MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Natchitoches Parish Fire District No. 1's (hereafter referred to as the District) annual financial report presents an overview and analysis of the District's financial activities for the year ended December 31, 2022. The intent of the MD&A is to look at the District's financial performance as a whole. It should, therefore be read in conjunction with this report. Certain comparative information is presented to provide an overview of the District's operations.

Financial Highlights

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and presents a longer-term view of the District's finances. These statements tell how these services were financed in the short-term as well as what remains for future spending.

Government-Wide Financial Statements

- The Statement of Net Position presents all of the District's assets and liabilities, with the difference between the two reported as "net position". Over time, increases or decreases in the District's net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.
- The Statement of Activities presents information showing how the District's net position changed during the current year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Therefore, some revenues and some expenses that are reported in this statement will not result in cash flows until future years.

Fund Financial Statements

The services provided by the District are financed through a governmental fund. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District conducts its day-to-day operations through a governmental fund, the General Fund. These statements provide a short-term view of the District's finances and assists in determining whether there will be adequate financial resources available to meet the current needs of the District.

A summary of the basic government-wide financial statements is as follows:

Economic Factors and Next Year's Budget

As the primary revenue source for the District is property taxes, this type of tax is not subject to changes in the economy, in the short-term. However, in the long-term, significant increases or decreases in the tax base would be evident. Revenues and expenditures for 2023 should not change significantly from 2022.

NOTES TO FINANCIAL STATEMENTS

Natchitoches Parish Fire Protection District No. 1
Notes to Financial Statements
December 31, 2022

1. Introduction:

Natchitoches Parish Fire Protection District No. 1 was created by the Natchitoches Parish Government, by ordinance in June 1982, under the provisions of Louisiana Revised Statutes 40:1492-1601, for the purpose of providing fire protection for the citizens of the District. The District is governed by a Board of Commissioners who are resident property taxpayers of the District. The commissioners are approved/appointed by the Natchitoches Parish Government. The District was created to acquire and maintain buildings, machinery, equipment, water tanks, water hydrants and water lines, and any other such things necessary to provide proper fire protection and control within the District.

2. Summary of Significant Accounting Policies:

The accounting and reporting policies of Natchitoches Parish Fire Protection District No. 1 conform to generally accepted accounting principles as applicable to governmental units. Such accounting and reporting policies also conform to the requirements of Louisiana Revised Statutes 24:517 and to the guides set forth in the *Louisiana Governmental Audit Guide*.

A. Reporting Entity-

As the governing authority of the Parish, for reporting purposes, the Natchitoches Parish Government is the financial reporting entity for Natchitoches Parish. The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the Natchitoches Parish Government for financial reporting purposes. The basic criteria for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body and
 - a. The ability of the Parish Government to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Parish Government.
2. Organizations for which the Parish Government does not appoint a voting majority but are fiscally dependent on the Parish Government.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Natchitoches Parish Fire Protection District No. 1
Notes to Financial Statements
December 31, 2022

Because the Natchitoches Parish Government created, by ordinance, Fire District No. 1, the District was determined to be a component unit of the Natchitoches Parish Government, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Natchitoches Parish Government, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

B. Basis of Presentation-

Government-Wide Financial Statements (GWFS)

The Statement of Net Position and Statement of Activities report information about the reporting government as a whole. They include all funds of the reporting entity. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

The Statement of Net Position presents the governmental-type activities on a consolidated basis, and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function. Program revenues include (a) fees and charges paid by the recipient for goods or services offered by the program, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

C. Fund Accounting-

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds maintained is consistent with legal and managerial requirements.

The District maintains only one fund. It is categorized as a governmental fund. The emphasis on fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the entity.

The major fund of the District is described below:

Governmental Fund-

General Fund

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Natchitoches Parish Fire Protection District No. 1
Notes to Financial Statements

D. Measurement Focus/Basis of Accounting-

Basis of accounting refers to when revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual Basis - Government-Wide Financial Statements (GWFS)

The Statement of Net Position and the Statement of Activities display information about the District as a whole. Both of these statements have been prepared using the economic measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Modified Accrual Basis - Fund Financial Statements (FFS)

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., when they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues "available" if collected within 60 days after year-end. Expenditures are generally recorded under the modified accrual basis of accounting when the related liability is incurred. The exceptions to this general rule are that (1) unmatured principal and interest on long-term debt, if any, are recorded when due and (2) claims and judgments and compensated absences are recorded as expenditures when paid with expendable available financial resources.

E. Assets, Liabilities, and Equity-

Cash and Interest-Bearing Deposits-

For purposes of the Statement of Net Position, cash and interest-bearing deposits include all demand accounts, savings accounts, and certificates of deposit of the District.

Capital Assets-

Capital assets, which include property, plant, and equipment, are reported in the governmental activities' column in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$500 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of that asset or materially extend the life of that asset are not capitalized.

