Independent Auditors' Report

To the Honorable Mayor and Board of Aldermen  
Town of Lecompte, Louisiana

**REPORT ON THE FINANCIAL STATEMENTS**

**Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Lecompte, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town of Lecompte, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Lecompte and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Lecompte's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Lecompte's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Lecompte's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Required Supplementary Information**

Accounting principles generally accepted in the United States of America require the information listed below to supplement the basic financial statements.

- Management's Discussion and Analysis
- Budgetary Comparison Information
- Schedule of Net Pension Liability Data
- Schedule of Employer Contributions

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our

inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Other Supplemental Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Lecompte's basic financial statements. The other supplemental information listed below is presented for purposes of additional analysis and are not a required part of the basic financial statements.

- Combining Balance Sheet – Non-Major Governmental Funds
- Combining Statement of Revenues, Expenditures and Changes in Fund Balance – Non-Major Governmental Funds
- Schedule of Per Diem Paid to Board Members
- Schedule of Compensation, Benefits and Other Payments to Agency Head or Chief Executive Officer
- Justice System Funding Schedule – Collecting/Disbursing Entity

The additional information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the additional information is fairly stated in all material respects in relation to the basic financial statements as a whole.

**OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARD**

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2022 on our consideration of the Town of Lecompte's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Lecompte's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable Mayor  
and the Board of Aldermen  
Town of Lecompte, Louisiana

We were engaged to audit, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Lecompte, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Town of Lecompte's basic financial statements, and have issued our report thereon dated December 30, 2022.

**INTERNAL CONTROL OVER FINANCIAL REPORTING**

In connection with our engagement to audit the financial statements, we considered the Town of Lecompte's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Lecompte's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

**COMPLIANCE AND OTHER MATTERS**

As part of obtaining reasonable assurance about whether the Town of Lecompte's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings as items 2022-001 and 2022-002.

**TOWN OF LECOMPTE'S RESPONSE TO FINDINGS**

*Government Auditing Standards* requires the auditor to perform limited procedures on the Town's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The Town's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

**PURPOSE OF THIS REPORT**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**June 30, 2022**

---

This section of the Town of Lecompte's annual financial report presents our discussion and analysis of the Town's financial performance during the fiscal year ended June 30, 2022.

### **OVERVIEW OF FINANCIAL STATEMENTS**

The basic financial statements include government-wide financial statements and fund financial statements. These two types of financial statements present the Town's financial position and results of operations from differing perspectives which are described as follows:

#### **Government –Wide Financial Statements**

The government-wide financial statements report information about the Town as a whole using accounting methods similar to those used by private-sector companies. These report all revenues and expenses regardless of when cash is received or paid. Furthermore, the government-wide statements include all of the Town's assets (including infrastructure acquired after July 1, 1980) and all of the Town's liabilities (including long-term debt).

The government-wide financial statements are divided into two categories, which are described as follows:

- **Governmental Activities** – Expenses incurred in connection with providing basic services including public safety, culture, recreation, public works and general administration are reported as governmental activities. The governmental activities are financed by taxes, license and permit fees, fines and forfeitures, and intergovernmental sources.
- **Business-Type Activities** – Expenses associated with providing utility and sanitation services are recovered through fees paid by the customers that utilize these services. These activities are operated in a manner similar to commercial enterprises. Accordingly, activities associated with these services are reported as business type activities.

