INDEPENDENT AUDITOR'S REPORT

The Honorable John S. Craft
Vernon Parish Sheriff
Leesville, Louisiana

Report on the Audit of the Financial Statements

Opinions

I have audited the accompanying financial statements of the governmental activities of the Vernon Parish Sheriff, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Sheriff's basic financial statements as listed in the table of contents.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of the Vernon Parish Sheriff, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am required to be independent of the Vernon Parish Sheriff and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements relating to my audit. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Vernon Parish Sheriff's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

The Honorable John S. Craft
Vernon Parish Sheriff
Leesville, Louisiana

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, I:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the Sheriff's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Vernon Parish Sheriff's ability to continue as a going concern for a reasonable period of time.

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters the I identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

The Honorable John S. Craft
Vernon Parish Sheriff
Leesville, Louisiana

I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during the audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurances.

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. My opinion on the basic financial statements is not affected by this missing information.

Other Information

The accompanying Sheriff Affidavit, Schedule of Compensation, Benefits and Other Payments to Agency Head, and the Justice System Funding Schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated November 28, 2022 on my consideration of the Vernon Parish Sheriff's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Vernon Parish Sheriff's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering the Vernon Parish Sheriff's internal control over financial reporting and compliance.

INTRODUCTION

As provided by Article V, Section 27 of the Louisiana Constitution of 1974, the sheriff serves a four-year term as the chief executive officer of the law enforcement district and ex-officio tax collector of the parish. The Sheriff administers the parish jail system and exercises duties required by the parish court system, such as providing bailiffs, executing orders of the court, and serving subpoenas.

As the chief law enforcement officer of the parish, the Sheriff has the responsibility for enforcing state and local laws and ordinances within the territorial boundaries of the parish. The Sheriff provides protection to the residents of the parish through on-site patrols and investigations and serves the residents of the parish through establishment of neighborhood watch programs, anti-drug abuse programs, etc. In addition, when requested, the Sheriff provides assistance to other law enforcement agencies within Vernon and surrounding parishes.

As the ex-officio tax collector of the parish, the Sheriff is responsible for collecting and distributing ad valorem property taxes, state revenue sharing funds, sporting licenses, and fines, costs, and bond forfeitures imposed by the district court.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying financial statements of the Vernon Parish Sheriff have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, issued in June 1999.

B. REPORTING ENTITY

GASB Statement 14, *The Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the Vernon Parish Sheriff is considered a primary government, since it is a special purpose government that has a separately elected official, is legally separate, and is fiscally independent of other state or local governments. As described in GASB Statement No. 14, fiscally independent means that the Sheriff may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. The Sheriff also has no component units, as other legally separate organizations for which the Sheriff is financially accountable. There are no other primary governments with which the Sheriff has a significant relationship.

For financial reporting purposes, in conformance with GASB Codification Section 2100, the Sheriff includes all funds, account groups, and activities that are controlled by the Sheriff as an independently elected official. As such, the Sheriff is solely responsible for the operations of his office, which include the hiring and retention of employees, authority over budgeting, responsibility for deficits, and the receipt and disbursement of funds. This report only includes all funds which are controlled by or dependent upon the Vernon Parish Sheriff.

LEESVILLE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2022

C. BASIC FINANCIAL STATEMENTS - GOVERNMENT - WIDE STATEMENTS

The Government-Wide Financial Statements include the Statement of Net Position and the Statement of Activities. These statements report financial information for the Sheriff as a whole.

The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. These statements include all the financial activities of the Sheriff, except for fiduciary funds. Fiduciary funds are reported only in the Statement of Fiduciary of Assets and Liabilities at the fund financial statement level.

In the Statement of Net Position, governmental activities are presented on a consolidated basis and are presented on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term obligations. Net position is reported in three parts; net investment in capital assets, net of any related debt; restricted net position; and unrestricted net position.

