INDEPENDENT AUDITOR’S REPORT

To the Honorable David Toups, Mayor
and the Council Members
Town of Addis
Addis, Louisiana

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Addis, Louisiana, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the Town of Addis, Louisiana’s basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town of Addis, Louisiana, as of December 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Addis, Louisiana and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Addis, Louisiana's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Addis, Louisiana's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Addis, Louisiana's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 5 through 13 budgetary comparison information on page 54, the schedule of employer's proportionate share of the net pension contributions on page 56, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Addis, Louisiana's basic financial statements. The Schedule of Compensation, Benefits and other Payments to Agency Head, Schedule of Compensation Paid to Town Council, and the Justice System Funding Schedules, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2022, on our consideration of the Town of Addis, Louisiana's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Addis, Louisiana's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Addis, Louisiana's internal control over financial reporting and compliance.

Town Of Addis, Louisiana

Management's Discussion and Analysis (Unaudited)

We offer the readers of the financial statements of the Town of Addis, Louisiana, this narrative overview and analysis of the financial activities of the Town of Addis (hereafter referred to as the "Town") for the fiscal year ended December 31, 2021.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2021 fiscal year include the following:

- The Town's assets exceeded its liabilities at the close of the fiscal year by \$32,931,729 (net position). Of this amount, \$6,315,299 (unrestricted net position) may be used to meet the government's obligations to citizens and creditors.
- The Town's total net position increased by \$4,009,332 for the year ended December 31, 2021. Net position of governmental activities increased by \$3,294,553, and net position of business-type activities increased by \$714,779.
- As of the close of the current fiscal year, the Town's governmental fund reported an ending fund balance of \$5,289,887, an increase of \$1,115,686 in comparison with the prior fiscal year. Of this amount, \$203,036 is restricted in use.
- At the end of the current fiscal year, unreserved, undesignated fund balance for the General Fund was \$5,086,851 or 132.1% of total General Fund expenditures.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business, and are reported in two government-wide financial statements:

- The **Statement of Net Position** presents information on all of the Town's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

Town Of Addis, Louisiana

Management's Discussion and Analysis (Unaudited), Continued

- The **Statement of Activities** presents information showing how the Town's net position changed during the most recent fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the Town's distinct activities or functions on revenues provided by the Town's taxpayers.

The Town's government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The Town's governmental activities include general government, public safety, streets and roads. The business-type activities of the Town include sanitary sewer facilities.

Fund Financial Statements:

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related laws and regulations. The Town's funds are classified into two categories: governmental funds and proprietary funds.

- ***Governmental Funds:*** These funds are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. The focus is very different with fund statements providing a distinctive view of the Town's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

The focus of governmental funds is narrower than that of the government-wide financial statements; therefore, a comparison should be made between the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. This will present a better understanding of the long-term impact of the government's near-term financing decisions.

The Town maintains a General governmental fund which covers the operations of the Town, including police protection services for citizens, maintenance of streets and roads, and the general administrative office.

The Town adopts an annual appropriated budget for its General fund. A budgetary comparison statement has been provided for the General fund to demonstrate compliance with this budget.

Management's Discussion and Analysis (Unaudited), Continued

- **Proprietary funds:** The Town maintains one type of proprietary fund—*Enterprise*. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses an enterprise fund to account for its sanitary sewer facilities activities.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

Notes to the Financial Statements

The notes to the financial statements included in this report provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets exceed liabilities by \$32,931,729 at December 31, 2021.

A large portion of the Town's net position (80 percent) reflects its investment in capital assets (e.g., land, buildings, furniture and fixtures, machinery, vehicles and equipment), less any related debt used to acquire those assets that are still outstanding. The Town used these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities.

A condensed version of the Town's Net Position is presented as follows:

| | Government Activities | | Business-type Activities | | Total | |

Management's Discussion and Analysis (Unaudited), Continued

GOVERNMENTAL FUND FINANCIAL ANALYSIS

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the year.

As a measure of the Town's liquidity, it may be useful to compare fund balance to total expenditures. Unreserved and unassigned fund balance represents 132.1% of total fund expenditures.

During the current year, the fund balance of the Town's general fund increased by \$1,115,686.

Proprietary Funds. The Town's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail. As noted above, the Town maintains one enterprise fund for its sanitary sewer facilities activities. For the fiscal year ended December 31, 2021, this fund reported net position of \$9,556,042, which is a net increase from the prior year of \$714,779.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Town received \$783,657 less than its budgeted revenues. Total expenditures were less than the final amended budget by \$1,516,637 resulting in a \$3,231,376 favorable variance.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets: The Town's investment in capital assets for its governmental and business type activities as of December 31, 2021 amounts to \$29,575,623 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, and wastewater treatment plant.

Major capital asset events during the current fiscal year included the following:

- \$96,602 was spent to purchase land
- \$140,577 was spent for machinery & equipment for the town
- \$47,316 was spent on purchase of a police vehicle
- \$476,260 was spent to overlay streets
- \$2,454,745 was received as a contribution for portion of roads transfer
- \$168,210 was spent on wastewater treatment plant improvements
- \$300,000 was received as a contribution of sewer pumps
- \$450,362 was spent on construction in progress for improvements to the sewer system

Long-term Debt:

The Department of Environmental Quality (DEQ) project to upgrade the wastewater treatment plant began in 2010 and is financed by issuance of \$1,569,060 Sewer Revenue Bonds Series 2010. The bonds were purchased by the Clean Water State Revolving Fund (CFDA 66.458) administered by the Louisiana Department of Environmental Quality. All projects were completed during 2012 and the Town had received loan proceeds in the amount of \$1,569,060. As of December 31, 2021, the outstanding loan balance was \$743,000. During 2017, another loan was approved for up to \$3,000,000 in improvements to the sewer system. The Town received \$251,726 during 2021. The project was completed during 2021 and the Town received loan proceeds in the amount of \$3,000,000. As of December 31, 2021, the outstanding loan balance was \$2,649,000. The total outstanding on the two loans was \$3,392,000 as of December 31, 2021.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Generally, the outlook for 2022 is very favorable for projected revenues. 2022 revenues have exceeded projections so far, and with several industrial expansions and growth in population, the adjustment to sales tax revenues should be favorable to trend upwards. Health insurance premiums were budgeted for a 15% increase, but will only increase by 10% effective May 1, 2022, and employees were given a 4% raise, which was also budgeted. The Town's contribution to the Louisiana Municipal Police Employee Retirement program will increase from 29.75% to 31.25%, effective July 1, 2022. The Town also budgeted \$1,000,000 in capital outlays for the town hall building renovations, and \$500,000 to be used for road improvement projects in 2022, \$250,000 drainage improvement projects, \$225,000 in public works equipment purchases, and \$250,000 in police department equipment purchases due to additions to the Police Department.