#### **Fund Financial Statements**

Fund financial statements provide detailed information regarding the Town's most significant activities and are not intended to provide information for the Town as a whole. Funds are accounting devices that are used to account for specific sources of funds. The Town has two types of funds that are described as follows:

- **Governmental Funds** – These funds are used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, the governmental fund uses a modified accrual basis of accounting that provides a short-term view of the Town's finances. Assets reported by governmental funds are limited to amounts that are available for current needs. In addition, liabilities are limited to amounts that are expected to be paid from currently available assets.
- **Proprietary Fund** – These funds are used to account for activities that function in a manner similar to commercial enterprises, including activities associated with the Town's utility services. Proprietary fund financial statements typically provide a more detailed presentation of the information reported in the business-type activities portion of the government-wide financial statements.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**June 30, 2022**

---

### **Financial Analysis of the Town as a Whole**

A comparative analysis of government-wide financial data is presented as follows:

#### **Net Position**

A condensed version of the government-wide Statement of Net Position is presented as follows:

	<b>For the Year Ended June 30, 2022</b>			<b>For the Year Ended June 30, 2021</b>
	<b>Govern- mental Activities</b>	<b>Business- Type Activities</b>	<b>Total</b>

Unrestricted	(39,319)	----	(39,319)	(207,618)
Total Net Position	\$2,587,951	\$ 3,092,333	\$ 5,680,284	\$ 4,791,640

As the presentation appearing above demonstrates, the majority of the Town's net position is invested in capital assets. Net position invested in capital assets consists of land, buildings, equipment, and infrastructure less any debt used to acquire the assets that remain outstanding. The Town uses these capital assets to provide services to its citizens; consequently, these amounts are not available for future spending.

A portion of the Town's remaining net position is composed of restricted assets. These assets are unavailable for general expenses, as they must be used for their intended purposes. The Town's unrestricted fund balance has been eliminated due to the Town's participation in the retirement system.

Net Position Ending	\$ 2,587,951	\$ 3,092,333	\$ 5,680,284	\$ 4,791,640

Governmental activities increased the Town's net position by \$923,866. The increase is mainly attributable to an increase in reimbursements from the Rapides Parish Police Jury for maintaining streets and roadways within the Town's corporate limits, and the receipt of funding from the American Rescue Plan Act.

Business-type activities decreased the Town's net position by \$35,222, due primarily to the recognition of depreciation.

### **FINANCIAL ANALYSIS OF THE TOWN'S FUNDS**

An analysis of significant matters affecting the Town's funds is presented as follows:

# **Town of Lecompte**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**June 30, 2022**

---

- The Town's governmental funds reported a combined fund balance of \$253,850 which represents an increase of \$280,556 in comparison to the previous balance. The increase is primarily due to an increase in reimbursements from the Rapides Parish Police Jury for maintaining streets and roadways.
- The Town's general fund, which is available for spending at the Town's discretion, reported a fund balance of \$156,194. The general fund balance increased by \$294,216.
- Amounts reported for business-type activities in the Town's individual funds are identical to the business-type activities reported in the government-wide presentation.

### **GENERAL FUND BUDGET HIGHLIGHTS**

The Town's general fund and special revenue funds are required to adopt an annual budget and the budgets are amended as necessary. Some revisions to the original budgets were made to address revenues and related expenditures that were not anticipated when the original budget was prepared.

### **CAPITAL ASSET ADMINISTRATION**

Capital Asset activity in the current year consisted of the purchase of new equipment for the police department, construction of the West Sugar Street project, rehabilitation of Lecompte High School, and roadway improvements throughout the Town.

### **DEBT ADMINISTRATION**

The Town continued payments on the Town's Series 2010 bonds and the Town's Sewer Revenue Bonds. In addition, the Town began an installment purchase agreement to obtain two vehicle for the police department.

### **FACTORS EXPECTED TO AFFECT FUTURE OPERATIONS**

At the present time, no events or conditions have been identified that are expected to have a significant influence on future operations.

Net change in fund balances of Governmental Funds	\$ 280,556
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over estimated useful lives and reported as depreciation expense. The effect of capital expenditures, depreciation, and loss on disposals are presented as follows:	
Capital Expenditures	767,574
Depreciation	(113,801)
Loss on disposals	-
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures by governmental funds.	(762)
Governmental funds report pension expense based on contributions required for the current year; however, pension expense reported on the government wide basis is influenced by actuarial considerations.	33,061

## **Notes to Financial Statements**

**June 30, 2022**

---

---

### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Town of Lecompte was incorporated under the provisions of the Lawrason Act. The Town is governed by a Mayor and a Board of Alderman consisting of five (5) members. Services provided by the Town include police protection, fire protection, street maintenance, recreation and sanitation. The Town also operates a sewer system.

