Independent Auditors' Report

**Board of Commissioners
Southeast Louisiana Flood Protection Authority - West
Marrero, Louisiana**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Southeast Louisiana Flood Protection Authority - West (the West Authority), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the West Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and aggregate remaining fund information of the West Authority as of June 30, 2021, and the respective changes in financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 to 9 and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the West Authority's financial statements as a whole. The accompanying information listed as other supplementary information in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Division of Administration Reporting Package on pages 54 to 63 is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 13, 2021, on our consideration of West Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the West Authority's internal control over financial reporting and compliance.

STATE OF LOUISIANA**

Management's Discussion and Analysis

For the Year Ended June 30, 2021

The management's discussion and analysis of the Southeast Louisiana Flood Protection Authority – West's (the West Authority) financial performance presents a narrative overview and analysis of the West Authority's financial activities for the year ended June 30, 2021. This document focused on the current year's activities, resulting changes and currently known facts. Please read this document in conjunction with the West Authority's financial statements.

Financial Highlights

- The assets of the West Authority exceeded its liabilities at the close of the most recent fiscal year by \$2,185,110,384 {net position). Of this amount, \$2,168,608,621 or 99.3% reflects its investment in capital assets (e.g., land, buildings, equipment, vehicles and infrastructure) and \$16,501,763 {unrestricted net position) or 0.7% may be used to meet the government's ongoing obligations to citizens and creditors.
- The West Authority's total net position increased by \$2,571,221 during fiscal year 2021.
- As of close of the current fiscal year, the West Authority's governmental funds reported combined ending fund balance of \$32,116,104, an increase of \$6,063,921 or 23%. Of this amount, \$14,551,054 (45.3%) is reported as committed fund balance, \$12,211,552 (38.0%) is assigned fund balance, and \$5,353,498 (16.7%) is unassigned fund balance and is available for spending at the government's discretion.
- At the end of the current fiscal year, unassigned fund balance for the West Authority's General Fund was \$444,997.
- The WJLD O&M Special Revenue Fund had fund balance of \$12,158,552 and an increase of \$894,865 from last year.
- The ALD O&M Special Revenue Fund had fund balance of \$3,749,309 and an increase of \$864,997 from last year.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the West Authority's financial statements, which is comprised of government-wide financial statements, fund financial statements and notes to the financial statements.

Government-Wide Financial Statements

The "government-wide financial statements" are designed to provide readers with a broad overview of the West Authority's finances, in a manner similar to a private-sector business.

The "statement of net position" presents information on all of the West Authority's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the West Authority is improving or deteriorating.

The "statement of activities" presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Management's Discussion and Analysis

For the Year Ended June 30, 2021

are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the West Authority that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The West Authority only has governmental activities in the public works function. This function includes executive, administrative, and maintenance/construction activities.

The State of Louisiana (the primary government) issues financial statements that include the activity contained in these financial statements. The State's financial statements are issued by the Louisiana Division of Administration - Office of Statewide Reporting and Accounting Policy and are audited by the Louisiana Legislative Auditor. The West Authority is a "component unit" of the State of Louisiana.

The West Authority, in turn, has two component units of its own, the West Jefferson Levee District and the Algiers Levee District, that are included (i.e., "blended") in these financial statements. Both of these levee districts are separate legal entities from the West Authority, however, because the West Authority's Board serves as their oversight board, they are, in substance, part of the West Authority.

Fund Financial Statements

A "fund" is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The West Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The West Authority's funds are classified as "governmental funds".

"Governmental funds" are used to account for essentially the same functions reports as "governmental activities" in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for "governmental funds" with similar information presented for "governmental activities" in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between "governmental fund" and "governmental activities".

The West Authority and its component units maintain various funds that are grouped for management purposes into various fund types. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Statement of Revenues, Expenditures, and Changes In Fund Balances for the General Fund, the WJLD O&M Special Revenue Fund, the ALD O&M Special Revenue Fund, the ALD Capital Projects Fund, and the WJLD Capital Projects Fund. All of these funds are considered to be "major" funds.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Management's Discussion and Analysis

For the Year Ended June 30, 2021

The West Authority adopts annual budgets for its General Fund, the WJLD O&M Special Revenue Fund and the ALD O&M Special Revenue Fund. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-Wide Financial Analysis

The following presents condensed financial information on the operation of the West Authority:

	<u>2021</u>	<u>2020</u>	<u>Change</u>

Analysis of Individual Funds of the West Authority

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Management's Discussion and Analysis

For the Year Ended June 30, 2021

The activity in the individual funds is reflected in the Balance Sheet - Governmental Funds and the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds. The total net position and the change in net position as reflected in the government-wide financial statements (which are condensed above) are reconciled with the fund financial statements at schedules that follow each statement.

As noted earlier, the West Authority uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

The focus of the West Authority's "governmental funds" is to provide information on near term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the West Authority's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At June 30, 2021, the West Authority's governmental funds reported a combined ending fund balance of \$32,116,104. This is an increase of \$6,063,921 in comparison to the prior year.

The General Fund is the chief operating fund of the West Authority. At June 30, 2021, the fund balance of the General Fund totaled \$1,031,377, an increase of \$117,704 from the prior year. Of this amount, \$586,380 is committed to operating and maintaining the West Closure Complex.

The WJLD O&M Special Revenue Fund is the chief operating fund of the West Jefferson Levee District. At June 30, 2021, the fund balance of this Special Revenue Fund totaled \$12,158,552, an increase of \$894,865 from the prior year. Of this amount \$2,321,372 is committed to funding emergency activities.

The ALD O&M Special Revenue Fund is the chief operating fund of the Algiers Levee District. At June 30, 2021, the fund balance of this Special Revenue Fund totaled \$3,749,309, an increase of \$864,997 from the prior year. Of this amount \$1,371,346 is committed to funding emergency activities.

The WJLD Capital Project Fund has a total fund balance of \$8,839,623 at year-end, an increase of \$4,904,910 from prior year. These amounts are committed to capital projects.

The ALD Capital Project Fund has a fund balance of \$6,337,243 at year-end, a decrease of \$718,555 from prior year. These amounts are committed to capital projects.

Analysis of Budgeted Amounts

Revenues and Other Financing Sources

The West Authority's General Fund's final budget called for revenues of \$204,450. Overall, revenues came in under budget due to less revenue received from Plaquemines Parish for shared costs related to the West Closure Complex.

The WJLD O&M Special Revenue Fund's final budget called for revenues of \$6,566,053. Overall, revenues came in slightly over budget due to more revenue from property taxes.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Management's Discussion and Analysis

For the Year Ended June 30, 2021

The ALD O&M Special Revenue Fund's final budget called for revenues of \$2,952,629. Overall, revenues came in slightly under budget due to less revenue from property taxes.

Expenditures

Overall, the expenditures of the West Authority and its major operating funds came in at or near budget. The West Authority's General Fund expenditures were \$299,278 less than the final budgeted amount of \$5,439,273. The difference is due to a decrease in payroll.

The WJLD O&M Special Revenue Fund expenditures were \$193,183 more than the final budgeted amount of \$1,713,139. The difference is due primarily to an increase in maintenance expense.

The ALD O&M Special Revenue Fund expenditures were \$27,959 more than the final budgeted amount of \$609,707. The difference is due to costs associated with certain deductions related to property taxes not being budgeted.

Capital Assets

The West Authority's investment in capital assets for its governmental activities as of June 30, 2021 amounts to \$2,168,608,621 (net of accumulated depreciation). This investment in capital assets includes land, buildings, furniture and equipment, vehicles, infrastructure and heavy equipment. The West Authority's investment in capital assets decreased by \$34,485.

