INDEPENDENT AUDITOR'S REPORT

To the Honorable Laurie Hulin
Fifteenth Judicial District Court
Lafayette, Louisiana

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Fifteenth Judicial District Court, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Fifteenth Judicial District Court's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Fifteenth Judicial District Court, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fifteenth Judicial District Court and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fifteenth Judicial District Court's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fifteenth Judicial District Court's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fifteenth Judicial District Court's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information, schedule of proportionate share of net pension liability, and schedule of contributions on pages 35-41 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the

information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 1, 2022, on our consideration of the Fifteenth Judicial District Court's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Fifteenth Judicial District Court's internal control over financial reporting and compliance.

Reconciliation of the Governmental Funds Balance
Sheet to the Statement of Net Position

Total fund balances - governmental funds \$ 5,744,772

The cost of capital assets (furniture and equipment) purchased is reported as an expenditure in the governmental funds. The Statement of Net Position includes these capital assets among the assets of the Court as a whole. The cost of these capital assets is allocated over their estimated useful lives (as depreciation expense) to the various programs reported as governmental activities in the Statement of Activities. Because depreciation expense does not affect financial resources, it is not reported in governmental funds.

FIFTEENTH JUDICIAL DISTRICT COURT

Notes to Financial Statements

NOTE 1 PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Fifteenth Judicial District Court (the “Court”) is comprised of three parishes within the State of Louisiana: Acadia, Lafayette, and Vermilion. The courthouses of the Fifteenth Judicial District are located in the three parish seats of Crowley (Acadia Parish), Lafayette (Lafayette Parish), and Abbeville (Vermilion Parish). The caseload of the Fifteenth Judicial District Court is handled by thirteen judges that are elected from sub-districts within the entire district. These judges all have general trial jurisdiction throughout the district and preside over individual divisions designated by the letters A through M as follows:

Division A	Judge Scott Privat
Division B	Judge Valerie Gotch Garrett
Division C	Judge Thomas Frederick
Division D	Judge Royale Colbert
Division E	Judge Michelle M. Breaux
Division F	Judge David M. Smith
Division G	Judge Laurie A. Hulin
Division H	Judge David A. Blanchet
Division I	Judge Thomas R. Duplantier
Division J	Judge Kristian Earles
Division K	Judge Michele Billeaud
Division L	Judge Marilyn C. Castle
Division M	Judge Susan Theall

The accompanying financial statements of the Court have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the Court are described below:

Basis of Presentation

The Court uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities. The minimum number of funds maintained by the Court is consistent with legal and managerial requirements.

A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues, and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the restrictions, if any, on the spending activities.

The Court’s basic financial statements include both government-wide (reporting the Court as a whole) and fund financial statements (reporting the Court’s major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. All of the Court’s activities are classified as governmental activities.

FIFTEENTH JUDICIAL DISTRICT COURT

Notes to Financial Statements

NOTE 1 PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basic Financial Statements - Government-Wide Financial Statements

The government-wide financial statements include a *Statement of Net Position* and *Statement of Activities*. These statements report financial information about the Court. In the process of aggregating data for the *Statement of Net Position* and *Statement of Activities* some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the “grossing up” effect on assets and liabilities within the governmental activities column.

In the *Statement of Net Position* the governmental type activities column (1) is presented on a consolidated basis by column, and (2) is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Court’s net position is reported in three parts: (1) *invested in capital assets, net of related debt* – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets; (2) *restricted net position* – consists of net position with constraints placed on the use either by (a) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (b) law through constitutional provisions or enabling legislation; and (3) *unrestricted net position* – all other net assets that do not meet the definition of *restricted* or *invested in capital assets, net of related debt*. The Court first utilizes restricted resources to finance qualifying activities.

The *Statement of Activities* reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses associated with a distinct functional activity. Program revenues includes: (1) charges for services which report fees, fines, and forfeitures, and other charges to users of the Court’s services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets and include fees to developers. Other revenue sources not properly included with program revenues are reported as general revenues.

The Court reports all direct expenses by function in the *Statement of Activities*. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included as a direct expense of each function.

