RE: Financial Statement Transmittal Letter
for the Fiscal Year Ended June 30, 2021

To the Elected School Board Members and Citizens of Avoyelles Parish:

Louisiana law requires that an annual sworn financial statement be furnished to the Legislative Auditor within six months of the close of each fiscal year in accordance with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards (GAAS) by a certified public accountant. Pursuant to that requirement, we hereby issue the Comprehensive Annual Financial Report (CAFR) of the Avoyelles Parish School Board for the year ended June 30, 2021.

Management's Representations

This report consists of management's representations concerning the finances of the Avoyelles Parish School Board. Consequently, the Superintendent and the Director of Business Services assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, we have established a comprehensive internal control framework designed both to protect the School Board's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Avoyelles Parish School Board's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Avoyelles Parish School Board's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Independent Auditor's Review of Financial Statements

The Avoyelles Parish School Board's financial statements have been audited by Kolder, Slaven & Company, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance the financial statements of the Avoyelles Parish School Board for the fiscal year ended June 30, 2021 are free from material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Avoyelles Parish School Board's financial statements for the fiscal year ended June 30, 2021 are fairly presented in conformity with (GAAP). The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the Avoyelles Parish School Board was part of a broader, federally mandated “Single Audit” designed to meet the special needs of the federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government’s internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the Avoyelles Parish School Board’s Single Audit Reports.

Additional Information

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Avoyelles Parish School Board’s MD&A can be found immediately preceding the report of the independent auditors.

PROFILE OF THE AVOYELLES PARISH SCHOOL BOARD

The Avoyelles Parish School Board was created by Louisiana Revised Statute (LSA-R.S.) 17:51 to provide public education for the children within Avoyelles Parish. The School Board is authorized by LSA-R.S. 17:81 to establish policies and regulations for its own government consistent with the laws of the state of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of 9 members who are elected from 9 districts for terms of four years.

The School Board operates 10 schools within the parish, employs more than 600 teachers and other school workers, and has a total enrollment exceeding 5,000 pupils. In conjunction with the regular educational programs, some of these schools offer pre-kindergarten, special education and/or adult education programs. In addition, the School Board provides transportation and school food services for the students.

The Annual Operating Budget serves as the foundation for the Avoyelles Parish School Board’s financial planning and control. All administrators are required to submit requests for appropriation to the Director of Business Services on or before March 20th of each year. Compilation of the budget is completed by the Business Office and sent to the Superintendent for review and/or alterations by April 20th of each year. The final draft of the proposed Annual Operating Budget is presented by the Superintendent to the School Board at its regular meeting in July of each year. This gives the Board Members at least 30 days to review the budget before it is voted in an open meeting.

Before the budget is voted on by the School Board, the Budget/Finance Committee reviews the budget. The Board is also required by Louisiana law to hold at least one public hearing prior to its adoption, to publish a notice in the newspaper of the upcoming public hearing, and to make available to the public a copy of the proposed budget at least 15 days prior to the public hearing. The public hearing and the vote by the elected School Board Members on the Annual Operating Budget is held on the first Tuesday in August of every year.

The approved Annual Operating Budget presents revenues by source and expenditures by function as defined by the Louisiana Board of Elementary and Secondary Education’s Bulletin #1929. The Superintendent is authorized to transfer amounts between line items within a fund in accordance with proper accounting procedure without approval by the Board. However, budget amendments are required when total revenues drop 5% or more below expectations, total expenditures exceed budget estimates by 5% or more, and when beginning fund balance is less than 5% or more of its projected amount.

Budget-to-actual comparisons are provided in this report for the General Fund and each individual Special Revenue Fund.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Avoyelles Parish School Board operates.

Local economy: Avoyelles Parish is located in the central area of Louisiana. It has a land area of 832 square miles. Interstate 49 runs north and south through the parish and the northern boundary of Avoyelles Parish is approximately 30 miles south of Alexandria, the largest metropolitan area of the region. The parish’s economy is balanced among agriculture, timber, retail, and a land-based casino owned by a local Indian tribe. Although the casino remits no taxes it provides 12% of the net gaming revenues to the School Board. Consistently low wealth and income levels, approximately 67% of the national averages, and unemployment rate of 5.1% coincide with the School Board’s shallow economic base.

Sales & Use Tax Collections

Total sales and use tax collections for all nine governmental bodies in Avoyelles Parish exceeded \$22.8 million in fiscal year 2020-21. Comparing total collections for the current fiscal year to the prior fiscal year shows an increase of approximately \$4.4 million. This figure is an overall average, however, and does not necessarily reflect individual entities’ collections which are illustrated in the statistical section of this report. (Table H).

Student Enrollment Trends

Student enrollment, as shown in the bar chart below, impacts the budget in two ways: revenues received from state and federal sources, and the staffing of employees.

On the revenue side, the Board receives state revenues based on the student count in grades kindergarten through the 12th grade from the prior fiscal year and is commonly called the Minimum Foundation Program (MFP). The MFP is the State’s cost of educating students in Louisiana and is based on a formula that allocates money to parish and city school systems.

On the expenditure side, the Board will reduce staff if the State does not increase the base per student amount in the MFP and/or if there is a decline in student enrollment in grades K-12 from the prior fiscal year.

Enrollment increased in grades K-12 in FY 2020-21 from the prior fiscal year and the base per student in FY 2014-15 increased to \$3,961 per pupil, a 3% increase over the prior year. Included in the MFP for the 2014-15 fiscal year were

additional retirement and related benefit costs. Additional MFP dollars were replaced for Type 4 (BESE) Charter Schools which increased Total State MFP revenues by \$1,509,550 in FY 2014-15. There has been no increase in the per pupil amount since 2014-15, until recently for the 2018-19 fiscal year, which replaced one half of the original increase of 2.75%, resulting in a 1.375% increase.

Property Tax Values

Property tax values affect the second largest source of revenues (ad valorem tax revenues) for the school system. In fiscal year 2020-21, total property tax values in Avoyelles Parish increased to \$140 million. Taxable and homestead values reflect a minimal increases over the past five years as shown in the chart below.

<u>Fiscal Year</u>	<u>Taxable Value</u>	<u>Homestead Value</u>	<u>Total Value</u>	<u>Increase (Decrease)</u>
2016-17	140,066,332	61,004,698	201,071,030	2.00%
2017-18	140,812,795	61,352,905	202,165,700	0.54%
2018-19	145,204,264	61,591,606	206,795,870	2.29%
2019-20	150,060,641	61,591,606	212,317,920	2.67%
2020-21	154,325,837	62,718,793	217,044,630	2.30%

Modest increases in property tax values are being forecasted for the next few years. Current Maintenance and Operational ad valorem taxes of 9.6 mills was to expire in 2019. In December 2017 voters approved a renewal of this millage which will expire in 2029. The November 2011 10 mill ad valorem tax will expire in 2031.

Long-term financial planning: Each year the administration adopts educational goals and objectives as a vehicle to improve student learning. Thus, human and financial resources are allocated in the budget to achieve the adopted goals, and to support educational programs and services defined by the Board’s mission. It is a delicate balance of policy choices. It also represents a delicate balance between the educational needs of the students and the ability of the community to provide the necessary financial support. Financial policies such as reduction in personnel and redesigning transportation routes to achieve maximum cost savings had a significant impact on the current period’s financial statements.

The Every Student Succeeds Act (ESSA) Act and the State’s Accountability System have placed mandates in the area of school performance in relationship to every student’s achievement. Every student is to meet the same achievement objectives by 2021 regardless of ability levels. With these mandates in place every school is expected to show continuous academic growth in all subgroups of students. Improvement is driven through several facets of funding as well as instructional areas such as special education, limited English proficiency, remediation, enrichment, and instructional strategies for poverty students. Never before has there been this kind of need to review achievement data in the areas of subgroups of students.

Avoyelles Parish’s goal is to not have a school in any level of School Improvement as defined by the State of Louisiana. A school that does not meet or make adequate progress toward its Growth Target or Subgroup Performance will enter into School Improvement. A school that enters into School Improvement will receive additional support and assistance through school analysis, school level and district assistance team planning, and individual school needs assessments. Schools meeting their growth targets and going beyond will receive reward money to be dedicated to the school improvement process.

The following chart reflects the status of each school to the goal defined above at the beginning of the previous school year. Additional information may be viewed at the Louisiana State Department of Education’s web site <http://www.doe.state.la.us/lde/uploads/11484.pdf>. Due to the COVID 19 Pandemic, all schools were waived testing in the 2019-20 school year, therefore no school performance score is available.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Avoyelles Parish School Board for its comprehensive annual financial report for the fiscal year ended June 30, 2020. This was the 20th consecutive year that the Avoyelles Parish School Board has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements. The Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program’s requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Business Department. We want to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given the Superintendent and the School Board Members for their unfailing support for maintaining the highest standards of professionalism in the management of the Avoyelles Parish School Board's finances.

INDEPENDENT AUDITOR'S REPORT

Mrs. Karen Tutor, Superintendent,
and Members of the Avoyelles Parish School Board
Marksville, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Avoyelles Parish School Board (the School Board), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 22 to the financial statements in 2021, the School Board adopted new accounting guidance, GASB 84, Fiduciary Activities. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information on pages 5 through 17 and 68 through 75 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School Board's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, nonmajor budgetary comparison schedules, schedule of capital assets by source and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, nonmajor budgetary comparison schedules, schedule of capital assets by source and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, nonmajor budgetary comparison schedules, schedule of capital assets by source and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2021, on our consideration of the School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School Board's internal control over financial reporting and compliance.