	<u>2021</u>	<u>2020</u>
Land	\$ 5,787,724	5,787,724
Buildings	3,674,744	3,674,744
Furniture and equipment	281,810	296,889
Furniture and equipment	3,470,605	3,354,653
Infrastructure	22,489,900	22,489,900
Construction in progress	<u>2,144,653,539</u>	<u>2,144,653,539</u>
Total	2,180,358,322	2,180,257,449
Accumulated depreciation	(5,786,701)	(5,330,343)
Related debt	<u>(5,963,000)</u>	<u>(6,284,000)</u>
Net investment in capital assets	<u>\$ 2,168,608,621</u>	<u>2,168,643,106</u>

Long-Term Debt

At the end of the current fiscal year, the West Authority long-term debt totaled \$23,306,135. This amount is made up of \$216,241 in compensated absences, \$7,311,085 in Other Post-Employment Benefits (OPEB) liability, \$5,635,000 in Limited Tax Certificate of Indebtedness which was issued in November 2016, and \$10,143,809 in Net Pension Liability. The \$7,311,085 in OPEB liability relates to the calculated amount of unfunded actuarial contributions that have been accrued on the financial statements. The pension liability was actuarially calculated by the State Retirement System.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Management's Discussion and Analysis

For the Year Ended June 30, 2021

Economic Factors and Next Year's Budgets

The West Authority serves as a local agent of the Louisiana Coastal Protection and Restoration Authority (CPRA), the local project sponsor for the West Bank and Vicinity (WBV) portion of U.S. Army Corps of Engineers (USACE) area-wide Hurricane Storm Damage Risk Reduction System (HSDRRS) public works projects. These public works projects were turned over to the West Authority by CPRA as stipulated in R.S. 38:101 as early as 2014. The West Authority, through its included levee districts, is responsible for the Operation, Maintenance, Repair, Rehabilitation and Replacement (OMRR&R) of WBV-HSDRRS infrastructure, as well as emergency operations within its territorial jurisdiction. The West Authority also maintains the Mississippi River levees and performs daily inspections during high water incidents to monitor seepage or any other potential issues affecting the integrity of the levees.

The WJLD is funded by a millage of 4.93 mills for levee district constitutional general tax that presently generates approximately \$5.6 million in revenue annually. This funding mechanism, which has been in place since 1980, is the primary source of funding for the OMRR&R of:

- 28 miles of FEMA accredited earthen HSDRRS levees
- 8.5 miles of T-wall
- 0.5 mile of I-Wall
- 19 miles of Mississippi River levees
- 50 floodgates
- The West Closure Complex, with the largest drainage pump station in the world and the largest sector gate in North America
- The Bayou Segnette Complex with a pump station and sector gate
- The Harvey Canal complex with a pump station and sector gate
- 35 valves

The West Authority has been concerned with the long-term funding of the OMRR&R of these facilities. In November of 2015, West Jefferson parish voters rejected a 5.5 millage proposition over 30 years. To keep levee lifts building apace. Commissioners were obliged to seek alternative sources of funding for immediate construction and flood defense needs. As a result, in December 2016, WJLD bonded (borrowed) \$7.5 million to fund the impending levee lifts prior to armoring projects.

Based on the outcome of the 2015 millage election, WJLD re-analyzed the near future funding needs and reduced the millage request from 5.5 mills over thirty years to 4.75 mills over ten years. The reduction extends some of the maintenance cycles and reduces other contingencies. In April of 2018, West Jefferson parish voters passed the requested 4.75 mills for a period of ten years. Beginning in 2019, WJLD will have sufficient funds to continue raising and armoring levees for the next ten years to keep pace with ongoing natural settlement and subsidence of the system. WJLD will also have sufficient funds to perform the long-term maintenance and repairs of its three pump stations and sector gate complexes.

The Algiers Levee District (ALD) generates \$2.8 million in revenue from 5.46 mills for Levee District Constitutional General Tax, 0.75 mills for Levee District Maintenance Tax and 6.35 mills for Special Levee Improvement Tax. The Special Levee Improvement Tax, which currently generates \$1.2 million of the \$2.8 million, was renewed by the voters of Algiers during the November 2015 election, for a period of 30 years.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Management's Discussion and Analysis

For the Year Ended June 30, 2021

The revenue generated is anticipated to be sufficient to OMRR&R the upgraded flood protection system in Algiers, including:

- 14 miles of river levee
- 10 miles of Donner Canal levees
- 20% of the cost to operate and maintain the West Closure Complex

The Algiers Levee District consists of portions of the Orleans Levee District west of the Mississippi River. Consequently, the successor Algiers Levee District retained the same taxing millage rates as the Orleans Levee District.

Requests for Information

This financial report is designed to provide a general overview of the West Authority's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Board President, Southeast Louisiana Flood Protection Authority - West, 7001 River Road, Marrero, LA 70072.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

(1) Introduction

The Southeast Louisiana Flood Protection Authority - West (the West Authority) was created by Act 1 of the First Extraordinary Session of 2006. The governing board of commissioners administers the operations and responsibilities in accordance with the provision of Louisiana statutes. The West Authority is charged with overseeing the levee districts on the Westbank of the New Orleans Metropolitan area, which includes the West Jefferson Levee District and the Algiers Levee District. The members of the Board are appointed by the Governor of the State of Louisiana from a list of nominations submitted by a nominating committee as provided by statute.

The West Authority is charged with the responsibility of overseeing the West Jefferson Levee District (WJLD) and the Algiers Levee District (ALD). Both of these levee districts are separate legal entities from the West Authority, however, because the West Authority's Board serves as their oversight board, they are, in substance, part of the West Authority and are included (i.e., blended) within the West Authority's financial report.

The West Jefferson Levee District was incorporated on August 1, 1980, under the provision of Act 820 of the 1980 Legislative session, as amended. It was charged with providing flood protection for those areas contained within the Parish of Jefferson to the west of the Mississippi River. Act 475 of the 2007 Legislative session amended the West Jefferson Levee District by carving out a portion of the covered area and designating it the Lafitte Area Independent Levee District. All lands and other assets in the designated area were turned over by the West Jefferson Levee District to the new Lafitte Area Independent Levee District. The West Jefferson Levee District continues to cover those areas in Jefferson Parish to the west of the Mississippi River that are not within the boundaries of the Lafitte Area Independent Levee District.

The Algiers Levee District was also formed by Act 475 of the 2007 Legislative session. This Act carved a section out of the existing Orleans Levee District, specifically that portion of the Parish of Orleans on the west side of the Mississippi River.

(2) Summary of Significant Accounting Policies

(a) Reporting Entity

GASB Codification Section 2100 establishes criteria for determining the governmental reporting entity and its component units. Component units are defined as legally separate organizations for which the elected or appointed officials or a primary government are financially accountable. The criteria used in determining whether financial accountability exists include the appointment of a voting majority of an organization's governing board, the ability of the primary government to impose its will on that organization or whether there is a potential for the organization to provide specific financial benefits or burdens to the primary government. Fiscal dependency may also play a part in determining financial accountability. In addition, a component unit can be another organization for which the nature and significance of its relationship with a primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

For financial reporting purposes, it has been determined that the West Authority is a component unit of the State of Louisiana. Annually, the State of Louisiana (the primary government) issues general purpose financial statements which include the activity contained in the accompanying financial statements. The State's general purpose financial statements are issued by the Louisiana Division of Administration – Office of Statewide Reporting and Accounting Policy and are audited by the Louisiana Legislative Auditor.

(b) Basic Financial Statements - Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of the net position and the statement of activities) report information on all of the non-fiduciary activities of the West Authority. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which are normally supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Because of the nature of the West Authority's operations, the West Authority reports only governmental activities.

The statement of activities demonstrates the degree to which the direct expense of a given function of segment is offset by program revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

(c) Basic Financial Statements - Fund Financial Statements

Funds are used by the West Authority to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. The funds of the West Authority are classified into the "governmental" category. The category, in turn, is divided into separate "fund types".

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital project funds), and the servicing of general long-term debt (debt service funds). The General Fund is used to account for all financial activities of the general government not accounted for in some other fund.

