Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Des Allemands Volunteer Fire Department, Inc. (the Department) as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Des Allemands Volunteer Fire Department, Inc. as of December 31, 2025 and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the *Louisiana Governmental Audit Guide*. Our Responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Department and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Department's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* and the *Louisiana Governmental Audit Guide* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards* and the *Louisiana Governmental Audit Guide*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Department's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison – General Fund information on page 23 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Government Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United

States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis information that the accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Department's basic financial statements. The accompanying Supplementary Information on page 24, *Schedule of Compensation, Benefits, and Other Payments to Agency Head or Chief Executive Officer* is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 17, 2026 on our consideration of the Department's internal control over financial reporting and on our test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Department's internal control over financial reporting and compliance.

Notes to the Financial Statements
For the year ended December 31, 2025

INTRODUCTION

The Des Allemands Volunteer Fire Department, Inc. (the Department) was organized as a non-profit corporation as defined by Revised Statutes of Louisiana Title 12, Section 101 (8). The Department is exempt from federal income tax under section 501(c)(4) of the Internal Revenue Code. Its objective is to provide fire protection to the Parish of St. Charles.

The Department receives funding from local and state government sources and must comply with the same requirements of these funding source entities. However, the Department is a "primary government" and is not included as a component unit of any other St. Charles Parish governmental "reporting entity" as defined in GASB pronouncements, since the entity is a non-profit corporation, and the board members have decision making authority, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters. The Department includes all activities that are controlled by it as a quasi-public non-profit corporation organized to provide fire protection to the Parish of St. Charles. The Department has no component units.

The accounting and reporting policies of the Department conform to generally accepted accounting principles as applicable to governmental units.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying financial statements of Des Allemands Volunteer Fire Department, Inc. have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies established in GAAP and used by the Department are discussed below,

The accompanying basic financial statements have been prepared in conformity with GASB Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, issued in June 1999, as amended by GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*.

Government-Wide Financial Statements (GWFS)

The statement of net position and statement of activities display information about the reporting government as a whole. They include the fund of the reporting entity, which is considered to be a governmental activity.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Department's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly

DES ALLEMANDS VOLUNTEER FIRE DEPARTMENT, INC.
DES ALLEMANDS, LOUISIANA

Notes to the Financial Statements

identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients for goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenue.

Fund Financial Statements (FFS)

The accounts of the Department are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance- related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

The funds of the Department are classified as governmental funds. The emphasis on fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. The Department has two governmental funds. A fund is considered major if it is the primary operating fund of the entity or meets the following criteria:

- a. Total assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the Department are described below:

Major Fund:

Governmental Fund - General Fund

The General Fund, as provided by Louisiana Revised Statute 13:781 is the principal fund of the Department and is used to account for the operations of the Department. General operating expenditures are paid from this fund.

Non-Major Fund:

Governmental Fund – Private Contributions Fund

The purpose of this fund is to account for funds collected by the Department from private sources such as donations. These funds are accounted for separately from the public funds which are held in the general fund.

B. Measurement Focus / Basis of Accounting

DES ALLEMANDS VOLUNTEER FIRE DEPARTMENT, INC.
DES ALLEMANDS, LOUISIANA

Notes to the Financial Statements
For the year ended December 31, 2025

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide statement of net position and the statement of activities, governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery) and financial position.

All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with its activities are reported. Government-wide fund equity is classified as net position. In the fund financial statements, the "current financial resources" measurement focus is used. Only current financial assets and liabilities are generally included on its balance sheet. Their operating statement presents sources and uses of available spendable financial resources during a given period. This fund uses fund balance as its measure of available spendable financial resources at the end of the period.

Basis of Accounting

In the government-wide statement of net position and statement of activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues are classified by source and expenditures are classified by function and character. Expenditures (including capital outlay) generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

The Department reports deferred inflows of resources on its governmental fund balance sheet. For governmental fund financial statements, deferred inflows arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred inflows also arise when resources are received before the Department has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Department has a legal claim to the resources, the deferred inflow is removed from the balance sheet and revenue is recognized.

