We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Evangeline Parish School Board (School Board), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board, as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School Board's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government* Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedules, schedule of changes in total OPEB liability and related ratios, schedule of employer's share of net pension liability, and schedule of employer contributions, pages 48 – 56, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures to express an opinion or provide us with sufficient evidence to express an opinion or provide any assurance.

The School Board has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context — Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School Board's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures, and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the Umited States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the combining and individual nonmajor fund financial statements but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2023, on our consideration of the School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School Board's internal control over financial reporting and compliance.

statement of revenues, expenditures and changes in fund balances		\$(3,110,927)
The change in net position reported for governmental activities in the statement of activities is different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense Facilities acquisition, construction costs, and equipment which are considered expenditures on the statement of revenues, expenditures and changes in fund balances Depreciation expense	\$ 4,228,560 _(1,358,509)	2,870,051
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal on long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are amortized in the statement of activities over multiple periods.		
Payment of notes payable	178,750	
Repayment of bond principal	826,000

Notes to Basic Financial Statements

(1) Summary of Significant Accounting Policies

The accompanying financial statements of the Evangeline Parish School Board (School Board) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

The School Board was created by Louisiana Revised Statute (LRS-R.S.) 17:51 to provide public education for the children within Evangeline Parish. The School Board is authorized by LRS-R.S. 17:81 to establish policies and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of thirteen members who are elected from thirteen districts for terms of four years.

The School Board operates twelve schools within the parish with a total enrollment of 5,686 pupils, based on the October 2022 official MFP Student Count In conjunction with the regular educational programs, some of these schools offer special education and or adult education programs. In addition, the School Board provides transportation and school food services for the students

A. <u>Financial Reporting Entity</u>

For financial reporting purposes, the School Board includes all funds and activities for which the School Board exercises financial accountability. Because the School Board members are independently elected and are solely accountable for fiscal matters, which include (1) budget authority, (2) responsibility for funding deficits and operating deficiencies, and (3) fiscal management for controlling the collection and disbursement of funds, the School Board is a separate governmental reporting entity, primary government. The School Board has no component units nor is it a component unit of any other entity.

B. Basis of Presentation

Government-Wide Financial Statements (GWFS)

The statement of net position and the statement of activities display information about the reporting government, as a whole. These statements include all funds of the reporting entity, which are considered to be governmental activities. Governmental activities are generally financed through taxes, intergovernmental revenues, and other nonexchange revenues. Fiduciary funds are omitted from the government-wide financial statements. The School Board has no fiduciary funds.

Notes to Basic Financial Statements (Continued)

The statement of activities presents a comparison between direct expenses and program revenues for each function of the School Board's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The accounts of the School Board are organized on the basis of funds, each of which is considered to be an independent fiscal and accounting entity. The operations of each fund are accounted for within separate sets of self-balancing accounts, which comprise its assets, deferred outflows of resources, habilities, deferred inflows of resources, fund balance, revenues, expenditures, and transfers. The minimum number of funds is maintained consistent with legal and managerial requirements. Fund financial statements report detailed information about the School Board. The various funds of the School Board are classified as governmental funds. The emphasis on fund financial statements is on major funds, each displayed in a separate column.

The General Fund is always a major governmental fund. Other individual major governmental funds are determined as funds whose revenues, expenditures expenses, assets and deferred outflows of resources, or liabilities and deferred inflows of resources are at least ten percent of the totals for all governmental or enterprise funds and at least five percent of the aggregate amount for all governmental and enterprise funds combined or funds designated as major at the discretion of the School Board. Funds not classified as a major fund are aggregated and presented in a single column in the fund financial statements.

Governmental Funds -

The General Fund is the general operating fund of the School Board. It accounts for all financial resources except those required to be accounted for in other funds.

The School Food Service Special Revenue Fund accounts for funding to provide nourishing morning and noon meals for students in all grades.

The Education Stabilization Special Revenue Fund accounts for federal funding to prevent, prepare for, and respond to the coronavirus COVID-19 pandemic.

C. Measurement Focus and Basis of Accounting

Measurement Focus

The measurement focus determines the accounting and financial reporting treatment applied to a fund

The governmental activities within the government-wide statement of net position and statement of activities are presented using the economic resources measurement focus. The economic resources measurement focus meets the accounting objectives of determining net income, net position, and cash flows.

The governmental funds use the current financial resources measurement focus. This measurement focus is based upon the receipt and disbursement of current available financial resources rather than upon net income.

Basis of Accounting

Basis of accounting refers to the point at which revenues and expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

In the government-wide statement of net position and statement of activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred, or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, habilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. An exception to this is grant revenue collected on a reimbursable expenditures are made. Expenditures are recognized as revenue when reimbursable expenditures are made. Expenditures are recognized when the related liability is incurred. Exceptions to this general rule include principal and interest on long-term debt and employee vacation and sick leave, which are recognized when due and payable.

Notes to Basic Financial Statements (Continued)

Program revenues

Program revenues included in the statement of activities are derived directly from the program itself or from parties outside the School Board's taxpayers or eitizenry, as a whole; program revenues reduce the cost of the function to be financed from the School Board's general revenues.

Allocation of indirect expenses

The School Board reports all direct expenses by function in the statement of activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the statement of activities. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on long-term debt is considered an indirect expense and is reported separately on the statement of activities.

The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Federal and state entitlements (unrestricted grants-in-aid, which include state equalization and state revenue sharing) are recorded when available and measurable. Expenditure-driven federal and state grants, which are restricted as to the purpose of the expenditures, are recorded when the reimbursable expenditures have been incurred.

Ad valorem taxes are recorded in the year the taxes are due and payable. The taxes are generally collected in December, January, and February of the fiscal year. Ad valorem tax revenues are recognized when levied to the extent that they result in current receivables. Such amounts are measurable and available to finance current operations.

Interest income on time deposits and revenues from rentals, leases, and royalties are recorded when earned. Sales and use tax revenues are recognized in the period collected by the Sales Tax Commission. Substantially all other revenues are recorded when received

Expenditures

Salaries are recorded as expenditures when incurred. Nine-month employee salaries are incurred over a nine-month period but paid over a twelve-month period. Compensated absences are recognized as expenditures when leave is actually taken or when employees (or heirs) are paid for accrued leave upon retirement or death.

Principal and interest on long-term obligations are not recognized until due.

