

Annual Comprehensive Financial Report

For the years ended December 31, 2021 and 2020

**SEWERAGE AND WATER BOARD
OF NEW ORLEANS, LOUISIANA**

COVER: May 6, 2021 was a monumental day for the Sewerage and Water Board of New Orleans (SWBNO), our city and our State. Together with Mayor Cantrell, we hosted the President of the United States of America, Joe Biden, and showed him firsthand the dire need for investment in our infrastructure. We also showed him the good work that our men and women do each day with the limited resources that we have. He was genuinely impressed with the hard work that we have accomplished and in awe of the craftsmanship that it takes to maintain and operate our equipment. President Biden saw New Orleans' needs and he saw the investments we can make together. As public servants, our work is never done. We will continue to work toward a culture of replacement and not deferment. The work we have been doing over the past years has prepared us for this moment and positioned us well to partner with the federal government in funding our massive infrastructure needs.

**THE SEWERAGE AND WATER BOARD
OF NEW ORLEANS, LOUISIANA**

**Annual Comprehensive Financial Report
For The Years Ended
December 31, 2021 and 2020**

**Prepared By:
Finance Department**

Vision

To be a model utility that earns and holds the trust and confidence of our customers, community, and partners through reliable and sustainable water services.

Mission

Our team of experts serves the people of New Orleans and improves their quality of life by reliably and affordably providing safe drinking water; removing wastewater for safe return to the environment; and draining stormwater to protect our community.

Core Values

We Are:

Customer
Focused

Safety
Minded

Accountable

Transparent
& Honest

INTRODUCTORY SECTION

VISION: As part of our 5-year Strategic Plan, we identified a new vision for our utility. The Sewerage and Water Board of New Orleans' vision is to be a model utility that earns and holds the trust and confidence of our customers, community, and partners through reliable and sustainable water services.

TO: The Honorable LaToya Cantrell, President, and
Members of the Sewerage and Water Board of New Orleans
625 St. Joseph Street
New Orleans, LA 70165

DATE: June 29, 2022

We respectfully submit the enclosed Annual Comprehensive Financial Report (ACFR) for the Sewerage and Water Board of New Orleans (SWBNO) for the years ended December 31, 2021, and 2020. This yearly report provides our Board of Directors, investors, customers, and the public at large with the utility's latest, most complete financial portrait.

We believe that the data, as presented, is accurate in all material respects. This report is designed to fairly present SWBNO's financial position and operation results for the SWBNO Enterprise and Pension Trust Funds. Necessary disclosures are included for the reader to understand SWBNO's financial activities.

SWBNO retained Postlethwaite & Netterville (P&N), a professional accounting corporation, to serve as its independent auditor. P&N has issued an unmodified opinion on SWBNO's financial statements for the years ended December 31, 2021, and 2020. The independent auditors' report is located at the front of the Financial Section in this report.

THE ANNUAL COMPREHENSIVE FINANCIAL REPORT

The ACFR is organized into four sections:

Introductory Section: This section includes this letter of transmittal, as well as various governance, leadership, and organizational charts. This transmittal letter is designed to complement the Management's Discussion and Analysis (MD&A) (see Financial Section) and should be read in conjunction with it.

Financial Section: This section includes the Independent Auditors' Report, the MD&A, basic financial statements, accompanying notes, and required supplementary information (RSI). The MD&A is required by the Governmental Accounting Standards Board (GASB) and provides an overview and analysis of the basic financial statements.

Board of Directors: LaToya Cantrell – President, Tamika Duplessis – President Pro Tem, Freddie King – Councilmember, Joseph Peychaud, Robin Barnes, Ralph Johnson, Alejandra Guzman, Lynes Sloss, Maurice Sholas, Janet Howard, Nichelle Taylor

Statistical Section: This section presents graphs and details demonstrating financial trends as well as revenue and debt information as context for understanding SWBNO's overall financial health and operating capacity.

Supplemental Section: This section includes additional historical schedules.

The basic financial statements were prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP) and audited by independent, certified public accountants retained by SWBNO.

Pursuant to LA Revised Statutes § 24:513 (A), SWBNO is required to have its financial position examined and audited each year by licensed, certified public accountants.

SWBNO's management is responsible for the reliability of the information in this report, based upon a comprehensive internal control framework established for this purpose. The internal control framework is designed to give reasonable assurance that the cost of internal controls should not exceed the benefits derived from the controls and that the financial statements are free from material misstatements. The internal control over financial reporting is a process designed by, or under the supervision of, SWBNO's Executive Director, Chief Financial Officer, and Finance Director and effected by the Board of Directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting in accordance with GAAP.

PROFILE OF SEWERAGE AND WATER BOARD OF NEW ORLEANS

SWBNO is a public utility that owns, maintains, and operates New Orleans' vast networks of water and sewer mains, as well as the components of the city's drainage system that are 36" or greater in diameter (primarily drainage canals).

SWBNO meets the criteria for classification as a "stand-alone entity" as described in GASB Statement No. 61. The reporting entity includes the Enterprise Fund and the Pension Trust Fund. The Enterprise Fund comprises three (3) independent systems: Water, Sewerage, and Drainage.

SWBNO was founded in 1899 by state law and merged with the New Orleans Drainage Commission in 1903 to eventually assume its present-day mission: To serve the people of New Orleans and improve their quality of life by providing safe drinking water, removing wastewater for safe return to the environment, and draining stormwater to protect the community. Its team of experts does this reliably, continuously, and at a reasonable cost. SWBNO's vision is to earn and hold the trust and confidence of our customers and community for reliable and sustainable water services and to be a model utility in the water industry.

Board of Directors: LaToya Cantrell – President, Tamika Duplessis – President Pro Tem, Freddie King – Councilmember, Joseph Peychaud, Robin Barnes, Ralph Johnson, Alejandra Guzman, Lynes Sloss, Maurice Sholas, Janet Howard, Nichelle Taylor

Today, SWBNO serves 364 square miles of the City of New Orleans and provides drainage services to approximately 2,550 acres of neighboring Jefferson Parish. Raw water is sourced from the Mississippi River for treatment. The utility operates a drainage system of approximately 280 miles of open and underground canals and 24 pumping stations that house 120 drainage pumps. The drainage and water systems are powered by a combination of modern, 60-Hertz electricity and self-generated, 25-Hertz power that dates to the early 20th century. SWBNO is under a federal Consent Decree to overhaul the New Orleans sewerage system. This effort is scheduled to be completed in 2025. An independent contractor manages sewer operations.

This utility operates independently of the city government under the oversight of its 11-member Board of Directors. Effective June 11, 2021, under state law, this governing body consists of:

- The Mayor of the City of New Orleans, serving as president
- A member of the City Council's Public Works, Sanitation and Environmental Committee or his/her designee
- Two members of the city's debt manager, the Board of Liquidation, City Debt
- Seven citizen members appointed by the mayor with the consent of the City Council

Citizen members must represent New Orleans' five City Council districts; two must be considered consumer advocates. The Board of Directors is responsible for, amongst other things, passing resolutions, adopting the budget, appointing committees, and hiring the Board's Executive Director and General Superintendent. The Executive Director is responsible for carrying out the policies and resolutions of the Board and overseeing day-to-day operations.

The water and sewerage systems, and the overall administration of SWBNO, are primarily funded through services rates, which the New Orleans City Council approves. Maintenance, operations, and improvements to the drainage system are primarily financed through three ad valorem taxes set at rates of three-(3) mill, six-(6) mill, and nine-(9) mill, which expire in 2046, 2027, and 2032, respectively. The SWBNO employs approximately 1,300 people and manages a \$275-million pension trust fund.

ECONOMIC GROWTH AND OUTLOOK

As one of the last major ports before the Mississippi River empties into the Gulf of Mexico, New Orleans is a central hub for commerce and an economic engine for the broader Gulf Coast region. It is also a large nexus for rail and truck routes. The latest mid-year estimates (July 2021) revealed the City of New Orleans experienced a slight decrease in population to 376,971 (*U.S. Census Bureau, Population Division*).

New Orleans has a diverse economy, with the main sectors being energy, advanced manufacturing, international trade, healthcare, and tourism. It is the home to internationally known universities and

Board of Directors: LaToya Cantrell – President, Tamika Duplessis – President Pro Tem, Freddie King – Councilmember, Joseph Peychaud, Robin Barnes, Ralph Johnson, Alejandra Guzman, Lynes Sloss, Maurice Sholas, Janet Howard, Nichelle Taylor

hospitals. Some of the largest companies in New Orleans include Ochsner Health System, Tulane University, Woodward Design + Build, Entergy Corporation, Hancock Whitney Corporation, Boh Bros Construction, and Superior Energy Services, Inc.

The New Orleans metropolitan area unemployment rate (4.2%) was slightly lower than the State of Louisiana's rate (4.4%) and higher than the national rate (3.9%) at the end of 2022, according to the US Bureau of Labor Statistics, due to the high volume of hospitality and tourism jobs impacted by COVID-19.

The median household income in the City of New Orleans is \$41,604 compared to \$49,469 for the State of Louisiana and \$62,843 for the United States, with almost 25% of residents falling below the federal poverty line.

MANAGEMENT INITIATIVES

In 2021, the Utility initiated a strategic planning process to serve as a catalyst for organizational change and to guide the next phase of rebuilding the organization for the future. The new 5-year Strategic Plan was adopted in early 2022 and has 6 key focus areas – Financial Stability, Workforce Development and Enrichment, Customer Service Excellence and Stakeholder Engagement, Infrastructure Resiliency and Reliability, and Organizational and Operational Improvement. Along with challenges brought on by a global pandemic, SWBNO faced critical challenges with our power generation systems and Hurricane Ida, which made landfall on August 29, 2021, the 16th anniversary of Hurricane Katrina. As a result of Hurricane Ida, the EOC was activated for eight days. While there were no major interruptions in SWBNO services, backup power resources were required when Entergy power failed. The EBWWTP was flooded, and there was a significant need to rely on emergency measures to maintain services. The estimated cost of Hurricane Ida's damages is approximately \$23 million. Immediately, plans were set in motion to work with local, state, and federal partners to minimize the impacts of the Category 5 hurricane on our ratepayers. That difficult hurricane season highlighted the need to establish more resilient power sources and self-generated backup power.

SWBNO continues to aggressively execute its plan for a new West Power Complex—made possible by the City of New Orleans—that will house a dedicated substation and provide additional, more reliable power sources. The initial phase of the West Power Complex is planned to be completed in the first quarter of 2024.

In 2021, SWBNO leadership sought creative financing solutions for New Orleans' long-existing infrastructure challenges and realized Fair Share recurring monthly funds from the 2019 agreement with the City of New Orleans, the State of Louisiana, and the hospitality industry. Due to the global pandemic's

Board of Directors: LaToya Cantrell – President, Tamika Duplessis – President Pro Tem, Freddie King – Councilmember, Joseph Peychaud, Robin Barnes, Ralph Johnson, Alejandra Guzman, Lynes Sloss, Maurice Sholas, Janet Howard, Nichelle Taylor

impact on the hospitality industry, the actual funds received were lower in 2021 and 2020 at \$8.7 million and \$6.6 million, respectively, but have improved in recent months as recovery progresses.

In November 2021, SWBNO closed a major federal water infrastructure loan to fund the full rehabilitation of New Orleans' sewer system as part of our Consent Decree. Under the Water Infrastructure Financing and Innovation Act (WIFIA) program, the U.S. Environmental Protection Agency (EPA) chose SWBNO to apply for a low-interest, long-term loan planned to yield up to \$275 million. This loan will facilitate the 2025 federal Consent Decree deadline to restore the sewer system completely. The below-market interest rate and flexible repayment terms with our WIFIA loan will save the ratepayers significant interest costs over the repayment term, which runs through 2057.

FINANCIAL PLANNING

SWBNO is conducting a comprehensive financial plan to determine revenue requirements for all financial needs and assess the affordability of rates, with the goal of investing in the infrastructure needed to improve our services to the community while recognizing the real financial struggles that exist in the City of New Orleans. Our financial planning provides for required funding of our operating and maintenance costs needed to operate the systems daily, debt services costs required, cash financed capital costs, externally financed capital costs, and other sources of revenue, which come from the generosity of local, state, and federal partners. As stated above, SWBNO also receives revenues from the three-(3) mill, six-(6) mill, and nine-(9) mill ad valorem taxes, which are restricted exclusively to the drainage system.

In March 2021, as a part of our financial plan to reduce borrowing costs and generate immediate savings on debt service costs, SWBNO issued \$372 million in refunding bonds for most of the 2014 and 2015 Sewer and Water General Revenue Bonds. The proceeds were used to refund outstanding principle and created net present value savings of \$36 million over the expected term of the 2021 refunding bonds.

GENERAL OPERATIONS

The change in net position for the year ended December 31, 2021, was an increase of approximately \$134.5 million, as opposed to an approximately \$216.3 million increase for the year ended December 31, 2020, primarily due to lower capital contributions in 2021. The Board's total operating revenues increased by 2.5% to approximately \$275.3 million, primarily from increases in consumption and billed usage. Total non-operating revenue decreased by 22.0% to approximately \$50.9 million due primarily to 1) the adoption of a new accounting pronouncement resulting in interest expense no longer being capitalized and 2) one-time bond issuance costs related to the bond refunding done for the majority of the 2014 and 2015 revenue bonds in March 2021.

BUDGETARY CONTROL

SWBNO maintains internal budgetary control by preparing and monitoring an annual operating and capital budget for the Water, Sewerage, and Drainage funds. The statement of revenues, expenses, and

Board of Directors: LaToya Cantrell – President, Tamika Duplessis – President Pro Tem, Freddie King – Councilmember, Joseph Peychaud, Robin Barnes, Ralph Johnson, Alejandra Guzman, Lynes Sloss, Maurice Sholas, Janet Howard, Nichelle Taylor

changes in net position; statement of net position; and statement of cash flows are prepared for each system. Also, monthly budget reports are provided to assist each department-level manager in fiscal decision-making.

The 2021 approved operating budget was \$317.9 million, which was 1% lower than the prior year. The Board has \$517.7 million in outstanding senior lien debt: \$2.0 million in Drainage Bonds, \$294.9 million in Sewer Revenue Bonds, and \$222.7 million in Water Revenue Bonds. SWBNO has been issued an “A” and an “A-” rating from Standard & Poor’s Ratings Services (S&P) for the sewer system and water system, respectively, and a “BBB+” for the water system and sewer system from the Fitch Ratings. In addition, the S&P and Fitch Ratings for Special Tax Bonds are “AA-” and “A,” respectively.

CAPITAL IMPROVEMENT PROGRAM

SWBNO's 10-year capital improvement program factors resources and expenses to repair, rehabilitate, and replace water, sewer, and drainage capital assets. The program allows the utility to compare the impact of future stability over the next ten years. This includes capital improvements to infrastructure for completing projects related to Hurricane Katrina repairs, ongoing rehabilitation, handling anticipated growth, maintaining compliance with regulatory requirements, technology changes, and bringing the system into the 21st century.

At the close of 2021, there were approximately 26 active contracts for capital projects in addition to a major joint project with the City - Joint Infrastructure Recovery Roads Program (JIIR). There are also active emergency contracts, which are those not anticipated in the capital improvement program, including:

2021 – Sewer Pump Station D (SPS D): Following heavy showers in August 2021, a leak was detected in the 60-inch-diameter sewer force main crossing the Peoples Avenue Canal, necessitating the use of a temporary pumping operation and emergency declaration on August 18, 2021, to make emergency repairs and replacements to stabilize the situation.

2021 – D Pump at DPS 12: DPS 12 went out of service on August 2, 2021. A subsequent investigation by SWBNO's Facility Maintenance department identified the cause of the outage as a failed pump bearing, requiring immediate repairs to resume pumping capabilities at DPS 12 to protect the Lakeview Basin served by the station. The work was completed by the end of December 2021.

2021 – MV Bow Trident: In March 2021, a vessel on the Mississippi River collided with elements of the SWBNO river intake system. Damage assessments were undertaken, and cost estimates to repair the facilities were completed in 2021, in conjunction with other repairs needed due to a previous incident in 2016. SWBNO's ability to pump river water for treatment as potable water was ultimately not impacted. Still, repairs to the facilities are needed and are anticipated to be advertised for construction in 2022.

