INDEPENDENT ACCOUNTANTS' REVIEW REPORT

Board of Commissioners
Washington Parish Fire
Protection District No. 8
Enon, Louisiana

We have reviewed the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Washington Parish Fire Protection District No.8 (the "Fire District"), a component unit of the Washington Parish Government, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Fire District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of the management of the Fire District. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

The management of the Fire District is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with *Statements on Standards for Accounting and Review Services* promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants and the standards applicable to review engagements contained in *Governmental Auditing Standards* issued by the United States Comptroller General. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedules be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. The information is the responsibility of management. We have reviewed the information and, based on our review, we are not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. We have not audited the information and, accordingly, do not express an opinion on such information.

Other Supplementary Information

The accompanying supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. This includes the Schedule of Compensation Paid to the Agency Head. This information is the representation of management. We have reviewed the information and, based on our review, we are not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. We have not audited the supplementary information and, accordingly, do not express an opinion on such information.

In accordance with the *Louisiana Governmental Audit Guide* and the provisions of state law, we have issued a report dated November 20, 2023, on the results of our agreed-upon procedures.

MANAGEMENT DISCUSSION AND ANALYSIS

WASHINGTON PARISH FIRE PROTECTION DISTRICT NO. 8
WASHINGTON PARISH GOVERNMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2022

Washington Parish Fire Protection District No. 8 is pleased to present its annual financial report developed in compliance with Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements – Management's Discussion and Analysis (MD&A) for State and Local Governments. This section presents management's overview and analysis of the financial activities of the organization for the fiscal year ended December 31, 2022. The MD&A describes the significant changes from the prior year that occurred in general operations and discusses activities during the year for capital assets and long term debt. The information presented here should be considered in conjunction with the financial statements taken as a whole.

FINANCIAL HIGHLIGHTS

- Total assets of the District at December 31, 2022 were \$1,050,009 and exceeded its liabilities by \$319,201 (net position). The District's unrestricted net position of \$214,171 may be used to meet the District's ongoing obligations for fire protection for its citizens. The restricted net position of \$203 is restricted for debt service. The balance of the net position is invested in capital assets (\$77,827). The condensed balance sheet is presented on governmental funds, but the financial highlights are presented on government-wide statements.
- Revenues consist primarily of ad valorem taxes, state revenue sharing, and insurance rebates. The total revenues for the year ended December 31, 2022 were \$235,446, representing an approximate increase of 42% from total revenues for the year ended December 31, 2021 of \$165,490.
- The District's operating expenditures for the government-wide funds were \$313,332, consisting of those expenditures from the District's ongoing operations. The District had an increase of \$78,073 over 2021 expenditures of \$235,261.
- The government-wide statements of activities recorded depreciation expense of \$82,967.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis is intended to serve as an introduction to the District's basic financial statements which are comprised of the following three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The *government wide financial statements* are designed to provide readers with a broad overview of the District's finances taken as a whole, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

WASHINGTON PARISH FIRE PROTECTION DISTRICT NO. 8
WASHINGTON PARISH GOVERNMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2022

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. The statement includes all of the District's revenues and expenses, regardless of when the cash is received or paid.

All of the District's activities in the government-wide financial statements are principally supported by the general District revenues such as property taxes and structural fees. The governmental activities reported in government-wide financial statements include general government activity, the fire protection and interest on long-term debt.

The government-wide financial statements use the full accrual basis of accounting method which records revenues when earned and expenses at the time the liability is incurred, regardless of when the related cash flows take place.

The government-wide financial statements are located on pages 10-11 of this report.

FUND FINANCIAL STATEMENTS

The *fund financial statements* report the District's operations in more detail than the government-wide financial statements and focus primarily on short-term activities of the District. The fund financial statements measure only current revenues and expenditures and fund balances; excluding capital assets, long-term debt, and other long-term obligations.

