INDEPENDENT AUDITORS' REPORT

Board of Commissioners Capital Area Groundwater Conservation District Baton Rouge, Louisiana

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the business-type activity and the aggregate remaining fund information (the fiduciary fund) of the Capital Area Groundwater Conservation District (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activity and the aggregate remaining fund information of the District as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 12 to the financial statements, the District restated its beginning net position related to an accounting error associated with the other post-employment benefits trust. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 4 - 7, the Schedule of the District's Proportionate Share of the Net Pension Liability and Related Notes on page 34, the Schedule of District's Contributions to the Retirement System and Notes on page 35, the Schedule of Changes in Net OPEB liability and Ratios and Notes on page 36, and the Schedule of the District's Contributions to the OPEB Plan and Notes on page 37 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. Although our opinion on the basis financial statements is not affected, the following material departures from the prescribed guidelines exist. The Schedule of Changes in Net OPEB liability and Ratios and Notes on page 36, and the Schedule of the District's Contributions to the OPEB Plan and Notes on page 37 should present information for up to a ten-year period. However, these schedules are missing information for the fiscal years ended June 30, 2015, through June 30, 2017. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance on the information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying budgetary comparison schedule, the schedule of compensation, benefits, and other payments to the executive director, and the schedule of per diem paid to Commission members' are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison schedule, the schedule of compensation, benefits, and other payments to the executive director, and the schedule of per diem paid to Commission members' are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2023 on our consideration of Capital Area Ground Water Conservation District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to solely describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Postlethinite & Nesterille

Baton Rouge, Louisiana March 31, 2023

CAPITAL AREA GROUNDWATER CONSERVATION DISTRICT BATON ROUGE, LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2022

As management of the Capital Area Groundwater Conservation District, (hereafter referred to as the District) we offer readers of the District's financial statements this overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2022 in comparison to the prior fiscal year.

Overview of the District

The Capital Area Groundwater Conservation District was created under the provisions of Louisiana Revised Statutes 38:3071-3084 to provide for the effective administration, conservation, orderly development, and supplementation of groundwater resources within the conservation district, which is composed of the parishes of Ascension, East Baton Rouge, East Feliciana, Pointe Coupee, West Baton Rouge, and West Feliciana. The District monitors the usage of groundwater within the District and provides assistance through the United States Geological Survey for the development of new sources of groundwater. The District is governed by a board of commissioners composed of eighteen members appointed by the Governor of the State of Louisiana.

The accompanying financial statements of the Capital Area Groundwater Conservation District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Financial Highlights

- The assets and deferred outflows of resources exceeded the liabilities and deferred inflows of resources of the District at the close of the most recent fiscal year end by \$667,600.
- A restatement of net position was made to the proprietary fund financial statements for the proper recording of the Other Post-Employment Benefits (OPEB) Trust as a separate fiduciary fund which reduced assets and net position by \$214,471 at the beginning of the fiscal year with a reduction in OPEB liabilities of \$214,471 and to record accounts receivable of \$129,978 in the proper period.
- The change in net position was a deficit of \$813,334 compared to an increase of \$96,960 (as restated) in the prior fiscal year.

Overview of the Financial Statement Presentation

The financial statements provide both long-term and short-term information about the District's overall financial status. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements required by Governmental Accounting Standards Board (GASB). The District maintains two different funds: a proprietary fund (a business-type activity) and a fiduciary fund.

Proprietary Fund. The District has one type of proprietary fund, an enterprise fund, which is used to report the same functions presented as a business-type activity for the District, the fund accounts for all district activity.

CAPITAL AREA GROUNDWATER CONSERVATION DISTRICT BATON ROUGE, LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2022

Overview of the Financial Statement Presentation (continued)

The District's proprietary fund financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. Under this basis of accounting, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred, and depreciation of assets is recognized in the statement of revenues, expenses, and changes in net position.

The statement of net position reports the District's net position. Net position, which is the difference between the District's assets, deferred outflows of resources, and liabilities and deferred inflows of resources, is one way to measure the District's financial health or position. The net position is classified into three categories: investment in capital assets, restricted, and unrestricted. The District has no restricted net position recorded in its business-type activity.

Fiduciary Fund. The District has one type of fiduciary fund, an other post-employment benefits trust fund. The fiduciary fund assets is not available to finance district operations. The accounting used for fiduciary funds is much like that used for proprietary funds. The fiduciary fund's net position is restricted for other post-employment benefits.

Basic Financial Statements. The basic financial statements present information for the District as a whole. Statements in this section include the following:

Statement of Net Position. This statement presents assets, deferred outflows of resources, liabilities, and deferred inflows of resources separately. The difference between assets plus deferred outflows and liabilities plus deferred inflows is net position, which may provide a useful indicator of whether the financial position of the District is improving or deteriorating.

Statement of Revenues, Expenses and Changes in Net Position. This statement presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. This statement is designed to show the District's financial reliance on charges for services on pumpage fees.

Statement of Cash Flows. The change in cash as a result of current year operations is depicted in this statement. The cash flow statement includes a reconciliation of operating income (loss) to the net cash provided by or used for operating activities.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information and supplementary information that is deemed useful to readers of this report.

Change in Net position		§ (813,334)	\$ 96,960		
entange in the position	<u>≚</u>	<u>, (010,001)</u>	<u>+ 70,700</u>		

Operating revenues remained consistent year over year due the vastly consistent user-reporting base with no major additions or retirements of wells over the comparative period. In addition, no rate increases took effect during the periods presented. Expenses increased by \$952,414 or 101.4% of those in the prior year. The hiring of a deputy director increased salary and related benefit costs in the current fiscal year and additional costs associated with Phase 2 of the study and engineering analysis being conducted by the Water Institute of the Gulf continued. This study is necessary to provide the District with cost-effective solutions for the preservation and protection of groundwater supply.

CAPITAL AREA GROUNDWATER CONSERVATION DISTRICT BATON ROUGE, LOUISIANA

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2022

Capital Asset and Debt Administration

Capital Assets: The District's investment in capital assets, net of accumulated depreciation, at June 30, 2022 and 2021 was \$679,132 and \$690,763, respectively. Capital assets at year-end are summarized as follows:

CAPITAL AS	CAPITAL ASSETS					
		2022		2021		
Non-depreciable Assets						
Land	\$	11,823	\$	11,823		
Depreciable Assets (net of accumulated depreciation)						
Connector well		210,194		217,594		
Monitoring well		448,013		457,546		
Equipment, furniture, and fixtures		9,102		3,800		
Total	\$	679,132	<u>\$</u>	690,763		

Capital acquisitions during the year included computer equipment and furniture with a total cost of \$7,810. Depreciation expense for the year ended June 30, 2022 totaled \$19,441 compared to \$18,496 in the prior fiscal year.

Debt Administration: Long-term debt of the District includes compensated absences at amounts of \$16,975 and \$5,029 at June 30, 2022 and 2021, respectively. There is also an actuarially determined obligation for post-employment benefits net of assets held in a trust of \$133,303 at June 30, 2022, up from an OPEB asset of \$116,686 (as restated) at June 30, 2021, and net pension liability of \$361,941, up from \$315,443 at June 30, 2021 based on the actuarial valuations of the benefits.

Budgetary Highlights

Actual revenue and expenses remained relatively consistent with budget, as a whole. However, the District incurred considerable legal fees related to the defense of (i) an approved fee increase set to take effect in July 2022, which raises the dollar amount per million gallons used from \$20 to \$65 and (ii) the implementation of a metering system on user wells administered by the District. Due to these expense overruns, the District was unable to initiate various third-party studies and action plans necessary to further the effort of protecting the Aquifer.

Request for Information

This financial report is designed to provide a general overview of the District's finances, comply with finance-related laws and regulations and demonstrate the District's commitment to public accountability. Any questions or requests for additional information can be obtained by contacting Mr. Gary Beard at 3535 S. Sherwood Forest Boulevard, Suite 137, Baton Rouge, Louisiana 70816, telephone 225-293-7370.

INTRODUCTION

The Capital Area Groundwater Conservation District (the District) was created under the provisions of Louisiana Revised Statutes 38:3071-3084 to provide for the effective administration, conservation, orderly development, and supplementation of groundwater resources within the conservation district, which is composed of the parishes of Ascension, East Baton Rouge, East Feliciana, Pointe Coupee, West Baton Rouge, and West Feliciana. The District monitors the usage of groundwater within the District and provides assistance through the United States Geological Survey for the development of new sources of groundwater. The District is governed by an eighteen member board of commissioners appointed by the governor.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental and accounting and financial reporting principles.

The financial statements present the financial position, results of operations, and cash flows of the District as of and for the year ended June 30, 2022.

Financial Reporting Entity:

GASB Codification Section 2100, establishes criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. The basic criteria are as follows:

- 1. Legal status of the potential component unit
- 2. Financial accountability:
 - a) The primary government appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.
 - b) The primary government is financially accountable if an organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board.
 - c) The primary government is financially accountable for a legally separate organization if the primary government's holding of a majority equity interest in that organization does not meet the definition of an investment.

1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

3. Misleading to exclude: Paragraph 111 of Section 2100 covers other potential component units for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading.

Based on the previous criteria, the District is not a component unit of any other government. As required by GASB Codification Section 2100, the District is considered a related organization of the State of Louisiana. The accompanying financial statements present only the transactions of the District.

