POST OFFICE BOX 94397
BATON ROUGE, LOUISIANA 70804-9397**

LEGISLATIVE AUDITOR
MICHAEL J. "MIKE" WAGUESPACK, CPA

FIRST ASSISTANT LEGISLATIVE AUDITOR
ERNEST F. SUMMERVILLE, JR., CPA

Under the provisions of state law, this report is a public document. A copy of this report has been submitted to the Governor, to the Attorney General, and to other public officials as required by state law. A copy of this report is available for public inspection at the Baton Rouge office of the Louisiana Legislative Auditor and online at www.lla.la.gov.

This document is produced by the Louisiana Legislative Auditor, State of Louisiana, Post Office Box 94397, Baton Rouge, Louisiana 70804-9397 in accordance with Louisiana Revised Statute 24:513. One copy of this public document was produced at an approximate cost of \$2.00. This material was produced in accordance with the standards for state agencies established pursuant to R.S. 43:31. This report is available on the Legislative Auditor's website at www.lla.la.gov. When contacting the office, you may refer to Agency ID No. 3347 or Report ID No. 80200159 for additional information.

In compliance with the Americans With Disabilities Act, if you need special assistance relative to this document, or any documents of the Legislative Auditor, please contact Jenifer Schaye, General Counsel, at 225-339-3800.

Louisiana Legislative Auditor

Michael J. “Mike” Waguespack, CPA

Louisiana Department of Health Hospitals and Physician Payments and Related Funding

April 2022

Audit Control # 80200159

Introduction

House Concurrent Resolution (HCR) No. 2 of the 2021 Regular Legislative Session authorized and directed the legislative auditor to collect all information necessary from the Louisiana Department of Health (LDH); hospitals; consultants retained by LDH, a hospital, a group of hospitals, or corporate owner or operator of a hospital; or any other entity to complete a detailed analysis of the Medicaid hospital reimbursement methodology and supplemental payment programs. HCR 2 also directed the auditor to provide all information collected and the subsequent analysis to the legislature for review.

In response to HCR 2, for state fiscal years 2016 through 2020, we requested from LDH and compiled the following hospital and physician payment information, including disproportionate share hospital (DSH) payments, supplemental payments, hospital and physician payments made by the managed care plans as part of a program known as Full Medicaid Pricing (FMP), and managed care incentive payments (MCIP) made by LDH as part of the managed care contracts. These payments are made under the state’s Medical Assistance Program (Medicaid) and the Children’s Health Insurance Program (CHIP)¹ program and are funded with both federal and state dollars.

Managed care was implemented in February 2012 under the Bayou Health program, now known as Healthy Louisiana. Prior to February 2012, the Louisiana Medicaid and CHIP programs were fee-for-service (FFS) programs. Under the FFS model, LDH pays providers for services provided to recipients and billed to LDH. Beginning February 2012, the Medicaid and CHIP programs are a combination of FFS and managed care. Under managed care, LDH pays the managed care plans a monthly actuarially sound premium to cover the care of Medicaid and CHIP recipients enrolled in managed care.

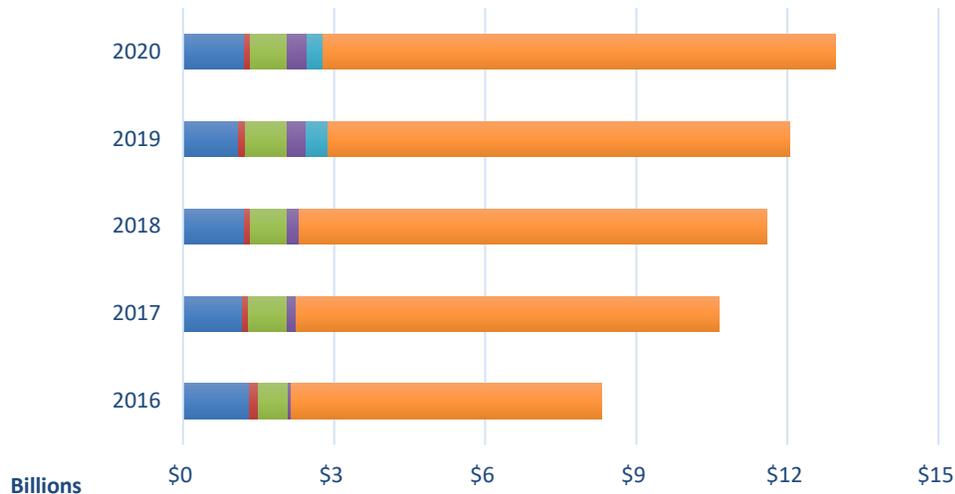

For state fiscal years 2016 through 2020, the five Healthy Louisiana managed care plans were:

- Aetna Better Health of Louisiana (Aetna)
- AmeriHealth Caritas of Louisiana (AmeriHealth)
- Healthy Blue
- Louisiana Healthcare Connections, Inc. (LHC)
- UnitedHealthcare of Louisiana, Inc. (United)

¹ All of the payments noted in this report are included in the Medicaid and/or CHIP programs.

For state fiscal years 2016 through 2020, total Medical Vendor Payment program expenditures included payments for nursing homes, waiver services, intermediate care facilities, and managed care premiums for Healthy Louisiana and the dental program, in addition to the payments outlined in this report. The payments included in the scope of this report represent, on average, 22% of the total Medical Vendor payments noted in the chart below.

Medical Vendor Payment Expenditures by State Fiscal Year

	2016	2017	2018	2019	2020
■ DSH	\$1,309,206,863	\$1,188,206,969	\$1,227,490,602	\$1,106,885,503	\$1,220,866,041
■ Supplemental	\$194,301,340	\$116,608,840	\$107,228,994	\$135,317,080	\$112,366,018
■ Hospital FMP	\$585,080,755	\$756,364,767	\$729,002,791	\$818,011,916	\$728,995,169
■ Physician FMP	\$65,336,273	\$178,543,466	\$244,332,645	\$382,291,524	\$391,922,482
■ MCIP				\$438,170,805	\$323,709,168
■ Other	\$6,163,468,825	\$8,396,395,456	\$9,288,274,786	\$9,163,058,604	\$10,172,256,282
Medical Vendor Payments Total	\$8,317,394,056	\$10,636,119,498	\$11,596,329,818	\$12,043,735,432	\$12,950,115,160

■ DSH ■ Supplemental ■ Hospital FMP ■ Physician FMP ■ MCIP ■ Other

LDH can fund the state share of Medicaid payments using a variety of sources including state funds, intergovernmental transfers, and assessments. We also compiled data related to intergovernmental transfers (IGTs) and hospital assessments used to provide funds for the state match within the Medicaid program.

