Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities and the major fund of the Cypress - Black Bayou Recreation and Water Conservation District, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Cypress - Black Bayou Recreation and Water Conservation District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of Cypress - Black Bayou Recreation and Water Conservation District, as of December 31, 2022, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Cypress - Black Bayou Recreation and Water Conservation District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Cypress - Black Bayou Recreation and Water Conservation District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Cypress - Black Bayou Recreation and Water Conservation District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Cypress - Black Bayou Recreation and Water Conservation District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 – 9 and the budgetary comparison information on pages 25 – 26 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Cypress - Black Bayou Recreation and Water Conservation District's basic financial statements. The accompanying other supplementary information, shown on pages 27 and 28, is presented for purposes of

additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 28, 2023, on our consideration of Cypress - Black Bayou Recreation and Water Conservation District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Cypress - Black Bayou Recreation and Water Conservation District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Cypress - Black Bayou Recreation and Water Conservation District's internal control over financial reporting and compliance.

INTRODUCTION

The Cypress - Black Bayou Recreation and Water Conservation District (the District) was created by Act 292 of 1958 to develop the wealth and natural resources of the District by conserving water for agricultural, municipal, recreational, commercial, industrial, and sanitary purposes. The District is comprised of a board of five commissioners, one each appointed by the Bossier Parish Police Jury, the Bossier Parish School Board, the Mayor and governing authority of the City of Bossier City, the Mayor and governing authority of the Town of Benton, and the Bossier Levee District.

(1) Summary of Significant Accounting Policies

The Cypress - Black Bayou Recreation and Water Conservation District's financial statements are prepared in conformity with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Cypress - Black Bayou Recreation and Water Conservation District are discussed below.

A. Reporting Entity

The Governmental Accounting Standards Board (GASB) establishes criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of the standards, the District is considered a primary government, since it is a special purpose government that has a separate appointed governing body, is legally separate, and is fiscally independent of other state or local governments. Fiscally independent means that the District may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt and has a component unit over which it exercises oversight responsibility.

B. Basic Financial Statements – Government-Wide Statements

The Cypress - Black Bayou Recreation and Water Conservation District's basic financial statements include both government-wide (reporting the funds maintained by the Cypress - Black Bayou Recreation and Water Conservation District as a whole) and fund financial statements (reporting the Cypress - Black Bayou Recreation and Water Conservation District's major funds).

Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Cypress - Black Bayou Recreation and Water Conservation District's general fund is classified as governmental activities. The Cypress - Black Bayou Recreation and Water Conservation District does not have any business-type activities.

In the government-wide Statement of Net Position, the governmental activities column is presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Cypress - Black Bayou Recreation and Water Conservation District's net position is reported in two parts – net investment in capital assets (net of related debt) and unrestricted net position.

(Continued)

Notes to Financial Statements
December 31, 2022
(Continued)

The government-wide Statement of Activities reports both the gross and net cost of each of the Cypress - Black Bayou Recreation and Water Conservation District's functions. The functions are supported by program revenues and general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by any related program revenues, which must be directly associated with the function. Program revenues of the District consist of permits, licenses, fees and donations. The net costs (by function) are normally covered by general revenues.

This government-wide focus is more on the sustainability of the Cypress - Black Bayou Recreation and Water Conservation District as an entity and the change in the Cypress - Black Bayou Recreation and Water Conservation District's net position resulting from the current year's activities.

C. Basic Financial Statements – Fund Financial Statements

The financial transactions of the Cypress - Black Bayou Recreation and Water Conservation District are recorded in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Cypress - Black Bayou Recreation and Water Conservation District:

Governmental Funds – the focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Cypress - Black Bayou Recreation and Water Conservation District:

- a. General fund is the general operating fund of the Cypress - Black Bayou Recreation and Water Conservation District. It is used to account for all financial resources except those required to be accounted for in another fund.

The emphasis in fund financial statements is on the major funds in the governmental category. GASB sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The District's general fund was determined to be a major fund.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

(Continued)

1. Accrual:

The governmental funds in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Revenues of the Cypress - Black Bayou Recreation and Water Conservation District consist principally of property taxes, permits, licenses and fees, state revenue sharing, donations and interest income. Property taxes are recorded in the year for which the taxes are levied. Property taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on December 31. The 2022 tax levy is intended to fund the 2023 fiscal year; therefore, the levy has been recorded as a receivable and deferred inflows of resources. Interest income is recorded when earned. Permits, licenses, fees and donations are recorded when received because they are generally not measurable until actually received. State revenue sharing revenue is recorded when it is both measurable and available.

2. Modified Accrual:

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under modified accrual basis of accounting, revenues are recorded when susceptible to accrual: i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this rule is that principal and interest on general obligation long-term debt, if any, is recognized when due. Depreciation is not recognized in the governmental fund financial statements.

E. Budgets

The District uses the following budget practices:

1. A preliminary budget for the ensuing year is prepared by the District prior to December 31 of each year and is made available for public inspection.
2. After completion of all action necessary to finalize and implement the budget, the budget is adopted by the Board of Commissioners.
3. All budgetary appropriations lapse at the end of each fiscal year.
4. The budget is established and controlled by the board of commissioners at the object level of expenditure. All changes in the budget must be approved by the board.
5. The budget for 2022 was adopted on the cash basis for the general fund. One amendment was made to the 2022 budget.