This government-wide focus is more on the sustainability of the Court as an entity and the change in the Court’s net assets resulting from the current year’s activities.

Basic Financial Statements - Fund Financial Statements

Fund financial statements are provided for governmental funds. The emphasis of fund financial statements is on major individual governmental funds, each reported in a separate column. All remaining governmental fund(s) are aggregated and reported as nonmajor fund(s).

NOTE 1 PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The following is a description of the governmental funds of the Court:

General Fund – To account for all financial resources traditionally associated with governments which are not required to be accounted for in another fund.

Special Revenues Funds – To account for the proceeds of specific revenue sources legally restricted to expenditures for specific purposes.

The Court has established several special revenue funds. The following is a brief description of each special revenue fund's purpose:

Child Support Fund - The Child Support Fund was established by Louisiana Revised Statute 46:236.5. It collects support payments on behalf of guardians who are being assisted by State aid. The Child Support Fund is authorized to receive payment of nonsupport funds on behalf of the State of Louisiana. It is also authorized to collect an administrative fee of .0395 cents of the transaction fee on payments. The fees are used to fund the administrative costs of the expedited processing system associated with a segregated family court within the Fifteenth Judicial District Court.

Misdemeanor Probation Fund - The Misdemeanor Probation Fund collects a \$35 per month supervision fee for misdemeanor cases and \$50 per month for felony cases pled down to a misdemeanor case. The fees are used to fund the administrative and personnel costs of the Misdemeanor Probation Program within the Fifteenth Judicial District Court.

Drug Court Enhancement Fund – The Drug Court Enhancement Fund was established by way of an ordinance that allows specific distribution of Lafayette Parish contempt fines charged for failure to appear. The Drug Court Enhancement Fund amounts that are distributed to Juvenile and Adult Drug Court programs are used to supplement grant monies that primarily fund these programs. The Enhancement Fund monies are used for training, additional staffing, materials, or any other "enhancements" to the programs that would not be possible due to lack of funding.

The emphasis in the fund financial statements is on the major funds in either the governmental or business-type activities categories. GASB Statement No. 34 sets forth minimum criteria (percentage of assets, liabilities, revenues, or expenditures/expenses of either fund category or the governmental and enterprise funds combined) for the determination of major funds. In addition, management may include a fund as a major fund that does not meet the minimum criteria established by GASB if management believes the fund is important to present as such for the financial statement users.

Measurement Focus and Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements; measurement focus refers to what is being measured. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

FIFTEENTH JUDICIAL DISTRICT COURT

Notes to Financial Statements

NOTE 1 PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accrual Basis - Government-Wide Financial Statements (GWFS)

The government-wide financial statements report using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants are recognized when grantor eligibility requirements are met.

Modified Accrual Basis - Governmental Fund Financial Statements (FFS)

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Their reported fund balance (net current assets) is considered a measure of “available spending resources.” Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spending resources” during a period. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e., when they become measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditure-driven grant revenues are recorded when the qualifying expenditures have been incurred and all other grant requirements have been met. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, if measurable. Exceptions to this general rule include: (1) accumulated unpaid vacation, sick pay, and other employee amounts which are not accrued because they do not vest or accumulate; and (2) principal and interest on general long-term debt which is recognized when due. General capital asset acquisitions are reported as expenditures in governmental funds.

Major revenue sources susceptible to accrual include intergovernmental revenues and investment income. In general, other revenues are recognized when cash is received.

Budgets and Budgetary Accounting

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. The budget is employed as a management control device during the year that assists its users in financial activity analysis. All budget appropriations lapse at year-end. The budgets presented are the originally adopted budget and the final amended budget.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 1 PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Certificates of Deposit

The Fifteenth Judicial District Court has certificates of deposit as of June 30, 2022 which are not subject to GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, and are therefore stated at cost, which approximates market.

Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods and services rendered. These receivables and payables are classified as *due from other funds* or *due to other funds* on the balance sheet. Short-term interfund loans are classified as interfund receivables/payables.

Prepaid Expenses

Advance payments made that will benefit periods beyond the current fiscal year are recorded as prepaid expenses.

