FINANCIAL SECTION

INDEPENDENT AUDITOR’S REPORT

To the Board of Commissioners,
Terrebonne Parish Recreation District No. 5,
Bourg, Louisiana.

Opinion

We have audited the accompanying financial statements of the governmental activities and governmental funds of Terrebonne Parish Recreation District No. 5 (the “District”), a component unit of the Terrebonne Parish Consolidated Government, State of Louisiana, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the governmental funds of the District as of December 31, 2022 and the respective changes in net position and budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 4 through 10 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information on page 34 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 28, 2023 on our consideration of Terrebonne Parish Recreation District No. 5's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Terrebonne Parish Recreation District No. 5

December 31, 2022

Management's Discussion and Analysis of the Terrebonne Parish Recreation District No. 5's (the "District") financial performance presents a narrative overview and analysis of the District's financial activities for the year ended December 31, 2022. This document focuses on the current year's activities, resulting changes, and currently known facts. Please read this document in conjunction with the financial statements which follow in this section.

FINANCIAL HIGHLIGHTS

The District's assets exceeded its liabilities and deferred inflows of resources at the close of fiscal year 2022 by \$3,447,720 (net position), which represents a 21.91% increase from last fiscal year.

The District's revenue increased \$218,847 (or 25.46%) primarily due to increases in ad valorem tax collections.

The District's expenses increased \$15,025 (or 3.39%) primarily due to an increase in culture and recreation expenditures.

The District did not have a deficit fund balance.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's financial statements. The District's annual report consists of three parts: (1) management's discussion and analysis (this section); (2) financial statements; and (3) various governmental compliance reports and schedules by certified public accountants and management.

The financial statements include two kinds of statements that present different views of the District:

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business. The Statement of Net Position presents information on all of the District's assets, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Government-Wide Financial Statements (Continued)

The Statement of Activities presents information showing how the District's net position changed during each fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. The governmental activity of the District is culture and recreation.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The funds of the District are governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains two governmental funds. Information is presented for the General Fund and Debt Service Fund in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance. The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The governmental fund financial statements can be found on pages 11 through 17 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found in Exhibit F of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. As of December 31, 2022, assets exceeded liabilities and deferred inflows of resources by \$3,447,720. A large portion of the District's net position (45%) reflects its investment in capital assets (e.g., land, construction in progress, buildings and improvements, and machinery and equipment). Consequently, these assets are not available for future spending.

Current and other assets increased primarily due to an increase in cash. Total liabilities and deferred inflows of resources increased primarily because of an increase in deferred inflows of resources resulting from an increase in ad valorem taxes available for the subsequent year.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)**Governmental Activities**

Governmental activities increased the District's net position by \$619,729, key elements of this increase are as follows:

Condensed Statements of Activities

Net position end of year	<u>\$ 3,447,720</u>	<u>\$ 2,827,991</u>	<u>\$ 619,729</u>	21.91%

In 2022, the District's ad valorem tax revenue increased \$365,170 or 55.21% primarily due to revaluation of property within the District. Miscellaneous revenues decreased \$171,492 due to impairment gains in the prior year resulting from insurance proceeds exceeding the net book value of property impaired. Culture and recreation expenses increased by \$14,076 or 3.92% primarily due to increases in salaries and wages.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUND

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the District's governmental funds' ending fund balance is \$1,906,003 which is an increase of \$630,030 (49.38%) in comparison with the prior year. The increase was primarily due to an increase in ad valorem tax revenue. In addition, the Debt Service Fund had ad valorem tax collections approximately \$220,000 in excess of principal and interest expenditures. Ending fund balance for the governmental funds includes \$405,753 restricted for debt service and \$1,500,250 unassigned in the General Fund.

General Fund Budgetary Highlights

The budget was amended once during the year. The primary reason for amending the budget was to prevent compliance violations under state law. The major differences between the original General Fund budget and the final amended budget were as follows:

Revenues

Ad valorem taxes were increased by approximately \$240,000 to recognize the increase ad valorem tax collected during the year ended December 31, 2022.

Expenditures

- Supplies and materials decreased by \$16,854 to better reflect the expenditures incurred by the District.
- Other services and charges were decreased \$16,890 to better reflect the expenditures incurred by the District.
- Repairs and maintenance increased \$253,830 for expected Hurricane Ida repairs.

During the year, actual revenues were greater than budgetary estimates of revenues and actual expenditures were less than budgetary estimates of expenditures. See Exhibit E for a comparison of budgeted and actual revenues and expenses.

CAPITAL ASSETS AND LONG-TERM OBLIGATIONS**Capital Assets**

The District's net investment in capital assets for its governmental activities as of December 31, 2022, amounts to \$3,361,565 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and machinery and equipment.