The accompanying policies conform to generally accepted accounting principles for governmental units.

### **Financial Reporting Entity**

As the municipal governing authority, for reporting purposes, the Town is considered a separate financial reporting entity. The financial reporting entity consists of (a) the primary government (the Town), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards establish criteria for determining which component units should be considered part of the Town of Lecompte for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. The criteria include:

1. Appointing a voting majority of an organization's governing body, and
  - a) The ability of the Town to impose its will on that organization and/or
  - b) The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Town.
2. Organizations for which the Town does not appoint a voting majority but are fiscally dependent on the Town.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based on the criteria presented above, the Town has no component units.

### **Basic Financial Statements**

The basic financial statements include both government-wide and fund financial statements. Both government-wide and fund financial statements categorize activities as either governmental activities or business-type activities, which are described as follows:

- Governmental activities involve government services that are normally supported by taxes and intergovernmental revenues.
- Business-type activities rely on fees and charges for support and operate in a manner similar to private sector enterprises.

The government-wide and fund financial statements present the Town's financial position and results of operations from differing perspectives which are described as follows:

# **TOWN OF LECOMPTE**

## **Notes to Financial Statements**

**June 30, 2022**

---

---

### **Government-Wide Financial Statements**

The Statement of Net Position and the Statement of Activities display information about the Town as a whole. The effect of most interfund activity is eliminated from these financial statements. Furthermore, government-wide financial statements exclude fiduciary activities which are reported in the fund financial statements.

Program revenues reported in the Statement of Activities consist of amounts that are directly associated with a governmental service or business-type activity. Program revenues include charges for services, fines, court cost, contributions associated with a particular function and most grants.

### **Fund Financial Statements**

Funds are separate accounting entities that are designed to assist with demonstrating legal compliance and segregating transactions by activity. Separate financial statements are provided for governmental funds and business-type (enterprise) funds. In addition, separate financial statements are presented for any fiduciary activities. Major individual funds are reported as separate columns in the fund financial statements. The Town's major funds are described as follows:

#### **Major Governmental Funds**

General Fund – The general fund is the primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.

One Cent Sales Tax Fund – The One Cent Sales Tax is a special revenue fund designed to receive a portion of sales tax in order to fund the expenses of the fire department and pay for garbage disposal.

Half-Cent Fund – The Half-Cent Fund is a special revenue fund dedicated and used for improving, operating and maintaining the Lecompte Community Center (formerly the old Lecompte School).

#### **Major Business-Type Funds**

Sewer Maintenance Fund – The Sewer Maintenance Fund is used to account for the operation of the Town's sewer system, which is supported by user charges.

Business-Type funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing goods and services in connection with the funds ongoing operations. Principal operating revenues are charges to customers for sewer service and sanitation.

### **Basis of Accounting and Measurement Focus**

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The basis of accounting and measurement focus used for various financial statement presentations are described as follows:

<b><u>Financial Statement Presentation</u></b>	<b><u>Basis of Accounting</u></b>	<b><u>Measurement Focus</u></b>
Government-Wide Financial Statements	Accrual Basis	Economic Resources
Fund Financial Statements:		
Governmental Funds	Modified Accrual Basis	Current Financial Resources
Proprietary Funds	Accrual Basis	Economic Resources

Under the accrual basis of accounting and the economic resources measurement focus, revenues are recorded when earned and expenses are recorded when a liability is incurred.