D. BASIC FINANCIAL STATEMENTS - FUND FINANCIAL STATEMENTS

The financial transactions of the Sheriff are reported in individual funds in the fund financial statements. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. Fund financial statements report detailed information about the Sheriff. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column.

A fund is a separate accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures. Funds are classified into two categories; governmental and fiduciary. Each category, in turn, is divided into separate "fund types". Governmental funds are used to account for a government's general activities, where the focus of attention is on the providing of services to the public. Fiduciary funds are used to account for assets held for others. The Sheriff's current operations require the use of only governmental and fiduciary funds. The governmental and fiduciary fund types used by the Sheriff are described as follows:

Government Fund Types

General Fund - The General Fund, as provided by Louisiana Revised Statute 13:781, is the principal fund of the Sheriff and is used to account for the operations of the Sheriff's office. The various fees and charges due to the Sheriff's office are accounted for in this fund. General operating expenditures are paid from this fund. The general fund is the only fund classified as a major fund.

Special Revenue Funds - The Inmate Commissary Fund is used to account for the proceeds of specific revenue sources such as sales to inmates. The Vernon Communication District Fund is used to account for the operations of the Parish E911 service. Those revenues are restricted to expenditures for specified purposes.

Fiduciary Fund Type - Agency Funds

The agency funds are used as depositories for civil suits, cash bonds, taxes, fees, et cetera. Disbursements from the funds are made to various parish agencies, litigants, et cetera, in the manner prescribed by law. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

E. MEASUREMENT FOCUS/BASIS OF ACCOUNTING

Government-Wide Financial Statements

The government-wide financial statements were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions.

Fund Financial Statements

Governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the Balance Sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Governmental funds and the agency fund use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Vernon Parish Sheriff considers all revenues available if they are collected within 60 days after the fiscal year end. Those revenues susceptible to accrual include ad valorem taxes, state revenue sharing, interest revenue, commissions, and charges for services. Federal, state and local aid and grants are recorded when the Sheriff is entitled to the funds.

Other intergovernmental revenues are accrued, when their receipt occurs soon enough after the end of the accounting period so as to be both measurable and available. All miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred except that principal and interest on general long-term debt is recognized when due.

F. BUDGETARY ACCOUNTING

Formal budgetary accounting is employed as a management control. The Vernon Parish Sheriff prepares and adopts a budget each year for its general fund in accordance with Louisiana Revised Statutes. The operating budget is prepared based on prior year's revenues and expenditures and the estimated increase therein for the current year, using the modified accrual basis of accounting. The budget is legally adopted and amended, as necessary, by the Sheriff. All Budget appropriations lapse at year end. Budget amounts included in the accompanying financial statements include the original budget and all subsequent amendments.

FOR THE YEAR ENDED JUNE 30, 2022

G. SALES TAX

The voters of Vernon Parish approved a one-half percent (½%) sales tax effective April 1, 2004, dedicated for the purpose of providing additional funding for the law enforcement district. The tax is perpetual. The Vernon Parish Sales Tax Department collects the tax and remits to the Sheriff. For this service the Sheriff pays a pro-rata share of administrative expense of the tax collection.

H. ENCUMBRANCES

Encumbrance accounting is not used in the Sheriff's operations.

I. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include amounts in demand deposits, interest bearing demand deposits, and time deposits. Under state law, the sheriff must deposit funds in demand deposits, interest bearing demand deposits, money market accounts or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana. Tax collections must be deposited in a bank domiciled in the parish where the funds are collected.

J. CAPITAL ASSETS

Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The sheriff maintains a threshold level of \$5,000 or more for capitalizing capital assets.

Capital assets are recorded in the GWFS, but are not reported in the FFS. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes by the Sheriff, no salvage value is taken into consideration for depreciation purposes. All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

<u>Depreciation</u>	<u>Estimated Lives</u>
Vehicles	5 Years
Furniture & Fixtures	10-20 Years
Buildings	40 Years

K. RISK MANAGEMENT

The Sheriff's office is exposed to various risks related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Louisiana law provides that the Sheriff may join with other Sheriffs to form an interlocal risk management agency for the development and administration of an interlocal risk management program. The Vernon Parish Sheriff has joined together with other Sheriffs to form the Louisiana Sheriff's Risk Management Program, a public entity risk pool currently operating as a common risk management and insurance program for Louisiana Sheriffs. The Sheriff pays an annual premium to the pool for its general and professional liability insurance coverage.

