INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
Red River, Atchafalaya and Bayou Boeuf Levee District
Alexandria, Louisiana

Opinions

I have audited the accompanying financial statements of the Red River, Atchafalaya and Bayou Boeuf Levee District, a component unit of the State of Louisiana, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Red River, Atchafalaya and Bayou Boeuf Levee District as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

I conducted my audit in accordance with auditing standards generally accepted in the United State of America. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am required to be independent of the Red River, Atchafalaya and Bayou Boeuf Levee District, and to meet our other ethical responsibilities. In accordance with the relevant ethical requirements related to my audit. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Red River, Atchafalaya and Bayou Boeuf Levee District ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibility for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, I:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, or design and perform audit procedures reasonable to those risks. Such procedures include examine on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Red River, Atchafalaya and Bayou Boeuf Levee District internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Red River, Atchafalaya and Bayou Boeuf Levee District ability to continue as a going concern for a reasonable period of time.

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant auditing findings, and certain internal control-related matters that I identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America, require that the Schedule of the Employer's Proportionate Share of the Total OPEB Liability, Schedule of Employer's Share of Net Pension Liability, the Schedule of Employer's Contributions, the Notes to Required Supplementary Information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. My opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise of the Red River, Atchafalaya and Bayou Boeuf Levee District basic financial statements. The accompanying supplemental schedules of Commissioner's Per Diems, Compensation, Benefits, and Other Payments to Agency Head or Chief Executive Officer, and the Division of Administration reporting package listed in the table of contents are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Audit Standards*, I have also issued my report dated August 16, 2024, on my consideration of Red River, Atchafalaya and Bayou Boeuf Levee District internal control over financial reporting and my test of its compliance with certain provision of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Red River, Atchafalaya and Bayou Boeuf Levee District internal control over financial reporting and compliance.

Independent Auditor's Report on Internal Control over Financial Reporting and On Compliance and
Other Matters Based on an Audit of the Financial Statements Performed in
Accordance with *Government Auditing Standards*

Board of Commissioners
Red River, Atchafalaya and Bayou Boeuf Levee District
Alexandria, Louisiana

I have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the government activities of Red River, Atchafalaya and Bayou Boeuf Levee District, a component unit of the State of Louisiana, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Red River, Atchafalaya and Bayou Boeuf Levee District basic financial statements and have issued my report thereon dated August 16, 2024.

Report on Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Red River, Atchafalaya and Bayou Boeuf Levee District internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Red River, Atchafalaya and Bayou Boeuf Levee District internal control. Accordingly, I do not express an opinion on the effectiveness of Red River, Atchafalaya and Bayou Boeuf Levee District internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Red River, Atchafalaya and Bayou Boeuf Levee District, a component unit of the State of Louisiana, financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements, noncompliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective on my audit and, accordingly, I do not express such an opinion. The results of my test disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

*Explanations

- (1) Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the government funds.
- (2) Deferred inflows and outflows of resources relating to pensions and OPEB are not available to pay for current-period expenditures and, therefore are not reported in the government funds,
- (3) Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the government funds.
- (4) GASB 87 for lease recognition do not have current financial resources and are not reported in the government fund.

The notes and the independent auditor's report are an integral part of this statement.

	<u>(118,450)</u>		<u>10,402</u>
Excess of Revenues and gain on sale of assets over expenditures	558,776		-
CHANGES IN NET POSITION			1,458,807
FUND BALANCE/NET POSITION			
Beginning of the year	5,179,616		(53,854)
End of the year	<u>\$ 5,738,392</u>		<u>1,404,953</u>

* Explanations

- (1) Expenses of long-term obligations for compensated absences, the pension plans, other post employment benefits reported in and non-employer contributions the Statement of Activities do not require the use of current financial resources and are not reported as expenditures in the government funds.
- (2) The government funds reports capital outlays as expenditure while the Statement of Activities allocates the cost of those assets over their estimated useful lives as depreciation expense.

The notes and the independent auditor's report are an integral part of this statement.