The fund financial statements are prepared on the modified accrual basis, which means they measure only current financial resource and uses. Capital assets and other long-lived assets, along with long term liabilities, are not presented in the fund financial statements. These financial statements help determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. We describe the relationship or differences between the government-wide and fund financial statements in a reconciliation following the fund financial statements.

The fund financial statements provide detailed information about each of the District's most significant funds called Major Funds. The District's Major Fund is the General Funds. The District currently has no non-major funds.

Comparisons of Budget and Actual financial information are presented for the General Fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The *notes* provide additional information that is essential to the reader for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found following the basic financial statements.

OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presented required supplementary information concerning the budgetary comparison schedules presented immediately following the notes to the financial statements.

GOVERNMENT-WIDE OVERALL FINANCIAL ANALYSIS

This analysis focuses on the net position and change in net position of the District's Governmental Activities. Over time, net position may serve as a useful indicator of a government's financial position. The District's net position is reported as follows:

**Summary of Net Position
Governmental Activities**

Assets	2022	2021	Difference	% Change
Current and Other Assets	\$ 255,182	\$ 292,776	\$ (37,594)	(12.84%)

Unrestricted	241,171	168,120	73,051	43.45%
Net Position	<u>\$ 319,201</u>	<u>\$ 397,081</u>	<u>\$ (77,886)</u>	<u>(19.61%)</u>

Current assets decreased due to a decrease in cash of \$116,137, but this was partly offset by an increase in receivables of \$79,623. Capital assets decreased due to depreciation expense. Noncurrent liabilities decreased due to principle payments on capital lease and other obligations.

Approximately 24% of the District's net position reflects its investment in capital assets net of any outstanding related debts used to acquire those capital assets. These capital assets are used to provide services to citizens and do not represent resources available for future spending.

Approximately 75% of the District's net position is unrestricted and may be used to meet the District's ongoing obligations to its citizens. At the end of the fiscal year, the District was able to report positive balances in its sole category, governmental activities.

The Statement of Activities presents program revenues and expenses and general revenues in detail. All of these are elements in the Changes in Governmental Net Position. The narrative that follows describes the individual program expenses, program revenues, and general revenues in more detail.

Net Position, End of Year	\$ 319,199	\$ 397,087	\$ (77,888)	(19.61%)

Government Activities-Governmental Funds

The District's governmental net position decreased by \$36,782 compared to the prior year increase in net position of \$122,065.

Expenses

Expenditures decreased by \$521,197 or 65%. Total expenditures are \$272,228 for the current year compared to \$793,425 for the prior year. This was mostly due to a decrease in capital outlay expenditures.

Revenues

Total revenues consisting of property taxes, fire protection taxes, grants, interest earned, and other revenues increased \$69,956. Property taxes increased \$65,108.

Fund Financial Analysis

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. The District's governmental funds provide information on near-term inflows, outflows, and balances of spendable resources. Unassigned fund balance may serve as a useful measurement of a government's net resources available for spending at the end of the fiscal year.

The General Fund is used to account for all revenues and expenditures related to the general operations for the District which are not accounted for in another fund. Fund balance increased \$21,021 to \$189,143 from \$168,122.

WASHINGTON PARISH FIRE PROTECTION DISTRICT NO. 8
WASHINGTON PARISH GOVERNMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2022

At the end of the current fiscal year, non-spendable fund balance was \$9,192 or less than 5% of the total fund balance. Assigned fund balance was \$52,231 or 22% of the total fund balance. The assigned fund balance is for station operations - equipment. The unassigned fund balance was \$179,951 or 75%.

General Fund Budgetary Highlights

The District adopted the budget for the General Fund prior to the start of the fiscal year. It was amended before the fiscal year ended. As required by state law, actual revenues and other sources cannot be less than 5% of budgeted revenues and other sources. Actual expenditures and other uses cannot be more than 5% of budgeted expenditures and other uses. The District was within these legal requirements. Actual expenditures were over budget by \$5,877 or 4%. Revenues were in compliance. Schedule I detailing budget compliance is included as Required Supplemental Information, following the notes to the financial statements.

