Independent Auditor's Report

The Honorable Mayor Eileen Bates-McCarroll and Members of the Town Council Town of Albany, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Albany, Louisiana as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town of Albany, Louisiana's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, and each major fund of the Town of Albany, Louisiana as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 5 - 11 and 45 - 48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Albany, Louisiana's basic financial statements. The Combining Schedule of Revenues, Expenses, and Changes in Net Position; the Schedule of Revenues, Expenses, and Changes in Net Position Budget (GAAP Basis) and Actual – Proprietary Fund Type – Water Utility System; the Schedule of Revenues, Expenses, and Changes in Net Position Budget (GAAP Basis) and Actual – Proprietary Fund Type – Water Utility System; the Schedule of Revenues, Expenses, and Changes in Net Position Budget (GAAP Basis) and Actual – Proprietary Fund Type – Sewer Utility System; the Schedule of Water and Sewer Rates; the Schedule of Number of Customers; the Schedule of Insurance; the Schedule of Compensation Paid to Board Members; the Schedule of Compensation, Benefits, and Other Payments to Agency Head; and the Schedule of Justice System Funding – Collecting / Disbursing Entity are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining Schedule of Revenues, Expenses, and Changes in Net Position; the Schedule of Revenues, Expenses, and Changes in Net Position Budget (GAAP Basis) and Actual – Proprietary Fund Type – Water Utility System; the Schedule of Revenues, Expenses, and Changes in Net Position Budget (GAAP Basis) and Actual – Proprietary Fund Type – Sewer Utility System; the Schedule of Water and Sewer Rates; the Schedule of Number of Customers; the Schedule of Insurance; the Schedule of Compensation Paid to Board Members; the Schedule of Compensation, Benefits, and Other Payments to Agency Head; and the Schedule of Justice System Funding – Collecting / Disbursing Entity are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Schedule of Revenues, Expenses, and Changes in Net Position; the Schedule of Revenues, Expenses, and Changes in Net Position; the Schedule of Revenues, Expenses, and Changes in Net Position Budget (GAAP Basis) and Actual – Proprietary Fund Type – Water Utility System; the Schedule of Revenues, Expenses, and Changes in Net Position Budget (GAAP Basis) and Actual – Proprietary Fund Type – Water Utility System; the Schedule of Revenues, Expenses, and Changes in Net Position Budget (GAAP Basis)

and Actual – Proprietary Fund Type – Sewer Utility System; the Schedule of Water and Sewer Rates; the Schedule of Number of Customers; the Schedule of Insurance; the Schedule of Compensation Paid to Board Members; the Schedule of Compensation, Benefits, and Other Payments to Agency Head; and the Schedule of Justice System Funding – Collecting / Disbursing Entity are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2020, on our consideration of the Town of Albany, Louisiana's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Albany, Louisiana's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Albany, Louisiana's internal control over financial reporting and compliance.

Required Supplemental Information (Part I) Management's Discussion and Analysis

Management's Discussion and Analysis As of and for the Year Ended June 30, 2021

Introduction

The Town of Albany (the Town) is pleased to present its Annual Financial Statements developed in compliance with Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - Management's Discussion and Analysis - For State and Local Governments* (GASB 34), as amended. The amendment of GASB 34, including the adoption of GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and applicable standards are more fully described in Footnote 1 – *Summary of Significant Accounting Policies*.

The Town's discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the Town's financial activity, (c) identify changes in the Town's financial position, (d) identify any significant variations from the Town's financial plan, and (e) identify individual fund issues or concerns.

Since Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes, and currently known facts, please read it in conjunction with the Town's financial statements in this report.

Financial Highlights

- At June 30, 2021, the Town's assets exceeded its liabilities by \$7,928,313 (net position). Of this amount \$3,072,257 (unrestricted net position) may be used to meet the Town's ongoing obligations to its citizens.
- For the year ended June 30, 2021, the Town's total net position increased by \$755,943.
- At June 30, 2021, the Town's governmental funds reported a combined ending fund balance of \$325,535, an increase of \$61,213 for the year. Of this amount, approximately 95% or \$308,386 is available for spending at the Town's discretion (unassigned fund balances).
- At June 30, 2021, the Town's proprietary fund reported ending net position of \$5,963,652, an increase of \$546,146 for the year. Of this amount, approximately 46 percent or \$2,754,834 is available for spending at the Town's discretion (unrestricted net position).