Board of Directors: LaToya Cantrell – President, Tamika Duplessis – President Pro Tem, Freddie King – Councilmember, Joseph Peychaud, Robin Barnes, Ralph Johnson, Alejandra Guzman, Lynes Sloss, Maurice Sholas, Janet Howard, Nichelle Taylor

2020 – Turbine 4 Outage: On October 24, 2020, Turbine 4, which had been serving as the primary turbine for daily operations and rain events, tripped offline unexpectedly. The General Superintendent declared an extreme emergency to determine and address the cause of the event, prevent further damage, make all necessary repairs, and, where necessary, repair or improve other system components to fortify the remaining 25-Hz power generation and distribution facilities. Repair contracts for the turbine were subsequently issued in early 2021, and work was completed by the end of summer 2021.

As of December 31, 2021, the Board's budget for its ten-year capital improvements program totaled approximately \$2.5 billion and included \$532 million in budget authority for the year ending December 31, 2022, for the following activities:

- Continue Joint Infrastructure Recovery Road in conjunction with the City of New Orleans Department of Public Works
- Comply with regulatory requirements under the Sewer Consent Decree
- Rehabilitate and upgrade facilities at the Carrollton Water Plant
- Participate in drainage system improvements in coordination with SELA Program
- Continue the Smart Metering Infrastructure project

Due to certain regulatory and legislative changes, additional capital improvements will probably be required. Future capital improvement program expenditures may require the issuance of additional debt depending on the amount and timing of expenditures.

WATER SYSTEM MAJOR INITIATIVES

Below is a list of the major water system initiatives completed in 2021 and those that are still in progress:

CARROLLTON WATER PURIFICATION PLANT

- Design of valves, actuators, and controls at Sycamore Filter Gallery in progress. Construction to begin in 2022
- Design of new sludge line to the Mississippi River in progress
- Design and construction for the demolition of basins C7 and C8 ongoing to allow the repurposed site to house the West Power Complex
- Design of improvements to Claiborne Ave. Pumping, Panola, and High Lift Stations complete. Construction of Claiborne Pumping Station in progress and scheduled for completion in Q4 2022. Construction of Panola and High Lift Stations to begin in 2022
- Design of the repairs to the fender system at New River and Oak St. Raw Water Intake Structures in progress
- Design of a new facility for the consolidated bulk storage and feed of water purification chemicals at the Carrollton Water Plant complete.

Board of Directors: LaToya Cantrell – President, Tamika Duplessis – President Pro Tem, Freddie King – Councilmember, Joseph Peychaud, Robin Barnes, Ralph Johnson, Alejandra Guzman, Lynes Sloss, Maurice Sholas, Janet Howard, Nichelle Taylor

ALGIERS WATER PURIFICATION PLANT

- Design of water storage tank mixing in progress
- Improvements to the Algiers Water Plant in progress, including replacement of Clarifier 1; improvements to Clarifiers 2, 3, and 4; a new fluorosilicic acid storage and feed system; and SCADA system complete
- Staff design of filter media replacement and repair to valves and actuators in progress

WATER DISTRIBUTION SYSTEM

- Ongoing coordination with the Department of Public Works to rehabilitate water mains in association with the Joint Infrastructure Recovery Roads Program (JIRR) and other roadway rehabilitation projects
- Ongoing management of 22 engineering consultants designing water main replacement projects for approximately 62 neighborhoods

WATER PUMPING AND POWER

- Replacement of various 25-Hz power distribution cables in progress
- Design of new VFDs and motors for distribution pumps in progress

SEWER SYSTEM INITIATIVES

Below is a list of the major sewer system initiatives completed in 2021 and those that are still in progress:

SEWERAGE PUMPING STATIONS

- SPS A design of structural improvements complete. Construction ongoing
- Planning for a replacement station at SPS 1 has begun. Bids for the demolition of SWBNO-owned houses adjacent to the existing station solicited and to be completed in 2022
- Planning for expansion of SPS 14 ongoing
- Design of replacement pumps and motors for multiple SPS ongoing
- Planning for the purchase of portable generators for deployment to the sewerage pumping stations ongoing

SEWER COLLECTION SYSTEM

- Ongoing coordination with the Department of Public Works to rehabilitate sewer mains in association with the Joint Infrastructure Recovery Roads Program (JIRR) and other roadway rehabilitation projects
- Construction within the South Shore Basin currently 100% complete
- Construction within the Mid-City Basin currently 50% complete
- Construction within the Carrollton Basin currently 30% complete

WASTEWATER TREATMENT PLANTS

- WBWWTP – Cosmetic rehab of Trickling Filter #1 complete

Board of Directors: LaToya Cantrell – President, Tamika Duplessis – President Pro Tem, Freddie King – Councilmember, Joseph Peychaud, Robin Barnes, Ralph Johnson, Alejandra Guzman, Lynes Sloss, Maurice Sholas, Janet Howard, Nichelle Taylor

- WBWWTP – Bar Screen #4 Mounting Base replacement complete
- WBWWTP – Recycle Pump #3 motor rebuild complete
- EBWWTP – Installation of the sludge dryer complete. Startup in progress
- EBWWTP – Repair of Clarifier #6's underground RAS pipeline complete
- EBWWTP – Installation of Train 4 Mixers complete
- EBWWTP – Replacement of #6 Grit Screw complete
- EBWWTP – Replacement and installation of Bar Screen #6 complete
- EBWWTP – Coating of MLSS pipe to Clarifier #8 in progress
- EBWWTP – Replacement of River Sampling Station in progress
- EBWWTP – Purchase and installation of RAS rotating assemblies in progress
- EBWWTP – FBI Incinerator Refractory and Shell rehab in progress
- EBWWTP – Clarifier #2 Baffle Plates in progress

DRAINAGE SYSTEM INITIATIVES

Below is a list of the major drainage system initiatives completed in 2021 and those that are still in progress:

DRAINAGE PUMPING STATIONS

- Construction of anti-siphon mechanisms at Drainage Pumping Station 4 complete
- Additional SCADA instrumentation purchase and installation in progress
- Design of Discharge Pump Station #13 in Algiers in progress (USACE project)
- Construction of anti-siphon mechanisms at Drainage Pumping Station 12 ongoing

CANALS

- Construction of Florida Ave. Canal Phase IV in progress
- Construction of General DeGaulle Canal improvements from Shirley Dr. to Holiday Dr. in progress
- Design of Donner Canal from Algiers Outfall Canal to Pump Station #13 in progress
- Design of General DeGaulle Canal from Behrman Place to Algiers Outfall Canal in progress

OTHER FINANCIAL INFORMATION AND SUBSEQUENT EVENTS

SWBNO is pursuing several priority projects in 2022:

SMART METERING INFRASTRUCTURE

As of the submission of this letter, SWBNO has selected a vendor for our smart metering replacement project, which will span approximately 36 months, to update all our meters to automated meter reading technology. Smart metering will benefit SWBNO and its ratepayers in numerous ways, including generating real-time, accurate billing information, reducing estimated readings and re-billing costs, reducing billing errors and disputes, preventing tampering and theft, and promoting energy conservation and customer savings with time-of-use consumption. Additional benefits of the program include customer-facing alerts for high usage and conservation efforts, acoustic leak detection, and district meter monitoring. The project

Board of Directors: LaToya Cantrell – President, Tamika Duplessis – President Pro Tem, Freddie King – Councilmember, Joseph Peychaud, Robin Barnes, Ralph Johnson, Alejandra Guzman, Lynes Sloss, Maurice Sholas, Janet Howard, Nichelle Taylor

will be funded in part with Fair Share dollars as well as additional savings realized from our 2021 Bond Refunding.

WEST POWER COMPLEX

The West Power Complex, part of the overall SWBNO Power Master Plan, ensures a more reliable source of power for SWBNO to better serve customers and make a transformative change to address the critical need for reliable power. This large capital program consists of multiple professional services, equipment procurement, and construction contracts. The current cost estimate for the entire program, including the new Entergy substation, is over \$200 million. In 2021, SWBNO made significant progress with the site preparation activities required for other construction work to begin. SWBNO worked with consulting engineers to begin detailed design of the other components of the facility, such as the equipment foundations and new Operations Center, and managed ongoing projects for site preparation and manufacturing of Static Frequency Changer 1. Funding for the program comes from a combination of FEMA, HUD, and State Capital Outlay sources. Additionally, a grant application for the FEMA BRIC application was submitted for the FY2021 funding cycle. While all the necessary funding has not yet been secured for the multi-year capital project, it is excellently supported by the City of New Orleans and multiple other stakeholders. The team will continue to pursue all the necessary funding sources to ensure this critical project remains a priority.

ACKNOWLEDGEMENTS

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of SWBNO, particularly the Finance and Accounting departments.

We also acknowledge all members of the Board of Directors for their unfailing support, leadership, and professionalism in managing SWBNO's finances. Of course, we extended our great appreciation to the President of the Board, Mayor Latoya Cantrell, Governor John Bel Edwards, and our hospitality partners, who played a vital role in obtaining much-needed funding for SWBNO as we look toward rebuilding a strong infrastructure for the citizens and visitors of New Orleans.

Because of the dedication of its employees, SWBNO received the Government Finance Officers Association of the United States and Canada (GFOA) Certificate of Achievement for Excellence in Financial Reporting for past submissions of its AFR for thirty-seven (37) of the past forty (40) years. This Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparing state and local government financial reports. To receive a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized ACFR that conforms to program standards. Such an ACFR must satisfy both generally accepted accounting principles and applicable legal requirements. The award is valid for one (1) year only. We believe the current report meets the Certificate of Achievement Program requirements, and we will submit this ACFR to the GFOA.

Board of Directors: LaToya Cantrell – President, Tamika Duplessis – President Pro Tem, Freddie King – Councilmember, Joseph Peychaud, Robin Barnes, Ralph Johnson, Alejandra Guzman, Lynes Sloss, Maurice Sholas, Janet Howard, Nichelle Taylor

SWBNO hereby submits its Annual Comprehensive Financial Report for the fiscal year ended December 31, 2021.

Respectfully submitted,

Sewerage & Water Board of New Orleans

2021 BOARD OF DIRECTORS

MAYOR LATOYA CANTREL

President

Mayor of the City of New Orleans, Ms. Cantrell serves as the President of the Board of Directors. Elected to the City Council in 2012, she began her term as President of the SWBNO Board once she was sworn in as the first female Mayor of New Orleans on May 7, 2018—just in time to celebrate the City's tricentennial!

TAMIKA DUPLESSIS, PH.D.

President Pro-Tem

Representing District E, Dr. Duplessis is the Executive Dean at Delgado Community College.

JAY H. BANKS

Mr. Banks was selected to represent the City Council on the Board of Directors in 2019. He is the former Director of the Dryades UMCA and serves as councilman for District B.

ROBIN BARNES

Representing District B, Ms. Barnes retired in 2019 as the Executive Vice President and Chief Operating Officer of Greater New Orleans, Inc.

ALEJANDRA GUZMAN

Representing as a Consumer / Community Advocate, Ms. Guzman has served as the Vice President of Performance Management and Strategy at the New Orleans Business Alliance since 2016.

JANET HOWARD

Representing District B, Ms. Howard previously served as President and CEO of the Bureau of Governmental Research and is currently principal of Howard Policy Solutions LLC.

RALPH JOHNSON

Representing the Board of Liquidation, Mr. Johnson is the Chief Financial Officer and Vice President of Business and Administrative Affairs at Dillard University.

JOSEPH PEYCHAUD

Representing as a Consumer/Community Advocate, Mr. Peychaud is a lifelong resident of New Orleans and currently serves as Principal of the Waldorf School of New Orleans.

LYNES R. "POCO" SLOSS

As a representative of the Board of Liquidation, Mr. Sloss is the President and CEO of Bellwether Technology Corporation and served on the New Orleans City Planning Commission for ten years.

MAURICE G. SHOLAS, M.D., PH.D.

Representing District C, he is the principal for Sholas Medical Consulting, LLC.

FINANCIAL SECTION

Spotlight on **Financial Stability**

The Sewer System Evaluation and Rehabilitation Program (SSERP) was initiated in 1998 with the goal of addressing the rehabilitation and repair needs of the City's sewer collection system. In August of 2005, SSERP was interrupted by Hurricane Katrina. While much of New Orleans has recovered, the population and associated tax base is still below pre-Katrina levels. This loss of revenue has created challenges for maintaining water, sewer, and drainage services because maintenance and operations costs did not see a similar decline. Despite the many challenges, SWBNO has made great strides to comply with the Modified Consent Decree, systematically improving collection system infrastructure. The FEMA-funded hurricane recovery repairs to the sewer collection system, also known as the Emergency Sewer System Assessment (ESSA) projects, are delivered as part of SSERP.

In 2021, SWBNO closed on a \$275 Million WIFIA loan that allows the utility to better serve the people of New Orleans by meeting the remaining obligations of the Consent Decree and protecting the environment. With this 35-year loan, and SWBNO revenues pledged for repayment, an injection of capital will move SSERP forward immediately. EPA estimates SWBNO will save \$100 million in financing costs over the life of the WIFIA loan versus traditional bond financing. This program is an excellent example of blending previously unused Federal Funding sources, disaster recovery funds, and system funds to efficiently deliver critical projects for SWBNO's customers.

FINANCIAL STABILITY: We are committed to practicing strong fiscal stewardship and ensuring timely revenue recovery while balancing affordability with investments necessary to deliver critical services.

INDEPENDENT AUDITORS' REPORT

Members of the Board of Directors
Sewerage and Water Board of New Orleans

Opinions

We have audited the accompanying financial statements of the Sewerage and Water Board of New Orleans (the "Board"), comprised of its business type activities and its fiduciary fund, as of and for the years ended December 31, 2021 and 2020, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the fiduciary fund of the Board, as of December 31, 2021 and 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Board, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages II-5 through II-16 and the schedules presented on pages II-70 through II-72 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Required Supplementary Information (continued)

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board's basic financial statements. Schedules 1 through 7 on pages II-73 to II-80 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules 1 through 7 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report.

The other information comprises the Introductory section on pages I-1 to I-17, Statistical section on pages III-0 to III-24, and Supplemental section, pages IV-1 to IV-32, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 29, 2022, on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters.

Other Reporting Required by *Government Auditing Standards* (continued)

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and compliance.

SEWERAGE & WATER BOARD OF NEW ORLEANS, LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS YEARS ENDED DECEMBER 31, 2021 AND 2020

The following Management Discussion and Analysis provides an overview of the financial performance of the Sewerage & Water Board of New Orleans (the Board) for the fiscal years that ended December 31, 2021 and 2020. We encourage readers to consider the information presented here in conjunction with the additional information that we have furnished in our letter of transmittal. The Board's financial statements follow this section.

FINANCIAL HIGHLIGHTS

The Board adopted a financial plan for 2011 through 2020 that resulted in improved debt service coverage, increased funding for operations and maintenance, and additional funding for the capital improvement programs. This financial plan was updated in 2016 to cover 2017 through 2020 and in 2021 the Board began a new comprehensive plan through fiscal 2027.

Recovery from Hurricane Katrina, the resulting flooding and an ongoing consent decree program continued to have significant impacts on operations and capital activities during 2021. Repairs and replacements to the water, sewerage, and drainage systems, and rehabilitation and replacement of buildings will continue through 2025.

On August 5, 2017, New Orleans experienced a significant storm event resulting in localized flooding. In response, an investment was made in the emergency repair and upgrade to various aspects of the drainage system that have continued since this date and highlighted modernization needs.

In May 2019, in an effort to replenish funding for the Board, Mayor LaToya Cantrell led the charge to obtain \$50 million in one-time funding to support various operations and capital needs of the Board. During 2019, the Board received \$28 million in one-time funding through the Fair Share program. In addition, the Mayor was able to secure ongoing funding under House Bills 522, 617 & 43 for additional recurring tax revenue of which the Board received \$6 million in 2020 through the Fair Share program.

In 2020, the Board issued sewerage service revenue bonds, series 2020A and 2020B providing \$75 million of capital funding for the consent decree program and then in 2021 closed on a major federal water infrastructure loan to fund the remaining full rehabilitation of New Orleans' sewer system.