Capital Assets

The District's capital assets, net of accumulated depreciation, consist of the following at December 31, 2022 and 2021:

	2022	2021	Change
Land	\$ 10,035	\$ 10,035	\$ -
Fire Station	191,958	183,097	8,861

NOTES TO THE FINANCIAL STATEMENTS

Washington Parish Fire Protection District No. 8
Enon, Louisiana
Notes to the Financial Statements
December 31, 2022

NOTE 1 DESCRIPTION OF COMPONENT UNIT AND REPORTING

The 1991 Louisiana Legislature, pursuant to Louisiana Revised statute 40:1491, created the Washington Parish Fire Protection Districts. Washington Parish Fire Protection District No.8 was created by an ordinance adopted on December 12, 1994, by the Washington Parish Government. The District shall constitute a public corporation and as such shall have all the powers of public corporations, including perpetual existence and the right and power to incur debt and contract obligations, to sue and be sued, and to have a corporate seal. The District shall also be authorized to do and perform all acts in its corporate capacity and in its name, necessary and proper, for the purposes of acquiring, maintaining and operating buildings, machinery, equipment, water tank, water hydrants, water lines, and such other things as might be necessary or proper for effective fire prevention and control as considered necessary by the parish governing body of the District for the protection of the property within the limits of the District against fire.

The governing body of the parish shall appoint a five-member board that shall perform all duties, functions, and powers responsible for the operation and maintenance of the District. All funds of the District shall be administered by the board. The board of commissioner members may be paid a per diem of fifty dollars for attending meetings of the board, and may be reimbursed any expenses incurred in performing the duties imposed upon them.

The District covers 43.7 square miles in a portion of Ward 6 in Washington Parish. There are no incorporated municipalities within the boundaries of the District. It serves approximately 4,325 people and businesses located within the boundaries of the District. The District operates out of two fire stations which are located as follows: Station No. 1 located at the corner of Spencer Road and Cemetery Road and Station No. 2 on Louisiana Highway 16. The District does not employ any compensated employees and, therefore, operates with a volunteer staff of firefighters.

REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the Washington Parish Government is the financial reporting entity for Washington Parish. The financial reporting entity consists of (a) the primary government, parish council, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Washington Parish Government for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the parish council to impose its will on that organization and/or

Notes to the Financial Statements

- b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the parish council.
2. Organizations for which the parish council does not appoint a voting majority but are fiscally dependent on the parish council.
3. Organizations for which the reporting entity's financial statements would be misleading if data of this organization is not included because of the nature or significance of the relationship.

Because the parish council appoints a voting majority of the District's governing board and the parish council has the ability to impose its will on the District, the District was determined to be a component unit of the Washington Parish Government, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the parish government, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

Government-Wide Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements distinguish between those activities of the District that are governmental and those that are considered business type activities.

Fund Financial Statements

During the year, the District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance.

B. FUND ACCOUNTING

The District uses funds to maintain its financial records during the year. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds of the District are classified as governmental funds. Governmental funds account for the District's general activities, including the collection and disbursements of specific or legally restricted monies. Governmental funds of the District include:

- a. General Fund – the general operating fund of the District accounts for all financial resources, except those required to be accounted for in other funds.

C. BASIS OF ACCOUNTING

The accompanying financial statements of the Washington Parish Fire Protection District No. 8 have been prepared in conformity with generally accepted accounting principles of the United State of America (GAAP) as applied to government units. The accompanying financial statements have been prepared in

conformity with GASB-34, *Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments*. Under GASB-34, a statement of net assets and statement of activities are prepared which are presented on the accrual basis of accounting. The significant differences are capital outlay is reported as an asset and depreciated in the government-wide statement. Also, long term obligations are recorded as liabilities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The accounting and financial reporting treatment applied to a fund is determined by its measurement of focus. With this measurement of focus, only current assets and current liabilities generally are included on the balance sheet in the fund statements. Long term assets and long term liabilities are included in the governmental-wide statements. Operating statements of governmental funds present increases (revenues), other financing sources and decreases (expenditures), and other financing uses are included in current assets.