We offer readers of the Avoyelles Parish School Board's financial statements this narrative overview and analysis of the financial activities of the Avoyelles Parish School Board for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages iv-ix of this report. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

Financial Highlights

Key financial highlights for the 2020-21 fiscal year include the following:

- Statement of Net Position – The liabilities of the Avoyelles Parish School Board exceeded its assets at the close of the most recent fiscal year by \$74,844,888 (net position). Of this amount, \$(93,452,501) (unrestricted net position) is available to meet the government's obligations to students and creditors.
- Total Liabilities – The total liabilities of the Avoyelles Parish School Board were \$164,899,489.
- Program Revenues – Total program revenues were \$23,093,317.
- General Revenues – Total general revenues were \$48,946,959.
- Statement of Activities – The total net position of the Avoyelles Parish School Board increased by \$476,855 for the year ended June 30, 2021. Most of this increase is attributable to increased funding along with decreased expenditures.
- Total Expenditures – Total annual expenditures were \$71,579,242.
- Total Excess – Total excess for the year ending June 30, 2021 was \$476,855.
- Governmental Funds Balance Sheet – As of the close of the current fiscal year, the Avoyelles Parish School Board's governmental funds reported a combined ending fund balance of \$33,591,441, an increase of \$5,523,913 in comparison with the prior fiscal year. The majority of this fund balance is comprised of approximately (1) \$21.2 million for funding within the General Fund and (2) \$12.3 million within other governmental funds.
- General Fund's Ending Fund Balance – At the end of the current fiscal year, committed fund balance for the General Fund, a major fund, was \$3,300,000, or 16% of the total. Approximately \$17.9 million (unassigned) is available for spending at the Board's discretion. A substantial portion of this unassigned amount has traditionally been set aside as a sales tax supplement for all employees to be distributed in November of each year along with contingencies for workers compensation, etc.
- Capital Assets – Total capital assets (net of depreciation) were \$21,072,224 or 35% of total assets. The School Board uses these assets to provide educational services to children and adults; consequently, these assets are not available for future spending.
- Long-Term Debt – The Avoyelles Parish School Board's total debt increased \$17,764,953 during the current fiscal year.

Overview of the Financial Statements

The management discussion and analysis is intended to serve as an introduction to the Avoyelles Parish School Board's basic financial statements. The School Board's basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the Avoyelles Parish School Board's finances, in a manner similar to a private-sector business.

- The Statement of Net position presents information on all of the Avoyelles Parish School Board's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Avoyelles Parish School Board is improving or deteriorating.
- The Statement of Activities presents information showing how the School Board's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).
- Both of the government-wide financial statements distinguish functions of the Avoyelles Parish School Board that are principally supported by taxes and intergovernmental revenues(governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges(business-type activities). The governmental activities of the Avoyelles Parish School Board include general government.
- The government-wide financial statements can be found on pages 20-21 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Avoyelles Parish School Board, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Avoyelles Parish School Board can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- *Government funds.* Government funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources at the end of the fiscal year.

Such information may be useful in evaluating the Avoyelles Parish School Board near-term financing requirements.

Management's Discussion and Analysis

June 30, 2021

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the School Board's near-term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Avoyelles Parish School Board maintains 30 individual governmental funds. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, School Food Service Fund and Title I Fund, which are considered to be the only major funds. Data for the other 22 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The Avoyelles Parish School Board adopts an annual appropriated budget for its General Fund and each individual Special Revenue Fund. Budgetary comparison statements have been provided to demonstrate compliance with these budgets.

- *Proprietary Fund.* The Avoyelles Parish School Board maintains one proprietary fund, Workers Compensation Fund. The Board is self-insured and funds work-related injury costs. Because this service predominantly benefits governmental functions, it has been included with governmental activities in the government-wide financial statements.
- *Fiduciary Funds.* Fiduciary funds are used to account for resources held for the benefit of parties outside the Avoyelles Parish School Board. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the Avoyelles Parish School Board's own programs.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the School Board's compliance with budgets for its major funds. The combining statements for nonmajor governmental funds are presented immediately following the required supplementary information.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Avoyelles Parish School Board, liabilities exceed assets by \$74,844,888 at the close of the most recent fiscal year.

The largest portion of the Avoyelles Parish School Board's net position total more than \$10.9 million (18%) and reflects its investment in capital assets (e.g. land, buildings, machinery, and equipment), less any related

debt used to acquire those assets that are still outstanding. The School Board uses these capital assets to provide educational services to children and adults; consequently, these assets are not available for future spending. Although the Avoyelles Parish School Board's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The Avoyelles Parish School Board's overall financial position has decreased in the current year. The most significant reason for the decrease was the reporting of 68 and 75 reporting methodologies. However sound financial planning by the school board and conservative spending by administration and the Board has helped the system remain fiscally sound.

Revenues by Source – Governmental Activities

- Grants and Contributions Not Restricted To Specific Programs:** The single largest source of revenue to the Avoyelles Parish School Board is reported in the “Grants and Contributions Not Restricted to Specific Program” and is commonly called the Minimum Foundation Program (MFP). The MFP is a distribution of approximately \$3.7 billion to 69 public school systems and numerous charter schools by the State of Louisiana for salaries, benefits and general operations. The State does not provide money for building schools or retiring debt. The distribution is based on a formula adopted by the Louisiana Board of Elementary and Secondary Education and approved by the Louisiana Legislature. The chart below lists the actual increases or decreases in MFP funds for the past 3 years.

<u>Fiscal Year</u>	<u>General Fund</u>	<u>School Food Service</u>	<u>Lasas</u>	<u>Total MFP</u>	<u>Increase (Decrease)</u>	
2018-19	28,224,750	50,531	3,062,533	31,337,814	(191,799)	(.001%)
2019-20	27,982,510	42,992	3,204,750	31,230,252	(107,562)	(.001%)

Management's Discussion and Analysis

June 30, 2021

In FY 2020-21, the School Board received \$31,634,251 (44%) of its total revenues from the MFP. These revenues are deposited in the General Fund, LaSas and the School Food Service only. Most of the \$403,999 or .01% increase resulted from a slight increase in student enrollment and 1.375% increase in the base per pupil funding. The original 2.75% annual increase has still not been fully funded despite recent legislative appropriations.

- **Operating Grants and Contributions:** Operating grants and contributions totaled approximately \$23 million and are the second largest source of revenues for the School Board. Federal grants represent approximately \$21 million or 91% of the total while state grants represent approximately \$1.8million or 9%. These grants and contributions are specifically restricted to certain programs, and therefore, are netted against the costs of these programs to show a true net cost. The chart below shows the operating grants and contributions by funding source.

Fiscal Year	School Food Service	Title I	Idea B	ESSER	Operating Grants and Contributions	Total	Increase (Decrease)
2018-19	3,720,265	3,127,881	1,206,559	0	1,731,077	9,785,782	5.0%
2019-20	6,023,983	2,345,007	1,707,985	0	2,962,491	13,038,466	5.0%
2020-21	12,465,058	4,048,135	1,241,654	3,469,426	1,869,044	23,093,317	77.0%

In FY 2020-21, the School Board received 77% or \$10,054,851 more in operating grants and contributions. CEP (Community Eligibility Program) and Title I revenues increased as a result of more participation and carryover funding, Food Service Supper program due to the extended day showed increased revenues. New this year is ESSER funding as a result of CARES Act.

- **Sales and Use Tax Revenues:** Sales and use tax revenues are the third largest source of revenues for the Avoyelles Parish School Board. A 1½% sales tax rate is levied upon the sale and consumption of goods and services within the parish for public school education. A ¼% sales tax was approved by voters in November 2011, with collections commencing in January 2013. A renewal was successful in passing by the taxpayers on December 5, 2020. The chart below lists the sales and use tax revenues for the past 3 years.

Fiscal Year	General Fund	Nonmajor Maintenance Funds	Total Collections	Increase (Decrease)
2018-19	5,762,114	2,225,463	7,987,577	1.0%
2019-20	6,011,679	2,339,666	8,351,435	5.0%
2020-21	7,372,897	2,874,242	10,247,139	23.0%

In FY 2020-21, the School Board deposited \$ 10,247,139 sales and use tax revenues into the General Fund, School Food Service, Debt Service Funds, and Special Sales Tax Funds. This represents 14% of the total revenues received. Total collections increased approximately 23% or \$1,895,704 in fiscal year 2020-21. Increase was attributed to the COVID 19 pandemic which prompted more ecommerce spending, although ecommerce has been on the rise. This should have a positive effect on revenues in the future.

Management’s Discussion and Analysis

June 30, 2021

- Ad Valorem Tax Revenues:** Ad valorem tax revenues, also called property tax revenues, are the fourth largest source of revenue for the School Board. Ad valorem collections are based upon the number of mills (approved annually by the School Board) and the taxable assessed value (established by the Avoyelles Parish Tax Assessor), subject to the limitations approved by the voters and the Louisiana Legislature. Voters approved a 10 mill tax in November 2011. On December 5, the voters approved a renewal for this tax. The chart below lists the ad valorem tax deposits for the past 3 years. In December 2020 voters approved a 10 year renewal of two existing 5 mil taxes.

Fiscal Year	General Fund	Nonmajor Special Revenue Funds	Nonmajor Debt Service Funds	Total Ad Valorem Taxes	Increase (Decrease)	
2018-19	2,798,643	722,347	0	3,520,990	(14,604)	(.0001%)
2019-20	2,881,881	743,876	0	3,625,756	104,766	3%
2020-21	2,978,392	768,937	0	3,747,329	121,573	3%

In FY 2020-21 the School Board deposited \$3,747,329 of ad valorem tax revenues into the General Fund, Special Maintenance Tax Fund, and the Debt Service Funds. This represents 5% of the total revenues received. The General Fund received \$96,511 more in property tax revenues from the prior fiscal year and also the Special Maintenance Funds received \$25,061 more revenues. The increase in property tax collections in these funds is insignificant.