RED RIVER, ATCHAFALAYA AND BAYOU BOEUF LEVEE DISTRICT

STATE OF LOUISIANA

Notes to Financial Statements As of and for the Year ended June 30, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. INTRODUCTION

The Red River, Atchafalaya and Bayou Boeuf Levee District (the "District") was created by the Louisiana State Legislature under the provisions of Louisiana Revised Statute R.S. 38:291(M). The following is a brief description of the operations of the District and includes the parish/parishes in which the District is located. The District includes all or portions of Avoyelles, Rapides and St. Landry parishes. The District provides flood protection for those areas contained in the District. The Board of Commissioners administers the operations and responsibilities of the District in accordance with the provisions of Louisiana Statutes. The three members of the Board of Commissioners which governs the District are appointed by the Governor of the State of Louisiana. Effective August 1, 2024, Act 372 will allow the governor to appoint five individuals from the district to the board.

B. Reporting Entity

GASB Codification Section 2100 has defined the governmental reporting entity to be the State of Louisiana. The Levee District is considered a component unit of the State of Louisiana because the state exercises oversight responsibility in that the governor appoints the board members and can impose his will on the district. The accompanying general-purpose financial statements contain information only as to the transactions of the District. Annually, the State of Louisiana issues general purpose financial statements, which include the activity contained in the accompanying financial statements.

C. Basis of Presentation

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the primary government (the District). Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange or exchange-like transactions should be recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from nonexchange transactions should be recognized in accordance with the requirements of GASB Codification Section N50.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to the specific function. Revenues that are not classified as program revenues, including all taxes, interest income and miscellaneous revenues are presented as general revenues.

Government Fund Financial Statements

The fund financial statements provide reports on its financial condition and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

Funds of the District are classified as governmental funds. Governmental funds account for districts general activities, including the collection and disbursement of specific or legally restricted monies. Governmental funds of the district include:

General Fund—the general fund is the operating fund of the District and accounts for all financial resources.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-wide financial statements (GWFS) use the economic resources measurement focus and the accrual basis of accounting in the preparation of The Statement of Net Position and the Statement of Activities. Revenues are recorded using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements (FFS) are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, if measurable, except for unmatured principal and interest on long-term debt which is recognized when due. Compensated absences and claims and judgments are reported in the governmental fund only if the claims are due and payable.

D. Eliminating Internal Activity

Interfund receivables and payables are eliminated in the Statement of Net Position except for the net residual amounts due between governmental and business-type activities. There are no internal activities.

E. Capitalizing Assets

Assets used in operations with an initial useful life that extends beyond one year are capitalized. Equipment, furniture and fixtures, leasehold improvements, and buildings are depreciated over their estimated useful lives. Depreciation is not calculated on land, land improvements or construction in progress. Accumulated depreciation is recorded at net of depreciable assets in the Statement of Net Position.

F. Use of Estimates

The preparation of financial statements inconformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

G Cash and Cash Equivalents

Cash includes amounts in demand deposits, interest bearing demand deposits, and time deposits. Cash equivalents include amounts in time deposits that mature within 90 days after year end and other investments with original maturities of 90 days or less. Under state law, the district may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or under the laws of the United States.

Under state law, the districts may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days. However, if the original maturities are 90 days or less, they are classified as cash equivalents.

H. Receivables and payables

Receivable include GASB 87 lease revenue and other assessments, while accounts payables include purchase from various vendors for operating expenses and retirement contributions for June.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

I. Investments

The District utilizes the Louisiana Asset Management Pool (LAMP), an external investment pool for investment funds. The investments are carried at fair market value and amortized cost.

J. Deferred Outflows/Inflows of Resources

The statement of net position reports in a separate section deferred inflows and outflows of resources. Deferred outflow of resources is a consumption of net assets by the government that is applicable to a future reporting period while deferred inflows of resources is an acquisition of net assets by the government that is applicable to the future reporting period. The District reported deferred inflows and outflows of resources related to lease revenue, pension, OPEB and of resources related to unavailable ad valorem tax revenues.

K. Compensated Absences

The liability for compensated absences reported in the government-wide fund statements consist of unpaid, accumulated annual leave and sick leave balances. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon determination, an employee is compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon termination, the number of hours of unused sick leave is computed and considered in computing the years of service for retirement benefit purposes.