Notes to Basic Financial Statements (Continued)

All other expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid, (or any other types, such as sales of capital assets, debt extinguishments, long-term debt proceeds, et cetera), are accounted for as other financing sources (uses). These other financing sources (uses) are recognized at the time the underlying events occur.

D. <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources</u> and Equity

Cash and interest-bearing deposits

Cash and interest-bearing deposits include all demand deposits, money market accounts, savings accounts, and certificates of deposits of the School Board. They are stated at cost, which approximates market.

Interfund receivables and payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds." Short-term interfund loans are reported as 'interfund receivables and payables." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position.

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Major receivable balances for the governmental activities include federal and state grants.

Inventories

Inventory of the School Food Service Special Revenue Fund consists of food purchased by the School Board and commodities granted by the United States Department of Agriculture through the Louisiana Department of Agriculture and Forestry. All inventory items purchased are valued at cost (first-in, first-out), and donated commodities are assigned values based on information provided by the United States Department of Agriculture.

Notes to Basic Financial Statements (Continued)

Capital Assets

In the government-wide financial statements, capital assets are capitalized at historical cost, or estimated historical cost if actual is unavailable, except for donated assets, which are recorded at their acquisition value at the date of donation. The School Board maintains a threshold level of \$5,000 or more for capitalizing equipment and vehicles. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Depreciation of all exhaustible capital assets is recorded as an expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows.

Vehicles	5 years
Equipment	5-10 years
Buildings and improvements	20-40 years

In the fund financial statements, the acquisition of capital assets and construction is reflected as expenditures in the governmental funds.

Compensated Absences

Twelve-month employees earn from 5 to 10 days of vacation leave each year, depending on their length of service with the School Board. Vacation leave cannot be accumulated. All School Board employees earn from 10 to 12 days of sick leave each year, depending upon the number of months employed. Sick leave can be accumulated without limitation. Upon retirement or death, unused sick leave of up to 25 days is paid to the employee or heirs at the employee's current rate of pay, and all unused sick leave is used in the retirement benefit computation as earned service.

Sabbatical leave may be granted for rest and recuperation and for professional and cultural improvement. Any employee with a teaching certificate is entitled, subject to approval by the School Board, to one semester of sabbatical leave after three years of continuous service or two semesters of sabbatical leave after six or more years of continuous service. Due to its restrictive nature, sabbatical leave benefits are recorded as expenditures in the period taken and no hability is recorded in advance of the sabbatical.

Notes to Basic Financial Statements (Continued)

For fund financial statements, vested or accumulated sick leave that is expected to be hquidated with expendable available financial resources is reported as an expenditure and a current fund liability of the governmental fund that will pay it. In the government-wide statements, amounts of vested or accumulated sick leave that are not expected to be liquidated with expendable available financial resources are recorded as noncurrent liabilities

Long-term debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations and whether they are reported in the government-wide or fund financial statements. All of the School Board's long-term debt is used in governmental fund operations.

All long-term debt to be repaid from governmental resources is reported as liabilities in the government-wide statements. The long-term debt consists primarily of general obligation bonds, certificates of indebtedness, and notes payable

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources net of the applicable premium or discount and payment of principal and interest reported as expenditures. For fund financial reporting, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

Other Postemployment Benefits (OPEB)

The total OPEB hability, deferred outflows of resources, and deferred inflows of resources related to OPEB, and OPEB expenses, (described in more detail in Note 10), has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. In the governmental fund financial statements contributions are recognized as expenditures when due.

Notes to Basic Financial Statements (Continued)

Pensions

The net pension liability/asset, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense (See Note 11), has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. Member's earnable compensation, for which the employer allocations are based, is recognized in the period in which the employee is compensated for services performed. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plan, and additions to deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Non-employer contributions are recognized as revenue in the government-wide financial statements. In the governmental fund financial statements contributions are recognized as expenditures when made.

Deferred Outflows of Resources and Deferred Inflows of Resources

Deferred outflows of resources represent a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense expenditure) until then. Deferred inflows of resources represent an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred outflows of resources and deferred inflows of resources in the government-wide statements are related to its pension and other post-employment benefit plans.

Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

a. Net investment in capital assets consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.

Notes to Basic Financial Statements (Continued)

- b. Restricted net position consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or laws through constitutional provisions or enabling legislation. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets. It is the School Board's policy to use restricted and unrestricted net position are available for an expense which has been incurred. At June 30, 2023, the School Board reported \$7,379,044 of restricted net position, of which \$3,056,688 was restricted by enabling legislation.
- c. Unrestricted net position consists of all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is further classified as follows:

- a. Nonspendable amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact
- b. Restricted amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- c Committed amounts that can be used only for specific purposes determined by a formal decision of the School Board, which is the highest level of decision-making authority for the Evangeline Parish School Board.
- d Assigned amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the School Board's adopted policy, only the School Board may assign amounts for specified purposes.
- e. Unassigned all other spendable amounts.

It is the School Board's policy to use restricted amounts first when both restricted and unrestricted fund balance is available unless prohibited by legal or contractual provisions. Additionally, the School Board uses committed, assigned, and lastly unassigned amounts of fund balance in that order when expenditures are made.

Notes to Basic Financial Statements (Continued)

E. Revenue Restrictions

The School Board has various restrictions placed over certain revenue sources from state or local requirements. The primary restricted revenue sources include:

Revenue Source Ad valorem taxes Sales and use taxes Legal Restrictions on Use See Note 3 See Note 4

F. <u>Use of Estimates</u>

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, habilities, and deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenditures expenses during the reporting period. Actual results could differ from those estimates.

(2) Cash and Interest-Bearing Deposits

Under state law, the School Board may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The School Board may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2023, the School Board has eash and interest-bearing deposits (book balances) as follows:

	Governmental
	Activities
Demand deposits	\$ 4,433,269
Time and savings deposits	17,987,128
Total	<u>\$22,420.397</u>

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the School Board's deposits may not be recovered or the collateral securities that are in the possession of an outside party will not be recovered. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance, or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At June 30, 2023, bank balances were secured as follows.

Notes to Basic Financial Statements (Continued)

Bank balances	<u>\$26,389,874</u>
Federal deposit insurance	1,345,994
Pledged securities	_25,043,880
Total	\$26,389,874

Deposits in the amount of \$25,043,880 were exposed to custodial credit risk. These deposits are uninsured and collateralized with securities held by the pledging institutions' trust department or agent, but not in the School Board's name. The School Board does not have a policy for custodial credit risk.