Major individual governmental funds are reported as separate columns in the fund financial statements. The West Authority reports the following major governmental funds:

The *SLFPA-W General Fund* is the general operating fund of the West Authority. It is used to account for all financial resources except those required to be accounted for in another fund.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

The *WJLD Operations and Maintenance Special Revenue Fund* is the general operating account for the West Jefferson Levee District. It is used to account for all financial resources dedicated to administration and maintenance costs of the District.

The *ALD Operations and Maintenance Special Revenue Fund* is the general operating account for the Algiers Levee District. It is used to account for all financial resources dedicated to administration and maintenance costs of the District.

The *WJLD Capital Project Fund* is used to account for financial resources dedicated by the West Jefferson Levee District to be used for acquisition or construction of major capital facilities and structures related to the Westbank Hurricane Levee system.

The *ALD Capital Project Fund* is used to account for financial resources dedicated by the Algiers Levee District to be used for acquisition or construction of major capital facilities and structures related to the Westbank Hurricane Levee system.

(d) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The West Authority considers property taxes as available if they are collected within 60 days after year end. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Property taxes, intergovernmental revenues, and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

(e) Cash and Investments

For reporting purposes, cash and cash equivalents includes amounts in demand deposits, time deposits, and certificates of deposit. Louisiana Revised Statutes allow the West Authority to invest in time certificates of deposit of state banks organized under the laws of Louisiana, national banks having their principal office in the State of Louisiana, in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state-chartered credit unions.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

State statutes authorize the West Authority to invest in obligations of the U. S. Treasury, commercial paper, corporate bonds and repurchase agreements. In accordance with GASB Statement No. 31, investments, if any, are generally stated at fair value. If the investment is in money market securities and has a maturity date of less than 90 days from the balance sheet date, the investment is stated at cost or amortized cost.

(f) Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at year end are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e., the non-current portion of inter-fund loans). As a general rule, all inter-fund balances are eliminated in the government-wide financial statements.

(g) Inventories

The cost of materials and supplies acquired by the West Authority are recorded as expenditures at the time of purchase. It is management's opinion that the inventory of such materials and supplies at June 30, 2021 would not be material to the financial statements.

(h) Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2021, are recorded as expenditures when paid. It is management's opinion that the prepaid amount June 30, 2021, if any, would not be material to the financial statements.

(i) Capital Assets

Capital assets, which include property, plant equipment, and infrastructure assets (e.g., levees, floodwalls, sector gates and similar items), are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the West Authority as property, plant equipment, and infrastructure assets with an initial, individual cost of more than \$1,000 with a useful life in excess of two years and technology related assets with an initial, individual cost of more than \$250 with an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed and are included in construction in progress. The levees are divided into "reaches" and are capitalized as such. Any major "lifts" or improvements to an existing levee/reach are capitalized as an addition to that levee/reach.

Property, plant, equipment, and infrastructure are depreciated using the straight-line method (with a midyear convention) over the following estimated useful lives:

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

<u>Asset</u>	<u>Years</u>
Buildings	20
Furniture and fixtures	5
Autos and trucks	5
Mowers	5
Tractors	7-10
Heavy equipment	5
Radios	3
Infrastructure (levees, floodwalls, ,etc.)	50

(j) Compensated Absences

It is the West Authority's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the West Authority does not have a policy to pay any amounts when employees separate from service to the West Authority. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations, terminations, and retirements. In accordance with GASB Statement No. 16, an additional liability is recorded for salary related payments associated with the future payments of compensated absences.

(k) Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and additions to/deductions from LASERS' fiduciary net position have been determined on the same basis as they are reported by LASERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(l) Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term debt obligations are recognized as liabilities in the applicable governmental activities statement of net position. Long-term obligations are reported at face value.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Payment of principal and interest are recorded as expenditures only when due.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

(m) Fund Balance

In accordance with Government Accounting Standards Board (GASB) Statement No. 54 - Fund Balance Reporting and Governmental Fund Type Definitions, fund balances of the governmental fund types are categorized into one of five categories - Non-spendable, Restricted, Committed, Assigned, or Unassigned in the fund financial statements.

For assigned fund balances, the President and/or Director may assign amounts to a specific purpose via internal memorandum, with the board's approval.

While the West Authority has not established a policy for its use of unrestricted fund balance, it does consider that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

(n) Net Position

In accordance with GASB Codification, net position is classified into three components – net investment in capital assets, restricted, and unrestricted. These classifications are defined as follows:

1. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributions, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
3. Unrestricted net position – All other net position that does not meet the definition of “restricted” or “net investment in capital assets”.

When both restricted and unrestricted resources are available for use, it is the West Authority's policy to use restricted resources first, then unrestricted resources as they are needed. As of June 30, 2021 and for the year then ended, the West Authority did not have or receive restricted net position.

(o) Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon thereafter to be used to pay the liabilities of the current fiscal year. For the West Authority, available means expected to be received within thirty-one days of the fiscal year-end. Under the modified accrual basis, only interest is considered to be both measurable and available at fiscal year-end.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Non-exchange transactions, in which the West Authority receives value without directly giving value in return, includes grants and donations. On an accrual basis, revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements including timing requirements, which specify the year when resources are required to be used, matching requirements, in which the West Authority must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the West Authority on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must be available before it can be recognized.

(p) Revenues – Taxes

Ad valorem taxes are assessed on a calendar year basis, become due on November 15th of each year, and become delinquent on December 31st. Ad valorem taxes are recorded in the year the taxes are received. If taxes were recorded when assessed the amount recorded would not be materially different from the amount actually recorded in the financial statements.

(q) Expenses/Expenditures

On an accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable.

(r) Other Financing Sources (Uses)

In governmental fund accounting, transfers between funds, which are not expected to be repaid, are accounted for as other financing sources (uses). In those cases where repayment is expected, the advances are accounted for through the various “due from” and “due to” accounts. These amounts are eliminated in the government-wide financial statements.

Proceeds from the issuance of bonds are accounted for as other financing sources in the governmental funds. These amounts are recorded as liabilities in the government-wide financial statements.

(s) Budget Policies

Formal budgetary accounting is employed as a management control device during the year for the SLFPA-W General Fund, the WJLD Operations and Maintenance Special Revenue Fund, the ALD Operations and Maintenance Special Revenue Fund, and the West Closure Complex Fund. Budgetary data for the West Closure Complex Emergency Fund is not presented since these funds are restricted for emergency purposes only and are considered unpredictable. Budgetary data for the Capital Project funds are not presented since these funds are budgeted over the life of the respective project, not on an annual basis.

Expenditures may not exceed appropriations at the object level within the fund. All annual appropriations which are not expended lapse at year end.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

The budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

Encumbrances are not recorded for budgetary purposes.

The Board of Commissioners of the West Authority submits the annual budgets to the Joint Legislative Committee on the Budget and the Legislative Auditor for the succeeding fiscal year. The operating budgets include proposed expenditures and the means of financing them.

The original budgets were adopted March of 2020. The amended budgets were adopted during fiscal year 2021. The budgeted amounts are included, respectively, as the original and final budgets in the accompanying statements.

(t) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, deferred inflows, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

When both restricted and unrestricted fund balances are available for use, it is the West Authority's policy to use restricted resources first, then unrestricted as needed. When committed, assigned, or unassigned fund balances are available for use, it is the West Authority's policy to use committed resources first, then assigned resources and unassigned resources as they are needed.

(u) New Accounting Pronouncements

The GASB issued Statement No. 87, *Leases*, in June 2017. The objective of GASB No. 87 is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. Management is still evaluating the potential impact of adoption of the West Authority's financial statements. This Statement will be effective for the West Authority for the fiscal year ending June 30, 2022.