Overview of the Annual Financial Report

The financial statement focus is on both the Town as a whole and on the major individual funds. Both perspectives, government-wide and major funds, allow the user to address relevant questions, broaden a basis for comparison, and enhance the Town's accountability. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The MD&A is intended to serve as an introduction to the Town's basic financial statements, which consist of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances in a manner similar to a private-sector business. Governmental activities, which normally are supported by taxes and intergovernmental revenues, and business-type activities, which rely to a significant

Management's Discussion and Analysis As of and for the Year Ended June 30, 2021

extent on fees and charges for support are presented in separate columns along with a total column for the primary government. If the Town determines that presentation of a component unit (which are other governmental units for which the Town can exercise significant influences or for which the Primary Government financial statements would be misleading if component unit information is not presented) is necessary to allow the reader to determine the relationship of the component unit and primary government, the component unit information is presented in a separate column of the financial statements or in a separate footnote. For the current fiscal year, the Town of Albany has no component units.

The Statement of Net Position presents information on the Town's assets and liabilities using the accrual basis of accounting, in a manner similar to the accounting used by private business enterprises. The difference between the assets and liabilities is reported as net position. Over time, the increases or decreases in net position and changes in the components of net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The Statement of Activities presents information showing how the Town's net position changed during the most recent fiscal year, focusing on both the gross and net costs of various activities, both governmental and business-type, that are supported by the Town's general tax and other revenues. This is intended to summarize and simplify the reader's analysis of the cost of various governmental services and / or subsidy to various business-type activities.

In both of the government-wide financial statements, the Town's activities are divided into two types:

Governmental activities – Most of the Town's basic services are reported here, including general government, public safety, streets, and sanitation. These activities are financed primarily by property taxes, franchise taxes, sales taxes, and fines.

Business-type activities – The Town charges a fee to customers to help it cover all of the cost of the services provided. The Town's water and sewer utility systems are reported in this section.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related and legal requirements. The Town uses two categories of funds to account for financial transactions: governmental funds and proprietary funds. Traditional users of governmental financial statements will find the fund financial statements presentation more familiar.

Governmental funds are used to account for most of the Town's basic services. However, unlike the government-wide financial statements, governmental fund financial statements focus on how money flows into and out of those funds and the balances that are left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs.

Management's Discussion and Analysis As of and for the Year Ended June 30, 2021

Proprietary funds account for water and sewer utility services provided by the Town to its customers. Proprietary funds statements provide the same type of information as the government-wide financial statements, but the fund presentation provides more detail.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, there are differences in the information presented for government funds and for governmental activities in the government-wide financial statements. Review of these differences provides the reader of the financial statements insight on the long-term impact of the Town's more immediate decisions on the current use of financial resources. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The following table provides a summary of the Town's net position for the current year as compared to the prior year. For more detailed information, see the Statement of Net Position in this report.

Net Position 2021 and 2020

Approximately 61% of the Town's net position reflects its investment in capital assets (land, buildings, equipment, infrastructure, and improvements) net of any outstanding related debt used to acquire those capital assets. These capital assets are used to provide services to citizens and do not represent resources available for future spending.

Management's Discussion and Analysis As of and for the Year Ended June 30, 2021

Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities.

Approximately .5% of the Town's net position represents resources that are subject to external restriction on how they may be used. The Town's restricted net position consists of cash reserves required by revenue bond agreements and cash for customer deposits net of corresponding liabilities. Approximately 38.5% of the Town's net position are unrestricted and may be used to meet the Town's ongoing obligations to its citizens.

At the end of the current fiscal year, the Town was able to report positive balances in all three categories of net position, both for the Town as a whole, as well as for separate governmental and business-type activities. The same held true for the prior fiscal year.

The Town's activities increased its total net position by \$755,943 with governmental activities increasing net position by \$209,797 and business-type activities increasing net position by \$546,146.

In order to further understand what makes up the changes in net position, the following table provides a summary of the results of the Town's activities for the current year as compared to the prior year. An analysis of the primary sources of these changes follows the table. For more detailed information, see the Statement of Activities in this report.

Changes in Net Position For the years ended June 30, 2021 and 2020

Governmental Activities

The Town's governmental net position increased by \$209,797 to \$1,964,661. Capital grants and contributions were \$120,000 to help pay for a new generator for the Town Hall. The Town operating grants and contributions

Management's Discussion and Analysis As of and for the Year Ended June 30, 2021

increased by \$110,283 mostly due to receiving \$83,646 from the Cares Act. General revenues increased by \$73,282 due to \$50,000 from the Act 45 Miscellaneous State Aid.

Business-Type Activities

The Town's business-type net position increased by \$546,146 to \$5,963,652. The increase is approximately a 10 percent gain of ending net position. In comparison, the previous fiscal year had a 20 percent gain of ending net position.

Fund Financial Analysis

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the year.

At the end of the current year, the Town's governmental funds reported combined ending fund balances of \$325,535. Of the total balance, \$308,386 is unassigned and available for spending at the Town's discretion and \$8,112 is restricted for the J&N Park. This represents an increase of \$61,213, or approximately 23% of the prior year's ending fund balances.

The general fund is the chief operating fund of the Town.