All payment and revenue information is unaudited and reported as provided by LDH in various appendixes throughout the report. For payments made by the managed care plans, LDH obtained data directly from the five Healthy Louisiana managed care health plans.

We also combined the total payments by year for each hospital and/or physician group, as well as any IGTs received by LDH, in **Appendix B**.

Hospital and Physician Payments

Disproportionate Share Hospital

During state fiscal years 2016 through 2020, LDH made DSH payments to hospitals totaling approximately \$6 billion.² These payments were all made by LDH directly to hospital providers.

STATE FISCAL YEAR	2016	2017	2018	2019	2020
TOTAL	\$1,309,206,863 ³	\$1,188,206,969	\$1,227,490,602	\$1,106,885,503	\$1,220,866,041

Source: Compiled from data provided to LLA by LDH

LDH makes payments to qualifying hospitals that serve a large number of Medicaid and uninsured individuals for uncompensated costs. These payments are known as DSH⁴ payments.

Each state has an annual allotment established by federal law in addition to hospital-specific DSH limits set by the federal register. Federal dollars are only available for payments that are within the allotment and set limits and must not exceed a hospital's eligible uncompensated care cost (cost not covered by other revenue). Uncompensated care costs are based on the difference between the estimated costs of hospital services to these populations and the payments received (including both Medicaid fee-for-service and managed care). DSH payments may also cover the Medicaid shortfall, which is the difference between what Medicaid reimburses and a hospital's actual cost for services, within the limits noted above.

Payments are made based on the DSH payment pools. The pools are authorized by various state plans amendments (SPA) in the Medicaid State Plan. Payments made to each pool during state fiscal years 2016 through 2020 and the SPA that authorized the payment are noted below.

² In accordance with 42 CFR 433.51 and the annual LDH appropriation, LDH can certify the expenditures of DSH qualified hospitals and draw down federal dollars based on the certified expenditures. During state fiscal year 2016 through 2020, LDH had \$655,711,790 in certified public expenditures (CPE). Per LDH, no payments were made in association with this CPE.

³ Per LDH, several hospitals had higher DSH Caps to support higher DSH payments.

⁴ Payments are also known as Uncompensated Care Costs (UCC) payments.

POOL	SPA	PAYMENTS
Low Income and Needy Care Collaboration Agreement (LINCCA) hospitals	15-0012	\$1,824,798,889
Louisiana Low-Income Academic Hospitals	14-45 16-0014 17-0012	2,710,928,867

Freestanding Psychiatric Hospitals	12-62	68,577,172
Public State-Operated	11-18	500,674,097
	TOTAL	\$6,052,655,978

Source: Compiled from data provided to LLA by LDH

See **Appendix C** for detail of DSH payments by hospital (using Medicaid provider ID) as provided by LDH. DSH pools and methodologies are outlined in more detail in the Medicaid state plan⁶ and in summary information provided by LDH in **Appendix K**.

⁵ Per LDH provided detail, the negative amount is mostly due to overpayments identified during the federally required annual DSH audits that was recouped.

⁶ LDH website contains state plan amendments - <https://ldh.la.gov/page/4146>

Supplemental Payments

During state fiscal years 2016 through 2020, LDH made supplemental payments to hospitals and physicians totaling approximately \$665 million. These payments were all made by LDH directly to providers based on approved Medicaid State Plan Amendments.

STATE FISCAL YEAR	2016	2017	2018	2019	2020
TOTAL	\$194,301,340 ⁷	\$116,608,840	\$107,228,994	\$135,317,080	\$112,366,018

Source: Compiled from data provided to LLA by LDH

Supplemental payments are payments made to providers above what they are paid for individual services and are made based on supplemental pools. The pools are authorized by various SPAs in the Medicaid State Plan. Payments made to each pool during state fiscal years 2016 through 2020 and the SPA that authorized the payment are noted below.

POOL	SPA	PAYMENTS
Low Income and Needy Care Collaboration Agreement (LINCCA) Hospitals Inpatient	09-55	\$319,791,604
Low Income and Needy Care Collaboration Agreement (LINCCA) Hospitals Outpatient	09-56	52,009,930
Public Private Partner Inpatient	12-63	47,244,968
Public Private Partner Outpatient	12-64	2,263,869
Non-Rural Non-State Public: Inpatient UPL	12-59	29,797,473
Non-Rural Non-State Public: Outpatient UPL	13-30	6,588,629
Physician UPL	10-31	48,977,090
	17-011	
	17-0030	

⁷ Per LDH, the Hospital and Physician FMP Programs began in state fiscal year 2016 which transitioned a large amount of supplemental payments to the Managed Care Organizations. Additional, FMP CAP room resulted in larger FMP payments. The FFS program for physician payments are made based on prior state fiscal year claims so you would see a delay in the decrease with the implementation of FMP.

TOTAL		\$ 665,822,272

Source: Compiled from data provided to LLA by LDH

Included in the payments above are 100% state-funded supplemental payments totaling **\$2,050,000** made during state fiscal years 2019 and 2020. These payments are not associated with a supplemental SPA, were not federally funded, and were not subject to any federal compliance requirements. These payments were made pursuant to Memorandum of Understandings between LDH and the providers. Also included in the above figures are recoupments totaling **(\$849,129)** related to an Office of Inspector General (OIG) Herceptin audit.⁸ The recoupments were made in state fiscal years 2017 and 2018.

See **Appendix D** for detail of supplemental payments by hospital (using Medicaid provider ID) as provided by LDH. Pools and methodologies are outlined in more detail in the Medicaid state plan and in summary information provided by LDH in **Appendix K**.

Full Medicaid Pricing

During state fiscal years 2016 through 2020, the managed care plans paid approximately \$3.6 billion in Hospital FMP and \$1.2 billion in Physician FMP payments to hospitals and physicians. These payments were all made by the managed care plans directly to providers.

⁸ OIG Audit Report Number A-06-15-0037. In August 2016, the Department of Health and Human Services, OIG, issued a final report entitled *Louisiana Made Incorrect Herceptin Payments to Medicaid Providers*, located at web link <https://oig.hhs.gov/oas/reports/region6/61500037.pdf>

STATE FISCAL YEAR	2016	2017	2018	2019	2020
HOSPITAL FMP TOTAL	\$585,080,755	\$756,364,767	\$729,002,791	\$818,011,916	\$728,995,169

Source: Compiled from data obtained from the managed care plans by LDH and provided to LLA

Hospital and Physician FMP

Beginning in April 2014, LDH implemented a series of program changes to ensure consistent pricing in the Medicaid program for hospital services, including inpatient hospital, outpatient hospital, hospital-based physician, and ambulance services. This change required the use of FMP in the calculation of per member per month (PMPM) payments to managed care plans. FMP implemented in April 2014 for hospital services and July 2015 for physicians' services as part of approved contract amendments⁹ and is included as part of the monthly actuarially sound premium developed by LDH's actuary, Mercer.