(3) Cash and Cash Equivalents

At June 30, 2021, the West Authority had cash and cash equivalents (book balances) totaling \$32,000,558 which were demand deposits at a local financial institution. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Less accumulated depreciation	<u>(5,330,343)</u>	<u>(811,617)</u>	<u>355,259</u>	<u>(5,786,701)</u>
Total capital assets being depreciated, net	<u>24,485,843</u>	<u>(268,447)</u>	<u>(87,038)</u>	<u>24,130,358</u>
Total capital assets, net	<u>\$ 2,174,927,106</u>	<u>(268,447)</u>	<u>(87,038)</u>	<u>2,174,571,621</u>

The West Authority recorded \$811,617 of depreciation expense on its capital assets for the year ended June 30, 2021.

Construction in progress includes \$2,144,653,539 of levees and floodgate structures as of June 30, 2021. These levees and floodgate structures were conveyed to the West Authority by the Corps of Engineers (COE) in fiscal year ending June 30, 2018. As the project is still ongoing, no depreciation was taken on the conveyed assets in fiscal year 2021.

(6) Long-Term Debt

Compensated Absences

West Authority employees, primarily those of the West Jefferson Levee District, earn annual and sick leave at various rates depending on the number of years of service. The amount of annual and sick leave that may be accumulated by each employee is unlimited.

Upon termination, an employee is compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, the number of hours of unused sick leave is computed and considered in computing the years of service for retirement benefit purposes. Compensatory time is accrued up to a balance of 240 hours at rate of time and one-half. An employee who exceeds 240 hours receives either monetary consideration or compensatory time for the amount of hours earned in excess of the 240 hour limit. Upon termination, an employee is paid for unused compensatory time. The amount outstanding at year end was \$216,241.

Bonds Payable

On December 20, 2016, the West Authority issued \$7,500,000 of Limited Tax Certificates, Series 2016 (bonds). The proceeds of the bonds were used to construct and improve levees and other flood and hurricane protection projects and pay costs of issuance of the Series 2016 bonds. The bonds are secured by an irrevocable pledge and dedication of ad valorem taxes. These bonds require future annual debt service installments of \$295,000 to \$481,000 beginning March 1, 2017 through March 1, 2036. The

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

bonds carry interest rates between 2.1% - 3.15% and interest to maturity at June 30, 2021 totals \$1,489,342 through March 1, 2036.

The annual requirements to amortize the bonds outstanding at June 30, 2021 are as follows:

<u>For the Year Ended June 30:</u>	<u>Principal</u>	<u>Interest</u>
2022	\$ 328,000	168,488
2023	336,000	160,452
2024	345,000	152,052
2025	353,000	143,254
2026	363,000	134,076
2027-2031	1,969,000	516,879
2032-2036	<u>2,269,000</u>	<u>214,141</u>
	<u>\$ 5,963,000</u>	<u>1,489,342</u>

Changes in Long-term Debt

The following is a summary of changes in general long-term obligations of the West Authority for the fiscal year ended June 30, 2021:

<u>Type of Debt</u>	<u>Balance 7/1/2020</u>	<u>Additions (Reductions)</u>	<u>Balance 6/30/2021</u>	<u>Amounts Due Within One Year</u>
Compensated absences	\$ 255,409	(39,168)	216,241	-
Other post employment benefits	4,479,553	3,024,765	7,504,318	226,520
Bonds payable	6,284,000	(321,000)	5,963,000	328,000
Net pension payable	9,214,950	928,859	10,143,809	-
	<u>\$ 20,233,912</u>	<u>3,593,456</u>	<u>23,827,368</u>	<u>554,520</u>

(7) Fund Balance Components

The specific purpose details of fund balance categories are as follows:

<u>Fund Balance/Category:</u>	<u>General Fund</u>	<u>WJLD O&M</u>	<u>ALD O&M</u>	<u>WJLD Capital Project</u>	<u>ALD Capital Project</u>	<u>Total</u>
Committed to:						
Emergency Operations	\$ 603,926	2,323,622	1,372,687	-	-	4,300,235
Westbank Hurricane	-	-	-	8,839,623	6,337,243	15,176,866
Assigned to:						
Levee Operations	-	9,834,930	2,376,622	-	-	12,211,552
Westbank Hurricane	-	-	-	-	-	-
Unassigned	<u>427,451</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>427,451</u>
	<u>\$ 1,031,377</u>	<u>12,158,552</u>	<u>3,749,309</u>	<u>8,839,623</u>	<u>6,337,243</u>	<u>32,116,104</u>

Under Policy and Procedures Memorandum 2010-101, the West Authority has created emergency reserve funds within the WJLD O&M and ALD O&M Special Revenue Funds. These committed reserves can only be spent when an emergency is declared by the Board. The fund balances assigned to Levee Operations & Maintenance reflect the designations placed on these funds by the ad valorem tax

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

levies that fund these activities. The amount assigned to the Capital Project funds reflect the balance that is being used to provide ancillary services to the Corps of Engineers and the Coastal Protection and Restoration Authority in the construction of the Westbank Hurricane Protection Levee.

(8) Ad Valorem Taxes

West Jefferson Levee District

Article 6, § 39 of the 1974 Louisiana Constitution provides that for the purposes of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection, and for all other purposes incidental thereto, the West Jefferson Levee District may levy annually, a tax not to exceed 5.03 mills. If the West Authority needs to raise additional funds in excess of the amount collected constitutionally, the taxes in excess of 5.03 mills must be approved by a majority vote of the electorate.

The District levies ad valorem (property tax) on real property within the District boundaries to finance operations and maintenance activities. The levy is generally made as of November 15 of each year. The tax is then due, and becomes an enforceable lien on the property, on the first day of the month following the filing of the tax roll by the Parish Assessor with the Louisiana Tax Commission (usually December 1). The tax is delinquent 30 days after its due date.

Ad valorem taxes are levied based on property values determined by the Jefferson Parish Assessor's Office (a separate entity). All land and residential improvements are assessed at 10 percent of its fair market value, and other property at 15 percent of its fair market value. Taxes are billed and collected by the Jefferson Parish Sheriff's Office and Ex-Officio Tax Collector (a separate entity), which receives a certain millage for its services. The taxes remitted by the Sheriff to the District are net of assessor's commission and pension fund contributions.

The number of mills levied for operations and maintenance on the 2020 and the 2021 tax rolls were 4.93 for each year, with 2021 being a "roll forward" year. However, WJLD chose not to roll forward but will do so at a later date. This millage rate generated revenues of \$5,674,260 in the current year.

Algiers Levee District

Article 6, § 39 of the 1974 Louisiana Constitution provides that for the purposes of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection, and for all other purposes incidental thereto, the Orleans Levee District may levy annually, a tax not to exceed 5.46 mills. If the District needs to raise additional funds in excess of the amount collected constitutionally, the taxes in excess of 5.46 mills must be approved by a majority vote of the electorate. The area covered by this tax includes the area included in the Algiers Levee District.

In 1983, the voters of the Parish of Orleans elected to continue a 6.35 mill tax on assessed property for a period of 30 years (1985 to 2015) to finance hurricane and flood protection projects and to fund the retirement of levee improvement bonds. An additional millage of 0.75 mills is levied pursuant to a special election held in 1974 to provide a "general maintenance" tax to finance the general maintenance expenditures of the Orleans Levee District. Again, the areas covered by these taxes include the area now governed by the Algiers Levee District.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

The actual millage rates levied for 2021 were 5.46 constitutional, 6.35 levee improvements, and 0.75 for general maintenance. The Algiers Levee District levies an ad valorem tax on real property within the District's boundaries to finance operations and maintenance activities based on the assessed values of the prior August 15. As provided by LRS 47:1997(b), ad valorem taxes are assessed for the calendar year, become due on January 1 of each year and delinquent on February 1 of each year. The taxes are generally collected between January and April of each year.

Ad valorem taxes are levied based on property values in the City of New Orleans determined by the Orleans Parish Assessor. All land and residential improvements are assessed at 10 percent of its fair market value, and other property at 15 percent of its fair market value. Taxes are billed and collected by the City's Revenue Department (a separate entity). The taxes are remitted by the City to the Algiers Levee District.

