#### Independent Auditors' Report

To the Board of Directors
Kisatchie-Delta Regional Planning and Development District

## REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Kisatchie-Delta Regional Planning and Development District as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Kisatchie-Delta Regional Planning and Development District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Kisatchie-Delta Regional Planning and Development District, as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Kisatchie-Delta Regional Planning and Development District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Kisatchie-Delta Regional Planning and Development District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our

## Kisatchie-Delta Regional Planning and Development District February 5, 2024

opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud
  or error, and design and perform audit procedures responsive to those risks. Such procedures include
  examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Kisatchie-Delta Regional Planning and Development District's internal control.
  Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
  raise substantial doubt about the Kisatchie-Delta Regional Planning and Development District's ability
  to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis described in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Kisatchie-Delta Regional Planning and Development District's basic financial statements. The other supplemental information listed in the table of contents is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial

statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental information listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 5, 2024, on our consideration of the Kisatchie-Delta Regional Planning and Development District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Kisatchie-Delta Regional Planning and Development District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Kisatchie-Delta Regional Planning and Development District's internal control over financial reporting and compliance.

This section of Kisatchie-Delta Regional Planning and Development District's annual financial report presents our discussion and analysis of the District's financial performance during the year ended June 30, 2023.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

The basic financial statements include government-wide financial statements and fund financial statements. These two types of financial statements present Kisatchie-Delta's financial position and results of operations from differing perspectives, which are described as follows:

#### **Government –Wide Financial Statements**

The government-wide financial statements report information about Kisatchie-Delta as a whole using accounting methods similar to those used by private-sector companies. These report all revenues and expenses regardless of when cash is received or paid. Furthermore, the government-wide statements include all of Kisatchie-Delta's assets and all of its liabilities (including long-term debt). Expenses incurred in connection with the operation of Kisatchie-Delta's programs are reported as governmental activities. The governmental activities are financed by grants, fees and membership dues.

## **Fund Financial Statements**

Fund financial statements provide detailed information regarding Kisatchie-Delta's most significant activities and are not intended to provide information for Kisatchie-Delta as a whole. Funds are accounting devices that are used to account for specific sources of funds. Kisatchie-Delta's funds are all classified as governmental funds. These funds are used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, the governmental funds use a modified accrual basis of accounting that provides a short-term view of Kisatchie-Delta's finances. Assets reported by governmental funds are limited to amounts that are available for current needs. In addition, liabilities are limited to amounts that are expected to be paid from currently available assets.

#### FINANCIAL ANALYSIS OF KISATCHIE-DELTA AS A WHOLE

Government-wide financial data for Kisatchie-Delta are presented as follows:

As presented above, Kisatchie-Delta's net position increased as a result of careful budgeting and conservation of resources.

## FINANCIAL ANALYSIS OF KISATCHIE-DELTA'S FUNDS

Financial performance of the various funds was consistent with the government-wide performance described above. The only difference was the effect of timing differences related to reporting capital assets and long-term liabilities associated with providing vacation benefits to employees.

## **GENERAL FUND BUDGET HIGHLIGHTS**

## CAPITAL ASSET ADMINISTRATION

Capital assets activity consists of utilizing grant funds to acquire a facility to conduct Kisatchie-Delta's operations and service as a Resiliency Center for Central Louisiana.

#### **DEBT ADMINISTRATION**

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Kisatchie-Delta Regional Planning and Development District, Inc. is a non-profit organization organized under the Laws of the State of Louisiana. The District represents a portion of Central Louisiana that includes eight (8) parishes. Kisatchie-Delta is governed by a Board of Directors and members of the Board are appointed by the governing bodies of various political subdivisions that lie within the boundaries of the District.

Kisatchie-Delta was organized to promote economic development and alleviate unemployment. Its activities are financed by Federal and State grants, as well as support from local governmental units. Since Kisatchie-Delta is financed by governmental sources and, since its Board of Directors is appointed by various local governments, Kisatchie-Delta is considered to be a quasi-governmental unit for financial reporting purposes. The accompanying financial statements were prepared in conformity with generally accepted accounting principles for governmental units.

The following is a summary of certain significant accounting policies and practices:

## **Financial Reporting Entity**

Kisatchie-Delta is considered a legally separate stand-alone government as defined by Statement No. 14 of the Governmental Accounting Standards Board. The reporting entity is composed of the activities that are under the direct control of the Board of Directors. Kisatchie-Delta is not financially accountable for any organizations that maintain separate legal standing; therefore, it has no component units.

#### **Basic Financial Statements**

All of Kisatchie-Delta's operations are classified as governmental activities. Governmental activities involve government services that are normally supported by intergovernmental revenues and certain fees. The basic financial statements include both government-wide and fund financial statements. The government-wide and fund financial statements present the District's financial position and results of operations from differing perspectives which are described as follows:

#### **Government-Wide Financial Statements**

The Statement of Net Position and the Statement of Activities display information about Kisatchie-Delta as a whole. The effect of interfund activity is eliminated from these financial statements. Furthermore, government-wide financial statements exclude any fiduciary activities which are reported in the fund financial statements.