# **TOWN OF LECOMPTE**

## **Notes to Financial Statements**

**June 30, 2022**

---

---

Under the modified accrual basis of accounting and the current financial resources measurement focus revenue is recognized when it is considered measurable and available. Revenue is considered available if it is collected within 60 days of year end. In addition, expenses are generally recorded when a liability has been incurred; however, debt service, compensated absences, claims and judgments are recorded as expenses when payment is made. Furthermore, when the current financial resources measurement focus is used, amounts recorded as assets exclude capital assets and the acquisition of capital assets is treated as an expenditure of funds. In addition, long-term debts are excluded from amounts reported as liabilities. Proceeds from issuing long-term debt are reported as an other-financing source and repayment of long-term debt is reported as an expenditure of funds.

### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

### **Restricted Assets**

Restricted assets represent resources that must be expended in a specific manner. Restrictions of this nature are imposed by various contractual obligations including grant agreements and bond covenants. Whenever restricted assets can be used to satisfy an obligation, the restricted assets are typically consumed before utilizing any unrestricted resources.

### **Budget Practices**

Budgets including any amendments are prepared in the manner prescribed by Louisiana revised statutes. Town budgets present revenue and expenditures on a basis which is consistent with generally accepted accounting principles. Budgets are adopted annually for the general fund and each special revenue fund. The remaining funds are not required to adopt budgets.

### **Capital Assets**

Capital assets, which include property, equipment, and infrastructure, are reported as assets in the applicable governmental or business-type columns in the government-wide financial statements and in the fund financial statements for proprietary funds. Assets reported in the fund financial statements for governmental funds exclude capital assets. Instead, the governmental funds report the acquisition of capital assets as expenditures rather than asset acquisitions.

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value when received by the Town.

Capital assets are depreciated using the straight-line method and estimated useful lives ranging from 3 to 50 years. Useful lives are selected depending on the expected durability of the particular asset.

### **Cash and Cash Equivalents**

Amounts reported as cash and cash equivalents (restricted and unrestricted) include all cash on hand, cash in bank accounts, certificates of deposit and highly liquid investments. Credit risk associated with bank deposits is limited by requiring fiscal agent banks to pledge securities as required by State Law. Furthermore, interest rate risk associated with certificates of deposits is typically mitigated by purchasing instruments that mature in one year or less.

# **TOWN OF LECOMPTE**

## **Notes to Financial Statements**

**June 30, 2022**

---

---

### **Internal Activity**

Resources belonging to particular funds are commonly shared with other funds that need access to additional resources. When resources are provided without expectation of repayment, the transaction is reported as a transfer. Transfers are treated as a source of income by the recipient and as an expense or expenditure by the provider. If repayment is eventually expected to occur, interfund receivables and payables are recorded.

In preparing the government-wide financial statements, transfers are eliminated to present net transfers for governmental activities and business-type activities. In addition, interfund receivables and payables are eliminated to present a net internal balance for each type of activity.

### **Compensated Absences**

Full time and regular part-time employees earn vacation at rates that vary depending on length of service. Unused vacation that employees are allowed to carry forward is reported as a liability. The portion of the liability for compensated absences attributable to governmental funds and activities is typically liquidated by the general fund.

### **Fund Balance Classification**

Approval of the majority of the Board of Aldermen is required to approve the commitment of fund balances. In situations where it is permissible to spend restricted or committed resources, the Town typically depletes the available restricted or committed resources before consuming unrestricted resources.

### **NOTE 2 - ACCOUNTS RECEIVABLE**

Accounts receivable for the year ended June 30, 2022 are summarized as follows:

	<b>Governmental Activities</b>	<b>Business-Type Activities</b>	<b>Total</b>

### **NOTE 3 - CASH AND CASH EQUIVALENTS**

At June 30, 2022, cash and cash equivalents included the following amounts:

	<b>Governmental Activities</b>	<b>Business-Type Activities</b>	<b>Total</b>
Cash Deposited in Banks	\$ 488,306	\$ 197,251	\$ 685,557
Petty Cash	200	----	200
Total Cash	488,506	197,251	685,757
Restricted Cash	----	197,251	197,251
Cash and Cash Equivalents	\$ 488,506	\$ ----	\$ 488,506

Cash deposited in banks is stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At June 30, 2022, the Town had \$ 685,757 in deposits (\$709,140 collected bank balance). These deposits are secured from risk by \$377,660 of federal deposit insurance and \$593,756 of pledged securities held by the custodial bank in the name of the fiscal agent bank.