Compensated Absences

Employees earn a set amount of annual vacation leave depending on years of service. Vacation cannot be accumulated and compensation in lieu of vacation is not paid. Therefore, no provision for compensated absences has been made in the financial statements.

Capital Assets and Depreciation

The accounting treatment over property and equipment (fixed assets) depends on whether the assets are reported in the government-wide or fund financial statements.

Government-Wide Financial Statements:

The Court's property and equipment with useful lives of more than one year are stated at historical costs and comprehensively reported in the government-wide financial statements. The Court maintains a threshold level of \$250, or more for capitalizing capital assets. Donated assets are stated at fair value at the date donated. The Court has no donated assets. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. Estimated useful lives, in years, for depreciable assets are as follows:

Machinery and equipment	5 – 15 years
-------------------------	--------------

FIFTEENTH JUDICIAL DISTRICT COURT

Notes to Financial Statements

NOTE 1 PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements:

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

Fund Equity

Government-Wide Financial Statements:

The Fifteenth Judicial District Court's net position is reported in three parts: (1) *invested in capital assets, net of related debt* – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets; (2) *restricted net position* – consists of net position with constraints placed on the use either by (a) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (b) law through constitutional provisions or enabling legislation; and (3) *unrestricted net position* – all other net position that do not meet the definition of “restricted” or “invested in capital assets, net of related debt”.

Fund Financial Statements:

Governmental fund equity is classified as fund balance in accordance with GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- **Nonspendable:** This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Management has classified prepaid expenditures and security deposits as being nonspendable as these items are not expected to be converted to cash.
- **Restricted:** This classification includes amounts for which constraints have been placed on the use of resources are either:
 - Externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or
 - Imposed by law through constitutional provisions or enabling legislation.

Management has classified fund balance for program administration as being restricted due to the constraints placed on the use of the money contributed by its grantor agencies.

FIFTEENTH JUDICIAL DISTRICT COURT

Notes to Financial Statements

NOTE 1 PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- **Committed:** This classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action (resolution) of the Fifteenth Judicial District Court's board of directors, which is the Court's highest level of decision-making authority. These amounts cannot be used for any other purpose unless the Judges en banc remove or change the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Judges en banc did not have any committed resources as of year-end.
- **Assigned:** This classification includes amounts that are constrained by the Judges en banc's intent to be used for a specific purpose but are neither restricted nor committed. This intent should be expressed by the Fifteenth Judicial District Court's (1) Judges en banc, (2) its finance committee, or (3) an official, such as the Administrator, to which the Judges en banc has delegated the authority to assign amounts to be used for a specific purpose.
- **Unassigned:** This classification is the residual fund balance for the General Fund. It also represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

When fund balance resources are available for a specific purpose in multiple classifications, the Fifteenth Judicial District Court will generally use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed. However, the Fifteenth Judicial District Court's management reserves the right to selectively spend unassigned resources first and to defer the use of the other classified funds.

Interfund Transfers

Quasi-external transactions are accounted for as revenues and expenditures. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. Legally authorized interfund transactions, except quasi-external transactions and reimbursements, are treated as operating transfers and are included in the results of operations. For purposes of the *Statement of Activities*, all interfund transfers between individual governmental funds have been eliminated.

Pensions

In government-wide financial statements, pensions are required to be recognized and disclosed using the accrual basis of accounting (see Note 17 and the required supplementary information immediately following the notes to the financial statements for more information), regardless of the amount recognized as pension expenditures on the modified accrual basis of accounting.

FIFTEENTH JUDICIAL DISTRICT COURT

Notes to Financial Statements

NOTE 1 PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pensions (Continued)

The Fifteenth Judicial District Court recognizes a net pension liability for its participation in the Parochial Employee Retirement System, which represents the Fifteenth Judicial District Court's proportionate share of the excess of the total pension liability over the fiduciary net position of the cost – sharing multiple employer pension plan, measured as of the District Court's fiscal year – end. Changes in the net pension liability during the period are recorded as pension expense, or as deferred outflows or inflows of resources depending on the nature of the change, in the period incurred. Those that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience are amortized over the weighted average remaining service life of all participants in the pension plan and recorded as a component of pension expense beginning with the period in which they are incurred. Projected earnings on pension plan investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred outflows or inflows of resources and amortized as a component of pension expense on a closed basis over a five – year period beginning with the period in which the difference occurred.

