Annual Fiscal Report (AFR)

2. Obtain the financial statements from the AFR submitted to the Division of Administration's (DOA) Office of Statewide Reporting and Accounting Policy for the current and prior periods. Perform analytical procedures comparing current and prior period amounts, by line item. Report any variances of 10% or greater for line items that are 10% or more of the respective total assets/deferred outflows of resources, liabilities/deferred inflows of resources, net position, revenues, or expenses, and management's explanation of the variance.

Variances meeting the stated criteria, and management's explanations for these variances, are as follows:

- *Pension related deferred outflows increased by \$ 73,647 due to changes in expected and actual return on plan assets and changes in proportion as calculated by LASERS' actuaries*
- *Pension liability increased by \$ 137,264 due to changes in deferred inflows and deferred outflows related to pensions as calculated by LASERS' actuaries*

- *Administrative expenses decreased by \$ 295,804 primarily due to a pension benefit resulting from changes in deferred inflows and deferred outflows related to pensions as calculated by LASERS' actuaries*

Board Meetings/Minutes

3. Obtain and inspect the board minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and:
 - a) Observe that the board met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, or other equivalent document.
 - b) Observe that the minutes referenced or included monthly budget-to-actual comparisons.
 - c) Access the entity's online information included in the DOA's boards and commissions database (<https://wwwcfprd.doa.louisiana.gov/boardsandcommissions/home.cfm>) and observe that the entity submitted board meeting minutes for all meetings during the fiscal period.

Board minutes for the period under examination were obtained and inspected. No exceptions were noted.

Bank Reconciliations

4. Obtain a listing of bank accounts for the fiscal period from management and management's representation that the listing is complete. For each of the bank accounts in the listing provided by management, obtain bank statements and reconciliations for all months in the fiscal period and observe that:
 - a) Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated, electronically logged);
 - b) Bank reconciliations include evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged);
 - c) Management has documentation reflecting that it has researched reconciling items that have been outstanding for more than 6 months at the statement closing date; and
 - d) The reconciled balance for the final month of the fiscal period agrees to the general ledger.

For the period under examination, the entity had two checking accounts, one of which is used for operations and one of which is an investment account. Bank statements and reconciliations for all months for both accounts during the fiscal year were obtained. Bank reconciliations are prepared by the outside accountant and reviewed by the Executive Director and the Board treasurer each month. At June 30, 2020, no reconciling items were outstanding six months or more. No exceptions were noted.

Receipts/Collections

5. Obtain and inspect written policies and procedures relating to employees job duties (if no written policies or procedures, inquire of employees about their job duties), and observe that job duties for collections are properly segregated such that:
 - a) Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g., pre-numbered receipts or license applications received) to the deposit.
 - b) Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.
 - c) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source are not responsible for collecting cash, unless another employee verifies the reconciliation.

Written policies and procedures relating to receipts/collections were obtained. Most of the entity's collections are via electronic payments directly to its bank account, but some payments are received via mail or via in-person collections at the Board office. Any payments received by mail or on-site payment are locked in the Administrator's desk until deposited. Manual deposits are generally made monthly, depending on volume.

6. Inquire of management that all employees who have access to cash are covered by a bond or insurance policy for theft.

The entity does accept cash payments for license applications, renewals, or other payments. Employees who handle cash are covered by an insurance policy for theft/crime per the Office of Risk Management.

7. Randomly select 5 deposit dates for each of the bank accounts (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). Alternately, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc. Obtain supporting documentation for each of the 5 deposits for each bank account and:
 - a) Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
 - b) Trace the deposit slip total to the actual deposit per the bank statement.
 - c) Observe that the deposit was made within one business day of collection (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100).
 - d) Trace the actual deposit per the bank statement to the general ledger.

Five dates during the fiscal year were randomly selected. Since the entity only makes manual deposits monthly, the corresponding deposit from each month was examined. The entity did not maintain sufficient documentation to support the date of receipt of payments for each deposit examined. The deposit slip for each transaction selected was traced to the bank statements and total deposits per the bank statements were traced to the general ledger. No other exception were noted.