Even though the pledged securities are considered uncollateralized, State law imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified that the fiscal agent has failed to pay deposited funds upon demand. Bank overdrafts are presented as current liabilities on the balance sheet.

### **NOTE 4 - LONG-TERM DEBT**

Debt attributable to the acquisition of the Town's utility system and the operation of the utility system is reported as an obligation of the Town's business-type enterprise funds. Remaining debts are reported as governmental activities. The Town's debts are summarized as follows:

	<b>Governmental Activities</b>	<b>Business-Type Activities</b>	<b>Total</b>
Certificates of Indebtedness	\$ 72,163	\$ ----	\$ 72,163
Installment Purchase Agreement	52,732	----	52,732

### **Certificates of Indebtedness**

The Town has issued certificates which are secured by and payable from a pledge of the excess of annual revenues above statutory, necessary and usual charges incurred by the Town. Certificates of indebtedness outstanding at June 30, 2022 are described as follows:

\$181,000 Certificates of Indebtedness, Series 2010 bearing interest at a rate of 3.75%.

Principle is payable in monthly installments of \$1,073, with the final installment due December 21, 2030.

\$ 72,163

### **Installment Purchase Agreements**

The Town has executed an installment purchase agreement to finance the acquisition of police vehicles. The terms of the agreement are described below:

\$55,332 Installment Purchase Agreement payable in 60 monthly installments of \$984, including interest based upon a rate of 2.59% with the final installment due March 1, 2027.

\$ 52,732

### **Revenue Bonds**

The Town has issued revenue bonds that are secured by and payable solely from a pledge of funds generated by a specific revenue source. Revenue bonds outstanding at June 30, 2022 are described as follows:

\$784,000 Sewer Revenue Bonds Series 2013; payable over 40 years and bearing interest at a rate of 2.125%. The first payment, due August 11, 2016 was interest only, and thereafter the Town began paying monthly installments of interest and principal of \$2,470 with the final installment due August 11, 2055.

### **NOTE 8- RISK MANAGEMENT**

The Town is exposed to various risk of loss related to torts; theft, damage or destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town insures against these risks by participation in public entity risk pools that operate as common insurance programs and by purchasing commercial insurance. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

### **NOTE 9 - RESTRICTED RESOURCES**

The Town's net position is subject to restrictions described as follows:

- Bond covenants require the Town to establish bank accounts which serve as debt service and depreciation reserves. Funds may be disbursed from these accounts only under specific circumstances described by the bond covenants.
- Certain sales taxes proceeds are available only for certain expenditures.
- The Town's sewer revenue collections are restricted to the operation and maintenance of the Town's sewer system.

### **NOTE 10 – PENSION PLANS**

Substantially all of the Town's employees are members of statewide retirement systems. These systems are cost-sharing, multiple-employer defined benefit pension plans administered by separate boards of trustees. A summary of amounts reported in connection with participation in these plans is summarized as follows:

	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources

### **Municipal Employees' Retirement System of Louisiana**

**Plan Description** -The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. All employees of the Town participating in the retirement system are members of Plan B. All permanent employees working at least 35 hours per week who are not covered by another pension plan and are paid wholly or in part from municipal funds and all elected municipal officials are eligible to participate in the System. Under Plan B, employees who retire at or after age 60 with at least 10 years of creditable service, at or after age 55 with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 2 percent of their final-average monthly salary in excess of \$100 for each year of creditable service. Furthermore, employees with at least 10 years of creditable service, but less than 30 years may take early retirement benefits commencing at or after age 60, with the basic benefit reduced 3 percent for each year retirement precedes age 62. In any case, monthly retirement benefits paid under Plan B cannot exceed 100 percent of final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified above and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established by state statute.