Program revenues reported in the Statement of Activities consist of amounts that are directly associated with a governmental service. Program revenues include charges for services, fees, contributions associated with a particular function and most grants.

## **Fund Financial Statements**

Funds are separate accounting entities that are designed to assist with demonstrating legal compliance and segregating transactions by activity. Major individual funds are reported as separate columns in the fund financial statements. The District's major funds are described as follows:

- General Fund The general fund is the primary operating fund and is used to account for all governmental activities that are not required to be presented elsewhere.
- Louisiana Watershed Initiative Reports activity involving a projected associated with flood control and prevention.
- Resiliency Center Provide funds to acquire and construct a Resiliency Center that will assist with disaster preparation and recovery for the Central Louisiana area.
- Rural Revitalization Provide funds for the development of a Regional Rural Revitalization.

Notes to Financial Statements
June 30, 2023

- USDA RBDG Reports activity for the Rural Business Development Grant.
- Restore LA Assist disaster victims with obtain loans necessary for recovery.
- Delta Regional Authority Established to account for fees earned in connection with projects funded by the Delta Regional Authority.

## **Basis of Accounting and Measurement Focus**

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The basis of accounting and measurement focus used for various financial statement presentations are described as follows:

Financial Statement Presentation
Government-Wide Financial Statements
Fund Financial Statements

Basis of Accounting
Accrual Basis
Modified Accrual Basis

Measurement Focus
Economic Resources
Current Financial Resources

Under the accrual basis of accounting and the economic resources measurement focus, revenues are recorded when earned and expenses are recorded when a liability is incurred.

Under the modified accrual basis of accounting and the current financial resources measurement focus revenue is recognized when it is considered measurable and available. Revenue is considered available if it is collected within 90 days of year end. In addition, expenses are generally recorded when a liability has been incurred. Furthermore, when the current financial resources measurement focus is used, amounts recorded as assets exclude capital assets and the acquisition of capital assets is treated as an expenditure of funds. In addition, long-term debts are excluded from amounts reported as liabilities. Proceeds from issuing long-term debt are reported as an other financing source and repayment of long-term debt is reported as an expenditure of funds.

## **Accumulated Unpaid Vacation**

The District's employees earn from one to one and a half hours of vacation pay for every twenty hours worked depending upon their length of service. Vacation time not taken may be carried forward to subsequent periods; but upon termination, no more than thirty days of accrued vacation will be paid to the employee. Earned vacation has been charged to the funds based on the same allocation as regular salary.

#### **Capital Assets**

Capital assets include significant acquisitions of equipment that are expected to remain in service for a period of years. Capital assets are reported in the government-wide financial statements but are excluded from the fund financial statements. Instead, the funds report the acquisition of capital assets as expenditures rather than asset acquisitions. Capital assets are depreciated using the straight-line method and useful lives ranging from 3 years to 40 years, depending on the longevity potential of the particular asset.

## **Interfund Receivables and Payables**

Amounts of cash held or disbursed by the General Fund on behalf of other funds are recorded as Interfund Payables and Receivables. These Interfund Payables and Receivables are eliminated from the government-wide financial statement presentation.

#### **Cash and Cash Equivalents**

Cash includes amounts in demand deposits, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Credit risk associated with bank deposits is limited by requiring fiscal agent banks to pledge securities as required by State Law. Furthermore, interest rate risk associated with certificates of deposits is typically mitigated by purchasing instruments that mature in one year or less.

## **Use of Estimates**

The preparation of financial statement in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## **Budgets**

As discussed previously, Kisatchie-Delta is organized as a non-profit corporation rather than a political subdivision. Accordingly, Kisatchie-Delta is not required to prepare a formal budget or present budget comparisons with its financial statements.

## **Fund Balance Classification:**

The District's Executive Director is authorized to assign amounts for specific purposes. In situations where it is permissible to spend restricted or assigned resources, the District typically depletes the available restricted or assigned resources before consuming unrestricted resources.

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Kisatchie-Delta Regional Planning and Development District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Kisatchie-Delta Regional Planning and Development District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Kisatchie-Delta Regional Planning and Development District's basic financial statements, and have issued our report thereon dated February 5, 2024.

#### REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the Kisatchie-Delta Regional Planning and Development District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Kisatchie-Delta Regional Planning and Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of Kisatchie-Delta Regional Planning and Development District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified a deficiency in internal control, described in the accompanying schedule of findings as item 2023-001.

### REPORT ON COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether Kisatchie-Delta Regional Planning and Development District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those

provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings as item 2023-002.

## KISATCHIE-DELTA'S RESPONSE TO FINDINGS

Nozier, Mc Lay + Willi

Government Auditing Standards requires the auditor to perform limited procedures on Kisatchie-Delta's response to the findings identified in our audit and described in the accompanying schedule of findings. Kisatchie-Delta's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

## **PURPOSE OF THIS REPORT**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### Condition

Audits were not completed within six months of the end of the fiscal year.

#### Criteria

#### Cause

Due to unforeseen illness, and a lack of guidance by State agencies responsible for providing grant funds, preparations for the audit were not completed within time for audited to be completed by the statutory deadline.

## **Effect**

Non-compliance with State Law.

## Recommendation

We suggest making arrangements for timely audits in the future.
