 2021 and 2020, respectively. Long term liabilities are summarized below:

Outstanding Long-term Liabilities at Year End

	<u>2021</u>	<u>2020</u>

Total	<u>\$13,252,373</u>	<u>\$14,275,000</u>

There were no borrowings undertaken during the year.

### **VARIATIONS BETWEEN ORIGINAL AND FINAL BUDGETS**

Actual revenues were consistent with the final budget, coming in approximately \$115,000 more than the budgeted amounts.

Actual expenditures were consistent with the final budget, coming in approximately \$664,000 less than the budgeted amounts.

The original budget was amended during the year.

For the year ended June 30, 2021, revenues and expenditures were within the 5% variance allowed.

### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The Center's appointed commissioners considered the following factors and indicators when setting next year's budget, rates, and fees. These factors and indicators include:

- 1) Intergovernmental revenue
- 2) Charges for services
- 3) Interest income
- 4) Future expectations of expenditures

The Ware Youth Center does not expect any significant changes in next year's budget as compared to the current year.

### **CONTACTING THE WARE YOUTH CENTER'S MANAGEMENT**

**INDEPENDENT AUDITORS' REPORT**

To the Board of Commissioners of  
Ware Youth Center  
Coushatta, Louisiana 71019

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and major fund of the Ware Youth Center (the Center) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Center's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the *Louisiana Governmental Audit Guide*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of the Center as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is presented for purposes of additional analysis and is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Center's basic financial statements. The Budgetary Comparison Schedule, Schedule of Employer's Share of Net Pension Liability, Schedule of Employer's Contribution, Schedule of Changes in Net OPEB Liability and Related Ratios, Schedule of Compensation, Benefits and Other Payments to Agency Head, and Justice Funding Schedule - Receiving Entity listed as other required supplementary information in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Budgetary Comparison Schedule, Schedule of Employer's Share of Net Pension Liability, Schedule of Employer's Contribution, Schedule of Changes in Net OPEB Liability and Related Ratios, Schedule of Compensation, Benefits and Other Payments to Agency Head, and Justice Funding Schedule - Receiving Entity are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Budgetary Comparison Schedule, Schedule of Employer's Share of Net Pension Liability, Schedule of Employer's Contribution, Schedule of Changes in Net OPEB Liability and Related Ratios, Schedule of Compensation, Benefits and Other Payments to Agency Head, and Justice Funding Schedule - Receiving Entity are fairly stated in all material respects in relation to the basic financial statements as a whole.

*Other Reporting Required by Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 27, 2021, on our consideration of the Center's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Center's internal control over financial reporting and compliance.

## NOTES TO FINANCIAL STATEMENTS

Ware Youth Center  
Coushatta, Louisiana  
Notes to Financial Statements  
June 30, 2021

1. Summary of Significant Accounting Policies

A. Reporting Entity

The Ware Youth Center (the Center) was created by Act 833 of the 1986 Legislature, which enacted Part XI-A of Chapter 7 of Title 15 of the Louisiana Revised Statutes of 1950 to be comprised of R.S. 15:1097 through 1097.5 to establish and provide for the purposes and functions of the Ware Youth Center for the parishes of Bienville, Claiborne, DeSoto, Natchitoches, Red River, Sabine, and Webster. The Center's funding is provided by enabling legislation, which grants the power to levy taxes, incur debt and issue bonds, and by R.S. 15:1095.6, which provides for the imposition of court costs in certain juvenile and criminal proceedings in all courts within the area of its jurisdiction. Act 147 of the 1991 Legislature amended and reenacted R.S. 15:1097 through 1097.2 and enacted Subpart G of Part XI of Chapter 7 of Title 15 of the Louisiana Revised Statutes of 1950, comprised of R.S. 15:1099.1 through 1099.7, which authorized any parish governing authority having a youth center and any juvenile detention authority to enter into a lease or lease-purchase contract for construction, operation, and maintenance of a youth center within the parish and authorized other parishes to enter into participation agreements with a parish having a youth center to sublease space and house juveniles at the center.

Act 147 amended the territorial jurisdiction of the Ware Youth Center to include the parishes of Claiborne, DeSoto, Natchitoches, Red River, Sabine and Webster. However, Act 147 allowed Bienville and Claiborne Parishes to withdraw from membership and participate in the Center during the period beginning September 1, 1991 and ending December 31, 1991. These parishes elected to withdraw from participation in the Center. At June 30, 2021, the parishes of DeSoto, Natchitoches, Red River, Sabine and Webster were included in the territorial jurisdiction of the Ware Youth Center.