Based on the previous criteria, the District's management has included the Funded Retiree Health Benefits for the Employees' of the Capital Area Ground Water Conservation Commission Trust (OPEB Trust) as a blended component unit within the financial statements of the District. The OPEB Trust exists for the benefit of current and former District employees who are members of the Plan. The Trust is governed by the Commissioners of the District and assets are used to fund retiree health benefits through the Office of Group Benefits of the State of Louisiana.

Basis of Presentation and Accounting:

The District's financial statements consist of the Proprietary Fund and the Other Post-Employment Benefits Trust Fund, and the related notes to the financial statements. The statements are prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units and promulgated by the Government Accounting Standards Board (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*.

The Proprietary Fund and the Other Post-Employment Benefits Trust Fund financial statements are reported using the economic resource measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability has been incurred, regardless of the timing of the related cash flows.

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. Funds are maintained consistent with legal and managerial requirements. Funds can be classified into two categories: enterprise and fiduciary. The District has no governmental funds. A further explanation of the funds and their reporting classifications follows:

Proprietary Fund

Enterprise Fund - Enterprise funds are used to account for operations: (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation and amortization) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenue earned, expenses incurred, and/or changes in net position is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. Operating expenses of proprietary funds include the costs of services, administrative expenses and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Fiduciary Fund

The Other Post-Employment Benefits Trust Fund (OPEB Trust) is used to account for the accumulation of contributions for a defined benefit, single-employer other post-employment pension plan providing retirement health benefits to qualified employees.

The OPEB Trust Fund's financial statements are prepared on the accrual basis of accounting. Contributions from the District and its employees are recognized as revenue in the period in which employees provide service to the District. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Governmental accounting standards requires the classification of net position into three components – investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

Investment in Capital Assets: This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced, if applicable, by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted: This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, laws and regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted: This component of net position consists of net position that does not meet the definition of restricted, or invested in capital assets, net of related debt.

Budgets and Budgetary Accounting: Subject to the Louisiana Licensing Agency Budget Act established by Louisiana Revised Statutes 39:1331-1342, the District adopts an annual budget prepared in accordance with the basis of accounting utilized by that fund. The Commission must approve any revisions that alter the total expenditures. Although budget amounts lapse at year end, the District retains its unexpended fund balances to fund expenditures in the succeeding year.

Cash and Cash Equivalents: Cash and cash equivalents include amounts in interest-bearing demand deposits. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana. For purposes of the statement of cash flows, all highly liquid investments with a maturity of three months or less are considered to be cash equivalents.

1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

Investments: Investments are limited by Louisiana Revised Statute 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments. Otherwise, the investments are classified as cash and cash equivalents. In accordance with GASB Statement No. 31, investments are recorded at fair value with the corresponding increase or decrease reported in investment earnings.

The District's policy is tailored after Louisiana Revised Statute 49:327 and prohibits investments with maturities extending beyond twelve months. The policy also requires that three quotes be obtained from allowable financial institutions as to interest rates and that the amounts of the investment not exceed an amount insured by FDIC and pledged collateral at any one institution.

Inventory: Inventory of the District includes only office supplies and printed materials, the amount of which is considered immaterial. Therefore, the acquisition of these items is expensed when purchased, and the inventory on hand at year-end is not reported in the accompanying financial statements.

Receivables: Uncollectible amounts due for customer receivables are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the inability to collect the receivable. Management has determined that all amounts are collectible as of June 30, 2022.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Capital Assets: Capital assets are recorded at historical cost. Depreciation is recorded using the straightline method over the useful lives of the assets. Generally, the District includes all capital acquisitions with a cost of \$1,000 in its fixed asset inventory. However, certain items at a cost below that amount may be capitalized if benefits of the item will extend beyond one year and/or the District wants to monitor the item.

Compensated Absences: Employees of the District earn and accumulate vacation and sick leave at varying rates depending on their years of service. The amount of vacation and sick leave that may be accumulated by each employee is unlimited. Upon termination, however, employees or their heirs are compensated for only up to 300 hours of unused vacation leave. This is computed at the employee's hourly rate of pay at the time of termination. Upon retirement, unused vacation leave more than 300 hours plus unused sick leave is used to compute retirement benefits in accordance with GASB Codification Section C60.150.

Deferred Outflows/Inflows of Resources: The statement of Financial Position will often report a separate section for deferred outflows and (or) deferred inflows of financial resources. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources until that applies to a future period(s) and so will not be recognized as an inflow of resources until that time.

1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, have been determined on the same basis as reported by the pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Postemployment Benefits Other Than Pensions (OPEB): For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Retiree Benefits Plan (DRBP) and additions to/deductions from District's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the DRBP recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

2. CASH, CASH EQUIVALENTS AND INVESTMENTS

The following is a summary of the District's cash balances of deposits in financial institutions at June 30, 2022:

	Proprietary Enterprise Fund		Other P	Fiduciary Post-Employment ion Trust Fund	Total		
Cash in banks Money market accounts	\$		\$	32,135	\$	78,357 357,830	
Total Cash and Cash Equivalents	\$	404,052	\$	32,135	\$	436,187	

Deposits in financial institutions can be exposed to custodial credit risk. Custodial credit risk for deposits is the risk that in the event of financial institution failure, the District's deposits may not be returned. To guard against this risk, under state law, deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal or exceed the amount on deposit with the fiscal agent. The District had no custodial credit risk as of June 30, 2022. Securities that may be pledged as collateral consist of obligations of the U.S. Government and its agencies, obligations of the State of Louisiana and its municipalities.

The District is authorized by LRS 39:1211-1245 and 33:2955 to invest temporarily idle monies in various risk-averse instruments including U.S. Government direct and agency obligations, certificates of deposit of qualified financial institutions, certain debt mutual funds, the Louisiana Asset Management Pool (LAMP) and other investments. The proprietary fund of the District had no investments as of June 30, 2022.

2. <u>CASH, CASH EQUIVALENTS AND INVESTMENTS</u> (continued)

Investments

Investments held by the Other Post-Employment Benefits Pension Trust Fund (OPEB Trust) are invested in marketable equity, fixed income and/or real estate securities in accordance with the Trust documents and state law. As of June 30, 2022, assets classified as investments existed only in the OPEB Trust. As of June 30, 2022, the maturities of the OPEB Trust Fund's investments in debt securities were as follows:

			Investment Maturities (in Years)							
	Fair Valu	e	Less than 1		1 - 5		5 - 10		More than 10	
U.S. Treasury Agency Notes	\$ 156,1	00	\$	-	\$	156,100	\$	-	\$	-

Interest Rate Risk. There is no formal investment policy over interest rate risk.

Credit Risk. The Trust Fund limits investments to those permitted for political subdivisions of the State of Louisiana under Revised Statute Section 33:2955.

Concentration of Credit Risk. The Trust Fund limits its investments in mutual funds to 25% of funds available to be invested. There is no formal investment policy over concentration of credit risk.

Custodial Credit Risk - Investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the Trust Fund will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured and unregistered and are either held by the counterparty, or by the counterparty's trust department or agent, but not in the Trust Fund's name. As of June 30, 2022, all of the Trust Fund's investments were held by an agent in the name of the Trust Fund.

Fair Value of Investments

The System's investments measured and reported at fair value are classified according to the following hierarchy:

- Level 1 Investments reflect prices quoted in active markets.
- Level 2 Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include inputs in markets that are not considered to be active.
- Level 3 Investments reflect prices based upon unobservable sources.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk. The following table sets forth by level, within the fair value hierarchy, the District's assets at fair value as of June 30, 2022:

			Quo	ted Prices				
			in Active Markets Significant					ificant
			for Identical Assets Other Inputs			Unobserv	able Inputs	
	June 3	0, 2022	(1	Level 1)	(L	evel 2)	(Le	vel 3)
U.S. Treasury Agency Notes	\$	156,100	\$	156,100	\$	-	\$	-
Total Investments at Fair Value	\$	156,100	\$	156,100	\$	-	\$	-

3. <u>RECEIVABLES</u>

The following is a summary of receivables at June 30, 2022:

Receivables	
Pumpage fees	\$ <u>360,140</u>
Total	\$ <u>360,140</u>

4. <u>CAPITAL ASSETS</u>

Capital asset activity for the year ended June 30, 2022, was as follows:

	eginning Balance	A	dditions_	Dec	luctions	Ending Balance
Capital Assets, not being depreciated: Land	\$ 11,823	\$	-	\$	-	\$ 11,823
Capital Assets, being depreciated:						
Monitoring wells	846,635		-		-	846,635
Less: accumulated depreciation	 (171,496)		(16,932)		-	 (188,428)
Net Monitoring wells	692,072		(16,932)		-	658,206
Equipment, furniture and fixtures	27,828		7,810		-	35,638
Less: accumulated depreciation	 (24,027)		(2,509)		-	 (26,536)
Net Equipment, etc.	 3,801		5,301			 9,102
On-line bill payment system	5,000		-		-	5,000
Less: accumulated depreciation	 (5,000)		-		-	 (5,000)
Net On-line system	 				-	
Net Capital Assets, being depreciated	 678,940		(11,631)		-	 667,309
Net Capital Assets	 <u>690,763</u>		(11,631)		-	 679,132

5. ACCOUNTS AND OTHER PAYABLES

The following is a summary of payables at June 30, 2022:

Class of Payables	
Trade accounts	\$ 499,917
Credit Card Payable	2,976
Payroll Tax Payable	 1,197
Total	\$ 504,090

6. <u>LEAVE</u>

Annual and Sick Leave. The District's employees earn and accumulate annual and sick leave at varying rates depending on their years of full-time service and are credited at the end of each month of regular service. Accumulated leave is carried forward to succeeding years without limitation. Requests for leave must be made to the employee's immediate supervisor and approved by the Executive Director or his/her designee. Upon termination, employees are compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, unused annual leave in excess of 300 hours plus unused sick leave is used to compute retirement benefits.

The cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as current year expenditures when leave is earned. Only annual leave is accrued in the accompanying statement of net position, the amount unpaid at June 30, 2022 being \$16,975.

Compensatory Leave. Non-exempt employees, according to the guidelines contained in the Fair Labors Standards Act, may be paid for compensatory leave earned. Upon termination or transfer, an employee is paid for any time and one-half compensatory leave earned and may or may not be paid for any straight hour-for-hour compensatory leave earned. This pay is based on the employee's hourly rate of pay at the time of termination or transfer. Compensatory leave was not accrued at June 30, 2022.

7. <u>DEFINED BENEFIT PENSIONS PLANS</u>

The Capital Area Groundwater Conservation District (the District) is a participating employer in one costsharing defined benefit pension plan. The plan is administered by one public employee retirement system, the Louisiana State Employees' Retirement System (LASERS). Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of the plan to the State Legislature. The system is administered by a separate board of trustees and is a component units of the State of Louisiana.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the system. The report may be obtained by writing, calling or downloading the reports as follows:

LASERS: 8401 United Plaza Blvd. P. O. Box 44213 Baton Rouge, Louisiana 70804-4213 (225) 925-0185 www.lasersonline.org

Plan Descriptions:

Louisiana State Employees' Retirement System (LASERS) administers a cost-sharing defined benefit pension plan to provide retirement, disability, and survivor benefits to eligible state employees and their beneficiaries as defined in LRS 11:411-414. The age and years of creditable service required in order for a member to receive retirement benefits are established by LRS 11:441 and vary depending on the member's hire date, employer and job classification.

<u>CAPITAL AREA GROUNDWATER CONSERVATION DISTRICT</u> <u>BATON ROUGE, LOUISIANA</u> <u>NOTES TO THE FINANCIAL STATEMENTS</u> <u>JUNE 30, 2022</u>

7. <u>DEFINED BENEFIT PENSION PLANS</u> (continued)

A brief summary of eligibility and benefits of the plans are provided in the following table:

LASERS Highest 36 or 60 months ¹ 30 years any age 25 years age 55 20 years any age² 5-10 yearsage 60⁶ 5 years age 62⁷

2.5% to 3.5%³

¹ Employees hired after a certain date use the revised benefit calculation based on the highest 60 months of service

² With actuarial reduced benefits

³ Members in regular plan 2.5%, hazardous duty plan 3.33%, and judges 3.5%

⁴ Benefit percent varies depending on when hired

⁵ For school food service workers, hired on or before 6/30/15, 30 years at age 55

⁶ Five to ten years of creditable service at age 60 depending upon the plan or when hired

⁷ Hired on or after 7/1/15, age eligibility is 5 years at age 62

Cost of Living Adjustments

The pension plan in which the District participates has the authority to grant cost-of-living adjustments (COLAs) on an ad hoc basis. COLAs may be granted to the system, (LASERS) if approved with a two-thirds vote of both houses of the Legislature, provided the plan meets certain statutory criteria related to funded status and interest earnings.

Contributions

Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer's portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems' Actuarial Committee. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities but are not considered special funding situations.

<u>CAPITAL AREA GROUNDWATER CONSERVATION DISTRICT</u> <u>BATON ROUGE, LOUISIANA</u> <u>NOTES TO THE FINANCIAL STATEMENTS</u> <u>JUNE 30, 2022</u>

7. <u>DEFINED BENEFIT PENSION PLANS</u> (continued)

Contributions to the plan are required and determined by State statute (which may be amended) and is expressed as a percentage of covered payroll. The contribution rates in effect for the year ended June 30, 2022, for the District and covered employees were as follows:

	District	Employees
State Employees' Retirement System	39.50%	7.50% - 8.00%1

¹ Varies by employee

The contributions made to the System for the past three fiscal years, which equaled the required contributions for each of these years, were as follows:

	2022	2021	2020
	.	ф с . с л о	¢ 01 500
State Employees' Retirement System	\$ 29,133	\$ 55,670	\$ 31,733

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The following schedule lists the Districts' proportionate share of the Net Pension Liability allocated by the pension plan based on the June 30, 2021 measurement date. The District uses this measurement to record its Net Pension Liability and associated amounts as of June 30, 2022 in accordance with GASB Statement 68. The schedule also includes the proportionate share allocation rate used at June 30, 2021 along with the change compared to the June 30, 2020 rate. The District's proportion of the Net Pension Liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

	Ne	et Pension	Allocation	Increase
		ility at June 30, 2021	Rate at June 30, 2021	(Decrease) to June 30, 2020 Rate
LASERS	\$	361,941	0.0066%	(0.0028%)

The following schedule list each pension plan's proportionate share of recognized pension expense for the District for the year ended June 30, 2022:

State Employees' Retirement	
System	\$ 127,910

7. <u>DEFINED BENEFIT PENSION PLANS</u> (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to each pension plan and total from the following sources:

	Ou	Deferred tflows of esources	 rred Inflows Resources
Differences between expected and actual experience	\$	357	\$ -
Changes of assumptions		8,865	-
Net difference between projected and actual earnings on			
pension plan investments		-	(84,406)
Changes in proportion and differences between Employer contributions and proportionate share of contributions		98,253	(219)
Employer contributions subsequent to the measurement			
date		29,133	 -
Total	\$	136,608	\$ (84,625)

The District reported a total of \$29,133 as deferred outflow of resources related to pension contributions made subsequent to the measurement period of June 30, 2021 which will be recognized as a reduction in Net Pension Liability in the year ended June 30, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

2024 (19,176) 2025 (37,575)	Year	LA	SERS
2023 (13,006) 2024 (19,176) 2025 (37,575)	2022	\$	92.607
2025 (37,575)		Ŷ	(13,006)
	2024		(19,176)
¢ 22.950	2025		(37,575)
\$ 22,850		\$	22,850

7. <u>DEFINED BENEFIT PENSION PLANS</u> (continued)

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the total pension liability for the pension plan as of June 30, 2021 are as follows:

Valuation Date Actuarial Cost Method Actuarial Assumptions:	LASERS June 30, 2021 Entry Age Normal
Expected Remaining Service Lives Investment Rate of Return Inflation Rate Mortality	 2 years 7.40% per annum, net of investment expenses 2.3% per annum "Non-disabled members - The RP-2014 Blue Collar (males/females) and White Collar (females) Healthy Annuitant Tables projected on a fully generational basis by Mortality Improvement Scale MP-2018. Disabled members - Martality rates based on the RP 2000 Disabled
	Disabled members – Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement."
Termination, Disability, and Retirement	Termination, disability, and retirement assumptions were projected based on a five-year (2014-2018) experience study of the System's members for 2019.
Salary Increases	Salary increases were projected based on a 2014-2018 experience study of the System's members. The salary increase ranges for specific types of members are:
	LASERS

		LASERS	
	Member Type	Lower Range	Upper Range
Regular	3.0%	12.8%	
Judges	2.6%	5.1%	
Corrections	3.6%	13.8%	
Hazardous Duty	3.6%	13.8%	13.8%
Wildlife	3.6%	13.8%	13.8%

<u>CAPITAL AREA GROUNDWATER CONSERVATION DISTRICT</u> <u>BATON ROUGE, LOUISIANA</u> <u>NOTES TO THE FINANCIAL STATEMENTS</u> <u>JUNE 30, 2022</u>

7. <u>DEFINED BENEFIT PENSION PLANS</u> (continued)

Cost of Living Adjustments

The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

The following describes the method used by the retirement system in determining the long-term rate of return on pension plan investments:

LASERS

The long-term expected rate of return on plan investments pension was determined using a building block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.3% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 7.61% for 2021.

7. <u>DEFINED BENEFIT PENSION PLANS</u> (continued)

The following table provides a summary of the best estimates of arithmetic/geometric real rates of return for each major asset class included in the Retirement System target asset allocations as of June 30, 2021:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00%	-0.29%
Domestic equity	31.00%	4.09%
International equity	23.00%	5.12%
Equity	-	-
Domestic fixed income	3.00%	0.49%
International fixed income	18.00%	3.94%
Global Multi-Sector		
Emerging Market Debt		
Fixed income		
Alternatives	24.00%	6.93%
Alternative - private equity		
Alternative - other equity	-	-
Real estate	-	-
Real assets	-	-
Absolute Return		
Risk Parity		
Total	100.00%	20.28%

Inflation

Expected Arithmetic Nominal Return

n/a - amount not provided by Retirement System

Discount Rate

The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net positions was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate used to measure the total pension liability for d LASERS was 7.40%, for the year ended June 30, 2021. The discount rates for LASERS decreased by 0.15% since the prior measurement date, respectively.

7. DEFINED BENEFIT PENSION PLANS (continued)

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the District's proportionate share of the Net Pension Liability (NPL) using the discount rate of the Retirement System as well as what the District's proportionate share of the NPL would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate used by the Retirement System:

	1.09	1.0% Decrease Current Discount Rate			1.	0% Increase
LASERS Rates		6.40%		7.40%		8.40%
District Share of NPL	\$	490,403	\$	361,941	\$	252,637

Payables to the Pension Plan

The District recorded accrued liabilities to the Retirement System for the year ended June 30, 2022 mainly due to the accrual for payroll at the end of each of the fiscal years. The amount due is included in liabilities under the amounts reported as accounts, salaries and other payables. There were no payments due to the retirement system at June 30, 2022.