NOTE 2 CASH

For reporting purposes, cash includes demand deposits and interest-bearing demand deposits. Under State law, the Court may invest in United States bonds, treasury notes or certificates, or time certificates of deposit of State banks having their principal office in the State of Louisiana, or any other federally insured investment. The Court may also invest in shares of any homestead and building and loan association in any amount not exceeding the federally insured amount.

The amount of total bank balances is classified into three categories of credit risk:

1. Insured or collateralized with securities held by the government or by the government's agent in the government's name.
2. Collateralized with securities held by the pledging financial institution's trust department or government's agent in the government's name.
3. Uncollateralized, including amounts collateralized with securities held by the pledging institution or the pledging institution's trust department or agent, but not in the government's name.

At June 30, 2022, the carrying value of the Court's cash deposits, including demand deposits and time certificates of deposit, totaled \$5,679,049, and the bank balances totaled \$5,471,819. Of the bank balances, \$4,724,913 was covered by Federal Deposit Insurance Corporation (FDIC) and \$3,887,509 was covered by collateral held by the custodial bank in the bank's name (Category III).

NOTE 17 PENSION PLAN

Plan Description

Substantially all employees of the Fifteenth Judicial District Court are members of the Parochial Employees' Retirement System of Louisiana (the "System"), a cost-sharing, multiple-employer, defined benefit public employee retirement system (PERS), controlled and administered by a separate Board of Trustees and was established and provided for by R.S. 11:1901 of the Louisiana Revised Statute (LRS). Contributions of participating agencies are pooled within the system to fund accrued benefits, with contribution rates approved by the Louisiana legislature. The Court does not guarantee the benefits granted by the retirement system. The Court's payroll qualified to be covered by the system for the year ended June 30, 2022 was approximately \$1,851,530.

The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. Employees of the Court are members of Plan A. Under Plan A, employees hired prior to January 1, 2007 who retire (1) at or after age 65 with at least 7 years of creditable service, (2) at or after age 60 with at least 10 years of creditable service, (3) at or after age 55 with at least 25 years of creditable service, or (4) at any age with at least 30 years of creditable service are entitled to a retirement benefit payable monthly for life. Annual maximum benefit for employees hired prior to January 1, 2007, equals 3% multiplied by creditable years of service, multiplied by the average of the employee's highest consecutive 36 months' salary. Employees hired on or after January 1, 2007, who retire (1) at or after age 67 with at least 7 years of creditable service, (2) at or after age 62 with at least 10 years of creditable service, or (3) at or after age 55 with at least 30 years of creditable service are entitled to a retirement benefit payable monthly for life. Annual maximum benefit for employees hired on or after January 1, 2007, equals 3% multiplied by creditable years of service, multiplied by the average of the employee's highest consecutive 60 months' salary. Employees who terminate with at least the amount of creditable service stated previously and who do not withdraw their employee contributions, may retire at the ages specified previously and receive the benefit accrued to their date of termination.

The System also provides death and disability benefits. Benefits are established by state statute (LSA R.S. 11:1901, last modified by Act 584 of 2006).

Act 338 of 1990 established the Deferred Retirement Option Plan (DROP) for the Retirement System. DROP is an option for that member who is eligible for normal retirement. In lieu of terminating employment and accepting a service retirement, any member who is eligible to retire may elect to participate in the (DROP) in which they are enrolled for three years and defer the receipt of benefits. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would be payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP fund. Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the account equal to the payments into the account, a true annuity based upon his account balance in that fund, or roll over the fund to an Individual Retirement Account.

For individuals who become eligible to participate in the Deferred Retirement Option Plan on or after January 1, 2004, all amounts which remain credited to the individual's subaccount after termination in the Plan will be placed in liquid asset money market investments at the discretion of the board of trustees.