DES ALLEMANDS VOLUNTEER FIRE DEPARTMENT, INC.
DES ALLEMANDS, LOUISIANA

Notes to the Financial Statements
For the year ended December 31, 2025

When both restricted and unrestricted resources are available for use, it is the Department's policy to use restricted resources first, then unrestricted resources as they are needed.

C. Budgets and Budgetary Accounting

The Department prepares a budget for its general fund which is approved by its board of directors. The budget is reported on the cash basis of accounting. Budgets are not, however, legally adopted nor required in the basic financial presentation. The budget is reviewed monthly by the finance committee and quarterly by the full membership and compared to actual expenditures for use in managing expenditures.

While the Department reports financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements. The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presented as RSI for each major governmental fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budgetary basis and GAAP basis are for revenue and expenditure accruals.

D. Encumbrances

The Department does not use encumbrance accounting.

E. Cash and Interest-bearing Deposits

Under state law, the Department may deposit funds in demand deposits, interest bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

For purposes of the statement of net position, cash and interest-bearing deposits include all demand accounts, savings accounts and certificates of deposit with an original maturity of less than 90 days, and are stated at cost, which approximates fair market value.

F. Investments

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States, certificates of deposit of state or national banks having their principal office in Louisiana or any other federally insured investment.

The Department's only investments are certificates of deposit, with an original maturity of greater than 90 days, which are stated at cost, which approximates market. Investments in certificates of deposit are reported at cost because they are "nonparticipating" interest-earning investment contracts as discussed in GASB 31. The term "nonparticipating" means that the investment value does not vary with market interest rate changes. Investments which include securities traded on a national or international exchange are valued based on their last reported

DES ALLEMANDS, LOUISIANA

Notes to the Financial Statements
For the year ended December 31, 2025

sales price (fair value). Investments that do not have an established market are reported at estimated fair value.

G. Prepaid Expenditures

Payments made for goods and services that will benefit periods beyond December 31, 2025 have been recorded as prepaid expenditures.

H. Receivables

The Department considers all receivables to be collectible within the next 60 days; therefore, no allowance has been established for doubtful accounts. If uncollectible amounts are identified, necessary adjustments are made when information becomes available. These amounts are not considered to be material to the financial statements.

I. Inventories

Physical inventories consist of expendable supplies held for consumption. Because inventories are expended within one operating cycle they are recorded as expenditures when paid for and are not recorded as an inventory asset.

J. Deferred Outflows of Resources and Deferred Inflows of Resources

In some instances, the GASB requires an entity to delay recognition of decreases in net position as expenditures until a future period. In other instances, entities are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively.

K. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

L. Capital Assets

Capital assets, which include property, vehicles, and equipment, purchased or acquired with an original cost of \$1,000 or more are reported at historical cost or estimated historical cost. Donated assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation is recorded using the straight-line method over the useful lives of the assets as follows:

DES ALLEMANDS VOLUNTEER FIRE DEPARTMENT, INC.
DES ALLEMANDS, LOUISIANA

Notes to the Financial Statements
For the year ended December 31, 2025

<u>Description</u>	<u>Estimated Lives</u>
Buildings	40 years
Building improvements	10-40 years
Equipment	5-15 years
Vehicles	5-15 years

In the fund financial statements, capital assets used in the Department's operations are accounted for as capital outlay expenditures of the governmental fund that provided the resources to acquire the assets. Depreciation is not computed or recorded on capital assets for purposes of the fund financial statements.

M. Compensated Absences

The Department does not have any employees. Therefore, compensated absences are not recorded.

N. Long-Term Obligations

In the government-wide financial statements, debt and principal payments of both government and business-type activities are reported as decreases in the balance of the liability on the Statement of Net Position. In the fund financial statements, however, debt and principal payments of governmental funds are recognized as expenditures when paid.