The Center is the basic level of government which has financial accountability and control over all activities related to the Center operations and services provided. The Center is not included in any other governmental "reporting entity" as defined by GASB pronouncements. In addition, there are no component units as defined in Governmental Accounting Standards Board Statement 14, which are included in the Center's reporting entity.

The purpose of the Center is to assist and afford opportunities to pre-adjudicatory and post-adjudicatory children who enter the juvenile justice system to become productive, law-abiding citizens of the community, parish, and state by the establishment of rehabilitative programs within a structured environment and to provide physical facilities and related services for children throughout the parishes belonging to the Center, including the housing, care, supervision, maintenance and education of juveniles under the age of seventeen years, and for juveniles seventeen years of age and over who were under seventeen years of age when they committed an alleged offense.

Ware Youth Center  
Coushatta, Louisiana  
Notes to Financial Statements  
June 30, 2021

B. Basis of Presentation

The Center's financial statements are prepared in accordance with accounting principles generally accepted (GAAP) in the United States of America as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The Center's basic financial statements include both government-wide statements and the fund financial statements. Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Center's functions and programs have been classified as governmental activities.

C. Government-wide Financial Statements

The government-wide financial statements consist of the Statement of Net Position and the Statement of Activities and are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Direct expenses are those that are specifically associated with a program or function. Program revenues include (a) fees and charges paid by the recipient for goods or services offered by the program, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

In the government-wide financial statements, equity is classified as net position and displayed in three components:

- 1) Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those capital assets.
- 2) Restricted net position - consists of net resources with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
- 3) Unrestricted - all other net resources that do not meet the definition of "restricted" or "net investment in capital assets."

When an expense is incurred for the purposes for which both restricted and unrestricted net position is available, management applies unrestricted resources first, unless a determination is made to use restricted net resources. The policy concerning which to apply first varies with the intended use and legal requirements. This decision is typically made by management at the incurrence of the expense.

The government-wide statements focus upon the Center's ability to sustain operations and the change in its net position resulting from the current year's activities.

Ware Youth Center  
Coushatta, Louisiana  
Notes to Financial Statements  
June 30, 2021

Fund Financial Statements

Governmental Fund:

The governmental fund financial statements (*the Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance*) are presented using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available to fund current operations. The Center considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Expenditures are recognized when the related fund liability is incurred, except for principal and interest on long-term debt which is recognized when due.

The Center uses governmental fund types. The focus of the governmental fund's measurement (in the fund statements) is on determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than on net income. An additional emphasis is placed on major funds within the governmental fund types. A fund is considered major if it is the primary operating fund of the Center or if its total assets, liabilities, revenues, or expenditures are at least 10% of the corresponding total for all funds of that category or type. As of June 30, 2021, the Center had only one major governmental fund as follows:

- General Fund - accounts for the general operations of the Center that are funded through unrestricted funding sources. The General Fund is always a major fund.

In the fund statements, governmental fund equity is classified as fund balance and displayed in five components. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- a. Nonspendable fund balance - amounts that are not in a spendable form (such as prepaid expenses) or are required to be maintained intact.
- b. Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- c. Committed fund balance - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.
- d. Assigned fund balance - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- e. Unassigned fund balance - amounts that are available for any purpose. Only the General Fund would report positive amounts in unassigned fund balance.

Ware Youth Center  
Coushatta, Louisiana  
Notes to Financial Statements  
June 30, 2021

The General Fund has an unassigned fund balance of \$2,600,445. The Board of Commissioners establishes (and modifies or rescinds) fund balance commitments and assignments by passage of an ordinance or resolution. The Center typically uses restricted fund balances first, followed by committed, assigned and unassigned funds when an expenditure is incurred for the purposes for which amounts in any of these fund balance classifications could be used. The Center reserves the right to selectively spend unassigned resources first and to defer the use of these other classified funds.

D. Budgetary Accounting

Formal budgetary accounting is employed as a management control. The Center prepares and adopts a budget prior to July 1 of each year for its General Fund in accordance with Louisiana Revised Statutes. The operating budget is prepared based on prior years' revenues and expenditures and the estimated increase there in for the current year, using the modified accrual basis of accounting. The Ware Youth Center amends the budget when projected revenues are expected to be less than budgeted revenues by five percent or more and/or projected expenditures are expected to be more than budgeted amounts by five percent or more. All budget appropriations lapse at year end.