As noted previously, the Algiers Levee District was formed by Act 475 of the 2010 Legislative session by carving an area out of the Orleans Levee District and placing it under the control of the District. For the current fiscal year revenues were recognized in the amount of \$2,911,527.

(9) Joint Venture - Westbank Hurricane Protection Levee

Pursuant to project cooperative agreement (PCA) dated December 18, 1980, the West Jefferson Levee District and the U.S. Army Corps of Engineers (COE) began constructing a hurricane protection levee system within the WJLD's boundaries under a "cost-sharing" agreement. Under the original agreement, the project was limited to the West of Harvey Canal and the WJLD was to provide 35 percent of the cost as a local match. The WJLD's share was to be made up of expropriations, easements, land acquisitions, relocation assistance and in-kind construction work.

In August 2005, Hurricane Katrina struck the area. In the aftermath of the storm, the Westbank and Vicinity Hurricane Levee project was modified and placed under the control of the COE.

In the wake of Hurricane Katrina, several changes were made/proposed to the project. In December 2006, the United States Congress passed the 3rd Supplemental Emergency Bill which provided approximately \$200.0 million to the WJLD to repair deficient floodwalls and to accelerate completion of those parts of the project not yet finished. 100 percent of the funding was to be provided by the Federal Government through the COE.

In June 2009, Congress passed the 4th Supplemental Emergency Bill which provided an additional \$495.0 million to raise the authorized elevation of levees in the area to meet the requirements of a 100-year event. Flood-wall construction was to be funded at 100 percent by the Federal Government, but levee construction was now funded at 65 percent Federal and 35 percent State/Local. This appropriation was to be spent on the Westbank Hurricane Protection levee and the Lake Pontchartrain Levee (managed by the East Jefferson Levee District). The bill did not allocate the funding between agencies/jurisdictions.

The 4th Supplemental Emergency Bill also provided \$1.584 billion to replace all floodwalls within the New Orleans Metropolitan area, including the Parishes of Orleans, St. Bernard, and Jefferson (which includes the area managed by the WJLD). The bill did not allocate the funding between agencies/jurisdictions.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

The State amended the PCA between the State Department of Transportation and Development, the COE, and the WJLD to provide for these changes. Amendment No. 2 to the agreement defined the funding and responsibilities for the 3rd Supplemental Emergency Bill. Amendment No. 3 to the agreement addressed the funding and responsibilities for the 4th Supplemental Emergency Bill.

To provide for the continued construction of hurricane flood protection for coastal Louisiana, the State legislature amended existing legislations that created the Louisiana Coastal Protection and Restoration Authority (LCPRA) to add hurricane flood protection to its responsibility. This organization was charged with the duty of providing "one voice" from which to speak on all issues involving coastal restoration and hurricane protection for the State of Louisiana.

It is in this regard the LCPRA executed a Project Partnership Agreement with the COE on November 6, 2008, to cover the relationship between non-federal interests and the COE for continued construction of the West Bank and Vicinity Hurricane Protection Project.

In this agreement, the State agreed to provide for the 35% required nonfederal match needed for the project. Thus, the COE (federal agent) and the LCPRA (state agent) are now responsible for all construction, repairs, and expropriations related to this levee system. The West Authority through its WJLD accepted the responsibility of managing the duties of land acquisition and relocation of impacted utilities/facilities.

It should be noted that since these post-Katrina projects essentially replaced or greatly improved upon the original Westbank Hurricane Levee System constructed by the COE and the WJLD, the original infrastructure assets capitalized by WJLD were removed from the books of the District in fiscal year end June 30, 2011.

(10) Post-Retirement Health Care and Life Insurance Benefits

Plan Description: The West Authority's employees may participate in the State of Louisiana's Other Post-Employment Benefit Plan (OPEB Plan) which is administered by the Office of Group Benefits (OGB). The State OGB Plan provides medical and life insurance benefits to eligible active employees, retirees, and their beneficiaries. The postemployment benefits plan is a multiple-employer plan for financial reporting purposes since the plan is not administered as a formal trust. R.S. 42:801-883 provides the authority to establish and amend benefit provisions of the plan. OGB does not issue a publicly available financial report of the State OPEB Plan; however, it is included in the State of Louisiana's Comprehensive Annual Financial Report (CAFR). You may obtain a copy of the CAFR on the Office of Statewide Reporting and Accounting Policy's website at www.doa.la.gov/osrap.

There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement 75. Effective July 1, 2008, an OPEB trust fund was statutorily established; however, this plan is not administered as a trust and no plan assets have been accumulated as of June 30, 2021. The plan is funded on a "pay-as-you-go basis" under which the contributions to the plan are generally made at about the same time and in about the same amount as benefit payments become due.

STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Medical Benefits: Retirees under age 65 can elect coverage under the following plans:

- BCBS Pelican HRA
- BCBS Magnolia Local/Local Plus
- BCBS Magnolia Open Access
- Vantage Medical Home HMO

Retirees 65 and over can elect coverage under the following plans:

- BCBS Pelican HRA
- BCBS Magnolia Local/Local Plus
- BCBS Magnolia Open Access
- Vantage Medical Home HMO
- People's Medicare Advantage HMO
- Vantage Medicare Advantage HMO (Premium/Standard/Basic)
- BCBS Medicare Advantage HMO (varies by region)
- Humana Medicare Advantage HMO (varies by region)
- Via Benefits HRA

Monthly Contributions: Retirees with continuous OGB medical coverage starting before January 1, 2002 pay approximately 25% of the cost of coverage in retirement. Employees with an OGB medical participation start (or re-start) date after December 31, 2001 pay a percentage of the total retiree contribution rate based on the following schedule:

<u>OGB Participation</u>	<u>Employer Contribution Percentage</u>	<u>Employee Contribution Percentage</u>
Under 10 years	19%	81%
10-14 years	38%	62%
15-19 years	56%	44%
20+ years	75%	25%

Monthly rates effective January 1, 2021 are as follows:

<u>Medical Plan</u>	<u>Pre-Medicare Member</u>			<u>Medicare Member</u>			
	<u>Active Single</u>	<u>Member Only</u>	<u>Pre-65 Spouse</u>	<u>Medicare Spouse</u>	<u>Member Only</u>	<u>Pre-65 Spouse</u>	<u>Medicare Spouse</u>
Vantage Med Home HMO	\$ 705	1,394	1,067	291	461	1,224	365
People's MA HMO	\$ N/A	N/A	N/A	190	190	N/A	190
Vantage MA HMO Prem.	\$ N/A	N/A	N/A	187	187	N/A	187
Vantage MA HMO Std.	\$ N/A	N/A	N/A	152	152	N/A	152
Vantage MA HMO Basic	\$ N/A	N/A	N/A	72	72	N/A	72
BCBS Pelican HRA	\$ 443	870	666	175	283	762	226

BCBS Magnolia OA	\$ 738	1,448	1,109	292	471	1,269	375

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

For purposes of the OPEB valuation, the above amounts were trended back six months to the valuation date.

Life Insurance Benefits: OGB provides eligible retirees the following life insurance plans:

	<u>Basic</u>	<u>Supplemental Maximum</u>
Under age 65	\$ 5,000	50,000
Ages 65 to 70	4,000	38,000
After age 70	3,000	25,000

In force life insurance amounts are reduced to 75% of the initial value at age 65 and 50% of the original amount at age 70. Spouse life insurance amounts of \$1,000, \$2,000, or \$4,000 are available. Retiree pays 50% of the Prudential Company of America premium. Retiree pays 100% of the Prudential Company of America premium for spousal coverage.

Total Collective OPEB Liability and Changes in Total Collective OPEB Liability:

At June 30, 2021, the West Authority reported a liability of \$7,504,318 for its proportionate share of the total collective OPEB liability. The total collective OPEB liability was measured as of July 1, 2020 and was determined by an actuarial valuation as of that date.