8. OTHER POSTEMPLOYMENT BENEFITS

General Information about the OPEB Plan

Plan description –Capital Area Groundwater Conservation District (the District) provides certain continuing health care and life insurance benefits for its retired employees. The District's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the District. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the District. Assets have been accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Codification Section P50 *Postemployment Benefits Other Than Pensions—Reporting For Benefits Provided Through Trusts That Meet Specified Criteria—Defined Benefit.*

Benefits Provided – Medical benefits are provided through the Louisiana Office of Group Benefits (OGB) and involve several statewide networks and one HMO with a premium structure by region. The OGB plan is a fully insured arrangement in which the District is a participating employer. The OPEB plan in this valuation is a Defined Benefit Single Employer Plan for financial reporting purposes. Medical benefits are provided to employees upon actual retirement or the end of the D.R.O.P., if applicable.

8. <u>OTHER POSTEMPLOYMENT BENEFITS</u> (continued)

General Information about the OPEB Plan (continued)

Life insurance coverage under the OGB program is available to retirees by election and the blended rate (active and retired) is used. The employer pays 50% of the cost of the retiree life insurance based on that blended rate. Insurance coverage amounts are reduced by 25% at age 65 and by an additional 25% at age 70 according to the OGB plan provisions.

Employees covered by benefit terms – At June 30, 2022, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	1
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	1
	2

Net OPEB Liability

The District's total OPEB liability is \$321,438 as of the measurement date June 30, 2022, the end of the fiscal year. The components of net OPEB liability are as follows:

Total OPEB Liability	\$ 321,438
OPEB Plan Fiduciary Net Position	(188,135)
Net OPEB Liability	\$ 133,303

Actuarial Assumptions – The total OPEB liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Measurement Date	July 1, 2021
Actuarial Valuation Date	July 1, 2021
Actuarial Cost Method	Entry Age Normal, level percentage of pay.
Inflation	2.4% based on consumer price index
Salary increases	Consistent with the pension plan in which the employee participates. The
	LASERS regular member rates were assumed for employees who do not
	participate in one of four state retirement systems.
Discount rate	2.18% (decreased from 2.66% in 2020)
Healthcare cost trend rates	Medical and drug pre-65: 7% through 2023 and decreasing .25% from 2023
	through 2032 to an ultimate rate of 4.5%;
	Medical and drug post-65: 5.5% through 2023 and decreasing .10% from
	2023 through 2032 to an ultimate rate of 4.5%
	(The initial trend was developed using the National Health Care Trend
	Survey; the ultimate trend was developed using a building block approach
	which considers Consumer Price Index, Gross Domestic Product, and
	technology growth)

<u>CAPITAL AREA GROUNDWATER CONSERVATION DISTRICT</u> <u>BATON ROUGE, LOUISIANA</u> <u>NOTES TO THE FINANCIAL STATEMENTS</u> <u>JUNE 30, 2022</u>

8. OTHER POSTEMPLOYMENT BENEFITS (continued)

Mortality For active lives: the RP-2014 Blue Collar Employee Table, adjusted by 0.978 for males and 1.144 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018.

For healthy retiree lives: the RP-2014 Blue Collar Healthy Annuitant Table, adjusted by 1.280 for males and RP-2014 White Collar Healthy Annuitant Table, adjusted by 1.417 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018.

For disabled retiree lives: the RP-2000 Disabled Retiree Mortality Table, adjusted by 1.009 for males and 1.043 for females, not projected with mortality improvement.

The expected remaining service lives was 4.5-year 2021 through 2018 measurement and 4.48 years for 2017 measurement.

The discount rate was based on the June 30, 2021 S&P 20-year municipal bond index.

Changes in the Net OPEB Liability

	Total OPEB Liability		Plan Fiduciary Net Position		Net OPEB Liability (Asset)	
Balance at June 30, 2021		101,674	\$	218,360	\$	(116,686)

Net changes:		219,764		(30,225)		249,989
Balance at June 30, 2022	\$	321,438	\$	188,135	\$	133,303

8. <u>OTHER POSTEMPLOYMENT BENEFITS</u> (continued)

Sensitivity of the total OPEB liability to changes in the discount rate – The following presents the total OPEB liability of the District as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.18%) or 1-percentage-point higher (3.18%) than the current discount rate:

		Current						
	1% Decrease (1.18%)	Discount Rate (2.18%)	1% Increase (3.18%)					
Net OPEB Liability	\$178,089	\$133,303	\$97,686					

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates – The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare trend rates:

	1% Decrease	Current Trend	1% Increase
	6.00%	6.00%	6.00%
	decreasing to	decreasing to	decreasing to
Pre-65 Rates	3.5%	3.5%	3.5%
	6.00%	6.00%	6.00%
	decreasing to	decreasing to	decreasing to
Post-65 Rates	3.5%	3.5%	3.5%
Net OPEB Liability	\$99,642	\$133,303	\$174,583

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2022, the District recognized OPEB expense of \$44,917. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$ 166,845	\$ (2,656)		
Changes in assumption	11,064	(9,053)		
Employer contributions after the				
measurement date	23,738			
Total	<u>\$ 201,647</u>	<u>\$ (11,709</u>)		

8. <u>OTHER POSTEMPLOYMENT BENEFITS</u> (continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years ending June 30:	
2023	\$ 41,462
2024	42,365
2025	45,354
2026	 37,019
	\$ 166,200

9. DEFERRED COMPENSATION/OTHER RETIREMENT PLANS

Certain employees of the District are eligible to participate in the State of Louisiana deferred compensation plan adopted under the provisions of the Internal Revenue Service Code Section 457. Employees may contribute up to 100% of their salary, not to exceed \$19,500 a year, to the plan on a pre-tax basis. The Executive Director also established a separate individual retirement account under the provisions of Internal Revenue Service Code Section 401(k) with Pershing. The contributions to these plans are fully vested immediately and are remitted to a third-party administrator each pay period where they are deposited to an account in the employee's name. The District does not assume any liability for these funds and does not have control over the funds once they are remitted to the third-party administrators. During the year ended June 30, 2022, the District contributed \$5,100 to the State of Louisiana deferred compensation plan and \$55,808 to the retirement account established at Pershing.

10. LONG-TERM LIABILITIES

Long-term liability activity for the year ended June 30, 2022, was as follows:

							Α	mounts		
	Beg	ginning					H	Ending	Due	e Within
	B	alance	A	dditions	Red	uctions	B	Balance	Or	ne Year
Compensated										
absences	\$	5,029	\$	11,946	\$	-	\$	16,975	\$	-

11. <u>RELATED PARTY TRANSACTIONS</u>

Louisiana Revised Statute 38:3074 specifies that of the eighteen members of the Board of Commissioners of the District, three are appointed from nominations by the industrial users of the District and that another three are appointed from nominations by privately or publicly owned entities that furnish water for rural or municipal use. As a result, several members of the Board of Commissioners are employees of those entities, which are regulated by the Commission.

12. <u>RESTATEMENT OF NET POSITION</u>

The District was made aware of accounting errors in its previously issued financial statements. The District did not recognize all of its pumpage revenue in the prior year. In addition, the District's Other Post-Employment Benefits Trust was recorded in the proprietary fund and not in a fiduciary fund as required by accounting standards generally accepted in the United States. As such, the financial statements were restated as June 30, 2021, as follows:

Proprietary Fund:

Net Position at June 30, 2021, as previously reported	\$ 1,350,956
Reclassify trust fund net position	(214,471)
Record the net adjustment of trust assets against total OPEB liability	214,471
Record accounts receivable in the correct period	129,978
Net Position at June 30, 2021, as restated	\$ 1,480,934
Change in Net Position at June 30, 2021, as previously reported	\$ (33,018)
Increase in pumpage revenue for accounts receivable	129,978
Change in Net Position at June 30, 2021, as restated	\$ 96,960
OPEB Trust Fund:	
Net Position at June 30, 2021, as previously reported	\$ -
Reclassify trust fund net position from proprietary fund	218,360
Record retiree benefits payable	(3,889)
Net Position at June 30, 2021, as restated	\$ 214,471
Change in Net Position at June 30, 2021, as previously reported	\$ -
Expenses paid out of trust during the fiscal year	(29,934)
Change in Net Position at June 30, 2021, as restated	\$ (29,934)

13. CONCENTRATIONS

There are two customers that represent approximately 54% of pumpage fees.

14. SUBSEQUENT EVENTS

The District executed a Cooperative Endeavor Agreement with the State of Louisiana on July 13, 2022 to receive funds of \$400,000 for professional services and capital improvements for the Project in the parish set forth by the Facility Planning and Control.

Notes to Schedule:

This schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

Changes of Assumptions.