8. Obtain and inspect written policies and procedures (if no written policies and procedures, inquire to management) and observe that there is a process performed to determine completeness of all collections, including electronic transfers, for each revenue source (e.g. periodic confirmation with outside parties, reconciliation of receipt number sequences, reasonableness of cash collections based on licenses issued) by a person who is not responsible for collections.

Management regularly compares collections with expected results, consisting primarily of license application and renewals.

9. For licensing boards, obtain a list of initial and renewal licenses granted during the period from management and management's representation that the listing is complete. Randomly select 10 individual applicants from the listing and obtain the supporting documentation (e.g. application, copy of check) from management and:
 - a) Observe that the fee paid for license was the appropriate fee based on the applicable fee schedule established by the board or statute.
 - b) If a penalty was assessed (e.g. late fee), observe that the penalty was assessed and collected in accordance with the board's policies.

Ten individual license applications and renewals were randomly selected for the period under examination. All applications and renewals were traced to the entity's online license database. No exceptions were noted.

10. For levee districts, obtain independent confirmation of the tax amounts received from the appropriate parish Sheriff's offices. Observe that the confirmed amount agrees to the amount deposited by levee district.

Not applicable

Non-Payroll Disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases)

11. Obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employees job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:
 - a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.
 - b) At least two employees are involved in processing and approving payments to vendors.
 - c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.
 - d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.

Most of the entity's non-payroll disbursements as applicable to this procedure are initiated by the Administrator, or by another staff member and approved by the Administrator. Payments are processed and signed by the Executive Director.

12. Obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements which are addressed in separate sections below) and obtain management's representation that the population is complete. Randomly select 5 disbursements, obtain supporting documentation (e.g. purchase requisition, invoices, receipts, receiving slips) for each transaction and:
 - a) Observe that the disbursement matched the related original invoice/billing statement
 - b) Observe that the disbursement documentation included evidence (e.g. initial/date, electronic logging) of segregation of duties tested under #11, as applicable.

Five non-payroll disbursements as defined above were randomly selected. For each of the five disbursements, an original invoice was obtained and examined. No exceptions were noted.

Credit Cards/Debit Cards/Fuel Cards/P-Cards

13. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete. Randomly select 2 monthly statements or combined statements for each card (for a debit card, randomly select 2 monthly bank statements), obtain supporting documentation, and:
 - a) Observe that there is evidence that the monthly statement or combined statement and supporting documentation (e.g. original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) was reviewed and approved, in writing (or electronically approved), by someone other than the authorized card holder.
 - b) Observe that finance charges and late fees were not assessed on the selected statements.

For the period under examination, the entity utilized one credit card, which is maintained by the Administrator. Two monthly statements were randomly selected. For each of the monthly statements examined, review and approval of the charges thereon was made by the Board treasurer on the statements. No finance charges or late fees were assessed on the selected statements.

14. Obtain supporting documentation for all transactions included on the monthly statements or combined statements selected in #13 above. For each transaction, observe that it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and note whether management had a compensating control to address missing receipts, such as a “missing receipt statement” that is subject to increased scrutiny.

For both of the monthly statements selected, original receipts were attached and business purpose was identified or readily apparent. No exceptions were noted for the above procedures.

Travel and Travel-Related Expense Reimbursements (excluding card transactions)

15. Obtain from management a listing of all travel and travel-related expense reimbursements paid to employees and board members during the fiscal period and management’s representation that the listing or general ledger is complete. Randomly select 5 reimbursements, obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected:
 - a) If reimbursed using a per diem, agree the reimbursement rate to those rates established either by the State of Louisiana in PPM49 (<https://www.doa.la.gov/pages/osp/travel/TravelPolicy.aspx>) or the U.S. General Services Administration (www.gsa.gov).
 - b) If reimbursed using actual costs, observe that the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.
 - c) Observe that each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by written policy (procedure #1h).
 - d) Observe that each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

Five disbursements as noted were randomly selected and supporting documentation for each was examined. No exceptions to these procedures were noted.