FMP payments are distributed from an aggregate funding pool determined by LDH's actuary based on the estimated gap between payments under Medicaid compared to the maximum allowed under allowable CMS methods and average commercial rate, as defined in the Medicaid State Plan, and Medicaid claim-based payments (physician).

FMP Calculation Methodology

In conjunction with Mercer, LDH developed reporting templates for each FMP type (Hospital, Physician, Ambulance, and Dental) that calculate the monthly FMP amounts paid to each managed care plan. The count of PMPM payments and kickpayments¹⁰ is pulled from the MARS Data Warehouse¹¹ and combined to arrive at the PMPM/Kick count factor. These counts are based on service month for each specific capitation code and region where the service occurred for each managed care plan. The counts are multiplied by the FMP component of the total PMPM/kick

⁹ Hospital FMP was implemented in amendment 8 of the February 2012-January 2015 Bayou Health (now Healthy Louisiana) contracts (<https://ldh.la.gov/page/2114>). Physician FMP was implemented in amendment 3 of the February 2015 – December 2019 Healthy Louisiana contracts (<https://ldh.la.gov/page/1763>)

¹⁰ Kickpayments are the method of reimbursing a provider in the form of a separate one-time fixed payment for each obstetrical delivery. A kick payment is intended to cover the cost of prenatal care, the delivery event, and post-partum care and uncomplicated newborn hospital costs.

¹¹ The Management Administrative Reporting Subsystem (MARS) is responsible for the day-to-day reporting operations for Medicaid data. The MARS Data Warehouse (MDW) is a client/server computing platform developed to house a minimum of five full fiscal years (state and federal) of Louisiana Medicaid claims/encounter, eligibility, provider, and reference information.

amount, exclusive of premium tax, based on the certification that was in place during the service month.

*Basic Formula: FMP Rate (exclusive of premium tax) * PMPM/Kick count = FMP amount paid to plans that is to be distributed to participating providers*

If LDH pays a lump sum payment during a specific month, the FMP amount associated with that lump sum will be settled in the month it is reconciled.

LDH posts aggregated reporting on FMP by health plan and month of payment on its website.¹²

FMP Payment by the Managed Care Plans

Because the managed care plans make the FMP payment to providers, LDH did not have that breakdown of payments made to hospitals and physician groups. LDH worked with the managed care plans to obtain the breakdown of payments for this report.

LLA reached out to two consultants that represent some of the hospital and physician groups receiving FMP. Below is our understanding of the FMP distributions based on interviews and feedback from those consultants.

For hospital FMP, LDH creates a list of hospitals that ideally would receive FMP payments; Mercer uses data from all hospitals, including those on the list, in calculating the PMPM. Based upon negotiated agreements among the individual hospitals and the managed care plans, periodic invoices are prepared by the hospitals or their consultants. The managed care plans pay each hospital its' contracted FMP amounts on a monthly/quarterly basis. LDH requires that amount be paid to hospitals, but does not dictate which hospitals receive payment or the amounts of any of the payments.

For physician FMP, the state's actuarial consultant, Mercer, uses the list of qualifying physicians provided by LDH's contractor LeBlanc, Robertson, Chisholm and Associates, LLC (LRCA) to calculate the amount of physician FMP payments that must be paid to the managed care plans on an annual basis. This amount is also available, as a public record, to the eligible recipients and their consultants/representatives who then negotiate and agree to preferred percentage-based allocation payments with each Medicaid managed care plan. Once actual payments are made by LDH to the managed care plans, each physician group or their consultant invoices each managed care plan in accordance with their respective contract for their agreed upon payment. LDH requires that amount be paid for physician services, but does not dictate who should receive payment or the amounts of any of the payments.

¹² [Reports - Monthly Enrollment | La Dept. of Health](#)

See **Appendix E** for detail of Hospital FMP payments by hospital and **Appendix F** for detail of Physician FMP payments by hospital and physician group as provided by the managed care plans to LDH.^{13, 14}

Managed Care Incentive Payment Program

During state fiscal years 2016 through 2020, LDH paid approximately \$761 million in Managed Care Incentive Payments to the managed care plans, which were distributed to two hospital networks.

STATE FISCAL YEAR	2016	2017	2018	2019	2020
TOTAL	Prior to Implementation			\$438,170,805	\$323,709,168

Source: Compiled from data obtained from the managed care plans by LDH and provided to LLA

The Managed Care Incentive Payment (MCIP) Program is a voluntary incentive arrangement program that was implemented in the February 2015 through December 2019 Healthy Louisiana contracts, through amendment 13 in 2019.

All five current managed care plans participate in the program. The Managed Care Organizations (MCOs) have contracted with two networks to administer the MCIP program, the Louisiana Quality Network (LQN) and the Quality Improvement and Outcomes Network (QOIN). See **Appendix G** for a listing of hospitals included in each contracted network.

Federal regulations allow State Medicaid programs to include incentive arrangements in MCO contracts by which an MCO may earn additional funds up to 5% above the approved capitation rates for meeting quality-based outcomes specified in the contract.

LDH has established Approved Incentive Arrangements (AIAs) for MCIP consistent with the Louisiana Medicaid managed care quality strategy¹⁵. Each AIA includes specified activities,

¹³ Because the managed care plans were not required to use Medicaid provider IDs and LDH has not centrally enrolled managed care providers in the Medicaid program, as required under federal regulations, there is no unique identifier by which hospitals and physician groups can be combined or grouped. The managed care plans use various other identifiers such as tax ID and national provider identifier (NPI). As a result, the data is presented by health plan and not consolidated in any way. We sorted data by provider as best as possible.

¹⁴ The managed care plans noted physician FMP payments to Louisiana Medicaid Physicians, IPA (IPA). We made a subsequent request for payment detail for the IPA payments. Per a description from one of the health plans, Louisiana Medicaid Physicians IPA acts as an agent for the providers represented within their agreement. Payments are made directly to the IPA: once received, the IPA distributes payment to the individual physician FMP groups. Payment detail provided is per invoices from IPA.

¹⁵ The Medicaid Quality Strategy establishes goals, and objectives for improvements in care delivery and health outcomes as well as metrics by which progress will be measured. May 2021 strategy can be found at <https://ldh.la.gov/assets/docs/MQI/MedicaidManagedCareQualityStrategy2021.pdf>

targets, performance measures, or quality-based outcomes for a fixed length of time. The value of total payments for all AIAs complies with federal regulatory payment limits at 42 CFR 438.6(b).

