Public Defender
The Thirty-Eighth Judicial District Indigent Defender Fund
Cameron, Louisiana

Management is responsible for the accompanying financial statements of the governmental activities and major fund of The Thirty-Eighth Judicial District Indigent Defender Fund, a component unit of the Louisiana Public Defender Board, as of June 30, 2022 and for the year then ended, and the related notes to the financial statements, which collectively comprise The Thirty-Eighth Judicial District Indigent Defender Fund's financial statements as listed in the table of contents in accordance with accounting principles generally accepted in the United States of America. We have preformed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

Required Supplemental Information

Accounting principles generally accepted in the United States of America required that the following supplemental information be presented to supplement the basic financial statements:

Budgetary Comparison Schedule Schedule of Employer's Proportionate Share of Net Liability Schedule of Employer Contributions

Such information is presented for purposes of additional analysis and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. This information is the representation of management. We have not performed an audit, review or compilation on the required supplemental information and accordingly, do not express an opinion, a conclusion, nor provide any assurance on such information.

Other Information

The accompanying schedule of compensation, benefits, and other payments to the chief executive officer, Justice System Funding Schedule – Collecting/Distributing Entity as Required by Act 87 of the 2020 Regular Legislative Session and Justice System Funding Schedule – Receiving Entity as Required by Act 87 of the 2020 Regular Legislative Session are presented for purposes of additional analysis and is not a required part of the basic financial statements. The information is the representation of management. The information was subject to our compilation engagement, but we have not audited or reviewed the supplemental information and accordingly, do not express an opinion, a conclusion, nor provide any assurance on such information.

Public Defender December 12, 2022 Page Two

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Gragon, Casiday: Shillory

Total changes in net position at June 30, 2022 per Statement of Activities		\$ 96,131

Notes to Basic Financial Statements

June 30, 2022

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Thirty-Eighth Judicial District Indigent Defender Fund, Parish of Cameron, Louisiana (District), is established in compliance with Louisiana Revised Statutes 15:144-149, to provide and compensate counsel appointed to represent indigents in criminal and quasi-criminal cases on the district court level. The judicial district encompasses the Parish of Cameron, Louisiana.

The more significant of the government's accounting policies are described below.

1. Reporting Entity

GASB Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. For financial reporting purposes, in conformance with GASB Statement No. 14, The Thirty-Eighth Judicial District Indigent Defender Fund includes all funds, account groups, et cetera, that are within the oversight responsibility of The Thirty-Eighth Judicial District Indigent Defender Fund.

As the governing authority, for reporting purposes, the Louisiana Public Defender Board is the financial reporting entity. The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Louisiana Public Defender Board for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability.

Notes to Basic Financial Statements

June 30, 2022

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

- 1. Appointing a voting majority of an organization's governing body and
 - a. The ability of the Louisiana Public Defender Board to impose its will on that organization and/or
 - The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Louisiana Public Defender Board.
- 2. Organizations for which the Louisiana Public Defender Board does not appoint a voting majority but are fiscally dependent on the Louisiana Public Defender Board.
- 3. Organizations for which the reporting entity financial statements could be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based upon the application of these criteria, The Thirty-Eighth Judicial District Indigent Defender Fund is a component unit of Louisiana Public Defender Board.

2. Basis of Presentation

The accompanying basic financial statements of the District have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments", issued in June 1999.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. They include all funds of the reporting entity. Governmental activities generally are financed through court costs, intergovernmental revenues, and other nonexchange revenues.

Notes to Basic Financial Statements

June 30, 2022

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The statement of activities presents a comparison between direct expenses and program revenues for each of the functions of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

Program revenues include (a) fees and charges paid by the recipients of services offered by the District; and (b) grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements

The District uses funds to maintain its financial records. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts.

The District has one fund, the General Fund, which is therefore considered its major fund.

Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide statement of net position and the statement of activities, the activities are presented using the economic resources measurement focus. In the fund financial statements, the "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Notes to Basic Financial Statements

June 30, 2022

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Basis of Accounting

In the government-wide statement of net position and statement of activities, the activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures (including capital outlay) generally are recorded when a liability is incurred, as under accrual accounting.