The Sewer Fund capital outlay budget includes funding for the purchase of new equipment and upgrades to existing sewer infrastructure, more projects and increases to the budget may happen as projects are approved to use the Coronavirus State and Local Fiscal Recovery Funds. Health insurance premiums were

TOWN OF ADDIS, LOUISIANA

Notes to Financial Statements

December 31, 2021

1. Introduction

The Town of Addis was incorporated September 1915, under the provisions of Title 33, Chapter 2, Part I, of the Louisiana Revised Statutes (Lawrason Act - Act No. 36 of 1898). The "Town" operates under a Mayor - Council form of government and provides the following services as authorized by its charter: public safety (police), highways and streets, sanitation, health and social services, culture-recreation, public improvements, planning and zoning and general administrative services.

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, issued in June 1999. The more significant accounting policies established in GAAP and used by the Town are discussed below.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity. The financial reporting entity consists of (a) the primary government (Town of Addis) (b) organizations for which the primary government is financially accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. GASB Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement 61, *The Financial Reporting Entity: Omnibus* established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement the basic criteria are as follows:

- Legal status of the potential component unit including the right to incur its own debt, levy its own taxes and charges, expropriate property in its own name, sue and be sued, and the right to buy, sell and lease property in its own name.
- Whether the Town governing authority appoints a majority of board members of the potential component unit (or serves as board members of potential component unit as required by law) and whether operational responsibility for the potential component unit rests with the management of the primary government.
- Fiscal interdependency between the Town and potential component unit.
- Imposition of will by the Town on the potential component unit.
- Financial benefit/burden relationship between the Town and the potential component unit.

Based on the above criteria, the Town has no component units.

BASIC FINANCIAL STATEMENTS -- GOVERNMENT-WIDE STATEMENTS

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Town's police, public works, and general administrative services are classified as governmental activities. The Town's sewer services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position is reported in three parts: net investment in capital assets; restricted net position; and unrestricted net position.

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's functions and business-type activities. The functions are also supported by general government revenues (sales and use tax, franchise tax, and certain governmental revenues, etc). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants.

Program revenues must be directly associated with the function (public safety, public works and general administration) or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants column reports capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (sales and use tax, franchise tax, intergovernmental revenue, interest income, etc.).

This government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

BASIC FINANCIAL STATEMENTS -- FUND FINANCIAL STATEMENTS

The financial transactions of the Town are reported in individual funds in the financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves. Fund equity, revenues and expenditures/expenses.

TOWN OF ADDIS, LOUISIANA

Notes to Financial Statements, Continued

December 31, 2021

The emphasis in fund financial statements is on the major funds for either the governmental or business-type activities categories. Non-major funds by category are summarized into a single column. GASB 34 sets forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The Town had no non-major funds.

Governmental Funds. The focus of the governmental fund's measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses and balances of current financial resources) rather than upon net income. Expendable assets are assigned to funds according to the purpose for which they may be used. Current liabilities are assigned to funds from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable: resources that may be used to finance future period operations of the Town. The Town reports these major governmental funds and fund types:

General Fund. The General Fund is the main operating fund of the Town. It is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are net paid through other funds are paid from the General Fund.

Proprietary Fund Types. The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The Town reports the following proprietary fund types:

Enterprise Fund. Used to account for operations for which a fee is charged to external users for sewer services. The activities reported in this fund are reported as business-type activities in the government-wide financial statements.

Basis of Accounting. Basis of Accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It related to the timing of the measurements made regardless of the measurement focus applied.

Accrual. Both the governmental and business-type activities in the government-wide financial statements and the proprietary fund financial statements are presented on the accrual basis of accounting. Non-exchange revenues, including intergovernmental revenues and grants are reported when all eligibility requirements have been met. Fees and charges and other exchange revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual. The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual: i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Intergovernmental revenues and grants are recognized when all eligibility requirements are met and the revenues are available. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. Exceptions to this general rule include principal and interest on general obligation long-term debt and employee vacation and sick leave, which are recognized when due and payable.

Cash and cash equivalents. The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments. State law and the Town's investment policy allow the Town to invest in collateralized certificates of deposit, government backed securities, state sponsored investment pool, and mutual funds consisting solely of government backed securities. Investments are reported at their fair value.

The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The three levels of the fair value hierarchy are as follows:

Level 1 – Unadjusted quoted prices for identical assets or liabilities in active markets that the Town has the ability to access.

Level 2 – Inputs including

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs that are unobservable and significant to fair value measurement.

Receivables. All receivables are reported net of estimated uncollectible amounts.

Inventories and Prepaid Items. All inventories are stated at the first-in, first-out method. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and business-type fund financial statements.

Expenditures by the governmental funds for insurances or similar services that extend over more than one reporting period are not required to be allocated, but may be accounted for as expenditures in the period paid and is known as the non-allocation method. The Governmental Fund - General Fund - fund financial statements utilizes the non-allocation method.

Capital Assets. Capital assets, which include property, plant equipment, and infrastructure assets (e.g. roads, bridges, sidewalk and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received.

Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. The Town maintains a threshold level of \$2,000 or more for capitalizing capital assets and \$50,000 for contributed assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. During the current fiscal year, no interest was incurred in the capitalized projects.

Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

| | |
|-----------------------------------|-------------|
| Buildings | 40 years |
| Building improvements | 20-25 years |
| Improvements other than buildings | 20 years |
| Sewer system | 40-43 years |
| Mowers, tractors and attachments | 10-15 years |
| Light trucks & equipment | 5 years |

Compensated Absences. Employees of the Town earn vacation or sick leave at varying rates based upon length of service. Vacation leave in non-cumulative, any unused vacation not taken by December 31, is lost. Unused personal/sick leave may be carried into the first ninety days of the subsequent year, any unused personal/sick leave not taken by March 31 is lost. Any unused personal/sick leave is immaterial, therefore, no accrual has been made.

Long-Term Debt. Long-Term Debt to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements.

Long-term obligations for governmental funds are not reported as a liability in the fund financial statements.

The reporting of long-term debt in the proprietary statements is the same in the fund statements as it is in the government-wide statements.

Fund Equity. Government-wide and proprietary fund net position are divided into three components:

- Net investment in capital assets - consist of historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets, plus deferred outflows of resources less deferred inflows of resources related to those assets.
- Restricted net position - consist of assets that are restricted by the Town's creditors, by state enabling legislation, by grantors, and by other contributors, less related liabilities and deferred inflows of resources.
- Unrestricted - all other net position are reported in this category.