L. Revenues

Revenue is generated from property tax assessment of 3.71 mills, 20 cents per acre and \$100 per mile of rail road track from the parishes of Rapides, St. Landry and Avoyelles. . These revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the fiscal year. The calendar of events for the 2019, ad valorem tax roll and the assessments was as follows:

	<u>Ad valorem taxes</u>
Levy date	January 1, 2024
Due date	December 31, 2023
Lien date	January 1, 2024
Collection date	December 3, 2023

State revenue sharing revenues and the self-generated fees are recorded when the district is entitled to the funds from the same three parishes.

Program Revenues

The Statement of Activities presents three categories of program revenues - (1) charges for services, (2) operating grants and contributions, and (3) capital grants and contributions. Charges for services - are revenues from exchanges or exchange like transactions with external parties that purchase, use or directly benefit from the programs goods, services, or privileges. These revenues include fees charged for specific services, and operating special assessment, and include payments from exchange transactions with other governments.

Grants and contributions - whether operating or capital in nature, are revenues arising from receipts that are reserved for a specific use.

M. Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Compensated absences are recognized as expenditures when leave is actually taken or when the employees (or heirs) are paid for accrued leave upon termination or death, while the cost of leave privileges not requiring current resources are recorded as a long-term debt.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

N. Other Financing Sources (Uses)

Proceeds from the sale of fixed assets and debt acquired for the construction and purchase of fixed assets are accounted for as other financing sources and are recognized when received. Fixed assets acquired through capital leases are recorded as *expenditures and other financing sources at the time of acquisition.*

The Louisiana Legislature made a one-time contribution to the LASERS included as a Non-Employer contribution.

O. Capital Assets

Capital assets purchased are recorded at cost and depreciated over their estimated useful lives. Estimated useful life is managements estimate of how long the asset is estimated to meet service demands. Straight line depreciation is used based on the following estimated useful lives:

Buildings and improvements	10- 40 years
Machinery and equipment	5-10 years

P. Budget Practices

A budget is prepared and adopted prior to July 1 of each year for its general fund and is amended when projected revenue and/or expenditures are expected to be more than 5% or more than the budgeted amount.

All expenditure appropriations lapse at year end. Unexpended appropriations and any excess revenues over expenditures are carried forward to the subsequent year as beginning fund balance.

Formal integration of the budget into the accounting records is employed as a management control device. Budget amounts included in the accompanying financial statements include the original adopted budget and all subsequent amendments, if any.

Q. Equity Classifications

Government-Wide Statements:

1. Net investment in capital assets – Consists of net capital assets reduced by the outstanding balance of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increase by balances of deferred outflows of resources related to those assets.
2. Restricted net position – Net position is considered restricted if their use is constrained to a particular purpose. Restrictions can be imposed by either external organization such as creditors (such as debt covenants), grants, contributors, laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. Restricted net position is reduced by liabilities and deferred inflows of resource related to the restricted assets.
3. Unrestricted net position – All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Government Fund Financial Statements:

GASB 54 Statement No. 54 establishes standards for five fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of resources reported in government funds. The non-spendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned and unassigned.

Restricted Fund Balance – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the Board – the highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the Board removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual requirements.

Assigned Fund Balance – These are amounts that are constrained by the Board's intent to be used for specific purposes, but are neither restricted nor committed. The board's management has the authority to assign amount to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the general fund, that are not classified as non-spendable and are neither restricted nor committed.

R. Equity Classifications

Unassigned Fund Balance – This fund balance is the residual classification for the general fund. This represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

When both restricted and unrestricted resources are available for use, it is the board's policy to use externally restricted resources first, then unrestricted resources – committed, assigned, and unassigned – in order as needed.

S. Post-Employment Health Care and Dental Insurance Benefits (OPEB)

The District provides certain continuing health care and dental benefits for its retired employees. The District recognized the cost of providing these retiree benefits as expenditure when paid during the year.