E. Cash and Cash Equivalents

Cash includes amounts in demand deposits, interest-bearing demand deposits, and petty cash. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Cash and cash equivalents are reported at their carrying amounts that equal their fair values.

F. Investments

Investments are limited by Louisiana Revised Statute 33:2955 and the Ware Youth Center's investment policy. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents.

G. Receivables

All receivables are reported at their gross value and, where applicable, are reduced by the estimated portion that is expected to be uncollectible.

H. Bad Debts

Uncollectible accounts receivable are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the uncollectability of the particular receivable. At June 30, 2021, no amounts were considered to be uncollectible.

I. Capital Assets

Capital assets are carried at historical costs. Depreciation of all exhaustible capital assets used by the Center is charged as an expense against operations in the Statement of Activities. Capital assets net of accumulated depreciation are reported on the Statement of Net Position. Depreciation is computed using the straight line method over the estimated useful life of the assets, generally 20 to 40 years for buildings and building improvements, and 5 to 10 years for moveable property. Expenditures for maintenance, repairs and minor renewals are charged to expenditures as incurred. Major expenditures for renewals and betterments are capitalized. The Center maintains a threshold of \$1,000 or more for capitalization of assets.

J. Compensated Absences

The Center employees earn annual leave at various rates depending on the number of years in service. The maximum amount of annual leave that may be accumulated by each employee is 160 hours. At June 30, 2021, a total of \$214,719 in annual leave remained unpaid, which is a decrease of \$10,822 from the June 30, 2020 balance of \$225,541. Upon termination, an employee is compensated for up to 160 hours of unused annual leave at the employee's hourly rate of pay at the time of termination.

K. Deferred Outflows/Inflows of Resources

The statement of net position reports a separate section for deferred outflows and/or deferred inflows of financial resources. *Deferred outflows* of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until the applicable period. *Deferred inflows* of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources until that time.

L. Management's Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

M. Pension Plans

The Ware Youth Center is a participating employer in two defined benefit pension plans as described in Note 6. For purposes of measuring the Net Pension Liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of each of the plans and additions to/deductions from each plan's fiduciary net position have been determined on the same basis as they are reported by each of the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

2. Deposits with Financial Institutions and Investments

The cash and cash equivalents of the Center are subject to the following risk:

*Custodial Credit Risk:* Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Center will not be able to recover its deposits. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal or exceed the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Commission that the fiscal agent bank has failed to pay deposited funds upon demand. Further, Louisiana Revised Statute 39:1224 states that securities held by a third party shall be deemed to be held in the Center's name.

At June 30, 2021, the Center had cash and cash equivalents with bank balances totaling \$841,671. Cash and cash equivalents are stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the Center. All of the Center's deposits were properly secured at June 30, 2021. Of the \$841,671 in bank balances, \$250,000 was secured by federal deposit insurance and \$591,671 was secured by pledged securities.

Investments in the Louisiana Asset Management Pool (LAMP), a local government investment pool, total \$2,017,119. LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA-R.S. 33:2955. Funds invested in LAMP are subject to any limitations, restrictions or transaction fees on withdrawals.

LAMP is a 2a7-like investment pool. The following facts are relevant for 2a7-like investment pools:

- Credit risk: LAMP is rated AAA by Standard & Poor's.
- Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.
- Concentration of credit risk: Pooled investments are excluded from the five percent disclosure requirement.

Ware Youth Center  
Coushatta, Louisiana  
Notes to Financial Statements  
June 30, 2021

- Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 60 days, and consists of no securities with a maturity in excess of 397 days.
- Foreign currency risk: Not applicable to 2a7-like pools.

The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the net asset value of the pool shares. LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

LAMP issues an annual publicly available financial report that includes financial statements and required supplementary information for the pool. These reports may be obtained by contacting LAMP at 228 St. Charles Avenue, Suite 1123, New Orleans, Louisiana 70130.

