#### **Independent Auditor's Report**

Board of Commissioners Hospital Service District No. 1 A Component Unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) New Iberia, Louisiana

#### **Report on the Audit of the Financial Statements**

#### **Opinion**

We have audited the financial statements of Hospital Service District No. 1, a Component Unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (Medical Center), as of and for the years ended September 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Medical Center's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Medical Center, as of September 30, 2022 and 2021, and the changes in financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Medical Center, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Emphasis of Matter

As discussed in *Note 1* to the financial statements, on October 1, 2021, the Medical Center adopted Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. Our opinion is not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Medical Center's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Medical Center's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Medical Center's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and pension information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our

audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Medical Center's basic financial statements. The Schedule of Compensation, Reimbursements, Benefits and Other Payments to the Chief Executive Officer, Schedule of Insurance Policies and Schedule of Board Members listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The Schedule of Compensation, Reimbursements, Benefits and Other Payments to the Chief Executive Officer has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The Schedule of Insurance Policies and Schedule of Board Members have not been subjected to the auditing procedures applied in the audits of the consolidated financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 8, 2023, on our consideration of the Medical Center's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Medical Center's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Medical Center's internal control over financial reporting and compliance.

FORVIS, LLP

Dallas, Texas March 8, 2023

Management's Discussion and Analysis (Unaudited)

Years Ended September 30, 2022 and 2021

#### Introduction

This management's discussion and analysis of the financial performance of Hospital Service District No. 1, a component unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (Medical Center), provides an overview of the Medical Center's financial activities for the years ended September 30, 2022 and 2021. It should be read in conjunction with the accompanying financial statements of the Medical Center.

The 2020 balances included in this management discussion and analysis have not been restated to reflect the adoption of GASB Statement No. 87, *Leases*, that was adopted by the Medical Center on October 1, 2021 and presented retrospectively to October 1, 2020.

#### Financial Highlights

- Cash and cash held under bond trust indenture decreased by \$13,198,000 or 28.5 percent in 2022 compared to 2021 which decreased by \$8,562,000 or 15.6 percent in 2021 compared to 2020.
- The Medical Center's net position increased \$5,807,000 or 10.6 percent in 2022 and increased \$8,665,000 or 18.8 percent in 2021.
- The Medical Center reported operating income in 2022 of \$5,093,000 and operating income in 2021 of \$4,305,000, an increase in income of \$789,000 or 18.3 percent. The operating income in 2021 increased by \$1,206,000 or 38.0 percent compared to the operating income reported in 2020.
- Net nonoperating revenues decreased by \$3,822,000 or 87.7 percent in 2022 compared to 2021 and net nonoperating revenues increased \$3,643,000 or 565.6 percent in 2021 compared to 2020.

#### **Using This Annual Report**

The Medical Center's financial statements consist of three statements – a balance sheet; a statement of revenues, expenses and changes in net position; and a statement of cash flows. These statements provide information about the activities of the Medical Center, including resources held by the Medical Center but restricted for specific purposes by creditors, contributors, grantors or enabling legislation. The Medical Center is accounted for as a business-type activity and presents its financial statements using the economic resources measurement focus and the accrual basis of accounting.

Management's Discussion and Analysis (Unaudited)
Years Ended September 30, 2022 and 2021

### The Balance Sheet and Statement of Revenues, Expenses and Changes in Net Position

One of the most important questions asked about any Medical Center's finances is "Is the Medical Center as a whole better or worse off as a result of the year's activities?" The Balance Sheet and the Statement of Revenues, Expenses and Changes in Net Position report information about the Medical Center's resources and its activities in a way that helps answer this question. These statements include all restricted and unrestricted assets, all liabilities and all deferred inflows and outflows of resources using the accrual basis of accounting. Using the accrual basis of accounting means that all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Medical Center's net position and changes in it. The Medical Center's total net position—the difference between assets, liabilities and deferred inflows and outflows of resources—is one measure of the Medical Center's financial health or financial position. Over time, increases or decreases in the Medical Center's net position are an indicator of whether its financial health is improving or deteriorating. Other nonfinancial factors, such as changes in the Medical Center's patient base, changes in legislation and regulations, measures of the quantity and quality of services provided to its patients and local economic factors should also be considered to assess the overall financial health of the Medical Center.

#### The Statement of Cash Flows

The Statement of Cash Flows reports cash receipts, cash payments and net changes in cash and cash equivalents resulting from four defined types of activities. It provides answers to such questions as where did cash come from, what was cash used for and what was the change in cash and cash equivalents during the reporting period.

#### The Medical Center's Net Position

The Medical Center's net position is the difference between its assets and deferred outflows of resources and liabilities and deferred inflows of resources reported in the balance sheet. The Medical Center's change in net position increased by \$5,807,000 or 10.6 percent in 2022 over 2021 and increased by \$8,665,000 or 18.8 percent in 2021 over 2020, as shown in *Table 1*. The Medical Center's net position in 2022 as compared to 2021 decreased primarily due to a decline in Provider Relief Funds during 2022.

### **Management's Discussion and Analysis (Unaudited)**

Years Ended September 30, 2022 and 2021

Table 1: Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position

	2022	2021 As Restated	2020

Total assets and deferred			
outflows of resources	\$ 128,546,681	\$133,000,907	\$122,996,627
Liabilities			
Long-term debt	\$ 28,225,000	\$ 30,145,000	\$ 33,159,558
Lease liabilities	1,994,625	2,588,210	-
Net pension liability	-	-	228,408
Other current and noncurrent liabilities	13,967,669	25,378,517	32,805,186
Total liabilities	44,187,294	58,111,727	66,193,152
Deferred Inflows of Resources	23,691,485	20,027,872	10,606,675
Net Position			
Net investment in capital assets	16,106,781	16,694,254	15,385,929
Restricted expendable	4,716,901	4,832,252	4,899,942
Restricted for pension	22,727,312	8,102,788	-
Unrestricted	17,116,908	25,232,014	25,910,929
Total net position	60,667,902	54,861,308	46,196,800
Total liabilities, deferred inflows of			
resources and net position	\$ 128,546,681	\$ 133,000,907	\$ 122,996,627

The most significant changes in the Medical Center's assets in 2022 is the decrease in cash and cash held under bond trust indenture of approximately \$13,198,000 or 28.5%. The decrease is largely due to the repayment of the Medicare Advance Payments of approximately \$9,819,000 during 2022 discussed more fully in *Note 19*.

### Management's Discussion and Analysis (Unaudited)

Years Ended September 30, 2022 and 2021

In addition, another significant change in the Medical Center's assets in 2022 is the increase in the net pension asset of approximately \$14,625,000 or 180.5% from 2021 to 2022 due to favorable returns on the plan assets in 2022 discussed more fully in *Note 16*.

The most significant change in the Medical Center's liabilities in 2022 is the decrease of other current and noncurrent liabilities of approximately \$11,411,000 or 45.0% due primarily to the repayment of the Medicare Advance Payments of approximately \$9,818,000 during 2022. The Medicare Advance Payments are discussed more fully in *Note 19*.

The most significant changes in the Medical Center's financial position in 2021 resulted from the change in the net pension liability of \$228,000 in 2020 to a net pension asset of \$8,103,000 in 2021. The change from a net pension liability to a net pension asset in 2021 was due to favorable returns on the plan assets.

The Medical Center's cash and cash held under bond indenture decreased \$8,562,000 or 15.6% from 2020 to 2021 due to the recoupment of Medicare Advance Payments received in 2020 and additional incremental costs incurred during 2021 to provide care to patients throughout the COVID-19 pandemic.

The Medical Centers other current and noncurrent liabilities decreased \$7,427,000 or 22.6% from 2020 to 2021 due to the recognition of Provider Relief Funds of \$5,135,000 and payback of \$3,084,000 of Medicare Advance Payments in 2021.

### Management's Discussion and Analysis (Unaudited)

Years Ended September 30, 2022 and 2021

Table 2: Operating Results and Changes in Net Position

		2021	
	2022	As Restated	2020
Operating Revenues			
Net patient service revenue	\$ 93,061,429	\$ 93,177,358	\$ 85,810,029
Other operating revenues	21,369,711	18,607,774	19,630,215

purchased services	62,630,678	57,139,773	51,741,324
Depreciation and amortization	4,938,036	4,724,789	4,012,056
Total operating expenses	109,337,716	107,480,541	102,268,857
Operating Income	5,093,424	4,304,591	3,171,387
Nonoperating Revenues (Expenses)			
Interest income	171,306	153,411	222,325
Interest expense	(1,063,433)	(1,097,051)	(1,108,062)
Income from investments in joint ventures	105,602	168,919	213,926
Provider Relief Funds	1,324,695	5,134,638	1,315,927
Total nonoperating revenues (expenses)	538,170	4,359,917	644,116
Income Before Capital Gifts	5,631,594	8,664,508	3,815,503
Capital Gifts	175,000		
Increase in Net Position	\$ 5,806,594	\$ 8,664,508	\$ 3,815,503

#### **Operating Results**

The first component of the overall change in the Medical Center's net position is its operating income - generally, the difference between net patient service and other operating revenues and the expenses incurred to perform those services. In each of the past 20 years, excluding 2016, the Medical Center has reported operating income. The 2016 operating results were impacted by an anticipated increase in expenses due to the acquisition and licensure of a second hospital campus. In 2022, the Medical Center reported operating income of \$5,093,000. See below for components that make up the operating income in the current year.

### **Management's Discussion and Analysis (Unaudited)**

Years Ended September 30, 2022 and 2021

Operating income of \$5,093,000 increased in 2022 by \$789,000 or 18.3 percent as compared to the operating income of \$4,305,000 in 2021. The primary components of the increased operating income are:

- A slight decrease in net patient service revenue of \$116,000 or 0.1 percent.
- An increase in other operating revenues of \$2,762,000 or 14.8 percent.
- A decrease in pension expense of \$4,713,000 or 493.6 percent.
- An increase in supplies, professional fees and purchased services of \$5,491,000 or 9.6 percent.