Additionally in 2021, the Board continued progress on a comprehensive Power program to stabilize and modernize primary and back up sources of power via a new substation and additional power generation equipment. Funding sources include State Capital Outlay funding which was utilized to substantially complete the site preparation work for the new West Power Complex as well as HUD funding, City of New Orleans funding, FEMA Hazard mitigation funding and system funds to cover professional design services, equipment purchases and integration components of the West Power Complex.

SEWERAGE & WATER BOARD OF NEW ORLEANS, LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS YEARS ENDED DECEMBER 31, 2021 AND 2020

Enterprise Fund

The major highlights in the Board's enterprise fund were as follows:

2021

- The SWBNO's total assets and deferred outflows totaled \$4.04 billion in 2021 compared to \$3.9 billion in 2020, an increase of 4.4%, while net position totaled \$2.7 billion in 2021 compared to \$2.6 billion in 2020, an increase of 5.2%.
- Operating revenues increased by approximately \$6.7 million from 2020 to 2021, to a total of approximately \$275.3 million for the year ended December 31, 2021.
- Total operating expenses increased in 2021 by \$16.8 million, or 5.8% compared to 2020.
- For the year ended December 31, 2021, the Board had total outstanding senior lien municipal debt of \$516.9 million, which includes \$2.0 million in Drainage bonds, \$292.1 million in Sewer Revenue Bonds, and \$222.8 million in Water Revenue Bonds.
- The Board's net additions to construction in progress approximated \$136.9 million.
- The Southeast Louisiana (SELA) drainage system project, a major upgrade by the Corps of Engineers, resulted in additions of approximately \$16.2 million to work in progress during the year.
- Federal Emergency Management Agency (FEMA) Disaster Public Assistance grants revenues totaled approximately \$72.1 million and Hazard Mitigation grants totaled approximately \$14.3 million.

2020

- The SWBNO's total assets and deferred outflows totaled \$3.9 billion in 2020 compared to \$3.6 billion in 2019, an increase of 8.8%, while net position totaled \$2.6 billion in 2020 compared to \$2.4 billion in 2019, an increase of 9.2%.
- Operating revenues increased by approximately \$5.7 million from 2019 to 2020, to a total of approximately \$268.6 million for the year ended December 31, 2020.
- Total operating expenses decreased in 2020 by \$10.2million, or 3.4% compared to 2019.
- Total assets and deferred outflows increased \$313.9 million, or 8.8% from 2019 to 2020.
- For the year ended December 31, 2020, the Board had total outstanding senior lien municipal debt of \$462.3 million, which includes \$3.9 million in Drainage bonds, \$268.5 million in Sewer Revenue Bonds, and \$189.9 million in Water Revenue Bonds.
- The Board's net additions to construction in progress approximated \$71.8 million.
- The Southeast Louisiana (SELA) drainage system project, a major upgrade by the Corps of Engineers, resulted in additions of approximately \$82.2 million to work in progress during the year.
- Federal Emergency Management Agency (FEMA) Disaster Public Assistance grants revenues totaled approximately \$28.1 million and Hazard Mitigation grants totaled approximately \$7.4 million.

SEWERAGE & WATER BOARD OF NEW ORLEANS, LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS YEARS ENDED DECEMBER 31, 2021 AND 2020

OVERVIEW OF THE FINANCIAL STATEMENTS

This financial report consists of five parts: management's discussion and analysis (this section), the financial statements, the notes to the financial statements, required supplementary information, and other supplementary information.

Government-wide Financial Statements – Enterprise Fund

The Board's principal activities of providing water, sewerage, and drainage services are accounted for in a single proprietary fund – the enterprise fund. Enterprise funds are used to report business activities. Since the enterprise fund is the Board's single activity, its financial statements are presented as the Board's government-wide financial statements.

The financial statements provide both long-term and short-term information about the Board's overall financial status. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information and other supplementary information that further explain and support the information in the financial statements.

The Board's financial statements are prepared on an accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. Under this basis of accounting, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred, and depreciation of property, plant, and equipment is recognized in the Statements of Revenues, Expenses, and Changes in Net Position. All assets and liabilities associated with the operation of the Board are included in the Statements of Net Position.

The Statement of Net Position presents financial information on all of the Board's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the Board is improving or deteriorating.

SEWERAGE & WATER BOARD OF NEW ORLEANS, LOUISIANA

**MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2021 AND 2020**

FINANCIAL ANALYSIS OF THE BOARD

ENTERPRISE FUND

2021 Net Position

The Board's total assets and deferred outflows at December 31, 2021 were approximately \$4.0 billion, a 4.4% increase from December 31, 2020 (see Table A-1).

Table A-1				
Sewerage & Water Board of New Orleans				
Net Position				
	2021	2020	Increase (Decrease)	Increase (Decrease)
Current unrestricted assets	\$ 213,110,163	\$ 170,112,872	\$ 42,997,291	25.3%
Restricted assets	140,683,315	149,357,298	(8,673,983)	-5.8%
Property, plant, and equipment - net	3,596,394,508	3,473,319,986	123,074,522	3.5%
Other assets	13,940,444	13,283,529	656,915	4.9%
Total assets	3,964,128,430	3,806,073,685	158,054,745	4.2%
Deferred outflows of resources	75,600,403	64,869,698	10,730,705	16.5%
Total deferred outflows of resources	75,600,403	64,869,698	10,730,705	16.5%
Total assets and deferred outflows	\$ 4,039,728,833	\$ 3,870,943,383	\$ 168,785,450	4.4%
Current liabilities	\$ 170,625,896	\$ 148,597,924	\$ 22,027,972	14.8%
Long-term liabilities	1,125,397,594	1,125,165,612	231,982	0.0%
Total liabilities	1,296,023,490	1,273,763,536	22,259,954	1.7%
Deferred inflows of resources	36,407,062	24,572,402	11,834,660	48.2%
Total deferred inflows of resources	36,407,062	24,572,402	11,834,660	48.2%
Net position:				
Net investment in capital assets	2,967,492,611	2,856,741,717	110,750,894	3.9%
Restricted	25,799,973	44,544,164	(18,744,191)	-42.1%
Unrestricted	(285,994,303)	(328,678,436)	42,684,133	-13.0%
Total net position	2,707,298,281	2,572,607,445	134,690,836	5.2%
Total liabilities, deferred inflows, and net position	\$ 4,039,728,833	\$ 3,870,943,383	\$ 168,785,450	4.4%

The increase in total assets and deferred outflows of \$168.8 million resulted primarily due to a net increase in net property, plant, and equipment of \$123.1 million. Additionally, current unrestricted assets increased by \$43.0 million in 2021 mainly due to an increase in cash and cash equivalents of \$10.3 million, an increase in outstanding customers receivable balance, net of related allowance of \$8.0 million and an increase in grants receivable of \$24.4 million offset by decreases in taxes and miscellaneous receivables.

SEWERAGE & WATER BOARD OF NEW ORLEANS, LOUISIANA

**MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2021 AND 2020**

Current liabilities increased by \$22.0 million primarily due to an increase in accounts payable of \$13.3 million, an increase in retainers and estimates payables of \$3.3 million due to timing of payments to vendors and an increase in current portion of bonds payable of \$5.7 million.

2020 Net Position

The Board's total assets and deferred outflows at December 31, 2020 were approximately \$3.9 billion, a 8.8% increase from December 31, 2019 (see Table A-2).

	2020	2019	Increase (Decrease)	Increase (Decrease)
Current unrestricted assets	\$ 170,112,872	\$ 129,867,392	\$ 40,245,480	31.0%
Restricted assets	149,357,298	49,943,476	99,413,822	199.1%

Restricted	44,544,164	43,839,618	704,546	1.6%
Unrestricted	(328,678,436)	(319,374,318)	(9,304,118)	2.9%
Total net position	2,572,607,445	2,356,268,052	216,339,393	9.2%
Total liabilities, deferred inflows, and net position	\$ 3,870,943,383	\$ 3,557,072,222	\$ 313,871,161	8.8%

The increase in total assets and deferred outflows of \$313.9 million resulted primarily due to a net increase in net property, plant, and equipment of \$155.0 million. There was also an increase in restricted assets of about \$99.4 million for bond proceeds which will be used to funds construction projects. Additionally, current unrestricted assets increased by \$40.2 million in 2020 mainly due to an increase in cash and cash equivalents of \$23.7 million, an increase in outstanding customers receivable balance, net of related allowance of \$8.0 million and an increase in grants receivable of \$11.7 million offset by decreases in taxes and miscellaneous receivables.

SEWERAGE & WATER BOARD OF NEW ORLEANS, LOUISIANA

**MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2021 AND 2020**

Current liabilities increased by \$33.7 million primarily due to an increase in accounts payable of \$26.6 million and an increase in retainers and estimates payables of \$2.7 million due to timing of payments to vendors. Long-term liabilities increased by \$54.4 million primarily due to an increase of \$37.2 million in total other post-employment benefits liability (total OPEB liability), an increase in bonds payable of \$69.1 million, offset by a decrease in net pension liability of \$7.5 million due to changes in actuarial assumption and investment returns, and a decrease in the Southeast Louisiana project liability of \$40.5 million due to changes in final payback amounts and current year activity. Deferred outflows of resources and deferred inflows of resources increased by \$18.7 million and \$9.4 million, respectively, due to changes in the actuary's assumptions on investment returns and demographic factors related to the pension and OPEB liabilities.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2021 AND 2020**

2021 Changes in Net Position

The change in net position for the year ended December 31, 2021 was an increase of approximately \$134.7 million, as opposed to approximately \$216.3 million for the year ended December 31, 2020. The Board's total operating revenues increased by 2.5% to approximately \$275.3 million due to increased consumption and billed usage. Total non-operating revenue (expenses) decreased by 21.7% to approximately \$51.1 million primarily due to bond issuance costs associated with 2021 bond refunding of \$6.3 million and higher interest costs upon adoption of a new accounting standard in 2021 whereby eligible interest expenses are no longer capitalized. Capital contributions from federal grants and construction of Board property was approximately \$112.9 million resulting primarily from capital additions reimbursable under the FEMA Disaster Public Assistance and FEMA Hazard Mitigation grants of approximately \$72.1 million and \$14.3 million, respectively, and approximately \$12.7 million of capital contributions from the Army Corps of Engineers. The changes in net position are detailed in Table A-3; operating expenses are detailed in Table A-4.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2021 AND 2020**

Table A-4				
Sewerage & Water Board of New Orleans				
Operating Expenses				
	2021	2020	Increase (Decrease)	Increase (Decrease)
Power and pumping	\$ 22,965,240	\$ 20,302,317	\$ 2,662,923	13.1%
Treatment	26,668,794	21,680,572	4,988,222	23.0%
Transmission and distribution	35,662,527	34,160,672	1,501,855	4.4%
Customer accounts	4,992,999	4,656,250	336,749	7.2%
Customer service	10,350,482	8,343,631	2,006,851	24.1%
Administration and general	27,751,610	29,522,990	(1,771,380)	-6.0%
Payroll related	53,155,580	57,836,511	(4,680,931)	-8.1%
Maintenance of general plant	27,528,429	26,343,420	1,185,009	4.5%
Depreciation	64,250,898	55,037,867	9,213,031	16.7%
Provision for doubtful accounts	28,278,609	26,960,777	1,317,832	4.9%
(Recovery) provision for claims	3,127,462	3,063,073	64,389	2.1%
Total operating expenses	\$ 304,732,630	\$ 287,908,080	\$ 16,824,550	5.8%

Total operating expenses increased by approximately \$16.8 million or 5.8% compared to 2020. Depreciation expenses increased by \$9.2 million, or 16.7% based on new assets placed in service and changes in the estimated depreciation costs in the current year. Treatment increased by 5.0 million, or 23.0% due to increases in chemical costs. In addition, power and pumping increased by \$2.7 million, or 13.1%, due to increases in natural gas and electricity costs as well as disruption caused by Hurricane Ida. Customer Service expenses increased by \$2.0 million, or 24.1% from an expansion of customer service efforts and build out of the department led by a new Chief of Customer Service.

2020 Changes in Net Position

The change in net position for the year ended December 31, 2020 was an increase of approximately \$216.3 million. The Board's total operating revenues increased by 2.2% to approximately \$268.6 million due primarily to a 10% rate increase effective January 1, 2020 offset by lower billed usage in 2020. Total non-operating revenue (expenses) decreased by 24.4% to approximately \$65.3 million primarily due to a reduction in contributions from other governments of \$29.1 million offset by a \$8.5 million increase in property tax revenues. Capital contributions from federal grants and construction of Board property was approximately \$170.3 million resulting primarily from capital additions reimbursable under the FEMA Disaster Public Assistance and FEMA Hazard Mitigation grants of approximately \$28.1 million and \$7.4 million, respectively, and approximately \$122.1 million of capital contributions from the Army Corps of Engineers. The changes in net position are detailed in Table A-5; operating expenses are detailed in Table A-6.

SEWERAGE & WATER BOARD OF NEW ORLEANS, LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS YEARS ENDED DECEMBER 31, 2021 AND 2020

Total operating expenses decreased by approximately \$10.2 million or 3.4% compared to 2019. The decrease of \$6.3 million in provision for doubtful accounts was mainly due to additional expenses in 2019 and improved collection rates, and the \$1.0 million increase in the provision for claims was mainly attributable to the impact of the revised estimated general liabilities claims. In addition, transmission and distribution decreased by \$4.0 million, or 10.5%, due to the Board focusing on cost cutting measures during the global pandemic and deferring certain repairs and maintenance expenditures on the water, sewer, and drainage systems where possible. Depreciation expenses decreased by \$9.1 million, or 14.2% based on changes in the estimated depreciation costs in the current year. Furthermore, payroll related expenses increased by approximately \$4.0 million or 7.4% due to increased costs of fringe related benefits.

CAPITAL ASSET AND DEBT ADMINISTRATION

2021 Capital Assets

As of December 31, 2021, the Board had invested approximately \$4.80 billion in capital assets. Net of accumulated depreciation, the Board's net capital assets at December 31, 2021 totaled approximately \$3.60 billion. This amount represents a net increase (including additions and disposals, net of depreciation) of approximately \$123.1 million, or 3.5%, over December 31, 2020.

2020 Capital Assets

As of December 31, 2020, the Board had invested approximately \$4.62 billion in capital assets. Net of accumulated depreciation, the Board's net capital assets at December 31, 2020 totaled approximately \$3.47 billion. This amount represents a net increase (including additions and disposals, net of depreciation) of approximately \$155.0 million, or 4.7%, over December 31, 2019.

2021 Debt Administration

The Board continues to make its regularly scheduled payments on its bonds. During 2021, \$321.7 million in principal payments were made.

The Louisiana Department of Environmental Quality has loaned the Board up to \$9.0 million to fund construction of sewerage treatment works, implementing a management program under Section 1329 of the Water Quality Act of 1987, and developing and implementing a conservation and management plan under Section 1330 of the Federal Act. The outstanding balance is \$5.2 million at December 31, 2021.

The Coastal Protection and Restoration Authority of Louisiana entered into an agreement with the Department of the Army for the Southeast Louisiana Flood Control Program. The United States Government has committed to 65% of the project costs and The Board is responsible for 35% of the project costs. At December 31, 2021, the accumulated amount due to the U.S. Government totaled approximately \$206.7 million. This amount is estimated based on the actual cost of construction incurred to date. Repayment of principal and interest for completed project started in 2021. Total principal payment for the project is estimated to be approximately \$209.8 million through 2055. The total cost of the project may increase in the upcoming years as additional construction costs continue to add to the project.

SEWERAGE & WATER BOARD OF NEW ORLEANS, LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS YEARS ENDED DECEMBER 31, 2021 AND 2020

The Louisiana Department of Environmental Quality has committed to loan the Board an additional \$10 million to fund certain sewer main replacements and repairs. The loan is to be advanced in incremental amounts as project costs are incurred. Semi-annual interest and administrative fee payments begin in 2021. Annual principal payments are due beginning in 2022 and continuing through 2040. At December 31, 2021, the outstanding balance is \$3.1 million. See Note 6 for detailed long term debt activity during 2021.