K. RISK MANAGEMENT – Continued

The agreement for formation of the Louisiana Sheriff's Risk Management Program, administered by the Louisiana Sheriff's Association, provides for the pool to be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$3,000,000 for each insured event. The Sheriff estimates the range of contingent losses, if any, to be borne by the government will not exceed the available insurance coverage. The Louisiana Sheriff's Risk Management Program has published its own financial report which can be obtained from the Louisiana Sheriff's Association, 1175 Nicholson Drive, Baton Rouge, La 70804.

In addition to the above, the Sheriff has obtained commercial insurance for all the aforementioned risks and settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

L. COMPENSATED ABSENCES

Full-time deputies of the Sheriff's office, depending on length of service, earn from 5 to 20 days of vacation and sick leave each year. Vacation leave must be taken in the year earned. Accumulated sick leave is not paid upon termination of employment. At June 30, 2022, there are no accumulated and vested benefits relating to sick leave that require disclosure or accrual to conform with generally accepted accounting principles.

Comp. time is earned for overtime hours worked. The comp time is calculated based on 1 ½ time of hourly rate (including supplemental pay). Comp time is taken by time off, however, comp time earned and accrued is paid upon termination of the employee. Comp time earned in excess of 480 hours must be paid to the employee. Comp time is measured by any amounts actually paid in the government funds. The comp time is measured when actually earned in the government-wide statements and comp time earned and not paid is recorded as a liability. Comp time earned and accrued at June 30, 2022 totaled \$470,167.

M. BAD DEBTS

Uncollectible accounts receivable are charged directly against earnings when they are determined to be uncollectible. Use of this method does not result in a material difference from the valuation method required by generally accepted accounting principles. Management feels all receivables at year end are collectable and no allowance for bad debts is necessary.

N. ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

O. EQUITY CLASSIFICATIONS - GOVERNMENT-WIDE STATEMENTS

Net position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. The Sheriff reports three categories of net position, as follows:

VERNON PARISH SHERIFF
LEESVILLE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2022

O. EQUITY CLASSIFICATIONS - GOVERNMENT-WIDE STATEMENTS - Continued

- **Net Investment in capital assets** - consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increase by balances of deferred outflows of resources related to those assets.
- **Restricted net position** - net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws or buyers of the Sheriff's bonds. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.
- **Unrestricted net position** - consists of all other net position that does not meet the definition of the above two components and is available for general use by the Sheriff.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, management applies unrestricted net position first, unless a determination is made to use restricted net position. The Sheriff's policy concerning which to apply first varies with the intended use and legal requirements. Management typically makes this decision on a transactional basis at the incurrence of the expenditure.

P. FUND EQUITY OF FUND FINANCIAL STATEMENTS

Accounting standards require governmental fund balances to be reported in as many as five classifications as listed below:

Nonspendable - represents amounts that are not expected to be converted to cash because they are either not in spendable form or legally or contractually required to be maintained intact.

Restricted - represents balances where constraints have been established by parties outside the Sheriff's office or imposed by law through constitutional provisions or enabling legislation.

Committed - represents balances that can only be used for specific purposes pursuant to constraints imposed by formal action of the Sheriff's highest level of decision-making authority.

Assigned - represents balances that are constrained by the Sheriff's intent to be used for specific purposes, but are not restricted nor committed.

Unassigned - represents balances that have not been assigned to other funds and that have not been restricted, committed, or assigned to specific purposes within the general fund.