T. Net Pension Liability, Deferred Outflows/Inflows of Resources

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and additions to/deductions from the system's fiduciary net position have been determined on the same basis as they are reported by the system. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

U Recent Accounting Pronouncements

In June 2017, the Governmental Accounting Standards Board (GASB) issued GASB 87, Leases, which require leases to be recorded by the lessee and the lessor as an asset and/or a liability on the balance sheet where the term of the lease obligation is for more than twelve months.

2. CASH AND DEPOSITS WITH FINANCIAL INSTITUTIONS

For reporting purposes, deposits with financial institutions include savings, demand deposits, time deposits, and certificates of deposits. All deposits are carried at cost plus accrued interest. Under state law these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The depository bank places approved pledged securities for safekeeping and trust with the District's in an amount sufficient to protect Districts funds on a day-to-day basis. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposits Insurance Corporation (FDIC) Insurance.

<u>Depository Account</u>	<u>Amount</u>
Insured	\$ 350,755
Collateralized	
Uncollateralized	
Collateralized with securities held by the pledging financial institution	1,114,806
Collateralized with securities held by the pledging financial institutions trust department	
Total bank balances exposed to custodial credit risk	<u>\$ 1,465,561</u>
Total bank balances	
Cash and cash equivalents	\$ 1,364,806
Savings account	100,755
	<u>\$ 1,465,561</u>

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. The District does not have a deposit policy for custodial credit risk. As of June 30, 2024, the District's deposits were secured from risk by federal deposit insurance and pledged securities. As of June 30, 2024, the District's bank balance was not exposed to custodial credit risk.

3. INVESTMENTS

As of June 30, 2024, the District investments are maintained in the Louisiana Asset Management Pool, Inc.

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA R.S. 33:2955.

GASB Statement No. 40 Deposit and Investment Risk Disclosure, requires disclosure of credit risk, custodial credit risk, concentration of credit risk interest rate risk, and foreign currency risk for all public entity investments.

LAMP is an investment pool that, to the extent practical, invests in a manner consistent with GASB Statement No. 79. The following facts are relevant for investment pools:

Credit risk: LAMP is rated AAAm by Standard & Poor's.

Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.

Concentration of credit risk: Pooled investments are excluded from the 5 percent disclosure requirement.

RED RIVER, ATCHAFALAYA AND BAYOU BOEUF LEVEE DISTRICT
 Alexandria, Louisiana
 Notes to the Financial Statements (Continued)

3. INVESTMENTS Con't.

Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments.

Foreign currency risk: Not applicable.

The investments in LAMP are stated at fair value. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the net asset value of the pool shares. The fair value at year end was \$4,344,488.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

Financial statements can be obtained from www.lamppool.com.

4. LEVIED TAXES AND CHARGES

	<u>Authorized Millage/Rate</u>	<u>Levied Millage</u>	<u>Expiration Date</u>

8. PENSION PLAN

The District is a participating employer in a statewide, public employee retirement system, the Louisiana State Employees' Retirement System (LASERS). LASERS has a separate board of trustees and administers a cost-sharing, multiple-employer defined benefit pension plan including cases of employees with different benefits and contributions rates (sub-plans). Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of all but-plans administered by LASERS to the State Legislature. LASERS issues a public report that includes financial statements and required supplementary information, a copy of the report may be obtained at www.laseronline.org.

Plan Description

LASERS administer a plan to provide retirement, disability, and survivor benefits to eligible state employees and their beneficiaries as defined in R.S. 11:411-414. The age and years of creditable service required for a member to receive retirement benefits are established by R.S. 11:441 and very depending on the member's hire date, employer and job classification. Act 992 of the 2010 Regular Legislative Session closed existing sub-plans and members hired before January 1, 2011, and created new sub-plans for regular members, hazardous duty members, and judges.

Benefits Provided

The substantial majority of members may retire with full benefits at any age after completing 30 years of service and at age 60 after completing 5-10 years of service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit. Eligibility for retirement benefits and the computation of retirement benefits are provided for in R.S. 11:444. The basic annual retirement benefit for member is equal to a percentage (between 2.5% and 3.5%) of average compensation multiplied by the number of years of service, generally not to exceed 100% of average compensation. Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed after that date. After member leaving service before attaining minimum retirement but after completing certain minimum service requirements, generally 10 years, becomes eligible for a benefit provided the member lives to the minimum service retirement age and does not withdraw the accumulated contributions.