SWBNO has been issued an "A" and an "A-" rating from Standard & Poor's Ratings Services (S&P) for the sewer system and water system bonds, respectively, and a "BBB+" for the water system and sewer system from the Fitch Ratings. In addition, the S&P and Fitch Ratings for Special Tax Bonds are "AA-" and "A," respectively.

2020 Debt Administration

The Board continues to make its regularly scheduled payments on its bonds. During 2020, \$17.8 million in principal payments were made.

The Louisiana Department of Environmental Quality has loaned the Board up to \$9.0 million to fund construction of sewerage treatment works, implementing a management program under Section 1329 of the Water Quality Act of 1987, and developing and implementing a conservation and management plan under Section 1330 of the Federal Act. The outstanding balance is \$5.6 million at December 31, 2020.

The Coastal Protection and Restoration Authority of Louisiana entered into an agreement with the Department of the Army for the Southeast Louisiana Flood Control Program. The United States Government has committed to 65% of the project costs and The Board is responsible for 35% of the project costs. At December 31, 2020, the accumulated amount due to the U.S. Government totaled approximately \$209.8 million. This amount is estimated based on the actual cost of construction incurred to date. Repayment of principal and interest started in 2021. Total payment for the project is estimated to be approximately \$209.8 million through 2055. The total cost of the project may increase in the upcoming years as additional construction costs continue to add to the project.

The Louisiana Department of Environmental Quality has committed to loan the Board an additional \$10 million to fund certain sewer main replacements and repairs. The loan is to be advanced in incremental amounts as project costs are incurred. Semi-annual interest and administrative fee payments begin in 2020. Annual principal payments are due beginning in 2022 and continuing through 2040. At December 31, 2020, the outstanding balance is \$127,550. See Note 6 for detailed long term debt activity during 2020.

SWBNO has been issued an "A" and an "A-" rating from Standard & Poor's Ratings Services (S&P) for the sewer system and water system bonds, respectively, and a "BBB+" for the water system and sewer system from the Fitch Ratings. In addition, the S&P and Fitch Ratings for Special Tax Bonds are "AA-" and "A," respectively.

SEWERAGE & WATER BOARD OF NEW ORLEANS, LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS YEARS ENDED DECEMBER 31, 2021 AND 2020

ECONOMIC FACTORS AND RATES

The Board, the City Council, and the Board of Liquidation City Debt approved a rate increase of ten percent for the Water and Sewer Departments effective January 1, 2013 and annually thereafter through 2020. The Board is currently undergoing a rate and affordability study to recommend potential future rate increases as well as working with state and local partners to receive federal funds intended to provide relief to low-income households unable to pay water bills due to the global pandemic as part of the Low-Income Household Water Assistance Program. As a result of Hurricane Ida, the 2022 Tax Roll was reduced because of property damages due to the hurricane which further reduced the tax base after a reduction in 2021 related to the global pandemic.

The total number of open customer accounts continue to increase modestly on an annual basis. The total open accounts in 2021 were 139,688, an increase of 1,562 over 2020 open customer accounts of 138,126.

CONTACTING THE BOARD'S FINANCIAL MANAGEMENT

This financial report is designed to provide our bondholders, patrons, and other interested parties with a general overview of the Board's finances and to demonstrate the Board's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department at (504) 585-2356.

**NOTES TO
BASIC FINANCIAL STATEMENTS**

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS (Continued)

1. Summary of Significant Accounting Policies

A. History and Organization

The major operation of the Sewerage and Water Board of New Orleans (the Board) is providing water, sewerage, and drainage services for the City of New Orleans (the City). The Sewerage and Water Board of New Orleans was created by Act 6 of the Louisiana Legislature of 1899 as a special board independent of the City's government to construct, maintain, and operate a water treatment and distribution system and a public sanitary sewerage system for the City. In 1903, the Legislature gave the Board control of and responsibility for the City's major drainage system and relieved the City of the duty of providing in its annual operating budget or otherwise for the maintenance and operations of the water, sewerage, and drainage systems.

In accordance with the Louisiana Revised Statutes (LRS) 33:4096 and 4121, the Board has the authority to establish the water and sewerage rates to charge to its customers. The rates are based on the actual water consumed and on the costs of maintenance and operation of the water and sewerage systems, including the costs of improvements and replacements. The collections of water and sewerage revenues are to be used by the Board for the maintenance and operation of the systems, the cost of improvements, betterments, and replacements and to provide for the payments of interest and principal on the bonds payable. On November 14, 2012, the Board approved both sewer and water rate increases commencing January 1, 2013. The sewer and water rates increased by 10% each year through 2020. This increase was approved by the New Orleans City Council on November 14, 2012.

The Board has also been given the authority to levy and collect various tax millages, which are used for the operation and maintenance of the drainage operations. All excess revenues collected are made available for capital development of the system. The proceeds of the rate collections and tax millage are invested in such investments as authorized by the LRS. These investments are reflected in the combined statements of net position, as "restricted assets," as they are restricted to the purposes as described above.

The Sewerage and Water Board of New Orleans' eleven-member Board of Directors consists of the Mayor, the chair of the Public Works, Sanitation and Environment Committee of the New Orleans City Council or his designee, two representatives of the Board of Liquidation, and seven citizen members, of which five represent council districts and two consumer advocates and one of the appointments shall be a retired civil engineer.

On March 11, 2020, the World Health Organization declared the novel strain of coronavirus (COVID-19) a global health pandemic and recommended containment and mitigation measures worldwide. Subsequent to that date, the Mayor of the City of New Orleans ordered citizens and businesses to follow specific measures designed to slow the spread of the virus. In support of our customers, the Board temporarily suspended service disconnections and late fee charges and launched a Customer Care Pay Plan for customers impacted by COVID-19 and the economic downturn. The current impact is an increase in the age of customer receivables and a reduction in billed collections. The Board has also taken actions to protect the health and safety of its employees.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

(Continued)

1. Summary of Significant Accounting Policies (continued)

A. History and Organization

The Board's accounting policies conform to accounting principles generally accepted in the United States of America as applicable to utilities and to governmental units as set forth through the Governmental Accounting Standards Board. The following is a summary of the more significant policies.

B. Reporting Entity

In conformity with the Governmental Accounting Standards Board's definition of a reporting entity, the Board includes an enterprise fund and a pension trust fund for financial reporting purposes. The Board is considered a reporting entity based on the following criteria:

- 1) Responsibility for surpluses/deficits. The Board is solely responsible for its surpluses/deficits. In accordance with LRS, no other governmental unit is responsible for the Board's deficits or has a claim to its surpluses. The Board's operations are self-sustaining; revenues are generated through charges to customers and dedicated property taxes. Other than grants, no funding is received from the State of Louisiana or the City of New Orleans.
- 2) Budget Approval. The Board is solely responsible for reviewing, approving, and revising its budget.
- 3) Responsibility for Debt. The LRS authorize the Board to issue bonds; such bonds must bear on their face a statement that they do not constitute a debt of the City. The Board is solely responsible for payments to bondholders. No other governmental unit is required by statute to make any payments to bondholders nor have any payments to bondholders ever been made by any governmental unit, except the Board.
- 4) Designation of Management. The Board controls the hiring of management and employees.
- 5) Special Financial Relationship. The Board has no special financial relationships with any other governmental unit.
- 6) Statutory Authority. The Board's statutory authority was created by the State of Louisiana as an independent governmental unit. Only an amendment to the state statutes can change or abolish the Board's authority.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

1. Summary of Significant Accounting Policies (continued)

B. Reporting Entity (continued)

The Board is a component unit of the City of New Orleans as defined by Governmental Accounting Standards Board Statement 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34 and GASB Codification Section 2100*. As a result of a Louisiana Supreme Court decision on March 21, 1994, the Board was declared to be an autonomous or self-governing legal entity, legally independent of the City, State, and other governments, created and organized pursuant to Louisiana Revised Statutes 33:4071 as a board, separate and independent of the governing authorities of the City and vested with autonomous or self-governing authority. No other government can mandate actions of the Board nor impose specific financial burdens, except the approval of the City Council and the Board of Liquidation in the case of bond issues and certain rate increases. As such, the City considers the Board to be a component unit of the City and includes the Board, as a discreetly presented component unit, in the City's annual financial statements. However, the Board is fiscally independent to operate under its bond covenant and the provisions of LRS provisions.

C. Basis of Financial Statement Presentation

The Board's basic financial statements consist of the government-wide statements which include the proprietary fund (the enterprise fund) and the fund financial statements which includes the fiduciary fund (the pension trust fund).

The operations of the Board are accounted for in the following fund types:

Proprietary Fund Type

The proprietary fund is used to account for the Board's ongoing operations and activities, which are similar to those often found in the private sector. The proprietary fund is accounted for using a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. Net position is segregated into amounts invested in capital assets (net of related debt), restricted for debt service, and unrestricted. The Board's restricted assets are expendable for their purposes. The Board utilizes available unrestricted assets before utilizing restricted assets. The operating statements present increases (revenues) and decreases (expenses) in net position. The Board maintains one proprietary fund type – the enterprise fund. The enterprise fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises--where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

1. Summary of Significant Accounting Policies (continued)

C. Basis of Financial Statement Presentation (continued)

Operating revenues include all charges for services; other revenues include plumbing permitting fees and other miscellaneous charges. Operating expenses include the costs associated with providing water, sewerage, and drainage services. Interest income, interest expense, grants from other governments, and tax revenues are presented as non-operating items.

The enterprise fund is presented in the government-wide financial statements.

Fiduciary Fund Type

The fiduciary fund is used to account for assets held by the Board in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. The Board maintains one fiduciary fund type - the pension trust fund. The pension trust fund uses the flow of economic resources measurement focus. All assets and liabilities associated with the operation of this fund are included in the statement of plan net assets. The pension trust fund is used to account for the activity of the Board's employee retirement plan, which is a blended component unit of the Board as defined by Section 2100 of the GASB Codification.

The pension trust fund is presented in the fund financial statements.

D. Basis of Accounting

The enterprise fund and the pension trust fund prepare their financial statements on the accrual basis of accounting. Unbilled utility service charges are not recorded as management considers the effect of not recording such unbilled receivables as not material. Property taxes are recorded as revenue in the year for which they are levied. Plan member contributions are recognized in the period in which contributions are due. Employer contributions to the pension plan are recognized when due and the employer has made a commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

E. Investments

Investments are recorded at fair value, except for short-term investments (maturity of one year or less), which are recorded at amortized cost, which approximates fair value. Securities traded in a national or international exchange are valued at the last recorded sales price at current exchange rates. Investments that do not have an established market are recorded at estimated fair value. Investment income and expenses, including changes in the fair value of the investments, are recognized in the Statements of Revenues, Expenses, and Changes in Net Position.

F. Inventory of Supplies

Inventory of supplies is valued at cost. Cost is determined by the weighted average cost method.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

**NOTES TO FINANCIAL STATEMENTS
(Continued)**

1. Summary of Significant Accounting Policies (continued)

G. Vacation and Sick Pay

Vacation (annual leave) and sick pay (sick leave) are accrued when earned. Annual leave is accrued at the rate of .6923 of a workday for each bi-weekly accrual period for all employees on the payroll as of December 31, 1978. Employees hired after that date earn leave at a rate of .5 of a workday per bi-weekly pay period.

All employees on the payroll as of December 31, 1978 receive three bonus days each year; all employees hired after that date receive three bonus days each year for five through nine calendar years of continuous service; six bonus days each year for ten through fourteen years; nine bonus days each year for fifteen through nineteen years; and, twelve days for twenty or more years of continuous service. Civil Service's policy permits employees a limited amount of earned but unused annual leave which will be paid to employees upon separation from the Board. The amount shall not exceed ninety days for employees hired before January 1, 1979, and forty-five days for employees hired after December 31, 1978.

Sick leave is accumulated on a bi-weekly basis by all employees hired prior to December 31, 1978 at an accrual rate of .923 of a workday. For employees hired subsequent to December 31, 1978, the accrual rate is .5 of a workday for each bi-weekly period, plus a two-day bonus each year for employees with six through fifteen calendar years of continuous service, and seven bonus days each year for employees with sixteen or more calendar years of continuous service.

Upon separation from the Board, an employee can elect to convert unused sick leave for retirement credits or cash. The conversion to cash is determined by a rate ranging from one day of pay for five days of leave for the 1st through 100th leave day to one day of pay for one day of leave for all days in excess of the 400th leave day. The total liability for unconverted sick leave as of December 31, 2021 and 2020 is \$15,441,334 and \$14,396,999, respectively. The amount included in the statements of net position as of December 31, 2021 and 2020 is \$10,621,943 and \$9,904,897, respectively, which represents the annual leave and the converted sick leave for cash since virtually all employees convert their sick leave to cash. The amounts for compensated absences include the salary cost as well as certain salary related costs, such as the Board's share of social security expense and are classified as a long-term liability. The following table summarizes changes in the Board's vacation and sick pay liability.

Year	Beginning of Year Liability	Current Year Earned and Changes in Estimate	Payments	End of Year Liability
2021	\$ 9,904,897	\$ 3,095,892	\$ (2,378,846)	\$ 10,621,943
2020	\$ 9,068,334	\$ 5,454,708	\$ (4,618,145)	\$ 9,904,897

H. Property, Plant, and Equipment

Property, plant, and equipment are carried at historical cost. The Board capitalizes moveable equipment with a value of \$10,000 or greater and stationary, network, real estate, and other equipment with a value of \$5,000 or greater. The cost of additions includes contracted work, direct labor, materials, and allocable cost. Donated capital assets are recorded at their acquisition value at the date of donation.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

1. Summary of Significant Accounting Policies (continued)

H. Property, Plant, and Equipment (continued)

Depreciation is computed using the straight-line method over the estimated useful life of the asset. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized in revenue for the period. The cost of maintenance and repairs is charged to operations as incurred, and significant renewals and betterments are capitalized. Deductions are made for retirements resulting from renewals or betterments. In 2020, interest was capitalized on property, plant, and equipment acquired and/or constructed with tax exempt debt. As described in Note 15, GASB Statement No. 89, *Accounting for Interest Costs Incurred Before the End of a Construction Period*, was implemented in 2021, and as a result, interest is no longer capitalized.

I. Self-Insurance/Risk Management

The Board is self-insured for general liability, workers' compensation, unemployment compensation, and hospitalization benefits and claims. The accrued liability for the various types of claims represents an estimate by management of the eventual loss on the claims arising prior to year-end, including claims incurred and not yet recorded including estimates of both future payments of losses and related claims adjustment and expense. Estimated expenses and recoveries are based on a case-by-case review.

J. Bond Issuance Costs and Refinancing Gains (Losses)

Costs related to issuing bonds are expensed when incurred. Premiums and discounts associated with bond issues are amortized over the interest yield method.

K. Deferred Inflows/Outflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. Deferred inflows of resources represent an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources until that time. The deferred charge on refunding recorded on the statements of net position results from the difference in carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred inflows and outflows have been recognized for the net difference between the projected and actual investment earnings for the pension plan, this amount is deferred and amortized over a period of five years. In addition, deferred inflows and outflows have been recognized for the differences between the actuarial expectation and the actual economic experience and changes in actuarial assumptions related to the defined benefit pension plan and the other post-employment benefit plan. These amounts are deferred and amortized over the average of the expected service lives of pension plan members. See Note 7 and Note 8 for additional information on deferred inflows and outflows related to the pension plan and the other post-employment benefits plan, respectively.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

(Continued)

1. Summary of Significant Accounting Policies (continued)

L. Pension

The Board may fund all or part of the accrued pension cost, depending on the resources that are available at the time of contribution, for its contributory pension plan which covers substantially all employees. Annual costs are actuarially computed using the entry age normal cost method.

M. Drainage System

In 1903, the Legislature gave the Board control of and responsibility for the City's drainage system. The Drainage System was established as a department of the enterprise fund to account for the revenues from three-mill, six-mill, and nine-mill ad valorem taxes designated exclusively for drainage services. These revenues have been supplemented by inspection and license fees collected by the Board. There exists a potential for additional financing by additional user service charges. Expenditures from the system are for the debt service of nine-mill tax bonds and drainage related operation, maintenance, and construction.