The changes in assumptions balance was a result of changes in the discount rate, and change in the assured commenced of benefits. The following are the discount rates and healthcare cost trend rates used for in each measurement of total OPEB liability:

			Healthcare	Cost Trends
Measurement				
Date	Rate	Change	Pre-65 Rates	Post-65 Rates
7/1/2021	2.18%	-0.48%	7.0% to 4.5%	5.5% to 4.5%
7/1/2020	2.66%	-0.13%	6.75% to 4.5%	5.25% to 4.5%
7/1/2019	2.79%	-0.19%	7.0% to 4.5%	5.5% to 4.5%
7/1/2018	2.98%	-0.15%	7.0% to 4.5%	5.5% to 4.5%
7/1/2017	3.13%	0.42%	7.0% to 4.5%	5.5% to 4.5%
7/1/2016	2.71%			

Other Changes in Assumptions for measurment 7/1/2018:

The baseline per capita costs were adjusted to reflect 2018 claims and enrollment, retiree contributions were update based on 2019 premiums, and the impact of the High Cost Excise Tax was revisted, reflecting updated plan premiums. The percentage of future retirees assumed to elect medical coverage was adjusted based on plan experience.

Other Changes in Assumptions for measurment 7/1/2019:

The estiate of future EGWP savings was increased, based on analysis of recent experience; Baseline per capita costs wer updated to reflect 2019 claims and enrollment and retiree contributions were updated based on 2020 premiums; Life insurance contributions were updated based on updated schedules for 2020 monthly premium rates; The impact of the High Cost Excise Tax was removed. The High Cost Excise Tax was replaced in December 2019; Demographic assumptions were revised for the LASERS Retirement Sytem to reflect the recent experience study.

Other Changes in Assumptions for measurment 7/1/2020:

Baseline per capita costs wer updated to reflect 2020 claims and enrollment and retiree contributions were updated based on 2021 permiums. 2020 medical claims and enrollment experience were reviewed but not included in the projection of expected 2021 plan costs; Due to COVID-19 pandemic, this experience is not reflective of what we can expect in future years; The salary scale assumptions were revised; Medical participation rates, life participation rates, the age differences between future retirees and their spouses, Medical eligibility rates, and percentage of future retirees were assumed to be Medicare eligible upon reaching the age of 65 was decreased from 100% to 99% and the percentage of current retirees under age 65 at June 30, 2017, assumed to be eligible was changed from 95% to rates ranging from 90% to 999% based on the date the retiree turns 65.

Other Changes in Assumptions for measurment 7/1/2021:

Baseline per capita costs were updated to reflect the 2021 claims and enrollment; Medical plan election percentages were updated based on the coverage elections of recent retirees.

A Professional Accounting Corporation

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners Capital Area Groundwater Conservation District Baton Rouge, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activity and the aggregate remaining fund information (the fiduciary fund) of Capital Area Groundwater Conservation District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Capital Area Groundwater Conservation District's basic financial statements and have issued our report thereon dated March 31, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Capital Area Groundwater Conservation District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Capital Area Groundwater Conservation District's internal control. Accordingly, we do not express an opinion on the effectiveness of Capital Area Groundwater Capital Area Groundwater Conservation District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses as items 2022-001, 2022-002, 2022-003 and 2022-004 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and responses as item 2022-005 to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Capital Area Groundwater Conservation District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as items 2022-004 and 2022-006.

District's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the findings identified in our audit and described in the accompanying schedule of findings and responses. The District's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A. Summary of Auditors' Results

Financial Statements

Type of auditors' report issued: Unmodified

• Material weakness(es) identified?	<u> </u>	<u></u> no
• Significant deficiencies identified that are not considered to be material weaknesses? reported	<u> </u>	none
Noncompliance material to financial statements noted?	<u> </u>	no

2022-001 Internal Controls over Pumpage Fee Revenue

- <u>Criteria:</u> To establish sound financial management practices and accountability over funds received from customers proper controls and policies should be established by management.
- <u>Condition:</u> Customers of the District self-report water usage quarterly through a separate portal which documents the water usage and calculates the rate applied per gallon reported. To complete the filing, customers must submit the calculated fee through an ACH transaction which is deposited into the District's bank account. During our audit, we noted that the District did not maintain documentation of reconciliations of customers self-reported pumpage fee revenue reports to bank deposits or to amounts recorded into the general ledger. In addition, the District was not monitoring the filing of reports by customers to ensure all amounts due to the District are recorded in the general ledger.

Given the self-reporting nature of the water usage and collection of fee revenue, the District may not be receiving all of the resources to which it may be entitled.

- <u>Cause:</u> A small operating environment with limited staffing to provide resources to complete the reconciliation processes and accounting records which have historically been recorded on a cash basis have contributed to the lack of accountability over fee revenue. The District is also unable, in some instances, to read meters of its customers on a regular basis to ensure the accuracy of the information being reported through the portal.
- Effect:The District may not be collecting all of the revenue to which it is entitled given
the structure of how fees are reported and paid. Revenues recorded may not reflect
all of the amounts due to the District in the correct period.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2022

2022-001 **Internal Controls over Pumpage Fee Revenue** (continued)

Recommendation: Management should determine a method to validate self-reported amounts. Also, procedures should be developed to ensure complete and proper documentation of quarterly reconciliations and review of all customers reporting requirements.

View of Responsible Official and Planned Corrective Action:

While the District does not document the reconciliation between self-reported pumpage fee revenue reports to bank deposits, the District's clerk does manually update the existing reporting software, Pump Pay, once deposits are received. The District monitors users who have not reported pumpage via Pump Pay in a timely manner and also monitors those users who have reported pumpage but have not remitted the applicable fees due. The District recognizes the weakness in the existing reporting software, Pump Pay, and has a significant outlay for fiscal year ended June 30, 2023 to invest in a more robust reporting software that allows users to both report pumpage and remit fees due simultaneously. The District intends to roll-out this new reporting software for fiscal year ended June 30, 2024.

The District has engaged Attracct Accounting Advisors, LLC (Attracct) to outsource the District's entire accounting function. Attracct is a registered CPA Firm recognized by the State Board of Certified Public Accountants of Louisiana and handles, among other duties, all revenue reconciliation between the District's reporting software, bank deposits, and the general ledger.

The District intends to complete a quarterly checklist of users who reported vs. those who did not, and compare actual pumpage amounts against an expected, budgeted pumpage amount based a on trailing four quarter average.

The District's effort to place District-monitored meters on each of our member's wells to measure pumpage will address the self-reporting component and ensure completeness of revenue due to the District.

2022-002	<u>Timely Reconciliation of Bank Statements and Documentation of Review of Bank</u> <u>Reconciliations</u>
<u>Criteria:</u>	Cash is the most liquid of assets and has the highest risk for theft and misappropriation in any organization. As such the establishment of policies and the documented performance of procedures over bank reconciliations are key to properly designed internal control system over cash.
Condition(s):	During our audit testing, we noted there is no formal documentation of the review or approval of monthly bank reconciliations to evidence these procedures are occurring. The June 30, 2022 bank reconciliation was not prepared until five months after the fiscal year end.
Cause:	A formal policy establishing procedures that require the monthly preparation and documentation of the review of monthly reconciliations has not been implemented.
Effect:	The lack of monthly reconciliations could result in management not timely detecting any misappropriation that occur when a good system of internal controls is not in place.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2022

2022-002 <u>Timely Reconciliation of Bank Statements and Documentation of Review of Bank</u> <u>Reconciliations</u> (continued)

<u>Recommendation</u>: Bank reconciliations should be performed within two months of month end and the preparation and review should be documented with an initial by each to evidence that the procedure was performed and the review did occur.

View of Responsible Official and Planned Corrective Action:

The District has engaged Attracct Accounting Advisors, LLC (Attracct) to outsource the District's entire accounting function. Attracct is a registered CPA Firm recognized by the State Board of Certified Public Accountants of Louisiana and performs all bank account and credit card account reconciliations on a monthly basis. Each reconciliation is reviewed on a monthly basis by management, and management's review is documented on each reconciliation by a signoff and date reviewed.

2022-003	Segregation of Duties
<u>Criteria</u> :	An effective internal control system includes the segregation of duties. The separation of functions assists in the prevention of fraud and error. Access to programs and data should be appropriately controlled to prevent unauthorized use, disclosure, modification, damage, or loss of data. User access should be limited to the appropriate roles of the individual. Adequate internal controls require the segregation of responsibilities for check writing and mailing the checks.
<u>Condition(s)</u> :	While our testing did not identify any misappropriations of assets, proper segregation of duties does not exist. The Executive Director's accounting software access is not limited to his role. He has the ability to enter vendors, print checks, and is a check signor. We also noted that the individual responsible for preparing checks is also responsible for mailing the same checks.
<u>Cause</u> :	Due to the limited number of individuals employed by the District it makes it impractical to achieve optimum segregation of duties.
Effect:	There is a potential for misappropriation without detection given the inability to segregate the duties within the District.
Recommendation:	The District should review user access to accounting system and limit access based on user needs. In addition, separate the duties of the mailing of checks from processing the payments. Internal controls would be significantly strengthened if checks were mailed by someone other than the preparer to provide control on whether the check written was in fact sent.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2022

2022-003 <u>Segregation of Duties</u> (continued)

View of Responsible Official and Planned Corrective Action:

Due to the fact the District only employs two full-time team members and supplements the administrative function of the District via contract labor, The District recognizes the inherent lack of segregation of duties. Attracct has limited both the check signor's and the check preparer's access to the District's accounting software to "read only." Additionally, the District's policy will call for the signor of the check to ensure the check gets mailed.

2022 – 004 Other Post-Employment Benefits Trust Agreement and Funding Requirements

<u>Criteria</u>: The District established an irrevocable trust for the funding of the health benefits of its retirees and the other post-employment benefit (OPEB) liability. Under the terms of the trust agreement, the OPEB Plan should be funded by the employer on behalf of the covered employees. The following amounts should be contributed to the trust:

- a) All employer contributions established as required contribution levels by the Plan, as determined from reasonable estimation of plan liabilities and accrued benefits; and
- b) An initial deposit from the Employer's reserve account for the Plan.