Proprietary Funds

The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

General Fund Budgetary Highlights

Significant variations between original and final budget amounts are as follows:

- The Town increased its original budget for Sales and Use Taxes by \$30,900 due to increased sales taxes throughout the year.
- The Town decreased its capital outlay budget for general and administration by \$165,108 which was to purchase a new generator. The Town received a grant to pay for 75% of the generator.

Significant variations from the general fund's final budget amounts and actual amounts are as follows:

• The Town budgeted \$53,000 for taxes on insurance premiums. The actual amounts was \$11,578 more than budgeted.

Management's Discussion and Analysis As of and for the Year Ended June 30, 2021

Capital Assets and Debt Administration

Capital Assets

The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2021 amounts to \$4,821,251 (net of depreciation). The total increase in the Town's investment in capital assets for the current fiscal year was \$92,628 (net of depreciation).

Major capital asset events during the current year included the purchase of a new generator for \$160,000 which was funded by a capital grant of \$120,000. The Town also purchased two police vehicles for \$86,765.

Utility fund additions include meter changeouts of \$169,415 spent for the June 30, 2021 fiscal year.

The following table provides a summary of the Town's capital assets (net of depreciation) at the end of the current year as compared to the prior year. For more detailed information, see Note 9 to the financial statements in this report.

Management's Discussion and Analysis As of and for the Year Ended June 30, 2021

Long-Term Debt

At June 30, 2021, the Town had total debt outstanding of \$4,041,215. Of this total, \$150,000 is due within one year and \$3,891,215 is due within greater than one year. The following table provides a summary of the Town's outstanding debt at the end of the current year as compared to the prior year. For more detailed information, see Note 13 to the financial statements in this report.

Other Factors Affecting the Town

The Town of Albany's management approach is conservative. When possible, the Mayor and Council attempt to provide services for the Town based on existing revenues and to finance long-term projects only when absolutely necessary.

Contacting the Town's Financial Management

This financial report is designed to provide the Town's citizens, taxpayers, creditors, and investors with a general overview of the Town's finances and show the Town's accountability for the money it receives. Questions regarding this report or requests for additional information should be addressed to the Town of Albany, Post Office Box 1000, Albany, Louisiana 70711, telephone (225) 567-1101.

Town of Albany, Louisiana	Statement F
Reconciliation of the Statement Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2021	
Net Change in Fund Balances, Total Governmental Funds, Statement E	\$ 61,213
Amounts reported for governmental activities in the Statement of Activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However in the statement of activities, the cost of these assets is allocated over their estimated useful lives as depreciation expense. These differences consist of:	
Capital Outlay	272,598
Depreciation Expense	(98,191)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:	
Change in Uncollected Grant Receivable	(25,823)
Repayment of capital lease principal is an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	-
Change in Net Position of Governmental Activities, Statement B	\$ 209,797

Basic Financial Statements Notes to the Financial Statements

Introduction

The Town of Albany, Louisiana (formerly the Village of Albany) was incorporated October 7, 1953, under provision of the Lawrason Act (LSA-RS33:321). The Town operates under a Mayor / Board of Aldermen form of government. The Mayor and each of five councilmen are elected at large for four-year terms. The Mayor and Council are compensated each month; in addition, the Mayor receives a salary. The Town is located approximately 30 miles east of Baton Rouge, Louisiana, on LA Highway 43 (Montpelier Avenue) south of Interstate 12, with U.S. Highway 190 intersecting the northern part of the Town. The Town's total population was 1,088, as reported by the U.S. Census Bureau, Census 2010. The Town provides police protection, services to maintain and develop streets, drainage, and sanitation, general and administrative services, and utilities services for area residents. The Town provides services to 2,350 water customers and 522 sewer customers inside and outside of the Town limits. The Town employs fourteen full-time and one part-time employees in addition to the Mayor and Council.

1. Summary of Significant Accounting Policies

A. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of position and the statement of activities) report information on all non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

Governmental Accounting Standards Board (GASB) Statement No. 61 established criteria for determining the reporting entity and component units that should be included within the reporting entity. Under provision of this statement, the Town of Albany is considered a primary government, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments. As used in GASB Statement No. 61, fiscally independent means that the Town may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. Since the Town of Albany has no component units, these financial statement include only information on the primary government.

GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, effective for financial statement periods ending after December 15, 2012, provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. Concepts Statement No. 4, Elements of Financial Statements, introduced and defined Deferred Outflows of Resources as a consumption of net assets by the government that is applicable to a future reporting period, and *Deferred Inflows of Resources* as an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. GASB Concepts Statement 4 identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - or State and Local Governments, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. The definition and reporting of net position is further described in Footnote K – Net Position and Fund Balance. As required by GASB, the Town implemented GASB Statement No. 63 during the year ending June 30, 2013. The Town did not record any deferred outflows of resources or deferred inflows of resources at June 30, 2021.