N. Capital Contributions

Contributions from developers and others, and receipts of Federal, State, and City grants for acquisition of property, plant, and equipment are recorded as capital contributions in the statements of revenues, expenses, and changes in net position.

O. Net Position Flow Assumption

The Board may fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position, a flow assumption must be made about the order in which the resources are considered to be applied. The Board's policy is to consider restricted net position to have been depleted before unrestricted-net position is applied.

P. Net Position

Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation, and reduced by the outstanding debt attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in this component of net position. Rather, that portion of debt is included in the same component of net position as the unspent proceeds.

Restricted – This net position component reports externally imposed constraints placed on their use by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – Unrestricted net position is the balance (deficit) of all other elements in a statement of net position remaining after net investment in capital assets and restricted net position.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

1. Summary of Significant Accounting Policies (continued)

Q. Cash Flows

For purposes of the statements of cash flows, only cash on hand and on deposit at financial institutions are considered to be cash equivalents. Certificates of deposits, treasury bills, and other securities are considered investments.

R. Operating and Nonoperating Revenues

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with principal ongoing operations. The principal operating revenues of the Board are charges to customers for services. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are recorded as nonoperating revenues and expenses.

S. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the recorded amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the recorded amounts of revenue and expenditures during the period. Actual results could differ from those estimates.

2. Cash, Cash Equivalents, and Investments

The Board's investments, cash, and cash equivalents (including customer deposits) consist primarily of investments in direct obligations of the United States or agencies thereof and deposits with financial institutions.

Custodial Credit Risk – Deposits – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. Statutes require that the Board's cash and certificates of deposit be covered by federal depository insurance or collateral. At December 31, 2021 the Board's interest bearing deposits with banks consisted of cash and money market funds totaling \$251,756,812 and investments of \$286,334. At December 31, 2020, the Board's interest bearing deposits with banks consisted of cash and money market funds totaling \$204,175,191 and investments of \$282,595. The Board's cash bank balances and all certificates of deposit for 2021 and 2020 were covered by federal depository insurance or collateral held by custodial agents of the financial institutions in the name of the Board.

2. Cash, Cash Equivalents, and Investments (continued)

The following are the components of the Board's cash, cash equivalents, and investments as of December 31 for the Enterprise and Pension Trust Funds:

Statement of Net Position - Enterprise Funds	2021	2020
Cash and cash equivalents	\$ 97,436,881	\$ 87,127,904
Investments	286,334	282,595
Restricted cash, cash equivalents, and investments	140,683,315	149,357,298
Customer deposits - cash	10,639,129	9,982,214
Customer deposits - investments	3,250,000	3,250,000
Total cash, cash equivalents, and investments - Enterprise Funds	252,295,659	250,000,011
Statement of Net Position - Pension Trust Fund	2021	2020
Cash	2,393,781	3,535,423
Money Market	646,036	893,427
LAMP	9,055,895	8,496,289
Debt Securities	79,070,763	78,892,473
Equities	182,864,067	155,409,381
Total cash, cash equivalents, and investments - Pension Trust Fund	274,030,542	247,226,993
Total cash, cash equivalents, and investments	\$ 526,326,201	\$ 497,227,004

A. Fair Value Measurement

To the extent available, the Board's investments are recorded at fair value as of December 31, 2021 and 2020. GASB Statement No. 72 – Fair Value Measurement and Application, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

2. Cash and Investments (continued)

A. Fair Value Measurement (continued)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Board has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investments - Statutes authorize the Board to invest in obligations of the U.S. Treasury, agencies, and instrumentalities, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, repurchase agreements, and the Louisiana Asset Management Pool (LAMP). In addition, the pension trust fund is authorized to invest in corporate bonds rated BBB or better by Standard & Poor's Corporation or Baa or better by Moody's Investors Service and equity securities.

Cash equivalents such as money market funds, LAMP, and certificate of deposit are measured using NAV as a practical expedient. These cash equivalents have not been classified in the fair value hierarchy table. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net position.

Total cash and investments	<u>\$ 250,001,011</u>	<u>\$ 247,226,993</u>	<u>\$ 497,228,004</u>

Pension trust fund investments are held in trust and governed pursuant to an indenture between the trustee financial institution and the Board.

B. Louisiana Asset Management Pool (LAMP)

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with Louisiana R.S. 33:2955.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

2. Cash and Investments (continued)

B. Louisiana Asset Management Pool (LAMP) (continued)

GASB Statement No. 40, *Deposit and Investment Risk Disclosure*, requires disclosure of credit risk, custodial credit risk, concentration of credit risk interest rate risk, and foreign currency risk for all public entity investments.

LAMP is an investment pool that, to the extent practical, invests in a manner consistent with GASB Statement No. 79. The following facts are relevant for investment pools:

- Credit risk: LAMP is rated AAA by Standard & Poor's.
- Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.
- Concentration of credit risk: Pooled investments are excluded from the 5 percent disclosure requirement.
- Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 60 days and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments. The WAM for LAMP's total investments is 58 as of December 31, 2021.
- Foreign currency risk: Not applicable.

The investments in LAMP are stated at fair value. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the net asset value of the pool shares.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

C. Credit and Interest Risk

Credit Risk - State law limits investments in securities issued, or backed by United States Treasury obligations, and U.S. Government instrumentalities, which are federally sponsored. The Board's investment policy does not further limit its investment choices. LAMP is rated AAA by Standard & Poor's. The Pension Trust Fund's investment policy requires that fixed income investments be investment grade (BBB or higher as rated by Standard & Poor's or Baa or higher as rated by Moody's). Bonds rated below BBB/Baa are not to exceed 15% of the portfolio, and non-rated bonds are not to exceed 1% of the portfolio.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

**NOTES TO FINANCIAL STATEMENTS
(Continued)**

2. Cash and Investments (continued)

C. Credit and Interest Risk (continued)

Interest Rate Risk - Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. In general, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The Board has a formal investment policy that states that the investment portfolio shall remain sufficiently liquid to meet all operating and capital requirements that may be reasonably anticipated and that maturities of investments are to be structured concurrent with cash needs to meet anticipated demand.

Foreign Currency Risk – The Pension Trust Fund’s exposure to foreign currency risk derives from its positions in foreign currency-denominated fixed-income investments. The Pension Trust Fund's investment policy permits it to invest up to 5 percent of total investments in foreign currency-denominated fixed-income investments. The investments in foreign currency-denominated corporate bonds were rated by Standard & Poor's.

Following are the credit risk ratings of the Pension Trust Fund’s investments in debt securities as of December 31, 2021:

<u>Rating</u>	<u>Corporate Bonds</u>	<u>Foreign Government Bonds</u>	<u>Government Bonds and U.S. Treasury Notes</u>	<u>Other</u>	<u>Total</u>	<u>Percentage of Total</u>

D. Concentration of Credit Risk

Per GASB Statement 40, *Deposit and Investment Risk Disclosures*, concentration of credit risk is defined as the risk of loss attributed the magnitude of government's investment in a single issuer. GASB 40 further defines an at-risk investment to be one that represents more than five percent (5%) of the fair value of the total investment portfolio and requires disclosure of such at-risk investments. GASB 40 specifically excludes investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments from the disclosure requirement. The Board has no investment in a single issuer that represent more than 5% of the investment portfolio. In addition, the Board's investments consist of investments in mutual funds, external investment pools, and other pooled investments.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

**NOTES TO FINANCIAL STATEMENTS
(Continued)**

2. Cash and Investments (continued)

F. Securities Lending

Under the provisions of its benefit plan and state law, the Board’s pension benefit trust engaged in securities lending to broker dealers and other entities for cash collateral that would be returned for the same securities in the future. The cash collateral could not be liquidated by the Board unless the borrower defaults. Cash collateral was initially pledged at 102.25% of the market value of securities lent and additional collateral was provided by the next business day if the value fell to less than 100% of the market value of the securities lent. The value of securities lent at December 31, 2020 was \$40,883,526 and the market value of the cash collateral at December 31, 2020 was \$39,972,157. No collateral exposure existed at December 31, 2020. The securities lending arrangement ended during 2021.

3. Customer Receivables

Customer receivables as of December 31 consist of the following:

		2021				
		Customer	Allowance for Doubtful			
		Accounts	Accounts	Net		
Water		\$ 70,319,757	\$ 45,634,567	\$	24,685,190

4. Property, Plant, and Equipment

The useful lives of property, plant, and equipment consisted of the following:

Power and pumping stations – buildings and machinery	40 to 57 years
Distribution systems	75 years
Sewerage collection, treatment plant, general plant, and building	12 to 75 years
Canals and subsurface drains	75 to 100 years
Power transmissions, Connections, and meters	50 years
Treatment Plans, General Plant, and buildings	12 to 50 years

Property, plant, and equipment consisted of the following as of December 31:

	2021			
	Beginning Balance	Additions	Deletions/ Reclassifications	Ending Balance

Net property, plant, and equipment	<u>\$ 3,318,295,115</u>	<u>\$ 227,450,521</u>	<u>\$ (72,425,650)</u>	<u>\$ 3,473,319,986</u>

Interest capitalized was as follows for the years ended December 31, 2020:

Interest income	\$ 2,501,252
Interest expense	<u>(21,216,848)</u>
Net interest capitalized	<u>\$ (18,715,596)</u>

As described in note 15, GASB Statement No. 89, *Accounting for Interest Costs Incurred Before the End of a Construction Period*, was implemented in 2021, and as a result, interest is no longer capitalized.

5. Due to City of New Orleans

The Board bills and collects sanitation charges on behalf of the City of New Orleans (the City). The Board is not liable for any uncollected sanitation charges. Additionally, amounts included in accounts payable due to the City for works performed by the Department of Public Works on behalf of the Board, were \$14,845,132 and \$6,056,556 at December 31, 2021 and 2020, respectively.

2041-2045	103,995,000	9,829,519	-	-	-	-	103,995,000	9,829,519
2046-2050	10,370,000	826,600	-	-	-	-	10,370,000	826,600
	<u>\$ 495,510,000</u>	<u>\$ 201,612,473</u>	<u>\$ 19,400,075</u>	<u>\$ 926,050</u>	<u>\$ 2,000,000</u>	<u>\$ 45,000</u>	<u>\$ 516,910,075</u>	<u>\$ 202,583,523</u>

The indentures under which these bonds were issued provide for the establishment of restricted funds for debt service as follows:

1. Debt service funds are required for the payment of interest and principal on the revenue and tax bonds. Monthly deposits on revenue bonds, excluding bond anticipation notes, are required to be made into this fund from operations in an amount equal to 1/6 of the interest falling due on the next interest payment date, and an amount equal to 1/12 of the principal falling due on the next principal payment date. All debt service funds are administered by the Board of Liquidation. The required amount to be accumulated in this fund and on hand were \$13,009,742 and \$11,101,204 at December 31, 2021 and 2020, respectively.
2. The water bonds require an amount equal to the largest amount required in any future calendar year to pay the principal of and interest on outstanding bonds. The sewer bonds require an amount equal to 125% of average aggregate debt service. The amounts required to be accumulated in this fund and on hand were \$12,790,233 and \$32,442,960 at December 31, 2021 and 2020, respectively.

Operating revenues, net of operating expenses, are pledged as security for all revenue bond issues.

Events of default for the bond agreements include the failure to pay the principal and interest payments timely and failure of the Board to observe and perform any of its other covenants, conditions or agreements under the bond agreements Resolution for a period of 60 days after written notice either from the paying agent or the Board of Liquidation or holders of not less than 25% in aggregate principal amount of bonds then outstanding (unless the paying agent, the Board of Liquidation or the holders agree in writing to an extension of such time prior to its expiration), specifying such failure and requesting that it be remedied, or in the case of any such default that cannot with due diligence be cured within such 60 day period, failure of the Board to proceed promptly to cure the same and thereafter prosecute the curing of such default with due diligence within 60 days thereafter.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

(Continued)

6. Long-Term Obligations (continued)

B. Bonds Payable (continued)

Upon the occurrence and continuation of an Event of Default, either the Board of Liquidation (by notice in writing by the Board) or holders of not less than 25% in aggregate principal amount of bonds then outstanding (by notice in writing to the Board and the Board of Liquidation) may declare the entire unpaid principal of the Bonds due and payable. Upon any such declaration the Board shall pay the entire unpaid principal of premium, if any, and accrued interest on the Bonds, but only from net revenues and other moneys herein specifically pledged for payments.

C. Louisiana Department of Environmental Quality

In 2011, the City entered into an agreement with the Louisiana Department of Environmental Quality (LDEQ) whereby the LDEQ committed to loan the Board \$9,000,000 to fund sewer main replacements, point repairs, replacement of associated service connections and laterals, sewer line rehabilitation by cured in-place pipe lining and manhole rehabilitation. The loan was advanced in incremental amounts as project costs were incurred. The indebtedness to the LDEQ is evidenced through the Sewerage Service Subordinate Revenue Bonds, Series 2011.

In 2019, the City entered into an agreement with the Louisiana Department of Environmental Quality (LDEQ) whereby the LDEQ has committed to loan the Board \$10,000,000 to fund sewer main replacements, point repairs, replacement of associated service connections and laterals, sewer line rehabilitation by cured in-place pipe lining and manhole rehabilitation. The loan is being advanced in incremental amounts as project costs are incurred. The indebtedness to the LDEQ is evidenced through the Sewerage Service Revenue Bonds, Series 2019.

D. Sewerage Service Revenue Bonds, Series 2020 Bonds

During 2020, the Board issued \$10,250,000 in Sewerage Service Revenue Bonds Series 2020A with a final maturity of June 1, 2025. In addition, the Board issued \$64,750,000 in Sewerage Service Revenue Bonds Series 2020B with an original issue premium of \$13,860,541 with a final maturity date of June 1, 2050.

E. Series 2021 Revenue Refunding Bonds

In 2021, the Board issued \$178,195,000 of Taxable Sewerage Service Revenue Refunding Bonds, Series 2021 for the purpose of partially advance refunding the Series 2014 and Series 2015 Sewerage Service Revenue and Refunding Bonds. The bond proceeds and investments, less issuance and insurance costs, were used to refund \$70,610,000 of the Series 2014 bonds and \$87,290,000 of the Series 2015 bonds, for a total of \$157,900,000. By refunding these bonds, the Board estimated \$23,762,182 in future savings related to future interest and principal payments. The Board estimated an economic gain of approximately \$18,430,995.

6. Long-Term Obligations (continued)

E. Series 2021 Revenue Refunding Bonds (continued)

The costs of issuance and bond insurance of the Series 2021 Sewerage Bonds totaled \$2,533,449, and the deferred loss on refunding was \$14,572,181. The outstanding balance of the defeased bonds at December 31, 2021 is \$146,850,000.

In 2021, the Board issued \$194,300,000 of Taxable Water Revenue Refunding Bonds, Series 2021 for the purpose of partially advance refunding the Series 2014 and Series 2015 Water Revenue and Refunding Bonds. The bond proceeds and investments, less issuance and insurance costs, were used to refund \$79,425,000 of the Series 2014 bonds and \$82,015,000 of the Series 2015 bonds, for a total of \$161,440,000. By refunding these bonds, the Board estimated \$22,811,372 in future savings related to future interest and principal payments. The Board estimated an economic gain of approximately \$18,122,740. The costs of issuance and bond insurance of the Series 2021 Sewerage Bonds totaled \$2,836,057, and the deferred loss on refunding was \$20,535,572. The outstanding balance of the defeased bonds at December 31, 2021 is \$157,435,000.

F. WIFIA Loan

On November 10, 2021, the Board closed on \$275,000,000 revenue debt issue through the Water Infrastructure Financing and Innovation Act (WIFIA) with the U.S. Environment Agency (EPA), a direct borrowing, to fund over 160 projects to modernize aging and storm damaged sewer pipelines throughout the city as part of comprehensive Sewer System Evaluation and Rehabilitation Program. The WIFIA Bond will be due in semi-annual installments of interest and annual payments of principal, with a final maturity date of 35 years following the substantial completion date of the Project. No interest accrues until the Board makes its first drawdown of funds from the WIFIA Bond. As of December 31, 2021, \$936,848 related to costs of issuance is included as bonds payable.

The Board has pledged the net revenues of the water and sewer systems as security for the WIFIA Bond for the duration of the bond on parity to its revenue bonds. The Board has also agreed to comply with various covenants, including a rate covenant similar to that of its revenue bonds.