Fund Financial Statements. In the governmental fund financial statements, fund balances are classified as follows:

- Non-spendable -- Amounts that cannot be spent either because they are in a non-spendable form or because they are legally or contractually required to be maintained intact.
- Restricted - Amounts that can be spent only for specific purposes because of the Town Code, state or federal laws, or externally imposed conditions by grantors or creditors.
- Committed - Amounts that can be used only for specific purposes determined by a formal action by Town ordinance or resolution.
- Assigned - Amounts that are designated by the Mayor for a particular purpose but are not spendable until a budget ordinance is passed or there is a majority vote approval (for capital projects or debt service) by Town Board of Councilmen.
- Unassigned - All amounts not included in other spendable classifications.

Use of Restricted Resources. When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the Town's policy is to first apply the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the Town's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications-committed and then assigned fund balances before using unassigned fund balances.

Interfund Activity. Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from these estimates.

Defining Operating Revenues and Expenses. The Town's proprietary fund distinguishes between operating and non-operating revenues and expenses. Operating revenues and expenses of the Town's sewer fund consists of charges for services (including system development charges) and the costs of providing those services, including depreciation. All other revenues and expenses are reported as non-operating.

Deferred Outflows of Resources and Deferred Inflows of Resources and Net Position. In December 2010, the GASB issued Statement 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. GASB 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures.

In addition to assets, the statement of financial position or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until that time.

Subsequent Events. In preparing these financial statements, the Town has evaluated events and transactions for potential recognition or disclosure through June 28, 2022, the date the financial statements were available to be issued.

2. Stewardship, Compliance and Accountability

The Town follows these procedures in establishing the budgetary data reflected in these financial statements:

- A proposed budget is prepared and submitted by the Mayor to the Board of Councilmen prior to the beginning of each fiscal year. The proposed budget is published in the official journal and made available for public inspection. A public hearing is called to obtain taxpayer comments.
- The budget is adopted through passage of an ordinance prior to commencement of the fiscal year for which the budget is being adopted.
- Budgetary amendments involving the transfer of funds from one department program or function to another or involving increases in expenditures resulting from revenues exceeding amounts estimated require approval from the Board of Councilmen.
- Budgets for the General is adopted on a GAAP basis therefore these funds utilize the same basis of accounting for both budgetary purposes and actual results. The Budgetary Comparison Schedule presents a comparison of budgetary data and actual results of operations for which budgets are legally adopted.
- All budgetary appropriations lapse at the end of each fiscal year.
- The level of budgetary control is total appropriations.

3. Deposits and Investments

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States or other federally insured investments, certificates of deposit of any bank domiciled or having a branch office in the State of Louisiana, guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations.

Bank Deposits. The Town's policy as well as State law requires deposits, (cash and certificates of deposits) of all political subdivisions to be fully collateralized at all times. Acceptable collateralization includes federal deposit insurance and securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security deposits. Obligations furnished as security must be held by the political subdivision or an unaffiliated bank, or with a trust company for the accounts of the political subdivision. The current year end balances of deposits are as follows:

Deposits do not include \$816 on cash on hand.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town has a policy for custodial credit risk which reflects state law. As of December 31, 2021 the Town had \$8,674,687 in deposits (collected bank balances). These deposits were secured from risk by \$512,315 in federal deposit insurance and \$9,759,367 of pledged securities held by the custodial bank in the name of the fiscal agent bank (GASB Category 3). \$8,162,372 of uninsured collected bank balances were secured from risk by pledged securities and none were unsecured and uninsured.

4. Investments

Investments are stated at fair value.

Custodial Credit Risk – Investments. Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to a transaction the Town will not be able to recover the value of the investment. Investments are exposed to custodial risk if the securities are (a) uninsured and unregistered and held by the counterparty or (b) uninsured, unregistered and held by the counterparty's trust department or agent but not in the name of the Town. The following chart presents the investment position of the Town at December 31, 2021. The various types of investments are listed and presented by whether they are exposed to custodial credit risk.

Investments not subject to collateralization.

Interest Rate Risk: The Town has no formal policy regarding interest rate risk.

7. Long-Term Liabilities

On November 10, 2010, the Town issued Sewer Revenue Bonds, Series 2010 in the amount of \$1,569,060 for the purpose of paying the costs of constructing and acquiring improvements and extensions to the Town's sewer system. The bonds were purchased by the Louisiana Department of Environmental Quality financed by the Clean Water State Revolving Fund. The Wastewater Treatment Facility phase of the project was completed during 2011 and the Pump Station and Force Main phase was completed in 2012. During 2017, the Town was approved for up to \$3,000,000 for improvements to the sewer system. Purchase price of the bonds are distributed to the Town in installments as construction progresses, with the YMCA Force Main phase completed in 2021. The Town received \$251,726 and \$824,092 during the years ended December 31, 2021 and 2020, respectively. The total outstanding on the two loans was \$3,392,000 as of December 31, 2021.

8. Restricted Assets and Flow of Funds

Restricted cash held in the general fund of \$1,367,069 represents \$11,733 in bond funds that is refundable to the payor once court proceeding have been concluded and properly authorized for disbursement, \$203,036 in funds held to be applied for improvements to storm drain system for the portion of road transferred from DOTD, and \$1,152,300 in funds received from the Coronavirus State and Local Fiscal Recovery Fund.

The bond ordinance for the Sewer Revenue Bonds, Series 2010 and 2017 requires the creation of the below accounts. All of income and revenues derived from the operation of the System shall be deposited daily as the same may be collected in the "Sewer Revenue Fund" (the "Revenue Fund"). Funds in the Revenue Fund shall be expended in the following order of priority and for the following express purposes:

- a) All reasonable and necessary costs and expenses of administration, operation and maintenance of the System as are not provided for from other lawfully available sources shall first be paid from the Revenue Fund.
- b) The Issuer shall maintain a separately identifiable fund designated as the "Sewer Revenue Bond and Interest Sinking Fund" (the "Debt Service Fund"), by transferring from funds in the Revenue Fund, after making the payments required by (a) above, to the Debt Service Fund monthly on or before the 20th day of each month of each year, a sum equal to the principal, interest and Administrative Fee, accruing on the Bonds and the Outstanding Parity Bonds for such month, together with such additional proportionate monthly sum as may be required to pay said principal, interest and Administrative Fee, if any, as the same become due. The Issuer shall transfer from said Debt Service Fund to the paying agent bank or banks for all bonds payable from the Debt Service Fund, or directly to the Owners, on or before each Interest Payment Date, funds fully sufficient to pay promptly the principal, interest and Administrative Fee, if any, falling due on such date.
- c) The Issuer shall maintain a separately identifiable fund or account designated as the "Sewer Revenue Bond Reserve Fund" (the "Reserve Fund") the money in the Reserve Fund to be retained solely for the purpose of paying the principal of and interest on Bonds and the Outstanding Parity Bonds and payable from the Debt Service Fund as to which there would otherwise be default, be transferring from the Revenue Fund (after making all required payments from said fund as hereinabove described), on or before the 20th day of each month, a sum at least equal to 25% of the amount to be paid into the Debt Service Fund for such month, the payments into said Reserve Fund to continue until such time there has been accumulated therein a sum equal to the Reserve Fund Requirement. Upon the issuance of additional Parity Bonds, there shall be transferred from the proceeds of such additional bonds and/or from the Revenue Fund into the Reserve Fund, monthly or annually, such amounts (as may be designated in the ordinance authorizing the issuance of such