Patient care services provided by the Medical Center for the years ended September 30, 2022, 2021 and 2020, are as follows:

	2022	2021	2020
Patient Care Services Provided			
Inpatient days (acute and psych)	21,605	21,605	19,401
Surgery cases	4,016	3,927	3,736
Emergency room visits	38,571	33,644	32,858
Other outpatient visits	85,371	84,411	76,357
Mammography	6,521	5,683	5,390
Increase From Prior Year As A Percentage			
Inpatient days (acute and psych)	0.00%	11.36%	
Surgery cases	2.27%	5.11%	
Emergency room visits	14.64%	2.39%	
Other outpatient visits	1.14%	10.55%	
Mammography	14.75%	5.44%	

The increase in emergency room visits in 2022 was due to the opening of a second emergency room at the north campus hospital in 2022. Other changes in 2022 as compared to 2021 include an increase in mammography volume due to the addition of 3-D mammography.

The increase in various visits and days in 2021 as compared to 2020 was largely due to the restoration of elective patient services provided during 2021, as 2020 volumes were impacted significantly by the incidence of COVID-19 as a global pandemic.

### **Management's Discussion and Analysis (Unaudited)**

Years Ended September 30, 2022 and 2021

Below is a summary of operating expenses as a percent of operating revenues for 2022, 2021 and 2020:

	2022	2021	2020
Operating Revenues	100.0%	100.0%	100.0%
<b>Operating Expenses</b>			
Pension expense	-3.3%	0.9%	4.4%
Salaries, wages and employee benefits	39.8%	40.0%	39.7%
Total salaries, wages and employee benefits	36.5%	40.8%	44.1%
Supplies, professional fees and			
purchased services	54.7%	51.1%	49.1%
Depreciation and amortization	4.3%	4.2%	3.8%
Total operating expenses	95.5%	96.1%	97.0%
Operating Income	4.5%	3.9%	3.0%

Other operating revenues increased \$2,762,000 or 14.8 percent in 2022 as compared to 2021 due to additional funding and income received associated with the Louisiana Medicaid Enhanced Rates program of approximately \$2,539,000 in 2022 as compared to 2021. The Louisiana Medicaid Enhanced Rates program is discussed more fully in *Note 12*.

Pension expense decreased \$4,713,000 or 493.6 percent in 2022 as compared to 2021 due to the performance of the plan assets compared to actuarily projected amounts during the year. Further discussion about the pension balances are included in *Note 16*.

Supplies, purchased services and professional fees increased \$5,491,000 or 9.6 percent in 2022 as compared to 2021 due to an increase in contract labor at sustained higher rates for the full 2022 year as compared to only a partial year in 2021.

The operating income in 2021 of \$4,305,000 increased as compared to the operating income reported in 2020 of \$3,171,000, an increase of \$1,134,000 of 35.8 percent. The increase in operating income from 2020 to 2021 was primarily the result of a decrease in pension expense of \$3,654,000 or 79.3 percent in 2021, due to the performance of the plan assets compared to actuarily projected amounts during the year.

#### Nonoperating Revenues and Expenses

Nonoperating revenues and expenses consist primarily of interest income, interest expense, income from investments in joint ventures and Provider Relief Fund revenues. The largest change in nonoperating revenues in 2022 as compared to 2021 is a reduction of \$3,810,000 or 74.2 percent in amounts recognized related to the Provider Relief Funds. Interest expense of \$1,063,000 in 2022

### Management's Discussion and Analysis (Unaudited)

Years Ended September 30, 2022 and 2021

remained consistent with interest expense in 2021. Income from investment in joint ventures in 2022 of \$106,000 decreased from \$169,000 in 2021, or 37.5 percent due to continued low volumes.

#### Capital Gift

The Medical Center received capital gifts of a building and land with an acquisition value of \$175,000 from the Village of Jeanerette and Iberia Parish in 2022.

#### The Medical Center's Cash Flows

Changes in the Medical Center's cash flows are consistent with changes in operating income and nonoperating revenues and expenses for 2022, 2021 and 2020, discussed earlier, with one exception. Cash used by operating activities was less than operating income due to the repayment of the Medicare Advance Payments in 2022 and 2021 and the deferred inflows recognized due to the positive pension plan asset performance in 2022 and 2021 as discussed above.

#### Capital and Lease Assets

At the end of 2022, the Medical Center had \$41,135,000 invested in capital assets, net of accumulated depreciation, and \$1,905,000 of lease assets, net of accumulated amortization at detailed in *Note 5* to the financial statements. In 2022, the Medical Center purchased new capital assets costing \$2,889,000 and entered into new lease agreements for lease assets of \$128,000.

At the end of 2021, the Medical Center had \$42,401,000 invested in capital assets, net of accumulated depreciation, and \$2,532,000 of lease assets, net of accumulated amortization at detailed in *Note 5* to the financial statements. In 2021, the Medical Center purchased new capital assets costing \$5,906,000 and entered into new lease agreements for lease assets of \$1,838,000.

#### Debt

At September 30, 2022, the Medical Center had \$28,225,000 in revenue bonds and \$1,995,000 in lease obligations outstanding. In 2022, the Medical Center refinanced all of the 2015B bonds and \$3,510,000 of the 2015A bonds with the Series 2022 bonds totaling \$8,350,000. The Medical Center's formal debt issuances, revenue bonds, are subject to limitations imposed by state law.

#### Contacting the Medical Center's Financial Management

This financial report is designed to provide our patients, suppliers, taxpayers and creditors with a general overview of the Medical Center's finances and to show the Medical Center's accountability for the money it receives. Questions about this report and requests for additional financial information should be directed to the Medical Center Administration by telephoning 337.364.0441.

### Balance Sheets September 30, 2022 and 2021

Assets and Deferred Outflows of Resources		2021
	2022	As Restated

Notes to Financial Statements September 30, 2022 and 2021

#### Note 1: Nature of Operations and Summary of Significant Accounting Policies

#### Nature of Operations and Reporting Entity

Hospital Service District No. 1, a component unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (Medical Center) is a 166-bed acute care medical center located in New Iberia, Louisiana. The Medical Center is a component unit of Iberia Parish (Parish) and a political subdivision of the State of Louisiana. The Iberia Parish Government Board of Commissioners appoints seven members of a nine-member Board of Commissioners who operate the Medical Center. The additional two members of the Board of Commissioners are appointed by Iberia Medical Center's medical staff. The Medical Center primarily earns revenues by providing inpatient, outpatient and emergency care services to patients in the Parish area.

Iberia Medical Center's opened its initial hospital operations in September 1960. In January 2016, the Medical Center purchased a second hospital building and additional medical office buildings to expand inpatient and outpatient surgical services, behavioral health services, inpatient and outpatient rehabilitation, imaging, laboratory, wound care, physical rehabilitation, cardiac rehabilitation as well as other services to meet the healthcare needs of the Parish. The medical office buildings remained open after the purchase but the hospital building obtained licensure and commenced operations on April 27, 2016.

The Medical Center's financial statements include the operations of Iberia Medical Center Foundation (Foundation). The Foundation is a 501(c)3 nonprofit health organization, established in order to support the Medical Center and is included in the financial statements using the blending method. The financial activity of the Foundation is not significant.

#### Basis of Accounting and Presentation

The financial statements of the Medical Center have been prepared on the accrual basis of accounting using the economic resources measurement focus. Revenues, expenses, gains, losses, assets, liabilities and deferred inflows and outflows of resources from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated or voluntary nonexchange transactions are recognized when all applicable eligibility requirements are met. Operating revenues and expenses include exchange transactions and program-specific, government-mandated or voluntary nonexchange transactions. Government-mandated or voluntary nonexchange transactions that are not program specific (such as investment income and interest on capital asset-related debt) are included in nonoperating revenues and expenses. The Medical Center first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position are available.

Notes to Financial Statements September 30, 2022 and 2021

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Risk Management

The Medical Center is exposed to various risks of loss from torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than employee health claims. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

The Medical Center is self-insured for a portion of its exposure to risk of loss from employee health claims. Annual estimated provisions are accrued for the self-insured portion of employee health claims and include an estimate of the ultimate costs for both reported claims and claims incurred but not yet reported.

#### Investments in Joint Ventures

The Medical Center holds a 20 percent interest in New Iberia Surgery Center, which provides outpatient surgery services to the community. This investment is carried on the equity method of accounting. The investment in New Iberia Surgery Center totaled \$242,972 and \$231,942 as of September 30, 2022 and 2021, respectively, and is included in investments in joint ventures on the accompanying balance sheets.

The Medical Center originally held a 15 percent ownership interest in Acadiana Diagnostic Imaging, LLC, which is a provider of imaging services. On May 1, 2015, the Medical Center purchased an additional 25 percent interest in Acadiana Diagnostic Imaging, LLC for a total of \$395,000, increasing the Medical Center's ownership to 40 percent. This transaction resulted in goodwill of \$282,536, which is being amortized over 10 years. Unamortized goodwill as of September 30, 2022 and 2021, was \$72,988 and \$101,242, respectively, and is included in investments in joint ventures on the accompanying balance sheets. Subsequent to the additional purchase of ownership interest in 2015, this investment is accounted for using the equity method of accounting. The investment in Acadiana Diagnostic Imaging, LLC, excluding unamortized goodwill, totaled \$110,300 and \$130,304 as of September 30, 2022 and 2021, respectively, and is included in investments in joint ventures on the accompanying balance sheets.

As of January 1, 2018, the Medical Center has a 25 percent membership interest in Acadian Homecare of New Iberia, LLC. The investment balance totaled \$21,072 and \$18,809 as of September 30, 2022 and 2021, respectively.

Notes to Financial Statements September 30, 2022 and 2021

Using the equity method of accounting, the Medical Center's share of net income (loss) in joint ventures is recognized as nonoperating revenue (expense) in the Medical Center's statements of revenues, expenses and changes in net position and added to the investment account. The investment account is also reduced for any dividends received.

#### Patient Accounts Receivable

The Medical Center reports patient accounts receivable for services rendered at net realizable amounts from third-party payers, patients and others. The Medical Center provides an allowance for uncollectible accounts based upon a review of outstanding receivables, historical collection information and existing economic conditions.

#### **Supplies**

Supply inventories are stated at the lower of cost or market. Costs are determined using the first-in, first-out method or market.

