We have reviewed the accompany

We have reviewed the accompanying basic financial statements of the governmental activities of Northway Economic Development District (District), of Lafayette, Louisiana, a component unit of Lafayette City-Parish Consolidated Government as of and for the year ended October 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

## Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

#### Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America required that the budgetary comparison schedule on page 16 be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in appropriate operational, economic, or historical context. Such information is the responsibility of management. We have not audited, reviewed, or compiled the required supplementary information and we do not express an opinion, a conclusion, nor provide any assurance on it.

Management has omitted the management's discussion and analysis information that the Governmental Accounting Standards Board requires to be presented to supplement the basic financial statements. Such missing information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context.

# INTRODUCTION

The Northway Economic Development District is a political subdivision of the State of Louisiana created under Louisiana Revised Statute 33:99038.31-42. The District is governed by a Board of Directors consisting of two appointed members. The District was created out of the City's desire to acquire, design, development, and construction of various multi-phased projects designed to encourage economic development, eliminate blighted and vacant property, increase the number of hotel rooms available, generate revenues for infrastructure and other necessary capital expenditures, stimulate job creation by enhancing the feasibility of private sector projects that help to achieve the community's economic goals, and catalyze development in target areas where it might not be otherwise economically feasible, primarily through focusing on projects in the areas of development, rehabilitation, infrastructure improvements, recreations, and beautification on property located within the City, for the benefit of and to enhance the quality of life of citizens of the City.

The economic development district is empowered to levy up to five (5) mills of ad valorem taxes, up to two (2%) percent of sales and use taxes, or up to two (2%) percent of hotel occupancy taxes, or any combination of such taxes, above an in addition to any other ad valorem taxes, sales and use taxes, or hotel occupancy taxes or combination of such taxes, then in existence or permitted to be in existence within the boundaries of such economic development district.

# (1) Summary of Significant Accounting Policies

The accompanying financial statements of the Northway Economic Development District (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applicable to state and local governments. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting and reporting policies and practices used by the District are described below.

# A. Financial Reporting Entity

For financial reporting purposes, the District includes all funds, account groups, and component units, that are controlled by or dependent on the Northway Economic Development District as a independent political subdivision of the State of Louisiana. Control by or dependence on the District was determined on the basis of budget adoption, taxing authority, authority to issue debt, election or appointment of governing body, or other general oversight responsibility. As the Lafayette City-Parish Consolidated Government is the governing body of the District, the District is considered to be a component unit of the Lafayette City-Parish Consolidated Government. At October 31, 2022, there were no entities that met the criteria to be considered a component unit of the District.

#### B. Basis of Presentation

The accompanying basic financial statements of the District have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Notes to Basic Financial Statements (Continued)

### Government-Wide Financial Statements (GWFS)

The statement of net position and the statement of activities display information about the District as a whole. These statements include all the financial activities of the District. Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from nonexchange transactions are recognized in accordance with professional standards.

The statement of activities presents a comparison between direct expenses and program revenues for the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of services offered by the District, and (b) grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

# Fund Financial Statements (FFS)

The District uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District's functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts. The emphasis on fund financial statements is on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the District or its total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures of the individual governmental fund is at least 10 percent of the corresponding total for all governmental funds. The major fund and only fund of the District is described below:

# Governmental Fund -

General Fund – This fund is the primary operating fund of the District and it accounts for the operations of the District. The General Fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and internal policy.

Notes to Basic Financial Statements (Continued)

# C. Basis of Accounting

The amounts reflected in the governmental fund are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of the District's operations.

The amounts reflected in the governmental funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred.

# D. Budgets

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. In accordance with the Budget Act of the State of Louisiana, the District prepares an operating budget for the General Fund at least fifteen days prior to the commencement of the budgetary year-end. The operating budget includes proposed expenditures and the means of financing them for the upcoming year.
- 2. A summary of the proposed budget is published and the public notified that the proposed budget is available for public inspection.
- 3. A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing.
- 4. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is legally adopted prior to the commencement of the fiscal year for which the budget is being adopted.
- 5. All budgetary appropriations lapse at the end of each fiscal year.
- 6. The budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgeted amounts are as originally adopted or as finally amended by the District. Such amendments were not material in relation to the original appropriations.

### Notes to Basic Financial Statements (Continued)

### E. Cash and interest bearing deposits

Cash and interest-bearing deposits include amounts in demand deposits, interestbearing demand deposits, and time deposits. They are stated at cost, which approximates market.

# F. Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components

- 1. Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- 2. Restricted net position Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- 3. Unrestricted net position All other net position that do not meet the definition of "restricted" or "net investment in capital assets".

In the fund financial statements, governmental fund equity is classified as fund balance. As such, fund balance of the governmental fund is classified as follows:

- 1. Nonspendable amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- Restricted amounts that can be spent only for specific purposes because
  of constitutional provisions or enabling legislation or because of
  constraints that are externally imposed by creditors, grantors, contributors,
  or the laws or regulations of other governments.
- 3. Committed amounts that can be used only for specific purposes determined by a formal decision of the District, which is the highest level of decision-making authority.
- 4. Assigned amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the District may assign amounts for specified purposes.
- 5. Unassigned all other spendable amounts.

# Notes to Basic Financial Statements (Continued)

When an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the District has provided otherwise in its commitment or assignment actions.

# (2) <u>Cash and Interest-Bearing Deposits</u>

Under state law, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The District may invest in certificates and time deposits of the state banks organized under Louisiana law and national banks having principal offices in Louisiana. At October 31, 2022, the District has interest-bearing deposits (book balances) totaling \$912,301.

These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the District or the pledging fiscal agent bank by a holding or custodial bank that is mutually acceptable to both parties. Deposit balances (bank balances) at October 31, 2022, are secured as follows:

Bank balances	\$ 912,301
Federal deposit insurance Pledged securities	\$ 912,301 
Bank balances	\$ 912,301

There were no deposits that were exposed to custodial credit risk. The District does not have a policy for custodial credit risk.

# (3) Schedule of Compensation, Benefits and Other Payments to Agency Head

There were no compensation, benefits, or other payments to Glenn Lazard, Chairman.