F. Cash, Cash Equivalents, and Investments

Cash includes amounts in petty cash, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, or money market accounts with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

Investments are limited by Louisiana Revised Statute (R.S.) 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are carried at fair value.

G. Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings and improvements	10 – 40 years
Equipment	3 – 10 years
Other improvements	10 – 40 years

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. At this time, the District has no transactions that meet the definition of deferred outflows of resources.

The District's governmental activities and governmental fund reports a separate section for *deferred inflows of resources*. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that meets this definition and qualifies for reporting in this category. Accordingly, the item "unavailable revenue" is reported in the governmental fund balance sheet and statement of net position. The District reports unavailable revenue from one source: ad valorem - property taxes. This amount is deferred and recognized as an inflow of resources in the period for which the amount was levied and budgeted.

I. Compensated Absences

The District has the following policy relating to vacation and sick leave:

Employees earn annual leave based upon their length of employment. Upon separation of employment, employees are paid for accumulated annual leave. Employees also earn sick leave but no unused sick leave is paid upon separation of employment.

J. Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

K. Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through constitutional provisions or enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

L. Fund Balances

GASB has defined the different types of fund balances that a governmental entity must use for financial reporting purposes. GASB requires the fund balance amounts to be properly reported within one of the fund balance categories list below.

1. Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form, such as inventory or prepaid expenses, or (b) legally or contractually required to be maintained intact, such as a trust that must be retained in perpetuity.
2. Restricted fund balances are restricted when constraints placed on the use of resources are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations
3. Committed fund balances include amounts that can be used only for the specific purposes as a result of constraints imposed by the District's Board of Commissioners (the District's highest level of decision making authority). Committed amounts cannot be used for any other purpose unless the District's Board of Commissioners removes those constraints by taking the same type of action (i.e. legislation, resolution, or ordinance).
4. Assigned fund balances are amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. The District's Board of Commissioners have the authority to assign amounts to be used for specific purposes.

5. Unassigned fund balance are the residual classification for the District's general fund and include all spendable amounts not contained in the other classifications.

When both restricted and unrestricted fund balances are available for use, it is the District's policy to use restricted fund balance first, then unrestricted fund balance. Furthermore, committed fund balances are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

M. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities in the statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

(2) Levied Taxes

The following is a summary of authorized and levied ad valorem taxes:

	Authorized Millage	Levied Millage	Expiration Date
Operating and maintenance	1.56	1.56	2024

(3) Cash and Cash Equivalents

At December 31, 2022, the District had cash and cash equivalents (book balances), totaling \$74,992 as detailed below.

The District had cash and cash equivalents at December 31, 2022 (book balances) totaling \$74,992. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

Credit Risk

Custodial credit risk is the risk that in the event of a bank or other depositing institution failure, the government's deposits may not be returned to it. As of December 31, 2022, the District's bank balances totaling \$63,997 were covered by FDIC insurance.

The District reports an unrestricted net position (deficit) of \$95,746 and a fund balance (deficit) of \$92,650 at December 31, 2022. The District has been expending resources on significant repairs to the facilities and grounds. The District approved a new rate structure for permits, licenses, and other charges beginning in 2015, which includes options for additional increases in the permits, licenses and fees for future years with the intent to eliminate the deficit.

(11) Tax Abatement

As of December 31, 2022, the District is subject to property tax abatement agreements with multiple businesses which were entered into by the State of Louisiana through the Industrial Tax Exemption Program (ITEP). The agreements allow localities to abate property taxes for a variety of economic development purposes, including job creation, as well as business relocation, retention, and expansion.

The District has not made any commitments as part of the agreements other than to reduce taxes.

Industrial Tax Exemption (ITEP):

The Louisiana Industrial Ad Valorem Tax Exemption Program (ITEP) is an original state incentive program which offers an attractive tax incentive for manufacturers within the state. The legal authority is Article 7, Section 21(F) of the Louisiana Constitution.

(12) New Accounting Principle

In June, 2017 the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 87, *Leases*, which increased the usefulness of government's financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The Statement establishes a single model for lease accounting based on the fundamental principle that leases are financings of the right to use an underlying asset. The provisions of GASB Statement No. 87 are effective for fiscal years beginning after June 15, 2021. The District implemented this Statement in the current year, with no changes to the prior net position as a result of this implementation.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed In Accordance With *Government Auditing Standards*

Independent Auditors' Report

Board of Commissioners
Cypress - Black Bayou Recreation
and Water Conservation District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Cypress - Black Bayou Recreation and Water Conservation District as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Cypress - Black Bayou Recreation and Water Conservation District's basic financial statements, and have issued our report thereon dated June 28, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Cypress - Black Bayou Recreation and Water Conservation District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Cypress - Black Bayou Recreation and Water Conservation District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Cypress - Black Bayou Recreation and Water Conservation District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Cypress - Black Bayou Recreation and Water Conservation District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