4. Cash

Cash includes amounts in demand deposits and time deposits with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. At June 30, 2022 the carrying amount was \$322,290 and the bank balance was \$331,730, all of which was covered by federal depository insurance and collateral securities.

Notes to Basic Financial Statements

June 30, 2022

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

5. Budgets

A budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America. All annual appropriations lapse at fiscal year end.

On or before the last meeting of each year, the budget is prepared by function and activity, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

The proposed budget is presented to the district's Board of Directors for review. The board may add to, subtract from or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated

Expenditures may not legally exceed budgeted appropriations at the activity level.

6. Accounts Receivable

No reserve for uncollectible receivables had been recorded as of June 30, 2022, as all receivables were considered collectible.

7. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The minimum capitalization threshold is any individual item with a total cost greater than \$500.

Notes to Basic Financial Statements

June 30, 2022

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Equipment 3-7 years

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

8. Compensated Absences

All permanent, full-time employees earn from 22 to 42 days of vacation and sick leave each year, depending upon length of service. Leave is available for use by employees in the fiscal year it was earned. At June 30, 2022, the liability for compensated absences was zero.

9. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Notes to Basic Financial Statements

June 30, 2022

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

10. Equity Classification

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets— Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- Unrestricted net position All other net position that do not meet the definition of "restricted" or "net investment in capital assets".

In the fund statements, governmental fund equity is classified as fund balance. Fund balance is further classified as restricted, assigned and unassigned.

- a. Restricted fund balance includes fund balance amounts that are intended to be used for specific purposes based on generally outside actions.
- b. Assigned fund balance includes fund balance amounts that are intended to be used for specific purposes based on internal (board) actions.
- c. Unassigned fund balance includes positive fund balance within the general fund which has not been classified within the above mentioned categories.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it shall be the policy of the District to consider restricted amounts to have been reduced first. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it shall be the policy of the District the committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts.

Notes to Basic Financial Statements

June 30, 2022

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Restricted net position, and fund balance, of \$44,951 at June 30, 2022 represents funds received from grants and fees that are restricted for expert witness and juvenile cases.

11. Subsequent Events

Management has evaluated subsequent events through December 12, 2022, the date the financial statements were available to be issued.

12. Comparative Data

Comparative totals for the prior period have been presented in the accompanying financial statements in order to provide an understanding of changes in the District's financial position and operations.

NOTE B - CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2022 follows:

	Beginning <u>of Year</u>	Additions	<u>Deletions</u>	End of <u>Year</u>
Governmental activities:				
Equipment	\$ 2,727	\$ -	\$ -	\$ 2,727
Less accumulated depreciation for:				
Equipment	<u>2,727</u>			2,727
Governmental activities capital				
assets, net	<u>\$</u>	<u>\$</u>	<u>\$</u>	<u>\$</u>

NOTE C - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

Notes to Basic Financial Statements

June 30, 2022

NOTE D - GOVERNMENT FUND REVENUES AND EXPENDITURES

For the year ended June 30, 2022, the major sources of governmental fund revenues and expenditures were as follows:

Total Expenditures	<u>\$ 106,487</u>

Notes to Basic Financial Statements

June 30, 2022

NOTE E - PENSION PLANS

Parochial Employees Retirement System of Louisiana

The employee of The Thirty-Eighth Judicial District Indigent Defender Fund is a member of the Parochial Employees Retirement System of Louisiana (System), a cost-sharing, a multiple-employer defined benefit pension plan administered by a separate board of trustees. The System is composed of two plans, Plan A and Plan B, with separate assets and benefit provisions. The employee is a member of Plan A.

All permanent employees working at least 28 hours per week who are paid wholly or in part from district funds are eligible to participate in the System. Under Plan A, for employees hired prior to January 1, 2007 (after January 1, 2007), employees who retire at or after age 65 (67) with at least 7 years of creditable service, at or after age 60 (62) with at least 10 years of creditable service, at or after age 55 with at least 25 (30) years of creditable service, or at any age with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3 percent of their final-average salary for each year of creditable service. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above and do not withdraw their employee contributions, may retire at the ages specified above and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established or amended by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Parochial Employees' Retirement System, Post Office Box 14619, Baton Rouge, Louisiana 70898-4619, or by calling (504) 928-1361.