For each Measurement Year, AIAs have milestones with incentive payments associated therewith. LDH reviews achievement reports submitted by participating MCOs and makes incentive payments upon LDH's determination of milestones achieved.

Initial incentive payments are based on the proportion of total Medicaid capitation payments for each participating MCO in an AIA. For each MCO, the initial proportion will be equal to the estimated Medicaid capitation payments to that MCO divided by the total estimated Medicaid capitation payments to all participating MCOs for the Measurement Year.

After the end of the Measurement Year, LDH will update the proportions based on actual Medicaid capitation payments to each participating MCO for the Measurement Year and adjust incentive payments as needed.

See **Appendix H** for detail of payments by network as provided by LDH from the managed care plans.

Financing Sources

The Medicaid program is a federal match program with the state bearing the responsibility of approximately 35% of the cost annually for payments during state fiscal years 2016 through 2020. LDH can fund the state share of Medicaid payments using a variety of sources including state funds, assessments, and intergovernmental transfers. We compiled data related to intergovernmental transfers (IGTs) and hospital assessments as presented below.

Intergovernmental Transfers

During state fiscal years 2016 through 2020, LDH received approximately \$1.8 billion in IGTs used to help fund UPL,¹⁶ FMP, and MCIP payments to hospitals and physicians.

IGTs are a transfer of funds from another government entity to the state Medicaid agency. IGTs are used to fund the non-federal share of Hospital and Physician UPL payments, Hospital and Physician FMP payments, and MCIP payments.

¹⁶ UPL payments cover the gap between current Medicaid rates and the maximum amount allowed under federal regulation. LDH makes these UPL payments directly to hospitals and physicians in the fee-for-service Medicaid program.

Governmental entities have available public funds that can be transferred to LDH in furtherance of joint goals of LDH and governmental entities which include promoting better health of outcomes of individuals within the state of Louisiana. Per federal regulations,¹⁷ public funds may be considered as the State's share in claiming federal dollars if both of the following are met.

- The public funds are appropriated directly to the state or Medicaid agency, or are transferred from other public agencies to the state or Medicaid agency and under its administrative control, or certified by the contributing public agency as representing expenditures eligible for FFP under this section.
- The public funds are not federal funds, or are federal funds authorized by federal law to be used to match other federal funds.

Intergovernmental Transfer/Intra-Agency Transfer (IAT) Agreements are entered into by LDH and the Governmental entities. In these agreements, Governmental entities certify that:

- they entered into agreements with LDH in order to provide funds for the state match within the Louisiana Medicaid program, and they obtain all the necessary authorizations needed to enable the transfer of Public Funds to LDH;
- they understand that LDH intends to use the transferred funds as the state's share in claiming Federal Financial Participation (FFP) for use in the Medicaid program;
- any funds transferred are Public Funds, as described in 42 CFR 433.51 and are not disqualified for use as the state's share in claiming FFP, such as provider-related donations, non-allowable healthcare-related taxes, and non-allowable federal funds;
- should any portion of the transferred funds be discovered to not be permissible as the state's share in claiming FFP, whether before or after such use for this purpose, Governmental entities agrees to defend, indemnify, and hold LDH harmless for any loss that results from the use of such funds as the state's share in claiming FFP;
- they will hold LDH harmless and indemnify LDH for any claims losses, or damages arising out of payments made to Governmental entities. Both parties agree to sign any addendum to the Agreement that may be required pursuant to any applicable federal or state law, rule or regulation; and
- that funds transferred to LDH are to be used by LDH in the furtherance of joint goals established by the Parties, which include, but are not limited to, promotion of better health outcomes throughout the state of Louisiana. They agree to transfer a sum to LDH according to terms mutually agreed upon by both parties.

¹⁷ 42 CFR 433.51 Public Funds as the State share of financial participation

Governmental entities will notify LDH of the intended programs within Medicaid for the IGT/IAT. LDH fiscal section provides written lockbox instructions to the governmental entity on where the funds are to be sent. When funds are received, LDH fiscal section classifies the funds.

	STATE FY	2016	2017	2018	2019	2020
FFS	UPL HOSPITAL IGT AMOUNT	\$180,306,666	\$132,142,775	\$190,239,246	\$132,196,945	\$244,267,745

TOTAL		\$205,554,724	\$302,194,179	\$397,672,140	\$412,317,046	\$516,438,709

Source: Compiled from data provided to LLA by LDH

See **Appendix I** for detail of LDH IGT revenue by hospital and physician group.

Hospital Assessments

During state fiscal years 2016 through 2020, LDH received approximately \$220 million in hospital assessment revenue used to fund enhancements to base payments to hospitals and Medicaid expansion managed care premiums excluding any FMP. Hospital assessments do not fund any of the previously-reported payments. LDH is considering using these assessments to fund the new state directed payment model (see future outlook as discussed on page 14).

¹⁸ MCIP was implemented in 2019.

¹⁹ Per LDH, IGTs were not associated with Hospital FMP in fiscal year 2016.

STATE FISCAL YEAR	2016	2017	2018	2019	2020
TOTAL	\$0 ²⁰	\$22,597,994	\$53,430,817	\$37,659,858	\$106,647,193

Source: Compiled from data provided to LLA by LDH

The Louisiana Hospital Stabilization Assessment seeks to:

1. Preserve and enhance the availability of inpatient and outpatient hospital services for the citizens of Louisiana.
2. Preserve and protect rural hospitals as provided in the Rural Hospital Preservation Act, pursuant to R.S. 40:1189.1 *et seq.*
3. Enhance the stability of hospital funding by utilizing a fiscally-prudent healthcare-driven solution that does not rely on the use of state general funds and provides a reliable and recurring source of funding for healthcare services.
4. Minimize the effects of shifting the cost of caring for those Louisiana residents who are uninsured to those who are able to obtain health insurance.
5. Create flexibility to design a plan to provide for more efficient and effective ways to maximize the state's use of monies currently expended for the provision of healthcare services to the state's low income and uninsured residents.

HCR 2 of the 2021 Regular Legislative Session enacted the annual hospital stabilization formula for state fiscal year 2022 pursuant to Article VII, Section 10.13 of the Constitution of Louisiana. The formula for the assessment has to be approved each year by the Legislature. The total assessment shall not exceed the lesser of the following:

- a. The state portion of the cost of the reimbursement enhancements that are directly attributable to payments to hospitals; or
- b. One percent of the total inpatient and outpatient hospital net patient revenue of all hospitals included in the assessment, as reported in Medicare cost report ending in state Fiscal Year 2015.

LDH currently assesses non-rural hospitals at a rate of approximately 1.0% of net patient revenues. Assessment proceeds help fund the non-federal share of inpatient per diem rate increases and managed care capitation payments for the Medicaid expansion population.