- additional Parity Bonds) as will increase the total amount on deposit in the Reserve Fund within a period not exceeding five (5) years to a sum equal to the Reserve Fund Requirement for all outstanding bonds payable from the Debt Service Fund, including such additional Parity Bonds.
- d) The Issuer shall maintain a separately identifiable fund or account designated "Sewer Depreciation Additions and Contingency Fund" (the "Contingency Fund") to care for extensions, additions, improvements, renewals and replacements necessary to properly operate the System, by transferring from funds in the Revenue Fund after making the payments required (a), (b) and (c) above to the Contingency Fund monthly on or before the 20th day of each month of each year, a sum equal to five percent (5%) of the Net Revenues for the preceding month, provided that such sum is available after provision is made for the payments required under paragraphs (a), (b) and (c) above. Such payments into the Contingency Fund shall continue until such time as there has been accumulated in the Contingency Fund the sum of One Hundred Fifty Thousand Dollars (\$150,000), whereupon such payments may cease and need to be resumed thereafter only if the total amount of money on deposit in said fund is reduced below said sum of One Hundred Fifty Thousand Dollars (\$150,000), in which event such payments shall be resumed and continue until said maximum amount is again accumulated. In addition to caring for extensions, additions, improvements, renewals and replacements necessary to properly operate the System, the money in the Contingency Fund may also be used to pay the principal of and the interest on the Bonds, including and Parity Bonds, for the payment of which there is not sufficiency money in the Debt Service Fund and the Reserve Fund described in paragraphs (b) and (c) above, but the money in said Contingency Fund shall never be used for the making of use of said money will leave in said Contingency Fund for the making of emergency repairs or replacements less than the sum of Ten Thousand Dollars (\$10,000).
- e) Any money remaining in the Revenue Fund after making the above-required payments may be used by the Issuer for the purpose of calling and/or purchasing and paying any bonds payable from the revenues of the System, or for such other lawful corporate purposes as the Governing Authority may determine, whether such purposes are or are not in relation to the System.

9. Franchise Agreements

Cable Television

A non-exclusive cable franchise was granted to Cox Communications, Inc., on June 20, 2005 for a period of 25 years. The annual franchise fee is 5% of the company's gross receipts.

On October 1, 2008, the Town passed ordinance No. 2008-9, setting franchise fees for all cable or video services at 5% of gross receipts from operations within the Town's municipal limits.

Electric

On October 1, 1972, the Town entered into a franchise with Gulf State Electric Utilities Company, now Entergy, to supply electricity to the Town for a period of 60 years. In consideration, the Town shall receive a fee of 4.5% of the gross receipts from sales of electricity to customers within the corporate limits of Addis from October 1, 1972 to September 30, 1982, then from October 1, 1982 to September 30, 2032, a fee of 5%.

10. On-Behalf Payments for Fringe Benefits and Salaries

The Town's police chief and police officers received about \$63,923 in police supplemental pay from the State of Louisiana, Department of Public Safety and Corrections. The Town recognizes this supplemental pay received by the employees as revenues and expenditures of the Town. The revenues are reported in the General Fund and the expenditures are included in Public Safety expenditures.

11. Interfund Balances

The Town reports interfund balances between its funds. The totals of all balances agree with the sum of interfund balances present in the fund statements.

| | Due From | | |
|---------------|-----------------|------------------|------------------|
| | General Fund | Sewer Fund | Total |
| Due To | | | |

| Sewer Fund | 1,158 | - | 1,158 |
| Total | \$ 1,158 | \$ 17,612 | \$ 16,454 |

The balances primarily result from the time lag between the dates the 1) transactions are recorded in the accounting system and 2) payments between funds are made.

12. Pension Plan

The Town's police employees are members of the Municipal Police Employees Retirement System of Louisiana. The system is a cost sharing, multiple-employer defined benefit pension plan administered by separate board of trustees. Pertinent information relative to the plan follows:

Plan Description. The Municipal Police Employees' Retirement System (MPERS) is a cost-sharing multiple-employer defined benefit plan. Membership in the System is mandatory for any full-time police officer employed by a municipality of the State of Louisiana and engaged in law enforcement, empowered to make arrests, providing he or she does not have to pay social security and providing he or she meets the statutory criteria. The System provides retirement benefits for municipal police officers. The projections of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through the System in accordance with benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date.

Benefits Provided. Benefit provisions are authorized within Act 189 of 1973 and amended by LRS 11:2211-11:2233. The following is a description of the plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

1. Retirement

Membership Prior to January 1, 2013

A member is eligible for regular retirement after he has been a member of the System and has 25 years of creditable service at any age or has 20 years of creditable service and is age 50 or has 12 years creditable service and is age 55. A member is eligible for early retirement after he has been a member of the System for 20 years of creditable service at any age with an actuarially reduced benefit.

Benefit rates are three and one-third percent of average final compensation (average monthly earnings during the highest 36 consecutive months or joined months if service was interrupted) per number of years of creditable service not to exceed 100% of final salary.

Upon the death of an active contributing member, or disability retiree, the plan provides for surviving spouses and minor children. Under certain conditions outlined in the statutes, the benefits range from forty to sixty percent of the member's average final compensation for the surviving spouse. In addition, each child under age eighteen receives benefits equal to ten

TOWN OF ADDIS, LOUISIANA

Notes to Financial Statements, Continued

December 31, 2021

percent of the member's average final compensation or \$200.00 per month, whichever is greater.

Membership Commencing January 1, 2013

Member eligibility for regular retirement, early retirement, disability and survivor benefits are based on Hazardous Duty and Non Hazardous Duty sub plans. Under the Hazardous Duty sub plan, a member is eligible for regular retirement after he has been a member of the System and has 25 years of creditable service at any age or has 12 years of creditable service at age 55. Under the Non Hazardous Duty sub plan, a member is eligible for regular retirement after he has been a member of the System and has 30 years of creditable service at any age, 25 years of creditable service at age 55, or 10 years of creditable service at age 60. Under both sub plans, a member is eligible for early retirement after he has been a member of the System for 20 years of creditable service at any age, with an actuarially reduced benefit from age 55.

Under the Hazardous and Non Hazardous Duty sub plans, the benefit rates are three percent and two and a half percent, respectively, of average final compensation (average monthly earnings during the highest 60 consecutive months or joined months if service was interrupted) per number of years of creditable service not to exceed 100% of final salary.