#### Capital Assets

Capital assets are recorded at cost at the date of acquisition, or acquisition value at the date of donation if acquired by gift. Depreciation and amortization is computed using the straight-line method over the estimated useful life of each asset. The following estimated useful lives are being used by the Medical Center:

Land improvements	15 - 25 years
Buildings and leasehold improvements	20 - 40 years
Equipment	3 - 20 years

#### Lease Assets

Lease assets are initially recorded at the initial measurement of the lease liability, plus lease payments made at or before the commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease, plus initial direct costs that are ancillary to place the asset into service. Lease assets are amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset.

#### Capital and Lease Asset Impairment

The Medical Center evaluates capital and lease assets for impairment whenever events or circumstances indicate a significant, unexpected decline in the service utility of a capital or lease asset has occurred. No asset impairment was recognized during the years ended September 30, 2022 and 2021.

Notes to Financial Statements September 30, 2022 and 2021

#### Cost-Sharing Defined Benefit Pension Plan

The Medical Center participates in a cost-sharing multiple-employer defined benefit pension plan, the Parochial Employees' Retirement System of Louisiana (Plan). For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. Benefits payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **Deferred Compensation Plan**

The Medical Center offers a deferred compensation plan through Empower Retirement in accordance with Internal Revenue Code Section 457. The 457 Plan provides employees an option to make pre-tax contributions to their plan. The Medical Center does not have any financial contribution obligations regarding this 457 Plan.

#### Deferred Outflows of Resources

The Medical Center reports the consumption of net position that is applicable to a future reporting period as deferred outflows of resources in a separate section of its balance sheet.

#### Deferred Inflows of Resources

The Medical Center reports an acquisition of net position that is applicable to a future reporting period as deferred inflows of resources in a separate section of its balance sheet.

#### Compensated Absences

The Medical Center's policies permit most employees to accumulate vacation and sick leave benefits that may be realized as paid time off or, in limited circumstances, as a cash payment. Expense and the related liability are recognized as vacation benefits are earned whether the employee is expected to realize the benefit as time off or in cash. Expense and the related liability for sick leave benefits are recognized when earned to the extent the employee is expected to realize the benefit in cash determined using the termination payment method. Sick leave benefits expected to be realized as paid time off are recognized as expense when the time off occurs, and no liability is accrued for such benefits employees have earned but not yet realized. Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at the balance sheet date plus an additional amount for compensation-related payments such as social security and Medicare taxes computed using rates in effect at that date.

Notes to Financial Statements September 30, 2022 and 2021

#### **Net Position**

Net position of the Medical Center is classified in four components on its balance sheets.

- Net investment in capital assets consists of capital and lease assets net of accumulated depreciation amortization and reduced by the outstanding balances of borrowings and lease liabilities used to finance the purchase, use, or construction of those assets.
- Restricted expendable net position is made up of noncapital assets that must be used for a particular purpose, as specified by creditors, grantors or donors external to the Medical Center, including amounts deposited with trustees as required by bond indentures, reduced by the outstanding balances of any related borrowings.
- Restricted for pension net position represents assets restricted for providing contributions to the cost-sharing defined benefit pension plan which provides pensions in accordance with the benefit terms of the plan.
- Unrestricted net position is the remaining net position that does not meet the definition of net investment in capital assets or restricted net position.

#### Net Patient Service Revenue

The Medical Center has agreements with third-party payers that provide for payments to the Medical Center at amounts different from its established rates. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers and others for services rendered and includes estimated retroactive revenue adjustments and a provision for uncollectible accounts. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such estimated amounts are revised in future periods as adjustments become known.

#### **Charity Care**

The Medical Center provides charity care to patients who are unable to pay for services. The amount of charity care is included in net patient service revenue and is not separately classified from the provision for uncollectible accounts.

Notes to Financial Statements September 30, 2022 and 2021

#### Income Taxes

As an essential government function of the Parish, the Medical Center is generally exempt from federal and state income taxes under Section 115 of the Internal Revenue Code and a similar provision of state law. The Foundation has been recognized as exempt from income taxes under Section 501 of the Internal Revenue Code and similar provision of state law. However, the Medical Center and the Foundation are subject to federal income tax on any unrelated business taxable income.

#### Change in Accounting Principle

On October 1, 2021, the Medical Center adopted GASB Statement No. 87, *Leases*, using a retrospective method of adoption to all leases in place and not yet completed at the beginning of the earliest period presented. The statement requires lessees to recognize a lease liability, measured at the present value of payments expected to be made during the lease term, and an intangible lease asset. The 2021 financial statements and disclosures were restated to reflect the impact of this adoption.

The effect of the changes made to the accompanying balance sheet, statement of revenues, expenses, and changes in net position, and statement of cash flows as of and for the year ended September 30, 2021 are as follows:

Notes to Financial Statements September 30, 2022 and 2021

#### Note 2: Deposits

Custodial credit risk is the risk that in the event of a bank failure a government's deposits may not be returned to it. The Medical Center's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance or other qualified investments in the state of Louisiana. At September 30, 2022 and 2021, the Medical Center's deposits were either insured or collateralized in accordance with state law.

#### Note 3: Patient Accounts Receivable

The Medical Center grants credit without collateral to its patients, many of whom are area residents and are insured under third-party payer agreements. Patient accounts receivable at September 30, 2022 and 2021 consisted of:

	 2022	2021
Medicare	\$ 5,377,160	\$ 5,607,989
Medicaid	1,388,911	1,442,716
Other third-party payers	4,261,115	4,765,178
Patients	7,460,987	7,955,413
	 18,488,173	19,771,296
Less allowance for uncollectible accounts	 7,747,652	8,091,160
	\$ 10,740,521	\$ 11,680,136

Notes to Financial Statements September 30, 2022 and 2021

#### Note 4: Leases Receivable

The Medical Center leases a portion of its medical office space and clinics to various third parties, the terms of which expire 2023 through 2028. Payments increase annually based upon the Consumer Price Index (Index). The leases were measured based upon the Index at lease commencement.

Revenue recognized under lease contracts during the years ended September 30, 2022 and 2021, totaled approximately \$1,375,000 and \$1,389,000, respectively, which includes both lease revenue and interest.

#### Note 5: Capital and Lease Assets

Capital assets activity for the years ended September 30, 2022 and 2021, was:

	2022					
	Beginning Balance	Additions Disposals		Transfers	Ending Balance	
Land	\$ 1,896,704	\$ -	\$ -	\$ -	\$ 1,896,704

Notes to Financial Statements September 30, 2022 and 2021

#### Revenue Bonds Payable

Revenue bonds payable consist of the various series of the Iberia Parish, State of Louisiana Hospital Revenue Bonds, as shown below:

Bond Series	Original Issue Amount	Interest Rate	Final Maturity	Balance September 30, 2022	Balance September 30, 2021
Series 2013A	\$ 8,265,000	2.48%	November 2023	\$ 2,115,000	\$ 3,130,000
Series 2013B	\$ 3,520,000	2.24%	November 2023	880,000	1,310,000
Series 2015A	\$ 6,000,000	2.75%	November 2025	1,145,000	4,920,000
Series 2015B	\$ 5,180,000	3.48%	November 2035	-	4,880,000
Series 2015C	\$ 5,215,000	4.75%	November 2035	4,835,000	4,905,000
Series 2019	\$ 11,000,000	3.15%	November 2034	10,900,000	11,000,000
Series 2022	\$ 8,350,000	3.20%	November 2035	8,350,000	<u> </u>
				\$ 28,225,000	\$ 30,145,000

During 2013, the Series 2013A and 2013B bonds were issued to refinance the Series 2005C, 2005D, 2005E, 2008, 2009A and 2009B bonds at lower interest rates. The bonds are payable in semi-annual installments of principal and interest through final maturity.

The Series 2013A bonds are payable in annual installments ranging from \$1,045,000 to \$1,070,000 through November 2023. The Series 2013B bonds are payable in annual installments ranging from \$435,000 to \$445,000 through November 2023.

During 2016, the Medical Center issued the Series 2015A tax-exempt Hospital Revenue Bonds of \$6,000,000, Series 2015B tax-exempt Hospital Revenue Bonds of \$5,180,000 and Series 2015C taxable Hospital Revenue Bonds of \$5,215,000 for the purpose of making improvements, extensions, additions, renewals, replacements or repairs to the Medical Center. In 2022, all of the outstanding Series 2015B bonds and \$3,510,000 of the Series 2015A bonds were refinanced with the Series 2022 bonds.

The remaining Series 2015A bonds, after the 2022 bond refinancing, are payable in annual installments ranging from \$245,000 to \$340,000 through November 2025. The Series 2015C bonds are payable in annual installments ranging from \$75,000 to \$500,000 through November 2035.

During 2019, the Medical Center issued Series 2019 tax-exempt Hospital Revenue Bond of \$11,000,000 for the purpose of making purchases of capital equipment, improvements, extensions, additions, renewals, replacements or repairs to the Medical Center.

The Series 2019 bonds are payable in annual installments ranging from \$100,000 to \$1,170,000 through November 2034.

### Notes to Financial Statements September 30, 2022 and 2021

During 2022, the Medical Center refinanced all of the outstanding Series 2015B tax-exempt Hospital Revenue Bonds and a portion of the Series 2015A bonds with the Series 2022 bonds totaling \$8,350,000.

The Series 2022 bonds are payable in annual installments ranging from \$25,000 to \$875,000 through November 2035.

The revenue bonds payable requirements as of September 30, 2022 are as follows:

Year Ending September 30,	Total to be Paid	Principal	Interest
	<b></b>	4	0.44.000
2023	\$ 2,786,993	\$ 1,925,000	\$ 861,993
2024	2,840,510	2,005,000	835,510
2025	2,487,101	1,705,000	782,101
2026	2,500,756	1,775,000	725,756
2027	2,609,719	1,945,000	664,719
2028-2032	12,935,784	10,610,000	2,325,784
2033-2036	8,752,689	8,260,000	492,689
	\$ 34,913,552	\$ 28,225,000	\$ 6,688,552

#### Note 8: Lease Liabilities

The Medical Center leases medical and office equipment, the terms of which expire in various years through 2028. Variable payments based upon the use of the underlying asset are not included in the lease liability because they are not fixed in substance. Variable payments are not significant for the years ended September 30, 2022 and 2021.