G. Debt Service Assistance Loan

In July 2006, the Board and the State of Louisiana (the State) entered into a Cooperative Endeavor Agreement whereby the State agreed to lend up to \$77,465,247 from State funds on deposit in the Debt Service Assistance Fund, authorized by the Gulf Opportunity Zone Act of 2005 and Act 41 of the First Extraordinary Session of the Louisiana Legislature of 2006, to assist in payment of debt service requirements from 2006 through 2008 due to disruption of tax bases and revenue streams caused by Hurricanes Katrina and Rita. Draw downs on the loan were made as debt service payments became due. No principal or interest was payable during the initial five-year period of the loan. After the expiration of the initial five-year period, the loan shall bear interest at a fixed rate of 4.64 percent. Principal payments on the bonds began in July 2012. In July 2019, the Cooperative Endeavor Agreement was amended by the State and the Board to allow annual payments to be made through 2031. In addition, the outstanding loan balances for the Drainage and Water funds of the Board were assumed/transferred to the Sewerage fund.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

**NOTES TO FINANCIAL STATEMENTS
(Continued)**

6. Long-Term Obligations (continued)

G. Debt Service Assistance Loan (continued)

Upon the amendment, interest is payable semi-annually on January 15 and July 15 beginning July 2020. The loan will mature in January 2031. The loan may be prepaid without penalty or premium.

As of December 31, 2021, debt service requirements relating to the loan is as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2022	\$ 2,902,502	\$ 738,838	\$ 3,641,340
2023	3,037,178	604,161	3,641,339
2024	3,178,103	463,236	3,641,339
2025	6,651,134	3,014,546	9,665,680
2026	6,959,746	322,932	7,282,678
2026-2030	14,536,627	3,326,933	17,863,560
	<u>\$ 37,265,290</u>	<u>\$ 8,470,646</u>	<u>\$ 45,735,936</u>

H. Southeast Louisiana Project

In 2010, the Coastal Protection and Restoration Authority of Louisiana entered into agreements (SELA PPA and SELA DPA) with the Department of the Army for the Southeast Louisiana, Louisiana Project in Jefferson and Orleans Parishes (the Project). The purpose of the Project is to provide flood damage reduction and interior drainage for Orleans and Jefferson Parishes in southeast Louisiana. The agreements set forth the obligations of the federal government and non-federal sponsors, including the Board, regarding the construction and the operation, maintenance, repair, rehabilitation, and replacement of the Project. For the projects, the federal government is responsible for 65% of the project costs and the non-federal sponsors are responsible for the remaining 35% less credits for work-in-kind contributions and other allowances. Project costs are included in the capital assets of the Board.

Under the agreement, the Department of the Army, subject to the availability of funds appropriated by the Congress of the United States, shall design and construct specified work at 100% federal expense. The Board will be allowed to defer payment of its required non-federal contribution of funds of 35% and to pay said contribution of funds with interest over a period of not more than 30 years from the date of completion of the project or separable element of the project. The interest rate to be used in computing the interest shall be determined by the Secretary of the Treasury, taking into consideration average market yields on outstanding marketable obligations of the United States with remaining periods of maturity comparable to the payment period during the month preceding the Government fiscal year in which the first federal construction contract for such separable element is awarded to the SELA PPA, plus a premium of one-eighth of one percentage point for transaction costs. The amount due, including estimated accrued interest, as of December 31, 2021 and 2020 is \$206,690,029 and \$209,815,520, respectively.

**NOTES TO FINANCIAL STATEMENTS
(Continued)**

6. Long-Term Obligations (continued)

H. Southeast Louisiana Project (continued)

The Project consists of 16 contracts, grouped in 5 basins. Project completion date, payment start date, as well as interest rate for each basin are as follows:

<u>Basin</u>	<u>Completion Date</u>	<u>Payment Start Date</u>	<u>Interest Rate</u>
OP-2	2027 (Est.)	2027 (Est.)	3.75% (Est.)
OP-3	2020	2021	3.75%
OP-4	2020	2021	3.75%
OP-5	2020	2021	3.75%
OP-6	2020	2021	3.75%

The final amount due for OP-2 will be determined by the Department of Army upon project completion.

As of December 31, 2021, projected debt service requirements relating to the total amount due are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2022	\$ 1,900,202	\$ 3,626,358	\$ 5,526,560

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

7. Defined Benefit Pension Plan

A. Plan Descriptions

The Board has a single-employer contributory retirement plan covering all full-time employees, the Pension Trust Fund (PTF). The Board's payroll for current employees covered by the PTF for the years ended December 31, 2021 and 2020 was \$57,531,267 and \$54,856,389, respectively; such amounts exclude overtime and standby payroll. As of the most recent valuation date (December 31, 2021), the PTF membership consisted of:

Inactive employees or beneficiaries currently receiving benefits	910
Inactive employees entitled to but not yet receiving benefits	255
Active Employees	<u>1,101</u>
Total	<u><u>2,266</u></u>

Benefits Provided

The benefit provisions were established by action of the Board in 1956 in accordance with Louisiana statutes. The Board retains exclusive control over the plan through the Pension Committee of the Board. Effective January 1, 1996, the plan became qualified under Internal Revenue Code Section 401(a) and thus is tax exempt.

The plan provides for retirement benefits as well as death and disability benefits. All benefits vest after five years of service. Employees who retire at or after age 65 with five or more years of credited service are entitled to an annual retirement benefit, payable biweekly for life, in an amount equal to two and one-half percent of their average compensation for each year of credited service not to exceed twenty five years, increasing by four percent per year for service years in excess of twenty five years, but in no event the annual retirement benefit should exceed one hundred percent (100%) of employee's average compensation. Average compensation is the average annual earned compensation for the period of 36 successive months of service during which the employee's compensation was the highest. Employees with thirty years or more of credited service may retire without a reduction in benefits. Employees may retire prior to age 62 without 30 years of service with a reduction in benefits of three percent for each year of age below the age of 62. If an employee leaves covered employment or dies before three years of credited service, the accumulated employee contributions plus related investment earnings are refunded to the employee or designated beneficiary.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

**NOTES TO FINANCIAL STATEMENTS
(Continued)**

7. Defined Benefit Pension Plan (continued)

A. Plan Descriptions (continued)

The retirement allowance for retirees over age 65 is subject to a cost of living adjustment each January 1, provided that the member retired on or after January 1, 1984. The adjustment is based on the increase in the Consumer Price Index for all urban wage earners published by the U.S. Department of Labor but is limited to an annual maximum of two percent on the first \$10,000 of initial retirement benefits.

Effective September 23, 1993, employers may transfer credit between the Board's plan and the City of New Orleans' retirement system with full credit for vested service. The Board and its employees are obligated under plan provisions to make all required contributions to the plan. The required contributions are actuarially determined. Level percentage of payroll employer contribution rates is determined using the entry age normal actuarial funding method. Employees are required to contribute four percent of their regular salaries or wages.

Deferred Retirement Option Program (DROP)

Beginning in 1996, the Board offered employees a "Deferred Retirement Option Plan" (DROP), an optional retirement program which allows an employee to elect to freeze his or her retirement benefits but continue to work and draw a salary for a minimum period of one year to a maximum period of five years. While continuing employment, the retirement benefits are segregated from overall plan assets available to other participants. As of December 31, 2021 and 2020, 79 and 73 employees, respectively, participated in the plan. The amount of plan assets segregated for these individuals was \$9,055,895 and \$8,496,289 as of December 31, 2021 and 2020, respectively.

B. Funding Policy

The actuary determined contribution requirement for the Board was 21.717% and 21.112% for 2021 and 2020. The contribution requirement for employees for the years ended December 31, 2021 and 2020 was 6.0%. The actual Board's and employees' contributions for the years ended December 31 were as follows:

	2021	2020
Employer	\$ 9,861,935	\$ 10,392,532
Employee	3,008,648	3,015,231
Total contributions	\$ 12,870,583	\$ 13,407,763

C. Net Pension Liability

The Board's Net Pension Liability was measured as of December 31, 2021 and 2020. The Total Pension Liability used to calculate the Net Pension Liability was determined as of that date based on an actuarial valuation.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

**NOTES TO FINANCIAL STATEMENTS
(Continued)**

7. Defined Benefit Pension Plan (continued)

D. Actuarial Assumptions

	<u>2021</u>	<u>2020</u>
Investment rate of return	7.00%	7.00%
Inflation	2.50%	2.50%
Salary increases including inflation	4% to 6.25%	4% to 6.25%

For 2021 and 2020, mortality rates were based on the PubG-2010 mortality tables, with male rates multiplied by 122% and female rates multiplied by 119%. Mortality was projected generationally using Scale MP-2019, with male projection factors multiplied by 86% and female projection factors multiplied by 79%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by an asset allocation percentage which is based on the nature and mix of current and expected plan investments and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Pension Trust Fund's current and expected asset allocation as of December 31, 2021 are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Real Rate of Return</u>
US Large Cap Equities	6.50%
US Mid Cap Equities	7.00%
US Small Cap Equities	7.25%
International Equities	4.50%
Broad Fixed Income	3.50%
Private Equity	7.75%
Global Infrastructure	4.00%
Real Estate	4.75%
Cash and Cash Equivalents	0.50%

Discount Rate

The discount rate used to measure the total pension liability was 7% for the 2021 and 2020 plan years. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that the plan's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the PTF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

**NOTES TO FINANCIAL STATEMENTS
(Continued)**

7. Defined Benefit Pension Plan (continued)

E. Actuarial Assumptions (continued)

Investment Rate of Return

The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. For the years ended December 31, 2021 and 2020, the annual money-weighted rates of return on pension plan investments, net of pension plan investment expenses, were 14.96% and 9.67%, respectively.

Sensitivity of the Net Pension Liability to Change in the Discount Rate

The following presents the net pension liability of the Board as of December 31, 2021 and 2020, calculated using the discount rate of 7%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6%) or 1-percentage-point higher (8%) than the current rate.

	1% Decrease 6%	Current Discount Rate 7%	1% Increase 8%
<u>December 31, 2021</u>			
Total pension liability	\$ 386,388,775	\$ 350,483,713	\$ 320,063,620

G. The Board's Pension Plan Fiduciary Net Position

A separate report on the pension trust fund is not issued.

8. Other Post-Employment Benefits

Plan Description – The Board's post-employment benefit plan is a single-employer defined benefit plan. The Board's post-employment medical benefits for retirees are provided through a self-insured medical plan and are made available to employees upon actual retirement.

Participation – All active Employees as defined in the Rules and Regulations of the Employees' Retirement System of the Board, which is generally an employee who regularly works more than 17.5 hours per week, are eligible to participate in the plan.

Employees covered by benefit terms – As of the most recent valuation date (December 31, 2021), the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	673
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	1,179
	1,852

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

8. Other Post-Employment Benefits (continued)

Total OPEB Liability

The Board's total OPEB liability of \$238,860,656 and \$232,435,707 was measured as of December 31, 2021 and 2020, respectively, and was determined by an actuarial valuation as of December 31 of each year.

Actuarial Assumptions and other inputs – The total OPEB liability in the December 31, 2021 and 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Salary increases	4.00% to 6.25% including inflation
Healthcare cost trend rates	7.50% for FY23 decreasing 0.60% per year to an ultimate rate of 4.50% for FY28 and later years (2021) / 7.50% for FY22 decreasing 0.60% per year to an ultimate rate of 4.50% for FY27 and later years (2020)
Mortality	PubG-2010 mortality table multiplied by 122% for males and 119% for females, projected generationally using Scale MP-2019 mortality improvement rates multiplied by 86% for males and 79% for females
Participation	100%

The discount rate used to measure the total OPEB liability as of December 31, 2021 was 2.06%. The discount rate used to determine the total OPEB liability as of December 31, 2020 was 2.12%.

Municipal Bond Rate: 2.06% as of December 31, 2021 and 2.12% as of December 31, 2020; the source of the municipal bond rate is the Bond Buyer Index of general obligation bonds with 20 years to maturity and mixed credit quality. In describing their index, the Bond Buyer notes that the bonds' average credit quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard & Poor's Corp.'s AA.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ended December 31</u>	<u>Amount</u>
2022	\$ 16,105,730
2023	7,833,719
2024	(166,660)
2025	(166,660)

9. Commitments

A. Capital Improvements

At December 31, 2021, the Board's budget for its ten-year capital improvements program totaled approximately \$2.3 billion, which includes \$383 million in capital expenditures for the year ending December 31, 2022 and provides for the following activities:

- Continue Joint Infrastructure Recovery Road in conjunction with City of New Orleans Department of Public Works;
- Comply with regulatory requirements under the Sewer Consent Decree;
- Complete rehabilitation of Claiborne and Panola pumping stations of Water Hammer project;
- Participate in drainage system improvements in coordination with SELA Program;
- Initiate Automated Meter Infrastructure project.

Due to certain regulatory and legislative changes, additional capital improvements will probably be required. Future capital improvement program expenditures may require the issuance of additional debt depending on the amount and timing of expenditures. As of December 31, 2021, the Board has \$112,483,342 of cash and cash equivalents restricted for future capital projects.

B. Self-insurance

The Board is self-insured for general liability, workers' compensation, and hospitalization benefits and claims. Settled claims have not exceeded excess coverage in any of the past three fiscal years. Hospitalization benefits are charged to payroll related expense.

General liability claims are segregated internally depending on the scope and type of claim and are handled either by the Office of the Special Counsel or Administrative Services. Individual general liability losses have ranged from \$100 to \$7,500,000, illustrating the volatility of this exposure. The claims expense (recovery) provision for 2021 and 2020 amounted to (\$313,231) and \$220,934, respectively.

Worker's compensation expense provision for 2021 and 2020 amounted to \$4,099,695 and \$2,984,029, respectively.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

**NOTES TO FINANCIAL STATEMENTS
(Continued)**

9. Commitments (continued)

B. Self-insurance (continued)

The medical claims for our self-insured health plan are administered by a third party administrator. The Board's expense provision in excess of employee contributions for 2021 and 2020 was \$10,109,420 and \$20,616,261, respectively, and is included in payroll related expenses.

Changes in the claims payable amount are as follows (health payments are reflected net of contributions):

	2021	2020
Beginning of Year	\$ 47,606,094	\$ 46,833,838
Current Year Claims and Estimate Change	13,895,884	23,821,224
Claim Payments	(14,388,544)	(23,048,968)
End of Year	\$ 47,113,434	\$ 47,606,094

The composition of claims payable is as follows:

	2021	2020
Short-term:		
Workers' compensation	\$ 1,940,341	\$ 1,802,238
Health insurance	2,400,000	2,513,000
Total short-term	4,340,341	4,315,238
Long-term:		
Workers' compensation	437,826	639,357
General liability	42,335,267	42,651,499
Total long-term	42,773,093	43,290,856
Total	\$ 47,113,434	\$ 47,606,094

C. Regulatory Matters

The Sewer System Evaluation and Rehabilitation Program (SSERP) was initially estimated to cost the Board \$408.2 million by the original Consent Decree with an end date of 2015. However, the Board has negotiated, and continues to negotiate with U.S. Environmental Protection Agency (EPA), extensions beyond the original Consent Decree deadline. Consequently, the original Consent Decree has been modified to currently provide an end date of October 2025.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

9. Commitments (continued)

C. Regulatory Matters (continued)

The Board participates in a number of federal programs which are governed by various rules and regulations. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the Board has not complied with the rules and regulations governing the grants, refunds of any money received and the collectability of any related receivable as of December 31, 2021 might be impaired.

In management's opinion, there are no significant contingent liabilities relating to compliance with the rules and regulations governing state and federal grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies. Audits of prior years have not resulted in any significant disallowed costs or refunds. Any costs that would be disallowed would be recognized in the period agreed upon by the grantor agency and the Board.

10. Deferred Compensation Plan

The Board offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. This plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. All amounts of compensation deferred under the plan, all property, and rights purchased with those amounts, and all income attributable to those amounts, property or rights are held in trust for the employees, therefore the assets of the plan are not included in these financial statements.