Upon death of an active contributing member, or disability retiree, the plan provides for surviving spouses and minor children. Under certain conditions outlined in the statutes, the benefits range from twenty-five to fifty-five percent of the member's average final compensation for the surviving spouse. In addition, each child under age eighteen receives ten percent of average final compensation or \$200 per month whichever is greater. If deceased member had less than ten years of service, beneficiary will receive a refund of employee contributions only.

2. Deferred Retirement Option Plan

A member is eligible to elect to enter the deferred retirement option plan (DROP) when he is eligible for regular retirement based on the members' sub plan participation. Upon filing the application for the program, the employee's active membership in the System is terminated. At the entry date into the DROP, the employee and employer contributions cease. The amount to be deposited into the DROP account is equal to the benefit computed under the retirement plan elected by the participant at date of application. The duration of participation in the DROP is thirty six months or less. If employment is terminated after the three-year period the participant may receive his benefits by lump sum payment or a true annuity. If employment is not terminated, active contributing membership into the System shall resume and upon later termination, he shall receive additional retirement benefit based on the additional service. For those eligible to enter DROP prior to January 1, 2004, DROP accounts shall earn interest

TOWN OF ADDIS, LOUISIANA

Notes to Financial Statements, Continued

December 31, 2021

subsequent to the termination of DROP participation at a rate of half of one percentage point below the percentage rate of return of the System's investment portfolio as certified by the actuary on an annual basis but will never lose money. For those eligible to enter DROP subsequent to January 1, 2004, an irrevocable election is made to earn interest based on the System's investment portfolio return or a money market investment return. This could result in a negative earnings rate being applied to the account.

If the member elects a money market investment return, the funds are transferred to a government money market account.

3. Initial Benefit Option Plan

In 1999, the State Legislature authorized the System to establish an Initial Benefit Option program. Initial Benefit Option is available to members who are eligible for regular retirement and have not participated in DROP. The Initial Benefit Option program provides both a one-time single sum payment of up to 36 months of regular monthly retirement benefit, plus a reduced monthly retirement benefit for life. Interest is computed on the balance based on same criteria as DROP.

4. Cost of Living Adjustments

The Board of Trustees is authorized to provide annual cost-of-living adjustments computed on the amount of the current regular retirement, disability, beneficiary or survivor's benefit, not to exceed 3% in any given year. The Board is authorized to provide an additional 2% COLA, computed on the member's original benefit, to all regular retirees, disability, survivors and beneficiaries who are 65 years of age or older on the cut-off date which determines eligibility.

No regular retiree, survivor or beneficiary shall be eligible to receive a cost-of-living adjustment until benefits have been received at least one full fiscal year and the payment of such COLA, when authorized, shall not be effective until the lapse of at least one-half of the fiscal year. Members who elect early retirement are not eligible for a cost of living adjustment until they reach regular retirement age.

A COLA may only be granted if funds are available from interest earnings in excess of normal requirements, as determined by the actuary.

Contributions

Contributions for all members are actuarially determined as required by state law but cannot be less than 9% of the employees' earnable compensation excluding overtime but including state supplemental pay.

TOWN OF ADDIS, LOUISIANA

Notes to Financial Statements, Continued

December 31, 2021

For the year ended June 30, 2021, total contributions due for employers and employees were 43.75%. The employer and employee contribution rates for all members hired prior to January 1, 2013 and Hazardous Duty members hired after January 1, 2013 were 33.75% and 10%, respectively. The employer and employee contribution rates for all Non-Hazardous Duty members hired after January 1, 2013 were 33.75% and 8%, respectively. The employer and employee contribution rates for all members whose earnable compensation is less than or equal to the poverty guidelines issued by the United States Department of Health and Human Services were 36.25% and 7.5%, respectively.

Non-employer contributions

The System also receives insurance premium tax monies as additional employer contributions. The tax is considered support from a non-contributing entity and appropriated by the legislature each year based on an actuarial study. Non-employer contributions are recognized as revenue during the year ended December 31, 2021 and excluded in pension expense.

The Town's contractually required composite contribution rate for the year ended December 31, 2021 was 29.75% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability. Contributions to the pension plan from the Town were \$140,060 for the year ended December 31, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2021, the Employer reported a liability of \$836,331 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2021 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The Town's proportion of the Net Pension Liability was based on a projection of the Town's projected contribution effort to the plan for the next fiscal year as compared to the total of all employers' projected contribution effort to the plan for the next fiscal year, actuarially determined. At June 30, 2021, the Town's proportion was .1569%, which was an increase of .0062% from its proportion measured as of June 30, 2020.

For the year ended December 31, 2021, the Town recognized pension expense of \$48,586 plus employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, \$4,446.

At December 31, 2021, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

For employees, the Pub-2010 Public Retirement Mortality Table for Safety Below-Median Employees multiplied by 115% for males and 125% for females, each with full generational projection using the MP2019 scale was used.

Cost-of-Living Adjustments

The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost-of-living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees.

Mortality Rate

The mortality rate assumption used was set based upon an experience study performed by the prior actuary on plan data for the period July 1, 2014 through June 30, 2019 and review of similar law enforcement mortality. A change was made full generational mortality which

TOWN OF ADDIS, LOUISIANA

Notes to Financial Statements, Continued

December 31, 2021

combines the use of a base mortality table with appropriate mortality improvement scales. In order to set the base mortality table, actual plan mortality experience was assigned a credibility weighting and combined with a standard table to produce current levels of mortality.

The best estimates of arithmetic nominal rates of return for each major asset class included in the System's target asset allocation as of June 30, 2021 are summarized in the following table:

| Asset Class | June 30, 2021 | |
|------------------------------------|-------------------|--|
| | Target Allocation | Long-Term Expected Real Rate of Return |
| Equity | 55.50% | 3.08% |

| Totals | 100.00% | 4.64% |
| Inflation | | 2.22% |
| Expected Arithmetic Nominal Return | | 7.30% |

Discount Rate

The discount rate used to measure the total pension liability was 6.750%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Employer's proportionate share of the Net Pension Liability using the discount rate of 6.750%, as well as what the Employer's proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is one percentage-point lower (5.750%) or one percentage-point higher (7.750%) than the current rate:

13. Deferred Compensation Plan

The Town offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan, available to all permanent Town employees, permits them to defer until future years up to 100% of annual compensation not to exceed \$18,500 in 2021, adjusted thereafter for cost of living adjustments in \$500 annual increments up to age 50; participants age 50 and over are eligible for catch-up contributions provided the catch-up contributions do not exceed the catch-up limit for the taxable year. The Town contributes on behalf of its employees based upon employee contributions with a maximum match of 20.1 %. The Town also contributes an additional annual contribution for participating full time employees of \$1,500, except for police officers. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. In accordance with GASB No. 32 the Town is no longer required to report the plan in its financial statements.