These health benefits are provided through the Office of Group Benefits (OGB). An annual actuarial valuation and financial statement audit of the OGB plan is made available to the District on the OPEB liabilities associated with these benefits.

- <u>Condition(s)</u>: The District was not reporting the trust in accordance with Governmental Accounting Standards which requires a separate fiduciary fund to be established. Since the initial deposit was made to the Plan in 2015, there have been no actuarial determined contributions made to the trust. Additionally, the valuation and audit provided by OGB of the OPEB defined benefit plan does not accurately reflect the future liability of the District's plan since OGB is not provided the information on the assets available in the trust available to fund these benefits.
- <u>Cause:</u> The District has experienced a significant amount of turnover over the past several years. The new members of the District's management were unaware of the terms of the trust agreement. In addition, very few governments have established a trust to fund these types of benefits and OPEB liabilities, as such, management is unfamiliar with the Governmental Accounting Standards rules governing OPEB liabilities funded through a trust.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2022

2022 – 004 Other Post-Employment Benefits Trust Agreement and Funding Requirements (continued)

- Effect: The trust was established with the intention of fully funding the future benefits of its employee's other post-employment liabilities. Currently assets available in the trust fund these benefit payments. However, without the District obtaining a valuation of the contributions necessary to fund future benefits, the future liabilities will not be funded and require the District to pay as they go for these benefits from general operations. Since the valuation performed does not include all the information regarding the assets in the trust, the current net OPEB liability calculation may not be accurate. In addition, the creation of the fiduciary fund for the trust, resulted in a restatement of net position of the District's enterprise fund.
- <u>Recommendation</u>: We recommend the District review the terms of the trust agreement and take the necessary steps to establish internal controls over obtaining an annual actuarial valuation of the required annual contributions to fund these benefits and obtain its own actuarial valuation in accordance with applicable accounting standards of the future liabilities associated with these benefits to more accurately represent the net OPEB liability reported in the financial statements.

View of Responsible Official and Planned Corrective Action:

The District will engage an actuary within the next three months who will provide a valuation of the required annual contributions necessary to fund these benefits. Management has also engaged Attracct to properly account for the activity in a separate fund. Management notes the trust is correctly reported in a separate fund in these financial statements. Management will also develop a separate Investment Policy and collect input from Argent Trust, our third-party trust manager.

<u>2022-005</u>	<u>Credit Card Documentation of Business Purpose and Credit Limits</u> <u>Available</u>
Criteria:	Internal controls over credit card purchases should include documentation of management approval and the business purpose of each transaction and a limit established of the credit available to amounts necessary for business operations.
Condition:	We noted there was no documentation of management's review of credit card statements. There is no established procedure to document the business purpose of the use of a District credit card. In addition, limits of available credit have not been reviewed to determine if necessary for normal business operations.
Cause:	Due to the small operating environment, the use of credit cards has made District purchases easier but extends the risk of the misappropriation of assets.
Effect:	The intentional or unintentional misappropriation of District assets can occur without proper internal controls.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2022

2022-005 Credit Card Documentation of Business Purpose and Credit Limits Available (continued)

<u>Recommendation</u>: The District should evaluate its current policies and procedures and consider the inclusion of the documentation of the business purpose as part of management's approval process as well as establishing the maximum credit limits which should be made available to card holders.

View of Responsible Official and Planned Corrective Action:

The District will implement a policy and procedure where all credit card activity, and the business purpose of each transaction, is timely reviewed by management on a monthly basis. Credit cards will be reconciled on a monthly basis and the business purpose of each transaction will be presented to management for review and signoff. Additionally, the District has evaluated our credit card limit and, due to the need of booking business travel and other related expenses, has deemed the limit appropriate. The District believes the controls previously noted are sufficient to comply with the Legislative Auditor's requirements.

<u>2022-006</u>	Compliance with Louisiana Audit Law
<u>Criteria</u> :	Louisiana Revised Statute 24:513 provides an annual audit of a government that receives in excess of \$500,000 in public funds be submitted to the Louisiana Legislative Auditor within six months of the close of the entity's fiscal year.
Condition:	The District did not meet the original filing deadline of December 31, 2022 for its fiscal year ended June 30, 2022. The District was provided a three-month non-emergency extension to file with the Legislative Auditor.
<u>Cause</u> :	Turnover in key personnel contributed to delays in year end close out procedures, switching of payroll providers in the middle of the fiscal year, and notification of the retirement of the District's external auditor which delayed the hiring of a new auditor.
Effect:	The District is not compliant with the audit law and non-compliance may result in the loss of funding or penalties for failure to file.
Recommendation:	The District should ensure future filing deadlines with the Louisiana Legislative Auditor are met.

View of Responsible Official and Planned Corrective Action:

We will timely engage our auditor going forward and plan to comply with all future deadlines.

SCHEDULE OF PRIOR YEAR FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2021

2021-001	Dating of Checks
Condition:	Numerous checks appear to have been written after fiscal year end yet dated prior to year-end.
Recommendation:	Management should stress to employees that checks are to be dated as of the then current date, and further, management should have the contract CPA reconcile the bank account each month promptly. Management should also review the reconciliation for accuracy.
Updated Status:	Resolved.
2021-002	Correction of Erroneously Written Checks
Condition:	Several checks appear to have been written in error and have not cleared the bank in the many months since.
Recommendation:	Management should review the bank reconciliation monthly and inquire about reconciling items that appear unusual.
Updated Status:	Resolved. However, a separate finding was reported in the current fiscal year regarding bank account reconciliations.

CAPITAL AREA GROUNDWATER CONSERVATION DISTRICT

<u>REPORT ON STATEWIDE</u> <u>AGREED-UPON PROCEDURES ON COMPLIANCE AND</u> <u>CONTROL AREAS</u>

Schedule A: Agreed-Upon Procedures Performed and Associated Findings	2 - 14
Schedule B: Management's Response and Corrective Action Plan	15

A Professional Accounting Corporation

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

To the Members of the Capital Area Groundwater Conservation District and the Louisiana Legislative Auditor:

We have performed the procedures enumerated in Schedule A on the control and compliance (C/C) areas identified in the Louisiana Legislative Auditor's (LLA's) Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period July 1, 2021 through June 30, 2022. Capital Area Ground Water Conservation District's (the District) management is responsible for those C/C areas identified in the SAUPs.

The District has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in LLA's SAUPs for the fiscal period July 1, 2021 through June 30, 2022. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures we performed, and the associated findings are summarized in the attached Schedule A, which is an integral part of this report.

We were engaged by the District to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.

Postlethinite & Mesterille

Baton Rouge, Louisiana March 31, 2023

Schedule A

The procedures performed and the results thereof are set forth below. The procedure is stated first, followed by the results of the procedure presented in italics. If the item being subjected to the procedures is positively identified or present, then the results will read "no exception noted" or for step 25 "we performed the procedure and discussed the results with management". If not, then a description of the exception ensues.

A - Written Policies and Procedures

- 1. Obtain and inspect the entity's written policies and procedures and observe whether they address each of the following categories and subcategories (if applicable to public funds and the entity's operations):
 - a) *Budgeting*, including preparing, adopting, monitoring, and amending the budget.

The Entity has a written policy for Budgeting however the policy does not address the monitoring the budget.

b) *Purchasing*, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the Public Bid Law; and (5) documentation required to be maintained for all bids and price quotes.

No exceptions noted.

c) *Disbursements*, including processing, reviewing, and approving

No exceptions noted.

d) *Receipts/Collections*, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g., periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).

The Entity does have a written policy for Receipts however the policy does not address the receiving and recording of receipts.

e) *Payroll/Personnel*, including (1) payroll processing, (2) reviewing and approving time and attendance records, including leave and overtime worked, and (3) approval process for employee(s) rate of pay or approval and maintenance of pay rate schedules.

No exceptions noted.

f) *Contracting*, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.

No exceptions noted.

Schedule A

g) *Credit Cards (and debit cards, fuel cards, P-Cards, if applicable)*, including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).

No exceptions noted.

h) *Travel and Expense Reimbursement*, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.

No exceptions noted.

Ethics, including (1) the prohibitions as defined in Louisiana Revised Statute (R.S.) 42:1111-1121,
 (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) a requirement that documentation is maintained to demonstrate that all employees and officials were notified of any changes to the entity's ethics policy.

The Entity has written policies for Ethics; however, the policy does not specifically address the actions to be taken if an ethics violation takes place (2) above or a system to monitor possible ethic violations according to attribute (3) above and no requirement that documentation is maintained to demonstrate that all employees and officials were notified of any changes to the entity's ethics policy (4) above.

j) *Debt Service*, including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.

Not applicable to the entity as the Entity does not have debt.

k) Information Technology Disaster Recovery/Business Continuity, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.

The Entity does not have written policies for Information Technology Disaster Recovery/ Business Continuity.

1) *Sexual Harassment*, including R.S. 42:342-344 requirements for (1) agency responsibilities and prohibitions, (2) annual employee training, and (3) annual reporting.

The Entity does have a written policies for Sexual Harassment however does not include annual reporting requirements.

Schedule A

B - Board or Finance Committee

- 2. Obtain and inspect the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and:
 - a) Observe that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.