The following is a summary of lease liability transactions for the Medical Center for the years ended September 30:

			2022		
	Beginning			Ending	Current
	Balance	Additions	Deductions	Balance	Portion
Lease liabilities	\$ 2,588,210	\$ 128,255	\$ 721,840	\$ 1,994,625	\$ 591,590
			2021 (As Restated	i)	
	Beginning			Ending	Current
	Balance	Additions	Deductions	Balance	Portion
Lease liabilities	\$ 1,413,218	\$ 1,838,312	\$ 663,320	\$ 2,588,210	\$ 743,281

2022

Notes to Financial Statements September 30, 2022 and 2021

The following is a schedule by year of payments under the leases as of September 30, 2022:

	Total to				
Year Ending September 30,	be Paid Princi		Principal	rincipal I	
2023	\$ 667,213	\$	591,590	\$	75,623
2024	458,912		404,844		54,068
2025	448,927		411,841		37,086
2026	305,021		284,018		21,003
2027	242,478		233,017		9,461
2028	 70,045		69,315		730
	\$ 2,192,596	\$	1,994,625	\$	197,971

#### Note 9: Medical Malpractice Claims

The Medical Center has joined together with other providers of health care services to form the Louisiana Hospital Association Medical Malpractice and General Liability Trust Fund, a risk pool (Pool) currently operating as a common risk management and insurance program for its members. The Medical Center purchases medical malpractice insurance from the Pool under a claims-made policy. The Medical Center pays an annual premium to the Pool for its torts insurance coverage. The Pool's governing agreement specifies that the Pool will be self-sustaining through member premiums and will reinsure through commercial carriers for claims in excess of stop-loss amounts.

Accounting principles generally accepted in the United States of America require a health care provider to accrue the expense of its share of malpractice claim costs, if any, for any reported and unreported incidents of potential improper professional service occurring during the year by estimating the probable ultimate costs of the incidents. Based upon the Medical Center's claims experience, no such accrual has been made. It is reasonably possible that this estimate could change materially in the near term.

Notes to Financial Statements September 30, 2022 and 2021

#### Note 10: Employee Health Claims

Substantially all of the Medical Center's employees and their dependents are eligible to participate in the Medical Center's employee health insurance plan. The Medical Center is self-insured for health claims of participating employees and dependents up to an annual stop-loss limit of \$100,000 per employee. Commercial stop-loss insurance coverage is purchased for claims in excess of this amount. A provision is accrued for self-insured employee health claims, including both claims reported, and claims incurred but not yet reported. The accrual is estimated based on consideration of prior claims experience, recently settled claims, frequency of claims and other economic and social factors. It is reasonably possible that the Medical Center's estimate will change by a material amount in the near term.

Activity in the Medical Center's accrued employee health claims liability during 2022 and 2021 is summarized as follows:

	2022	2021
Balance, beginning of year	\$ 548,401	\$ 429,586
Current year claims incurred and changes in estimates for		
claims incurred in prior years	3,502,352	3,852,329
Claims and expenses paid	(3,565,129)	(3,733,514)
Balance, end of year	\$ 485,624	\$ 548,401

#### Note 11: Net Patient Service Revenue

The Medical Center has agreements with third-party payers that provide for payments to the Medical Center at amounts different from its established rates. These payment arrangements include:

Medicare. Inpatient acute care services and substantially all outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. The Medical Center is reimbursed for certain services at tentative rates with final settlement determined after submission of annual cost reports by the Medical Center and audits thereof by the Medicare administrative contractor.

Notes to Financial Statements September 30, 2022 and 2021

Medicaid. Inpatient services rendered to Medicaid program beneficiaries are paid based on prospectively determined rates. Outpatient services are paid under either a cost reimbursement methodology or using defined allowable charges. The Medical Center is reimbursed for cost reimbursable services at tentative rates with final settlement determined after submission of annual cost reports by the Medical Center and audits thereof by the Medicaid administrative contractor.

Other. Payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations provide for payment using prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

Approximately 56 and 59 percent of net patient service revenues are from participation in the Medicare and state-sponsored Medicaid programs for the years ended September 30, 2022 and 2021, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates will change materially in the near term.

#### Note 12: Louisiana Medicaid Enhanced Rates

The Medical Center receives Medicaid payments to provide an opportunity for the Medical Center to receive rates from Medicaid managed care organizations that approximate, based on available data, the rates the Medical Center receives for Medicaid fee-for-service patients. During the years ended September 30, 2022 and 2021, total revenues, net of expenses, recognized by the Medical Center to increase Medicaid managed care payments totaled approximately \$8,770,000 and \$6,231,000, respectively. As of September 30, 2022 and 2021, outstanding receivables related to these enhanced rates were approximately \$1,366,000 and \$2,271,000, respectively, which are recorded in prepaid expenses and other receivables in the accompanying balance sheets. These net receipts are recorded as other operating revenues in the accompanying statements of revenue, expenses and changes in net position.

#### Note 13: Louisiana Supplemental Payment Programs

The Medical Center also ensures the availability of quality healthcare services for the low-income and needy population by making additional transfers to support the Medicaid program. For the years ended September 30, 2022 and 2021, the Medical Center incurred approximately \$4,780,000 and \$6,300,000, respectively, in costs, which are included in purchased services and professional fees in the accompanying statements of revenues, expenses and changes in net position.

Notes to Financial Statements September 30, 2022 and 2021

#### Note 14: Cooperative Endeavor Agreement Program

The Medical Center is party to a cooperative endeavor agreement with other governmental healthcare providers for the purpose of ensuring adequate healthcare services are available for underserved, non-rural populations. The Medical Center receives revenues regarding these services. During the years ended September 30, 2022 and 2021, total revenues recognized by the Medical Center related to this agreement totaled approximately \$4,906,000 and \$4,568,000, respectively. As of September 30, 2022 and 2021, outstanding receivables related to this agreement was approximately \$1,626,000 and \$1,788,000, respectively, which are recorded in prepaid expenses and other receivables in the accompanying balance sheets. These receipts are recorded as other operating revenues in the accompanying statements of revenue, expenses and change in net position.

#### Note 15: Quality and Outcome Improvement Network

The Medical Center became a participant in the Quality and Outcome Improvement Network, Inc. (QIN) during the year ended September 30, 2020. QIN works with hospitals in the state and the Healthy Louisiana Medicaid managed care organizations to improve the availability and quality of care to high-risk Medicaid populations in Louisiana in exchange for supplemental payments for meeting certain quality metrics. Total amounts received associated with the Medical Center's participation in QIN during the years ended September 30, 2022 and 2021 totaled approximately \$3,201,000 and \$3,159,000, respectively, and is recorded as other operating revenues in the accompanying statements of revenue, expenses and change in net position.

#### Note 16: Pension Plans

#### Plan Description

The Medical Center contributes to the Parochial Employees' Retirement System (PERS), a cost-sharing, multiple-employer defined benefit pension plan administered by the state of Louisiana (State). PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. PERS is comprised of two distinct plans – Plan A and Plan B – with separate assets and benefit provisions. Employees of the Medical Center are members of Plan A. Benefit provisions are established by state law and may be amended only by the State Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information for PERS that can be obtained at http://www.persla.org/.

Notes to Financial Statements September 30, 2022 and 2021

#### **Benefits Provided**

The Plan provides retirement, disability and death benefits to plan members and their beneficiaries. Retirement benefits for employees are calculated as 3 percent of the plan member's final average compensation multiplied by their years of service. Death benefits are equal to 100 percent of benefits if member is eligible for normal retirement or 60 percent of final compensation if not eligible for normal retirement. Disability retirement benefits are calculated to be equal to the lesser of an amount equal to 3 percent of the member's final average compensation multiplied by their years of services, not to be less than 15, or 3 percent multiplied by years of service assuming continued service to age 60.

For plan members hired prior to January 1, 2007, a member may obtain retirement benefits if any of the following are reached: (a) any age with 30 or more years of creditable service, (b) age 55 with 25 years of creditable service, (c) age 60 with minimum of 10 years of creditable service, (d) age 65 with a minimum of 7 years of creditable service.

For plan members hired after January 1, 2007, a member may obtain retirement benefits if any of the following are reached: (a) age 55 with 30 or more years of service, (b) age 62 with 10 years of service, (c) age 67 with 7 years of service.

The terms of the Plan provide for annual cost of living allowance for the retirees who retired prior to July 1973. The adjustment cannot exceed 2 percent of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Plan may provide an additional cost of living increase to all retirees and beneficiaries who are over age 65 equal to 2 percent of the member's benefit paid on October 1, 1977 (or the member's retirement date, if later). Also, the Plan may provide a cost of living increase up to 2.5 percent for retirees 62 and older. Lastly, Act 270 provided for further reduced actuarial payments to provide an annual 2.5 percent cost of living adjustment commencing at age 55.

#### **Contributions**

State statute has the authority to establish and amend the contribution requirements of the Medical Center and active employees. According to state statute, the Plan also receives ½ of 1 percent of ad valorem taxes collected within the respective Parishes, except for Orleans and East Baton Rouge Parishes. The Plan also receives revenue sharing funds each year as appropriated by the State Legislature. These additional sources of income are used as additional employer contributions and are considered support from non-employer contributing entities. As of September 30, 2022 and 2021, employees were required to contribute 9.5 percent of their annual pay.

#### Notes to Financial Statements September 30, 2022 and 2021

Contractually required contribution rates for the Medical Center during the years ended September 30, 2022 and 2021 were as follows:

October 1, 2020 through December 31, 2021	12.25%
January 1, 2022 through September 30, 2022	11.50%

The employer contribution is actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. For the years ended September 30, 2022 and 2021, contributions to the Plan from the Medical Center were approximately \$3,797,000 and \$4,135,000, respectively. The State also made on-behalf contributions to the Plan, of which approximately \$399,000 and \$389,000 were recognized by the Medical Center for the years ended September 30, 2022 and 2021, respectively; these on-behalf payments did not meet the criteria of a special funding situation.

### Pension Assets, Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2022 and 2021, the Medical Center reported an asset of (\$22,727,312) and (\$8,102,788), respectively, for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2021 and 2020, respectively, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2021 and 2020, respectively. The Medical Center's proportion of the net pension asset was based on the Medical Center's actual contributions to the Plan during the measurement period as compared to the total of all employers' contributions to the Plan during the measurement period.