	<u>2022</u>	<u>2021</u>
Land	\$ 210,694	\$ 210,694
Construction in process	-	131,190
Buildings and improvements	3,862,892	3,692,963
Machinery and equipment	<u>254,741</u>	<u>254,741</u>
Totals	<u>\$ 4,328,327</u>	<u>\$ 4,289,588</u>

Major capital asset expenditures during the current fiscal year were completion of the roof for the gym and completion of the construction on a storage facility.

Additional information on the District's capital assets can be found in Note 5, Exhibit F of this report.

Long-Term Obligations

As of December 31, 2022, the District had \$1,798,177 in long-term obligations. This includes the District's obligations of \$1,755,000 for bonds payable and \$43,177 of unamortized bond premium. More detailed information about the District's bonds payable is presented in Note 7 of this report.

The District's bonds have an "AA" rating from Standard and Poor's Rating Service.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Board of Directors considered the following factors and indicators when setting next year's budget, rates, and fees. These factors and indicators include:

- The ad valorem tax revenue budgeted represents the estimated amount of the November 2022 assessment, which the District will receive, for the most part, in January 2023.
- The District has projected an increase in repair costs over last year's actual repair expenditures as a result of restoration and renovation costs to the gym following Hurricane Ida.
- Utilities are projected to increase with a full year of operations.
- Salaries and benefits are projected to increase due to cost of living increases and increases in the cost of benefits.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Board of Directors of Terrebonne Parish Recreation District No. 5, 118 Retreat Drive, Bourg, LA 70343.

NOTES TO FINANCIAL STATEMENTS**Terrebonne Parish Recreation District No. 5**

December 31, 2022

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Terrebonne Parish Recreation District No. 5 (the “District”) conform to accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of significant accounting policies:

a) Reporting Entity

The District is a component unit of the Terrebonne Parish Consolidated Government (the “Parish”) and as such, these financial statements will be included in the annual comprehensive financial report (ACFR) of the Parish for the year ended December 31, 2022.

GASB Statement 14, “*The Financial Reporting Entity*”, and GASB Statement 39, “*Determining Whether Certain Organizations Are Component Units-an amendment of GASB*” Statement 14 and GASB Statement 61, “*The Financial Reporting Entity: Omnibus and Amendment of GASB Statement 14 and 34*” established the criterion for determining which component units should be considered part of the District for financial reporting purposes. The basic criteria are as follows:

1. The legal status of the potential component unit including the right to incur its own debt, levy its own taxes and charges, expropriate property in its own name, sue and be sued, and the right to buy, sell and lease property in its own name.
2. Whether the governing authority appoints a majority of the board members of the potential component unit.
3. Fiscal interdependency between the District and the potential component unit.
4. Imposition of will by the District on the potential component unit.
5. Financial benefit/burden relationship between the District and the potential component unit.

The District has reviewed all of its activities and determined that there are no potential component units that should be included in its financial statements.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Basis of Presentation

The District's financial statements consist of the government-wide statements on all activities of the District and the governmental fund financial statements.

Government-Wide Financial Statements:

The government-wide financial statements include the Statement of Net Position and the Statement of Activities for all activities of the District. The government-wide presentation focuses primarily on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues.

Fund Financial Statements:

The daily accounts and operations of the District are organized on the basis of a fund and account groups, each of which is considered a separate accounting entity. The operations of the fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, equity, revenues, and expenditures. Government resources are allocated to and accounted for in the fund based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following are the governmental funds of the District:

General Fund - The General Fund is the general operating fund of the District. It is used to account for and report all financial resources not accounted for and reported in another fund.

Debt Service Fund - The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

c) Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c) Measurement Focus and Basis of Accounting (Continued)

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year for which they are levied.

Fund Financial Statements

All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds' present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Governmental funds are maintained on the modified accrual basis of accounting.

Governmental fund revenues resulting from exchange transactions are recognized in the fiscal year in which the exchange takes place and meets the government's availability criteria (susceptible to accrual). Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Ad valorem taxes and the related state revenue sharing (intergovernmental revenue) are recognized as revenue in the period for which levied, thus the 2022 property taxes which are being levied to finance the 2023 budget will be recognized as revenue in 2023. The 2022 tax levy is recorded as deferred inflows of resources (unavailable revenue) in the District's 2022 financial statements. Charges for services are recorded when earned since they are measurable and available. Miscellaneous revenues are recorded as revenues when received in cash by the District because they are generally not measurable until actually received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. An exception to this general rule is principal and interest on general long-term debt which is recognized when due. Allocations of cost such as depreciation are not recognized in the governmental funds.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

e) Operating Budgetary Data

As required by the Louisiana Revised Statutes 39:1303, the Board of Commissioners (the “Board”) adopted a budget for the District’s General Fund. The budgetary practices include public notice of the proposed budget, public inspection of the proposed budget, and a public hearing on the budget prior to adoption, when budgeted expenditures exceed \$500,000. Any amendment involving the transfer of monies from one function to another or increases in expenditures must be approved by the Board. The District amended its budget once during the year. All budgeted amounts that are not expended, or obligated through contracts, lapse at year-end.