Natchitoches Parish Fire Protection District No. 1
Notes to Financial Statements
December 31, 2022

Depreciation of all exhaustible capital assets is recorded as an expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of useful lives by type of asset is as follows:

Furniture, computers	5 years
Firefighting equipment	10 years
Ladders, hoses, airpaks	7 years
Radios	10 years
Fire trucks	15 years
Other vehicles	5 years
Buildings	40 years

Compensated Absences-

There are no employees of the District, therefore no entry is made to record compensated absences.

Equity Classifications-

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position - Consists of net resources with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provision or enabling legislation.
- c. Unrestricted net position - All other net resources that do not meet the definition of "restricted" or "net investment in capital assets".

When an expense is incurred for the purposes for which both restricted and unrestricted net position are available, management applies unrestricted net resources first, unless a determination is made to use restricted net resources. The policy concerning which to apply first varies with the intended use and legal requirements. This decision is typically made by management at the incurrence of the expense.

In the fund statements, governmental fund equity is classified as fund balance and displayed in five components. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- a. Nonspendable fund balance - amounts that are not in a spendable form (such as prepaid expenses) or are required to be maintained intact;
- b. Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;

Natchitoches Parish Fire Protection District No. 1
Notes to Financial Statements
December 31, 2022

- c. Committed fund balance - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint;
- d. Assigned fund balance - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- e. Unassigned fund balance - amounts that are available for any purpose; positive amounts are reported only in the general fund.

The General Fund has an unassigned fund balance of \$833,155. If applicable, the District would typically use restricted fund balances first, followed by committed resources and assigned resources as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first and to defer the use of these other classified funds.

F. Budget-

Prior to the beginning of each fiscal year, the Natchitoches Parish Fire Protection District No. 1 adopts a budget for the next fiscal year. The budget is open for public inspection. All budgetary appropriations lapse at the end of the fiscal year. The budget is prepared on the modified accrual basis of accounting.

G. Estimates-

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

3. Cash and Cash Equivalents:

The cash and cash equivalents of the Natchitoches Parish Fire Protection District No. 1 are subject to the following risk:

Custodial Credit Risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover its deposits. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal or exceed the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the District that the fiscal agent bank has failed to pay deposited funds upon demand. Further, Louisiana Revised Statute 39:1224 states that securities held by a third party shall be deemed to be held in the District's name.

Compare the documentation for these expenditures to Louisiana Revised Statute (R.S.) 36:1551-39:1755 (the state procurement code) or R.S. 38:2211-2296 (the public bid law), whichever is applicable; and report whether the expenditures were made in accordance with these laws.

No expenditures found to be in violation.

Management provided us with the required list including the noted information.

3. Obtain a list of all employees paid during the fiscal year.

Management provided us with the requested list.

4. Report whether any employees' names appear on both lists obtained by Procedures 2 and 3.

No instances that would fall under the above circumstances were found.

5. Obtain a list of all disbursements made during the year; and a list of outside business interest of board members, employees, and board members' and employees' immediate families. Report whether any vendors appear on both lists.

Management provided the requested information. None of the business interests of board members, employees, and their immediate families appeared as vendors on the list of disbursements.

6. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the original and amended budgets.

7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book, and report whether there are any exceptions.

We traced adoption of the original budget to the documentation in the minutes of the meeting of the district's commissioners held on December 2, 2021. Management represented that there were amendments to the budget.

8. Compare the revenues and expenditures of the final budget to actual budget revenues and expenditures. Report whether actual revenues failed to meet budgeted revenues by 5% or more, and whether actual expenditures exceeded budgeted amounts by 5% or more.

We compared the revenues and expenditures for the final budget to actual revenues and expenditures. Actual revenues and expenditures were within the 5% variance allowed.

ACCOUNTING AND REPORTING

9. Obtain the list of all disbursements made during the fiscal year. Randomly select six disbursements, and obtain documentation from management for these disbursements. Compare the selected disbursements to the supporting documentation, and:

- (a) Report whether the six disbursements agree to the amount and the payee in the supporting documentation.

Each of the six selected disbursements agreed to the amount and payee in the supporting documentation.

- (b) Report whether the six disbursements were coded to the correct fund and general ledger account.

Each of the six selected disbursements were coded to the correct general ledger account.

- (c) Report whether the six disbursements were approved in accordance with management's policies and procedures.

The district's policies and procedures state that the chairman of the District's Board of Commissioners must approve all disbursements, with subsequent approval by the full board. Documentation supporting each of the six selected disbursements included the signature of the chairman of the Board of Commissioners. In addition, approval by the full commission of each disbursement was traced to the district's minute book.

10. Obtain evidence from management to support those agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11 through 42:28 (the open meetings law); and report whether there are any exceptions.

Although management has asserted that such documents were properly posted, no evidence was provided to support management's assertion other than an unmarked copy of the notices and agendas.

11. Obtain bank deposit slips for the fiscal year, and scan the deposit slips in order to identify and report whether there are any deposits that appear to be proceeds of bank loans, bonds, or like indebtedness. If any such proceeds are identified, obtain from management evidence of approval by the State of Bond Commissions, and report any exceptions.