Disability Benefits

Eligibility requirements and benefit computations for disability benefits are provided for in R.S. 11:461. All members with 10 or more years of service or member aged 60 or older regardless of date of hire who become disabled may receive a maximum disability benefit equivalent to the regular retirement formula without reduction of reason of age. Hazardous duty personnel who become disabled in the line of duty will receive a disability benefit equal to 75% of final average compensation.

8. PENSION PLAN Cont.7

Survivor Benefits

Provisions for survivor benefits are provided for in R.S. 11:471-478. Under these statutes, the deceased member who was a state service at the time of death must have a minimum of five years of service, at least two of which were earned immediately prior to death, or who has a minimum of 20 years of service regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18 or age 23 if the child remains a full-time student. The minimum service requirement is 10 years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

DROP

LASERS has established a Deferred Retirement Option Plan (DROP). When member enter DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period up to three years. The election is irrevocable once participation begins. During participation, benefits otherwise payable are fixed and deposited in the individual DROP account. Upon leaving DROP, members must choose among available alternative for the distribution of benefits that have accumulated in their DROP accounts.

Cost of Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, LASERS allows for the payment of cost of living adjustments, or COLAs, that are funded through investment earnings when recommended by the board of trustees and approved by the Legislature. The ad hoc COLAs are not considered to be substantively automatic.

Contributions

Employer contributions are actuarially determined using statutory established methods on an annual basis and are constitutionally required to cover the employer's portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendations of the Public Retirement Systems' Actuarial Committee.

Employers contributions for LASERS for the fiscal years 2024 were \$338,079, with active member contributions ranging from 7.5% to 8%, and employers contributions of 41.30%.

Legislative Acts Contributions – included appropriations by the State Legislature to cover unfunded accrued pension liabilities in the amount of \$128,853.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the District reported a liability of \$2,290,458, or its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of July 01, 2023, and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The District's proportion of the Net Pension Liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At July 01, 2023, the District's proportion was 0.03422%, which was a decrease of 0.00473% from its proportion measured as of June 30, 2023.

For the year ended June 30, 2024, the District recognized pension expense of \$184,418. This debit was from the increase of the Net Pension Liability determined by the actuary that was adjusted mostly for the increase of net investment income for LASERS

RED RIVER, ATCHAFALAYA AND BAYOU BOEUF LEVEE DISTRICT
 Alexandria, Louisiana
 Notes to the Financial Statements (Continued)

8. PENSION PLAN Cont.

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference Between Expected and Actual Experience Changes of Assumptions	\$ 49,582	
Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments	13,094	
Changes in proportionate share of net pension liability		
Changes in Proportion and Differences Between Employer Contributions and Proportionated Share of Contributions		(4,471)
Change in proportionate share of NPL Districts contributions subsequent to the measurement date		(160,648)
	<u>338,079</u>	
Total	<u>\$ 400,755</u>	<u>(165,119)</u>

The District reported a total of \$338,079 as deferred outflow of resources related to pension contributions made subsequent to their respective measurement periods which will be recognized as a reduction in net pension liability in the year ended June 30, 2024.

<u>Year</u>	
2025	\$ (102,512)
2026	(82,716)
2027	112,812
2028	(30,027)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Actuarial assumptions – A summary of the actuarial methods and assumptions used in determining the total pension liability as of the respective years shown below are as follows:

Valuation date	June 30, 2023
Actuarial cost method	Entry Age Method
Actuarial value of assets	Market Value
Discount rate	7.25%
Inflation	2.30%
Salary increase	3.00%
Long-term expected rate of return	5.75%
Investment rate of return - net of pension plan investment expense, including inflation	7.25%
Expected remaining service lives	2 years

Mortality

Non-disabled members - The RP2014 Blue Collar and White Collar Healthy Annuitant Tables projected on a fully generational basis by Mortality Improvement scale MP-2018

Disabled members - Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement.