O. Equity Classifications

In the Government-Wide Financial Statements, the difference between a government's assets and liabilities is recorded as net position. The three components of net position are as follows:

1. Net Investment in Capital Assets This category records capital assets net of accumulated depreciation and reduced by any outstanding balances of bonds, mortgages, notes or other borrowing attributable to the acquisition, construction or improvement of capital assets.
2. Restricted Net Position Net positions that are restricted by external sources such as creditors, grantors, contributors, or by law through either enabling legislation or constitutional provisions are reported separately as restricted net position. When assets are required to be retained in perpetuity, these non-expendable net positions are recorded separately from expendable net positions. These are components of restricted net positions.
3. Unrestricted Net Position All other net positions that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

In the Fund financial statements, governmental fund equity is classified as fund balance. As such, fund balance of the governmental fund is classified as follows:

1. Nonspendable Amounts that cannot be spent either because they are in nonspendable

Notes to the Financial Statements

form or because they are legally or contractually required to be maintained intact. The Department has prepaid insurance which is considered *nonspendable* fund balance on the fund financial statements.

2. Restricted Amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
3. Committed Amounts that can be used only for specific purposes determined by a formal decision of the Board.
4. Assigned Amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes by a decision of the Board.
5. Unassigned All other spendable amounts.

When an expenditure is incurred for the purposed for which both restricted and unrestricted fund balance is available, the Board considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Board considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

NOTE 2. CASH AND CASH EQUIVALENTS

At December 31, 2025, the Department has demand deposits and certificates of deposit (book balances) totaling \$564,556, as follows:

Demand Deposits	\$ 564,353
Time and Savings Deposits	<u>202</u>
Total	<u>\$ 564,556</u>

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities must be held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

NOTE 3. CUSTODIAL CREDIT RISK

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution the Department's deposits may not be recovered or will not be able to

recover collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the Department or the pledging fiscal agent bank by a holding or custodial bank that is mutually acceptable to both parties.

Deposit balances (bank balances) at December 31, 2025 in the amount of \$564,556 were secured with federal deposit insurance and pledged securities. There were no unsecured funds. Deposits secured by pledged securities are exposed to custodial credit risk. These deposits are uninsured and collateralized with securities held by the pledging institution's trust Department or agent, but not in the Department's name. Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Department that the fiscal agent has failed to pay deposited funds on demand. The Department does not have a policy for custodial credit risk.

REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH

**Board of Directors
Des Allemands Volunteer Fire Department, Inc.
Des Allemands, Louisiana**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Des Allemands Volunteer Fire Department, Inc. (the Department), as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements, and have issued our report thereon dated June 17, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Department's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that

we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Department's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Although the intended use of this report may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Exception noted. The Department does not have a written policy for this area.

Alternatively, for those entities reporting on the not-for-profit accounting model, observe that the minutes referenced or included

financial activity relating to public funds if those public funds comprised more than 10% of the entity's collections during the fiscal period.

Exception noted. No discussion of budget to actual comparisons.

- iii. For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for selected each account, and observe that:

Obtained a list of bank accounts from management and management provided representation that the listing is complete.

- i. Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated, electronically logged);

No exceptions noted.

- ii. Bank reconciliations include written evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation within 1 month of the date the reconciliation was prepared (e.g., initialed and dated, electronically logged); and

Exception noted. There is no review of the bank reconciliation.

- iii. Management has documentation reflecting that it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.

No exceptions noted.

4) Collections (excluding electronic funds transfers)

- A. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).

Obtained a list of deposit sites from management and management provided representation that the listing is complete.

- B. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e., 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that
 - i. Employees responsible for cash collections do not share cash drawers/registers;

No exceptions noted.

- ii. Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g., pre-numbered receipts) to the deposit;

No exceptions noted.

No exceptions noted.

- D. Randomly select two deposit dates for each of the 5 bank accounts selected for Bank Reconciliations procedure #3A (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). Alternatively, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc. Obtain supporting documentation for each of the 10 deposits and:

- i. Observe that receipts are sequentially pre-numbered.

Not applicable. There are no cash receipts collected.

- ii. Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.

No exceptions noted.

- iii. Trace the deposit slip total to the actual deposit per the bank statement.

No exceptions noted.

- iv. Observe the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).

Exception noted. Two deposits did not provide evidence of the date the deposit was received; therefore, this procedure could not be tested for those items.

- v. Trace the actual deposit per the bank statement to the general ledger.

No exceptions noted.

5) Non-Payroll Disbursements (excluding card purchases/payments, travel reimbursements, & petty cash purchases)