**Funding Policy** - Under Plan B, members are required by state statute to contribute 5.0 percent of their annual covered salary and the Town is required to contribute at an actuarially determined rate. Contributions to the System also include one-fourth of one percent of the taxes shown to be collectible by the tax rolls of each parish, except Orleans and East Baton Rouge Parishes. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The contribution requirements of plan members and the Town are established and may be amended by state statute. As provided by State law, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Town's contributions to the system were equal to the required contributions for the year.

**Financial Summary** – The plan description, funding policies and financial information provides a summary of the Plan provisions and finances. For additional details, the System issues an annual publicly available stand-alone financial report. The financial report includes information about the plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position. The report can be obtained on the internet at [mersla.com](http://mersla.com). The plans net pension liability was determined at June 30, 2021 (measurement date and actuarial valuation date) and details are provided as follows:

Net Pension Liability	\$ 57,930,858
Town's Proportionate Share (Percentage)	0.15077%
Town's Proportionate Share (Amount)	<u>\$ 87,343</u>

The net pension liability presented above was not affected by any special funding situations. Changes in the Town's proportionate share of Plan's net pension liability during the measurement period ending June 30, 2021 are provided as follows:

Expected Remaining Service Lives	3 years
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2021 are summarized in the following table:

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Long-Term Expected Portfolio Real Rate of Return</u>
Public Equity	53.00%	2.31%
Public Fixed Income	38.00%	1.65%
Alternatives	9.00%	0.39%
Totals	100%	4.35%
Inflation		2.60%
Expected Arithmetic Nominal Return		6.95%

The discount rate used to measure the total pension liability was 6.85%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity to changes in the discount has been determined by measuring net pension liability at a discount rate that is one percentage point lower and one percentage point higher than the current rate. The results are presented as follows:

	1% Decrease 5.85%	Current Discount	1% Increase 7.85 %
	Discount Rate	Rate 6.85%	Discount
Net Pension Liability	\$ 134,002	\$ 87,343	\$ 47,878

### **Municipal Police Employees' Retirement System of Louisiana**

**Plan Description** - All full-time police department employees engaged in law enforcement are eligible to participate in the System. Any member of the Plan who commenced participation in the Plan before January 1, 2013 is eligible for retirement provided he or she meets one of the following conditions:

- At any age and has 25 years of creditable service
- At age 50 and has 20 years of creditable service
- At age 55 and has 12 years of creditable service.

Retirees are entitled to a retirement benefit, payable monthly for life, equal to  $3\frac{1}{3}$  percent of their final-average salary for each year of creditable service, not to exceed 100% of their final salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified previously and receive the benefit accrued to their date of termination.

Any member of the Plan who commenced participation in the Plan after January 1, 2013 is eligible for retirement based on Hazardous Duty and Non-Hazardous Duty sub plans. Under the Hazardous Duty sub plan, a member is eligible for retirement provided he or she meets one of the following conditions:

- At any age and has 25 years of creditable service
- At age 55 and has 12 years of creditable service.

Under the Non-Hazardous Duty sub plan, a member is eligible for retirement provided he or she meets one of the following conditions:

- At any age and has 30 years of creditable service
- At age 55 and has 25 years of creditable service.
- At age 60 and has 10 years of creditable service.

Under either Sub Plan, a member is eligible for early retirement after he or she has been a member of the System with 20 years of creditable service, with an actuarially reduced benefit from age 55. Under the Hazardous and Non-Hazardous Duty sub plans, the benefit rates are 3% and 2  $\frac{1}{2}$ %, respectively, of average final compensation (Average monthly earnings during the highest 60 consecutive months or joined months if service was interrupted) per number of years of creditable service not to exceed 100% of final salary. The System also provides death and disability benefits for all members. Benefits are established or amended by state statute. As of June 30, 2022, the Town did not have any active participants in the plan, but is still reporting the amortization of deferred inflows associated with its past participation.