8. PENSION PLAN Cont.

Termination, Disability and Retirement

Termination, disability, and retirement assumptions were projected based on a five-year (2014-2018) experience study of the System's members.

Salary Increases

Salary increases were projected based on a 2014-2018 experience study of the System's members. The rates include anticipated productivity growth, merit adjustments, and a 3% inflation component.

Cost of Living Adjustments

The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The Projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

Long term expected rate of return:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	0.80%
Domestic equity	4.45%
International equity	5.44%
Domestic fixed income	2.04%
International fixed income	5.33%
Alternative investments	8.19%
The total fund	5.75%

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions from participating employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

8. PENSION PLAN Cont.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Employer's proportionate share of the Net Pension Liability using the discount rate of 7.25%, as well as what the Employer's proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage-point higher (8.25%) than the current rate:

	<u>1% Decrease</u>	<u>Current Discount Rate</u>	<u>1% Increase</u>
Rates	6.25%	7.25%	8.25%
The Commissions share of NPL	\$ 2,999,166	2,290,458	1,690,033
<i>Pension Plan Fiduciary Net Position</i>			

Detailed information about the pension plan's fiduciary net position is available in the separately issued LASERS 2023. Comprehensive Annual Financial Report at www.lasersonline.org.

Payable to the Pension Plan

At June 30, 2024, the District included in accounts payable to the pension plan of \$31,735.64 the end of the fiscal year.

9. OTHER POST-EMPLOYMENT BENEFITS

Plan Description. The District's employees may participate in the State of Louisiana's Other Post-Employment Benefit Plan (OPEB Plan) and multiple-employer defined benefit OPEB plan and provides medical, prescription drug, and life insurance benefits to eligible active employees, retirees and their beneficiaries.

The State administers the OPEB Plan through Office of Group Benefits (OGB). R.S. 42:801-883 provides the authority to establish and amend benefit provisions of the OPEB Plan. OGB offers several standards healthcare plans for both active and retired employees. OGB does not issue a publicly-available financial report of the OPEB Plan; however, it is included in the state of Louisiana's Comprehensive Annual Financial Report (CAFRA). The CAFRA may be obtained from the Office of Statewide Reporting and Accounting Policy's website at www.doa.la.gov/osrap.

Funding Policy. The contribution requirements of plan members and the District are established and may be amended by R.S. 42:801-883. There are no assets accumulated in the trust that meets the criteria in GASBS no. 75, paragraph 4, to pay related benefits. The plan is funded on a pay- as-you-go basis through the combination of retiree and District contributions. Employees do not contribute to their postemployment benefits cost until they become retirees and begin receiving those benefits. The retirees contribute to the cost of retiree healthcare based on a service schedule. Contribution amounts vary depending on what healthcare provider is selected from the plan and if the member is Medicare coverage.

Employer contributions are based on plan premiums and the employer contribution percentage. This percentage is based on the date of participation in the OGB plan (before or after January 1, 2002) and employee years of service at retirement. Employees who begin participation or rejoin the plan before January 1, 2002, pay approximately 25% of the cost of coverage (except single retirees under age 65 who pay approximately 25% of the active employee cost). For those beginning participation or rejoining after December 31, 2001, pay a percentage of the retiree contribution rate based on the following schedule:

<u>OGB Participation</u>	<u>Retiree Share</u>	<u>State Share</u>
Under 10 years	81%	19%
10-14 years	62%	38%
15-19 years	44%	56%
20+ years	25%	75%

9. OTHER POST-EMPLOYMENT BENEFITS-Con't

In addition to healthcare benefits, retirees may elect to receive life insurance benefits. Basic and supplemental life insurance is available for the individual retiree and spouses of retirees subject to maximum values. Employers pay approximately 50% of the monthly premiums. Participating retirees paid \$0.54 each month for each \$1,000 of life insurance and \$.098 each month for each \$1,000 of spouse life insurance.

Total Collective OPEB Liability and Changes to Total Collective OPEB liability

At June 30, 2024 the District reported a liability of \$4,015,367 for its proportionate share of the total collective OPEB liability. The total collective OPEB liability was measured as of July 1, 2023, and was determined by an actuarial valuation as of that date. At June 30, 2023, the District's proportion was .000582%.