The government-wide statement of net position and statement of activities are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with operation of these activities are included on the statement of net position.

The statement of net position and statement of activities are presented on the accrual basis of accounting. Under this method of accounting exchange, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

The modified accrual basis of accounting is used by the governmental funds. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. Effective for financial statements issued after June 30, 2000, GASB Statement 33, Accounting and Financial reporting for Non-exchange Transactions, defines a non-exchange transaction as a transaction whereby the government gives or receives value without directly receiving or giving equal value in return. Property taxes are imposed non-exchange revenues which result from assessments imposed on non-governmental entities including individuals. Assets should be recognized when the government has an enforceable lien or legal claim to the resources, or the resources are received, whichever occurs first. Property tax revenues are recognized in the period in which the District has legal claim to the resources. However, for revenue to be recognized under the modified accrual basis, the measurable and available criteria must also be met. Governmental funds use the following practices in recording revenues and expenditures:

Revenues

Revenues are recognized in the accounting period they become available and measurable. Donations, fund raising net revenues and state revenue sharing is recorded when received. Ad valorem taxes become a lien against the assessed property on assessment date or levy date. Property taxes collected by the taxing authority, but not remitted to the District at year-end, are accrued in revenue and included in property tax receivable.

Washington Parish Fire Protection District No. 8
Enon, Louisiana
Notes to the Financial Statements
December 31, 2022

Expenditures

Expenditures are recognized in the accounting period when the fund liability is incurred.

D. DEPOSITS AND INVESTMENTS

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of the acquisition. State law and the District's investment policy allow the District to invest in collateralized certificates of deposit, government backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities.

E. RECEIVABLES AND PAYABLES

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either due to/from other funds (i.e., the current portion of interfund loans) or advances to/from other funds (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as due to/from other funds.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

F. INVENTORIES AND PREPAID ITEMS

Purchase of various operating supplies are regarded as expenditures at the time purchased, and inventories of such supplies (if any) are not recorded as assets at the close of the fiscal year. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items fund financial statements.

G. RESTRICTED ASSETS

Certain proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes are classified as restricted assets because their use is limited to specified expenditures.

H. CAPITAL ASSETS

Capital assets are recorded as expenditures at the time purchased or constructed. No depreciation has been provided on general capital assets. All capital assets are valued at historical cost or estimated historical cost. Donated assets are valued at fair market value on the date donated. The costs of all assets acquired prior to 1989 have been valued using estimated historical cost.

Fire Stations	40 years
Fire Trucks and Other Trucks	5-20 years
Equipment	3-10 years

I. COMPENSATED ABSENCES

The District does not have any paid employees; therefore, it does not have a formal leave policy.

J. LONG-TERM OBLIGATIONS

Long-term obligations expected to be financed from Governmental Funds are reported in the debt service fund.

K. DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

Deferred outflows of resources represent a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

In the governmental fund financial statements, deferred inflows of resources are reported for receivables recorded in the governmental fund financial statements for which the revenue is not available or amounts received before the period for which property taxes are levied. In the government wide financial statements, deferred inflows of resources are reported for amounts received before the period for which property taxes are levied.