The Town has also adopted GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The application of this standard to long-term debt offerings of the Town is more fully described in *Footnote* J - Long-Term Debt Offerings.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are presented as separate columns in the fund financial statements.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessment receivable, if any, due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Town reports the following major proprietary fund:

The *Enterprise Fund* accounts for operations (a) that are financed and operated in a manner similar to private business enterprise where the intent of the governing body is that costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user fees, or (b) where the governing body has decided that periodic

determination of revenues earned, expenses incurred, and / or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule, if applicable, are payments-in-lieu of taxes and other charges between the government's enterprise operations. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are user charges for the services provided by the enterprise funds. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

When restricted, committed, assigned, or unassigned fund balances are available for use, the Town considers amounts to have been spent first out of restricted funds, committed funds, then assigned funds, and finally unassigned funds as needed, unless the Town has provided otherwise in commitment or assignment actions.

C. Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, time deposits, and shortterm investments with original maturities of three months or less from the date of acquisition. State law and the Town's investment policy allow the Town to invest in collateralized certificates of deposit, government-backed securities, commercial paper, the state-sponsored investment pool, and mutual funds consisting solely of government-backed securities.

Investments for the Town are reported at fair market value. The state investment pool, LAMP, operates in accordance with state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

D. Receivables and Payables

Activity between funds that are representative of lending / borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to / from other funds" (i.e., the current portion of interfund loans) or "advances to / from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to / from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectible amounts.

Property taxes are levied on a calendar year basis and become due on January 1 of each year. The following is a summary of authorized and levied ad valorem taxes:

	Authorized	Levied	Expiration
	Millage	Millage	Date
General Corporate Purposes	7.04 mills	7.04 mills	None

Sales and use taxes are levied at one percent for perpetuity. The proceeds of these sales and use taxes are dedicated to general corporate purposes.

E. Unearned Revenues

The Town reports unearned revenue on its government-wide and fund financial statements. Unearned revenues arise when potential revenue does not meet both "measurable" and "available" criteria for recognition in the current period (fund financial statements). Unearned revenues also arise when resources are unearned by the Town and received before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures (fund financial statements and government-wide financial statements). In subsequent periods, when both revenue recognition criteria are met, or when the Town has a legal claim to the resources, the liability for unearned revenue is removed from the applicable financial statement and revenue is recognized.

F. Inventories and Prepaid Items

All inventories are valued at cost using the first-in / first-out method. Inventories of the governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

G. Restricted Assets

Certain proceeds of the enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets because their use is limited by applicable bond covenants.

H. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The Town maintains a threshold level of \$500 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Effective for the fiscal year 2021, the Town no longer capitalizes interest during the construction period on a prospective basis as per GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

Description	Estimated Lives
Buildings & Improvements	5 - 40 Years
Vehicles and Equipment	5 - 15 Years
Infrastructure	20 - 40 Years
Water System	5 - 40 Years
Sewer System	10 - 40 Years

I. Compensated Absences

The Town has the following policy related to vacation and sick leave:

	Years of Service				
	.5 - 2	2 - 10	10-20	Over 20	
Vacation Leave - Days Earned per Year	5	10	15	20	

The Town employees may carry over 40 hours annually until the employee's next anniversary date. The Mayor may approve additional carry over if job related circumstances prohibit an employee from using vacation leave. Unused vacation leave will be paid out upon termination.

Each employee earns sick leave for each month worked based on years of service. Sick leave is accumulated for a maximum of one thousand four hundred forty hours. Unused sick leave benefits will not be paid to employees while they are employed or upon termination of employment.

The cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as a current year expenditure in the governmental fund when leave is taken.

In accordance with GASB 16, Accounting for Compensated Absences, no liability has been accrued for unused employee sick leave.

J. Long-Term Debt Offerings

In the government-wide financial statements and the proprietary fund types in the fund financial statements, longterm debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs, whether or not withheld from the actual debt proceeds received, are now expended in the period incurred under GASB 65.

The Town has implemented GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, and with the implementation of GASB 65, the recognition of bond-related costs, including the costs related to issuance and refunding of debt, are revised. This standard was intended to complement GASB Statement No. 63 *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. Bond issuance

costs, whether or not withheld from the actual debt proceeds received, are now expended in the period incurred under GASB 65. The Town had \$140,599 bond related costs in the year ending June 30, 2021.

GASB Statement 23, as amended, establishes accounting and financial reporting for current refundings and advance refundings resulting in defeasance of debt. Refundings involve the issuance of new debt whose proceeds are used to repay previously issued ("old") debt. The new debt proceeds may be used to repay the old debt immediately (a current refunding); or the new debt proceeds may be placed with an escrow agent and invested until they are used to pay principal and interest on the old debt at a future time (an advance refunding).

For current refundings and advance refundings resulting in defeasance of debt reported by governmental activities, business-type activities, and proprietary funds, the difference between the reacquisition price and the net carrying amount of the old debt should be reported as a deferred outflow of resources or a deferred inflow of resources and recognized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or the life of the new debt, whichever is shorter.