See **Appendix J** for detail of LDH hospital assessment revenue by hospital.

²⁰ Per LDH, hospital assessment did not become effective until state fiscal year 2017.

Future Outlook

Senate Concurrent Resolution Number 27²¹ of the 2020 First Extraordinary Legislative Session authorized and directed LDH to seek independent consultant opinions and alternative options for the submission of a new payment method to the Centers for Medicare and Medicaid (CMS). In response to the resolution, LDH requested that Milliman, Inc. (Milliman) develop alternative state-directed payment methodologies under 42 CFR 438.6(c) for Medicaid managed care inpatient and outpatient hospital services. The new state-directed payments²² would replace managed care hospital FMP and, with federal approval, would bring LDH in compliance with federal regulations and State Medicaid Director Letter (SMDL) #21-001. Currently, CMS has granted an extension for all of the current FMP programs until January 2023 to become compliant with the provisions of SMDL #21-001. LDH submitted the pre-print for the new hospital-directed payment program, to CMS on March 31, 2022, and plans to implement the program for state fiscal year 2023. LDH is also currently working to design a replacement model for managed care physician FMP.

State-directed payment methodologies are expected to replace the FMP methodologies used and described in this report. The scope of this report does not cover the development of LDH's new directed payment methodologies.

LLA drafted this informational report with the assistance of LDH, the managed care plans, and provider consultants in response to HCR 2 of the 2021 Regular Legislative Session. Under Louisiana Revised Statute 24:513, this report is a public document, and it has been distributed to appropriate public officials.

Respectfully submitted,

Michael J. "Mike" Waguespack, CPA
Legislative Auditor

AS:AC:BH:EFS:ch

HOSPITAL & PHYSICIAN PAYMENT AND FUNDING

²¹ [SCR 27 Report – Louisiana Department of Health Directed Payment Options Analysis | La Dept. of Health](#)

²² State-directed payments are a type of supplemental payments that are required by a state to occur under MCO contract requirements

APPENDIX A: MANAGEMENT'S RESPONSE

State of Louisiana
Louisiana Department of Health
Office of the Secretary

April 7, 2022

Mr. Mike Waguespack, Louisiana Legislative Auditor
1600 N. 3rd Street
Baton Rouge, LA 70802

Re: Louisiana Department of Health
Hospitals and Physician Payments and Related Funding

Dear Mr. Waguespack:

The Louisiana Department of Health (LDH) is in receipt of the above referenced report that was produced in March of 2022. The main purpose of the report was to provide a detailed analysis of the Medicaid hospital reimbursement methodology and supplemental payment programs utilized by LDH. This detailed analysis was conducted in response to House Concurrent Resolution (HCR) 2 of the 2021 Regular Legislative Session. LDH has reviewed the analysis and appreciates the opportunity to provide a response and / or comment.

Based on our review, LDH comments are as follows:

1. The Intergovernmental Transfers that LDH receives are provided to support the Medicaid program as a whole; however, LDH does track how the funds are used on a per program basis.
2. LDH has validated that the Fee for Service payment amounts, dates, and the specific providers match our internal records.
3. Any payments made by the Managed Care Organizations (MCO) are determined through negotiations between them and the specific providers or their representatives; therefore, LDH cannot verify the accuracy of any specific payments reported. However, LDH did tie the total amounts on the appendixes to records provided by the MCOs.
4. LDH would like to point out that "outlier" payments are not classified as supplemental payments. LDH provided outlier information to the LLA as it is not included in the initial provider payment; however, it is technically a "claims" payment.

As always, LDH appreciates the collaboration and work of the Louisiana Legislative Auditor. LDH also specifically appreciates the opportunity for comment afforded by your office in relation to this analysis. If you have any questions, please feel free to reach out to me at Andrew.Perilloux@la.gov. With kindest regards, I remain,

April 7, 2022

NOTE 1: Tax Identification Number, National Provider Identifier, and Medicaid Identification Number were included in the data provided by LDH and the health plans. LDH consistently uses Medicaid ID as a unique provider identifier. The health plans provided information including combinations of the three identifiers or none at all. The identification numbers were used for summarizing provider payments for appendix reporting but were removed from public reporting in order to maintain confidentiality and out of an abundance of caution regarding publication of information that could be used to attempt to defraud the Medicaid program.

NOTE 2: MCIP payments are not included in the above detail due to the level of payment detail provided. See Appendix G. All IGT's provided to LDH, including MCIP IGT, are included in the above.

NOTE 1: Tax Identification Number, National Provider Identifier, and Medicaid Identification Number were included in the data provided by LDH and the health plans. LDH consistently uses Medicaid ID as a unique provider identifier. The health plans provided information including combinations of the three identifiers or none at all. The identification numbers were used for summarizing provider payments for appendix reporting but were removed from public reporting in order to maintain confidentiality and out of an abundance of caution regarding publication of information that could be used to attempt to defraud the Medicaid program.

NOTE 1: Tax Identification Number, National Provider Identifier, and Medicaid Identification Number were included in the data provided by LDH and the health plans. LDH consistently uses Medicaid ID as a unique provider identifier. The health plans provided information including combinations of the three identifiers or none at all. The identification numbers were used for summarizing provider payments for appendix reporting but were removed from public reporting in order to maintain confidentiality and out of an abundance of caution regarding publication of information that could be used to attempt to defraud the Medicaid program.

* Indicates providers paid as part of the Louisiana Medicaid Physicians, IPA. All five plans noted payments to the IPA. The auditor requested payment detail for reporting.

** Aetna was unable to provide IPA payment detail for months of service July 2015 through December 2016.

NOTE 1: Tax Identification Number, National Provider Identifier, and Medicaid Identification Number were included in the data provided by LDH and the health plans. LDH consistently uses Medicaid ID as a unique provider identifier. The health plans provided information including combinations of the three identifiers or none at all. The identification numbers were used for summarizing provider payments for appendix reporting but were removed from public reporting in order to maintain confidentiality and out of an abundance of caution regarding publication of information that could be used to attempt to defraud the Medicaid program.

NOTE 2: Aetna provided IPA detail by invoice service periods. LLA consolidated the invoice service periods into state fiscal years. When the invoice service periods crossed state fiscal years, data was included in the state fiscal year of the first month of the invoice service period. Detail provided included providers listed multiple times within a service period with payment amounts. LLA attempted to combine provider amounts across service periods as best as possible. The only way to match providers with absolute confidence is by a unique identifier which was not provided. There was approximately six million dollars reported as being for service periods after state fiscal year 2020 included in Aetna's submission which was not included in the detail above.

NOTE 3: Aetna provided IPA invoice detail that included a 2.5% administrative fee. The fee was shown as an overall fee after the payments were calculated for all providers. Auditor did not reduce any payments by the fee because no allocation for the fee was provided.