(3) <u>Ad Valorem Taxes</u>

Ad valorem taxes attach as an enforceable lien on property as of January 1st of each year. Taxes are levied in October and are billed to taxpayers in December. Billed taxes are due by December 31st and become delinquent on January 1st of the following year. The taxes are based on assessed values determined by the Tax Assessor and are collected by the Sheriff. The taxes are remitted to the School Board net of deductions for Pension Fund contributions. For the year ended June 30, 2023, ad valorem taxes were levied on property with net assessed valuations totalng \$584,288,905 and were dedicated as follows:

Constitutional school tax - parish wide	4 58	mills
Special tax for salaries and benefits of teachers and other employees	10.53	mills
Maintenance taxes, by district:		
No. 2 Maintenance	12.55	mills
No. 7 Maintenance	12.31	mills
Improvement taxes, by school:		
Basile High School athletic department	1 97	mills
Basile District VII Bonds debt service	10.23	mlls
Total	52.17	mills

Taxes remitted to the School Board amounted to \$8,782,427 for the year ending June 30, 2023.

Notes to Basic Financial Statements (Continued)

(4) <u>Sales and Use Taxes</u>

The School Board receives sales and use tax revenues as follows.

- A. On March 5, 2001, the voters of the parish approved a one percent perpetual sales and use tax to be levied by the School Board. The proceeds of the tax are used to supplement other revenues available to the School Board to pay salaries of teachers and other school employees, including the payment of benefits for teachers and other school employees in accordance with the proposed "Year 2001 Salary Increase Proposal".
- B. On May 20, 1967, the voters of the parish approved a one percent perpetual sales and use tax to be levied by the School Board. The proceeds of the tax are used to supplement other revenues available to the School Board to pay salaries of teachers and the expenses of operating the public schools of Evangeline Parish.

(5) <u>Tax Abatements</u>

The Evangeline Parish School Board is subject to property tax abatements as follows:

A lease agreement between the Industrial Development Board and Pine Prairie Energy Center, LLC, allowed for the exemption of ad valorem taxes. This agreement, which was approved by the Evangeline Parish Police Jury, is for the inducement of economic development in Evangeline Parish. The tax exemption will continue for the term of the lease. The School Board abated ad valorem taxes to entities in the parish through this agreement in the amount of \$805,107 for the year ended June 30, 2023.

The Industrial Ad Valorem Tax Exemption Program (ITEP), provided through the Louisiana Department of Economic Development, (authorized pursuant to Article VII, Part II, Section 21(F) of the Louisiana Constitution of 1974), authorizes the abatement of ad valorem taxes for a period of up to ten years on capital improvements and equipment related to manufacturing. The School Board abated property taxes to entities in the parish through the ITEP in the amount of \$134,960 for the year ended June 30, 2023.

(6) Due from Other Governmental Agencies

Due from other governmental units consist of the following at June 30, 2023:

State of Louisiana, Department of Education	
for various appropriations and reimbursements	\$7,999,111
Evangeline Parish Sales Tax Commission	768,934

The note payable is liquidated by the Parishwide Maintenance Fund. Compensated absences are generally hquidated by the General Fund and various Special Revenue Funds.

General obligation bonds

The School Board issues general obligation bonds and certificates of indebtedness, secured by ad valorem taxes and excess revenues, to provide for the acquisition and construction of major capital facilities. The bonds and certificate are liquidated by debt service funds. These bonds are direct obligations and pledge the full faith and credit of the Board and are generally issued as 20 or 30-year serial bonds. All of the School Board's long-term debt is associated with governmental activities. Long-term debt currently outstanding is as follows:

Issued	Issue	Final	Interest	Balance
Amount	Date	Maturity Date	Rates	Outstanding
\$ 8,500,000	4/13/2016	3/1/2036	3.000	\$ 5,945,000

\$13,485,000				<u>\$ 9.928,000</u>

In the event of default on the General Obligation Bond, the bondholder may take actions deemed necessary and appropriate as permitted by law to cause the School Board to comply with its obligations under the debt and compel performance. Additionally, in the event of default on the direct placement, the investor may take actions as deemed necessary and appropriate as permitted by law to cause the School Board to comply with its obligations under the debt and compel performance.

(10) Post-Retirement Health Care and Life Insurance Benefits

General Information about the OPEB Plan

Plan Description: The Evangeline Parish School Board's defined benefit postemployment health care plan provides OPEB for permanent full-time employees and for certain retired employees. Medical benefits are provided to employees upon actual retirement. Coverage is also provided to spouses of retirees who are currently receiving benefits. The OGB plan is a single employer defined benefit OPEB plan provided through the Louisiana Office of Group Benefits (OGB) and involve several statewide networks and one HMO, with a premium structure by region. The OGB issues a separate financial report which is available at <u>www.groupbenefits.org</u> along with the plan provisions contained in the official plan documents of the OGB. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement no. 75.

Funding Policy: The Evangeline Parish School Board recognizes the cost of providing postemployment medical and life benefits as an expenditure when the monthly premiums are due. The benefits are financed on a pay-as-you-go basis. The monthly premiums for the health benefit are paid jointly by the employee and employer. The percentage of the premium paid by the School Board ranges from 19% to 75% depending on years of participation. Life insurance coverage under the OGB program is available to retirees by election. The employer pays 50% of the "cost" of the retiree life insurance.

Employees Covered by Benefit Terms: At July 1, 2022 the following employees were covered by the benefit terms:

Active employees	570
Inactive employees entitled to but not yet receiving benefit payments	-
Inactive employees currently receiving benefit payments	637
	1,207

Total OPEB Liability

The School Board's total OPEB liability of \$142,385,902 was measured as of June 30, 2023 and was determined by an actuarial valuation as of July 1, 2021. The Entry Age Normal actuarial cost method was used.

Actuarial Assumptions and Other Inputs: The total OPEB liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Post-retirement and disability mortality rates were based on PUB-2010 General Retirees Amount-Weighted Table with Mortality Improvement Scale MP-2021 on a generational basis.

(11) <u>Pension Plans</u>

Teachers' Retirement System of Louisiana (TRSL)

Plan Description

Employees of the Evangeline Parish School Board are provided with pensions through a costsharing multiple-employer defined benefit plan administered by the TRSL. TRSL was established for the purpose of providing retirement allowances and other benefits as stated under the provisions of LRS 11:700-999 for eligible teachers, employees, and their beneficiaries. TRSL issues a publicly available financial report that can be obtained at <u>www.trsl.org</u>. The Evangeline Parish School Board is a member of the regular plan.