L. NET POSITION

In the government wide financial statements, equity is classified as net position. The District has the following categories of net position:

- Invested in capital assets, net of related debt – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or indebtedness attributable to acquisition, construction, or improvement of those assets. If there are significant unspent proceeds at year-end, the portion of the debt attributable to unspent proceeds is not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net position calculation as unspent proceeds.
- Restricted – this component of net position consists of constraints placed on the asset use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or law or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted – This component of net position consists of assets and liabilities that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

In the fund financial statements, governmental fund equity is classified as fund balance. Governmental funds are classified as follows:

Washington Parish Fire Protection District No. 8
Enon, Louisiana
Notes to the Financial Statements
December 31, 2022

- **Nonspendable** -These are amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- **Restricted** -These are amounts that can be spent only for specific purpose because of constitutional provisions, enabling legislation, or externally imposed constraints by creditors, grantor, contributors or the laws or regulations of other governments.
- **Committed** -These are amounts that can be used for specific purpose determined by a formal decision by the Board Members, which are the highest level of decision-making authority for the District.
- **Assigned** -These are amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purpose.
- **Unassigned** -These are all other spendable amounts.

M. EXTRAORDINARY AND SPECIAL ITEMS

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events within the control of the District, which are either unusual in nature or infrequent in occurrence.

N. ESTIMATES

The preparation of financial statements in conformance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, and expenses during the reported period. Actual results could differ from those estimates.

NOTE 3 - LEVIED TAXES

On April 29, 1995, the District offered two tax propositions to the voters of the District for funding fire protection. A 6 mill tax for the purpose of acquiring, constructing, improving, maintaining and/or operating fire protection facilities and equipment in and for the District, and paying the cost of obtaining water for fire protection purposes for a period of 10 years beginning 1995 and ending with the year 2005 was passed by voters of the District. This proposition was renewed by the voters of the District on April 5, 2014. For the period covered by these financial statements, the millage was 12.06 mills.

On November 3, 2020, voters of the District approved a property tax with an estimated 6.75 mills. The tax is for \$750,000 bond with an interest rate not to exceed 6%. The bond is for the purpose of acquiring, constructing and improving buildings, machinery and equipment, including fire stations, to be used in giving fire protection to the property in the District. This tax will appear on the millage for 2022.

NOTE 4 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

The District was not in compliance with the Local Budget Act which requires that budgeted revenues not exceed actual amounts by more than 5% and actual expenditures not exceed budgeted expenditures by more than 5%. Actual revenues exceeded budgeted revenues by 18%. Budgeted expenditures were 4% less than actual expenditures.

NOTE 5 - CASH AND CASH EQUIVALENTS

At December 31, 2022, the District has cash and cash equivalents consisted of the following:

Demand Deposits		\$ 26,782
-----------------	--	-----------

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are to be held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2022, the District had \$32,944 in collected bank deposits. These deposits were secured from risk by \$250,000 of federal deposit insurance.

NOTE TO BUDGETARY COMPARISON SCHEDULE

The proposed budget for the General Fund, prepared on the modified accrual basis of accounting, is made available for public inspection at least fifteen days prior to the beginning of each fiscal year. The budget is then legally adopted by the District and amended during the year, as necessary. The budget is established and controlled by the District at the object level of expenditure. Appropriations lapse at year-end and must be re-appropriated for the following year to be expended. All changes in the budget must be approved by the District.

Formal budgetary integration is employed as a management control device during the year. Budgeted amounts included in the accompanying financial statement include the original adopted budget amounts and the budget amendments, if applicable, for the year ended December 31, 2022.

SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED DECEMBER 31, 2021

A. PRIOR YEAR FINDINGS

Internal Control Findings

Finding 2021-001: Written Policies and Procedures

Criteria. The Department should have a system of internal controls in place to ensure accurate and timely financial reporting and other matters as are applicable. Effective internal controls include written policies and procedures that address monthly financial reporting as well as reporting to the Legislative Auditor and other applicable procedures.

Condition. The Department needs to implement adoption of written policies and procedures and update them on an ongoing basis in order to strengthen its internal controls.

Cause. The Department has not put into writing its policies and procedures.

Effect. Failure to have written policies and procedures resulted in the Department not being in compliance with the audit law.