11. Budgets

Operating and capital expenditure budgets are adopted by the Board on a basis consistent with accounting principles generally accepted in the United States. While not legally required, this budgetary information is employed as a management control device during the year. Comparison between actual and budgeted expenses is not a required presentation for an Enterprise Fund.

12. Property Taxes

Property taxes are levied by the City of New Orleans. Taxes on real and personal property attach as an enforceable lien on the property as of January 1. Taxes are levied on January 1, payable on January 1, and delinquent on March 15 for 2022.

The assessed value of the property is determined by an elected Assessor. The assessed value for 2021 and 2020 was \$4,269,786,671 and \$4,413,896,760, respectively. The combined tax rate dedicated for the Board for the years ended December 31, 2021 and 2020 was \$16.23 per \$1,000 of assessed valuation. These dedicated funds are available for operations, maintenance, construction, and extension of the drainage system (except for subsurface systems).

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

13. Tax Abatement Agreement

The local government is subject to certain property tax abatements granted by the Louisiana State Board of Commerce and Industry (the “State Board”), a state entity governed by board members representing major economic groups and gubernatorial appointees. Abatements to which the government may be subject include those issued for property taxes under the Restoration Tax Abatement Program (“RTAP”). For the year ending December 31, 2021, the government participated in the Restoration Tax Abatement Program.

Under the RTAP, as authorized by Article 7, Section 21(H) of the Louisiana Constitution and Louisiana Revised Statutes 47:4311, companies that expand, restore, improve, or develop an existing structure or structures in a downtown, historic, or economic development district can apply to the State Board and the local governing authority for a property tax exemption. The exemptions are granted for a 5-year term and are renewable for an additional 5-year term upon the approval of the State Board and the local governing authority. The property tax abatements have resulted in reductions of property taxes, which the tax assessor administers as a temporary reduction in the assessed value of the property involved. The abatement agreements stipulate a percentage reduction of property taxes, which can be as much as 100 percent. The local government may recapture abated taxes if a company fails to expand facilities or otherwise fail to fulfill its commitments under the agreement.

During 2021, the City Council of the City of New Orleans approved tax abatement projects with a total investment value of \$5,201,081 of which \$499,962 was for the Board. During 2020, the City Council of the City of New Orleans approved tax abatement projects with a total investment value of \$8,796,484 of which \$845,575 was for the Board.

14. Segment Information

The Board issued revenue bonds to finance its water and sewerage departments which operate the Board’s water and sewerage treatment plants and distribution and collection systems. These bonds are accounted for in separate water and sewer funds, as investors in the revenue bonds rely solely on the revenue generated by the individual activities for repayment.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

15. **Recent Accounting Pronouncements**

Effective January 1, 2021, the Board implemented GASB Statement No. 89, *Accounting for Interest Costs Incurred before the End of a Construction Period*. The Statement objectives include (1) enhancing the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) simplifying accounting for interest costs incurred before the end of a construction period.

GASB Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principal that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. This is a significant change in accounting principles and may impact the net position of the Board. The requirements of this Statement are effective for fiscal years beginning after June 15, 2021. Therefore, as applicable, the Board will implement this standard in 2022.

16. **Examination by Federal, State, and Local Agencies**

On March 19, 2020, the Louisiana Legislative Auditor (LLA) issued a report based on its review of the circumstances surrounding the Board's letting, bidding, and awarding of contracts pertaining to its new billing system. The purpose of the audit was to evaluate the Board's implementation of the new billing system and oversight of its billing processes. The LLA's report noted in one of its findings that there is a lack of accurate tracking of the free water consumption that amounted to \$26.3 million from fiscal years 2018 to 2019, along with other findings and recommendation. The Board is working to make attainable changes that can improve its delivery of water and sewer services. The Board has implemented accurate tracking for the free water accounts by assigning them with a unique rate code. The Board has since negotiated directly with the free water recipients to ensure accurate and timely billing. On March 17, 2021, the LLA issued a follow up report indicating recommendations were fully implemented or in progress.

17. **Revenue Bonds Debt Service Coverage (Unaudited)**

Each of the General Bond Resolutions governing the Series 2014, 2015, 2020, and 2021 Bonds have certain covenant requirements regarding net revenue available for debt service. The Board is in compliance with these particular covenants for the year ended December 31, 2021, as provided for in the respective General Bond Resolutions. The net revenue available for debt service in the Board's debt service coverage calculations is presented in Section III, Statistical Information (Unaudited).

18. **Subsequent Events**

In April 2022, the Board entered into a Cooperative Endeavor Agreement with the City of New Orleans to allow for the City to utilize proceeds from its 2021A Public Improvement Bonds to assist the Board's Carrollton Power Plant by specifically funding the purchase of two additional Static Frequency Changers and auxiliary power equipment as part of the building of the West Power Complex.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
(Continued)

18. Subsequent Events (continued)

Total Funding of \$22,000,000 was provided to the Board and will remain deposited until such time as the amounts are payable to the third-party equipment vendors.

In May 2022, the Board entered into a Cooperative Endeavor Agreement with the City of New Orleans to allow for the funding by the City of a new electrical substation which will be built and owed by Entergy New Orleans. The City has agreed to transfer a total of \$30,000,000 which will fund the cost of the electrical substation through a series of agreements with Entergy New Orleans and the Board. The first half of the funding due to Entergy to secure the project was provided in May 2022 and the new substation is an integral part of the Strategic and Power Master plan to provide a more stable source of primary power.

Note to schedule:

Valuation Date: January 1, 2021

Actuarially determined contribution rates are calculated as of January 1, 2021, which is the most recent valuation date prior to the end of the fiscal year in which contributions are reported.

Actuarial cost method	Entry age
Amortization method	Level dollar, layers closed periods
Remaining amortization period	Layered amortization with 29 years remaining on unfunded accrued liability at date of transition to funding method
Asset valuation method	7-year smoothed market
Inflation	2.5%
Salary increases	4.00% to 6.25%, including inflation
Investment rate of return	7.0%, net of pension plan investment expense, including inflation
Retirement age	Rates that vary by age and service
Mortality	Amount-weighted General Tables (i.e., PubG-2010 multiplied by 122% for males and 119% for females projected generationally using Scale MP-2019 mortality improvement rates with the male projection factors multiplied by 86% and female projection factors multiplied by 79%)

SCHEDULE OF INVESTMENT RETURNS

Year Ended	Net Money-Weighted Rate of Return
2021	14.96%
2020	9.67%
2019	15.97%
2018	-3.31%
2017	10.52%
2016	5.42%
2015	-1.79%
2014	4.94%

Note to schedule:

This schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

Notes to Schedules:

1. This schedule is prepared using the optional format of combining the required schedules in Paragraph Nos. 46.a. and 46.b. of GASB No. 68. Until a full 10-year trend is compiled, governments should present information for those years for which information is available. Amounts recognized in the fiscal year represent changes between the current and prior measurement dates. History prior to 2014 is not shown in this report but is maintained by the employer.
2. Information is presented using a December 31, 2021 measurement date as permitted under Paragraph No. 20 of GASB No. 68.
3. City annuity and other transfers in; prior to 2018, these amounts were combined with "Benefit payments, including refunds of employee contributions".
- 4 Total compensation (not just pensionable compensation, if different) based on census used in the valuation per Q/A No. 106 of the *Guide to Implementation of GASB Statement 68*.

Notes to Schedule:

1. This schedule is intended to show information for 10 years. Additional years will be displayed as they become available.
2. Information is presented using measurement date which is the same as the fiscal year end.
3. There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB 75 for this OPEB plan.
4. *Benefit Changes:* None.
5. *Changes in assumptions or other inputs for FY2021 :* Assumed Expenses, Assumed Per Capita Health Benefit Costs, Assumed Health Benefit Cost trend and Retiree Contribution trend have all been updated since the previous valuation. In addition, the discount rate was updated to 2.06% for the end of FY2021.
6. *Changes in assumptions or other inputs for FY2020:* Assumed Expenses, Assumed Per Capita Health Benefits Costs, Assumed Health Benefit Cost trend and Retiree Contribution trend have all been updated since the previous valuation. In addition, certain demographic and economic assumptions (i.e., rates of retirement, disability, termination and mortality, DROP participation, credited service for unused leave, assumed age difference for future retiree spouses and assumed salary increases) have been updated to reflect assumptions adopted by the Board of Trustees since the last valuation date. Lastly, the discount rate was updated to 2.12% for the end of FY2020.
7. *Changes in assumptions or other inputs for FY2019:* Assumed Expenses, Assumed Per Capita Health Benefits Costs, Assumed Health Benefit Cost trend and Retiree Contribution trend have all been updated since the previous valuation. In addition, the discount rate was updated to 2.74% for the end of FY2019.
8. *Changes in assumptions or other inputs for FY2018:* Assumed Expenses, Assumed Per Capita Health Benefits Costs, Assumed Health Benefit Cost

End of year 2018	4.10%
Beginning of year 2018	3.44%

STATISTICAL SECTION

WORKFORCE DEVELOPMENT AND ENRICHMENT:
Another key focus area is Workforce Development and Enrichment in which we support and develop a high-performing team that is skilled, committed, inspired, rewarded, engaged, and accountable.

SEWERAGE AND WATER BOARD OF NEW ORLEANS
SUMMARY OF STATISTICAL INFORMATION
December 31, 2021
(Unaudited)

This part of the Board's Annual Comprehensive Financial report presents detailed information as a context for understanding what the information in the financial statement, note disclosure, and required supplementary information says about the Board's overall financial health.

Financial Trends:

These schedules contain trend information to help the reader understand how the Board's financial performance and well-being have changed over time.

Revenue Capacity:

These schedules contain information to help the reader assess the Board's most significant local revenue source, the property tax.

Debt Capacity:

These schedules present information to help the reader assess the affordability of the Board's current levels of outstanding debt and the Board's ability to issue additional debt in the future.

Demographic and Economic Information:

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Board's financial activities take place.

Operating Information:

These schedules contain service and infrastructure data to help the reader understand how the information in the Board's financial report relates to the services the Board provides and the activities it performs.

SUPPLEMENTAL SECTION

INFRASTRUCTURE RESILIENCY & RELIABILITY: We identified six key focus areas as part of our 5-year strategic plan. One is Infrastructure Resiliency and Reliability. We seek to improve efficiency and resilience of current and future infrastructure by leveraging partnerships and innovative approaches to funding and sustainable design.

E. coli (CFUs/100 ml)	-----	-----	-----	0	0	0

The results for constituents indicated with asterisks are from the Louisiana Department of Health or an LDH certified contract laboratory.

All other results are from testing by the S&WB Water Quality Laboratory.

Lead and Copper results are from 2019 Lead and Copper Rule compliance testing.

Concerning the chemical results, the S&WB Laboratory does not meet the higher criteria required by LDH to be classified as an "LDH-OPH *Certified* Chemical Laboratory/Drinking Water;" therefore, any results reported by this laboratory for chemical drinking water parameters which are required to be analyzed in a certified laboratory are officially deemed invalid.

The S&WB Laboratory is certified by LDH for Total Coliform and E. coli testing.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Members of the Board
Sewerage and Water Board of New Orleans:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Sewerage and Water Board of New Orleans (the "Board"), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements, and have issued our report thereon dated June 29, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM
GUIDANCE AND THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

To the Members of the Board
Sewerage and Water Board of New Orleans:

Report on Compliance for Each Major Federal Program

Opinion on the Major Federal Program

We have audited Sewerage and Water Board of New Orleans' (the "Board") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on the Board's major federal program for the year ended December 31, 2021. The Board's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2021.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Board and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the Board's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Board's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Board's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Board's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Board's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Board's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the Board, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements. We issued our report thereon dated June 29, 2022, which contained unmodified opinions on those financial statements. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

SEWERAGE AND WATER BOARD OF NEW ORLEANS
New Orleans, Louisiana

Notes to Schedule of Expenditures of Federal Awards

Year ended December 31, 2021

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the Sewerage and Water Board of New Orleans (the "Board") under programs of the federal government for the year ended December 31, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Board, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the Board.

(2) Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The Board has elected not to use the 10% de minimus cost rate allowed under the Uniform Guidance.

(3) Relationship to Basic Financial Statements

Federal awards are included in capital contributions on the statement of revenues, expenses, and changes in net position.

(4) Bonds Payable to Pass-Through Entity Under Federal Program

The Board entered into an agreement with the Louisiana Department of Environmental Quality (LDEQ) whereby the LDEQ has committed to loan the Board up to \$10,000,000 to fund the rehabilitation of existing sanitary sewers, replacement of sanitary sewer service connections, excavation mainline sewer point repairs, full length mainline replacements, and manhole rehabilitation. The loan proceeds are provided to the Board in incremental amounts as project costs are incurred. A portion of the loan proceeds are funded by the federal Clean Water State Revolving Fund (CWSRF) program. The indebtedness to the LDEQ is evidenced through the Sewerage Service Revenue Bond, Series 2019. Annual principal payments are due beginning June 1, 2022 and continuing through June 1, 2040. Interest on the bonds is incurred at the rate of 0.45%, and the LDEQ administrative fee rate is 0.5%. Interest and administrative fee payments began on June 1, 2020 and are due semi-annually thereafter. As of December 31, 2021, \$3,055,227 is included in bonds payable on the financial statements. Total 2021 drawdowns on the loan were \$2,927,677. Of this amount, \$292,689 was funded by the CWSRF program which is the amount included on the Schedule. This is not a federal loan or loan guarantee program, and as a result, the outstanding liability is not included on the Schedule.

SEWERAGE AND WATER BOARD OF NEW ORLEANS
New Orleans, Louisiana

Notes to Schedule of Expenditures of Federal Awards

Year ended December 31, 2021

(4) Bonds Payable to Pass-Through Entity Under Federal Program (continued)

On November 10, 2021, the Board closed on a \$275,000,000 revenue debt issue through the Water Infrastructure Financing and Innovation Act (WIFIA) with the U.S. Environment Agency (EPA) to fund over 160 projects to modernize aging and storm damaged sewer pipelines throughout the City of New Orleans as part of a comprehensive Sewer System Evaluation and Rehabilitation Program. The WIFIA debt will be due in semi-annual installments of interest and annual payments of principal, with a final maturity date of 35 years following the substantial completion date of the projects. The total 2021 WIFIA debt proceeds were \$936,848 which is included in bonds payable on the financial statements.

None

(3) Findings and questioned costs related to federal awards

None

SEWERAGE AND WATER BOARD OF NEW ORLEANS
New Orleans, Louisiana

Summary Schedule of Prior Audit Findings

Year ended December 31, 2021

Findings relating to the basic financial statements reported in accordance with *Government Auditing Standards*

2020-001, 2019-002, 2018-002, 2017-002, 2016-001 Customer Accounts, Receivable and Revenue

Criteria: The Board should have adequate internal controls in place to ensure customer accounts are billed and recorded correctly in the accounting records.

Condition: The Board implemented a new customer billing system in October 2016 which substantially changed the billing processing environment from a once-daily batch update process to a real-time continuous update process. Following this conversion, the Board continued to work through various billing issues which included an increased in estimated bills, a high number of disputed billings, and late billings, which resulted in an increase in the adjustments required to customer accounts including invoice corrections.

The Louisiana Legislative Auditor's Office (the LLA) conducted a performance audit of the Board's customer billing system and issued the report titled "Implementation of New Billing System and Oversight of Billing Process" dated March 19, 2020. The LLA identified certain deficiencies including problems with implementation of the new billing system, inadequate training of employees, timeliness of meter readings, and inaccurate calculation and tracking of free water consumption to ensure that customers eligible for free water will billed for consumption in excess of free water thresholds. On March 17, 2021, the LLA issued a follow-up Performance Audit Services report that included the status of the 11 recommendations made in the 2020 report. Based on the results of this report, the Board has fully implemented 3 of the 11 recommendations. Implementation of the remaining 8 recommendations is in progress.

Recommendations: The Board should complete implementation of the remaining recommendations from the LLA's performance audit that were not completed as of the LLA's March 17, 2021 status report including the procurement of automatic meter reading technology and equipment and increasing the number of actual meter readings each month to continue to reduce the number of estimated billings.

