### **Using This Financial Report**

This report contains a series of financial statements. The statement of net position on page 8 and the statement of activities on page 9 provide information on all activities of the District as a whole. These statements include all assets, liabilities, revenues and expenses using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. Accrual of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The accompanying financial statements present information only on the funds maintained by the District.

All of the District's expenses incurred for the provision of fire services are reported in a governmental fund. This fund is reported using the accrual basis of accounting, which measures revenues when earned and expenses when incurred.

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of Mamou Fire Protection District No. 1 (the “District”) have been prepared in conformity with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies of the District are described below.

Financial Reporting Entity

Mamou Fire Protection District No. 1 of Evangeline Parish was created by the Evangeline Parish Police Jury, as authorized by Louisiana Revised Statutes 40:1491-1493. The Fire District is governed by a five member board of commissioners appointed by the Evangeline Parish Police Jury. The fire district is authorized to construct, maintain, and improve the system of fire protection within the district.

Basis of Presentation

The District’s basic financial statements consist of the government-wide statements and the fund financial statements. The statements are prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units.

Government-wide financial statements –

The government-wide financial statements include the statement of net positions and the statement of activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

In the government-wide statement of net position, the governmental activities are reported on a full accrual, economic basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District’s net position is reported in two parts – net investment in capital assets and unrestricted.

The government-wide statement of activities reports both the gross and net cost of each of the District’s functions. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, etc.). The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grant while the capital grants include capital-specific grants.

The District reports all direct expenses by function in the government-wide statements of activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is included as a direct expense. The net cost (by function) is normally covered by general revenue (property taxes, intergovernmental revenues, investment earnings, etc.).

MAMOU FIRE PROTECTION DISTRICT NO. 1  
Evangeline Parish, Louisiana

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

Fund financial statements –

The fund financial statements provide information about the District's funds. The emphasis of the fund financial statements is on major governmental funds. The district has only one fund, its General Fund. The General Fund is the District's general operating fund and it is used to account for all of the financial resources of the District.

Basis of Accounting

Government-wide financial statements –

The government-wide financial statements report using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of when the related cash flows takes place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the year for which they are levied. Revenue from grants and donations is recognized in the fiscal year in which eligibility requirements have been satisfied.

Fund financial statements –

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they become measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities for the current period. Property taxes are recognized in the year they are billed. Revenues from grants and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. All other receivables collected within 60 days after year-end are considered available and recognized as revenue of the current year.

Expenditures are recorded when the related fund liability is incurred. General capital asset acquisitions are reported as expenditures in governmental funds.

MAMOU FIRE PROTECTION DISTRICT NO. 1  
Evangeline Parish, Louisiana

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fixed Assets

The accounting treatment over property, plant and equipment (fixed assets) depends on whether the assets are reported in the government-wide or fund financial statements.

Government-wide statements-

In the government-wide financial statements, fixed assets are accounted for as capital assets. All fixed assets are valued at cost or estimated historical cost. Donated fixed assets are recorded at their fair value at the date of donation. The District maintains a threshold level of \$500 or more for capitalizing capital assets.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Depreciation is calculated on the straight-line method over the following estimated useful lives:

Buildings and improvements	20 – 40 years
Fire trucks	15 years
Equipment	7 – 15 years

Fund financial statements –

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

Long-Term Debt

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest are reported as expenditures.

Use of Estimates

The preparation of the financial statements in conformity with general accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Equity classifications

Government-wide statements -

Equity is classified as net assets and displayed in three components:

MAMOU FIRE PROTECTION DISTRICT NO. 1  
Evangeline Parish, Louisiana

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- a. Net Invested in capital assets – consists of capital assets (including restricted capital assets), net of accumulated depreciation and reduced by the outstanding balances of any bonds, certificates of indebtedness, paving certificates, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted net assets – Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets – All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Fund financial statements –

Government fund equity is classified as fund balance. GASB Statement 54, “Fund Balance Reporting and Governmental Fund Type Definitions.” This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government’s fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance – amounts that are not in a spendable form (such as inventory) or are required to be maintained intact;
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance – amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance – amounts that are available for any purpose; positive amounts are reported only in the general fund.

MAMOU FIRE PROTECTION DISTRICT NO. 1  
Evangeline Parish, Louisiana

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

When fund balance resources are available for a specific purpose in multiple classifications, the District will generally use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed. However, the District’s management reserves the right to selectively spend unassigned resources first and to defer the use of the other classified funds.

Change in Accounting Principles and Restatement

As of December 31, 2022, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 87, Leases. GASB Statement No. 87 enhances the relevance and consistency of information of the government’s leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources. These changes were incorporated in the District’s 2022 financial statements and had an effect on the beginning net position of the Governmental Activities. The implementation of GASB Statement No. 87 had the following effect on net position as reported December 31, 2021:

	Governmental Activities
Net position December 31, 2021	\$ 1,407,370
Adjustments:	
Net book value - leased assets	14,250
Lease liability	(14,523)
Restated net position December 31, 2021	\$ 1,407,097

As of December 31, 2022, the District recognized \$10,687 in net book value for the intangible right to use and a lease liability of \$11,102 for various equipment leased prior to January 1, 2022.

NOTE 2 CASH AND INTEREST-BEARING DEPOSITS

Under state laws, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The District may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At December 31, 2022, the District has cash and interest-bearing deposits (book balances) totaling \$339,506.

These deposits are stated at cost, which approximates market. Under state laws, the deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

MAMOU FIRE PROTECTION DISTRICT NO. 1  
Evangeline Parish, Louisiana

Notes to Financial Statements

NOTE 2 CASH AND INTEREST-BEARING DEPOSITS (Continued)

Pledged securities in Category 3 include uninsured or unregistered investments for which the securities are held by the broker or dealer, or by its trust department or agent, but not in the District's name. Even though the pledged securities are considered uncollateralized (Category 3), Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the District that the fiscal agent has failed to pay deposited funds upon demand.

The District's deposit balances (bank balances) of \$363,806 with financial institutions at December 31, 2022, were fully secured by FDIC insurance and letters of credit with FHL Bank of Dallas.

MAMOU FIRE PROTECTION DISTRICT NO. 1  
Evangeline Parish, Louisiana

Schedule of Findings and  
Planned Corrective Action  
Year Ended December 31, 2022

2022-001 Inadequate Segregation of Duties

Condition:

The District did not have adequate segregation of functions within the accounting system.

Criteria:

SAS109, Understanding the Entity and its Environment and Assessing the Risks of Material Misstatement, AU314.43 defines internal control as follows:

“Internal control is a process, affected by those charged with governance, management, and other personnel, designed to provide reasonable assurance about the achievement of objectives with regard to reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.”

Additionally, Statements on Standards for Attestation Engagements (SSAE) AT501.03 states:

“An entity’s internal control over financial reporting includes those policies and procedures that pertain to an entity’s ability to record, process, summarize, and report financial data consistent with the assertions embodied in either annual financial statements or interim financial statements, or both.”

Cause:

The cause of the condition is the fact that the District does not have a sufficient number of staff performing administrative and financial duties so as to provide adequate segregation of accounting and financial duties.

Effect:

Failure to adequately segregate accounting and financial functions increases the risk that errors and/or irregularities including fraud and/or defalcations may occur and not be prevented and/or detected.

Recommendation:

Considering the cost/benefit implications to the District, all efforts should be made to achieve the highest level of segregation of duties possible.

Views of Responsible Officials and Corrective Action Plan:

The District has provided as much segregation of duties as is feasibly possible at this time.