In the fund financial statements, governmental fund types recognize bond premiums and discounts as well as bond issuance costs during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

K. Net Position and Fund Balance

GASB Statement No. 34, *Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments*, required reclassification of net assets into three separate components. GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, revised the terminology by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. GASB Statement No. 63 requires the following components of net position:

- Net Investment in Capital Assets Component of Net Position The *net investment in capital assets* component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at the end of the reporting period, the portion of the debt or deferred inflows of resources attributable to the unspent amount should not be included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflows of resources should be included in the same net position component (restricted or unrestricted) as the unspent amount.
- **Restricted Component of Net Position** The *restricted* component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported.
- Unrestricted Component of Net Position The *unrestricted* component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

In the fund statements, governmental fund equity is classified as fund balance. The Town adopted GASB 54 for the year ended June 30, 2011. As such, fund balances of governmental funds are classified as follows:

- Nonspendable. These are amounts that cannot be spent either, because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.
- **Restricted**. These are amounts that can be spent only for specific purposes, because of constitutional provisions, enabling legislation or constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- **Committed**. These are amounts that can be used only for specific purposes determined by a formal vote of the Board, which is the highest level of decision making authority for the Town.
- Assigned. These are amounts that do not meet the criteria to be classified as restricted or committed, but are intended to be used for specific purposes based on the discretion of the Board.
- **Unassigned**. These are all other spendable amounts. This also includes expenditure amounts incurred for specific purposes which exceed the amounts restricted, committed, or assigned to those purposes.

L. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events within the control of the Town, which are either unusual in nature or infrequent in occurrence.

M. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

N. Reconciliations of Government-Wide and Fund Financial Statements

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position is presented in Statement D of the basic financial statements. Explanation of certain differences between the governmental fund statement of revenues, expenses, and changes in fund balances and the government-wide statement of activities is presented in Statement F of the basic financial statements.

2. Stewardship, Compliance and Accountability

The Town uses the following budget practices:

- 1. The Town Clerk prepares a proposed budget and submits it to the Mayor and Board of Aldermen no later than fifteen days prior to the beginning of each fiscal year.
- 2. A summary of the proposed budget is published and the public notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.

- 3. A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing.
- 4. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is adopted through passage of an ordinance prior to the commencement of the fiscal year for which the budget is being adopted.
- 5. Budgetary amendments involving the transfer of funds from one department, program, or function to another or involving the increase in expenditures resulting from revenues exceeding amounts estimated require the approval of the Town Council.
- 6. All budgetary appropriations lapse at the end of each fiscal year.
- 7. Budgets for the general and enterprise funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgets for enterprise funds are presented on the accrual basis of accounting. Other governmental funds are presented on the modified accrual basis of accounting. Accordingly, the budgetary comparison schedules present actual expenditures in accordance with the accounting principles generally accepted in the United States on a basis consistent with the legally adopted budgets as amended. All budgetary amounts presented reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budget during the year).

For the year ended June 30, 2021, actual revenues and other sources exceeded budgeted revenues and other sources. The Town's actual expenditures were less than budgeted expenditures and other uses.

3. Cash and Cash Equivalents

At June 30, 2021, the Town has cash and cash equivalents (book balances) as follows:

	June 30, 2021				
Cash on Hand	\$	25			
Non-Interest Bearing Demand Deposits		63,063			
Interest Bearing Demand Deposits		742,240			
Louisiana Asset Management Pool (LAMP)	_	1,981,027			
	\$	2,786,355			

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Custodial credit risk as it relates to cash deposits is the risk that in the event of a bank failure, the government's deposits may not be returned. The Town does not have a formal policy for custodial risk. At June 30, 2021, the Town has \$2,786,355 in deposits. Collected bank balances, other than LAMP, consisted of \$784,155 in demand deposits. The demand deposits are secured by \$313,064 of federal deposit insurance. The remaining \$471,091 of deposits are exposed to custodial credit risk because while the amount is secured by pledged securities, such securities are held by the custodial bank in the name of the fiscal agent bank (GASB Category 3).

Even though the pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Town that the fiscal agent has failed to pay deposited funds upon demand.

LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The Town records its LAMP deposits within cash and cash equivalents.

The Town, at June 30, 2021, also recorded deposits related to its debt service fund. The deposits totaled \$40,418 which are for the Series 2020 Water & Sewer Refunding Bonds. Under the terms of the agreement, the bank maintains control of the funds and disburses at the Town's request. All funds are fully collateralized by the Trust Department of the respective bank.