FIFTEENTH JUDICIAL DISTRICT COURT

Notes to Financial Statements

NOTE 17 RETIREMENT (Continued)

These subaccounts may be credited with interest based on money market rates of return or, at the option of the System, the funds may be credited to self-directed subaccounts. The participant in the self-directed portion of this Plan must agree that the benefits payable to the participant are not the obligations of the state or the System, and that any returns and other rights of the Plan are the sole liability and responsibility of the participant and the designated provider to which contributions have been made.

A plan member shall be eligible to retire and receive a disability benefit if they were hired prior to January 1, 2007, and has at least five years of creditable service or if hired after January 1, 2007, has seven years of creditable service, and is not eligible for normal retirement and has been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, a member shall be paid a disability benefit equal to the lesser of an amount equal to three percent of the member's final average compensation multiplied by his years of service, not to be less than fifteen, or three percent multiplied by years of service assuming continued service to age sixty.

The Board of Trustees is authorized to provide a cost of living allowance for those retirees who retired prior to July 1973. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Board may provide an additional cost of living increase to all retirees and beneficiaries who are over age sixty-five equal to 2% of the member's benefit paid on October 1, 1977, (or member's retirement date, if later). Also, the Board may provide a cost of living increase up to 2.5% for retirees 62 and older. (R.S. 11:1937). Act 270 of 2009 provided for further reduced actuarial payments to provide an annual 2.5% cost of living adjustment commencing at age 55.

Funding Policy

According to state statute, contributions for all employers are actuarially determined each year. Under Plan A, members are required by State statute to contribute 9.50% of their annual covered salary and the Court is required to contribute at an actuarially determined rate. The employer contribution rate for the fiscal year ended June 30, 2022 was 11.50% of annual covered payroll. The contribution requirements of Plan members and the Court are established and may be amended by the System's Board of Trustees. The Court's contributions to the System under Plan A for the years ended June 30, 2022, 2021, and 2020, were \$219,918, \$222,557 and \$222,567, respectively, equal to the required contributions for each year.

According to state statute, the System also receives $\frac{1}{4}$ of 1% of ad valorem taxes collected within the respective parish. The System also receives revenue sharing funds each year as appropriated by the Legislature. These additional sources of income are used as additional employer contributions and are considered support from non-employer contributing entities.

NOTE 17 RETIREMENT (Continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, Court reported an asset of \$1,286,005 for its proportionate share of the net pension asset. The net pension liability was measured as of December 31, 2021, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of that date. The Court's proportion of the net pension asset was based on a projection of the Court's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At December 31, 2021, the Court's proportion was 0.273012%, which was a decrease of .0006923% from its proportion measured as of December 31, 2020.

For the year ended June 30, 2022, the Court recognized pension benefit of \$221,855. The Court recognized revenue of \$22,584 as its proportionate share of non-employer contributions for the year ended June 30, 2022.

At June 30, 2022, the Court reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 15,506
Net difference between projected and actual investment earnings on pension plan investments	-	1,112,372
Changes of assumptions	67,068	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	178,078
Employer contributions subsequent to the measurement date	<u>105,889</u>	<u>-</u>
Total	<u>\$ 172,957</u>	<u>\$ 1,305,956</u>

Court contributions subsequent to the measurement date in the amount of \$105,889 reported as deferred outflows of resources related to pensions will be recognized as a reduction of the net pension liability in the year ending June 30, 2022.

NOTE 17 RETIREMENT (Continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30,	
2023	\$ (299,230)
2024	(499,434)
2025	(320,994)
2026	(119,230)
Total	<u>\$ (1,238,888)</u>

Actuarial Assumptions

The total pension liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation date	December 31, 2021
Actuarial cost method	Entry Age Normal
Actuarial assumptions:	
Investment rate of return	6.40% (Net of investment expense, including inflation)
Projected salary increases	4.75% (2.45% Merit/2.30% Inflation)
Mortality rates	Pub-2010 Public Retirement Plans Mortality Table was selected for employees. Pub-2010 Public Retirement Plans Mortality Table for Health Retirees was selected for annuitants and beneficiaries. Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees selected for disabled annuitants.
Expected remaining service lives	4 years
Cost of living adjustments	The present value of future benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees.