14. Intergovernmental Agreements

West Baton Rouge Parish Natural Gas and Water Systems –

A service agreement is in effect between West Baton Rouge Parish and the Town in which the Parish agrees to bill and collect sewer fees from water customers served by the Town sewer system. The sewer rates are based on water usage, and customers may have their water service discontinued for non-payment of sewer fees. The amount due from the Parish for customer sewer fees billed through December 31, 2021 was \$59,954.

15. Sewer User Fees

Charges for sewer use are as follows:

Residential - \$24.00 plus \$3.25 per 1,000 gallons after 4,000.

Non-residential - \$38.00 plus \$3.00 per 1,000 gallons after 4,000.

16. Economic Dependence

The Town of Addis received 61.0%, of its total revenue from parish and district sales tax.

17. Risk Management

The Town of Addis is exposed to various risks of loss for which the Town carries commercial insurance. There have been no reductions in insurance coverage during the last year. Settled claims have not exceeded coverage in the last three years.

18. Contingencies and Commitments

Litigation - In the opinion of the Town's management after consultation with legal counsel, the potential loss for any claims and lawsuits will not materially affect the Town's financial position.

The Louisiana Department of Environmental Quality purchase of the Taxable Sewer Revenue Bond – Series 2017 was financed by the Drinking Water Revolving Loan Fund, a federal program operated through the United States Environmental Protection Agency (EPA). Amounts received are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the Town. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time although the Town expects such amounts, if any, to be immaterial.

19. Cooperative Endeavor Agreement and Restrictions of Fund Balance and Net Position

The Town of Addis entered into a Cooperative Endeavor Agreement with the Department of Transportation and Development (DOTD) on December 13, 2015, for the transfer of ownership of a portion of state route LA 990 known as Main Street when certain conditions and requirements for the road transfer were met, and for DOTD to also provide funds in the amount of \$203,036 in road transfer credit to be transferred to the Town to be applied for improvements to storm drain system for the portion of road transferred. On May 1, 2020, the act of transfer and acceptance was signed. The Town received the funds of \$203,036 which is restricted for the purpose of the improvements to storm drain system. As of December 31, 2021, no amount of these funds has been expended.

20. American Rescue Plan Act

The American Rescue Plan Act (ARPA) established the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) to provide governments with the resources needed to respond to the pandemic. The Town is required to spend these funds in accordance with applicable guidelines, with the funds required to be obligated by December 31, 2024, and expended by December 31, 2026. During the 2021 year, the Town received \$1,152,300 from the SLFRF that is restricted in its use. As of the year end December 31, 2021, no amount of these funds has been expended. The Town expects to receive a second tranche payment under ARPA.

21. New Accounting Pronouncements Not Yet Implemented

In June 2017, GASB has issued Statement No. 87 "Leases". This Statement is effective for fiscal years beginning subsequent of December 15, 2019. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provision of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. GASB issued Statement No. 95 "Postponement of the Effective Dates of Certain Authoritative Guidance" which has deferred the effective date of Statement No. 87 Implementation Guide No. 2019-03 by 18 months to fiscal years beginning after June 15, 2021. The Town plans to adopt this Update as applicable by the effective date.

GASB Statement 96, Subscription-Based Information Technology Arrangements: This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangement for government end users. This Statement is effective for fiscal years beginning after June 15, 2022.

GASB Statement 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for the IRS Section 457 Deferred Compensation Plans. The requirements of this Statement related to the accounting and financial reporting for IRS Code Section 457 plans are effective for periods beginning after June 15, 2021.

GASB Statement 91, Conduit Debt Obligations: The primary objectives of this statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in

TOWN OF ADDIS, LOUISIANA

practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations and (3) related note disclosures. This Statement is effect for reporting periods beginning with the fiscal year that ends December 31, 2022.

GASB Statement 92, Omnibus 2020: The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issue that have been identified during implementation and application of certain GASB statements. This statement is effective for reporting periods beginning after June 15, 2021.

GASB Statement 93, Replacement of Interbank Offered Rates: The objective of this statement is to address those and other accounting and financial reporting implications that result from the replacement of an interbank offered rate. The requirement in paragraph 11 b will take effect for reporting periods ending after December 31, 2021. The requirements in paragraphs 13 and 14 are effective for reporting periods beginning after June 15, 2021.

GASB Statement 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements: The primary object of this statement is to improve financial reporting by addressing issues related to these arrangements. This statement is effective for reporting periods beginning after June 15, 2022.

Management is currently assessing the impact that the implementation of these pronouncements will have on the basic financial statements, if any.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable David Toups, Mayor
and the Council Members
Town of Addis
Addis, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Town of Addis, Louisiana, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Town of Addis, Louisiana's basic financial statements, and have issued our report thereon dated June 27, 2021

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Addis, Louisiana's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Addis, Louisiana's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Addis, Louisiana's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Addis, Louisiana’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and responses as items 2021-001.

Town of Addis, Louisiana’s Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Town of Addis, Louisiana’s response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The Town of Addis, Louisiana response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document. Accordingly, this communication is not suitable for any other purpose.

Section II-Financial Statement Findings

2021-001 Unfavorable Budget Revenue Variance Greater Than 5%

Condition:

In the General Fund budgeted revenues exceeded actual revenues by 13.6%.

Criteria:

Louisiana Revised Statute 39:1310 requires that budgets be adopted for General Funds and that amendments be made and properly adopted when variances to budget amounts are in excess of five (5) percent.

Cause:

The condition is a result of an improper classification of ARPA funds when the funds were initially received due to guidance being issued after budget was amended.

TOWN OF ADDIS, LOUISIANA

Schedule of Findings and Responses

December 31, 2021

Effect:

The Town may not prevent and/or detect compliance violations when revenue falls short of budgeted amounts.

Recommendation:

We recommend that management implement procedures to monitor budget to actual comparisons and amend budgets as necessary to comply with the Louisiana Local Government Budget Act.

Management's Corrective Action Plan:

Due to guidance being issued after our 2021 budget was amended, the ARPA funds were recorded as revenue and not unearned revenue. We will work with our accounting firm to ensure that the funds are properly recorded and our 2022 budget is amended as necessary to comply with the Louisiana Local Government Budget Act.

To the Board of Control
Town of Addis, Louisiana &
Louisiana Legislative Auditors
Port Allen, Louisiana

INDEPENDENT ACCOUNTANT’S REPORT ON APPLYING AGREED-UPON PROCEDURES

To the Governing Board of Town of Addis, Louisiana and the Louisiana Legislative Auditor:

We have performed the procedures enumerated below on the control and compliance (C/C) areas identified in the Louisiana Legislative Auditor’s (LLA’s) Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period January 1, 2021 through December 31, 2021. Town of Addis, Louisiana’s management is responsible for those C/C areas identified in the SAUPs.