6. Employee Retirement Systems

Substantially all employees of the Center are members of either the Louisiana State Employees' Retirement System or the Teachers' Retirement System of Louisiana. These systems are cost-sharing, multiple-employer defined benefit pension plans administered by separate boards of trustees. Pertinent information relative to each plan follows:

A. General Information about the Plans

*Louisiana State Employees' Retirement System (LASERS)*

*Plan Description*

LASERS was established for the purpose of providing retirement allowances and other benefits as stated under the provisions of the Louisiana Revised Statutes (La. R.S. 11:401), as amended, for eligible state officers, employees and their beneficiaries. This statute grants to LASERS Board of Trustees and the Louisiana Legislature the authority to review administration, benefit terms, investments, and funding of the plan. The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System, which can be obtained at [www.laseronline.org](http://www.laseronline.org).

*Benefits Provided*

The following is a description of the plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

## Retirement

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. The rank and file members hired prior to July 1, 2006, may either retire with full benefits at any age upon completing 30 years of creditable service, at age 55 upon completing 25 years of creditable service, and at age 60 upon completing ten years of creditable service depending on their plan. Those members hired between July 1, 2006 and June 30, 2015, may retire at age 60 upon completing five years of creditable service and those hired on or after July 1, 2015 may retire at age 62 upon completing five years of creditable service. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement benefits throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with twelve years of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

Notes to Financial Statements  
June 30, 2021

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive 2.5% accrual rate, and judges a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

#### **Deferred Retirement Benefits**

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

### **Disability Benefits**

Generally, active members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age.

Upon reaching retirement age, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees.

For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation or 100% of final average compensation if the injury was the result of an intentional act of violence.

### **Survivor's Benefits**

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased regular member hired before January 1, 2011 who was in state service at the time of death, must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned, in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years being earned immediately prior to death, and in active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

### **Permanent Benefit Increases/Cost-of-Living Adjustments**

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), which are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

*Contributions*

The employer contribution rate is established annually under R.S. 11:101-11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the System's Actuary. Each plan pays a separate actuarially-determined employer contribution rate. However, all assets of LASERS are used for the payment of benefits for all classes of members, regardless of their plan membership. Rates for the year ended June 30, 2020 were as follows:

June 30, 2021

The Center's contractually required composite contribution rate for the year ended June 30, 2021 was 39.50% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability. Contributions to the pension plan from the Center were \$1,225,782 for the year ended June 30, 2021.

*Teachers' Retirement System of Louisiana (TRSL)*

*Plan Description*

TRSL was established for the purpose of providing retirement allowances and other benefits as stated under the provisions of LA R.S. 11:700-999, as amended, for eligible teachers, employees, and their beneficiaries. The projection of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through the System in accordance with the benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date. TRSL issues a publicly available financial report that can be obtained at [www.trsl.org](http://www.trsl.org).

*Benefits Provided*

The following is a description of the plan and its benefits, and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

**Retirement**

Members hired prior to July 1, 1999:

- 2% benefit factor (1) at least age 60 with at least 5 years of service credit, or (2) any age with at least 20 years of service credit.
- 2.5% benefit factor (1) at least age 65 with at least 20 years of service credit, or (2) at least age 55 with at least 25 years of service credit, or (3) any age with at least 30 years of service credit.

Members joining system between July 1, 1999 and December 31, 2010:

- 2.5% benefit factor (1) at least age 60 with at least 5 years of service credit, or (2) at least age 55 with at least 25 years of service credit, or (3) any age with at least 20 years of service credit (actuarially reduced), or (4) any age with at least 30 years of service credit.

Members first eligible to join and hired between January 1, 2011 and June 30, 2015:

- 2.5% benefit factor (1) at least age 60 with at least 5 years of service credit, or (2) any age with at least 20 years of service credit (actuarially reduced).

Members first eligible to join and hired on or after July 1, 2015:

- 2.5% benefit factor (1) at least age 62 with at least 5 years of service credit, or (2) any age with at least 20 years of service credit (actuarially reduced).

Ware Youth Center  
Coushatta, Louisiana  
Notes to Financial Statements  
June 30, 2021

Plan A is closed to new entrants. All Plan A members with a 3% benefit factor (1) at least age 60 with at least 5 years of service credit, or (2) at least age 55 with at least 25 years of service credit, or (3) any age with at least 30 years of service credit.

Plan B members hired before July 1, 2015 with 2% benefit factor (1) at least age 60 with at least 5 years of service credit, or (2) at least age 55 with at least 30 years of service credit. Plan B members first eligible to join and hired on or after July 1, 2015 with 2% benefit factor (1) at least age 62 with at least 5 years of service credit, or (2) any age with at least 20 years of service credit (actuarially reduced).