4. Investments

Investments are categorized into these three categories of credit risk:

- 1. Insured or registered, or securities held by the Town or its agent in the Town's name
- 2. Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the Town's name
- 3. Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in the Town's name

In accordance with GASB Codification Section I50.165, the investment in LAMP at June 30, 2021, is not categorized in the three risk categories provided by GASB Codification Section I50.164 because the investment is in the pool of funds and therefore not evidenced by securities that exist in physical or book entry form. The investment in LAMP is stated at the value of the pool shares, which is the same as the fair value, and has been categorized as cash equivalents. LAMP is administered by LAMP, Inc., a nonprofit corporation organized under the laws of the State of Louisiana, which was formed by an initiative of the State Treasurer in 1993. The corporation is governed by a board of directors comprised of the State Treasurer, representatives from various organizations of local government, the Government Finance Office Association of Louisiana, and the Society of Louisiana CPAs. Only local governments having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high-quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA – R.S. 33:2955.

LAMP is subject to the regulator oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

While LAMP is not required to be a registered investment company under the Investment Company Act of 1940, its investment policies are similar to those established by Rule 2a7, which governs registered money market funds. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LSA-R.S. 33:2955.

GASB Statement No. 40, *Deposit and Investment Risk Disclosure*, requires disclosure of credit risk, custodial credit risk, concentration of credit risk, interest risk, and foreign currency risk for all public entity investments.

LAMP is an investment pool that, to the extent practical, invest in a manner consistent with GASB Statement No. 70. The following facts are relevant for investment pools:

- 1. Credit risk: LAMP is rated AAAm by Standard and Poor's
- 2. Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.
- 3. Concentration of credit risk: Pooled investments are excluded from the five percent disclosure requirement.
- 4. Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating / variable rate investments. The WAM for LAMP's total investments, as provided by LAMP, is 53 days as of June 30, 2021.
- 5. Foreign currency risk: Not applicable.

LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the net asset value of the pool shares.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with SEC as an investment company. LAMP, Inc. issues an annual publicly available financial report that includes financial statements and required supplementary information for LAMP, Inc. That report may be obtained by calling (800) 249-5267.

Interest Rate Risk: The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value arising from increasing interest rates.

5. Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts are based upon historical trends and the period aging and write-off of accounts receivable. Major receivables balances for the governmental activities include sales taxes, franchise taxes, occupational licenses, and fines. Business-type activities report utilities earnings as their major receivable.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as sales tax, franchise taxes, occupational licenses, fines, and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions, collectible but not available, are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Interest and investment earnings are recorded only if paid within 60 days since they would be considered both measurable and available. Proprietary fund revenues consist of all revenues earned at year-end and not yet received. Utility accounts receivable comprise the majority of proprietary fund receivables. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging and write-off of accounts receivable.

The Governmental Fund receivables at June 30, 2021 consist of the following:

	General	
Government Receivables	 Fund	 Total
Taxes:		
Public Utility Franchise	\$ 14,717	\$ 14,717
Insurance Premium Tax	22,331	22,331
Sales and Use	89,517	89,517
Intergovernmental:		
State of Louisiana, Beer Tax	1,246	1,246
Other Receivable	 76	 76
Total Government Receivables	\$ 127,887	\$ 127,887

The Enterprise Fund accounts receivable at June 30, 2021 consist of the following:

Accounts Receivable	 Year Ended June 30, 2021	
Current	\$ 132,544	
31 - 60 Days	(2,446)	
61 - 90 Days	1,743	
Over 90 Days	 45,900	
Subtotal	177,741	
Less Allowance for Bad Debt	 (20,000)	
Accounts Receivables, Net	 157,741	
Accrued Billings	62,601	
NSF Receivable	 703	
Total Accounts Receivable	\$ 221,045	

The Town currently has \$336,423 in Grants Receivable. The Town is expected to receive from FEMA \$126,272 for the repairs to the sewer pond completed in 2020, and \$89,100 for rental expense of the temporary town hall after the flood in 2016.

The Town is also constructing a lift station and sewer pipeline. The Town has a receivable of \$121,051 from the U.S. Department of Commerce Economic Development Administration for engineering fees as of June 30, 2021.

6. Interfund Receivables / Payables

Interfund receivables or payables in the fund financial statements were as follows as of June 30, 2021.

		Due From Other Funds	Due To Other Funds
General Fund	\$	28,705	\$ -
Enterprise Fund	_	-	28,705
	\$	28,705	\$ 28,705

These interfund balances were related to operating expenses for the enterprise fund paid out of the general fund. The Enterprise Fund has paid the balance owed to the General Fund.

7. Interfund Transfers

Transfer to and from other funds are as follows for the fiscal year:

	Tran	sfers In	T	ransfers Out
General Fund	\$	-	\$	120,000
Enterprise Fund		120,000		
	\$	120,000	\$	120,000

In previous years, the Enterprise Fund made transfers to the General Fund to help pay for the new Town Hall. During the fiscal year, the General Fund received reimbursement from FEMA and transferred \$120,000 to the enterprise fund.