When expenditures are incurred for the purposes for which both restricted and unrestricted amounts are available, the Sheriff's office reduces restricted amounts first, followed by unrestricted amounts. When expenditures are incurred for purposes for which committed, assigned and unassigned amounts are available, the Sheriff's office reduces committed amounts first, followed by assigned amounts and then unassigned amounts.

Q. PENSION PLANS

The Vernon Parish Sheriff’s Office is a participating employer in a cost-sharing, multiple-employer defined benefit pension plan as described in Note 6. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of each of the plans, and additions to/deductions for the plan’s fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments have been reported at fair value within the plan.

R. OTHER POSTEMPLOYMENT BENEFITS

The sheriff follows GASB Statement No. 75 “Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions”, which requires the accrual of other postemployment benefits for retired employees. The sheriff has recorded a liability for other postemployment benefits (see Note 7). In the government-wide financial statements, the other postemployment benefits liability is recorded as an expense and non-current liability and allocated on a functional basis. In the fund financial statements, other postemployment benefit expenditures are recognized in the amount contributed to the plan or expected to be liquidated with expendable available financial resources. Expendable available financial resources generally refer to other postemployment benefit payments due and payable as of the end of the year.

NOTE 2 - LEVIED TAXES

Act 689 of the regular session of the Louisiana Legislature of 1976 provided initial financing authorization for the levy of an ad valorem tax millage for the law enforcement district. Voters of the district subsequently approved an increase in the ad valorem tax beyond initial authorization. The following is a summary of authorized and levied ad valorem taxes:

	<u>Expiration</u>	<u>Authorized Millage</u>	<u>Levied Millage</u>
Law Enforcement District	Indefinite	12.37	12.37
Law Enforcement District	2030	7.92	7.92

NOTE 3 - CASH AND CASH EQUIVALENTS

For the purpose of these financial statements, the Sheriff considers cash and cash equivalents to be amounts held in demand deposits, interest bearing demand deposits, and time deposits.

At June 30, 2022, the Sheriff has cash and cash equivalents (book balances) totaling \$6,991,561 as follows:

NOTE 3 - CASH AND CASH EQUIVALENTS – Continued

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At June 30, 2022, the Sheriff has \$7,358,011 in deposits (collected bank balances). These deposits are secured from risk by \$500,000 of federal deposit insurance and \$9,306,985 was collateralized by securities by pledging banks in the Sheriff's name.

NOTE 6 - PENSION PLAN

Substantially all employees of the Vernon Parish Sheriff's office are members of the Louisiana Sheriffs Pension and Relief Fund (the System), a multiple-employer (cost sharing), public employee retirement system (PERS), controlled and administered by a separate board of trustees. All sheriffs and deputies who are found to be physically fit, earn at least \$400 per month, and who were at least 18 years of age at the time of original employment are required to participate in the System. Employees are eligible to retire at or after age 55 with at least 12 years of credited service and receive a benefit, payable monthly for life, equal to percentage of their final-average salary for each year of credited service. Final - average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least 12 years of service and do not withdraw employee contributions may retire at or after age 55 and receive the benefit accrued to their date of termination as indicated previously. Employees who terminate with at least 20 years of credited service are also eligible to elect early benefits between ages 50 and 55 with reduced benefits equal to the actuarial equivalent of the benefit to which they would otherwise be entitled at age 55. The System also provides death and disability benefits. Benefits are established or amended by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Louisiana Sheriffs' Pension and Relief Fund, 6554 Florida Boulevard, Suite 215, Baton Rouge, Louisiana 70806, or by calling (800) 586-9049.

Plan members are required by state statute to contribute 10.25 percent of their annual covered salary and the Vernon Parish Sheriff is required to contribute at an actuarially determined rate. The current rate is 12.25 percent of annual covered payroll. Contributions to the System also include one-half of one percent of the taxes shown to be collectible by the tax rolls of each parish and funds as required and available from insurance premium taxes. The contribution requirements of plan members and the Vernon Parish Sheriff are established and may be amended by state statute.