Expenses and Program Revenues – Governmental Activities

Expenses are classified by functions/programs. The related revenues are comprised of specific charges for the services and operating grants and contributions received to offset the expenses for the specific program. The program revenues for fiscal 2021 directly related to these expenses totaled \$23,093,317, which, along with charges for services of \$15,821, resulted in net program expenses of \$48,470,104. These net program expenses are funded by general revenues of the School Board.

1. Instruction: Expenses for regular programs, special programs, and adult/continuing education are considered instructional services and relate to direct expenses of providing instruction to students. Instructional services for fiscal year 2021 totaled more than \$36.7 million or 51% of total expenditures. As shown in the chart below, instructional services increased approximately 5.7 million. The increase is attributed to additional funding.

<u>Fiscal Year</u>	<u>Regular Programs</u>	<u>Special Programs</u>	<u>Other Programs</u>	<u>Instruction Total</u>	<u>Increase (Decrease)</u>
2018-19	14,964,256	4,729,545	5,114,821	24,808,622	(6)%
2019-20	18,502,956	5,971,710	6,440,098	30,914,764	25%
2020-21	19,955,920	5,926,276	10,810,204	36,692,400	16%

2. Support Services: Support Services relate to those functions that facilitate the Instructional Services. Support services include Pupil Support, Instructional Staff Support, General Administration, School Administration, Business Services, Plant Services, Transportation Services, Central Services and Food Services. Support services for fiscal 2021 totaled approximately \$34.8 million or 48% of total expenditures. The chart below shows that Support Services increased 28% or \$7.5 million over the prior fiscal year. Particularly in the instructional staff support and special programs area expenditures increased by \$ 3.5 million due to the ESSER funding as a result of the CARES Act federal funding to assist districts with COVID related expenditures. This funding will cease in 2024.

Financial Analysis of Governmental Funds

As noted earlier, the Avoyelles Parish School Board uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the Avoyelles Parish School Board’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Avoyelles Parish School Board’s financing requirements. In particular, unreserved fund balance may serve as a useful measure of a School Board’s net resources available for spending at the end of the fiscal year.

- As of the close of the current fiscal year, the Avoyelles Parish School Board’s governmental funds reported a combined ending fund balance of \$33,591,441, an increase of \$ 5,523,913 in comparison with the prior fiscal year. The increase is due to sound fiscal practices, increase in local revenues—sales tax collections.
- The General Fund is the chief operating fund of the Avoyelles Parish School Board. At the end of the current fiscal year, the total fund balance of the General Fund was \$21,229,654. The School Board has committed approximately \$3.3 million of that fund balance for future claims and contingencies, and compensated absences. The remaining 84% or \$17.9 million (unassigned) is available for spending at the Board’s discretion, however, approximately \$2.3 million of this amount has traditionally been distributed to employees in the form of a supplement each November.
- ESSER funds are a group of non-major special revenue funds established by the CARES Act to account for grants and related expenditures associated with various stages of COVID recovery ranging from personal protection devices to reopening schools safely along with instructional expenditures and resources to sustain social emotional health for students. For the year ended June 30, 2021 \$3.4 million was received from the federal grant.
- Title I is a major special revenue fund and is used to account for grants and related expenditures associated with providing educational opportunities to educationally deprived children. For the fiscal year 2020-21 \$4,048,135 was received from a federal grant and expended to improve skills in reading, language arts, and math. This is a \$1.6million increase over prior year.

Management's Discussion and Analysis

June 30, 2021

- The School Food Service is a major special revenue fund and is used to account for revenues and costs associated with providing nutritious meals to school children and employees. For the year ended June 30, 2021, the unreserved fund balance was \$3,926,011, an increase of \$2,183,546 from the previous fiscal year. CEP (Community Eligibility Option) participation by all schools (free breakfast and lunch for all) as well as a Super-Snack program has been a positive effect on the fund balance. This restricted fund balance is designated for unforeseen circumstances in the school breakfast and lunch programs.
- The LA Ag Science School Funds have a total fund balance of \$2,525,835, an increase of \$423,072 from the prior year.

General Fund Budgetary Highlights

The original budget for the School Board was adopted on August 3, 2020. Differences between the original budget and the final amended budget of the General Fund are as follows:

Revenues

- MFP revenues were originally budgeted at \$26,632,720. An amendment was made to bring the revenue to \$27,404,962. Actual MFP was \$28,387,503, a difference of \$982,541. The increase a result of "grossing up" the district MFP with local revenues used to fund local charter schools. MFP revenue has been actually consistent in the 2020-21 fiscal year, due to consistent enrollment.

Expenditures

- Operation and Maintenance of Plant services program expenditures were originally budgeted at \$2,152,478 and increased later to \$2,248,726. Actual expenditures were \$2,893,412, a difference of \$644,686. Additional cleaning supplies were used in order to sanitize school, and additional stipends were issued for extra labor.
- Instructional Staff Support Services program expenditures were originally budgeted at \$982,539, increased to \$2,303,461. Actual expenditures were \$1,103,904, a difference of \$1,199,557. Grant funds picked up a majority of the expenditures.

Other Financing Sources / Uses

- The original budget projected a deficit of \$1,359,941 and was later amended and projected to have a deficit of \$ 6,008. Actual result was a surplus of \$1,816,574 largely due to COVID 19 pandemic caused school closings, resulting in savings of utility, facility, substitute and transportation expenditures.

Total	<u>\$ 21,072,224</u>	<u>\$ 15,271,633</u>

Major capital asset events during the fiscal year included the following:

- Depreciation Expense along with disposition of assets for the year (1) lowered buildings, building improvements, and land improvements values and (2) reduced furniture, equipment and vehicle values for a total of \$899,020.
- Total value increased by \$5.8 million due to energy management project improvements.

Long-Term Debt: At the end of the current fiscal year, the Avoyelles Parish School Board had total bonded debt outstanding of \$10,382,169. The full amount is backed by the full faith and credit of the government. The following table summarizes bonds outstanding at June 30, 2020 and 2021.

Avoyelles Parish School Board's Outstanding Debt

	<u>2021</u>	<u>2020</u>
Capital leases	\$ 5,986,923	\$ 331,660
Compensated absences/claims payable	2,686,915	2,409,134
Certificates of indebtedness	1,708,331	2,104,165
Total	<u>\$ 10,382,169</u>	<u>\$ 4,844,959</u>

Long-term debt issues for fiscal year 2020-21 include the following:

- Total outstanding debt increased by \$5,537,210 during the fiscal year. This is due to new debt for 2020-21 to fund the Energy Management program. Utility savings are expected to fund the debt.

Management's Discussion and Analysis

June 30, 2021

- Louisiana statutes limit the amount of general obligation debt the School Board may issue to 35% of its total assessed valuation. The current debt limitation for the Avoyelles Parish School Board is approximately \$52 million, which is higher than the \$10 million outstanding at June 30, 2021.

For additional information regarding capital assets and long-term debt, see the notes to the basic financial statements on pages 46-48.

Economic Factors and Next Year's Budgets and Rates

The following economic factors were considered when the budget for FY 2020-21 was presented to the Board:

- Information from the Avoyelles Parish Tax Assessor shows the ad valorem tax collections will show a slight increase, mainly due to increased assessments. The land use of the parish is balanced among agriculture, mining, timber, and manufacturing.
- Sales and use tax collections are projected to increase slightly. No major economic changes or developments are expected to occur in the near future that may affect revenues.
- Food service revenues were monumentally higher than the past due to federally funded food boxes as a result of COVID 19. This funding ended shortly after school commenced in the 2021-22 school year since closures were lifted and school scheduling went back to normal in November 2021.

Requests for Information

This financial report is designed to provide a general overview of the Avoyelles Parish School Board's finances for all those with an interest in the School Board's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Director of Business Services of the Avoyelles Parish School Board, 221 Tunica Drive, Marksville, LA 71351, or by calling (318) 253-5982.

Notes to Basic Financial Statements

(1) Summary of Significant Accounting Policies

The accompanying financial statements of the Avoyelles Parish School Board (School Board) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

A. Financial Reporting Entity

The School Board was created by Louisiana Revised Statute (LSA-R.S.) 17:51 to provide public education for the children within Avoyelles Parish. The School Board is authorized by LSA-R.S. 17:81 to establish policies and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of nine members who are elected for terms of four years.

The School Board operates ten schools within the parish with a total enrollment of over 5,000 pupils. In conjunction with the regular educational programs, some of these schools offer special education and/or adult education programs. In addition, the School Board provides transportation and school food services for the students.

For financial reporting purposes, the School Board is considered a separate financial reporting entity, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Fiscally independent means that the School Board may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt.

B. Basis of Presentation

Government-Wide Financial Statements (GWFS)

The statement of net position and the statement of activities display information about the School Board, the primary government, as a whole. They include all funds of the reporting entity, which are considered to be governmental activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the School Board's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Marksville, Louisiana

Notes to Basic Financial Statements

Fund Financial Statements

The accounts of the School Board are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. Fund financial statements report detailed information about the School Board. The various funds of the School Board are classified into three categories: governmental, proprietary, and fiduciary. The emphasis on fund financial statements is on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the School Board or meets the following criteria:

- a. Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The School Board reports the following major governmental funds:

The General Fund is the general operating fund of the School Board. It accounts for all financial resources except those required to be accounted for in other funds.

The School Food Services Fund accounts for operations of the school cafeterias. Funding is provided by federal and state grants-in-aid and charges for meals served.

The Title I Fund accounts for federal grants received for the use of improving the teaching and learning of children from low-income families.

Additionally, the School Board reports the following fund types:

Special Revenue Funds

Special revenue funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. These funds account for the revenues and expenditures related to federal, state and local grant and entitlement programs.

Debt Service Funds

Debt service funds, established to meet requirements of bond ordinances, are used to account for the accumulation of resources for and the payment of general long-term debt principal, interest, and related costs.