At December 31, 2021, the Medical Center's proportion of the net pension asset was 4.82 percent, which was an increase of 0.20 percent from its proportion measured as of December 31, 2020. At December 31, 2020, the Medical Center's proportion was 4.62 percent, which was a decrease of 0.23 percent from its proportion measured as of December 31, 2019.

During the 2015 Regular Session of the Louisiana Legislature, Act 370 was approved to allow the Plan to provide a cost-of-living increase from the balance in the system's funding deposit account.

#### Notes to Financial Statements September 30, 2022 and 2021

For the years ended September 30, 2022 and 2021, the Medical Center recognized pension expense (benefit) of (\$3,757,698) and \$954,828, respectively. This expense (benefit) is included in employee benefits in the accompanying statements of revenues, expenses and changes in net position. At September 30, 2022 and 2021, the Medical Center reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2022		
	Deferred Outflows of Resources	Deferred Inflows of Resources	
Differences between expected and actual experience	\$ 1,373,152	\$ 1,647,202	
Changes of assumptions Net difference between projected and actual earnings	1,185,276	-	
on pension plan investments	-	19,658,733	
Changes in proportion	270,689	366,040	
Medical Center's contributions subsequent to the measurement date	2,925,701		
Total	\$ 5,754,818	\$ 21,671,975	
	20	21	
	Deferred Outflows of	Deferred Inflows of	
	Deferred	Deferred

Changes of assumptions Net difference between projected and actual earnings on pension plan investments Changes in proportion	Deferred Outflows of Resources \$ 1,972,753	Deferred Inflows of Resources \$ 967,114	
Changes of assumptions Net difference between projected and actual earnings on pension plan investments	Deferred Outflows of Resources \$ 1,972,753 2,650,978	Deferred Inflows of Resources  \$ 967,114	

Notes to Financial Statements September 30, 2022 and 2021

At September 30, 2022 and 2021, the Medical Center reported approximately \$2,926,000 and \$3,113,000, respectively, as deferred outflows of resources related to pensions resulting from the Medical Center's contributions subsequent to the measurement date that will be recognized as an increase in the net pension asset in the years ended September 30, 2023 and 2022, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources at September 30, 2022, related to pensions will be recognized in pension expense (benefit) as follows:

2023	\$ (3,694,808)
2023	(7,797,157)
2024	(5,150,675)
2025	 (2,200,218)
	\$ (18,842,858)

#### **Actuarial Assumptions**

The total pension liability actuarial valuations was determined using the following actuarial assumptions, applied to all periods included in the measurement:

#### December 31, 2021 and 2020

Inflation 2.30%

Salary increases 4.75% including inflation

Investment rate of return 6.40% net of pension plan investment expense

Mortality rates Pub-2010 Public Retirement Plans Mortality Table for Health Retirees

multiplied by 130% for males and 125% for females using MP2018 scale for annuitant and beneficiary mortality. For employees, the Pub-2010 Public Retirement Plans Mortality for General Employees multiplied by 130% for males and 125% for females using MP2018 scale. Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females

using MP2018 scale for disabled annuitants.

The actuarial assumptions used in the December 31, 2021 and 2020 valuations were based on the results of actuarial experience studies for the period of January 1, 2013 through December 31, 2017.

Notes to Financial Statements September 30, 2022 and 2021

#### Long-term Expected Rate of Return

The long-term expected rate of return used in the December 31, 2021 and 2020 valuations on pension plan investments was determined using a tri-angulation method which integrated the capital asset pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building block model (bottom-up). Risk return and correlations are projected on a forward-looking basis in equilibrium, in which best-estimates of future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.10 percent and an adjustment for the effect of rebalancing/diversification.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	2021 Long-term Expected Real Rate of Return	2020 Long-term Expected Real Rate of Return
Fixed income	33%	0.85%	0.86%
Equity	51%	3.23%	3.36%
Alternatives	14%	0.71%	0.67%
Real assets	2%	0.11%	0.11%
	100%		

#### Discount Rate

The discount rate used to measure the total pension liability was 6.40 percent and for both years ended December 31, 2021 and 2020. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that participating employer contributions will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Sensitivity of the Net Pension Asset to Changes in the Discount Rate

The Medical Center's proportionate share of the net pension asset at September 30, 2022, has been calculated using a discount rate of 6.40 percent. The following presents the Medical Center's proportionate share of the net pension asset calculated using a discount rate 1 percent higher and 1 percent lower than the current rate.

#### Notes to Financial Statements September 30, 2022 and 2021

	Current		
	1% Decrease (5.40%)	Discount Rate (6.40%)	1% Increase (7.40%)
Medical Center's proportionate share of			
net pension liability (asset)	\$ 4,051,842	\$ (22,727,312)	\$ (45,159,756)

#### Pension Plan Fiduciary Net Position

Detailed information about the Plan's fiduciary net position is available in the separately issued PERS' financial report.

#### Payable to the Pension Plan

At September 30, 2022 and 2021, the Medical Center reported a payable of approximately \$1,272,000 and \$1,344,000, respectively, for the outstanding amount of the Medical Center's contributions to the Plan required for the years ended September 30, 2022 and 2021. These amounts are included in accounts payable and accrued expenses in the accompanying balance sheets at September 30, 2022 and 2021.

#### Note 17: Significant Estimates and Contingencies

#### Litigation

In the normal course of business, the Medical Center is, from time to time, subject to allegations that may or do result in litigation. Some of these allegations are in areas not covered by the Medical Center's self-insurance program (discussed elsewhere in these notes) or by commercial insurance; for example, allegations regarding employment practices or performance of contracts. The Medical Center evaluates such allegations by conducting investigations to determine the validity of each potential claim. Based upon the advice of legal counsel, management records an estimate of the amount of ultimate expected loss, if any, for each. Events could occur that would cause the estimate of ultimate loss to differ materially in the near term.

Notes to Financial Statements September 30, 2022 and 2021

#### Self-insured Employee Health Care

Estimates related to the accrual for self-insured employee health claims are discussed in *Note 10*.

#### **Note 18: Related Party Transactions**

The Medical Center leases office space to New Iberia Surgery Center and Acadiana Diagnostic Imaging, LLC under operating leases with original expiration dates of November 30, 2021 and November 30, 2019, respectively. The leases have automatic month to month or annual renewal options upon expiration. The New Iberia Surgery Center and Acadiana Diagnostic Imaging lease space were renewed with extended expiration dates of November 30, 2026 and October 28, 2026, respectively. Amounts received under the lease agreements for during years ended September 30, 2022 and 2021, totaled approximately \$67,000 and \$74,000.

The Iberia Parish Council, by a resolution adopted in November 2006, provides the Medical Center use of a building in Jeanerette, Louisiana, for the purpose of providing rural health clinic services. The resolution originally expired October 31, 2018, but was renewed for an additional 3-year period through October 31, 2021. The lease was not extended after October 31, 2021 and the land and building were donated to the Medical Center at the end of the lease in fiscal 2022 with an acquisition value of donated capital gifts of \$175,000.

The Medical Center purchased diagnostic imaging services from Acadiana Diagnostic Imaging, LLC during 2022 and 2021 totaling approximately \$43,000 and \$104,000, respectively.

The Medical Center paid sales tax associated with cafeteria sales to the Parish for the years ended September 30, 2022 and 2021 totaling approximately \$15,000 and \$13,000, respectively.

#### Note 19: COVID-19 Pandemic and CARES Act Funding

On March 11, 2020, the World Health Organization designated the SARS-CoV-2 virus and the incidence of COVID-19 (COVID-19) as a global pandemic.

The extent of the COVID-19 pandemic's adverse effect on the Medical Center's operating results and financial condition has been and will continue to be driven by many factors, most of which are beyond the Medical Center's control and ability to forecast. Because of these and other uncertainties, the Medical Center cannot estimate the length or severity of the effect of the pandemic on the Medical Center's business.

Notes to Financial Statements September 30, 2022 and 2021

#### Provider Relief Funds

During the years ended September 30, 2022 and 2021 and 2020, the Medical Center received approximately \$1,275,000, \$100,000 and \$6,328,000 respectively, related to distributions from the CARES Act Provider Relief Fund. These distributions from the Provider Relief Fund are not subject to repayment, provided the Medical Center is able to attest to and comply with the terms and conditions of the funding, including demonstrating that the distributions received have been used for qualifying expenses or lost revenue attributable to COVID-19, as defined by the Department of Health and Human Services (HHS).

The Medical Center is accounting for such payments as conditional contributions. Payments are recognized as contribution revenue once the applicable terms and conditions required to retain the funds have been met. Based on an analysis of the compliance and reporting requirements of the Provider Relief Fund and the effect of the pandemic on the Medical Center's operating revenues and expenses through September 30, 2022 and 2021, the Medical Center recognized approximately \$1,325,000 and \$5,135,000, respectively, related to the Provider Relief Fund, and these payments are recorded as nonoperating revenue in the statements of revenues, expenses and changes in net position.

The Medical Center will continue to monitor compliance with the terms and conditions of the Provider Relief Fund and the effect of the pandemic on the Medical Center's revenues and expenses. The terms and conditions governing the Provider Relief Funds are complex and subject to interpretation and change. These funds are subject to government oversight, including potential audits, which could impact the Medical Center's ability to retain all of the distributions received.

#### Medicare Accelerated and Advanced Payment Program

During the year ended September 30, 2020, the Medical Center requested accelerated Medicare payments as provided for in the CARES Act, which allows for eligible health care facilities to request up to six months of advance Medicare payments for acute care hospitals or up to three months of advance Medicare payments for other health care providers. These amounts are expected to be recaptured by CMS according to the payback provisions.

The payback began one year after the issuance of the advance payment through a phased payback period approach. The first 11 months of the payback period will be at 25 percent of the remittance advice payment followed by a six-month payback period at 50 percent of the remittance advice payment. After 29 months, CMS expected any amount not paid back through the withhold amounts to be paid back in a lump sum or interest will begin to accrue subsequent to the 29 months at a rate of 4 percent.

Notes to Financial Statements September 30, 2022 and 2021

During the year ended September 30, 2020, the Medical Center received approximately \$14,885,000 from these accelerated Medicare payment requests. During the year ended September 30, 2022 and 2021, the Medical Center repaid approximately \$9,819,000 and \$3,084,000 of the accelerated Medicare payments to CMS. The unapplied amount of accelerated Medicare payment requests of approximately \$1,983,000 and \$11,802,000 as of September 30, 2022 and 2021, respectively, are recorded in Medicare Advance Payments in the accompanying balance sheets as a liability.