Members first eligible to join & hired between January 1, 2011 and June 30, 2015:

2.5% benefit factor	At least age 60 with at least 5 years of service credit, or
	Any age with at least 20 years of service credit (actuarilly reduced)

Members first eligible to join & hired on or after July 1, 2015

2.5% benefit factor	At least age 62 with at least 5 years of service credit, or
	Any age with at least 20 years of service credit (actuarilly reduced)

Benefit Formula: For all plans, retirement benefits are based on a formula which multiplies the final average compensation by the applicable benefit factor, and by the years of credible service. Members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after January 1, 2011, final average compensation is defined as the highest average 60-month period. For all other members, final average compensation is defined as the highest average 36-month period.

Payment options: A retiring member is entitled to receive the maximum monthly benefit payable until the member's death. In lieu of the maximum monthly benefit, the member can elect to receive a reduced benefit payable in the form of a Joint and Survivor Option, or a monthly benefit with a lump sum that can't exceed 36 months of the member's maximum monthly benefit amount.

Effective July 1, 2009, members may make an irrevocable election at retirement to receive an actuarially reduced monthly benefit which increases 2.5% annually, beginning on the first retirement anniversary date, but not before age 55 or before the retiree would have attained age 55 in the case of a surviving spouse. This option can be chosen in combination with the above options.

Notes to Basic Financial Statements (Continued)

Deferred Retirement Option Program (DROP)

In lieu of terminating employment and accepting a service retirement, an eligible member can begin participation in the Deferred Retirement Option Program (DROP) on the first retirement eligibility date for a period not to exceed 3 years. A member has a 60-day window from his first eligible date to participate in the program in order to participate for the maximum number of years. Delayed participation reduces the three-year maximum participation period. During participation, benefits otherwise payable are fixed, and deposited in an individual DROP account. Upon termination of DROP participation, the member can continue employment and earn additional benefit accruals to be added to the fixed pre-DROP benefit. Upon termination of employment, the member is entitled to the fixed benefit, an additional benefit based on post-DROP service (if any), and the individual DROP account balance which can be paid in a lump sum or an additional annuity based upon the account balance.

Disability Benefits

Active members whose first employment makes them eligible for membership in a Louisiana state retirement system before January 1, 2011, and who have five or more years of service credit are eligible for disability retirement benefits if certified by the State Medical Disability Board (SMDB) to be disabled from performing their job. All other members must have at least 10 years of service to be eligible for a disability benefit. Calculation of the disability benefit as well as the availability of a minor child benefit is determined by the plan to which the member belongs and the date on which the member's first employment made them eligible for membership in a Louisiana state retirement system.

Survivor Benefits

A surviving spouse with minor children of an active member with five years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) 50% of the member's benefit calculated at the 2.5% accrual rate for all creditable service. When a minor child(ren) is no longer eligible to receive survivor benefits, the spouse's benefit reverts to a survivor benefit in accordance with the provisions for a surviving spouse with no minor child(ren). Benefits for the minor child(ren) cease when he she is no longer eligible.

Each minor child (maximum of 2) shall receive an amount equal to the greater of (a) 50% of the spouse's benefit, or (b) \$300 (up to 2 eligible children). Benefits to minors cease at attainment of age 21, marriage, or age 23 if enrolled in an approved institution of higher education.

A surviving spouse without minor children of an active member with at least 10 years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) the option 2 equivalent of the benefit calculated at the 2.5% benefit factor for all creditable service.

Notes to Basic Financial Statements (Continued)

Permanent Benefit Increases/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of ad hoc permanent benefit increases, also known as cost-of-living adjustments (COLAs) that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Optional Retirement Plan (ORP)

The Optional Retirement Plan (ORP) was established for academic employees of public institutions of higher education who are eligible for membership in TRSL. This plan was designed to provide certain academic and unclassified employees of public institutions of higher education an optional method of funding for their retirement

The ORP is a defined contribution pension plan which provides for portability of assets and full and immediate vesting of all contributions submitted on behalf of the affected employees to the approved providers. These providers are selected by the TRSL Board of Trustees. Monthly employer and employee contributions are invested as directed by the employee to provide the employee with future retirement benefits. The amount of these benefits is entirely dependent upon the total contributions and investment returns accumulated during the employee's working lifetime. Employees in eligible positions of higher education can make an irrevocable election to participate in the ORP rather than TRSL and purchase annuity contracts – fixed, variable, or both – for benefits payable at retirement.

Contributions

The employer contribution rate is established annually under LA R.S 11:101–11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the System's actuary. Each sub plan pays a separate actuarially determined employer contribution rate. However, all assets of TRSL are used for the payment of benefits for all classes of members, regardless of their plan. The rates in effect during the fiscal year ended June 30, 2023 are as follows:

K-12 Regular Plan Contributions		ORP Con	tributions
Employee	Employer	Employee	Employer
8.0%	<u>24.8%</u>	<u>8.0%</u>	<u>24.8%</u>

Contributions to the pension plan from the School Board were \$9,658,041 for the year ended June 30, 2023. In accordance with state statute, the System receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities but are not considered a special funding situation. Contributions from non-employer contributing entities were \$285,918

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2023, the School Board reported a liability of \$60,346,615 for its proportionate share the net pension liability. The net pension liability was measured as of June 30, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School Board's proportion of the net pension liability was based on a projection of the School Board's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of June 30, 2022, the School Board's proportion was 0.63208%, which was an increase of 0.07460% from its proportion measured as of June 30, 2021.

For the year ended June 30, 2023, the School Board recognized pension expense of \$13,220,649.