Notes to Basic Financial Statements

Internal Service Fund

This fund accounts for self-insurance workers compensation coverages provided to the various functions on a cost reimbursement basis. The School Board's internal service fund is presented in the proprietary fund financial statements. Because the principal users of the internal services are the School Board's governmental activities, the financial statements of the internal services funds are consolidated into the governmental column when presented in the government-wide financial statements. To the extent possible, the cost of these services is reported in the appropriate functional activity.

Fiduciary Fund

The fiduciary fund of the School Board is considered a custodial funds and accounts for assets held by the government in a trustee capacity or as an agent on behalf of other funds within the School Board.

The more significant of the Avoyelles Parish School Board's accounting policies are described below.

C. Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide statement of net position and the statement of activities, the governmental activities are presented using the economic resources measurement focus. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Proprietary funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. All assets and all liabilities associated with the operation of this fund are included on the balance sheet. The statement of changes in fund net position presents increases (i.e. revenues) and decreases (i.e. expenses) in net position. The statement of cash flows provides information about how the School Board finances and meets the cash flow needs of this internal service fund. Revenues are recognized when earned and expenses are recognized at the time the liabilities are incurred. Proprietary funds distinguish operating revenues and operating expenses from nonoperating items. Operating

AVOYELLES PARISH SCHOOL BOARD

Notes to Basic Financial Statements

revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Basis of Accounting

In the government-wide statement of net position and statement of activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gain, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized in accordance with the requirements of GASB.

Program revenues

Program revenues included in the Statement of Activities are derived directly from the program itself or from parties outside the School Board's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the School Board's general revenues.

Allocation of indirect expenses

The School Board reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the Statement of Activities. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means being collectible within the current period or within 60 days after year-end. Expenditures (including facilities acquisition and construction) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due. The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Ad valorem taxes are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed on a calendar year basis and attach as an enforceable lien and become due and payable on the date the tax rolls are filed with the recorder of mortgages. State law requires that the tax roll be filed on or before November 15 of each year. Ad valorem taxes become delinquent if not paid by December 31. The taxes are normally collected in December, January, and February of the current year.

AVOYELLES PARISH SCHOOL BOARD
Marksville, Louisiana

Notes to Basic Financial Statements

Federal and State entitlements (which include state equalization and state revenue sharing) are recorded when available and measurable. State equalization entitlement funds are recognized when the School Board is entitled to them. State revenue sharing, which is based on population and homesteads in the parish, is recorded as revenue in lieu of taxes in the year received which coincides with the recognition of the related ad valorem taxes discussed above. Federal and State grants are recorded when the School Board is entitled to the funds, usually after reimbursable expenditures have been incurred.

Sales taxes are recognized in the period when the underlying sales or use transaction occurred.

Federal commodities are recognized as revenues when received.

Revenue from services provided to other local governments are recorded as other revenues from local sources when the School Board is entitled to the funds.

Interest earnings on time deposits are recognized as revenue when the time deposits have matured, and the interest is available.

Substantially all other revenues are recognized when received by the School Board.

Based on the above criteria, sales taxes, federal and state grants, and certain revenues from local sources have been treated as susceptible to accrual.

Expenditures

Salaries are recorded as expenditures when earned by employees. The salaries for teachers and most other school-level employees are earned over a nine-month period but may be paid over a twelve-month period.

Purchases of various operating supplies, etc. are recorded as expenditures in the accounting period in which they are purchased.

Food costs are recognized as expenditures in the accounting period in which the food is consumed.

Commitments under construction contracts are recognized when earned by the contractor. Substantially all other expenditures are recognized when the related fund liability has been incurred.

Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid, proceeds from indebtedness, the sale of fixed assets, and proceeds for insurance are accounted for as other financing sources (uses). These other financing sources (uses) are recognized at the time the underlying events occur.

Notes to Basic Financial Statements

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Equity

Cash and Interest-Bearing Deposits

Cash and interest-bearing deposits include all demand deposits, interest-bearing demand deposits, and time deposits of the School Board. For purposes of the statement of cashflows, all highly liquid investments with an original maturity of three months or less are considered to be cash equivalents.

Receivables

Receivables are charged against income as they become uncollectible. In the opinion of management, all accounts at year-end were considered collectible, and an allowance for doubtful account was not considered necessary.

Short-Term – Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” or “due to other funds” on the balance sheet. Short-term interfund loans, if any, are classified as “interfund receivable” or “interfund payable” on the balance sheet. These interfund receivables/payables are eliminated for reporting in the Statement of Net Position.

Inventory

Inventory is accounted for using the consumption method, where expenditures are recognized as inventory is used. Inventory of the School Lunch Fund consists of foods purchased by the School Board and commodities granted by the United States Department of Agriculture (USDA) through the Louisiana Department of Agriculture and Forestry. Commodities are recorded as revenues, based on value information from the USDA, when received. All purchased inventory items are valued at actual cost. Inventory is recorded as expenditures when consumed, using a first-in, first-out basis.

Capital Assets

In the Government-Wide Financial Statements capital assets are capitalized and depreciated on a straight-line method over their estimated useful lives. The School Board has adopted a capitalization threshold of \$5,000 for reporting purposes. All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. A breakdown of the asset valuation between actual and estimated cost is not available. Donated capital assets, if any, are valued at their acquisition value on the date the donation is received. Estimation of useful lives in years is as follows:

Buildings and building improvements	10-30 years
Furniture, vehicles and equipment	5-7 years

AVOYELLES PARISH SCHOOL BOARD
Marksville, Louisiana

Notes to Basic Financial Statements

Expenditures that extend the useful lives of capital assets beyond their initial estimated useful lives or improve their efficiency or capacity are capitalized, whereas expenditures for repairs and maintenance are expensed. Interest costs on debt used to finance the construction of assets are not capitalized.

In the Fund Financial Statements capital assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in governmental funds.

No provision is made for depreciation on capital assets in the Fund Financial Statements since the full cost is expensed at the time of purchase or construction.

Compensated Absences

Vested or accumulated sick or vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. This includes payments that come due before the end of the reporting period upon the occurrence of employee resignation, retirement, or death that will be paid during the first month of the following year. Vested or accumulated leave that is not expected to be liquidated with expendable available financial resources is not reported in the Fund Financial Statements. The full liability and related costs are reported in the Government-Wide Financial Statements.

All twelve-month employees earn from 12 to 24 days of annual leave each year, depending upon length of service with the School Board. Annual leave is earned monthly and is creditable at the end of each fiscal year for the year's services. Upon resignation, termination or retirement, twelve-month employees may elect to use or be paid for banked time up to 37.5 days. Additionally, upon resignation, termination, or retirement, twelve-month employees may elect to use or be paid for days earned and unused from the prior fiscal year and days earned in the current fiscal year, up to a maximum of 48 days

All School Board employees earn 10-18 days of sick leave depending on contract days each year that can be accumulated without limitation. Upon retirement or death, employees or their heirs are paid for up to 25 days of accumulated sick leave at the employee's current rate of pay. The estimated liability for vested sick leave benefits is considered long-term and is not recorded in the Fund Financial Statements. The estimated liability includes required salary-related payments. Under the Louisiana Teachers Retirement System, all accumulated sick leave, including the 25 days paid, is used in the retirement benefit computation as earned service for leave earned prior to July 1, 1988. For sick leave earned after July 1, 1988, under the Louisiana Teachers' Retirement System and for sick leave earned under the Louisiana School Employees' Retirement System, all accumulated sick leave, excluding the 25 days paid to the employee, is used in the retirement benefit computation as earned service.

Sabbatical leave may be granted for professional and cultural improvement and for medical reasons. Any employee with a teaching certificate is entitled, subject to approval by the School Board, to one semester of sabbatical leave after three years of continuous service or two semesters of sabbatical leave after six or more years of continuous service. Professional and

AVOYELLES PARISH SCHOOL BOARD
Marksville, Louisiana

Notes to Basic Financial Statements

cultural improvement sabbaticals are restricted in nature as a condition of the leave and, therefore, are considered only a change in the types of services being rendered and not subject to accrual. Medical sabbaticals require the use of virtually all sick leave before a sabbatical can be taken and are not material. Sabbatical leave benefits are recorded as expenditures in the period paid.

Long-term liabilities

The accounting treatment of long-term liabilities depends on whether the assets are reported in the government-wide or fund financial statements. All long-term liabilities to be repaid from governmental resources are reported as liabilities in the government-wide statements. The long-term liabilities consist primarily of claims payable, capital leases, bonds payable, accrued compensated absences, pension liabilities and other post-retirement benefits.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources net of the applicable premium or discount and payment of principal and interest reported as expenditures. For fund financial reporting, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position – Consists of net assets with constraints placed on the use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – Net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in either of the other two categories of net position.

AVOYELLES PARISH SCHOOL BOARD
Marksville, Louisiana

Notes to Basic Financial Statements

In the fund financial statements, fund balances are classified as follows in the governmental fund financial statements.

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by a formal action of the School Board members. The Board is the highest level of decision-making authority for the School Board office. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by Board members.

Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the School Board’s adopted policy, only Board members or the Board’s finance committee may assign amounts for specific purposes.

Unassigned – all other spendable amounts. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds, other than the general fund, if expenditures incurred for specific purposes exceed the amounts that restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

Fund balances components other than unassigned fund balances consist of the following:

	<u>Nonspendable</u>	<u>Restricted</u>	<u>Committed</u>
General Fund:			
Compensated absences	\$ -	\$ -	\$ 500,000
Future expenditures	-	-	2,800,000
Prepaid expenses	7,442	-	-
School Food Service Fund	139,900	3,786,111	-
Nonmajor funds:			
Capital projects	-	-	677,478
Debt service	-	-	1,173,544
School maintenance	-	-	1,204,638
LA AG Science	-	3,880,358	-

Salaries	-	-	1,448,229
Total	<u>\$ 200,399</u>	<u>\$ 7,666,469</u>	<u>\$ 7,803,889</u>

AVOYELLES PARISH SCHOOL BOARD
Marksville, Louisiana

Notes to Basic Financial Statements

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the School Board considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the School Board considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless Board members or the finance committee has provided otherwise in its commitment or assignment actions.