#### Note 20: Subsequent Events

On December 14, 2022, the Medical Center's main campus, including the medical office building, was damaged by a tornado. Certain clinic operations were paused temporarily for the week following the tornado as clinic buildings received significant damage. Management has filed an insurance claim with the property insurer and is working with them to assess the complete damages, which are anticipated to be covered under insurance coverage.

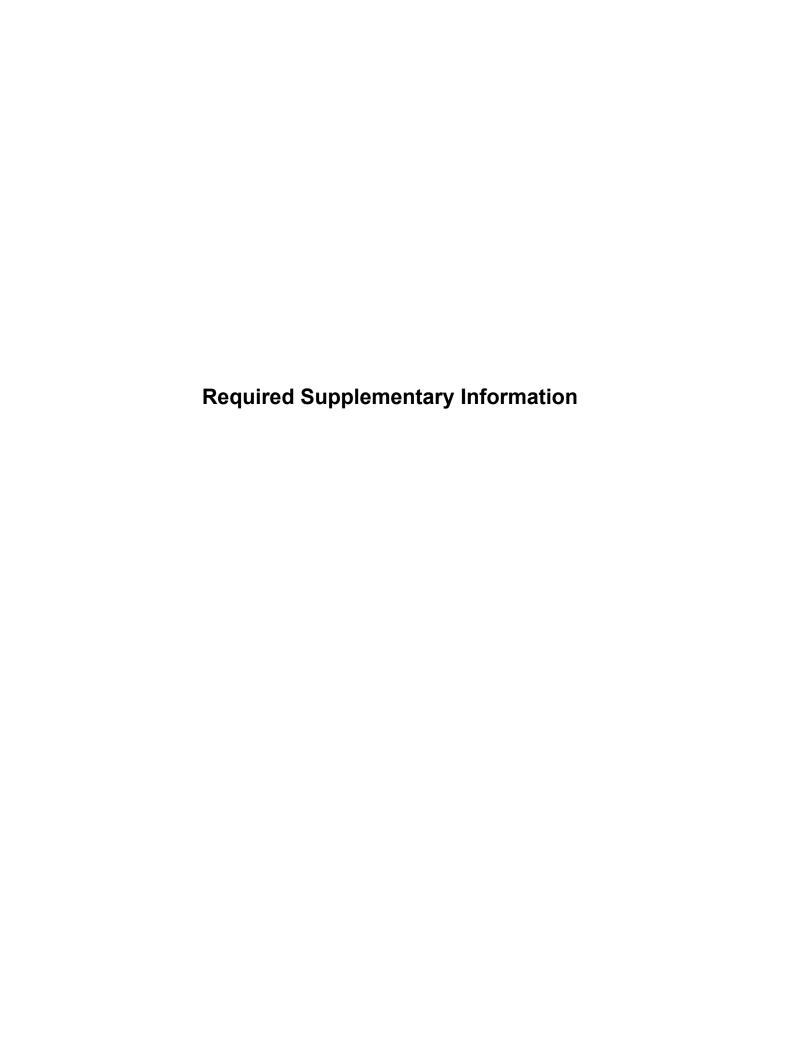

#### Note 21: Future Change in Accounting Principle

GASB Statement No. 96 – Subscription Based Information Technology Arrangements provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement: (1) defines a SBITA; (2) establishes that a SBITA results in subscription assets – an intangible asset – and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended. The requirements of this statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. The Medical Center is evaluating the effect the standard will have on the financial statements, however, the standard is expected to have a material effect on the financial statements due to the recognition of additional assets and liabilities for certain SBITAs.

GASB Statement No. 101 – Compensated Absences (GASB 101) updates the recognition and measurement guidance for compensated absences under a unified model. It defines compensated absences and requires that liabilities be recognized in financial statements prepared using the economic resources measurement focus for leave that has not been used and leave that has been used but not yet paid or settled. A liability for compensated absences should be accounted for and reported on a basis consistent with governmental fund accounting principles for financial statements prepared using the current financial resources measurement focus. GASB 101 amends the existing requirement to disclose the gross increases and decreases in a liability for compensated absences to allow governments to disclose only the net change in the liability (as long as they

Notes to Financial Statements September 30, 2022 and 2021

identify it as a net change). In addition, governments are no longer required to disclose which governmental funds typically have been used to liquidate the liability for compensated absences. The requirements of GASB 101 are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged. The changes adopted at transition to conform to the provisions of GASB 101, should be reported as a change in accounting principle in accordance with GASB Statement No. 100, *Accounting Changes and Error Corrections*, including the related display and disclosure requirements. The impact of applying the Statement has not been determined.

### Schedule of Changes in the Medical Center's Net Pension Liability (Asset) Last 10 Fiscal Years\*

	December 31,	December 31,	December 31,	December 31,	December 31,	December 31,	December 31,	December 31,

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* 

#### **Independent Auditor's Report**

Board of Commissioners
Hospital Service District No. 1
A Component Unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center)
New Iberia, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of Hospital Service District No. 1, a Component Unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (the Medical Center), which comprise the Medical Center's statement of financial position as of September 30, 2022, and the related statements revenues, expenses, and changes in net position and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 8, 2023, which contained an emphasis-of-matter paragraph regarding a change in accounting principle.

#### Report on Internal Control Over Financial Reporting.

In planning and performing our audit of the financial statements, we considered the Medical Center's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Medical Center's internal control. Accordingly, we do not express an opinion on the effectiveness of the Medical Center's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Medical Center's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FORVIS, LLP

**Independent Accountant's Report on Applying Agreed-Upon Procedures** 

For the Year Ended September 30, 2022

14241 Dallas Parkway, Suite 1100 / Dallas, TX 75254 **P** 972.702.8262 / **F** 972.702.0673 **forvis.com** 

### Independent Accountant's Report on Applying Agreed-Upon Procedures

Board of Commissioners and the Louisiana Legislative Auditor Hospital Service District No. 1 A Component Unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) New Iberia, Louisiana

We have performed the procedures enumerated in the attachment to this report on the control and compliance areas identified in the Louisiana Legislative Auditor's (LLA's) Statewide Agreed-Upon Procedures as of and for the year ended September 30, 2022. The management of Hospital Service District No. 1, a Component Unit of Iberia Parish, State of Louisiana d/b/a Iberia Medical Center (the Medical Center), is responsible for the control and compliance areas identified in the LLA's Statewide Agreed-Upon Procedures.

The Medical Center has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of testing the control and compliance areas identified in the LLA's Statewide Agreed-Upon Procedures as of and for the year ended September 30, 2022. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are described in the attachment to this report.

We were engaged by the Medical Center to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to, and did not, conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those control and compliance areas identified in the LLA's Statewide Agreed-Upon Procedures. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the Medical Center and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

Under Louisiana Revised Statue 24:513, this report is distributed by the LLA as a public document.

FORVIS, LLP

Dallas, Texas March 31, 2023

#### **Written Policies and Procedures**

#### <u>Procedures</u>

- Obtain and inspect the entity's written policies and procedures and observe whether they address each of the following categories and subcategories if applicable to public funds and the entity's operations:
  - a) **Budgeting,** including preparing, adopting, monitoring, and amending the budget.
  - b) **Purchasing,** including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the Public Bid Law; and (5) documentation required to be maintained for all bids and price quotes.
  - c) Disbursements, including processing, reviewing, and approving.
  - d) Receipts/Collections, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g., periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).
  - e) **Payroll/Personnel**, including (1) payroll processing, (2) reviewing and approving time and attendance records, including leave and overtime worked, and (3) approval process for employee(s) rate of pay or approval and maintenance of pay rate schedules.
  - f) **Contracting,** including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.
  - g) Credit Cards (and debit cards, fuel cards, P-Cards, if applicable), including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).
  - h) *Travel and Expense Reimbursement,* including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.

- i) *Ethics*, including (1) the prohibitions as defined in Louisiana Revised Statute (R.S.) 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) a requirement that documentation is maintained to demonstrate that all employees and officials were notified of any changes to the entity's ethics policy.
- j) **Debt Service,** including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.
- k) Information Technology Disaster Recovery/Business Continuity, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.
- Sexual Harassment, including R.S. 42:342-344 requirements for (1) agency responsibilities and prohibitions, (2) annual employee training, and (3) annual reporting.

#### **Findings**

The Medical Center does not have written policies and procedures for Step 1I(3), annual reporting for sexual harassment.

No other exceptions were identified in the performance of the procedures listed above.

#### Management's Response

Management has a robust Sexual Harassment policy that will be revised to include the annual reporting process.

#### **Board or Finance Committee**

#### **Procedures**

2. Obtain and inspect the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and:

- a) Observe that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.
- b) For those entities reporting on the governmental accounting model, observe whether the minutes referenced or included monthly budget-to-actual comparisons on the general fund, quarterly budget-to-actual, at a minimum, on proprietary funds, and semi-annual budget-to-actual, at a minimum, on all special revenue funds.
- c) For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.

#### Findings

The Medical Center did not have a negative unassigned fund balance in the prior year audit report. Accordingly, there are no items to report for Step 2c.

No exceptions were identified in the performance of the procedures listed above.

#### **Bank Reconciliations**

#### Procedures

- 3. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that:
  - a) Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated or electronically logged);
  - b) Bank reconciliations include evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and

c) Management has documentation reflecting it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.

#### <u>Findings</u>

The Medical Center did not have documentation reflecting research was being conducted for reconciling items, specifically outstanding checks, older than 12 months from the statement closing date for two bank accounts (Step 3c).

No other exceptions were identified in the performance of the procedures listed above.

#### Management's Response

The Medical Center investigates all reconciling items older than 12 months from the bank statement closing date as a standard process. Documentation of such research will be added to process expectations.

#### **Collections (Excluding Electronic Funds Transfers)**

#### Procedures

- 4. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).
- 5. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e., 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:
  - a) Employees responsible for cash collections do not share cash drawers/registers.
  - b) Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g., prenumbered receipts) to the deposit.