As provided by Louisiana Revised Statue 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Vernon Parish Sheriff's contributions to the System for the years ended June 30, 2020, 2021 and 2022 were \$537,503, \$535,984, and \$560,523, respectively, equal to the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the Sheriff reported an asset of \$297,609 for its proportionate share of the net pension liability of the system. The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Sheriff's proportion of the net pension liability was based on a projection of the Sheriff's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2021, the Sheriff's proportion was .600562% which was an increase of .006242% from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the Sheriff recognized pension expense of \$(1,550,199) representing its proportionate share of the system's net expense, including amortization of deferred amounts.

Cost of Living Adjustments The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

Changes in Valuation	The discount rate was lowered from 7.0% to 6.90% for
Methods and Assumptions	the year ended June 30, 2021.

The mortality rate assumptions were set after reviewing an experience study performed over the period July 1, 2014 through June 30, 2019. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the Fund's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. The result of the procedure indicated that these tables would produce liability values approximating the appropriate generational mortality tables used.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Estimates of arithmetic real rates of return for each major asset class based on the Fund's target asset allocation as of June 30, 2021, were as follows:

Total	<u>100%</u>		5.32%
Inflation			<u>2.55%</u>

Discount Rate

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates, approved by PRSAC taking into consideration the recommendation of the Fund's actuary. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the Sheriff's proportionate share of the net pension liability (NPL) using the discount rate of each Retirement System as well as what the Sheriff's proportionate share of the NPL would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate used by each of the Retirement Systems:

General Information about the OPEB Plan

Plan description – The Vernon Parish Sheriff’s Office (the Sheriff) provides certain continuing health care and life insurance benefits for its retired employees. The Vernon Parish Sheriff’s OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the Sheriff. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the Sheriff. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB).

Notwithstanding this there is a minimum service requirement of 15 years for benefits.

Life insurance coverage is provided to retirees and 100% of the blended rate (active and retired) is paid by the employer for the amount \$10,000. The amount of insurance coverage while active is continued after retirement, but insurance coverage amounts are reduced to 75% of the original amount at age 65 and to 50% of the original amount at age 70.

LEESVILLE, LOUISIANA
NOTES TO THE BUDGETARY COMPARISON SCHEDULES
FOR THE YEAR ENDED JUNE 30, 2022

A. BUDGETS

General Budget Practices The Sheriff follows these procedures in establishing the budgetary data reflected in the financial statements:

The chief administrative deputy prepares a proposed budget for the General Fund and submits it to the Sheriff for the fiscal year no later than fifteen days prior to the beginning of each fiscal year.

A summary of the proposed budget is published, and the public is notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.

A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing.

After holding the public hearing and completion of all action necessary to finalize and implement the budget, the budget is legally adopted prior to the commencement of the fiscal year for the which the budget is being adopted.

Appropriations (unexpended budget balances) lapse at year-end.

Encumbrances Encumbrance accounting, under which purchase orders are recorded in order to reserve that portion of the applicable appropriation, is not employed.

Budget Basis of Accounting The budget is prepared on the modified accrual basis of accounting, a basis consistent with accounting principles generally accepted in the United States of America (GAAP). Budgeted amounts are originally adopted or amended by the Sheriff. Such amendments were not material in relation to original appropriations.

B. UNFAVORABLE BUDGET VARIANCES

Actual revenues less than budgeted income:

	<u>Final Budget</u>	<u>Actual</u>	<u>Unfavorable Variance</u>

COMPLIANCE REQUIREMENTS

INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable John S. Craft
Vernon Parish Sheriff
Leesville, Louisiana

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities of Vernon Parish Sheriff, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Sheriff’s basic financial statements, and have issued my report thereon dated November 28, 2022.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Sheriff’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Sheriff’s internal control. Accordingly, I do not express an opinion on the effectiveness of the Sheriff’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Sheriff’s financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Vernon Parish Sheriff's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended for the use of management of Vernon Parish Sheriff and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

I am required to be independent of the Vernon Parish Sheriff and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements related to my agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance.