Town of Addis, Louisiana has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in LLA’s SAUPs for the fiscal period January 1, 2021 through December 31, 2021. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

Written Policies and Procedures

1. Obtain and inspect the entity’s written policies and procedures and observe whether they address each of the following categories and subcategories if applicable to public funds and the entity’s operations:
 - a) ***Budgeting***, including preparing, adopting, monitoring, and amending the budget.
 - b) ***Purchasing***, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the Public Bid Law; and (5) documentation required to be maintained for all bids and price quotes.

- c) **Disbursements**, including processing, reviewing, and approving.
- d) **Receipts/Collections**, including receiving, recording, and preparing deposits. —Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g., periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).
- e) **Payroll/Personnel**, including (1) payroll processing, (2) reviewing and approving time and attendance records, including leave and overtime worked, and (3) approval process for employee(s) rate of pay or approval and maintenance of pay rate schedules.
- f) **Contracting**, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.
- g) **Credit Cards (and debit cards, fuel cards, P-Cards, if applicable)**, including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).
- h) **Travel and Expense Reimbursement**, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.
- i) **Ethics**, including (1) the prohibitions as defined in Louisiana Revised Statute (R.S.) 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) a requirement that documentation is maintained to demonstrate that all employees and officials were notified of any changes to the entity's ethics policy.
- j) **Debt Service**, including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.
- k) **Information Technology Disaster Recovery/Business Continuity**, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.
- l) **Sexual Harassment**, including R.S. 42:342-344 requirements for (1) agency responsibilities and prohibitions, (2) annual employee training, and (3) annual reporting.

We reviewed the written policies and procedures for the related functions listed above.

Exceptions: The contracting policies lacked documentation of the standard terms and conditions, and sexual harassment policies lacked a documentation regarding the annual employee training and annual reporting.

Board or Finance Committee

- a) Obtain and inspect the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and:
- b) Observe that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.
- c) For those entities reporting on the governmental accounting model, observe whether the minutes referenced or included monthly budget-to-actual comparisons on the general fund, quarterly budget-to-actual, at a minimum, on proprietary funds, and semi-annual budget- to-actual, at a minimum, on all special revenue funds. *Alternately, for those entities reporting on the nonprofit accounting model, observe that the minutes referenced or included financial activity relating to public funds if those public funds comprised more than 10% of the entity's collections during the fiscal period.*
- d) For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.

We reviewed the board minutes and other documents in effect.

Exceptions: None noted

Bank Reconciliations

3. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that:
 - a) Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated or electronically logged);
 - b) Bank reconciliations include evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and
 - c) Management has documentation reflecting it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.

We obtained a list of bank accounts from the Town of Addis, Louisiana and performed the listed procedures.

Exceptions: None noted

Collections (excluding electronic funds transfers)

4. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).

We obtained the listing and management's representation. There was only one deposits site.

Exceptions: None noted

5. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e., 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:
 - a) Employees responsible for cash collections do not share cash drawers/registers.
 - b) Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g., pre-numbered receipts) to the deposit.
 - c) Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.
 - d) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions, are not responsible for collecting cash, unless another employee/official verifies the reconciliation.

We visited the site and observed proper segregation of the above duties.

Exceptions: None noted

6. Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe the bond or insurance policy for theft was enforced during the fiscal period.

We obtained the bond or insurance policy for theft during the fiscal period.

Exceptions: None noted

7. Randomly select two deposit dates for each of the 5 bank accounts selected for procedure #3 under "Bank Reconciliations" above (select the next deposit date chronologically if no

deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). *Alternately, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc.* Obtain supporting documentation for each of the 10 deposits and:

- a) Observe that receipts are sequentially pre-numbered.
- b) Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
- c) Trace the deposit slip total to the actual deposit per the bank statement.
- d) Observe the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).
- e) Trace the actual deposit per the bank statement to the general ledger.

We performed the above procedures.

Exceptions: One deposit was not made within the one business day of receipt requirement.

Non-Payroll Disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases)

8. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).

We obtained the listing and management's representation. We selected the one location.

Exceptions: None noted

9. For each location selected under #8 above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:
 - a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.
 - b) At least two employees are involved in processing and approving payments to vendors.
 - c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.
 - d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.

[Note: Exceptions to controls that constrain the legal authority of certain public officials (e.g., mayor of a Lawrason Act municipality) should not be reported.]

We obtained a listing of employees involved in the non-payroll purchasing and payment functions with management's representation. We observed that the segregation of job duties as listed above.

Exceptions: None noted

10. For each location selected under #8 above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction, and:
 - a) Observe whether the disbursement matched the related original itemized invoice and supporting documentation indicates deliverables included on the invoice were received by the entity.
 - b) Observe whether the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #9, as applicable.

We selected 5 disbursements from the one location. We performed the above procedures on each transaction.

Exceptions: None noted

Credit Cards/Debit Cards/Fuel Cards/P-Cards

11. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.

We obtained the required listing and management's representation.

Exceptions: None noted

12. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement), obtain supporting documentation, and:
 - a) Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing (or electronically approved), by someone other than the authorized card holder. [Note: Requiring such approval may constrain the legal authority of certain public officials (e.g., mayor of a Lawrason Act municipality); these instances should not be reported.]

- b) Observe that finance charges and late fees were not assessed on the selected statements.

We performed the required procedures for five cards.

Exceptions: None noted

13. Using the monthly statements or combined statements selected under #12 above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (i.e., each card should have 10 transactions subject to testing). For each transaction, observe it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and note whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

We performed the above procedures for the 5 cards.

Exceptions: None noted.

Travel and Travel-Related Expense Reimbursements (excluding card transactions)

14. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements, obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected:
- a) If reimbursed using a per diem, observe the approved reimbursement rate is no more than those rates established either by the State of Louisiana or the U.S. General Services Administration (www.gsa.gov).
 - b) If reimbursed using actual costs, observe the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.
 - c) Observe each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by written policy (procedure #1h).
 - d) Observe each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

We obtained the list and management's representation. We selected 5 reimbursements and performed the above procedures.

Exceptions: None noted

Contracts

15. Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. *Alternately, the practitioner may use an equivalent selection source, such as an active vendor list.* Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, excluding the practitioner's contract, and:
- a) Observe whether the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law.
 - b) Observe whether the contract was approved by the governing body/board, if required by policy or law (e.g., Lawrason Act, Home Rule Charter).
 - c) If the contract was amended (e.g., change order), observe the original contract terms provided for such an amendment and that amendments were made in compliance with the contract terms (e.g., if approval is required for any amendment, was approval documented).
 - d) Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe the invoice and related payment agreed to the terms and conditions of the contract.

We obtained the listing and management's representation. We selected 5 contracts and performed the above procedures on each.