Status: Resolved

INDEPENDENT ACCOUNTANTS' REPORT
ON APPLYING AGREED-UPON PROCEDURES

To the Honorable LaToya Cantrell, President, and Members of the Sewerage and Water Board of New Orleans, Louisiana, and the Louisiana Legislative Auditor:

We have performed the procedures enumerated below on the control and compliance (C/C) areas identified in the Louisiana Legislative Auditor's (LLA's) Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period January 1, 2021 through December 31, 2021. Sewerage and Water Board of New Orleans (SWBNO)'s management is responsible for those C/C areas identified in the SAUPs.

SWBNO has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in LLA's SAUPs for the fiscal period January 1, 2021 through December 31, 2021. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures we performed, and the associated findings are summarized in the attached Schedule A, which is an integral part of this report.

We were engaged by SWBNO to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of SWBNO and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.

AGREED-UPON PROCEDURES PERFORMED AND ASSOCIATED FINDINGS

FOR THE YEAR ENDED DECEMBER 31, 2021

The procedures performed and the results thereof are set forth below. The procedure is stated first, followed by the results of the procedure presented in italics. If the item being subjected to the procedures is positively identified or present, then the results will read *“no exceptions noted”* or for step 25 *“we performed the procedure and discussed the results with management”*. If not, then a description of the exception ensues.

A. Written Policies and Procedures

1. Obtain and inspect the entity’s written policies and procedures and observe whether they address each of the following categories and subcategories if applicable to public funds and the entity’s operations:

a) **Budgeting**, including preparing, adopting, monitoring, and amending the budget

The entity has written policy for Budgeting; however the policy does not specifically address policy related to budget amendment.

b) **Purchasing**, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the Public Bid Law; and (5) documentation required to be maintained for all bids and price quotes.

No exceptions noted.

c) **Disbursements**, including processing, reviewing, and approving.

No exceptions noted.

d) **Receipts/Collections**, including receiving, recording, and preparing deposits. Also, policies and procedures should include management’s actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g. periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).

No exceptions noted.

e) **Payroll/Personnel**, including (1) payroll processing, (2) reviewing and approving time and attendance records, including leave and overtime worked, and (3) approval process for employee(s) rate of pay or approval and maintenance of pay rate schedules.

No exceptions noted.

f) **Contracting**, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.

No exceptions noted.

g) **Credit Cards (and debit cards, fuel cards, P-Cards, if applicable)**, including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).

Not applicable. The entity does not have any active credit cards, bank debit cards, fuel cards, and P-cards for the fiscal period.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

AGREED-UPON PROCEDURES PERFORMED AND ASSOCIATED FINDINGS

FOR THE YEAR ENDED DECEMBER 31, 2021

- h) **Travel and expense reimbursement**, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.

No exceptions noted.

- i) **Ethics**, including (1) the prohibitions as defined in Louisiana Revised Statute (R.S.) 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) a requirement that documentation is maintained to demonstrate that all employees and officials were notified of any changes to the entity's ethics policy.

No exceptions noted.

- j) **Debt Service**, including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.

No exceptions noted.

- k) **Information Technology Disaster Recovery/Business Continuity**, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.

No exceptions noted.

- l) **Sexual Harassment**, including R.S. 42:342-344 requirements for (1) agency responsibilities and prohibitions, (2) annual employee training, and (3) annual reporting.

No exceptions noted.

B. Board or Finance Committee

2. Obtain and inspect the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and:

- a) Observe that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.

No exceptions noted.

- b) For those entities reporting on the governmental accounting model, observe whether the minutes referenced or included monthly budget-to-actual comparisons on the general fund, quarterly budget-to-actual, at a minimum, on proprietary funds, and semi-annual budget-to-actual, at a minimum, on all special revenue fund. *Alternately, for those entities reporting on the nonprofit accounting model, observe that the minutes referenced or included financial activity relating to public funds if those public funds comprised more than 10% of the entity's collections during the fiscal period.*

No exceptions noted.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

AGREED-UPON PROCEDURES PERFORMED AND ASSOCIATED FINDINGS

FOR THE YEAR ENDED DECEMBER 31, 2021

- c) For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.

No exceptions noted.

C. Bank Reconciliations

3. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select four additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that:

A listing of bank accounts was provided and included a total of 26 bank accounts. Management identified the entity's main operating account. No exceptions were noted as a result of performing this procedure.

From the listing provided, we selected five bank accounts (one main operating and four others) and obtained the bank reconciliations for the month ending June 30, 2021, resulting in five bank reconciliations obtained and subjected to the below procedures.

- a) Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated or electronically logged);

No exceptions noted.

- b) Bank reconciliations include evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged);

No exceptions noted.

- c) Management has documentation reflecting it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.

No exceptions noted.

D. Collections (excluding electronic funds transfers)

4. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).

A listing of deposit sites was provided and included a total of 2 deposit sites. No exceptions were noted as a result of performing this procedure.

From the listing provided, we randomly selected two deposit sites and performed the procedures below.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

AGREED-UPON PROCEDURES PERFORMED AND ASSOCIATED FINDINGS

FOR THE YEAR ENDED DECEMBER 31, 2021

5. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e. 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:

A listing of collection locations for each deposit site selected in procedure #4 was provided.

From each of the listings provided, we randomly selected one collection location for each deposit site. Review of the entity's written policies and procedures or inquiry with employee(s) regarding job duties was performed in order to perform the procedures below.

- a) Employees responsible for cash collections do not share cash drawers/registers.

No exceptions noted.

- b) Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g. pre-numbered receipts) to the deposit.

No exceptions noted.

- c) Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.

No exceptions noted.

- d) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions, are not responsible for collecting cash, unless another employee/official verifies the reconciliation.

No exceptions noted.

6. Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe the bond or insurance policy for theft was enforced during the fiscal period.

No exceptions noted.

7. Randomly select two deposit dates for each of the 5 bank accounts selected for procedure #3 under "Bank Reconciliations" above (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). *Alternately, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc.* Obtain supporting documentation for each of the 10 deposits and:

We randomly selected two deposit dates for each of the five bank accounts selected in procedure #3 that resulted in a total of 10 deposits. We obtained supporting documentation for each deposit and performed the procedures below.

- a) Observe that receipts are sequentially pre-numbered.

No exceptions noted.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

AGREED-UPON PROCEDURES PERFORMED AND ASSOCIATED FINDINGS

FOR THE YEAR ENDED DECEMBER 31, 2021

- b) Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.

No exceptions noted.

- c) Trace the deposit slip total to the actual deposit per the bank statement.

No exceptions noted.

- d) Observe the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).

No exceptions noted.

- e) Trace the actual deposit per the bank statement to the general ledger.

No exceptions noted.

E. Non-Payroll Disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases)

- 8. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).

The entity only has one location that processed payments for the fiscal period provided. We selected the one location and performed the procedures below.

- 9. For each location selected under #8 above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:

The listing of employees involved with non-payroll purchasing and payment functions for each payment processing location selected in procedure #8 was provided. No exceptions were noted as a result of performing this procedure.

Review of the entity's written policies and procedures or inquiry with employee(s) regarding job duties was performed in order to perform the procedures below.

- a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.

No exceptions noted.

- b) At least two employees are involved in processing and approving payments to vendors.

No exceptions noted.

- c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.

No exceptions noted.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

AGREED-UPON PROCEDURES PERFORMED AND ASSOCIATED FINDINGS

FOR THE YEAR ENDED DECEMBER 31, 2021

- d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.

No exceptions noted.

10. For each location selected under #8 above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction and:

A listing of non-payroll disbursements for each payment processing location selected in procedures #8 was provided related to the reporting period. No exceptions were noted as a result of performing this procedure.

From the listing provided, we randomly selected five disbursements and performed the procedures below.

- a) Observe whether the disbursement matched the related original itemized invoice, and that supporting documentation indicates deliverables included on the invoice were received by the entity.

No exceptions noted.

- b) Observe whether the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #9, as applicable.

No exceptions noted.

F. Credit Cards/Debit Cards/Fuel Cards/P-Cards

Procedures 11 through 13 are not applicable as the entity does not have credit cards, debit cards, fuel cards, or P-cards.

G. Travel and Travel-Related Expense Reimbursements (excluding card transactions)

14. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements, obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected:

The listing of travel and travel-related expense reimbursements was provided for the fiscal period. No exceptions were noted as a result of performing this procedure.

From the listing provided, we randomly selected five reimbursements and performed the procedures below.

- a) If reimbursed using a per diem, observe the approved reimbursement rate is no more than those rates established either by the State of Louisiana or the U.S. General Services Administration (www.gsa.gov).

No exceptions noted.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

AGREED-UPON PROCEDURES PERFORMED AND ASSOCIATED FINDINGS

FOR THE YEAR ENDED DECEMBER 31, 2021

- b) If reimbursed using actual costs, observe the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.

No exceptions noted.

- c) Observe each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by written policy (procedure #1h).

No exceptions noted.

- d) Observe each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

No exceptions noted.

H. Contracts

15. Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. *Alternately, the practitioner may use an equivalent selection source, such as an active vendor list.* Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, excluding the practitioner's contract, and:

An active vendor list for the fiscal period was provided. No exceptions were noted as a result of performing this procedure.

From the listing provided, we randomly selected five contracts and performed the procedures below.

- a) Observe whether the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law.

No exceptions noted.

- b) Observe whether the contract was approved by the governing body/board, if required by policy or law (e.g. Lawrason Act, Home Rule Charter).

No exceptions noted.

- c) If the contract was amended (e.g. change order), observe the original contract terms provided for such an amendment and that amendments were made in compliance with the contract terms (e.g. if approval is required for any amendment was approval documented).

No exceptions noted.

- d) Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe the invoice and related payment agreed to the terms and conditions of the contract.

No exceptions noted.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA
AGREED-UPON PROCEDURES PERFORMED AND ASSOCIATED FINDINGS
FOR THE YEAR ENDED DECEMBER 31, 2021

I. Payroll and Personnel

16. Obtain a listing of employees/elected officials employed during the fiscal period.

Randomly select 5 employees/officials and obtain related paid salaries and personnel files and agree paid salaries to authorized salaries/pay rates in the personnel files.

A listing of employees/elected officials employed during the fiscal year was provided. No exceptions were noted as a result of performing this procedure.

From the listing provided, we randomly selected five employees/officials and performed the specified procedures. No exceptions noted.

17. Randomly select one pay period during the fiscal period and perform the following:

a) Observe that all selected employees/officials documented their daily attendance and leave (e.g., vacation, sick, compensatory).

No exceptions noted.

b) Observe that supervisors approved the attendance and leave of the selected employees/officials.

No exceptions noted.

c) Observe that any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records.

No exceptions noted.

d) Observe that the rate paid to the employees or officials agree to the authorized salary/pay rate found within the personnel file

No exceptions noted.

18. Obtain a listing of those employees/officials that received termination payments during the fiscal period.

A listing of employees/officials receiving termination payments during the fiscal period was provided. No exceptions were noted as a result of performing this procedure.

a) Randomly select 2 employees/officials and obtain related documentation of the hours and pay rates used in management's termination payment calculations, agree the hours to the employee/officials' cumulative leave records, and agree the pay rates to the employee/officials' authorized pay rates in the employee/officials' personnel files. Also, agree the termination payment was made in accordance with the policy.

No exceptions noted.

19. Obtain management's representation that employer and employee portions of payroll taxes, retirement contributions, health insurance premiums, and workers' compensation premiums have been paid, and associated forms have been filed, by required deadlines.

No exceptions noted.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

AGREED-UPON PROCEDURES PERFORMED AND ASSOCIATED FINDINGS

FOR THE YEAR ENDED DECEMBER 31, 2021

J. Ethics

20. Using the 5 randomly selected employees/officials from procedure #16 under "Payroll and Personnel" above, obtain ethics documentation from management, and:

a) Observe whether the documentation demonstrates each employee/official completed one hour of ethics training during the fiscal period.

No exceptions noted.

b) Observe whether the entity maintains documentation which demonstrates each employee and official were notified of any changes to the entity's ethics policy during the fiscal period, as applicable.

No exceptions noted.

K. Debt Service

21. Obtain a listing of bonds/notes and other debt instruments issued during the fiscal period and management's representation that the listing is complete. Select all debt instruments on the listing, obtain supporting documentation, and observe State Bond Commission approval was obtained for each debt instrument issued.

No exceptions noted.

22. Obtain a listing of bonds/notes outstanding at the end of the fiscal period and management's representation that the listing is complete. Randomly select one bond/note, inspect debt covenants, obtain supporting documentation for the reserve balance and payments, and agree actual reserve balances and payments to those required by debt covenants (including contingency funds, short-lived asset funds, or other funds required by the debt covenants).

A listing of bonds/notes outstanding at the end of the fiscal period was provided. No exceptions were noted as a result of performing this procedure.

From the listing provided, we randomly selected one bond/note and performed the specified procedures. No exceptions noted.

L. Fraud Notice

23. Obtain a listing of misappropriations of public funds and assets during the fiscal period and management's representation that the listing is complete. Select all misappropriations on the listing, obtain supporting documentation, and observe that the entity reported the misappropriation(s) to the legislative auditor and the district attorney of the parish in which the entity is domiciled.

Management represented that there were no misappropriations of public funds and assets during the fiscal period. No exceptions were noted as a result of performing this procedure.

24. Observe the entity has posted on its premises and website, the notice required by R.S. 24:523.1 concerning the reporting of misappropriation, fraud, waste, or abuse of public funds.

No exceptions noted.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

AGREED-UPON PROCEDURES PERFORMED AND ASSOCIATED FINDINGS

FOR THE YEAR ENDED DECEMBER 31, 2021

M. Information Technology Disaster Recovery/Business Continuity

25. Perform the following procedures:

- a) Obtain and inspect the entity's most recent documentation that it has backed up its critical data (if no written documentation, inquire of personnel responsible for backing up critical data) and observe that such backup occurred within the past week. If backups are stored on a physical medium (e.g., tapes, CDs), observe evidence that backups are encrypted before being transported.

We performed the procedure and discussed the results with management.

- b) Obtain and inspect the entity's most recent documentation that it has tested/verified that its backups can be restored (if no written documentation, inquire of personnel responsible for testing/verifying backup restoration) and observe evidence that the test/verification was successfully performed within the past 3 months.

We performed the procedure and discussed the results with management.

- c) Obtain a listing of the entity's computers currently in use, and their related locations, and management's representation that the listing is complete. Randomly select 5 computers and observe while management demonstrates that the selected computers have current and active antivirus software and that the operating system and accounting system software in use are currently supported by the vendor.

We performed the procedure and discussed the results with management.

N. Sexual Harassment

26. Using the 5 randomly selected employees/officials from procedure #16 under "Payroll and Personnel" above, obtain sexual harassment training documentation from management, and observe the documentation demonstrates each employee/official completed at least one hour of sexual harassment training during the calendar year.

No exceptions noted.

27. Observe the entity has posted its sexual harassment policy and complaint procedure on its website (or in a conspicuous location on the entity's premises if the entity does not have a website).

No exceptions noted.

28. Obtain the entity's annual sexual harassment report for the current fiscal period, observe that the report was dated on or before February 1, and observe it includes the applicable requirements of R.S. 42:344:

No exceptions noted.

- a) Number and percentage of public servants in the agency who, have completed the training requirements;

No exceptions noted.

- b) Number of sexual harassment complaints received by the agency;

No exceptions noted.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA
AGREED-UPON PROCEDURES PERFORMED AND ASSOCIATED FINDINGS
FOR THE YEAR ENDED DECEMBER 31, 2021

- c) Number of complaints which resulted in a finding that sexual harassment occurred;
No exceptions noted.
- d) Number of complaints in which the finding of sexual harassment resulted in discipline or corrective action;
No exceptions noted.
- e) Amount of time it took to resolve each complaint.
No exceptions noted.

SEWERAGE AND WATER BOARD OF NEW ORLEANS, LOUISIANA

MANAGEMENT'S RESPONSE AND CORRECTIVE ACTION PLAN

FOR THE YEAR ENDED DECEMBER 31, 2021

Obtain management's response and corrective action plan for any exceptions noted in the above agreed upon-procedures.

Procedure: 1a.

Results: The entity has written policy for Budgeting; however the policy does not specifically address policy related to budget amendment.

Management Corrective Action: Management is in agreement and will augment the written policy to include parameters for amending the budget.