At June 30, 2023, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Differences between expected and actual experiences	\$ 935,351	\$174,034	
Change of assumptions	4,070,349	-	
Net difference between projected and actual earnings on pension plan investments	3,424,595		
Change in proportion and differences between employer's contributions and proportionate share of contributions	764,502	-	
Employer contributions subsequent to the			
measurement date	9,658,041		
Total	\$18,852,838	\$174,034	

Deferred outflows of resources of \$9,658,041 related to pensions resulting from School Board contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ended	
2024	\$2,238,902
2025	1,470,348
2026	(726,529)
2027	6,038,042

Actuarial Assumptions

The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position. A summary of the actuarial methods and assumptions used in determining the total pension hability as of June 30, 2023 are as follows:

Valuation Date	6/30 2022
Actuarial Cost Method	Entry Age Normal
Amortization approach	Closed
Actuarial Assumptions:	
Expected Remaining Service Lives	5 years
Investment Rate of Return	7.25
Inflation Rate	2.3% per annum
Salary Increases	3.1% - 4.6%, varies depending on duration of service
Cost of Living Adjustments	None
Mortality Rates	Active members - RP-2014 White Collar Employee tables, adjusted by 1 010 for males and by 0.997 for females. Non- disabled retiree inactive members - RP-2014 White Collar Healthy Annuitant tables, adjusted by 1.366 for males and by 1 189 for females. Disability retiree mortality - RP-2014 Disability tables, adjusted by 1.111 for males and by 1.134 for females. These base tables are adjusted from 2014 to 2018 using the MP-2017 generational improvement table, with continued future mortality improvement projected using the MP-2017 generational mortality improvement tables.
Termination and disability	Termination, disability, and retirement assumptions were projected based on a 5-year (July 1, 2012-June 30, 2017) experience study of the System's members.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.3% and an adjustment for the effect of rebalancing diversification. The resulting expected long-term rate of return was 8.32% for 2022. Best estimates of arithmetic real rates of return 30, 2022, are summarized in the following table:

Notes to Basic Financial Statements (Continued)

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	
Domestic equity	27.0%	4.15%	
International equity	19.0%	5.16%	
Domestic fixed income	13.0%	0.85%	
International fixed income	5.5%	-0.10° o	
Private assets	25.5%	8.15%	
Other private assets	10.0%	3.72%	

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension hability.

Sensitivity to Changes in the Discount Rate

The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

	Current			
	1.0% Decrease Discount Rate 1.0% Inc			
	6.25%	7.25%	8.25%

Louisiana School Employees Retirement System (LSERS)

Plan Description

Employees of the Evangeline Parish School Board are provided with pensions through a costsharing multiple-employer defined benefit plan administered by the Louisiana School Employees' Retirement System. The System was established and provided for by LA R.S. 11.1001. LSERS issues a publicly available financial report that can be obtained at <u>www.lsers.net</u>.

Membership is mandatory for all persons employed by a Louisiana Parish or City School Board who work more than twenty hours per week as a school bus driver, school janitor, school custodian, school maintenance employee, school bus aide, monitor or attendant, or any other regular school employee who actually works on a school bus helping with the transportation of school children. Members are vested after 10 years of service or 5 years if enrolled after June 30, 2010.

All temporary, seasonal and part-time employees as defined in Federal Regulations 26 CFR 31:3121(b)(7)-2 who have less than 10 years of creditable service are not eligible for membership in the System. Any part-time employees who work 20 hours or less per week and who are not vested will be refunded their contributions.

Benefits Provided

Benefit provisions are authorized and amended under Louisiana Revised Statutes. Benefit provisions are dictated by R.S. 11:1141 – 11:1153

A member who joined the System prior to July 1, 2006, the maximum retirement benefit is an amount equal to 3 1.3% of the average compensation for the three highest consecutive years of membership service, subject to the 10% salary limitation, multiplied by the number of years of service limited to 100% of final average compensation plus a supplementary allowance of \$2.00 per month for each year of service. For members who joined the System on or after July 1, 2006 through June 30, 2010, 3 1.3% of the average compensation is used to calculate benefits, however, the ealculation consists of the five highest consecutive years of membership service, subject to the 10% salary himitation. For members who join the System on or after July 1, 2010, 2 1/2% of the average compensation is used to calculate benefits and consists of the five highest consecutive years' average salary, subject to the 15% salary limitation. The supplemental allowance was eliminated for members entering the System on or after July 1, 1986. Effective January 1, 1992, the supplemental allowance was reinstated to all members whose service retirement became effective after July 1, 1971.

A member who joined the System on or before June 30, 2010 is eligible for normal retirement if he has at least 30 years of creditable service regardless of age, 25 years of creditable service and is at least age 55, 20 years of creditable service regardless of age with an actuarially reduced benefit, or 10 years of creditable service and is at least age 60. A member who joined the System on or after July 1, 2010 is eligible for normal retirement if he has at least 5 years of creditable service and is at least age 60, or 20 years of creditable service regardless of age with an actuarially reduced benefit.

Notes to Basic Financial Statements (Continued)

A member who joined the System on or after July 1, 2015 is eligible for normal retirement if he has at least 5 years of creditable service and 1s at least age 62, or 20 years of creditable service regardless of age with an actuarially reduced benefit.

Disability Benefits. A member is eligible to retire and receive disability benefits if he has at least five years of creditable service, is not eligible for normal retirement and has become totally and permanently disabled and is certified as disabled by the Medical Board. A vested person with twenty or more years of creditable service, who has withdrawn from active service prior to the age at which he is eligible for retirement benefits, is eligible for a disability benefit until normal retirement age. A member who joins the System on or after July 1, 2006, must have at least ten years of service to qualify for disability benefits.

Deferred Retirement Option Plan: Members of the System may elect to participate in the Deferred Retirement Option Plan (DROP) and defer the receipt of benefits. The election may be made only one time and the duration is limited to three years. Once an option has been selected, no change is permitted. Upon the effective date of the commencement of participation in the DROP, active membership in the System terminates. Average compensation and creditable service remain as they existed on the effective date of commencement of participation in DROP. The monthly retirement benefits, that would have been payable had the person elected to cease employment and receive a service retirement allowance, are paid into the Deferred Retirement Option Plan Fund Account.

The System maintains subaccounts within this account reflecting the credits attributed to each participant in the System. Interest credited and payments from the DROP account are made in accordance with Louisiana Revised Statutes 11:1152(F)(3). Upon termination of participation in both the System and employment, a participant may receive his DROP monies either in a lump sum payment from the account or systematic disbursements.

The System also provides for deferred benefits for vested members who terminate before being eligible for retirement. Once the member reaches the appropriate age for retirement, benefits become payable.

Initial Benefit Retirement Plan: Effective January 1, 1996, the state legislature authorized the System to establish an Initial Benefit Retirement Plan (IBRP) program. IBRP is available to members who have not participated in DROP and who select certain benefit options. Thereafter, these members are ineligible to participate in the DROP. The IBRP program provides both a one-time single sum payment of up to 36 months of a regular monthly retirement benefit, plus a reduced monthly retirement benefit for life. Interest credited and payments from IBRP account are made in accordance with R S. 11:1152(F)(3).