- c) Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.
- d) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions, are not responsible for collecting cash, unless another employee/official verifies the reconciliation.
- Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe the bond or insurance policy for theft was enforced during the fiscal period.
- 7. Randomly select two deposit dates for each of the 5 bank accounts selected for procedure #3 under "Bank Reconciliations" above (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). Obtain supporting documentation for each of the 10 deposits and:
  - a) Observe that receipts are sequentially pre-numbered.
  - b) Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
  - c) Trace the deposit slip total to the actual deposit per the bank statement.
  - d) Observe the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).
  - e) Trace the actual deposit per the bank statement to the general ledger.

#### **Findings**

In one of four locations selected for testing in Step 5a, two employees share the same cash drawer.

No other exceptions were identified in the performance of the procedures listed above.

#### Management's Response

At one collection location two employees share the same cash drawer. The Medical Center has compensating controls in place including a count of the cash drawer at the beginning and end of each shift by both employees, four times daily.

### Non-Payroll Disbursements (Excluding Card Purchases/Payments, Travel Reimbursements, and Petty Cash Purchases)

#### <u>Procedures</u>

- 8. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).
- 9. For each location selected under #8 above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:
  - a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.
  - b) At least two employees are involved in processing and approving payments to vendors.
  - c) The employee responsible for processing payments is prohibited from adding/modifying vendor files unless another employee is responsible for periodically reviewing changes to vendor files.
  - d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.
- 10. For each location selected under #8 above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction, and:

- a) Observe whether the disbursement matched the related original itemized invoice and supporting documentation indicates deliverables included on the invoice were received by the entity.
- b) Observe whether the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #9, as applicable.

#### <u>Findings</u>

The Medical Center did not have formal documentation of two employees involved in initiating and approving a purchase for one payment selected for testing for step 10b as the purchase was an emergency purchase and approved verbally.

No other exceptions were identified in the performance of the procedures listed above.

#### Management's Response

The Medical Center has implemented a process where any verbal purchase approval made in emergency circumstances will be followed up with specific emergency documentation including supervisor approval.

#### **Credit Cards/Debit Cards/Fuel Cards/P-Cards**

#### Procedures

- 11. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.
- 12. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement), obtain supporting documentation, and

- a) Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing (or electronically approved), by someone other than the authorized card holder.
- b) Observe that finance charges and late fees were not assessed on the selected statements.
- 13. Using the monthly statements or combined statements selected under #12 above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (i.e., each card should have 10 transactions subject to testing). For each transaction, observe it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and note whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

#### **Findings**

Documentation of formal review by other than the card holder of supporting documentation (Step 12a) for all charges on the monthly statement for one credit card was not available but all charges selected from such statement did have supporting documentation and approval prior to purchase.

No other exceptions were identified in the performance of the procedures listed above.

#### Management's Response

As noted in the finding, all credit card charges had appropriate supporting documentation and approval prior to purchase. Also, there is documentation of credit card statement review and reconciliation. Supporting documentation and the monthly statement are currently reviewed and reconciled by a position reporting to the card holder. The Medical Center will change this process so that the person reviewing and reconciling the charges on the monthly statement is the supervisor of the card holder.

#### <u>Travel and Travel-Related Expenses Reimbursements (Excluding Card Transactions)</u>

#### <u>Procedures</u>

- 14. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements, obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected:
  - a) If reimbursed using a per diem, observe the approved reimbursement rate is no more than those rates established either by the State of Louisiana or the U.S. General Services Administration (www.qsa.qov).
  - b) If reimbursed using actual costs, observe the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.
  - c) Observe each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by written policy (procedure #1h).
  - d) Observe each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

#### **Findings**

No exceptions were identified in the performance of the procedures listed above.

#### **Contracts**

#### Procedures

15. Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. Alternately, the practitioner may use an equivalent selection source, such as an active vendor list. Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, excluding the practitioner's contract, and:

- a) Observe whether the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law.
- b) Observe whether the contract was approved by the governing body/board, if required by policy or law (e.g., Lawrason Act, Home Rule Charter).
- c) If the contract was amended (e.g., change order), observe the original contract terms provided for such an amendment and that amendments were made in compliance with the contract terms (e.g., if approval is required for any amendment, was approval documented).
- d) Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe the invoice and related payment agreed to the terms and conditions of the contract.

#### **Findings**

No exceptions were identified in the performance of the procedures listed above.

#### Payroll and Personnel

#### **Procedures**

- 16. Obtain a listing of employees and officials employed during the fiscal period and management's representation that the listing is complete. Randomly select 5 employees or officials, obtain related paid salaries and personnel files, and agree paid salaries to authorized salaries/pay rates in the personnel files.
- 17.Randomly select one pay period during the fiscal period. For the 5 employees or officials selected under #16 above, obtain attendance records and leave documentation for the pay period, and:
  - a) Observe all selected employees or officials documented their daily attendance and leave (e.g., vacation, sick, compensatory). (Note: Generally, officials are not eligible to earn leave and do not document their attendance and leave. However, if the official is earning leave according to a policy and/or contract, the official should document his/her daily attendance and leave.)
  - b) Observe whether supervisors approved the attendance and leave of the selected employees or officials.

- c) Observe any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records.
- d) Observe the rate paid to the employees or officials agree to the authorized salary/pay rate found within the personnel file.
- 18. Obtain a listing of those employees or officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees or officials, obtain related documentation of the hours and pay rates used in management's termination payment calculations and the entity's policy on termination payments. Agree the hours to the employee or officials' cumulative leave records, agree the pay rates to the employee or officials' authorized pay rates in the employee or officials' personnel files, and agree the termination payment to entity policy.
- 19. Obtain management's representation that employer and employee portions of third-party payroll related amounts (e.g., payroll taxes, retirement contributions, health insurance premiums, garnishments, workers' compensation premiums, etc.) have been paid, and any associated forms have been filed, by required deadlines.

#### **Findings**

No exceptions were identified in the performance of the procedures listed above.

#### **Ethics**

#### Procedures

- 20.Using the 5 randomly selected employees/officials from procedure #16 under "Payroll and Personnel" above- obtain ethics documentation from management, and:
  - a) Observe whether the documentation demonstrates each employee/official completed one hour of ethics training during the fiscal period.
  - b) Observe whether the entity maintains documentation which demonstrates each employee and official were notified of any changes to the entity's ethics policy during the fiscal period, as applicable.

#### **Findings**

Management represents that the Medical Center did not make any changes to their ethics policy during the year ended September 30, 2022. Accordingly, Step 20b was not applicable.

No exceptions were identified in the performance of the procedures listed above.

#### **Debt Service**

#### **Procedures**

- 21.Obtain a listing of bonds/notes and other debt instruments issued during the fiscal period and management's representation that the listing is complete. Select all debt instruments on the listing, obtain supporting documentation, and observe State Bond Commission approval was obtained for each debt instrument issued.
- 22. Obtain a listing of bonds/notes outstanding at the end of the fiscal period and management's representation that the listing is complete. Randomly select one bond/note, inspect debt covenants, obtain supporting documentation for the reserve balance and payments, and agree actual reserve balances and payments to those required by debt covenants (including contingency funds, short-lived asset funds, or other funds required by the debt covenants).

#### Findings

No exceptions were identified in the performance of the procedures listed above.

#### **Fraud Notice**

#### <u>Procedures</u>

- 23. Obtain a listing of misappropriations of public funds and assets during the fiscal period and management's representation that the listing is complete. Select all misappropriations on the listing, obtain supporting documentation, and observe that the entity reported the misappropriation(s) to the legislative auditor and the Medical Center attorney of the Parish in which the entity is domiciled.
- 24. Observe the entity has posted on its premises and website, the notice required by R.S. 24:523.1 concerning the reporting of misappropriation, fraud, waste, or abuse of public funds.

#### **Findings**

Management represents that there were no misappropriations of public funds during the year ended September 30, 2022. Accordingly, Step 23 was not applicable.

The Medical Center did not post the notice required by R.S. 24:523.1 on its website.

#### Management's Response

During routine website maintenance the fraud notice was inadvertently removed from the website. The Medical Center's web developers are currently in the process of adding the fraud notice back to the website.

#### Information Technology Disaster Recovery/Business Continuity

#### Procedures

- 25. Perform the following procedures, verbally discuss the results with management, and report "We performed the procedure and discussed the results with management."
  - a) Obtain and inspect the entity's most recent documentation that it has backed up its critical data (if no written documentation, inquire of personnel responsible for backing up critical data) and observe that such backup occurred within the past week. If backups are stored on a physical medium (e.g., tapes, CDs), observe evidence that backups are encrypted before being transported.
  - b) Obtain and inspect the entity's most recent documentation that it has tested/verified that its backups can be restored (if no written documentation, inquire of personnel responsible for testing/verifying backup restoration) and observe evidence that the test/verification was successfully performed within the past 3 months.
  - c) Obtain a listing of the entity's computers currently in use and their related locations, and management's representation that the listing is complete. Randomly select 5 computers and observe while management demonstrates that the selected computers have current and active antivirus software and that the operating system and accounting system software in use are currently supported by the vendor.

#### **Findings**

We performed the procedures and discussed the results with management.

#### **Sexual Harassment**

#### **Procedures**

- 26. Using the 5 randomly selected employees/officials from procedure #16 under "Payroll and Personnel" above, obtain sexual harassment training documentation from management, and observe the documentation demonstrates each employee/official completed at least one hour of sexual harassment training during the calendar year.
- 27. Observe the entity has posted its sexual harassment policy and complaint procedure on its website (or in a conspicuous location on the entity's premises if the entity does not have a website).
- 28. Obtain the entity's annual sexual harassment report for the current fiscal period, observe that the report was dated on or before February 1, and observe it includes the applicable requirements of R.S. 42:344:
  - a) Number and percentage of public servants in the agency who have completed the training requirements;
  - b) Number of sexual harassment complaints received by the agency;
  - c) Number of complaints which resulted in a finding that sexual harassment occurred:
  - d) Number of complaints in which the finding of sexual harassment resulted in discipline or corrective action; and
  - e) Amount of time it took to resolve each complaint.

#### **Findings**

No exceptions were identified in the performance of Step 26.

The Medical Center did not post the sexual harassment policy and complaint procedure on its website.