8. Restricted Assets

Restricted assets for the Enterprise Fund at June 30, 2021 were as follows:

	June 30 2021
Restricted Cash and Cash Equivalents	
Customer Deposits	\$ 129,023
Debt Service Fund	40,417
Debt Service Reserve	 2
Total Restricted Assets	\$ 169,442

Cash equal to customer deposits is restricted for repayment of such deposits.

9. Capital Assets

Construction in progress consists of \$173,977 for engineering and attorney fees to construct a lift station and sewer pipeline. Expected completion is expected by December 2021. The Town will receive \$845,000 from the U.S Department of Commerce Economic Development Administration to be used for the construction of the lift station and sewer pipeline. Weyerhaeuser NR Company will be funding \$270,000, which will cover phase I and part of phase II of the project. The Town has received \$180,000 from Weyerhaeuser as of June 30, 2021. Since phase I did not begin until July 2021, the Town recorded the \$180,000 received as an unearned revenue liability in the financial statements.

10. Accounts, Salaries, and Other Payables

Short term payables at June 30, 2021 are as follows:

				Enterprise Fund	Total
Accounts	\$	63,606	\$	24,571	\$ 88,177
Accrued Interest		-		15,409	15,409
Accrued Payroll Taxes		3,474		-	3,474
Other Accrued Payables		-		2,308	2,308

Accrued Salaries		7,785		4,534	 12,319
Total	\$_	84,379	\$	55,384	\$ 139,763

11. Operating Leases

The Town has entered into an operating lease rental agreement for police radars in April 2020. The lease is for 36 months of \$277 paid monthly. The total amount of the lease paid for the fiscal year June 30, 2021 is \$3,324. The expected payments on the lease are as follows:

Year Ending		
June 30,	_	Amount
2022	\$	3,324
2023		3,047
	\$	6,371

12. Capital Leases

The Town entered into a capital lease purchase agreement on August 21, 2018 with Ford Motor Credit Company for a 2018 Ford F-150 for \$31,188. The lease is for 36 months with a 6.65% interest rate. The Town made its final payment on May 10, 2021.

13. Long-Term Obligations

The following is a summary of long-term obligation transactions for the year ended June 30, 2021:

Description		Beginning Balance		Additions	 Deletions	 Ending Balance
Water Revenue Bonds 91-02	\$	230,756	\$	-	\$ (230,756)	\$ -

Total Long-Term Debt	\$_	4,027,832	\$	4,120,346	\$ (4,106,963)	\$ 4,041,215

Bonds Payable as of June 30, 2021 are as follows:

	Bonds	Payable End of Year	Due	e Within One Year
Water and Sewer Revenue Refunding Bonds \$4,165,000				
Series 2020 Refunding bonds sold to private lender, Dated 11/14/2020				
due in semi- annual installments of principal and interest averaging \$191,190				
through 05/01/2050 interest at ranges from 2.00 to 2.64%	\$	4,085,000	\$	150,000
	\$	4,085,000	\$	150,000

On November 24, 2020 the Town issued Water and Sewer Revenue Refunding Bonds, Series 2020 in the amount of \$4,165,000. The Series 2020 bonds were issued for the purposes of currently refunding the Town's (a) \$575,000 Water Revenue Bonds, Series 1988; (b) \$455,000 Sewer Revenue Bonds, Series 1993; (c) \$191,000 Water Revenue Bond, Series 2006; and (d) \$3,706,000 Water Revenue Bonds, Series 2010. The Series 2020 Refunding Bonds were used to repay the old debt immediately (a current refunding). The Series 2020 refunding bonds were issued at a discount of \$44,653. Bond issuance costs are recorded at \$140,599.

The annual requirements to amortize all bonded debt outstanding at June 30, 2021, including interest payments of \$1,459,519 are as follows:

	W	ater and Sewer		
Year Ending	Re	funding Bonds		
June 30	\$	4,165,000		Total
2022	\$	242,456	\$\$	242,456

2047 to 2050		645,163		645,163
	\$	5,544,519	\$\$	5,544,519

The following shows the net present value benefits and cash savings for the Water and Sewer Refunding Bonds, Series 2020:

PV Analysis Summary (Gross to Gross)

Gross PV Debt Service Savings	\$ 756,181
Release of Reserve Funds	599,747
Transfer from Funds on Deposit	(640,318)
Net Present Value Benefit	\$ 715,610
Net PV Benefit/ \$3,977,470 Refunded Principal	17.992%

14. Flow of Funds, Restrictions on Use – Utilities Revenues

The Issuer covenants to fix, establish, maintain and collect, so long as any principal and interest is unpaid on the Bonds, such rates, fees, rents or other charges for the services and facilities of the Combined Utility Enterprise System, and all parts thereof, and to revise the same from time to time whenever necessary, as will always provide Combined Utility Enterprise Fund Net Revenues in each Fiscal Year sufficient to (i) make payments and deposits required by this Bond Ordinance for the payment of the principal and interest on the Bonds and any Additional Parity Obligations issued hereafter; (ii) equal one hundred twenty percent (120%) of the required deposits to the debt service funds established for the security and payment of the Bonds and any Additional Parity Obligations; (iii) make all other payments required by this Bond Ordinance; and (iv) pay all other obligations or indebtedness payable out of the Combined Utility Enterprise Fund Net Revenues for such Fiscal Year. The Issuer further covenants that such rates, fees, rents, or other charges shall not at any time be reduced so as to be insufficient to provide adequate revenues for such purposes.