Contributions

Contributions for all participating school boards are actuarially determined as required by Act 81 of 1988 but cannot be less than the rate required by the Constitution. For the year ended June 30, 2023, the actual employer rate was 27.6% and the member' actual contribution rate was 7.5% or 8.0%, depending on date of hire. Contributions to the pension plan from the School Board were \$509,288 for the year ended June 30, 2023.

Notes to Basic Financial Statements (Continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2023, the School Board reported a liability of \$3,618,969 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022 and the total pension liability used to calculate the net pension obligation was determined by an actuarial valuation as of that date. The School Board's proportion of the net pension liability was based on a projection of the School Board's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2022, the School Board's proportion was 0.544208%, which was an increase of 0.025001% from its proportion measured as of June 30, 2021.

For the year ended June 30, 2023, the School Board recognized pension expense of \$559,531.

At June 30, 2023, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experiences	\$ 85,688	<u></u> -

Deferred outflows of resources of \$509,288 related to pensions resulting from School Board contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Actuarial Assumptions

The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position.

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2023 are as follows:

Valuation Date	6/30/2022
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Expected Remaining Service Lives	3 years
Investment Rate of Return	6.80% per annum
Inflation Rate	2.50% per annum
Mortality Rates	RP-2014 Healthy Annutant Tables, RP-2014 Sex Distinct
	Employee Table, RP-2014 Sex Distinct Mortality Table
Salary Increases	3.25% based on the 2018 experience study (for the period
	2013-2017) of the System's members
Cost of Living Adjustments	Cost-of-living raises may be granted from the Experience
	Account provided there are sufficient funds needed to offset
	the increase in the actuarial liability and the plan has met the
	criteria and eligibility requirements outlined by ACT 399 of
	214.

The actuarial assumptions used in the June 30, 2022 valuation were based on a Plan Experience Study performed in 2018 based on plan data for the period July 1, 2012 through June 30, 2017.

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward-looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long- term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2022 are summarized in the following table:

Notes to Basic Financial Statements (Continued)

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed income	26.0%	0.73%
Equity	39.0%	2.67%
Alternatives	23.0%	1.85%
Real estate	12.0°°	0.62%
Totals	100.0%	5.87%
Inflation		2.30%
Expected Arithmetic Nominal Return		8.17%

Discount Rate

The discount rate used to measure the total pension liability was 6.80%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PERSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 6.80%, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

(16) Interfund Transactions

A. Interfund receivables and payables, by fund, at June 30, 2023 are as follows:

	Interfund Receivables	Interfund Payables
Major governmental funds:	•	•
General Fund	\$5,177,280	S -
Education Stabilization	-	5,105,177
Total major governmental funds	5,177,280	5,105,177
Nonmajor governmental funds	727,601	799.704
Total	<u>\$ 5,904,881</u>	<u>\$5,904.881</u>

The amounts due from the General Fund from various other funds are for amounts paid by master bank for expenditures of that fund, but which a transfer has not yet been received by the money market account. The other receivable balances are for short-term loans. All interfund balances will be repaid within one year.

B. Transfers consist of the following for the year ended June 30, 2023:

	Transfers In	Transfers Out
Major governmental funds:		
General Fund	\$3,885.684	\$1,582,332
School Food Service	510,273	-
Education Stabilization	-	
Total major governmental funds	4,395,957	4,108,156
Non major governmental funds	749,008	1,036,809
Total	\$5,144,965	\$5,144,965

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

(17) <u>Commtments and Contingencies</u>

A. <u>Contingent Liabilities</u>

At June 30, 2023, the School Board was not involved in any lawsuits that would have a material adverse effect on the School Board's financial position.

Notes to Basic Financial Statements (Continued)

B. Grant Audits

The School Board receives federal and state grants for specific purposes that are subject to review and audit by governmental agencies. Such audits could result in a request for reimbursement by the grantor for expenditures disallowed under the terms and conditions of the appropriate agency. In the opinion of the School Board, such disallowances, if any, will not be significant.

(18) <u>Risk Management</u>

The School Board is exposed to risks of loss in areas of general and auto liability, property hazards, and worker's compensation These risks are handled by purchasing commercial insurance coverage. There have been no significant reductions in the insurance coverage during the year, nor have settlements exceeded coverage for the past three years

Notes to Budgetary Comparison Schedules

(1) Budget and Budgetary Accounting

The proposed budget for 2023 was completed and made available for public inspection at the School Board office prior to the required public hearing held for suggestions and comments from taxpayers. In accordance with R.S.17:88(A), parish school boards must adopt the budget no later than September fifteenth of each year. The budget, which included proposed expenditures and the means of financing them, for the General and Special Revenue Funds, was published in the official journal ten days prior to the public hearing.

The budgets for the General and Special Revenue Funds for the fiscal year were prepared on the modified accrual basis of accounting, consistent with generally accepted accounting principles (GAAP)

The level of control over the budget is exercised at the function or program level for the General and Special Revenue Funds. The Superintendent and or Chief Finance Officer are authorized to transfer budget amounts within each fund; however, any supplemental appropriations that amend the total expenditures of any fund require School Board approval. As required by state law, when actual revenues within a fund are failing to meet estimated annual budgeted revenues by five percent or more, and or actual expenditures within a fund are exceeding estimated budgeted expenditures by five percent or more, a budget amendment to reflect such changes is adopted by the School Board in an open meeting. Budgeted amounts included in the financial statements include the original adopted budget and all subsequent amendments.

(2) Excess of Expenditures Over Appropriations

The General Fund incurred expenditures in excess of appropriations in the amount of \$1,568,138 for the year ended June 30, 2023.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Mr. Darwan Lazard, Superintendent, and Members of the Evangeline Parish School Board Ville Platte, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Evangeline Parish School Board (School Board), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements and have issued our report thereon dated November 28, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Mr. Darwan Lazard, Superintendent, and Members of the Evangeline Parish School Board Ville Platte, Louisiana

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Evangeline Parish School Board's (School Board) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the School Board's major federal programs for the year ended June 30, 2023. The School Board's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the School Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the School Board and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the School Board's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the School Board's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the School Board's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards. *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the School Board's compliance with the requirements of each major federal program as a whole

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the School Board's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the School Board's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control of deficiencies, in internal control over compliance over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal weaknesses or significant deficiencies in internal weaknesses or significant deficiencies in internal weaknesses as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over comphance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2023

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal award activity of the Evangeline Parish School Board under programs of the federal government for the year ended June 30, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Evangeline Parish School Board, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Evangeline Parish School Board.