Actuarial assumptions – The total OPEB liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement, unless otherwise specified:

The discount rate used is 4.13% based on the June 30, 2023 S&P 20-year municipal bond index rate.

Measurement date	July 1, 2023
Discount rate	4.13%
Actuarial cost method	Engry Age Normal
Salary increases	3.75%

The mortality assumption used was the RP-2014 Blue Collar Employee Table adjusted by 0.978 for males and 1.144 for females, projected from 2014 on a fully generational basis by Mortality improvement Scale MP-2018.

The following changes have been made to the actuarial assumptions since the last measurement date:

- Changes in benefits - None
- Changes in assumptions:
 1. Discount rate decreased from 4.09% to 4.13%
 2. Baseline per capital cost were updated to reflect 2023 claims and enrollment.
 3. Medical plan election percentages were updated based on the coverage elections of recent retirees.
 4. The healthcare cost trend was updated
Trend Survey information.

Schedule in changes in total OPEB liability are as follows:

	OPEB Liability
Balance at June 30, 2023	\$ <u>3,730,464</u>
Service Cost	77,639
Interest	154,705
Changes in assumptions	142,772
Diff in expected and Actual Benefit Payments	23,038
Change in proportion	60,371
Diff of Employer Prop share at Collective Benefit pmts & employers actual benef payments	(28,608)
Benefit payments made in year	<u>(145,014)</u>
Net changes	284,903
Balance at June 30, 2024	\$ <u>4,015,367</u>

9. OTHER POST-EMPLOYMENT BENEFITS-Con't

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the Districts, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1-percent point lower (3.13%) or 1 percentage point higher (5.13%) than the current discount rate:

	1% Decrease 3.13%	Discount Rate 4.13%	1% Increase 5.13%
Total OPEB liability	\$ 4,680,491	4,015,367	3,485,349

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates. The following presents the total OPEB liability of the Districts, as well as what the District's total OPEB liability would be if it were calculated using healthcare trend rates that are 1-percent point lower or 1 percentage point higher than the current healthcare cost trend rates.

	1% Decrease	Current Trend Rate	1% Increase
Total OPEB liability	\$ 3,485,340	4,015,367	4,683,054

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OEPB

For the year ended June 30, 2024, the District recognized an OPEB expense of \$201,072 and reported no deferred outflow of resources or deferred inflow of resources for the fiscal year ended.

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 81,037	
Changes in assumptions	253,135	(839,773)
Change to employer's proportionate share	57,736	(275,175)
Difference of proportionate share of employers benefits payments and actual benefit payments		(50,912)
Contributions subsequent to the measurement date	170,345	-
	<u>\$ 562,253</u>	<u>(1,165,860)</u>

The District reported a total of \$145,014 reported as deferred outflows of resources related to OPEB resulting from the Districts contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2025	\$ (303,012)
2026	(334,087)
2027	(160,345)
2028	23,493

Payable to the OPEB plan

At June 30, 2024, the District reported a payable of \$-0- for the outstanding amount of contributions to OGB required for the current year ended.

10. Risk Management

The Red River, Atchafalaya and Bayou Boeuf Levee District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District.

11. RESTRICTED FUNDS – HYDROLOGIC & HUDRAULIC (H&H) STUDIES

The activity of the restricted funds during the fiscal year are as follows:

Restricted funds at beginning of the year	\$ 118,450
Funds released during the year	(118,450)
Remaining restricted funds at year end	<u>\$ -</u>

12. LONG-TERM LEASE REVENUE

The Levee District owns vacant land they are leasing for campsites, homesites, hunting, grazing, and agriculture. The leases are awarded to the highest bidder for a three year period with options to extend the original lease by three additional years. The amount of the inflow of lease revenue is \$835,461 with future minimum payments over the lease term of:

2025	\$ 167,396
2026	130,322
2027	119,124
2028	119,123
2029	106,187
2030	105,886
2031	81,335
2032	5,988
2032	<u>100</u>
	<u>\$ 835,461</u>

13. SUBSEQUENT EVENTS

The District has evaluated subsequent events for potential recognition of disclosure in the financial statements through August 16, 2024, the date which the financial statements were available to be issued.