NOTE 1: Tax Identification Number, National Provider Identifier, and Medicaid Identification Number were included in the data provided by LDH and the health plans. LDH consistently uses Medicaid ID as a unique provider identifier. The health plans provided information including combinations of the three identifiers or none at all. The identification numbers were used for summarizing provider payments for appendix reporting but were removed from public reporting in order to maintain confidentiality and out of an abundance of caution regarding publication of information that could be used to attempt to defraud the Medicaid program.

NOTE 1: Tax Identification Number, National Provider Identifier, and Medicaid Identification Number were included in the data provided by LDH and the health plans. LDH consistently uses Medicaid ID as a unique provider identifier. The health plans provided information including combinations of the three identifiers or none at all. The identification numbers were used for summarizing provider payments for appendix reporting but were removed from public reporting in order to maintain confidentiality and out of an abundance of caution regarding publication of information that could be used to attempt to defraud the Medicaid program.

NOTE 1: Tax Identification Number, National Provider Identifier, and Medicaid Identification Number were included in the data provided by LDH and the health plans. LDH consistently uses Medicaid ID as a unique provider identifier. The health plans provided information including combinations of the three identifiers or none at all. The identification numbers were used for summarizing provider payments for appendix reporting but were removed from public reporting in order to maintain confidentiality and out of an abundance of caution regarding publication of information that could be used to attempt to defraud the Medicaid program.

APPENDIX K: POOL DESCRIPTIONS AND METHODOLOGIES

The summary information presented below was provided to LLA by LDH.

SPA 15-0012 Low Income and Needy Care Collaboration Agreement (LINCCA) hospitals

The LINCCA pool is comprised of hospitals that have an agreement with the Louisiana Department of Health to provide healthcare services to those individuals that are deemed low income and needy.

These payments are based upon each individual hospital's pro rata share of the pool. The pro rata share is calculated by dividing the individual hospital's net uncompensated care costs by the total net uncompensated care costs of all the qualifying hospitals in the pool. The result of those calculations are then multiplied by the amount appropriated by the department. If the amount appropriated by the department exceeds the net uncompensated care costs then payment is made up to each individual hospital's net uncompensated care costs. If a determination is made that reduction of the DSH payments made under this category is necessary to remain within the federal share allotment then the department will calculate a pro rata decrease ratio for each hospital. This pro rate decrease ratio is calculated by dividing the individual hospital's total payments by the total payments of all qualifying hospitals in the pool. That ratio is then multiplied by the excess amount of the federal share allotment to determine each individual hospital's total decrease amount.

A portion of the payments made from this pool is dependent on the agreements and arrangements for providers or related entities IGT to the department. These agreements are between the department and the IGT (Intergovernmental/Intra-Agency Transfer) facilities.

Total DSH payments received by hospitals under this category and any other DSH category shall not exceed the hospital's specific DSH limit.

SPA 14-45, 16-0014, and 17-0012 Louisiana Low-Income Academic Hospitals

The DSH Low Income Academic pool is comprised of private acute care general hospitals located outside the Baton Rouge and New Orleans Metropolitan Statistical Area (MSA). These hospitals provide services that were previously delivered and terminated or reduced by a state owned or operated facility or they may be a former state owned and operated hospital whose ownership changed to non-state privately owned and operated.

These payments are based upon allowable hospital specific uncompensated care costs. These costs are calculated using the most recent Medicaid filed cost report and the Medicaid and uninsured

charge data from the same period. The first payment of the fiscal year will be made by October 30th and shall be 25% of the annual uncompensated care costs. The additional payments will be made by January 30th, April 30th and June 30th all being 25% of the annual uncompensated care costs. Once the Medicaid cost report covering the actual dates of service for the state fiscal year in which payments are made is received and reviewed, payments are reconciled to the actual hospital specific uncompensated care costs.

Total DSH payments received by hospitals under this category and any other DSH category shall not exceed the hospital's specific DSH limit.

<p>SPA 12-14, 13-39 and 17-0013 High Medicaid (federally mandated) Hospital</p>
--

The DSH High Medicaid (federally-mandated) pool is comprised of hospitals that meet the federal DSH statutory utilization requirements.

These payments are based upon actual paid Medicaid inpatient days for a six-month period ending on the last day of the last month of that period. The pro rata share is calculated by dividing each qualifying individual hospital's actual paid Medicaid inpatient days for the six-month period by the total of all qualifying hospitals' actual paid Medicaid inpatient days for the six-month period in the pool. The individual ratios obtained by these calculations are then multiplied by \$1,000, which is the state appropriation allocated for this pool.

Total DSH payments received by hospitals under this category and any other DSH category shall not exceed the hospital's specific DSH limit.

<p>SPA 16-0018 and 18-009 Major Medical Center Hospitals</p>

The DSH Major Medical Center pool is comprised of hospitals qualifying for payments as major medical centers located in the Central, Northern, Southeastern, and Southwestern areas of the state. The qualifying hospitals for the Central and Northern areas are St. Francis Medical Center and Willis Knighton Health Systems; the qualifying hospital for the Southeastern area is West Jefferson; and the qualifying hospital for the Southwestern area is Our Lady of Lourdes. These hospitals must be private, non-rural, and do not qualify as a Louisiana low-income academic hospital.

The payments for the Central, Northern, and Southeastern pools are based upon each individual hospital's pro rata share of the pool. The pro rata share is calculated by dividing the individual hospital's net uncompensated care costs by the total net uncompensated care costs of all the qualifying hospitals in the pool. The result of those calculations are then multiplied by the amount appropriated by the Louisiana Legislature in the applicable state fiscal year. The payments for the Southwestern pool are based upon allowable hospital specific uncompensated care costs and are

paid up to that amount. These allowable costs are calculated by using the Medicare/Medicaid cost report methodology.

A portion of the payments made from these pools are dependent on the IGT agreements and arrangements for providers or related entities to a government entity. These agreements are between the participating hospitals and the IGT (Intergovernmental/Intra-Agency Transfer) facilities. The amount of the IGT by the provider or related entity is calculated by multiplying the hospital's total payment amount and the applicable Federal Medical Assistance Percentage (FMAP) state match percentage.

Total DSH payments received by hospitals under this category and any other DSH category shall not exceed the hospital's specific DSH limit.

SPA 14-0012 and 20-0003 Non-State Non-Rural Large Public

The DSH Non-State Non-Rural Large Public pool is comprised of public, non-rural community hospitals that are owned by a parish, city, or other local governmental agency.