(2) <u>Summary of Significant Accounting Policies</u>

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting, which is described in Note 1 to the Evangeline Parish School Board's financial statements for the year ended June 30, 2023. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(3) Indirect Cost Rate

The Evangeline Parish School Board has elected not to use the 10 percent *de minimus* indirect cost rate allowed under the Uniform Guidance.

(4) <u>Noncash Programs</u>

Commodities received, in the amount of \$449,600, which are noncash revenues, are valued using pricing provided by the United States Department of Agriculture. At June 30, 2023, the Evangeline Parish School Board had \$268,143 of commodities remaining in inventory.

(5) <u>Subrecipients</u>

The Evangeline Parish School Board provided no federal awards to subrecipients.

Mr. Darwan Lazard, Superintendent, Members of the Evangeline Parish School Board, the Louisiana Department of Education, and the Louisiana Legislative Auditor

We have performed the procedures enumerated below on the performance and statistical data accompanying the annual financial statements of the Evangeline Parish School Board for the fiscal year ended June 30, 2023; and to determine whether the specified schedules are free of obvious errors and omissions, in compliance with Louisiana Revised Statute 24:514. Management of the Evangeline Parish School Board is responsible for its performance and statistical data.

The Evangeline Parish School Board has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the performance and statistical data accompanying the annual financial statements. Additionally, the Louisiana Department of Education and the Louisiana Legislative Auditor have agreed to and acknowledged that the procedures performed are appropriate for their purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purpose.

The procedures and associated findings are as follows:

General Fund Instructional and Support Expenditures and Certain Local Revenue Sources (Schedule 1)

- 1. We selected a sample of 25 transactions, reviewed supporting documentation, and observed that the sampled expenditures/revenues are classified correctly and are reported in the proper amounts among the following amounts reported on the schedule:
- Total General Fund Instructional Expenditures
- Total General Fund Equipment Expenditures
- Total Local Taxation Revenue
- Total Local Earnings on Investment in Real Property
- Total State Revenue in Lieu of Taxes
- Nonpublic Textbook Revenue
- Nonpublic Transportation Revenue

There were no exceptions noted.

Class Size Characteristics (Schedule 2)

2 We obtained a list of classes by school, school type, and class size as reported on the schedule. We then traced a sample of 10 classes to the October 1st roll books for those classes and observed that the class was properly classified on the schedule

There were no exceptions noted.

Education Levels/Experience of Public School Staff (No Schedule)

3. We obtained October 1st PEP data submitted to the Department of Education (or equivalent listing prepared by management), including full-time teachers, principals, and assistant principals by classification, as well as their level of education and experience, and obtained management's representation that the data listing was complete. We then selected a sample of 25 individuals, traced to each individual's personnel file, and observed that each individual's education level and experience was properly classified on the PEP data or equivalent listing prepared by management.

There were no exceptions noted.

Public School Staff Data: Average Salaries (No Schedule)

4. We obtained June 30th PEP data submitted to the Department of Education (or equivalent listing provided by management) of all classroom teachers, including base salary, extra compensation, and ROTC or rehired retiree status, as well as full-time equivalents, and obtained management's representation that the data/listing was complete. We then selected a sample of 25 individuals, traced to each individual's personnel file, and observed that each individual's salary, extra compensation, and full-time equivalents were properly included on the PEP data (or equivalent listing prepared by management).

There were no exceptions noted.

We were engaged by the Evangeline Parish School Board to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing* Standards, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the performance and statistical data. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the Evangeline Parish School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on the performance and statistical data accompanying the annual financial statements of the Evangeline Parish School Board, as required by Louisiana Revised Statute 24:514.I, and the result of that testing, and not to provide an opinion on control or comphance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

To the Members of the Evangeline Parish School Board and the Louisiana Legislative Auditor:

We have performed the procedures enumerated below on the control and compliance (C/C) areas identified in the Louisiana Legislative Auditor's (LLA's) Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period July 1, 2022 through June 30, 2023. The Evangeline Parish School Board's management is responsible for those C/C areas identified in the SAUPs.

The Evangeline Parish School Board has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in LLA's SAUPs for the fiscal period July 1, 2022 through June 30, 2023. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

1) Written Policies and Procedures

- A. Obtain and inspect the entity's written policies and procedures and observe whether they address each of the following categories and subcategories if applicable to public funds and the entity's operations:
 - i. Budgeting, including preparing, adopting, monitoring, and amending the budget.

No exceptions were found as a result of this procedure.

ii. *Purchasing*, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the Public Bid Law; and (5) documentation required to be maintained for all bids and price quotes.

No exceptions were found as a result of this procedure.

iii. Disbursements, including processing, reviewing, and approving.

The policy did not contain the agency responsibilities and prohibitions.

2) Board or Finance Committee

- A. Obtain and inspect the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and:
 - i. Observe that the board finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.

No exceptions were found as a result of this procedure.

ii. For those entities reporting on the governmental accounting model, observe whether the minutes referenced or included monthly budget-to-actual comparisons on the general fund, quarterly budget-to-actual, at a minimum, on proprietary funds, and semi-annual budget- to-actual, at a minimum, on all special revenue funds

The minutes for four of the meetings did not reference or include monthly budget-to-actual comparisons.

iii. For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.

No exceptions were found as a result of this procedure.

iv. Observe whether the board finance committee received written updates of the progress of resolving audit finding(s), according to management's corrective action plan at each meeting until the findings are considered fully resolved.

No exceptions were found as a result of this procedure

3) Bank Reconciliations

A. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that.

Obtained the listing of entity bank accounts for the fiscal period and management's representation that the listing is complete

- i. Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., mitialed and dated or electronically logged);
- ii. Bank reconciliations include written evidence that a member of management or a board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and
- iii. Management has documentation reflecting it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.

No exceptions were found as a result of procedures i - iii

4) Collections (excluding electronic funds transfers)

A. Obtain a listing of deposit sites for the fiscal period where deposits for cash checks money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).

Obtained the listing of collection locations and management's representation that the listing is complete.