The General Fund budget is adopted on a basis materially consistent with accounting principles generally accepted in the United States of America.

The General Fund budget presentation is included in the financial statements.

f) Accounts Receivable

The financial statements for the District contain no allowance for uncollectible accounts. Uncollectible amounts due for ad valorem taxes and other receivables are recognized as bad debts at the time information becomes available which would indicate the uncollectibility of the particular receivable. These amounts are not considered to be material in relation to the financial position or operations of the funds.

g) Investments

Investments consist of certificates of deposit which are stated at cost and approximate market value.

h) Prepaid Insurance

The District records prepaid insurance in its government-wide financial statements. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. There was no prepaid insurance as of December 31, 2022.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i) Capital Assets

The accounting treatment over property and equipment (capital assets) depends on whether the assets are reported in the government-wide or fund financial statements.

Government-Wide Financial Statements

In the government-wide financial statements, fixed assets are accounted for as capital assets. Capital assets purchased or acquired with an original cost of \$250 or more are valued at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation of all exhaustible capital assets is recorded as an expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings and improvements	10 - 40 years
Machinery and equipment	5 - 20 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

j) Long-Term Debt

The accounting treatment of long-term debt depends on whether they are reported in the government-wide or fund financial statements.

Government-Wide Financial Statements

All long-term obligations to be repaid from governmental resources is reported as liabilities in the government-wide statements. The long-term obligations consist of bonds payable and bond premium. In these financial statements bond premium is deferred and amortized over the life of the bonds using the effective interest method. Bond payables are reported including the applicable premium. Bond issuance costs are recognized as expenses in the period incurred.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

j) Long-Term Debt (Continued)

Fund Financial Statements

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payments of principal and interest reported as expenditures.

k) Deferred Inflows of Resources

In addition to liabilities, the Statement of Net Position and Governmental Funds Balance Sheet report a separate section for deferred inflows of resources, which represent acquisition of net position that applies to future periods and so will not be recognized as revenues until that time. The District reports deferred inflows of resources in the financial statements when resources associated with imposed non-exchange revenue transaction are received or reported as a receivable before (a) the period for which property taxes are levied or (b) the period when resources are required to be used or when use is first permitted for all other imposed non-exchange revenues in which the enabling legislation includes time requirements.

l) Vacation and Sick Leave

The District has no written vacation and sick leave policy in place. There is no accumulated unpaid vacation and sick leave as of December 31, 2022.

m) Equity

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets, if any.
- b. Restricted net position - Consists of assets and deferred outflow of resources less liabilities and deferred inflow of resources (net position) with constraints placed on the use either by (1) external groups such as creditors, grantors, contributions or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m) Equity (Continued)

Government-Wide Statements (Continued)

- c. Unrestricted net position - All other net position that do not meet the definition of “restricted” or “net investment in capital assets”.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Financial Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as follows:

- a. Non-spendable - amounts that cannot be spent either because they are in non-spendable form or because they are legally or contractually required to maintain intact.
- b. Restricted - amounts that can be spent only for specific purposes because of constitutional provisions, charter requirements or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- c. Committed - amounts that can be used only for specific purposes determined by a formal action of the District’s Board of Commissioners. Commitments may be established, modified, or rescinded only through resolutions and actions approved by the District’s Board of Commissioners.
- d. Assigned - amounts that do not meet the criteria to be classified as either restricted or committed but are intended to be used for specific purposes. Amounts may be assigned by a majority vote of the Board of Commissioners.
- e. Unassigned - all other spendable amounts.

For the classification of governmental fund balances, the District considers an expenditure to be made from the most restrictive first when more than one classification is available. The District’s fund balance was classified as restricted, assigned and unassigned as of December 31, 2022. The balance of restricted fund balance relates to ad valorem tax proceeds restricted to debt service.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

n) New GASB Statements

During the year ended December 31, 2022, the District implemented the following GASB Statements:

Statement No. 87, “*Leases*” increases the usefulness of governments’ financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financing of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments’ leasing activities. This Statement did not affect the financial statements.

Statement No. 91, “*Conduit Debt Obligations*” provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. This Statement did not affect the financial statements.

Statement No. 92, “*Omnibus 2020*” establishes accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance related activities of public entity risk pools, fair value measurements, and derivative instruments. This Statement did not affect the financial statements.