**Funding Policy** - Plan members are required by state statute to contribute a percent of their annual covered salary to the System. The percentage required for the measurement period ending June 30, 2021 is listed below:

Members hired prior to January 1, 2013 –	10.00%
Hazardous Duty Members hired after January 1, 2013-	10.00%
Non-Hazardous Duty Members hired after January 1, 2013 -	8.00%

The Town is required to contribute at an actuarially determined rate. The contribution requirements of plan members and the Town are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to

change each year based on the results of the valuation for the prior fiscal year. The Town's contributions to the plan were equal to the required contributions for each of the past three years.

**Financial Summary** – The plan description, funding policies and financial information provides a summary of the Plan provisions and finances. For additional details, the System issues an annual publicly available stand-alone financial report available on the internet at [www.mersla.com](http://www.mersla.com). The financial report includes information about the plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position. The report can be obtained on the internet at [lampers.org](http://lampers.org). The plans net pension liability was determined at June 30, 2021 (measurement date and actuarial valuation date) and details are provided as follows:

Net Pension Liability	\$ 533,054,667
Town's Proportionate Share (Percentage)	0.00%
Town's Proportionate Share (Amount)	<u>\$ ----</u>

The net pension liability presented above was not affected by any special funding situations. Changes in the Town's proportionate share of Plan's net pension liability during the measurement period ending June 30, 2021 are provided as follows:

June 30, 2023	----
June 30, 2024	----
June 30, 2025	----
Total	<u>\$ (14,245)</u>

A summary of the actuarial methods and assumptions used in determining the total pension liability as of the measurement date are as follows:

Valuation Date	June 30, 2021	
Actuarial Cost Method	Entry Age Normal Cost	
Investment Rate of Return	6.750% per annum	
Expected Remaining Service Lives	4 Years	
Inflation Rate	2.50% per annum	
Projected Salary Increases Including Inflation and Merit	<u>Years of Service</u> 1 - 2 2 & Over	<u>Salary Growth Rate</u> 12.30% 4.70%

The best estimates of the arithmetic nominal rates of return for each major asset class included in the System's target allocation as of June 30, 2021 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long Term Expected Portfolio Real Rate of Return</u>
Equity	55.50%	3.47%
Fixed Income	30.50%	0.59%
Alternatives	14.00%	1.01%
Other	0.00%	0.00%
Totals	<u>100%</u>	<u>5.08%</u>
Inflation		<u>2.22%</u>
Expected Arithmetic Nominal Return		<u>7.30%</u>

The discount rate used to measure the total pension liability was 6.750%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return

# **TOWN OF LECOMPTE**

## **Notes to Financial Statements**

**June 30, 2022**

---

---

on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The mortality rate assumption used was set based upon an experience study performed by the prior actuary on plan data for the period July 1, 2014 through June 30, 2019 and review of similar law enforcement mortality. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the System's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. The result of the procedure indicated that the tables used would produce liability values approximating the appropriate generational mortality tables

Sensitivity to changes in the discount has been determined by measuring net pension liability at a discount rate that is one percentage point lower and one percentage point higher than the current rate. The results are presented as follows:

	1% Decrease 5.750% Discount Rate	Current Discount Rate 6.750%	1% Increase 7.750 % Discount
Net Pension Liability	\$ ----	\$ ----	\$ ----

### **NOTE 11 – CONTINGENCIES**

Existing conditions that may have financial consequences are referred to as contingencies. Contingencies existing at June 30, 2022 are described as follows:

#### **Litigation**

Like most governmental units with extensive and diverse operations, the Town is occasionally named as a defendant in litigation. Based on consultation with the Town Attorney, the ultimate outcome of litigation that is pending or anticipated cannot be estimated at the present time.