There is hereby established to be maintained with the Paying Agent, a separately identifiable fund or account, designated the "Series 2020 Water and Sewer Revenue Refunding Bond Debt Service Fund" (the "Debt Service Fund"). On or before the twentieth (20th) day of each month, or, if such day is not a Business Day, the next succeeding Business Day, commencing on December 20, 2020, the Issuer shall transfer or cause to be transferred to the Debt Service Fund, one-fifth (1/5) of the amount required to pay principal and interest payable on the Bonds on May 1, 2021 and commencing May 20, 2021, the Issuer shall transfer or cause to be transferred to the Debt Service Fund one-sixth (1/6) of the amount required to pay interest payable on the Bonds on the next Interest Payment Date and one-twelfth (1/12) of the amount required to pay principal payable on the Bonds on the next Principal Payment Date.

In lieu of funding a Debt Service Reserve Fund, the Town has purchased a Reserve Fund Alternate Investment in the form of a Municipal Debt Service Reserve Insurance Policy issued by the Bond Issuer.

15. Pension Plans

The Town of Albany participates in a Simple IRA Retirement Plan administered by Edward Jones. The plan covers employees who are reasonably expected to earn five thousand dollars in compensation for the calendar year. The Town will contribute a matching contribution of three percent for each employee's annual income. Retirement expense for the year ended June 30, 2021 was \$5,658.

16. Restricted, Committed, and Assigned Fund Balances/ Restricted Net Position

At June 30, 2021, the proprietary fund had restricted net position of \$26,693, representing the Town's funds restricted by revenue bond debt covenants and contracts with customers for meter deposits, net of the related liability.

17. Risk Management

The Town is exposed to various risks of loss related to theft, damage, or destruction of assets, torts, injuries, natural disasters, and many other unforeseeable events. The Town purchases commercial insurance policies and bonds for claims related to the aforementioned risks. The Town's payment of the insurance policy deductible is the only liability associated with these policies and bonds. There has been no significant decrease in insurance coverage from the prior year, and the amount of settlements has not exceeded the insurance coverage for the past three fiscal years.

18. Contingent Liabilities

At June 30, 2021, the Town was not involved in any outstanding litigation or claims requiring adjustment or disclosure.

19. On-Behalf Payments for Fringe Benefits and Salaries

For the fiscal year ended June 30, 2021, the State of Louisiana made on behalf payments in the form of supplemental pay to the Town's policemen. In accordance with GASB 24, the Town recorded \$27,050 of on-behalf payments as revenue and as an expenditure in the General Fund.

20. Prior Period Adjustments

At June 30, 2021, the Town had prior period adjustments related to the recording of grants receivable. The Town is due reimbursement from FEMA of \$181,461 for repairs to the sewer pond completed in June 2020 and for rental expense for the temporary town hall used after the flood of 2016.

The Town also has a prior period adjustment of \$58,160 for a grant receivable from the U.S Department of Commerce Economic Development Administration. The grant is for engineering fees for the new sewer wastewater project.

Business Type Activities	 2021
Net Position, Beginning	\$ 5,177,885
Grant Receivable for Fema - Sewer Pond	92,361
Grant Receivable for Fema - Rent Reimbursement	89,100
Grant Receivable from EDA - Liftstation	58,160
Total Adjusted Net Position, Beginning	\$ 5,417,506

21. Subsequent Events

Subsequent events have been evaluated by management through December 13, 2021, the date the financial statements were available for issuance. The following events were noted that require recording or disclosure in the financial statements for the fiscal year ending June 30, 2021.

On August 23, 2021, the Town received a payment of \$214,329.45 representing the first of two payments as a result of the American Rescue Plan Act of 2021.

On August 29, 2021, Hurricane Ida hit south Louisiana. The Town paid out approximately \$150,000 for emergency call out pay, generator rental, and repairs to water well pumps. The Town is expecting to be reimbursed for these costs from FEMA.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable Mayor Eileen Bates-McCarroll and Members of the Town Council Town of Albany, Louisiana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund, of the Town of Albany as of and for the year ended June 30, 2021 and the related notes to the financial statements, which collectively comprise the Town of Albany's basic financial statements, and have issued our report thereon dated December 13, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Albany's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Albany's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Albany's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Albany's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and

accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