The West Authority's proportionate share percentage is based on the employer's individual OPEB actuarial accrued liability in relation to the total OPEB actuarial accrued liability for all participating entities included in the State of Louisiana reporting entity. At July 1, 2020, the West Authority's proportion was 0.0906%.

Actuarial Assumptions:

Valuation Date: July 1, 2020.

Actuarial Cost Method: Entry Age Normal, level percent of pay. Service costs are attributed through all assumed ages of exit from active service. For current DROP participants, assumed exit from active service is the date at which DROP ends.

Salary Increases: Consistent with pension valuation assumptions.

Discount Rate: The discount rate used as of July 1, 2020 is 2.66% based on the June 30, 2020 S&P 20-year municipal bond index rate.

Life Insurance Coverage: Future retirees are assumed to participate in the life insurance benefit at a 36% rate. Future retirees are assumed to elect a total of \$45,000 in basic life insurance and supplemental life insurance coverage, before any age reductions. Spouses are assumed to elect \$2,000

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

of coverage. Disabled members – Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement.

Mortality:

For active lives: the RP-2014 Blue Collar Employee Table, adjusted by 0.978 for males and 1.144 for females, and then projected on a fully generational basis by Mortality Improvement Scale MP-2018.

For healthy retiree lives: the RP-2014 Blue Collar Healthy Annuitant Table, adjusted by 1.280 for males and RP-2014 White Collar Healthy Annuitant Table, adjusted by 1.417 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018.

For disabled retiree lives: the RP-2000 Disabled Retiree Mortality Table, adjusted by 1.009 for males and 1.043 for females, not projected with mortality improvement.

Healthcare Cost Trend Rates: The combined effect of price inflation and utilization on gross eligible medical and prescription drug charges is according to the table below. The initial trend rate was developed using a National Health Care Trend Survey. The survey gathers information of trend expectations for the coming year from various insurers and pharmacy benefit managers. These trends are broken out by drug and medical, as well as type of coverage (e.g. PPO, HMO, POS). Plans that most closely match The State of Louisiana’s benefits were selected to set the initial trend. The ultimate trend is developed based on a building block approach which considers CPI, GDP, and Technology growth. The healthcare cost trend rates are as follows:

<u>Year</u>	<u>Medical and Drug Pre-65</u>	<u>Medical and Drug Post-65</u>
2020-2021	6.75%	5.25%
2021-2022	6.50%	5.00%
2022-2023	6.25%	4.75%
2023-2024	6.00%	4.50%
2024-2025	5.75%	4.50%
2025-2026	5.50%	4.50%
2026-2027	5.25%	4.50%
2027-2028	5.00%	4.50%
2028-2029	4.75%	4.50%
2029 +	4.50%	4.50%

The following changes in actuarial assumptions have been made since the prior measurement date:

- The discount rate has increased from 2.21% to 2.66%.
- Mortality assumptions were changed from the RP-2014 table without projection to the following:
 - For active lives: the RP-2014 Blue Collar Employee Table, adjusted by 0.978 for males and 1.144 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

- For healthy retiree lives: the RP-2014 Blue Collar Healthy Annuitant Table, adjusted by 1.280 for males and RP-2014 White Collar Healthy Annuitant Table, adjusted by 1.417 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018.
- For disabled retiree lives: the RP-2000 Disabled Retiree Mortality Table, adjusted by 1.009 for males and 1.043 for females, not projected with mortality improvement.
- Healthcare cost trend rate assumptions were changed from an expected rate of increase in medical cost is based on an annual rate of 5.5% for the first ten years and 4.5% thereafter to the assumptions described above.
- Termination rate assumptions were changed from an age-related turnover scale based on actual experience as described by administrative staff (approximately 13%) to rates consistent with pension valuation assumptions based on age and years of service (rates ranging from 50% to 5%).
- Life insurance participation rate for future retirees was decreased from 52% to 36%.
- Rates of salary increases were changed from an annual salary increase of 4% to the following:

<u>Years of Service</u>	<u>Increase</u>
0	12.80%
5	4.90%
10	3.60%
15	3.20%
20	3.00%
25	3.00%
30	3.00%

Required Supplementary Information

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate: The following presents the total OPEB liability of the West Authority, as well as what the West Authority's total OPEB liability would be if it were calculated using a discount rate one percentage lower and one percentage higher than the current discount rate.

	1% Decrease <u>(1.66%)</u>	Current Discount Rate <u>(2.66%)</u>	1% Increase <u>(3.66%)</u>
Total OPEB liability	\$ <u>8,990,690</u>	<u>7,504,318</u>	<u>6,359,832</u>

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates: The following presents the total OPEB liability of the West Authority, as well as what the West Authority's total OPEB liability would be if it were calculated using healthcare cost trend rates one percentage lower and one percentage higher than the current healthcare cost trend rates.

	1% Decrease <u>(5.75%)</u>	Current Healthcare Cost Trend Rate <u>(6.75%)</u>	1% Increase <u>(7.75%)</u>
Total OPEB liability	\$ <u>6,335,818</u>	<u>7,504,318</u>	<u>9,047,338</u>

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

For the year ended June 30, 2021, the West Authority recognized OPEB expense of \$3,249,308. Approximately \$3,025,000 of this amount was attributable to changes in the OPEB estimates due to the West Authority changing actuaries for the plan. At June 30, 2020, the West Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes in assumptions	\$ -	(1,146,469)
Changes in experience	86,001	(24,476)
Changes in proportionate share of collective OPEB Expense	454,791	(33,114)
Difference in proportionate share of ER and Actual	-	(77,572)
Contributions made subsequent to measurement date	<u>154,585</u>	<u>-</u>
	<u>\$ 695,377</u>	<u>(1,281,632)</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

(11) Retirement System

Plan Description

Employees of the West Authority are provided with pensions through a cost-sharing multiple-employer defined benefit plan administered by the Louisiana State Employees' Retirement System (LASERS). Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) grants to LASERS Board of Trustees and the Louisiana Legislature the authority to review administration, benefit terms, investments, and funding of the plan. LASERS issues a publicly available financial report that can be obtained at www.lasersonline.org.

Benefits Provided

The following is a description of the plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

Retirement Benefits

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. Our rank and file members hired prior to July 1, 2006, may either retire with full benefits at any age upon completing 30 years of creditable service and at age 60 upon completing ten years of creditable service depending on their plan. Those members hired between July 1, 2006 and June 30, 2015, may retire at age 60 upon completing five years of creditable service and those hired on or after July 1, 2015 may retire at age 62 upon completing five years of creditable service. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

to retire with twelve years of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive a 2.5% accrual rate, and judges a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

Members of the Harbor Police Retirement System who were members prior to July 1, 2014, may retire after 25 years of creditable service at any age, 12 years of creditable service at age 55, 20 years of creditable service at age 45, and 10 years of creditable service at age 60. Average compensation for the plan is the member's average annual earned compensation for the highest 36 consecutive months of employment, with a 3.33% accrual rate.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

Deferred Benefits

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

For members who are in the Harbor Police Plan, the annual DROP Interest Rate is the three-year average (calculated as the compound average of 36 months) investment return of the plan assets for the period ending the June 30th immediately preceding that given date. The average rate so determined is to be reduced by a "contingency" adjustment of 0.5%, but not to below zero. DROP interest is forfeited if member does not cease employment after DROP participation.

Disability Benefits

Generally, active members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age.

Upon reaching age 60, the disability retiree may receive a regular retirement benefit by making an application to the Board of Trustees.

For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation or 100% of final average compensation if the injury was the result of an intentional act of violence.

Members of the Harbor Police Retirement System who become disabled may receive a non-line of duty disability benefit after five years or more of credited service. Members age 55 or older may receive a disability benefit equivalent to the regular retirement benefit. Under age 55, the disability benefit is equal to 40% of final average compensation. Line of duty disability benefits are equal to 60% of final average compensation, regardless of years of credited service or 100% of final average compensation if the injury was the result of an intentional act of violence. If the disability benefit retiree is permanently confined to a wheelchair, or, is an amputee incapable of serving as a law enforcement officer, or is permanently or legally blind, there is no reduction to the benefit if the retiree becomes gainfully employed.