14. OTHER COMMITMENTS

At the end of the year, the District has committed itself to construction contracts. The remaining commitment at year end is approximately \$337,575.

Personal services and related benefits	520,169
Other financial sources of income	10,405
Depreciation expense	(258,300)
Capital outlay	<u>627,757</u>
GAAP Basis	<u>\$ 1,458,807</u>

Summary of Significant Variances in the Budget

Budgetary Process

The proposed budget for 2023 - 2024 was made available for public inspection. The proposed budget, prepared on the modified accrual basis of accounting, was published in the official journal at least (10) days prior to the public hearing, which was held at the Red River Atchafalaya Boeuf Levee District located at 10 Calvert Drive, for the comments from taxpayers. The budget is legally adopted and amended, as necessary, by the Board of Commissioners.

All expenditure appropriations lapse at year end. Unexpended appropriations and any excess revenues over expenditures are carried forward to the subsequent year as beginning fund balance.

There is a positive variance of 38% from a decrease of capital outlay expenditures that have not occurred by year end. When the Board determines there are project(s) that need to occur they vote on the project and if passed place an estimated amount of the project in the capital outlay before proposal(s) have been requested.

Operating expense have decreased 35% from a decline of repair cost. The Board has been replacing old equipment with new that reduced the need for repairs.

Budgetary Basis of Accounting

The District's budgetary process accounts for certain transactions on a basis other than GAAP. The basic differences arise through the employment basis of accounting for budgetary purposes which differs from basis of accounting applicable to the fund type when reporting on the operations in accordance with GAAP.

Other Postemployment Benefits (OPEB)

If your agency has active or retired employees who are members of the Office of Group Benefits (OGB) Health Plan, please provide the following information: (Note: OGB has a 6/30/2023 measurement date for their OPEB valuation)

Benefit payments made subsequent to the measurement date of the OGB Actuarial Valuation Report until the employer's fiscal year end. (Benefit payments are defined as the employer payments for retirees' health and life insurance premiums). For agencies with a 6/30 year end this covers the current fiscal year being reported. For calendar year end agencies, it covers the period 7/1 to 12/31 for the current year being reported. 170,325.00

Covered Employee Payroll for the PRIOR fiscal year (not including related benefits) 776,611.00

For calendar year-end agencies only: Benefit payments or employer payments for retirees' health and life insurance premiums made for the next year's valuation reporting period (7/1/2023 - 6/30/2024). This information will be provided to the actuary for the valuation report early next year. 0.00

For agencies that have employees that participate in the LSU Health Plan, provide the following information: (Note: The LSU Health Plan has a measurement date of 6/30/2024 for their OPEB valuation report.)

Covered Employee Payroll for the CURRENT fiscal year (not including related benefits) 0.00

FUND BALANCE/NET POSITION RESTATEMENT

ERROR CORRECTIONS

For each beginning net position restatement resulting from a correction of an error, select the SNP account and the SOA account affected by the error. Only material errors should be restated. Immaterial errors should be corrected through current period revenue or expenses, as applicable. In the description field, explain the nature of the error, and its correction, including periods affected by the error.

Account Name/Description	Beginning Net Position Restatement Amount
Total Restatement - Error Corrections	\$0.00

CHANGES IN ACCOUNTING PRINCIPLE

For each beginning net position restatement resulting from the application of a new accounting principle, select the SNP account and the SOA account that are affected by the change in accounting principle. In the description field explain the nature of the change in accounting principle and the reason for the change. If the change is due to the implementation of a new GASB pronouncement, identify the pronouncement that was implemented.

Account Name/Description	Beginning Net Position Restatement Amount
Total Restatement - Changes in Accounting Principle	\$0.00

CHANGES IN REPORTING ENTITY

Describe the nature and reason for the change to or within the financial reporting entity and list the effect (amount) on beginning net position.

Description	Effect on Beginning Net Position
	0.00
Total Restatement - Changes in Reporting Entity	\$0.00