E. Interfund Transfers

In the governmental funds, transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. All other interfund transactions are reported as transfers.

F. Sales Tax

The School Board collects a one percent sales tax, a one-half percent sales tax, and a one-quarter percent sales tax. The net proceeds of the one percent sales tax are dedicated to supplemental salaries of teachers and other school employees and for expenses of operating the schools. This tax was approved by the voters on August 29, 1967 and has no expiration date. The proceeds from the one-half percent sales tax are dedicated to making capital improvements, funding bonded indebtedness, and maintaining and operating the public-school system of Avoyelles Parish. This tax was approved by the voters on April 9, 1977 for a period of 25 years. On November 17, 2001, voters renewed the one-half percent sales tax for an additional 25 years expiring in August 2027. The proceeds from the one-quarter percent sales tax are dedicated to the payment of salaries and benefits of employees of the School Board. This tax was approved by the voters on November 19, 2011 for a period of 10 years expiring in 2022.

G. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

H. Pensions

The net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. Non-employer contributions are recognized as revenues in the government-wide and proprietary fund financial statements. In the governmental fund financial statements contributions are recognized as expenditures when due.

Notes to Basic Financial Statements

I. Postemployment Benefits Other than Pensions (OPEB)

The net OPEB liability, deferred outflows of resources, and deferred inflows of resources related to OPEB, and OPEB expense has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. In the governmental fund financial statements contributions are recognized as expenditures when due.

(2) Levied Taxes

The following ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. During the fiscal year ended June 30, 2021, taxes levied by the School Board and were billed to taxpayers by the Assessor in November. Billed taxes are due by December 31, becoming delinquent on January 1 of the following year.

The taxes are based on assessed values determined by the Assessor of Avoyelles Parish and are collected by the Sheriff. The taxes are remitted to the School Board net of deductions for Pension Fund contributions.

For the year ended June 30, 2021, taxes were levied on property with net assessed valuations totaling \$154,325,837 and were dedicated as follows:

Parishwide Taxes:

Constitutional	3.62 mills
Special Maintenance	5.00 mills
Operation and Maintenance	5.00 mills
School Employee Salary	<u>10.00</u> mills
Total assessment	<u>23.62</u> mills

Gross taxes levied for the current fiscal year totaled \$3,645,078. Before deductions for various pension distributions and uncollectible taxes and after collections of back taxes, net taxes remitted to the School Board amounted to \$3,632,459.

(3) Cash and Interest-Bearing Deposits

Under state law, the School Board may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The School Board may also deposit funds in time certificates of deposit of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the School Board's deposits may not be recovered or will not be able to recover the collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. The School Board does not have a policy for custodial credit risk; however, under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the pledging financial institution. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Deposit balances (bank balances) are secured as follows:

Bank balances	<u>\$ 22,781,065</u>
Federal Deposit Insurance	\$ 1,569,297
Uninsured and collateral held by the pledging bank not in the School Board's name	<u>21,211,768</u>
Total	<u>\$ 22,781,065</u>

(4) Louisiana Asset Management Pool

The School Board participates in the Louisiana Asset Management Pool (LAMP). LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA – R.S. 33:2955.

Accounting standards require disclosure of credit risk, custodial credit risk, concentration of credit risk interest rate risk, and foreign currency risk for all public entity investments.

LAMP is an investment pool that, to the extent practical, invest in a manner consistent with accounting standards. The following facts are relevant for investment pools:

- Credit risk: LAMP is rated AAAM by Standard & Poor's.

AVOYELLES PARISH SCHOOL BOARD
Marksville, Louisiana

Notes to Basic Financial Statements

- Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.
- Concentration of credit risk: Pooled investments are excluded from the 5 percent disclosure requirement.
- Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments.
- Foreign currency risk: Not applicable.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company. At June 30, 2021, the School Board had \$10,840,887 invested in LAMP, which is included in cash and interest-bearing deposits on the Statement of Net Position.

(5) Interfund Assets, Interfund Liabilities, and Operating Transfers

A) Individual balances due from/to other funds are as follows:

	Interfund Receivables	Interfund Payables
Major funds:		
General fund	\$ 9,442,262	\$ 152,746
School food service	-	2,892,821

Nonmajor governmental funds	3,391,567	3,820,831
Total transfers in/out	\$ 10,915,752	\$ 10,915,752

Transfers are used to 1) move revenues from the fund required by statute, voter-approved resolution or budget to collect them to the fund required by statute or budget to expend them, and 2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

(6) Sales and Use Tax

The School Board is authorized to collect within the parish various sales and use taxes. The proceeds of the taxes are dedicated to supplement salaries of teachers and/or the expenditures of operating the schools, including salaries of other personnel. The School Board was appointed the central sales tax collecting agency for all taxing bodies within the Parish. The following is a summary of taxes that the School Board has the responsibility of collecting:

On August 4, 2009, the School Board issued \$5,000,000 QSCB Revenue Bonds, Series 2009, due in annual installments of \$333,333 through maturity on September 1, 2024. No interest is assessed on these bonds. The bonds were issued for the construction/improvement of schools within the school boards control and were to be repaid from proceeds of general revenues. Events of default are outlined in the official statement of the Series 2009 bond and include failure to remit payments timely. In addition, failure to observe or perform any other agreement contained in the official statement that is not remedied within 45 days of receiving written notice will be considered a default. The sole remedy in the event of fault under the certificate shall be an action to compel performance.

On January 4, 2011, the School Board issued \$1,000,000 QSCB Revenue Bonds, Series 2011, due in annual installments of \$62,500 through maturity on March 1, 2027. Interest payments are due semi-annually and are assessed at a rate of 2%. The bonds were issued for the construction/improvement of schools within the school boards control and were to be repaid by ad valorem taxes. Events of default are outlined in the official statement of the Series 2011 bond and include failure to remit payments timely. In addition, failure to observe or perform any other agreement contained in the official statement that is not remedied within 45 days of receiving written notice will be considered a default. The sole remedy in the event of fault under the certificate shall be an action to compel performance.

The annual requirement to amortize outstanding long-term debt is as follows:

Year Ending June 30,	Principal payments	Interest payments	Total
2022	\$ 395,833	\$ 6,562	\$ 402,395

(10) Capital Leases

On April 17, 2018, the School Board entered into an equipment lease for \$816,551, which are due in annual installments of \$168,521 to \$174,083 through maturity on March 17, 2022. Interest payments are due annually and are assessed at a rate of 1% to 3%. The equipment lease was entered into for the acquisition of new buses and are to be repaid by general revenues. Events of default are outlined in the official lease agreement and include failure to remit payments timely. The remedy in the event of fault under the lease agreement consists of several actions and include payment of amount owed with additional interest charged monthly, as well as relinquishing leased equipment.

On March 15, 2021, the School Board entered into an equipment lease for \$1,843,530, which are due in annual installments of \$356,025 to \$381,609 through maturity on March 15, 2026. Interest payments are due annually and are assessed at a rate of 1% to 3%. The equipment lease was entered into for the acquisition of new buses and are to be repaid by general revenues. Events of default are outlined in the official lease agreement and include failure to remit payments timely. The remedy in the event of fault under the lease agreement consists of several actions and include payment of amount owed with additional interest charged monthly, as well as relinquishing leased equipment.

On July 8, 2020, the School Board entered into an equipment lease for \$3,974,871, which are due in annual installments of \$150,646 to \$297,299 through maturity on July 1, 2038. Interest payments are due annually and are assessed at a rate of 2.76%. The equipment lease was entered into for the acquisition improvements to schools and are to be repaid by general revenues. Events of default are outlined in the official lease agreement and include failure to remit payments timely. The remedy in the event of fault under the lease agreement consists of several actions and include payment of amount owed with additional interest charged monthly, as well as relinquishing leased equipment.

(11) Retirement Systems

Eligible employees of the School Board participate in one of several cost-sharing multiple-employer public retirement defined benefit plans which are controlled and administered by a separate board of trustees. These retirement systems provide retirement, disability and death benefits to plan members and their beneficiaries. Pertinent information relative to each plan follows:

A) Teachers' Retirement System of Louisiana (TRLS)

For purposes of measuring the Net Pension Liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Retirement System of Louisiana (TRSL) and additions to/deductions from TRSL's fiduciary net position have been determined on the same basis as they are reported by TRSL. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The following is a description of the plan and its benefits and is provided for general informational purposes only.

AVOYELLES PARISH SCHOOL BOARD
Marksville, Louisiana

Notes to Basic Financial Statements

Plan Description: TRSL was established for the purpose of providing retirement allowances and other benefits as stated under the provisions of Louisiana law, for eligible teachers, employees, and their beneficiaries. The plan is a cost-sharing, multiple-employer defined benefit plan. The projection of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through the System in accordance with the benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date. TRSL issues a publicly available financial report that can be obtained at www.trsl.org.

Benefits Provided: TRSL provides retirement, deferred retirement option (DROP), disability, and survivor's benefits.