No exception noted.

b) For those entities reporting on the governmental accounting model, observe whether the minutes referenced or included monthly budget-to-actual comparisons on the general fund, quarterly budget-to-actual, at a minimum, on proprietary funds, and semi-annual budget- to-actual, at a minimum, on all special revenue funds. *Alternately, for those entities reporting on the nonprofit accounting model, observe that the minutes referenced or included financial activity relating to public funds if those public funds comprised more than 10% of the entity's collections during the fiscal period.*

Minutes referenced budget to actual comparisons which is done quarterly over the proprietary fund actuals.

c) For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.

Not applicable as prior year general fund did not have negative ending unassigned fund balance.

C - Bank Reconciliations

3. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that:

A listing of bank accounts was provided and included a total of 3 bank accounts. Management identified the entity's main operating account. No exceptions were noted as a result of performing this procedure.

From the listing provided, we selected 3 bank accounts (1 main operating and 2 randomly) and obtained the bank reconciliations for the month ending March 31, 2022, no exceptions were noted as a result of performing this procedure.

Schedule A

a) Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated, electronically logged);

No exceptions noted.

b) Bank reconciliations include evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and

No exceptions noted.

c) Management has documentation reflecting it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.

1 of the 3 bank reconciliations had reconciling items over 12 months with no documentation of research.

D - Collections (excluding electronic funds transfers)

4. Obtain a listing of <u>deposit sites</u> for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).

Obtain listing only one deposit site exists. This one site was selected for testing.

- 5. For each deposit site selected, obtain a listing of <u>collection locations</u> and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e. 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:
 - a) Employees that are responsible for cash collections do not share cash drawers/registers.

Not applicable as the entity does accept cash and does not have cash drawers or registers.

b) Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g. pre-numbered receipts) to the deposit.

No exceptions were noted.

c) Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.

No exceptions noted.

Schedule A

d) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions are not responsible for collecting cash, unless another employee verifies the reconciliation.

No exceptions noted.

6. Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe the bond or insurance policy for theft was enforced during the fiscal period.

A bond or insurance policy for theft covering employees does not exist.

- 7. Randomly select two deposit dates for each of the 5 bank accounts selected for procedure #3 under "Bank Reconciliations" above (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). Alternately, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc. Obtain supporting documentation for each of the 10 deposits and:
 - a) Observe that receipts are sequentially pre-numbered.

Not applicable – deposit selected was an ACH transfer.

b) Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.

Not applicable – deposit selected was an ACH transfer.

c) Trace the deposit slip total to the actual deposit per the bank statement.

Not applicable – deposit selected was an ACH transfer.

d) Observe the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).

No exception was noted – deposit was an ACH transfer.

e) Trace the actual deposit per the bank statement to the general ledger.

No exception was noted.

Schedule A

E - Non-payroll Disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases)

8. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).

The listing of locations that process payments for the fiscal period was provided. No exceptions were noted as a result of performing this procedure.

From the listing provided, we randomly selected the only location and performed the procedures below.

9. For each location selected under #8 above, obtain a listing of those employees involved with nonpayroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:

The listing of employees involved with non-payroll purchasing and payment functions for each payment processing location selected in procedure #8 was provided. No exceptions were noted as a result of performing this procedure.

Review of the Entity's written policies and procedures or inquiry with employee(s) regarding job duties was performed in order to perform the procedures below.

a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.

For the one location selected for our procedures, a single employee initiates purchase requests, approves purchases and is responsible for placing / making purchases.

b) At least two employees are involved in processing and approving payments to vendors.

No exceptions noted.

c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.

For the one location the employee responsible for writing checks has authority to add vendors as the process is done manually.

d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.

For the one location selected the responsibility of the individual who writes the check is given the check back to mail.

Schedule A

10. For each location selected under #8 above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction and:

A listing of non-payroll disbursements for each payment processing location selected in procedures #8 was provided related to the reporting period. No exceptions were noted as a result of performing this procedure.

From each of the listings provided, we randomly selected 5 disbursements and performed the procedures below.

a) Observe whether the disbursement matched the related original itemized invoice, and that supporting documentation indicates that deliverables included on the invoice were received by the entity.

No exceptions noted.

b) Observe whether the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #9, as applicable.

For the 5 disbursements selected for our procedures, a single employee initiated the purchase request, approved the purchase, and made the purchase.

F - Credit Cards/Debit Cards/Fuel Cards/P-Cards

11. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.

A listing of cards was provided. No exceptions were noted as a result of performing this procedure.

12. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement), obtain supporting documentation, and:

From the listing provided, we randomly selected all 2 cards used in the fiscal period. We randomly selected one monthly statement for each of the 2 cards selected and performed the procedures noted below.

a) Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing, by someone other than the authorized card holder. [Note: Requiring such approval may constrain the legal authority of certain public officials (e.g., mayor of a Lawrason Act municipality); these instances should not be reported.)]

Schedule A

For the 2 credit cards tested, the monthly statement provided did not contain evidence of review by someone other than the card holder. Supporting documentation was provided for each individual transaction listed on the monthly statement.

b) Observe that finance charges and late fees were not assessed on the selected statements.

No exceptions noted.

13. Using the monthly statements or combined statements selected under #12 above, <u>excluding fuel cards</u>, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (i.e., each card should have 10 transactions subject to testing). For each transaction, observe it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and note whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

We randomly selected all transactions for the month on the 2 cards selected in procedure #12) and performed the specified procedures. The written documentation of the business/public purpose was not identified on the original itemized receipts.

G - Travel and Travel-Related Expense Reimbursements (excluding card transactions)

14. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements, obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected:

The listing of travel and travel-related expense reimbursements was provided for the fiscal period. No exceptions were noted as a result of performing this procedure.

From the listing provided, we randomly selected 5 reimbursements and performed the procedures below.

a) If reimbursed using a per diem, observe the reimbursement rate are no more than those rates established either by the State of Louisiana or the U.S. General Services Administration (www.gsa.gov).

Of the 5 reimbursements selected for our procedures, none used a per diem. No exceptions noted.

b) If reimbursed using actual costs, observe that the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.

No exceptions noted.

Schedule A

c) Observe whether each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by written policy (procedure #1h).

No exceptions noted.

d) Observe whether each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

No exceptions noted.

H - Contracts

15. Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. *Alternately, the practitioner may use an equivalent selection source, such as an active vendor list.* Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, <u>excluding the practitioner's contract</u>, and:

An active vendor list for the fiscal period was provided. No exceptions were noted as a result of performing this procedure.

From the listing provided, we randomly selected 5 contracts and performed the procedures below.

a) Observe whether the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law.

Of the 5 contracts selected for our procedures, none were subject to Louisiana Public Bid Law.

b) Observe whether the contract was approved by the governing body/board, if required by policy or law (e.g. Lawrason Act, Home Rule Charter).

No exceptions noted.

c) If the contract was amended (e.g., change order), observe the original contract terms provided for such an amendment and that amendments were made in compliance with the contract terms (e.g., if approval is required for any amendment, was approval documented).

No exceptions noted.

d) Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe the invoice and related payment agreed to the terms and conditions of the contract.

We randomly selected 1 payment for the 5 contracts selected in procedure #15 and performed the specified procedures. No exceptions noted.

Schedule A

I - Payroll and Personnel

16. Obtain a listing of employees/elected officials employed during the fiscal period and management's representation that the listing is complete. Randomly select 5 employees/officials, obtain related paid salaries and personnel files, and agree paid salaries to authorized salaries/pay rates in the personnel files.

A listing of employees/elected officials employed during the fiscal year was provided. No exceptions were noted as a result of performing this procedure.

From the listing provided, we randomly selected 3 (all employees) employees/officials and performed the specified procedures. No exceptions noted.

17. Randomly select one pay period during the fiscal period. For the 5 employees/officials selected under #16 above, obtain attendance records and leave documentation for the pay period, and:

We randomly selected 1 pay period during the fiscal period and performed the procedures below for the 3 employees/officials selected in procedure #16.

a) Observe all selected employees/officials documented their daily attendance and leave (e.g., vacation, sick, compensatory). (Note: Generally, an elected official is not eligible to earn leave and does not document his/her attendance and leave. However, if the elected official is earning leave according to policy and/or contract, the official should document his/her daily attendance and leave.).

Entity employees/officials do not document their daily attendance and leave.

b) Observe whether supervisors approved the attendance and leave of the selected employees or officials.

Entity employees/officials do not document their daily attendance and leave.

c) Observe any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records.

No exceptions noted.

d) Observe the rate paid to the employees or officials agree to the authorized salary/pay rate found within the personnel file.

No exceptions noted.

18. Obtain a listing of those employees or officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees or officials, obtain related documentation of the hours and pay rates used in management's termination payment calculations and the entity's policy on termination payments. Agree the hours to the employee or officials' cumulative leave records, agree the pay rates to the employee or officials' authorized pay rates in the employee or officials' personnel files, and agree the termination payment to entity policy.

There were no terminations during the fiscal year.

Schedule A

19. Obtain management's representation that employer and employee portions of third-party payroll related amounts (e.g., payroll taxes, retirement contributions, health insurance premiums, garnishments, workers' compensation premiums, etc.) have been paid, and any associated forms have been filed, by required deadlines.

No exceptions noted.

J - Ethics

- 20. Using the 3 randomly selected employees/officials from procedure #16 under "Payroll and Personnel" above obtain ethics documentation from management, and:
 - a) Observe whether the documentation demonstrates each employee/official completed one hour of ethics training during the fiscal period.

For 1 of the 3 employees/officials selected for our procedures, documentation that the required ethics training was completed could not be obtained.

b) Observe whether the entity maintains documentation which demonstrates each employee and official were notified of any changes to the entity's ethics policy during the fiscal period, as applicable.