Survivor's Benefits

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased regular member hired before January 1, 2011 who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years being earned immediately prior to death, and in active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

A Hazardous Duty Services Plan member's surviving spouse and minor or handicapped or mentally incapacitated child or children are entitled to survivor benefits of 80% of the member's final average compensation if the member was killed in the line of duty. If the member dies in the line of duty as a result of an intentional act of violence, survivor benefits may be increased to 100% of the member's final average compensation.

Non-line of duty survivor benefits of the Harbor Police Retirement System may be received after a minimum of five years of credited service. Survivor benefits paid to a surviving spouse without children are equal to 40% of final average compensation and cease upon remarriage. Surviving spouse with children under 18 benefits are equal to 60% of final average compensation and cease upon remarriage, or children turning 18. No minimum service credit is required for line of duty survivor benefits which are equal to 60% of final average compensation to surviving spouse, or 100% of final average compensation if the injury was the result of an intentional act of violence regardless of children. Line of duty survivor benefits cease upon remarriage, and then benefit is paid to children under 18.

Permanent Benefit Increases/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Employer Contributions

The employer contribution rate is established annually under La. R.S. 11:101-11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the System's Actuary. Each plan pays a separate actuarially determined employer contribution rate. However, all assets of LASERS are used for the payment of benefits for all classes of members, regardless of their plan membership.

Employer contributions for fiscal year 2021 were \$1,057,640 with active member contributions ranging from 7.5% to 8%. The West Authority's contractually required composite contribution rate 40.1% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the West Authority reported a liability of \$10,143,809 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2020 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The West Authority's proportion of the Net Pension Liability was based on a projection of the West Authority's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2021, the West Authority's proportion was 0.1226%.

For the year ended June 30, 2021, the West Authority recognized pension expense of \$1,306,985 plus employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, \$34,532.

At June 30, 2021, the West Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	(97,419)
Changes in assumptions	32,457	-
Net difference between projected and actual earnings on pension plan investments	1,482,831	-
Changes in proportion and differences between Employer contributions and proportionate share of contributions	132,280	(270,302)
Employer contributions subsequent to measurement date	<u>1,057,640</u>	<u>-</u>
	<u>\$ 2,705,208</u>	<u>(367,721)</u>

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended:

June 30, 2021	\$ 160,718
June 30, 2022	\$ 317,737
June 30, 2023	\$ 458,232
June 30, 2024	\$ 343,160

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2020 are as follows:

Valuation Date	June 30, 2020
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Expected Remaining Service Lives	2 years
Investment Rate of Return	7.55% per annum, net of investment expenses
Inflation Rate	2.3% per annum
Mortality	Non-disabled members – The RP-2014 Blue Collar (males/females) and White Collar (females) Healthy Annuitant Tables projected on a fully generational basis by Mortality Improvement Scale MP-2018.
	Disabled members – Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement.
Termination, Disability, and Retirement	Termination, disability, and retirement assumptions were projected based on a five year (2014-2018) experience study of the System’s members for 2019.

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Salary Increases

Salary increases were projected based on a 2014-2018 experience study of the System's members. The salary increase ranges for specific types of members are:

<u>Member Type</u>	<u>Lower Range</u>	<u>Upper Range</u>
Regular	3.0%	12.8%
Judges	2.6%	5.1%
Corrections	3.6%	13.8%
Hazardous Duty	3.6%	13.8%
Wildlife	3.6%	13.8%

Cost of Living Adjustments

The present value of future retirement benefits is Based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

** The investment rate of return used in the actuarial valuation for funding purposes was 7.90%, recognizing an additional 35 basis points for gain-sharing. The net return available to fund regular plan benefits is 7.55%, which is the same as the discount rate. Therefore, the System's management concludes that the 7.55% discount is reasonable.*

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.3% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 8.25% for 2020. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2020 are summarized in the following table:

<u>Asset Class</u>	<u>Long-term Expected Real Rate of Return</u>
Cash	-0.59%
Domestic equity	4.79%
International equity	5.83%
Domestic Fixed Income	1.76%
International Fixed Income	3.98%
Alternative Investments	6.69%
Risk Parity	4.20%
Total Fund	5.81%

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

Discount Rate

The discount rate used to measure the total pension liability was 7.55%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System’s actuary. Based on those assumptions, the System’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Employer’s proportionate share of the Net Pension Liability using the discount rate of 7.55%, as well as what the Employer’s proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is one percentage-point lower (6.55%) or one percentage-point higher (8.55%) than the current rate:

	1% Decrease <u>(6.55%)</u>	Current Discount Rate (7.55%)	1% Increase <u>(8.55%)</u>
Employer’s proportionate share of the net pension liability	\$ <u>12,465,163</u>	<u>10,143,809</u>	<u>8,173,884</u>

The information above can be found in the current GASB 68 Schedules of Employer located at <https://lasersonline.org/employers/gasb-68-resources/>.

Change in Net Pension Liability

The changes in the net pension liability for the year ended June 30, 2021 were recognized in the current reporting period except as follows:

Differences between Expected and Actual Experience

Differences between expected and actual experience with regard to economic or demographic factors in the measurement of the total pension liability were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan. The difference between expected and actual experience resulted in a net deferred inflow of resources in the amount of \$158,738 for the year ended June 30, 2021. Net pension benefit and remaining net deferred inflow for the year ended June 30, 2021 was \$61,319 and \$97,419, respectively.

Differences between Projected and Actual Investment Earnings

Differences between projected and actual investment earnings on pension plan investments were recognized in pension expense using the straight-line amortization method over a closed five-year

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

period. The difference between projected and actual investment earnings resulted in a net deferred outflow of resources in the amount of \$2,022,792 for the year ended June 30, 2021. Net pension expense and remaining net deferred outflow for the year ended June 30, 2021 was \$539,961 and \$1,482,831, respectively.

Changes in Assumptions or Other Inputs

Changes in assumptions about future economic or demographic factors were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan. The changes in assumptions or other inputs resulted in a deferred outflow of resources of \$141,056 for the year ended June 30, 2021. Pension expense and remaining deferred outflow for the year ended June 30, 2021 was \$108,599 and \$32,457, respectively.

Change in Proportion

Changes in the employer's proportionate share of the collective net pension liability and collective deferred outflows of resources and deferred inflows of resources since the prior measurement date were recognized in employer's pension expense (benefit) using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided pensions through the pension plan.

Contributions - Proportionate Share

Differences between contributions remitted to the System and the employer's proportionate share are recognized in pension expense (benefit) using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with a pension through the pension plan. The resulting deferred inflow/outflow and amortization is not reflected in the schedule of employer amounts due to differences that could arise between contributions reported by the System and contributions reported by the participating employer.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued current LASERS Comprehensive Annual Financial Report at www.lasersonline.org.

Payables to the Pension Plan

As of June 30, 2021, the West Authority had no employee and employer contributions that were due to the pension plan.

(12) Commitments and Contingencies

Risk Management

The West Authority and its component units are exposed to various risks of loss resulting from personal injury; theft of, damage to, and destruction of assets; errors and omissions; injuries to

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

Notes to Financial Statements

June 30, 2021

employees; and natural disasters. To protect against these risks of loss, the West Authority purchases various types of insurance from commercial carriers.

Under these policies, general liability coverage is provided for up to a maximum of \$1,000,000 per occurrence (\$2,000,000 in the aggregate); automobile coverage is \$1,000,000 for combined single limits for all automobiles; \$2,000,000 for products/completed operations; and worker's compensation is provided at the statutory limits of \$1,000,000/\$1,000,000/\$1,000,000. In each policy, the West Authority or its component unit is responsible for the applicable deductible.