Normal retirement: Regular Plan – Members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after July 1, 2015, may retire with a 2.5% benefit factor after attaining age sixty-two with at least 5 years of service credit and are eligible for an actuarially reduced benefit with 20 years of service at any age. Members hired between January 1, 2011 and June 30, 2015 may retire with a 2.5% benefit factor after attaining age sixty with at least 5 years of service credit and are eligible for an actuarially reduced benefit with 20 years of service at any age. Members hired between July 1, 1999 and December 31, 2010, are eligible for a 2.5% benefit factor at the earliest of age 60 with 5 years of service, age 55 with 25 years of service, or at any age with 30 years of service. Members may retire with an actuarially reduced benefit with 20 years of service at any age. If hired before July 1, 1999, members are eligible for a 2% benefit factor at the earliest of age 60 with 5 years of service, or at any age with 20 years of service and are eligible for a 2.5% benefit factor at the earliest of age 65 with 20 years of service, age 55 with 25 years of service, or at any age with 30 years of service.

Normal retirement: Plan A – Members may retire with a 3.0% annual accrual rate at age 55 with 25 years of service, age 60 with 5 years of service or 30 years of service, regardless of age. Plan A is closed to new entrants.

Benefits Formula: For all plans, retirement benefits are based on a formula which multiplies the final average compensation by the applicable accrual rate, and by the years of credible service. For Regular Plan and Lunch Plan B members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after January 1, 2011, final average compensation is defined as the highest average 60-month period. For all other members, final average compensation is defined as the highest average 36-month period.

Payment options: A retiring member is entitled to receive the maximum benefit payable until the member's death. In lieu of the maximum benefit, the member may elect to receive a reduced benefit payable in the form of a Joint and Survivor Option, or a lump sum that can't exceed 36 months of the member's maximum monthly benefit amount.

Effective July 1, 2009, members may make an irrevocable election at retirement to receive an actuarially reduced benefit which increases 2.5% annually, beginning on the first retirement anniversary date, but not before age 55 or before the retiree would have attained age 55 in the case of a surviving spouse. This option can be chosen in combination with the above options.

Notes to Basic Financial Statements

Deferred Retirement Option Program (DROP): In lieu of terminating employment and accepting a service retirement, an eligible member can begin participation in the Deferred Retirement Option Program (DROP) on the first retirement eligibility date for a period not to exceed the 3rd anniversary of retirement eligibility. A member has a 60-day window from his first eligible date to participate in the program in order to participate for the maximum number of years. Delayed participation reduces the three year participation period. During participation, benefits otherwise payable are fixed, and deposited in an individual DROP account.

Upon termination of DROP, the member can continue employment and earn additional accruals to be added to the fixed pre-DROP benefit.

Upon termination of employment, the member is entitled to the fixed benefit, an additional benefit based on post-DROP service (if any), and the individual DROP account balance which can be paid in a lump sum or an additional annuity based upon the account balance.

Disability Benefits: Active members whose first employment makes them eligible for membership in a Louisiana state retirement system before January 1, 2011, and who have five or more years of service credit are eligible for disability retirement benefits if certified by the State Medical Disability Board (SMDB) to be disabled from performing their job. All other members must have at least 10 years of service to be eligible for a disability benefit. Calculation of the disability benefit as well as the availability of a minor child benefit is determined by the plan to which the member belongs and the date on which the member's first employment made them eligible for membership in a Louisiana state retirement system.

Survivor Benefits: A surviving spouse with minor children of an active member with five years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) 50% of the member's benefit calculated at the 2.5% accrual rate for all creditable service. When a minor child(ren) is no longer eligible to receive survivor benefits, the spouse's benefit reverts to a survivor benefit in accordance with the provisions for a surviving spouse with no minor child(ren). Benefits for the minor child(ren) cease when he/she is no longer eligible.

Each minor child (maximum of 2) shall receive an amount equal to the greater of (a) 50% of the spouse's benefit, or (b) \$300 (up to 2 eligible children). Benefits to minors cease at attainment of 21, marriage, or age 23 if enrolled in an approved institution of higher education.

A surviving spouse without minor children of an active member with 10 years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) the option 2 equivalent of the benefit calculated at the 2.5% accrual rate for all creditable service.

Permanent Benefit Increases/Cost-of-Living Adjustments: As fully described in Title 11 of the Louisiana Revised Statutes, TRSL allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs) that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Notes to Basic Financial Statements

Contributions: The employer contribution rate is established annually under LA R.S. 11:101 – 11:104 by the Public Retirement Systems’ Actuarial Committee (PRSAC), taking into consideration the recommendation of the System’s actuary. Each sub plan pays a separate actuarially determined employer contribution rate. However, all assets of TRSL are used for the payment of benefits for all classes of members, regardless of their plan.

The normal cost portion of each plan’s employer contribution rate varies based upon the plan’s benefits, member demographics, and the rate contributed by employees. The Unfunded Accrued Liability (UAL) contribution rate is determined in aggregate for all plans. The UAL resulting from legislation specific to a plan or group of plans will be allocated entirely to that plan or those plans.

The rates in effect during the fiscal year ended June 30, 2021 are as follows:

TRSL Sub Plan	Employer Contribution
K-12 Regular Plan	26.0%
Higher Ed Regular Plan	25.3%
Plan A	26.0%
Plan B	26.0%

Contributions to the pension plan from the School Board were \$5,339,431 for the year ended June 30, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. The School Board reported a liability of \$44,465,582 for its proportionate share of the TRSL Net Pension Liability. The Net Pension Liability was measured as of June 30, 2020 and the total pension liability used to calculate the Net Pension Obligation was determined by an actuarial valuation as of that date. The School Board’s proportion of the Net Pension Liability was based on a projection of the School Board’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The School Board’s proportion was 0.400%, which was an increase of 0.011% from the prior year.

The School Board recognized pension expense of \$3,545,032.

Notes to Basic Financial Statements

The School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experiences	\$ -	\$ 713,771
Changes of assumptions	2,645,261	-
Net difference between projected and actual earnings on pension plan investments	3,432,478	-
Change in proportion and differences between employer contributions and proportionate share of contributions	1,734,249	2,901,948
Employer contributions subsequent to the measurement date	5,339,431	-
Total	\$ 13,151,419	\$ 3,615,719

\$5,339,431 reported as deferred outflows of resources related to pensions resulting from School Board contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,			
2022			\$ (254,167)
2023			\$ 950,235
2024			\$ 1,847,985
2025			\$ 1,652,216

Contributions – Proportionate Share: Differences between contributions remitted to the System and the employer’s proportionate share are recognized in pension expense using the straight line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with a pension through the pension plan. The resulting deferred inflow/outflow and amortization is not reflected in the Schedule of Pension Amounts by Employer due to differences that could arise between contributions reported by the System and contributions reported by the participating employer.

Actuarial Assumptions: The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees’ past periods of service, less

the amount of the pension plan's fiduciary net position. A summary of the actuarial methods and assumptions used in determining the total pension liability are as follows:

Actuarial Cost Method: Entry Age Normal

Amortization approach: Closed

Expected Remaining Service Lives: 5 years

Investment Rate of Return: 7.45% per annum

Inflation Rate: 2.3% per annum

Salary Increases: Vary from 3.1% - 4.6% depending upon duration of service

Cost of Living Adjustment: None

Mortality Rates: Active members – RP-2014 White Collar Employee tables, adjusted by 1.010 for males and by 0.997 for females. Non-Disabled retiree/inactive members – RP-2014 White Collar Healthy Annuitant tables, adjusted by 1.366 for males and by 1.189 for females. Disability retiree mortality – RP-2014 Disability tables, adjusted by 1.111 for males and by 1.134 for females. These base tables are adjusted from 2014 to 2018 using the MP-2017 generational improvement table, with continued future mortality improvement projected using the MP-2017 generational mortality improvement tables.

Termination and disability: Termination, disability, and retirement assumptions were projected based on a 5-year (July 1, 2012 – June 30, 2017) experience study of the System's members.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	27.0%	4.60%
International equity	19.0%	5.54%
Domestic fixed income	13.0%	0.69%
International fixed income	5.5%	1.50%
Private equity	25.5%	8.62%
Other private assets	10.0%	4.45%

Notes to Basic Financial Statements

Discount Rate: The discount rate used to measure the total pension liability was 7.45%. This was a decrease of .10% from the discount rate used in the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System’s actuary. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determined the total pension liability.

Sensitivity of the Employer’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the Employer’s proportionate share of the Net Pension Liability calculated using the discount rate, as well as what the Employer’s proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

	1.0% Decrease 6.45%	Current Discount Rate 7.45%	1.0% Increase 8.45%
Employer's proportionate share of the net pension liability	\$ 58,046,062	\$ 44,465,582	\$ 33,033,462

Support of Non-employer Contributing Entities: Contributions received by a pension plan from non-employer contributing entities that are not in a special funding situation are recorded as revenue by the respective pension plan. The School Board recognizes revenue in an amount equal to their proportionate share of the total contributions to the pension plan from these non-employer contributing entities. The School Board recognized revenue as a result of support received from non-employer contributing entities of \$172,493 for its participation in TRSL.

Pension Plan Fiduciary Net Positions: Detailed information about the pension plan’s fiduciary net position is available in the separately issued TRSL Comprehensive Annual Financial Report at www.trsl.org.

B) Louisiana School Employees’ Retirement System (LSERS)

For purposes of measuring the Net Pension Liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State of Louisiana School Employees’ Retirement System (System) and additions to/deductions from the System’s fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The following is a description of the plan and its benefits and is provided for general information purposes only.

Notes to Basic Financial Statements

Plan Description: Certain employees of the School Board are provided with pensions through a cost-sharing multiple-employer defined benefit plan administered by the State of Louisiana School Employees' Retirement System, a component unit of the State of Louisiana. The System was established and provided for by LA R.S. 11:1001 to provide retirement, disability and survivor benefits to all eligible employees. LSERS issues a publicly available financial report that can be obtained at www.lasers.net.