- B. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete Randomly select one collection location for each deposit site (i.e., 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if there are no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:
 - i. Employees responsible for eash collections do not share eash drawers/registers;
 - ii. Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee official is responsible for reconciling collection documentation (e.g., pre-numbered receipts) to the deposit;
- iii. Each employee responsible for collecting cash is not also responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit; and
- iv. The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions, is (are) not also responsible for collecting cash, unless another employee/official verifies the reconciliation.

No exceptions were found as a result of procedures i - w.

C. Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe that the bond or insurance policy for theft was in force during the fiscal period.

No exceptions were found as a result of this procedure.

- D. Randomly select two deposit dates for each of the 5 bank accounts selected for Bank Reconciliations procedure #3A (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day) Obtain supporting documentation for each of the 10 deposits and.
 - i. Observe that receipts are sequentially pre-numbered.
 - ii. Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip
- iii. Trace the deposit slip total to the actual deposit per the bank statement.
- iv. Observe the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).
- v. Trace the actual deposit per the bank statement to the general ledger.

No exceptions were found as a result of procedures i - v.

5) Non-Payroll Disbursements (excluding card purchases, travel reimbursements, and petty cash purchases)

A. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).

Obtained the listing of locations that process payments and management's representation that the listing is complete.

- B. For each location selected under procedure #5A above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:
 - i. At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order or making the purchase;

No exceptions were found as a result of this procedure.

ii. At least two employees are involved in processing and approving payments to vendors;

No exceptions were found as a result of this procedure.

iii. The employee responsible for processing payments is prohibited from adding modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files;

The employees responsible for processing payments can add/modify vendor files.

iv. Either the employee official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments; and

At four of the locations selected, the employee/official responsible for signing checks does not mail the payment or give the signed checks to an employee to mail who is not responsible for processing payments.

v. Only employees/officials authorized to sign checks approve the electronic disbursement (release) of funds, whether through automated clearinghouse (ACH), electronic funds transfer (EFT), wire transfer, or some other electronic means.

No exceptions were found as a result of this procedure.

- C. For each location selected under procedure #5A above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction, and:
 - i. Observe whether the disbursement, whether by paper or electronic means, matched the related original itemized invoice and supporting documentation indicates that deliverables included on the invoice were received by the entity; and
 - ii. Observe whether the disbursement documentation included evidence (e.g., initial date, electronic logging) of segregation of duties tested under procedure #5B above, as applicable.

No exceptions were found as a result of procedures i - ii.

D. Using the entity's main operating account and the month selected in Bank Reconciliations procedure #3A, randomly select 5 non-payroll-related electronic disbursements (or all electronic disbursements if less than 5) and observe that each electronic disbursement was (a) approved by only those persons authorized to disburse funds (e.g., sign checks) per the entity's policy, and (b) approved by the required number of authorized signers per the entity's policy. Note. If no electronic payments were made from the main operating account during the month selected the practitioner should select an alternative month and/or account for testing that does include electronic disbursements.

No exceptions were found as a result of this procedure.

A. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and purchase cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.

Obtained the listing of active credit cards, bank debit cards, fuel cards, and purchase cards (cards) and management's representation that the listing is complete.

- B. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement). Obtain supporting documentation, and
 - i. Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing (or electronically approved), by someone other than the authorized card holder (those instances requiring such approval that may constrain the legal authority of certain public officials, such as the mayor of a Lawrason Act municipality, should not be reported; and
 - ii. Observe that finance charges and late fees were not assessed on the selected statements.

No exceptions were found as a result of procedures i - ii.

C. Using the monthly statements or combined statements selected under procedure #6B above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (e.g., each card should have 10 transactions subject to testing). For each transaction, observe that it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and observe whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

No exceptions were found as a result of this procedure.

7) Travel and Travel-Related Expense Reimbursements (excluding card transactions)

A. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements and obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected:

Obtained the listing of travel and travel-related reimbursements and management's representation that the listing is complete.

- i. If reimbursed using a per diem, observe that the approved reimbursement rate is no more than those rates established either by the State of Louisiana or the U.S. General Services Administration (www.gsa.gov);
- ii. If reimbursed using actual costs, observe that the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased;
- iii. Observe that each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by Written Policies and Procedures procedure #1A(vii); and

iv. Observe that each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

No exceptions were found as a result of procedures i - iv.

8) Contracts – N/A the Evangeline Parish School Board did not have contracts that were initiated or renewed during the fiscal period.

- A. Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. *Alternately, the practitioner may use an equivalent selection source, such as an active vendor list*. Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, <u>excluding the practitioner's contract</u>, and:
 - i. Observe whether the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law:
 - ii. Observe whether the contract was approved by the governing body board, if required by policy or law (e.g., Lawrason Act, Home Rule Charter):
- iii. If the contract was amended (e.g., change order), observe that the original contract terms provided for such an amendment and that amendments were made in compliance with the contract terms (e.g., if approval is required for any amendment, the documented approval); and
- iv. Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe that the invoice and related payment agreed to the terms and conditions of the contract.

9) Payroll and Personnel

A. Obtain a listing of employees and officials employed during the fiscal period and management's representation that the listing is complete. Randomly select 5 employees or officials, obtain related paid salaries and personnel files, and agree paid salaries to authorized salaries pay rates in the personnel files.

Obtained a listing of employees and officials employed during the fiscal period and management's representation that the listing is complete.

- B. Randomly select one pay period during the fiscal period. For the 5 employees or officials selected under procedure #9A above, obtain attendance records and leave documentation for the pay period, and
 - i. Observe that all selected employees or officials documented their daily attendance and leave (e.g., vacation, sick, compensatory):
 - ii. Observe whether supervisors approved the attendance and leave of the selected employees or officials;
- iii. Observe that any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records; and
- iv. Observe the rate paid to the employees or officials agrees to the authorized salary/pay rate found within the personnel file.

No exceptions were found as a result of procedures i - iv.

C. Obtain a listing of those employees or officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees or officials and obtain related documentation of the hours and pay rates used in management's termination payment calculations and the entity's policy on termination payments. Agree the hours to the employee's or official's cumulative leave records, agree the pay rates to the employee's or official's authorized pay rates in the employee's or official's personnel files, and agree the termination payment to entity policy.

No exceptions were found as a result of this procedure.

D. Obtain management's representation that employer and employee portions of third-party payroll related amounts (e.g., payroll taxes, retirement contributions, health insurance premiums, garnishments, workers' compensation premiums, etc.) have been paid, and any associated forms have been filed, by required deadlines.

No exceptions were found as a result of this procedure