These annual payments are equal to 100% of the individual hospital's uncompensated care costs. The original payment is based on data per the most recently filed Medicaid cost report; the reconciliation payment is based on data per the filed cost report for the applicable state fiscal year. If a determination is made that reduction of the DSH payments made under this category is necessary to remain within the federal share allotment, then the department will calculate a pro rata decrease ratio for each hospital in the pool. This pro rate decrease ratio is calculated by dividing the individual hospital's total payments by the total payments of all qualifying hospitals in the pool. That ratio is then multiplied by the excess amount of the federal share allotment to determine each individual hospital's total decrease amount.

Total DSH payments received by hospitals under this category and any other DSH category shall not exceed the hospital's specific DSH limit.

SPA 11-18 and 12-56 Public Small Rural

The DSH Public Small Rural pool is comprised of eligible public small rural hospitals as defined in the Rural Hospital Preservation Act.

These annual payments are equal to 100% of the individual hospital's uncompensated care costs. The original payment is based on data per the most recently filed Medicaid cost report; the reconciliation payment is based on data per the filed cost report for the applicable state fiscal year. If a determination is made that reduction of the DSH payments made under this category is necessary to remain within the federal share allotment then the department will calculate a pro rata decrease ratio for each hospital in the pool. This pro rate decrease ratio is calculated by dividing

the individual hospital's total payments by the total payments of all qualifying hospitals in the pool. That ratio is then multiplied by the excess amount of the federal share allotment to determine each individual hospital's total decrease amount.

Total DSH payments received by hospitals under this category and any other DSH category shall not exceed the hospital's specific DSH limit.

SPA 12-62 Freestanding Psychiatric Hospitals

The DSH Freestanding Psychiatric Hospitals pool is comprised of Medicaid-enrolled non-state hospitals that fall under one of two categories. They provide services that were previously delivered and terminated or reduced by a state-owned-and-operated facility or they assumed the management and operation of services at a facility where such services were previously provided by a state-owned-and-operated facility.

The qualifying hospitals are paid a per diem rate of \$552.05 per day for each uninsured patient. The invoices and supporting documentation are submitted by the facility to a designated OBH employee on a monthly basis for review and approval.

Total DSH payments received by hospitals under this category and any other DSH category shall not exceed the hospital's specific DSH limit.

SPA 11-18 Public State Operated
--

The DSH Public State Operated pool is comprised of hospitals that are owned and operated by the state of Louisiana.

These payments are based upon each individual hospital's pro rata share of the pool. The pro rata share is calculated by dividing the individual hospital's net uncompensated care costs by the total net uncompensated care costs of all the qualifying hospitals in the pool. The result of those calculations are then multiplied by the amount appropriated by the department. If the amount appropriated by the department exceeds the net uncompensated care costs then payment is made up to each individual hospital's net uncompensated care costs.

Total DSH payments received by hospitals under this category and any other DSH category shall not exceed the hospital's specific DSH limit.

SPA 09-55**Low Income and Needy Care Collaboration Agreement (LINCCA) Hospitals Inpatient**

Effective for dates of service on or after January 1, 2010, quarterly supplemental payments will be issued to qualifying non-rural, non-state acute care hospitals for inpatient services rendered during the quarter. Maximum aggregate payments to all qualifying hospitals in this group shall not exceed the available upper payment limit per state fiscal year.

The non-rural, non-state hospital must be affiliated with a state or local governmental entity through a LINCCA. A non-state hospital is defined as a hospital that is owned or operated by a private entity. A LINCCA is defined as an agreement between a hospital and a state or local governmental entity to collaborate for purposes of providing healthcare services to low income and needy patients.

Quarterly payment distribution shall be limited to one-fourth of the lesser or the difference between each qualifying hospital's inpatient billed charges and Medicaid payments the hospital receives for covered inpatient services provided to Medicaid recipients. Medicaid billed charges and payments will be based on a 12 consecutive month period for claims data selected by the Department.

SPA 09-56**Low Income and Needy Care Collaboration Agreement (LINCCA) Hospitals Outpatient**

Effective for dates of service on or after January 1, 2010, quarterly supplemental payments will be issued to qualifying non-rural, non-state acute care hospitals for outpatient services rendered during the quarter. Maximum aggregate payments to all qualifying hospitals in this group shall not exceed the available upper payment limit per state fiscal year.

The non-rural, non-state hospital must be affiliated with a state or local governmental entity through a LINCCA. A non-state hospital is defined as a hospital that is owned or operated by a private entity. A LINCCA is defined as an agreement between a hospital and a state or local governmental entity to collaborate for purposes of providing healthcare services to low income and needy patients.

Quarterly payment distribution shall be limited to one-fourth of the lesser or the difference between each qualifying hospital's outpatient billed charges and Medicaid payments the hospital receives for covered outpatient services provided to Medicaid recipients. Medicaid billed charges and payments will be based on a 12-consecutive-month period for claims data selected by the Department.

SPA 12-63
Public Private Partner Inpatient

Effective for dates of service on or after April 15, 2013, a quarterly supplemental payment shall be made to Our Lady of the Lake Hospital, Inc.

Payment shall be made based on the annual upper payment limit calculation per state fiscal year. Payments will be made in four equal quarterly payments based on 100% of the estimated charge differential for the state fiscal year.

The annual supplemental payments will not exceed the allowable Medicaid inpatient charge differential. Maximum inpatient Medicaid payments shall not exceed the upper payment limit.

SPA 12-64
Public Private Partner Outpatient

Effective for dates of service on or after April 15, 2013, a quarterly supplemental payment shall be made to Our Lady of the Lake Hospital, Inc.

Payments shall be based on the annual upper payment limit calculation per state fiscal year. For each state fiscal year starting with SFY 2014, this payment shall be \$10,000,000, not to exceed the upper payment limits.

SPA 12-59
Non-Rural Non-State Public: Inpatient UPL

Effective for dates of service on or after May 15, 2011, quarterly supplemental payments will be issued to qualifying non-rural, non-state governmental hospitals for inpatient services rendered during the quarter. Payment amount shall be up to the Medicare inpatient upper payment limits.

A non-rural, non-state governmental acute care hospital must be designated as major teaching hospital and have provided at least 17,000 Medicaid acute care and distinct part psychiatric unit paid days for state fiscal year 2010 dates of service; or be located in a city with a population of over 300,000 as of 2010 U.S. Census. Effective for dates of service on or after October 1, 2012, through June 30, 2013, be located in a Medicare Metropolitan Statistical Area, and be located within 15 miles of a state-owned hospital scheduled to close in 2013. Effective for dates of service on or after July 1, 2013, be designated as a non-teaching hospital and located in a Medicare Metropolitan Statistical Area, and provide inpatient obstetrical and neonatal intensive care unit services, and per the cost report period ending in SFY 2012, have a Medicaid inpatient day utilization percentage in excess of 21 percent and a Medicaid newborn day utilization percentage in excess of 65 percent as documented on the as filed cost report.

