A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. Accordingly, we do not express such an opinion.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

### Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. ### Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

## **Required Supplementary Information**

LAWTELL WATERWORKS DISTRICT NO. ONE  
OF ST. LANDRY PARISH  
Lawtell, Louisiana

Notes to Basic Financial Statements

(1) Summary of Significant Accounting Policies

The accompanying financial statements of the Lawtell Waterworks District No. One of St. Landry Parish (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applicable to state and local governments. The Governmental Accounting Standards Board (“GASB”) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting and reporting policies and practices used by the District are described below.

A. Financial Reporting Entity

The Lawtell Waterworks District No. One of St. Landry Parish, Louisiana was created by the St. Landry Parish Council (Council) on June 8, 1965 and is a component unit of the St. Landry Parish Government. As the governing authority of the parish, for reporting purposes, the St. Landry Parish Government is the financial reporting entity for St. Landry Parish.

The financial reporting entity consists of (a) the primary government (Parish Government), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

Section 2100 of the 2011 Governmental Accounting Standards Board (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, “Defining the Financial Reporting Entity” establishes criteria for determining which entities should be considered a component unit and, as such, part of the reporting entity for financial reporting purposes. The basic criteria are as follows:

1. Legal status of the potential component unit including the right to incur its own debt, levy its own taxes and charges, expropriate property in its own name, sue and be sued, and the right to buy, sell and lease property in its own name.
2. Whether the primary government’s governing authority appoints a majority of board members of the potential component unit and is able to impose its will on the potential component unit or the potential component unit is fiscally dependent on the primary government.

LAWTELL WATERWORKS DISTRICT NO. ONE  
OF ST. LANDRY PARISH  
Lawtell, Louisiana

Notes to Basic Financial Statements (Continued)

3. Financial benefit/burden relationship between the primary government and the potential component unit.
4. The nature and significance of the relationship between the potential component unit with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading.

Because the Parish Government appoints a voting majority of the District's governing body and has the ability to impose its will on the District, the District was determined to be a component unit of the St. Landry Parish Government, the financial reporting entity. This report is comprised of a proprietary fund that is administered by the District's Board of Directors and controlled by the St. Landry Parish Government. The accompanying financial statements presents information only on the proprietary fund maintained by the District and does not present information on the St. Landry Parish Government, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

B. Basis of Presentation

Basic Financial Statements

The statement of net position, and related statements of revenues, expenses, and changes in fund net position, and cash flows display information about the reporting government as a whole. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Lawtell Waterworks District No. One of St. Landry Parish, Louisiana does not have governmental activities. Its operation is a business-type activity.

C. Fund Accounting

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

LAWTELL WATERWORKS DISTRICT NO. ONE  
OF ST. LANDRY PARISH  
Lawtell, Louisiana

Notes to Basic Financial Statements (Continued)

The District maintains only one fund and it is described below:

Proprietary Fund --

Enterprise Fund

The Enterprise fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

D. Basis of Accounting

The District maintains its books and records on the full accrual basis of accounting and on the flow of economic resources measurement focus. The District applies all applicable professional standards in accounting and reporting for its proprietary operations.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

E. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Equity

Cash and interest-bearing deposits

Notes to Basic Financial Statements (Continued)

Receivables

Receivables consist mainly of customer's utility service receivables. The District has a policy of recognizing uncollectible amounts of water billings at the time information becomes available, indicating the uncollectibility of the receivable. Once a customer is listed as inactive, the customer no longer receives a bill, is then considered to be uncollectible and an allowance for uncollectible accounts receivable is established. The allowance for uncollectible accounts receivable was \$399 and \$649 at June 30, 2024 and 2023, respectively. Unbilled utility service receivable resulting from utility services rendered between the date of meter reading and billing and the end of the month are recorded at year-end. At June 30, 2024 and 2023, the unbilled receivables totaled \$5,941 and \$6,857, respectively.

Donated assets are recorded at their estimated fair market value at the date of donation. The District maintains a threshold level of \$250 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Depreciation of all exhaustible fixed assets is charged as an expense against its operations. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

	<u>Years</u>
Furniture, fixtures & equipment	4-7
Building	15-39
Water system and improvements	10-50

Restricted assets

Restricted assets include cash and interest-bearing deposits that are legally restricted as to their use. The restricted assets are related to the utility meter deposits.

LAWTELL WATERWORKS DISTRICT NO. ONE  
OF ST. LANDRY PARISH  
Lawtell, Louisiana

Notes to Basic Financial Statements (Continued)

Deferred Outflows of Resources and Deferred Inflows of Resources

In some instances, the GASB requires an entity to delay recognition of decreases in net position as expenditures until a future period. In other instances, entities are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively. There were no deferred outflows of resources and deferred inflows of resources as of June 30, 2024 and 2023.

Equity Classifications

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – All other net position that do not meet the definition of “restricted” or “net investment in capital assets”.

The District uses unrestricted net position only when restricted net position is fully depleted.

F. Revenues and Expenses

OF ST. LANDRY PARISH

Notes to Basic Financial Statements (Continued)

H. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

(2) Cash and Interest-Bearing Deposits

Under state law, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States.