#### **Grant Compliance**

The Town receives state and federal assistance through various grant programs. Management is confident that all significant grant conditions have been met; however, grantor agencies routinely review grant activity and could request reimbursement if a dispute occurs regarding compliance with grant conditions.

### **NOTE 12: FUND DEFICIT**

As of June 30, 2022, the funds listed below had deficit balances. It is management's policy to cover shortfalls in non-major funds with monies from the Town's General Fund.

<b><u>Fund</u></b>	<b><u>Deficit</u></b>
Park Fund	7,161
Pie Festival Fund	2,621
Millage	23,638

## **Summary of Findings June 30, 2022**

---

### **PART I - SUMMARY OF AUDITOR'S RESULTS:**

- The Independent Auditor's Report on the financial statements for the Town of Lecompte as of June 30, 2022 and for the year then ended reported an unmodified opinion.
- Two acts of noncompliance material to the financial statements of the Town of Lecompte were reported during the audit as listed below.

### **PART II - FINDINGS RELATING TO THE FINANCIAL STATEMENTS WHICH ARE REQUIRED TO BE REPORTED IN ACCORDANCE WITH GENERALLY ACCEPTED GOVERNMENTAL AUDITING STANDARDS:**

#### **Finding 2022-001: Technical Budget Violation**

- *Criteria:* The Town's expenditures and other uses must be within 5% of the Town's adopted budget to comply with Louisiana Revised Statutes.
- *Condition:* In the current year, unfavorable variances exceeded 5%.
- *Cause:* The Town incurred a significant number of expenditures related to capital projects in the current year. A significant portion of the expenditures were accrued at year end, as the work had been completed but not paid. This accrual caused the unfavorable variance.
- *Effect:* The Town was not in compliance with the Louisiana Government Budget Act.
- *Recommendation:* The Town of Lecompte should implement policies and procedures to ensure that the budget is amended whenever variances exceed amounts allowed by the Louisiana Government Budget Act.

#### **Finding 2022-002: Traffic Ticket Administration**

- *Criteria:* The Town should maintain proper controls over ticket books to ensure that all tickets are written in sequential order and any voided tickets are accounted for properly.
- *Condition:* The Town did not maintain appropriate safeguards over the physical inventory of traffic tickets. In addition, various issues were noted with the retention of traffic tickets for processing, and their input within the Town's computerized system.
- *Cause:* Ticket books are not properly safeguarded and accounted for with limited distribution. In addition, sufficient oversight is not maintained over the Town's traffic ticket administration.
- *Effect:* By not properly maintaining ticket sequences, the Town could lose tickets before they are properly adjudicated. In addition, tickets could fail to be processed if they are not safeguarded and input into the computerized system in an organized fashion.
- *Recommendation:* We recommend that one ticket book be signed out by the officers in order to properly account for all tickets and ticket books. In addition, we recommend additional oversight over the current traffic ticket administration, to insure it is operating as intended.

**APPENDIX A**  
**Statewide Agreed-Upon Procedures**

Independent Accountant's Report  
On Applying Agreed-Upon Procedures

To the Town of Lecompte and  
the Louisiana Legislative Auditor:

We have performed the procedures enumerated below, which were agreed to by the Town of Lecompte (the Entity) and the Louisiana Legislative Auditor (LLA) on the control and compliance (C/C) areas identified in the LLA's Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period July 1, 2021 through June 30, 2022. The Entity's management is responsible for those C/C areas identified in the SAUPs.

The entity has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in LLA's SAUPs for the fiscal period described above. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

We were engaged to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the entity and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.

c) For governmental entities, obtain the prior year audit report and observe the unrestricted fund balance in the general fund. If the general fund had a negative ending unrestricted fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unrestricted fund balance in the general fund.	The General Fund did have a negative unrestricted fund balance reported on the previous audit report. While discussion took place on improving the Town's financial position, there was no formal plan introduced to eliminate the negative unrestricted fund balance in the general fund.	<i>In the current year, we will adopt a formal plan to eliminate the Town's negative unrestricted fund balance.</i>