The mortality rate assumption used was set based upon an experience study performed on plan data for the period January 1, 2013 through December 31, 2017. The data was assigned credibility weighting and combined with a standard table to produce current levels of mortality. As a result of this study, mortality for employees was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale. In addition, mortality for annuitants and beneficiaries was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale. For Disabled annuitants mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale.

NOTE 17 RETIREMENT (Continued)

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.00% and an adjustment for the effect of rebalancing/diversification.

The resulting expected long-term rate of return is 7.00% for the year ended December 31, 2021.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of December 31, 2021 are summarized in the following table:

Asset Class	Expected Rate of Return	
	Target Asset Allocation	Long-Term Expected Portfolio Real Rate of Return
Fixed income	33%	0.85%
Equity	51%	3.23%
Alternatives	14%	0.71%
Real assets	<u>2%</u>	<u>0.11%</u>
Totals	<u>100%</u>	<u>4.90%</u>
Inflation		<u>2.10%</u>
Expected Arithmetic Nominal Return		<u>7.00%</u>

Discount Rate

The discount rate used to measure the total pension liability was 6.40%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers and non-employer contributing entities will be made at the actuarially determined contribution rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement System's Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 17 RETIREMENT (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents Court's proportionate share of the net pension asset calculated using the discount rate of 6.40%, as well as what the Court's net pension liability would be if it were calculated using a discount rate that is one percentage point lower 5.40% or one percentage point higher 7.40% than the current rate.

	<u>Discount rate</u>	<u>Net pension liability (asset)</u>
1% decrease	5.40%	\$ 229,270
Current discount rate	6.40%	\$ (1,286,005)
1% increase	7.40%	\$ (2,555,325)

NOTE 18 CONCENTRATIONS OF CREDIT RISK

Intergovernmental receivables represent amounts due from other Acadia, Lafayette, and Vermilion Parishes governmental agencies and the State of Louisiana. Payment of these amounts is partly dependent upon the economic and financial conditions within these parishes and the State of Louisiana.

NOTE 19 FEDERAL AND STATE GRANTS

In the normal course of operations, the Court receives grant funds from various Federal and State agencies. The grant programs are subject to audits by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as a result of these audits is not believed to be material.

NOTE 20 SUBSEQUENT EVENTS

Management has evaluated subsequent events through November 1, 2022, the date at which the financial statements were available to be issued.

FIFTEENTH JUDICIAL DISTRICT COURT

Notes to the Budgetary Comparison Schedules

Budgets and budgetary accounting:

The Court follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to the beginning of each fiscal year, the Court Administrator prepares a proposed operating budget. The operating budget includes proposed expenditures and the means of financing them.
2. The budget is then approved by the Judges en banc.
3. An amendment involving the transfer of monies from one department to another or from one program or function to another or any other increases in expenditures exceeding amounts estimated must be approved by the Court.
4. Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America.
5. The budget is employed as a management control device during the year that assists its users in financial activity analysis.

All budget appropriations lapse at year end. The budgets presented are the originally adopted budget and the final amended budget. Actual amounts may not vary more than 5% from the final amended budget at the individual fund level.

Independent Auditor's Report on
Internal Control Over Financial Reporting
and on Compliance and Other Matters Based
on an Audit of Financial Statements Performed in
Accordance With *Government Auditing Standards*

To the Honorable Laurie Hulin
Fifteenth Judicial District Court
Lafayette, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Fifteenth Judicial District Court, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Fifteenth Judicial District Court's basic financial statements and have issued our report thereon dated November 1, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Fifteenth Judicial District Court's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Fifteenth Judicial District Court's internal control. Accordingly, we do not express an opinion on the effectiveness of Fifteenth Judicial District Court's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Fifteenth Judicial District Court's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and responses as item 2022-001.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of the Fifteenth Judicial District Court's management, the Judges en banc, and the Louisiana Legislative Auditor and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