Membership is mandatory for all persons employed by a Louisiana Parish or City School Board who work more than twenty hours per week or for part-time employees who have ten years of creditable service in the System as a school bus driver, school janitor, school custodian, school maintenance employee, school bus aide or any other regular school employee who actually works on a school bus helping with the transportation of school children. If a person is employed by and is eligible to be a member of more than one public agency within the state, he must be a member of each such retirement system. Members are vested after 10 years of service or 5 years if enrolled after June 30, 2010.

All temporary, seasonal and part-time employees as defined in Federal Regulations 26 CFR 31:3121(b)(7)-2 are not eligible for membership in the System. Any part-time employees who work 20 hours or less per week and who are not vested will be refunded their contributions.

Benefits Provided: Benefit provisions are authorized under Louisiana Revised Statutes 11:1141 – 11:1153.

Retirement: A member who joined the System on or before June 30, 2010 is eligible for normal retirement if he has at least 30 years of creditable service regardless of age, 25 years of creditable service and is at least age 55, 20 years of creditable service regardless of age with an actuarially reduced benefit, or 10 years of creditable service and is at least age 60. A member who joined the system on or after July 1, 2010 is eligible for normal retirement if he has at least 5 years of creditable service and is at least age 60, or 20 years of creditable service regardless of age with an actuarially reduced benefit. A member who joined the System on or after July 1, 2015, is eligible for normal retirement if he has at least five years of creditable service and is at least age 62, or 20 years of creditable service regardless of age with an actuarially reduced benefit.

For members who joined the System prior to July 1, 2006, the maximum retirement benefit is an amount equal to $3\frac{1}{3}\%$ of the average compensation for the three highest consecutive years of membership service, subject to the 10% salary limitation, multiplied by the number of years of service limited to 100% of final average compensation plus a supplementary allowance of \$2.00 per month for each year of service. For members who joined the System on or after July 1, 2006 through June 30, 2010, $3\frac{1}{3}\%$ of the average compensation is used to calculate benefits; however, the calculation consists of the five highest consecutive years of membership service, subject to the 10% salary limitation. For members who join the System on or after July 1, 2010, $2\frac{1}{2}\%$ of the average compensation is used to calculate benefits and consists of the five highest consecutive years' average salary, subject to the 15% salary limitation.

The supplemental allowance was eliminated for members entering the System on or after July 1, 1986. Effective January 1, 1992, the supplemental allowance was reinstated to all members whose service retirement became effective after July 1, 1971.

Notes to Basic Financial Statements

Deferred Retirement Option Plan: Members of the System may elect to participate in the Deferred Retirement Option Plan (DROP) and defer the receipt of benefits. The election may be made only one time and the duration is limited to three years. Once an option has been selected, no change is permitted. Upon the effective date of the commencement of participation in the DROP Plan, active membership in the regular retirement plan of the System terminates. Average compensation and creditable service remain as they existed on the effective date of commencement of participation in the System. The monthly retirement benefits, that would have been payable had the person elected to cease employment and receive a service retirement allowance, are paid into the Deferred Retirement Option Plan Fund Account.

The System maintains subaccounts within this account reflecting the credits attributed to each participant in the DROP program. Interest credited and payments from the DROP account are made in accordance with Louisiana Revised Statutes 11:1152(F)(3). Upon termination of participation in both the DROP program and employment, a participant may receive his DROP monies wither in a lump sum payment from the account or systematic disbursements.

The System also provides for deferred benefits for vested members who terminate before being eligible for retirement. Once the member reaches the appropriate age for retirement, benefits become payable.

Disability Benefits: A member is eligible to retire and receive disability benefits if he has at least five years of creditable service, is not eligible for normal retirement and has become totally and permanently disabled and is certified as disabled by the Medical Board. A vested person with twenty or more years of creditable service is eligible for a disability benefit until normal retirement age. A member who joins the System on or after July 1, 2006, must have at least ten years of service to qualify for disability benefits.

Survivor Benefits: Upon the death of a member with five or more years of creditable service, the System provides benefits for surviving spouses and minor children. Under certain conditions outlined in the status, a spouse is entitled to 75% of the members' benefits.

Initial Benefit Retirement Plan: Effective January 1, 1996, the state legislature authorized the System to establish an Initial Benefits Retirement Plan (IBRP) program. IBRP is available to members who have not participated in DROP and who select certain benefit options. Thereafter, these members are ineligible to participate in the DROP. The IBRP program provides both a one-time single sum payment of up to 36 months of a regular monthly retirement benefit, plus a reduced monthly retirement benefit for life. Interest credited and payments from IBRP account are made in accordance with Louisiana Revised Statutes 11:1152(F)(3).

Contributions: Contributions for all participating school boards are actuarially determined as required by Act 81 of 1988 but cannot be less than the rate required by the Constitution. The actuarial required contribution rate for June 30, 2021 was 28.70%. Contributions to the pension plan from the School Board were \$723,830.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. The School Board reported a liability of \$5,596,109 for its proportionate share of the System’s Net Pension Liability. The Net Pension Liability was measured as of June 30, 2020 and the total pension liability used to calculate the Net Pension Obligation was determined by an actuarial valuation as of that date. The School Board’s proportion of the Net Pension Liability was based on a projection of the School Board’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The School Board’s proportion was 0.697%, which was an increase of 0.024% from the prior year.

For the year ended June 30, 2021, the School Board recognized pension expense of \$723,830.

The School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experiences	\$ -	\$ 137,756
Changes of assumptions	33,349	-
Net difference between projected and actual earnings on pension plan investments	852,056	-
Employer contributions and proportionate share of contributions	104,457	53,868
Employer contributions subsequent to the measurement date	637,458	-
Total	\$ 1,627,320	\$ 191,624

\$637,458 reported as deferred outflows of resources related to pensions resulting from School Board contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,			
2022		\$	60,232
2023		\$	284,465

Contributions – Proportionate Share: Differences between contributions remitted to the System and the employer’s proportionate share are recognized in pension expense/(benefit) using the straight line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with a pension through the pension plan. The resulting deferred inflow/outflow and amortization is not reflected in the Schedule of Pension Amounts by Employer due to differences that could arise between contributions reported by the System and contributions reported by the participating employer.

Actuarial Assumptions: The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees’ past periods of service, less the amount of the pension plan’s fiduciary net position. A summary of the actuarial methods and assumptions used in determining the total pension liability:

Actuarial Cost Method: Entry Age Normal

Expected Remaining Service Lives: 3 years

Investment Rate of Return: 7.00%, net of investment expense

Inflation Rate: 2.50%

Mortality Rate: Mortality rates were projected based on the RP-2014 Healthy Annuitant Tables RP-2014 Sex Distinct Employee Tables and RP-2014 Sex Distinct Disabled Tables.

Salary Increases: 2012-2017 experience study, 3.25%.

Cost of Living Adjustments: Not substantively automatic - the present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees.

The total pension liability has been changed to recognize that a portion of future investment gains will be used to fund the System’s Experience Account. Since neither the existing funds in the account nor future deposits to the account may be used to pay for existing benefits the liability was added for one future cost of living increase to the system’s liabilities. However, since it will take an act of the legislature to pay a cost of living increase from the Experience Account and such an act will be dependent upon a range of economic and political factors, no pattern of future increases can be forecast on a reliable basis. Hence, no liability for payments beyond that of one future COLA is included in the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and

inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The resulting long-term arithmetic nominal expected return is 8.76%. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	26.0%	0.92%
Equity	39.0%	2.82%
Alternatives	23.0%	1.95%
Real Estate	12.0%	0.69%
Total	<u>100.0%</u>	<u>6.38%</u>
Inflation		<u>2.00%</u>
Expected Arithmetic Nominal Return		<u>8.38%</u>

Discount Rate: The discount rate used to measure the total pension liability was 7.00%. This was equivalent to the discount rate used in the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PERSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the system's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the Employer's proportionate share of the Net Pension Liability calculated using the discount rate, as well as what the Employer's proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

(12) Post-Retirement Health Care and Life Insurance Benefits

Plan description – The School Board provides certain continuing health care and life insurance benefits for its retired employees. The School Board’s OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the School Board. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the School Board. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Codification Section P52 *Postemployment Benefits Other Than Pensions—Reporting For Benefits Not Provided Through Trusts That Meet Specified Criteria—Defined Benefit*.

Benefits Provided – Medical benefits are provided through the Louisiana Office of Group Benefits (OGB) and involve several statewide networks and one HMO with a premium structure by region. The OGB plan is a fully insured, multiple-employer arrangement and this plan has been deemed to be a single employer defined benefit OPEB plan (within the meaning of GASB 74/75) for financial reporting purposes and for this valuation. Most of the employees are covered by the Teachers' Retirement System of Louisiana. The retirement eligibility (D.R.O.P. entry) provisions are as follows: 30 years of service at any age; age 55 and 25 years of service; or, age 60 and 5 years of service. Employees hired on or after January 1, 2011 must have attained at least age 60 at retirement (or D.R.O.P. entry) to avoid actuarial reduction in the retirement benefit. Life insurance coverage under the OGB program is available to retirees by election and the employer pays 50% of the cost of the retiree life insurance based on the plan's blended rates.

Insurance coverage amounts are reduced at age 65 and again at age 70 according to the OGB plan provisions. The following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	569
Inactive employees entitles to but not yet receiving benefit payments	-
Active employees	445

Total OPEB Liability

The School Board's total OPEB liability of \$99,759,038 was measured as of June 30, 2021 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs – The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5%
Salary increases	4.0%, including inflation
Discount Rate	2.21% annually (Beginning of Year to Determine ADC)
	2.16% annually (As of End of Year Measurement Date)
Healthcare cost trend rates	Flat 5.5% annually
Mortality	SOA RP-2000 Table

The discount rate was based on the average of the Bond Buyers' 20 Year General Obligation municipal bond index as of June 30, 2021, the end of the applicable measurement period.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of ongoing evaluations of the assumptions from July 1, 2009 to June 30, 2019.