For all plans, retirement benefits are based on a formula which multiplies the final average compensation by the applicable benefit factor, and by the years of creditable service. For Regular Plan and Lunch Plan B members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after January 1, 2011, final average compensation is defined as the highest average 60-month period. For all other members, final average compensation is defined as the highest average 36-month period.

A retiring member is entitled to receive the maximum monthly benefit payable until the member's death. In lieu of the maximum monthly benefit, the member can elect to receive a reduced monthly benefit payable in the form of a Joint and Survivor Option, or a monthly benefit (maximum or reduced Joint and Survivor Option) with a lump sum that can't exceed 36 months of the members' maximum monthly benefit amount.

Effective July 1, 2009, members may make an irrevocable election at retirement to receive an actuarially reduced monthly benefit which increases 2.5% annually, beginning on the first retirement anniversary date, but not before age 55 or before the retiree would have attained age 55 in the case of a surviving spouse. This option can be chosen in combination with the above options.

### **Deferred Retirement Benefits**

In lieu of terminating employment and accepting a service retirement, an eligible member can begin participation in the Deferred Retirement Option Program (DROP) on the first retirement eligibility date for a period not to exceed 3 years. A member has a 60 day window from his eligible date to participate in the program in order to participate for the maximum number of years. Delayed participation reduces the three year maximum participation period. During participation, benefits otherwise payable are fixed, and deposited in an individual DROP account.

Upon termination of DROP participation, the member can continue employment and earn additional benefit accruals to be added to the fixed pre-DROP benefit.

Upon termination of employment, the member is entitled to the fixed benefit, an additional benefit based on post-DROP service (if any), and the individual DROP account balance which can be paid in a lump sum or as an additional annuity based upon the account balance.

### **Disability Benefits**

Active members whose first employment makes them eligible for membership in a Louisiana state retirement system before January 1, 2011, and who have five or more years of service credit are eligible for disability retirement benefits if certified by the State Medical Disability Board (SMBD) to be disabled from performing their job. All other members must have at least 10 years of service to be eligible for a disability benefit. Calculation of the disability benefit as well as the availability of a minor child benefit is determined by the plan to which the member belongs and the date on which the member's first employment made them eligible for membership in a Louisiana state retirement system.

### **Survivor's Benefits**

A surviving spouse with minor children of an active member with at least five years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) 50% of the member's benefit calculated at the 2.5% accrual rate for all creditable service. When a minor child(ren) is no longer eligible to receive survivor benefits, the spouse's benefit reverts to a survivor benefit in accordance with the provisions for a surviving spouse with on minor child(ren). Benefits for the minor children cease when he/she is no longer eligible.

Each minor child (maximum of 2) shall receive an amount equal to the greater of (a) 50% of the spouse's benefit, or (b) \$300 (up to 2 eligible children). Benefits to minors cease at attainment of age 21, marriage, or age 23 if enrolled in an approved institution of higher education.

A surviving spouse with minor children of an active member with 10 years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) the option 2 equivalent of the benefit calculated at the 2.5% benefit factor for all creditable service.

### **Permanent Benefit Increases/Cost-of-Living Adjustments**

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of ad hoc permanent benefit increases, also known as cost-of-living adjustments (COLAs) that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

### **Optional Retirement Plan (ORP)**

The Optional Retirement Plan (ORP) was established for academic employees of public institutions of higher education who are eligible for membership in TRSL. This plan was designed to provide certain academic and unclassified employees of public institutions of higher education an optional method of funding for their retirement.

The ORP is a defined contribution pension plan which provides for portability of assets and full and immediate vesting of all contributions submitted on behalf of the affected employees to the approved providers. These providers are selected by the TRSL Board of Trustees. Monthly employer and employee contributions are invested as directed by the employee to provide the employee with future retirement benefits. The amount of these benefits is entirely dependent upon the total contributions and investment returns accumulated during the employee's working lifetime. Employees in eligible positions of higher education can make an irrevocable election to participate in the ORP rather than TRSL and purchase annuity contracts - fixed, variable, or both - for benefits payable at retirement.

*Contributions*

The employer contribution rate is established annually under R.S. 11:101-11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the System's actuary. Each sub plan pays a separate actuarially determined employer contribution rate. However, all assets of TRSL are used for the payment of benefits for all classes of members, regardless of their plan.