Statement No. 93, “*Replacement of Interbank Offered Rates*” some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR) most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates. This Statement will preserve the consistency and comparability of reporting hedging derivative instruments and leases after governments amend or replace agreements to replace an IBOR. This Statement did not affect the financial statements.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

n) New GASB Statements (Continued)

Statement No. 97, “*Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans - an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32*” provides objectives to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. This Statement did not affect the financial statements.

The GASB has issued the following Statements which will become effective in future years as shown below:

Statement No. 94, “*Public-Private and Public-Public Partnerships and Availability Payment Arrangements*” improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

n) New GASB Statements (Continued)

Statement are effective for the years beginning after June 15, 2022. Management has yet to determine the effect of this Statement on the financial statements.

Statement No. 96, “*Subscription-based Information Technology Arrangements*” provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset - an intangible asset - and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The requirements of this Statement are effective for the years beginning after June 15, 2022. Management has yet to determine the effect of this Statement on the financial statements.

Statement No. 99, “*Omnibus 2022*” provides objectives to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements and accounting and financial report for financial guarantees. The requirements of this Statement apply to all financial statements at dates varying from upon issuance to fiscal periods beginning after June 15, 2023. Management has yet to determine the effect of this Statement on the financial statements.

Statement No. 100, “*Accounting Changes and Error Corrections - an amendment of GASB Statement No. 62*” provides guidance to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023, and all reporting periods thereafter. Earlier application is encouraged. Management has yet to determine the effect of this Statement on the financial statements.

Statement No. 101, “*Compensated Absences*” provides guidance to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged. Management has yet to determine the effect of this Statement on the financial statements.

Note 2 - DEPOSITS AND INVESTMENTS

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States or any other federally insured investment, certificates of deposit of any bank domiciled or having a branch office in the state of Louisiana, guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations.

Bank Deposits

State law requires that deposits (cash and certificates of deposit) of all political subdivisions to be fully collateralized at all times. Acceptable collateralization includes Federal Deposit Insurance Corporation (FDIC) insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivision.

The year-end balances of deposits as of December 31, 2022 are as follows:

	Bank Balances	Reported Amount
Cash	\$ 1,797,401	\$ 1,813,965
Certificates of deposit	148,760	148,760
	\$ 1,946,161	\$ 1,962,725

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has a written policy for custodial credit risk, which requires compliance with state law. As of December 31, 2022, \$1,446,161 of the District's, bank balance of \$1,946,161 was exposed to custodial credit risk. These deposits were uninsured and collateralized with securities held by the pledging financial institution's trust department or agent and by state statute are deemed to be held in the District's name.

As of December 31, 2022, cash and certificates of deposit in excess of FDIC insurance were collateralized, by securities held by unaffiliated banks for the account of the District. GASB, which promulgates the standards for accounting and financial reporting for state and local governments, considers these securities subject to custodial credit risk. Even though the deposits are considered subject to custodial credit risk under the provisions of GASB Statement 40, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within ten days of being notified by the depositor that the fiscal agent has failed to pay deposited funds upon demand.

Note 3 - PROPERTY TAXES

Property taxes are levied each November 1 on the assessed value listed as of the prior January 1 for all real property, merchandise and movable property located in the Parish. Assessed values are established by the Terrebonne Parish Assessor’s Office and the State Tax Commission at percentages of actual value as specified by Louisiana law. A statewide reevaluation of all property is required to be completed no less than every four years. The last reevaluation was completed for the list of January 1, 2020. Taxes are due and payable December 31 with interest being charged on payments after January 1. Taxes can be paid through the tax sale date, which is the last Wednesday in June. Properties for which the taxes have not been paid are sold for the amount of the taxes. The tax rate for the year ended December 31, 2022 was \$11.00 per \$1,000 of assessed valuation on property within Terrebonne Parish Recreation District No. 5 for the purpose of maintaining and operating recreational facilities within the District and \$6.35 per \$1,000 of assessed valuation on property within Terrebonne Parish for the purpose of purchasing, acquiring, construction and improving parks, playgrounds, recreation centers and other recreational facilities, together with the necessary furnishings and equipment. As indicated in Note 1c, taxes levied November 1, 2022 are for budgeted expenditures in 2023 and will be recognized as revenues in 2023. The 2022 tax assessment, less deductions for the assessor’s retirement, has been reported as unavailable revenues in the December 31, 2022 balance sheet.

SPECIAL REPORTS OF CERTIFIED PUBLIC ACCOUNTANTS

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners,
Terrebonne Parish Recreation District No. 5,
Bourg, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and governmental funds of Terrebonne Parish Recreation District No. 5 (the “District”) as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the District’s financial statements and have issued our report thereon dated April 28, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (“internal control”) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District’s financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