(13) Litigation and Claims

Management and legal counsel for the Avoyelles Parish School Board believe that the potential claims against the School Board would not materially affect the School Board's financial position.

Notes to Basic Financial Statements

(14) Risk Management

The School Board is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; and injuries to employees and others. To handle such risk of loss, the School Board maintains commercial insurance policies covering automobile liability and medical payments, workers compensation, general liability, errors and omissions, and surety bond coverage. No claims were paid on any of the policies during the past three years which exceeded the policies' coverage amounts.

The School Board is partially self-insured for workers' compensation insurance coverage. The risk management activities are recorded in the Workers Compensation Self-Insurance Fund, an internal service fund. This fund accounts for the financing activities of the School Board but does not constitute a transfer of risk from the School Board. Claims are paid by a third-party administrator acting on behalf of the School Board, under the terms of a contractual agreement. Administrative fees are included within the provisions of that agreement. The School Board is protected against unanticipated catastrophic claims and aggregate loss by coverage carried through a commercial stop loss policy.

Coverage was in effect for specific occurrences exceeding \$500,000 and aggregate retention of \$1,000,000. The amount of settlements for each of the past three years has not exceeded the insurance coverage for each of the respective years.

Changes to the fund's unpaid claims liability were as follows:

	June 30, 2021	June 30, 2020
Balance, beginning	\$ 505,000	\$ 1,049,000
Current year claims and changes in estimate	724,928	158,931
Claims paid	(459,928)	(702,931)
Balance, ending	\$ 770,000	\$ 505,000

(15) Section 457 Plan

Certain employees of Avoyelles Parish School Board participate in the Louisiana Public Employees Deferred Compensation Plan adopted under the provisions of the Internal Revenue Code 457. Complete disclosures relating to the Plan are included in the separately issued audit report for the Plan, available from the Louisiana Legislative Auditor, Post Office Box 94397, Baton Rouge, Louisiana, 70804-9397.

(16) Commitments and Contingencies

The Avoyelles Parish School Board receives grants for specific purposes that are subject to review and audit by the Louisiana Department of Education. Such audits could result in a request for reimbursement for disallowed costs under the terms of the grant agreements. In the opinion of management, such disallowance, if any, would be insignificant.

(17) Economic Dependency

The Minimum Foundation funding provided by the state to all public school systems is primarily based on October 1 student count. The state provided approximately 44% of the School Board's revenue through this program during the year.

(18) On-Behalf Payments

The accompanying financial statements include on-behalf payments made by the Parish Tax Collector for \$114,870 and the State of Louisiana for \$14,564 to the Teacher's Retirement System of Louisiana for employee retirement benefits. Such payments are recorded in the governmentwide and general fund financial statements as revenues and expenditures.

(19) Compensation, Benefits, and Other Payments to Superintendent

A detail of compensation, benefits, and other payments paid to Superintendent Blaine Dauzat are as follows:

Purpose	Amount
Salary	\$ 157,136
Benefits- insurance	7,067
Benefits- retirement	29,304
Travel	4,223

(20) Compensation Paid Board Members

The schedule of compensation paid to the Avoyelles Parish School Board members is presented in compliance with House Concurrent Resolution No. 54 of the 1979 session of the Louisiana Legislature. Compensation of the Avoyelles Parish School Board members is included in the general administrative expenditures of the General Fund. In accordance with Louisiana Revised Statute 17:56, the School Board members have elected the monthly payment method of compensation. Under this method, each member of the Board receives \$540 per month, and the President receives \$630 per month for performing the duties of his office.

(21) Deficit Fund Balance

The Public Health Services Act XIX fund had a deficit fund balance at June 30, 2021 of \$1,528. The deficit will be financed through future revenues of the fund.

(22) New Accounting Pronouncements

In June 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 87, Leases. The statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The provisions of GASB Statement No. 87 are effective for fiscal years beginning after June 15, 2021. The effect of implementation on the School Board's financial statements has not yet been determined.

In January 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 84, Fiduciary Activities. This Statement establishes criteria for identifying fiduciary activities of local governments. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. Additionally, this Statement resulted in some activities, previously reported as fiduciary activities, to be reclassified as special revenue funds. The School Board adopted this standard during the year which had the following effect on beginning balances:

	<u>Governmental Activities</u>	<u>Custodial Funds</u>	<u>Nonmajor Governmental Funds</u>	<u>Special Revenue Funds</u>

(3) Budget Practices

In May, the Superintendent submits to the School Board the proposed annual budget for the fiscal year beginning July 1st. The proposed budget is made available for public inspection and comments by taxpayers prior to September 15th. The School Board legally enacts the budget through adoption. The only legal requirement is that the School Board adopt a balanced budget, whereby total budgeted revenues and other financial sources, including fund balance, must equal or exceed total budgeted expenditures and other financing uses.

The budget is prepared on the modified accrual basis of accounting, consistent with generally accepted accounting principles (GAAP).

The level of control over the budget is exercised at the function or program. The Superintendent and/or assistant superintendents are authorized to transfer budget amounts within each fund; however, any supplemental appropriations that amend the total expenditures of any fund require School Board approval. As required by state law, when actual revenues within a fund are failing to meet estimated annual budgeted revenues by five percent or more, and/or actual expenditures within a fund are exceeding estimated budgeted expenditures by five percent or more, a budget amendment to reflect such changes is adopted by the School Board in an open meeting. Budgeted amounts included in the financial statements include the original adopted budget and all subsequent amendments.

For the year ended June 30, 2021, expenditures exceeded appropriations in the General Fund and School Food Service Fund.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Mrs. Karen Tutor, Superintendent,
and Members of the Avoyelles Parish School Board
Marksville, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Avoyelles Parish School Board, (the School Board) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements and have issued our report thereon dated December 15, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Mrs. Karen Tutor, Superintendent,
and Members of the Avoyelles Parish School Board
Marksville, Louisiana

Report on Compliance for Each Major Federal Program

We have audited Avoyelles Parish School Board's (the School Board) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School Board's major federal programs for the year ended June 30, 2021. The School Board's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School Board's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School Board's compliance.

Opinion on Each Major Federal Program

In our opinion, the School Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the School Board is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School Board's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. However, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2021

(1) General

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of Avoyelles Parish School Board under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Avoyelles Parish School Board, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Avoyelles Parish School Board.

(2) Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting, which is described in Note 1 to the School Board's basic financial statements for the year ended June 30, 2021. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(3) Noncash Programs

The commodities received, which are noncash revenues, are valued using pricing provided by the United States Department of Agriculture.

(4) Indirect Cost Rate

The School Board has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

Mrs. Karen Tutor, Superintendent,
and Members of the Avoyelles Parish School Board
the Louisiana Department of Education and
the Louisiana Legislative Auditor

We have performed the procedures enumerated below on the performance and statistical data accompanying the annual financial statements of the Avoyelles Parish School Board (School Board) for the fiscal year ended June 30, 2021, and to determine whether the specified schedules are free of obvious errors and omissions, in compliance with Louisiana Revised Statute 24:514. Management of the School Board is responsible for its performance and statistical data.

The School Board has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement which is to perform specified procedures on the performance and statistical data accompanying the annual financial statements. Additionally, the Louisiana Department of Education, and the Louisiana Legislative Auditor have agreed to and acknowledged that the procedures performed are appropriate for their purpose. This report may not be suitable for any other purpose. The procedures performed may not address all of the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

General Fund Instructional and Support Expenditures and Certain Local Revenue Sources **(Schedule 1)**

1. We selected a sample of 25 transactions, reviewed supporting documentation and observed that the sampled expenditures/revenues are classified correctly and are reported in the proper amounts among the following amounts reported on the schedule:
 - Total General Fund Instructional Expenditures,
 - Total General Fund Equipment Expenditures,
 - Total Local Taxation Revenue,
 - Total Local Earnings on Investment in Real Property,
 - Total State Revenue in Lieu of Taxes,
 - Nonpublic Textbook Revenue, and
 - Nonpublic Transportation Revenue.

There were no exceptions noted.

Class Size Characteristics (Schedule 2)

2. We obtained a list of classes by school, school type, and class size as reported on the schedule. We then traced a random sample of 10 classes to the October 1 roll books for those classes and determined if the class was properly classified on the schedule.

There were no exceptions noted.

Education Levels/Experience of Public School Staff (NO SCHEDULE)

3. We obtained October 1st PEP data submitted to the Department of Education (or equivalent listing prepared by management), including full-time teachers, principals, and assistant principals by classification, as well as their level of education and experience, and obtained management's representation that the data/listing was complete. We then selected a sample of 25 individuals, traced to each individual's personnel file, and observed that each individual's education level and experience was properly classified on the PEP data or equivalent listing prepared by management.

There were no exceptions noted.

Public School Staff Data: Average Salaries (NO SCHEDULE)

4. We obtained June 30th PEP data submitted to the Department of Education (or equivalent listing provided by management) of all classroom teachers, including base salary, extra compensation, and ROTC or rehired retiree status, as well as full-time equivalents, and obtained management's representation that the data/listing was complete. We then selected a sample of 25 individuals, traced to each individual's personnel file, and observed that each individual's salary, extra compensation, and full-time equivalents were properly included on the PEP data (or equivalent listing prepared by management).

There were no exceptions noted.

We were engaged by the School Board to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in Government Auditing Standards, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the performance and statistical data. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on the performance and statistical data accompanying the annual financial statements of the School Board, as required by Louisiana Revised Statute 24:514, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.

Note: The Board of Elementary and Secondary Education has set specific limits on the maximum size of classes at various grade levels. The maximum enrollment in grades K-3 is 26 and maximum enrollment in grades 4-12 is 33 students. These limits do not apply to activity classes such as physical education, chorus, band, and other classes without maximum enrollment standards. Therefore, these classes are included only as separate line items.