Quarterly payments shall be the difference between each qualifying hospital's inpatient Medicaid billed charges and Medicaid payments the hospital receives for covered inpatient services provided

to Medicaid recipients. Medicaid billed charges and payments will be based on a 12-consecutive-month period for claims data selected by the Department.

Payments in aggregate will not exceed the UPL for all hospitals included in the non-state government owned group.

SPA 13-30
Non-Rural Non-State Public: Outpatient UPL

Effective for dates of service on or after July 1, 2013, quarterly supplemental payment shall be issued to qualifying non-rural, non-state government hospitals for outpatient hospital services.

The quarterly supplemental payment will be made to Terrebonne General Hospital. Payments shall be quarterly based on the annual upper payment limit calculation per state fiscal year not to exceed the upper payment limits.

Accumulate Medicaid claims data for outpatient services for each non-state hospital and separate charges and payments from paid claims between services reimbursed on percentage of cost basis from services reimbursed at a fee-for-service rate.

For services reimbursed at a fee-for-service rate multiply cost to charge ratio by Medicaid outpatient charges, and subtract claims payments from costs.

For Medicaid outpatient services reimbursed at a percentage of costs, multiply cost to charge ratio by Medicaid outpatient claims charges to determine Medicaid outpatient costs. Multiply costs by the applicable percentage of allowable cost reimbursed for a period to determine Medicaid payment which would be calculated upon cost settlement. Subtract calculated payment from costs.

Add the differences of the Medicaid costs less Medicaid payments for the cost-based services and the fee-for-service rate services. Trend the difference forward to the midpoint of current state fiscal year using the CMS Market Basket Index for PPS hospitals. The sum of the difference is the upper payment limit for that hospital.

Maximum payments shall not exceed the upper payment limit.

SPA 10-31, 17-0011, and 17-0030
Physician UPL

Physicians and other eligible professional service practitioners, who are employed by, or under contract to provide services, at a non-state-owned-or-operated governmental entity may qualify for supplemental payments for services rendered to Medicaid recipients.

The supplemental payment will be determined in a manner to bring payments for these services up to the community rate level. The community rate is defined as the average amount that would have been paid by commercial insurers for the same services.

**SPA 03-37, 07-31, 09-12, 09-23, 13-48 and 17-0015
High Medicaid**

Payments made to hospitals with inpatient utilization percentage greater than 30% based on the 12-month cost report ending in SFY 2006.

In calculating the Medicaid inpatient utilization percentage, Medicaid days shall include nursery and distinct part psychiatric unit days, but shall not include Medicare crossover days. Each eligible hospital will receive an annual supplemental payment which shall be calculated based on the pro rata share of each qualifying hospital's paid Medicaid days.

Effective for dates of service on or after March 1, 2017, the amount appropriated for annual supplemental payments to non-rural, non-state acute care hospitals that qualify as a high Medicaid hospital shall be reduced to \$1,000.

**SPA 12-06 and 12-49
Graduate Medical Education (GME)**

Effective for dates of service on or after February 1, 2012, medical education payments for inpatient services that are reimbursed by a prepaid risk-bearing managed care organization (MCO) shall be paid monthly by Medicaid as interim lump-sum payments.

Hospitals with qualifying medical education programs shall submit a listing of inpatient claims paid each month by each MCO. Qualification for teaching hospitals status or to receive reimbursement for GME costs shall be reestablished at the beginning of each fiscal year. To be reimbursed as a teaching hospital or to receive reimbursement for GME costs, a facility shall submit required documentation to LDH within 30 days of the beginning of each state fiscal year.

Payment for Graduate Medical Education costs must be limited to direct costs of interns and residents in addition to the teaching physician supervisory costs. The GME component of the rate shall be based on hospital specific graduate medical education Medicaid cost for the latest year on which hospital prospective reimbursements are rebased trended forward in accordance with the prospective reimbursement methodology for hospitals.

Monthly payments shall be calculated by multiplying the number of qualifying inpatient days times the medical education costs included in each hospital's per diem rate as calculated per the latest filed Medicaid cost report.

SPA 11-08 and 19-0021 Outliers

An additional payment shall be made for catastrophic costs associated with services provided to children under age six who received inpatient services in a disproportionate share hospital setting, and infants who have not attained the age of one year who received inpatient services in any acute care setting. The costs of the total claim must exceed \$150,000.

The hospital specific cost to charge ratio utilized to calculate the claim costs shall be calculated using the Medicaid NICU or PICU costs and charge data from the most current cost report. Cost is defined as the hospital-specific costs to charge ratio based on the hospital's cost report period. The hospital specific cost to charge ratio will be reviewed bi-annually to determine the need for adjustment to the outlier payment.

Outlier payments are not payable for transplant procedures, as well as services provided to patients with Medicaid coverage that is secondary to other payer.

Beginning with SFY 2012, the outlier pool will cover eligible claims with admission dates during the state fiscal year and shall not exceed \$10,000,000 annually.

Effective on or after July 1, 2019, the outlier pool for admissions during SFY 2019 and subsequent SFYs, shall cover eligible Medicaid fee-for-service (FFS) and managed care organization claims and payments and shall not exceed \$21,092,179 annually.

Payment shall be the costs of each hospital's eligible FFS claims less the prospective payment divided by the sum of all eligible outlier claims less prospective payment multiplied by annual outlier pool amount.

APPENDIX L: SCOPE AND METHODOLOGY

We performed certain procedures at LDH for the period from July 1, 2015, through June 30, 2020, in response to HCR 2 of the 2021 Regular Legislative Session. The scope of our procedures, which is summarized below, was significantly less than an audit conducted in accordance with *Government Auditing Standards*, issued by the Comptroller General of the United States.

- We met with LDH, requested, and obtained information regarding DSH and supplemental payments made by LDH and by the five Healthy Louisiana managed care plans in state fiscal years 2016 through 2020. In addition, we requested and obtained information related to IGTs and Hospital Assessments received during the same time period.
- We requested, obtained, and documented our understanding of payment methodologies for payments made by LDH and revenues received by LDH.
- Met with two consultants for hospital and physician groups to further our understanding of supplemental payments made by the managed care plans for hospital and physician FMP. We requested feedback regarding our understanding of FMP for inclusion in the report.
- Provided LDH with a draft report for feedback and formal response

The purpose of this report is solely to provide information and analysis as described by HCR 2 of the 2021 Regular Legislative Session, and not to provide an opinion on the effectiveness of LDH's internal control over financial reporting or on compliance. Accordingly, this report is not intended to be, and should not be, used for any other purposes.