The entity did not have any changes to the ethics policy, so this step is not applicable.

K - Debt Service

21. Obtain a listing of bonds/notes issued during the fiscal period and management's representation that the listing is complete. Select all bonds/notes on the listing, obtain supporting documentation, and observe State Bond Commission approval was obtained for each bond/note issued.

Not applicable.

22. Obtain a listing of bonds/notes outstanding at the end of the fiscal period and management's representation that the listing is complete. Randomly select one bond/note, inspect debt covenants, obtain supporting documentation for the reserve balance and payments, and agree actual reserve balances and payments to those required by debt covenants (including contingency funds, short-lived asset funds, or other funds required by the debt covenants).

Not applicable.

Schedule A

L - Fraud Notice

23. Obtain a listing of misappropriations of public funds and assets during the fiscal period and management's representation that the listing is complete. Select all misappropriations on the listing, obtain supporting documentation, and observe that the entity reported the misappropriation(s) to the legislative auditor and the district attorney of the parish in which the entity is domiciled.

A listing of misappropriations of public funds and assets during the fiscal period was provided. No exceptions were noted as a result of performing this procedure.

24. Observe whether the entity has posted on its premises and website, the notice required by R.S. 24:523.1 concerning the reporting of misappropriation, fraud, waste, or abuse of public funds.

No exceptions noted.

M - Information Technology Disaster Recovery/Business Continuity

- 25. Perform the following procedures, verbally discuss the results with management, and report "We performed the procedure and discussed the results with management."
 - a) Obtain and inspect the entity's most recent documentation that it has backed up its critical data (if no written documentation, inquire of personnel responsible for backing up critical data) and observe that such backup occurred within the past week. If backups are stored on a physical medium (e.g., tapes, CDs), observe evidence that backups are encrypted before being transported.

We performed the procedure and discussed the results with management.

b) Obtain and inspect the entity's most recent documentation that it has tested/verified that its backups can be restored (if no written documentation, inquire of personnel responsible for testing/verifying backup restoration) and observe evidence that the test/verification was successfully performed within the past 3 months.

We performed the procedure and discussed the results with management.

c) Obtain a listing of the entity's computers currently in use and their related locations, and management's representation that the listing is complete. Randomly select 5 computers and observe while management demonstrates that the selected computers have current and active antivirus software and that the operating system and accounting system software in use are currently supported by the vendor.

We performed the procedure and discussed the results with management.

Schedule A

N - Sexual Harassment

26. Using the 5 randomly selected employees/officials from procedure #16 under "Payroll and Personnel" above, obtain sexual harassment training documentation from management, and observe the documentation demonstrates each employee/official completed at least one hour of sexual harassment training during the calendar year.

There was one employee of the 3 that did not have documentation of at least one hour of sexual harassment training during the year.

27. Observe the entity has posted its sexual harassment policy and complaint procedure on its website (or in a conspicuous location on the entity's premises if the entity does not have a website).

The notice was not posted on the Entity's website however was in a conspicuous location on the Entity's premises.

- 28. Obtain the entity's annual sexual harassment report for the current fiscal period, observe that the report was dated on or before February 1, and observe it includes the applicable requirements of R.S. 42:344:
 - a) Number and percentage of public servants in the agency who have completed the training requirements;

The entity's annual sexual harassment report was not completed.

b) Number of sexual harassment complaints received by the agency;

The entity's annual sexual harassment report was not completed.

c) Number of complaints which resulted in a finding that sexual harassment occurred;

The entity's annual sexual harassment report was not completed.

d) Number of complaints in which the finding of sexual harassment resulted in discipline or corrective action; and

The entity's annual sexual harassment report was not completed.

e) Amount of time it took to resolve each complaint.

The entity's annual sexual harassment report was not completed.

CAPITAL ARE GROUNDWATER CONSERVATION DISTRICT AGREED-UPON PROCEDURES AND ASSOCIATED RESULTS JUNE 30, 2022

Schedule B

Management Response:

We have reviewed these findings and will take corrective actions. We will implement appropriate policies and procedures to ensure compliance with the Legislative Auditor's requirements. Matters identified over banking and segregation of duties have been addressed in our responses to findings included in our Schedule of Findings and Responses for the year ended June 30, 2022.

CAPITAL AREA GROUNDWATER CONSERVATION DISTRICT

REPORT TO MANAGEMENT

JUNE 30, 2022

CAPITAL AREA GROUNDWATER CONSERVATION DISTRICT

REPORT TO MANAGEMENT

JUNE 30, 2022

A Professional Accounting Corporation

March 31, 2023

Board of Commissioners Capital Area Groundwater Conservation District Baton Rouge, Louisiana

In planning and performing our audit of the financial statements of the Capital Area Groundwater Conservation District (District) as of and for the year ended June 30, 2022, we considered the District's internal controls to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit, we became aware of matters that are opportunities for improving financial reporting and refining policies and procedures. The following paragraphs summarize our comments and suggestions regarding those matters. This letter does not affect our report dated March 31, 2023 on the financial statements of the District.

A. Budget Planning, Review, and Amendments

Condition:

The District is a political subdivision as defined in R.S. 39:1302 of the State of Louisiana. The District reports as a proprietary fund under generally accepted accounting principles. The adoption, review and amendment of an annual budget is part of the District's policy and necessary for the appropriate level of fiscal management of the Board of Commissioners. A budget is prepared and adopted on an annual basis. However, the budget does not include capital projects since the budget is prepared on a full accrual basis of accounting. In reviewing the summary of minutes of the Board of Commissioners meetings, we also noted there was no formal documentation of the Board of Commissioners acknowledging their review of the budget to actual statements prepared by management throughout the fiscal year.

Recommendation:

We suggest that management prepare and adopt a separate capital project budget to ensure consideration and approval of all resources used by the District are documented and have the formal approval of governance. The District should also ensure that minutes of the Board of Commissioners include the review of the budget to actual reports presented at each of the meetings held throughout the fiscal year.

Management's Response:

Management will prepare and adopt a separate capital budget as recommended by our auditor. We will also ensure the minutes of the Board include the quarterly reviews of the budget to actual reports as presented at the Board meetings held throughout the fiscal year.

B. Fiscal Management and Oversight

Condition:

Given the small operating environment of the District, the Board of Commissioners' governance is important to the overall control environment of the District. As required by R.S. 38:3074, the Board of Commissioners is appointed by the Governor of the State of Louisiana which is submitted to the Senate for confirmation based upon compositions as detailed within this regulation. The current members of the Board of Commissions have limited knowledge of the annual reporting requirements of the District under generally accepted accounting principles established by the Governmental Accounting Standards Board.

Recommendation:

We recommend that nominations made by the Board of Commissioners to the Governor for appointment to the Board under the provisions of R.S. 38:3074 (A)(9) should consider at least one individual with an accounting or auditing background in government to provide the fiscal oversight due to the limited size of the organization.

Management's Response:

The District notes the inability to change Legislation to require an individual with an accounting or auditing background in government to be nominated for a seat. However, the District has engaged a third party CPA firm, Attracct Accounting Advisors, LLC, to assist with the fiscal oversight necessary to meet the requirements under generally accepted accounting principles established by the Governmental Accounting Standards Board.

C. Payroll User Controls for Payroll HR System

Condition:

The District utilizes a third party company for processing its payroll. The company's controls relating to the system cover only a portion of the overall internal control structure of each user entity of the Company's system. It is not feasible for the control objectives to be solely achieved by the Company. Therefore, each user entity's internal control over financial reporting must be evaluated in conjunction with the Company's controls and related testing detailed in the Company's SOC 1 Type 2 Report. The report identified the complimentary user controls of the District that were assumed with the design of the Company's controls. These included procedures to ensure the appropriate personnel are authorized to approve and modify data entered into the system. During our audit procedures, we noted that there was no documentation of review of the payroll runs each pay period to evidence that the output was accurate and no documented review of the data input into the system for accuracy of pay rates.

Recommendation:

We recommend that management implement additional procedures to document that all payroll runs are approved by an individual other than the individual responsible for submitting the payroll information to the payroll company.

C. Payroll User Controls for Payroll HR System (continued)

Management's Response:

With assistance from Attracct, management will implement the applicable complementary user entity controls and also ensure that all payroll runs are approved by an individual other than the individual responsible for submitting the payroll information.

D. Information Technology (IT)

Condition:

The District does not have written policies and procedures over its IT environment including user access, back of financial data, or disaster recovery procedures.

Recommendation:

We recommend that management work to develop written policies and procedures over its IT environment and may consider the following:

- A process for adding user access to the network and key applications.
- Procedures to back up financial data on a regular and recurring basis.
- Use of virus protection software and timely updates.
- Physical security of the server; and
- Development of a disaster recovery plan including but not limited to location of, access to, offsite storage, a listing of data files what would have to be obtained from off-site storage, identification of a backup location, and the responsibilities of various personnel in an emergency.

Management's Response:

Management has engaged CyberOpsIT, an information technology (IT) managed service provider, to provide outsourced IT support. CyberOpsIT will assist management in developing written policies and procedures as recommended by our auditor.

We have already discussed many of these comments and suggestions with management, and we will be pleased to discuss them in further detail at your convenience. We would also welcome any opportunity to perform any additional study of these matters or to assist you in implementing the recommendations. We would also like to thank the District's staff for their patience and cooperation with us during the performance of the audit.

Postlethinite & Nesterille