The normal cost portion of each plan's employer contribution rate varies based upon that plan's benefits, member demographics, and the rate contributed by employees. The Unfunded Accrued Liability (UAL) contribution rate is determined in aggregate for all plans. The UAL resulting from legislation specific to a plan or group of plans will be allocated entirely to that plan or those plans.

For ORP, only the UAL portion of the employer contribution is retained by the plan. Therefore, only the UAL projected rates were used in the projection of future contributions in determining an employer's proportionate share.

Rates for the year ended June 30, 2019 were as follows:

<u>Plan</u>	<u>Employer Contribution Rate</u>
K-12 Regular Plan	26.0%
Higher Ed Regular Plan	25.3%
Plan A	26.0%
Plan B	26.0%
ORP 2018	22.2%

The Center's contractually required composite contribution rate for the year ended June 30, 2021 was 25.8% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability. Contributions to the pension plan from the Center were \$16,083 for the year ended June 30, 2021. In accordance with state statute, the System receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities, but are not considered special funding situations. Non-employer contributions of \$566 are recognized as revenue.

B. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the Center reported a total of \$12,783,770 for its proportionate shares of the Net Pension Liabilities of the Plans.

Plan	Measurement Date	
	June 30, 2020	June 30, 2019
LASERS	\$12,637,829	\$13,707,521
TRSL	145,941	133,090
Total	\$12,783,770	\$13,840,611

The Net Pension Liabilities were measured as of June 30, 2020 and the total pension liability used to calculate the Net Pension Liabilities were determined by an actuarial valuation as of that date. The Center's proportion of the Net Pension Liabilities was based on a projection of the Center's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020 and 2019, the Center's proportions of each were as follows:

Plan	Proportionate Share	
	June 30, 2020	June 30, 2019
LASERS	.15280%	.189202%
TRSL	.00131%	.001341%
Total	.15411%	.190543%

For the year ended June 30, 2021 and 2020, the Center recognized pension expense including employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions as follows:

Plan	Measurement Date	
	June 30, 2020	June 30, 2019
LASERS	\$1,152,960	\$2,881,859
TRSL	(38,491)	(41,247)

Total	3,178,488	1,377,698	43,492	4,710	3,221,980	1,382,408

The deferred outflows of resources related to pensions resulting from Center contributions subsequent to the measurement date in the amount of \$1,241,864, will be recognized as a reduction of the Net Pension Liabilities in the year June 30, 2021. Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year ended June 30:	
2021	\$(951,048)
2022	540,654
2023	576,752
2024	431,350

*Actuarial Assumptions*

A summary of the actuarial methods and assumptions used in determining the total pension liabilities for the valuation date of June 30, 2019 is as follows:

Assumptions	LASERS	TRSL
Actuarial cost method	Entry age normal cost	Entry age normal cost
Expected remaining service lives	2 years	5 years
Investment rate of return	7.55%	7.45%
Inflation rate	2.30%	2.30%
Salary increases	Varies from 3.0% to 13.8%, depending on member type	Varies from 3.1% to 4.6%, depending on duration of service

Mortality rates for LASERS were based on RP-2014 Blue Collar (males/females) and White Collar (females) Healthy Annuitant Tables projected on a fully generational basis by Mortality Improvement Scale MP-2018. For disabled members, RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement, was used. The assumptions were based on the results of a five year (2014-2018) experience study.

Mortality rates for TRSL were based on RP-2014 White Collar Employee tables, adjusted by 1.010 for males and by 0.997 for females for active members. For non-disabled retiree/inactive members, RP-2014 White Collar Healthy Annuitant tables, adjusted by 1.366 for males and by 1.189 for females. For disabled retirees, RP-2014 Disability tables, adjusted by 1.111 for males and by 1.134 for females. These base tables are adjusted from 2014 to 2018 using the MP-2017 generational improvement table, with continued future mortality improvement projected using the MP-2017 generational mortality improvement tables. The assumptions are based on the results of a five year (2012-2017) experience study.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification.