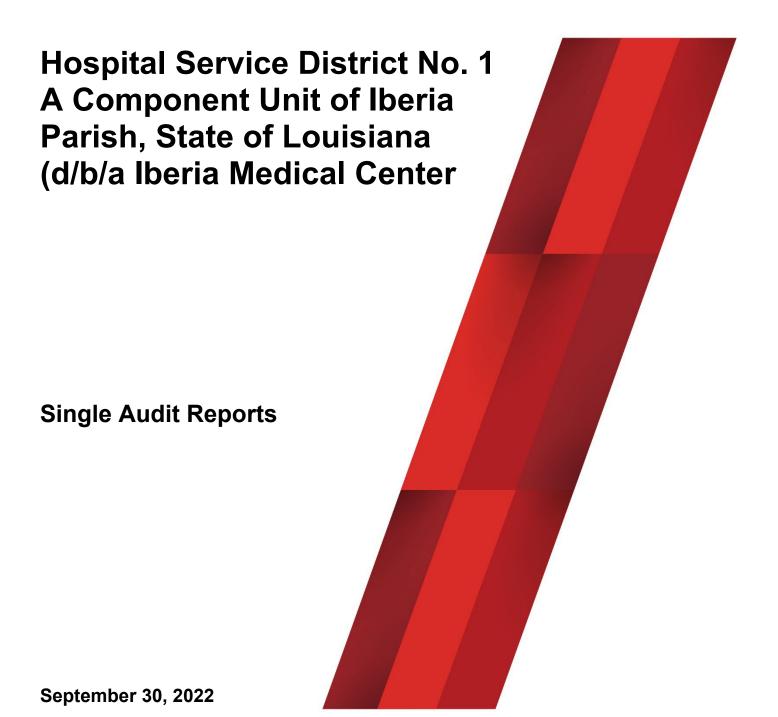

Management did not prepare a formal annual sexual harassment report for the current fiscal period.

# Hospital Service District No. 1 A Component Unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) Applying Agreed-Upon Procedures Year Ended September 30, 2022

#### Management's Response

The Medical Center posts its sexual harassment policy and complaint procedure on a public location internally for all employees to access. The Medical Center is in the process of posting these items to our external website.

The Medical Center did not have any sexual harassment findings in the year ended September 30, 2022 to report. A process is being added to report annually even in the event of no findings.

**September 30, 2022**

Federal Grantor/Pass Through Grantor/Program or Cluster Title U.S. Department of Health and Human Services	Federal Assistance Listing Number	Pass-Through Entity Identifying Number	Pas Throu Subrec	gh to	tal Federal penditures
Direct Programs:					
COVID-19 Provider Relief Fund and American Rescue Plan (ARP) Rural Distribution	93.498		\$	-	\$ 3,900,000
COVID-19 HRSA COVID-19 Testing for the Uninsured	93.461				6,944
Total Federal Award Expenditures:			\$		\$ 3,906,944

Notes to the Schedule of Expenditures of Federal Awards Year Ended September 30, 2022

#### Note 1: Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of Hospital Service District No.1, a component unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (Medical Center) under programs of the federal government for the year ended September 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Medical Center, it is not intended to and does not present the financial position, changes in net position or cash flows of the Medical Center.

The schedule includes the expenditures of the following entities:

- 1.) Hospital Service District No.1, a component unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (TIN 72-6014963)
- 2.) Iberia Medical Center Physician Practice Network (TIN 45-1555344)

#### Note 2: Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts, if any, shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

#### Note 3: Indirect Cost Rate

The Medical Center has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

#### Note 4: Federal Loan Programs

The Medical Center did not have any federal loan programs during the year ended September 30, 2022.

Notes to the Schedule of Expenditures of Federal Awards September 30, 2022

### Note 5: Personal Protective Equipment (PPE) (Unaudited)

For the year ended September 30, 2022, the Medical Center received \$0 in donated PPE in response to the COVID-19 pandemic.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

#### **Independent Auditor's Report**

Board of Commissioners
Hospital Service District No. 1
A Component Unit of Iberia Parish, State of Louisiana
(d/b/a Iberia Medical Center)
New Iberia, Louisiana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Hospital Service District No. 1, a Component Unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (Medical Center), which comprise the Medical Center's balance sheet as of September 30, 2022, and the related statements of revenues, expenses, and changes in net position and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated March 8, 2023, which contained an emphasis-of-matter paragraph regarding a change in accounting principle.

#### Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Medical Center's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Medical Center's internal control. Accordingly, we do not express an opinion on the effectiveness of the Medical Center's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

#### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Medical Center's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the consolidated financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Medical Center's internal control on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Medical Center's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### Report on Compliance for the Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

#### **Independent Auditor's Report**

Board of Commissioners
Hospital Service District No. 1
A Component Unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center)
New Iberia, Louisiana

#### Report on Compliance for the Major Federal Program

#### Opinion on the Major Federal Program

We have audited Hospital Service District No. 1, a Component Unit of Iberia Parish, State of Louisiana (d/b/a Iberia Medical Center) (Medical Center)'s compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on the Medical Center's major federal program for the year ended September 30, 2022. The Medical Center's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Medical Center complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended September 30, 2022.

#### Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the "Auditor's Responsibilities for the Audit of Compliance" section of our report.

We are required to be independent of the Medical Center and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the Medical Center's compliance with the compliance requirements referred to above.

#### Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Medical Center's federal programs. Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Medical Center's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Medical Center's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and
  design and perform audit procedures responsive to those risks. Such procedures include
  examining, on a test basis, evidence regarding the Medical Center's compliance with the
  compliance requirements referred to above and performing such other procedures as we
  considered necessary in the circumstances.
- Obtain an understanding of the Medical Center's internal control over compliance relevant to
  the audit in order to design audit procedures that are appropriate in the circumstances and to
  test and report on internal control over compliance in accordance with the Uniform Guidance,
  but not for the purpose of expressing an opinion on the effectiveness of the Medical Center's
  internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2022-01. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the Medical Center's response to the noncompliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. The Medical Center's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

#### **Report on Internal Control Over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the "Auditor's Responsibilities for the Audit of Compliance" section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the Medical Center, as of and for the year ended September 30, 2022, and have issued our report thereon dated March 8, 2023, and the related noted to the financial statements, which comprise the Medical Center's basic financial statements, which contained an emphasis-of-matter paragraph regarding a change in accounting principle. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

FORVIS, LLP Dallas, Texas March 31, 2023

### Schedule of Findings and Questioned Costs Year Ended September 30, 2022

### Section I – Summary of Auditor's Results

#### Financial Statements

1.	Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP:			
	☐ Unmodified ☐ Qualified ☐ Adverse ☐ ☐	Disclaimer		
2.	Internal control over financial reporting:			
	Significant deficiency(ies) identified?	Yes	None reported	
	Material weakness(es) identified?	Yes	⊠ No	
3.	Noncompliance material to the financial statements noted?	☐ Yes	⊠ No	
Fede	ral Awards			
4.	Internal control over major federal awards program:			
	Significant deficiency(ies) identified?	Yes	None reported	
	Material weakness(es) identified?	☐ Yes	⊠ No	
5.	Type of auditor's report issued on compliance for the major federal program:			
	☐ Unmodified ☐ Qualified ☐ Adverse ☐ ☐	Disclaimer		
6.	Any audit findings disclosed that are required to be reported by 2 CFR 200.516(a)?	⊠ Yes	□ No	

Schedule of Findings and Questioned Costs (Continued)
Year Ended September 30, 2022

7.	Identification of the major federal program:			
	Cluster/Program	Assistance Listing Number		
CO	VID-19 Provider Relief Fund	93.498		
8.	Dollar threshold used to distinguish between Type A and Type B programs: \$750,0	00.		
9.	Auditee qualified as a low-risk auditee?	☑ No		

Schedule of Findings and Questioned Costs (Continued)
Year Ended September 30, 2022

**Section II – Financial Statement Findings** 

Reference	
Number	Finding

No matters are reportable.

Schedule of Findings and Questioned Costs (Continued)
Year Ended September 30, 2022

#### Section III - Federal Award Findings and Questioned Costs

Reference Number	Finding
2022-001	COVID-19 Provider Relief Fund Assistance Listing Number 93.498 U.S. Department of Health and Human Services
	<ul> <li>Criteria or specific requirement – Activities Allowed/Unallowed and Allowable</li> <li>Costs and Cost Principles (45 CFR 75.403) and Reporting (45 CFR 75.342)</li> </ul>
	<b>Condition</b> – The Medical Center is required to prepare and submit Period 2 Provider Relief Fund reporting. This report is to be prepared using accurate financial information and submitted by the deadline established. Reported use of the funds should be supported by underlying accounting records.
	<b>Questioned costs</b> – \$2,018 – Calculated as the error value of the incremental costs included on the Period 2 report for which the incorrect underlying contract labor rate was utilized in the calculation.
	Context – The Period 2 Provider Relief Fund report was tested. The Medical Center utilized incremental costs of contract labor as a component of their reported expenditures. When testing the underlying calculations of incremental costs, errors in the calculations were identified whereby certain incorrect contract labor rates were utilized in the calculation, thus resulting in errors in the reported expenditures.
	<i>Effect</i> – Reported expenses are calculated incorrectly. Expenses may not be allowable.
	Cause – The Medical Center did not correctly calculate incremental costs.
	Identification as a repeat finding, if applicable – Not a repeat finding.
	<b>Recommendation</b> – Policies and procedures over federal grant reporting should be modified to ensure incremental costs are prepared using accurate information.

Views of responsible officials and planned corrective actions – See attached corrective

action plan for the Medical Center's response to finding.

#### Corrective Action Plan for Finding 2022-001

We are in receipt of the finding required to be reported by Uniform Guidance, regarding questioned costs and less than material instance of noncompliance with respect to Activities Allowed/Unallowed, Allowable Costs/Cost Principles and Reporting. Amy Langlinais, Chief Financial Officer, Iberia medical Center agrees with the finding and is responsible for ensuring the corrective action plan is followed. We have taken corrective action to test completeness and accuracy of the expenses reported when consolidating source data for submission of federal grant reporting. All future PRF Reporting subsequent to this audit, will be reviewed to ensure correct rates are used in the calculation of incremental costs.

This corrective action plan will be implemented by October 1, 2023.

amy Langlinais

Chief Financial Officer Iberia Medical Center