Exceptions: None noted

Payroll and Personnel

16. Obtain a listing of employees and officials employed during the fiscal period and management's representation that the listing is complete. Randomly select 5 employees or officials, obtain related paid salaries and personnel files, and agree paid salaries to authorized salaries/pay rates in the personnel files.

We obtained the listing and management's representation. We selected 5 employees and performed the required procedures.

Exceptions: None noted

17. Randomly select one pay period during the fiscal period. For the 5 employees or officials selected under #16 above, obtain attendance records and leave documentation for the pay period, and:
- a) Observe all selected employees or officials documented their daily attendance and leave (e.g., vacation, sick, compensatory). (Note: Generally, officials are not eligible to earn

leave and do not document their attendance and leave. However, if the official is earning leave according to a policy and/or contract, the official should document his/her daily attendance and leave.)

- b) Observe whether supervisors approved the attendance and leave of the selected employees or officials.
- c) Observe any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records.
- d) Observe the rate paid to the employees or officials agree to the authorized salary/pay rate found within the personnel file.

We selected one pay period for the 5 selected employees and performed the above procedures.

Exceptions: None noted

18. Obtain a listing of those employees or officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees or officials, obtain related documentation of the hours and pay rates used in management's termination payment calculations and the entity's policy on termination payments. Agree the hours to the employee or officials' cumulative leave records, agree the pay rates to the employee or officials' authorized pay rates in the employee or officials' personnel files, and agree the termination payment to entity policy.

We obtained the listing and management's representation. We selected 2 employees and performed the above procedures.

Exceptions: None noted

19. Obtain management's representation that employer and employee portions of third-party payroll related amounts (e.g., payroll taxes, retirement contributions, health insurance premiums, garnishments, workers' compensation premiums, etc.) have been paid, and any associated forms have been filed, by required deadlines.

We obtained management's representation.

Exceptions: None noted

Ethics

20. Using the 5 randomly selected employees/officials from procedure #16 under "Payroll and Personnel" above obtain ethics documentation from management, and:
- a. Observe whether the documentation demonstrates each employee/official completed one hour of ethics training during the fiscal period.
 - b. Observe whether the entity maintains documentation which demonstrates each employee and official were notified of any changes to the entity's ethics policy during the fiscal period, as applicable.

We performed the above procedures on the 5 employees from procedure #16.

Exceptions: None noted

Debt Service

21. Obtain a listing of bonds/notes and other debt instruments issued during the fiscal period and management's representation that the listing is complete. Select all debt instruments on the listing, obtain supporting documentation, and observe State Bond Commission approval was obtained for each debt instrument issued.

We obtained management's representation and there were no debt instruments issued during the year. No other procedures were performed as they were not considered applicable.

Exceptions: None noted

22. Obtain a listing of bonds/notes outstanding at the end of the fiscal period and management's representation that the listing is complete. Randomly select one bond/note, inspect debt covenants, obtain supporting documentation for the reserve balance and payments, and agree actual reserve balances and payments to those required by debt covenants (including contingency funds, short-lived asset funds, or other funds required by the debt covenants).

We obtained the listing and management's representation. We selected one bond/note and performed the above procedures:

Exceptions: None noted

Fraud Notice

23. Obtain a listing of misappropriations of public funds and assets during the fiscal period and management's representation that the listing is complete. Select all misappropriations on the listing, obtain supporting documentation, and observe that the entity reported the misappropriation(s) to the legislative auditor and the district attorney of the parish in which the entity is domiciled.

We obtained management's representation attesting that there were no misappropriations noted. In 2021. The procedures on misappropriations were not applicable.

Exceptions: None noted

24. Observe the entity has posted, on its premises and website, the notice required by R.S. 24:523.1 concerning the reporting of misappropriation, fraud, waste, or abuse of public funds.

We observed the notice required by R.S. 24:523.1 was posted on the office and on the website.

Exceptions: None noted

Information Technology Disaster Recovery/Business Continuity

25. Perform the following procedures, **verbally discuss the results with management, and report “We performed the procedure and discussed the results with management.”**
- a) Obtain and inspect the entity’s most recent documentation that it has backed up its critical data (if no written documentation, inquire of personnel responsible for backing up critical data) and observe that such backup occurred within the past week. If backups are stored on a physical medium (e.g., tapes, CDs), observe evidence that backups are encrypted before being transported.
 - b) Obtain and inspect the entity’s most recent documentation that it has tested/verified that its backups can be restored (if no written documentation, inquire of personnel responsible for testing/verifying backup restoration) and observe evidence that the test/verification was successfully performed within the past 3 months.
 - c) Obtain a listing of the entity’s computers currently in use and their related locations, and management’s representation that the listing is complete. Randomly select 5 computers and observe while management demonstrates that the selected computers have current and active antivirus software and that the operating system and accounting system software in use are currently supported by the vendor.

We performed the procedure and discussed the results with management.

Sexual Harassment

26. Using the 5 randomly selected employees/officials from procedure #16 under “Payroll and Personnel” above, obtain sexual harassment training documentation from management, and observe the documentation demonstrates each employee/official completed at least one hour of sexual harassment training during the calendar year.

Using the randomly selected 5 employees from procedure #16, we obtained the documentation on sexual harassment training for 2021.

Exceptions: None noted

27. Observe the entity has posted its sexual harassment policy and complaint procedure on its website (or in a conspicuous location on the entity’s premises if the entity does not have a website).

We observed the sexual harassment policy on the Town of Addis, Louisiana's website.

Exceptions: None noted

28. Obtain the entity’s annual sexual harassment report for the current fiscal period, observe that the report was dated on or before February 1, and observe it includes the applicable requirements of R.S. 42:344:

- a) Number and percentage of public servants in the agency who have completed the training requirements;
- b) Number of sexual harassment complaints received by the agency;
- c) Number of complaints which resulted in a finding that sexual harassment occurred;
- d) Number of complaints in which the finding of sexual harassment resulted in discipline or corrective action; and
- e) Amount of time it took to resolve each complaint.

We obtained the sexual harassment report for 2021 and observed the above requirements.

Exceptions: None noted

We were engaged by Town of Addis, Louisiana to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of Town of Addis, Louisiana and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.

TOWN OF ADDIS, LOUISIANA

Management's Response to Statewide Agreed-Upon Procedures For the Year Ended December 31, 2021

Management's Response to Exceptions:

1. Our employees are notified of the required sexual harassment training in writing via their new-hire letter as well as emails in which the training links are provided annually. We will ensure that this information is also added to our Sexual Harassment written policies and procedures. We will also review our Contracting written policies and procedures and add the required documentation for the standard terms and conditions.

7. We have a policy in place to make deposits as often as possible. However, there are circumstances when the office is short staffed and we are unable to do so. In this case, the money is secured in a lock box in a locked file cabinet until deposited. Please know that we will make every effort to ensure that the money is deposited within one business day of receipt.