Best estimates of arithmetic real rates of return for each major asset class included in pensions target asset allocation as of June 30, 2020 are summarized in the following table:

<u>Asset Class</u>	LASERS Long-Term Expected Portfolio Real Rate of <u>Return</u>	TRSL Long-Term Expected Portfolio Real Rate of <u>Return</u>
Cash Equity	-0.59%	0.00%
Domestic Equity	4.79%	4.60%
International Equity	5.83%	5.54%
Domestic Fixed Income	1.76%	0.69%
International Fixed Income	3.98%	1.50%
Alternative Investments	6.69%	0.00%
Risk Parity	4.20%	0.00%
Private Assets	0.00%	8.62%
Other Private Assets	0.00%	4.45%

The discount rate used to measure the total pension liability was 7.55% for LASERS and 7.45% for TRSL. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the actuary. Based on those assumptions, LASERS and TRSL fiduciary net positions were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

TRSL	\$ 190,514	\$ 145,941	\$ 108,420

*Pension Plan Fiduciary Net Position*

Detailed information about the pension plans' fiduciary net positions are available in the separately issued financial statements of the Plans.

*Payables to the Pension Plans*

These financial statements include a payables to the pension plans. \$127,624 to LASERS and \$1,784 to TRSL, which are the legally required contributions due at June 30, 2021. These amounts are recorded in accrued expenses.

7. Postemployment Health Care and Life Insurance Benefits

Effective April 1, 2021, the Center implemented a new policy to provide insurance benefits for retirees during the period of eligibility. The Center will pay 75% of retiree premiums and 75% of surviving spouse premiums. As a result, the Center was required to implement Governmental Standards Board (GASB) Statement 75 *Actuarial Valuation of Other Post-employment Benefits – Amendment of GASB Statement 45*, which resulted in a restatement of net position by (\$208,848).

**General Information about the OPEB Plan**

*Plan description* – The Center provides certain continuing health care benefits for its retired employees. The Center's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the City. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the Center. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the Center. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Statement No. 75.

*Benefits Provided* – Medical benefits are provided through a self-insured comprehensive medical plan and are made available to employees upon actual retirement. Employees are covered by LASERS.

*Employees covered by benefit terms* – At May 31, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	0
Active employees	38

### Total OPEB Liability

The Center's total OPEB liability of \$253,884 was measured as of July 1, 2020 and was determined by an actuarial valuation as of that date.

*Actuarial Assumptions and other inputs* – The total OPEB liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.0%
Salary increases	32.0%, including inflation
Discount rate	2.21% annually (Beginning of Year to Determine ADC) 2.16%, annually (As of End of Year Measurement Date)
Healthcare cost trend rates	5.5% annually for 10 years, 4.5% thereafter
Mortality	SOA RP-2014 Table

The discount rate was based on the Bond Buyers' 20 Year General Obligation municipal bond index over the 52 weeks immediately preceding the applicable measurement dates.

The actuarial assumptions used in the July 1, 2020 valuation were based on the results of ongoing evaluations of the assumptions from July 1, 2009 to June 30, 2021.

8. Risk Management

The Center is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Center maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Center.

9. Claims and Contingencies

The Center participates in federal and state programs that are fully or partially funded by grants received from other Governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Center may be required to reimburse the grantor government. The Center believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the governmental funds or the overall financial position of the Center.

In the normal course of operations, claims/lawsuits may occur for which insurance has not been obtained. Management believes that such claims/lawsuits, if any, are not expected to have a material impact on the operations of the Center.

On January 30, 2021, the World Health Organization declared the coronavirus outbreak a “Public Health Emergency of International Concern” and on March 10, 2021, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate it have had and are expected to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Center operates. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration. Therefore, while the Center anticipates this could negatively affect its operating results, the related financial impact and duration cannot be reasonably estimated at this time.

10. Deficit Unrestricted Net Position

The net position of \$(71,881) included an unrestricted net deficit of \$8,699,626. The remainder of the net position includes \$8,627,745 attributable to the Center’s net investment in capital assets. The unrestricted net deficit is primarily the result of the net pension liability of \$12,183,770. It is expected that the Center will continue to realize positive improvements to the unrestricted net deficit.

11. Compensation Paid to Board Members

The members of the Board of Commissioners of the Center receive no compensation for their services.

12. Subsequent Events

Management has evaluated events through September 27, 2021, the date which the financial statements were available for issue. There were no items to be reported as subsequent events.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Commissioners of  
Ware Youth Center  
Coushatta, Louisiana 71019

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and the *Louisiana Governmental Audit Guide*, the financial statements of the governmental activities and the major fund of Ware Youth Center (the Center), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Center's basic financial statements, and have issued our report thereon dated September 27, 2021.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Center's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control. Accordingly, we do not express an opinion on the effectiveness of the Center's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Center's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited. Under Louisiana Revised Statute 25:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