Contracts

16. Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. *Alternately, the practitioner may use an equivalent selection source, such as an active vendor list.* Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, excluding the practitioner's contract, and:
- Observe that the contract was bid in accordance with the Louisiana Procurement Code or the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law.
 - Observe that the contract was approved by the governing body/board, if required by policy.
 - If the contract was amended (e.g., change order), observe that the original contract terms provided for such an amendment.
 - Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe that the invoice and related payment agreed to the terms and conditions of the contract.

For the period under examination, five contracts as defined above were randomly selected. Contracts for four of the five vendors selected were examined. The remaining vendor did not have a contract, as they are used for court reporting services on an irregular, "as needed" basis. None of the contracts were amended during the fiscal year. One payment under each contract was randomly selected as noted. No exceptions were noted.

Payroll and Personnel

17. Obtain a listing of employees employed during the fiscal period, and management's representation that the listing is complete. Randomly select 5 employees (or select all employees if less than 5), obtain related paid salaries and personnel files, and agree paid salaries to authorized salaries/pay rates in the personnel files.

For the period under examination, the entity had only three employees. Compensation for each was traced to authorized salaries as noted in their personnel files. No exceptions were noted.

18. Randomly select 2 pay periods during the fiscal period. For the employees selected under #17 above, obtain attendance records and leave documentation for the pay period, and:
- Observe that all selected employees documented their daily attendance and leave (e.g., vacation, sick, compensatory).
 - Observe that supervisors approved the attendance and leave of the selected employees.
 - Observe that any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records.

For each of the two pay periods selected, time sheets were provided for each employee. Time sheets for employees was approved by the Administrator, and time sheets and payroll checks for the Administrator were approved by the Board Treasurer. Leave accrued or taken during the pay periods were calculated and tracked by the entity's outside payroll service provider. No exceptions were noted.

19. Obtain a listing of those employees that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select 2 employees, obtain related documentation of the hours and pay rates used in management's termination payment calculations, agree the hours to the employees' cumulative leave records, and agree the pay rates to the employees' authorized pay rates in the employees' personnel files.

For the period of examination, no employees terminated or resigned.

20. Obtain management's representation that employer and employee portions of payroll taxes, retirement contributions, health insurance premiums, and workers' compensation premiums have been paid, and associated forms have been filed, by required deadlines.

Obtained management's representation that all applicable payroll taxes, retirement contributions, health insurance premiums, and workers' compensation premiums were paid and all applicable tax returns have been filed as required.

 - a) Observe that the documentation demonstrates each employee completed one hour of ethics training during the fiscal period.
 - b) Observe that the documentation demonstrates each employee attested through signature verification that he or she has read the entity's ethics policy during the fiscal period.

Ethics documentation for all employees was obtained and examined. No exceptions were noted.

22. Obtain a listing of board members from management. Randomly select 5 board members and observe documentation to demonstrate that required annual ethics training was completed.

Documentation of required annual ethics training for each randomly selected Board member was obtained. No exceptions were noted.

The adopted budget was obtained. No amendments to the budget were made. Adoption and approval of the budget was noted in applicable Board minutes. No exceptions were noted.

24. Compare the total revenues and total expenditures of the final budget to actual total revenues and total expenditures on the financial statements or AFR. Report variances of 10% or greater.

Total revenues and total expenditures of the final budget were compared to total revenues and total expenses on the financial statements. For the fiscal year, budgeted revenues were \$ 666,052 and actual revenues were \$ 760,995, a difference of \$ 94,943 or 14.3%. Access the online database and obtain the budget information for the current fiscal period. Observe that the budget information contained in the database agrees to the budget adopted by the entity's board.