Under Plan A, members are required by state statute to contribute 9.50 percent of their annual covered salary and the employer is required to contribute at an actuarially determined rate. The current employer rate is 12.25 percent of annual covered payroll.

Notes to Basic Financial Statements

June 30, 2022

NOTE E – PENSION PLANS (CONTINUED)

Contributions to the System also include one-fourth of one percent of the taxes shown to be collectible by the tax rolls of each parish, except Orleans and East Baton Rouge Parishes. These tax dollars are divided between Plan A and Plan B, based proportionately on the salaries of the active members of each plan. The contribution requirements of plan members and the employers are established, and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Thirty-Eighth Judicial District Indigent Defender Fund's contributions to the System under Plan A for the year ended June 30, 2022 was \$5,595.

At June 30, 2022, the District reported an asset of \$24,598 for its proportionate share of the net pension liability (an asset of \$8,584 at June 30, 2021). The net pension liability was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to their pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2022, the District's proportion was .0052221%.

For the year ended June 30, 2022, the District recognized pension benefit of \$7,982 including employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, \$181. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Difference between expected and actual				
experience	\$	1,486	\$	1,783
Changes in proportion and differences between:				
Changes in:				
Assumptions		1,283		
Investments		-		21,277
Contributions and proportionate share of				
contributions		667		1,175
Contributions subsequent to the measurement				
date		5,595		
Total	\$	9,031	\$	24,235

Notes to Basic Financial Statements

June 30, 2022

NOTE E – PENSION PLANS (CONTINUED)

\$5,595 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other accounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	Amount
2023	\$(4,147)
2024	(1,295)
2025	(6,211)
2026	(3,448)
2027	-
Thereafter	-

Notes to Basic Financial Statements

June 30, 2022

NOTE E - PENSION PLANS (CONTINUED)

Actuarial methods and assumption. The total pension liability in the December 31, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation Date December 31, 2021

Actuarial Cost Method Entry Age Normal

Investment Rate of Return 6.40% (Net of investment expense)

Expected Remaining Service

Lives

4 years

Projected Salary Increases Plan A – 4.75% (2.35% Merit/2.30% Inflation)

Cost of Living Adjustments The present values of future retirement benefits is based

on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet amortized by the Board of

Trustees.

Mortality Pub-2010 Public Retirement Plans Mortality Table for

Health Retirees for annuitant and beneficiary mortality, Pub-2010 Public Retirement Plans Mortality Table for General Employees for employees, Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees for disabled annuitants each multiplied by 130% for males and 125% for females using MP2018 scale

The discount rate used to measure the total pension liability was 6.40% for Plan A. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers and non-employer contributing entities will be made at the actuarially determined contribution rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Basic Financial Statements

June 30, 2022

NOTE E - PENSION PLANS (CONTINUED)

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the capital asset pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations and projected on a forward looking basis in equilibrium, in which best estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.00% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 7.00% for the year ended December 31, 2021.

Best estimates of arithmetic real rates of return for major asset class included in the System's target asset allocation as of December 31, 2021 are summarized in the following table:

		Long-Term Expected
	Target Asset	Portfolio Real Rate of
Asset Class	Allocation	Return
Fixed income	33%	0.85%
Equity	51%	3.23%

The mortality rate assumption used was set based upon an experience study performed on plan data for the period January 1, 2013 through December 31, 2017. The data was assigned credibility weighting and combined with a standard table to produce current levels of mortality. As a result of this study, mortality for employees was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale. In addition, mortality for annuitants and beneficiaries was set equal to the Pub-2010 Public Retirement plans Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale. For Disabled annuitants mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale.

Notes to Basic Financial Statements

June 30, 2022

NOTE E – PENSION PLANS (CONTINUED)

Sensitivity to changes in discount rate. The following presents the net pension liability of the District calculated using the discount rate of 6.40%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower 5.40% or one percentage point higher 7.40% than the current rate.

	Changes in Discount Rate					
	1% Decrease 5.40%		Current Discount Rate 6.40%			
					1% Increase 7.40%	
Net Pension Liability (Asset)	\$	4.385	\$	(24,598)	\$	(48,877)