Contingent Liabilities

Federal and State Financial Assistance

Amounts received or receivable from grantor agencies are subject to audit and adjustments by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the West Authority expects such amounts, if any, to be immaterial.

Litigation

The West Authority and its component units are defendants in a number of claims and lawsuits. The West Authority's attorney has reviewed these claims and lawsuits in order to evaluate the likelihood of an unfavorable outcome to the West Authority and to arrive at an estimate, if any, of the amount or range of potential loss to the West Authority.

As a result of such a review, the various claims and lawsuits have been categorized into "probable", "reasonably possible", and "remote" categories, as defined in GASB Codification Section C50 for Claims and Judgments. In the opinion of management, the West Authority has adequate legal defenses or insurance coverage with respect to each of these claims and lawsuits and does not believe that they will materially affect the West Authority's financial statements.

(13) Tax Abatement

As of December 31, 2016, Jefferson Parish provides tax abatements primarily through one program - the Payment in Lieu of Tax (PILOT) program. The Parish enters into ad valorem tax abatement agreements with local businesses through its economic development arm - the Jefferson Parish Economic Development and Port West Authority (JEDCO). During the year, JEDCO entered into an agreement with Dyno Nobel Louisiana Ammonia, LLC (Dyno) to rehabilitate a building for Dyno's manufacturing site. The agreement included the issuance of revenue bonds in the amount of \$850,000,000 payable by Dyno. In lieu of paying ad valorem taxes, Dyno is responsible for the principal and interest payments on the revenue bonds. The West Authority is one of six entities that are impacted by this agreement. In lieu of receiving its share of ad valorem taxes, the West Authority received \$96,103 for the year ended June 30, 2021.

Share of Net Pension Liability and Schedule of Employer's Pension Contributions**

Last Ten Fiscal Years *

Changes in Benefit Terms:

Measurement Date: June 30, 2014:

- 1. A 1.5% COLA, effective July 1, 2014, provided by Act 102 of the Louisiana Regular Legislative System.**
- 2. Improved benefits for certain members employed by the Office of Adult Probation and Parole within the Department of Public Safety and Corrections as established by Act 852 of 2014.**

Measurement Date: June 30, 2016:

- 1. A 1.5% COLA, effective July 1, 2016, provided by Acts 93 and 512 of the 2016 Louisiana Regular Legislative Session.**
- 2. Added benefits for members of the Harbor Police Retirement System which was merged with LASERS effective July 1, 2015 by Act 648 of 2014.**

Measurement Date: June 30, 2019:

- 1. Act 595 of 2018 provides for a disability benefit equal to 100 percent of final average compensation for members of the Hazardous Duty, Corrections Primary and Secondary, Wildlife and Harbor Police plans who are totally and permanently disabled in the line of duty by an intentional act of violence.**

Changes in Assumptions:

Measurement Date: June 30, 2017:

- 1. The Board adopted a plan to gradually reduce the discount rate from 7.75% to 7.50% in .05% annual increments, beginning July 1, 2017. Therefore, the discount rate was reduced from 7.75% to 7.70% for the June 30, 2017, valuation. A 7.65% discount rate was used to determine the projected contribution requirements for fiscal year 2018/2019.**
- 2. The Board reduced the inflation assumption from 3.0% to 2.75%, effective July 1, 2017. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions decreased by .25%.**
- 3. The projected contribution requirement for fiscal year 2018/2019 includes direct funding of administrative expenses, rather than a reduction in the assumed rate of return, per Act 94 of 2016.**

Measurement Date: June 30, 2018:

- 1. In accordance with the Board's adopted a plan to gradually reduce the discount rate beginning July 1, 2017, the discount rate was reduced from 7.70% to 7.65%.**

**SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY - WEST
STATE OF LOUISIANA**

**Notes to Required Supplementary Information - Schedule of Employer's Proportionate
Share of Net Pension Liability and Schedule of Employer's Pension Contributions**

Last Ten Fiscal Years *

Measurement Date: June 30, 2019:

- 1. In accordance with the Board's adopted a plan to gradually reduce the discount rate beginning July 1, 2017, the discount rate was reduced from 7.7% to 7.60.**
- 2. The Board reduced the inflation assumption from 2.75% to 2.50%, effective July 1, 2019. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions decreased by .25%.**

Measurement Date: June 30, 2020:

- 1. In accordance with the Board's adopted a plan to gradually reduce the discount rate beginning July 1, 2017, the discount rate was reduced from 7.60% to 7.55.**
- 2. The Board reduced the inflation assumption from 2.50% to 2.30%, effective July 1, 2020. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions decreased by .20%.**

Changes in Net OPEB Liability and Related Ratios**

Last Ten Fiscal Years *

There are no assets accumulated in a trust that meets the requirements in paragraph 4 of GASB Statement No. 75 to pay related benefits.

Changes in Assumptions:

Measurement Date: June 30, 2019:

1. The discount rate was decrease from 3.5% to 2.21%

Measurement Date: June 30, 2020:

1. The discount rate was increased from 2.21% to 2.66%.
2. Mortality assumptions were changed from the RP-2014 table without projection to the following:
 - a. For active lives: the RP-2014 Blue Collar Employee Table, adjusted by 0.978 for males and 1.144 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018.
 - b. For healthy retiree lives: the RP-2014 Blue Collar Healthy Annuitant Table, adjusted by 1.280 for males and RP-2014 White Collar Healthy Annuitant Table, adjusted by 1.417 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018.
 - c. For disabled retiree lives: the RP-2000 Disabled Retiree Mortality Table, adjusted by 1.009 for males and 1.043 for females, not projected with mortality improvement.
3. Healthcare cost trend rate assumptions were changed from an expected rate of increase in medical cost is based on an annual rate of 5.5% for the first ten years and 4.5% thereafter to the assumptions described above.
4. Termination rate assumptions were changed from an age-related turnover scale based on actual experience as described by administrative staff (approximately 13%) to rates consistent with pension valuation assumptions based on age and years of service (rates ranging from 50% to 5%).
5. Life insurance participation rate for future retirees was decreased from 52% to 36%.
6. Rates of salary increases were changed from an annual salary increase of 4% to the following:

Years of Service	Increase
0	12.80%
5	4.90%
10	3.60%
15	3.20%
20	3.00%
25	3.00%
30	3.00%

Changes in Benefit Terms:

There have been no changes in benefit terms.

Other Postemployment Benefits (OPEB)

If your agency has active or retired employees who are members of the Office of Group Benefits (OGB) Health Plan, please provide the following information: (Note: OGB has a 6/30/2020 measurement date for their OPEB valuation)

Benefit payments made subsequent to the measurement date of the **OGB** Actuarial Valuation Report until the employer's fiscal year end. (Benefit payments are defined as the employer payments for retirees' health and life insurance premiums). For agencies with a 6/30 year end this covers the current fiscal year being reported. For calendar year end agencies, it covers the period 7/1 to 12/31 for the current year being reported. 154,585.00

Covered Employee Payroll for the **PRIOR** fiscal year (not including related benefits) 2,471,897.00

For calendar year-end agencies only: Benefit payments or employer payments for retirees' health and life insurance premiums made for the next year's valuation reporting period (7/1/2020 - 6/30/2021). This information will be provided to the actuary for the valuation report early next year. 0.00

For agencies that have employees that participate in the **LSU Health Plan**, provide the following information: (Note: The LSU Health Plan has a measurement date of 6/30/2021 for their OPEB valuation report.)

Covered Employee Payroll for the **CURRENT** fiscal year (not including related benefits) 0.00

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**To the Board of Commissioners
Southeast Louisiana Flood Protection Authority - West
State of Louisiana
Marrero, Louisiana**

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, major funds, and aggregate remaining fund information of the Southeast Louisiana Flood Protection Authority - West, (the West Authority), as of and for the year then ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the West Authority's basic financial statements and have issued our report thereon dated September 13, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the West Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for their purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the West Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the West Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