Recommendation. We recommended that management adopt written policies and procedures and in doing so, address all of the areas as set out in the Louisiana Legislative Auditor's *Statewide Agreed-upon Procedures*, as issued and updated on a periodic basis.

Management's Response. We will make every effort to develop written policies and procedures by involving the board of commissioners and our outside accountant in this process.

Current Status. Unresolved as of the date the financial statements were issued.

Noncompliance Findings

Finding 2021-002: Noncompliance with Audit Law

Criteria. Louisiana Revised Statute 24:513 requires that an annual financial report or other type report be submitted to the Legislative Auditor within six months of the close of the fiscal/calendar year.

Condition. This deadline was not met for the year ended December 31, 2021.

Cause. The Department normally is only required to have a compilation engagement. Due to receipt of a non-recurring grant, the higher level of revenues triggered an increase in the level of service to an audit, so an independent auditor had to be engaged. Consequently, the auditor was engaged late to begin the audit.

Effect. The Department was not in compliance with applicable laws.

Recommendation. We recommended that management be cognizant of this deadline in the future and make every effort to comply.

Management's Response. We will continue to make every effort to comply with this law by having our financial information ready soon after the close of the fiscal year.

Current Status. Unresolved.

Finding 2021-003: Noncompliance with State Law on Sexual Harassment

Criteria: Per Louisiana RS 42:343 & 42:42344, each public servant shall receive a minimum of one hour of education and training on preventing sexual harassment during each full calendar year of his or her public employment or term of office. Each agency head shall compile an annual report by February 1st of each year containing information from the previous calendar year regarding his or her agency's compliance with the applicable requirements of RS 42:344.

Condition: The Fire District did not file the required annual report with the state, does not have the related policy in writing and did not have the required training.

Cause: Unknown

Effect: Noncompliance with State Law

Recommendation: The Fire District needs to implement policies and procedures for agency responsibilities and prohibitions regarding sexual harassment, annual training, and annual reporting.

Response: The Fire District will implement the recommendation at once.

Current Status: Unresolved.

B. CURRENT YEAR FINDINGS

Internal Control Findings

Finding 2022-001: Written Policies and Procedures

Criteria. The Department should have a system of internal controls in place to ensure accurate and timely financial reporting and other matters as are applicable. Finding 2022-003: Noncompliance with State Law on Sexual Harassment

Criteria: Per Louisiana RS 42:343 & 42:42344, each public servant shall receive a minimum of one hour of education and training on preventing sexual harassment during each full calendar year of his or her public employment or term of office. Each agency head shall compile an annual report by February 1st of each year containing information from the previous calendar year regarding his or her agency's compliance with the applicable requirements of RS 42:344.

Condition: The Fire District did not file the required annual report with the state, does not have the related policy in writing and did not have the required training.

Cause: Unknown

Effect: Noncompliance with State Law

Recommendation: The Fire District needs to implement policies and procedures for agency responsibilities and prohibitions regarding sexual harassment, annual training, and annual reporting.

Response: The Fire District will implement the recommendation as soon as possible.

Current Status: Unresolved.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

Board of Commissioners
Washington Parish Fire
Protection District No. 8
Enon, Louisiana

We have performed the procedures enumerated below, which were agreed to by the Washington Parish Fire Protection District No. 8 ("Fire District") and the Louisiana Legislative Auditor, on the Fire District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended December 31, 2022, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Guide*. The Fire District's management is responsible for its financial records and compliance with applicable laws and regulations. The sufficiency of these procedures is solely the responsibility of the specified parties. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

With respect to your representations included within the Louisiana Attestation Questionnaire, as of December 31, 2022 and for the year then ended, we have applied the following agreed-upon procedures:

Public Bid Law

1. Obtain documentation for all expenditures made during the year for materials and supplies exceeding \$60,000, and public works exceeding \$250,000. Compare the documentation for these expenditures to Louisiana Revised Statute (R.S.) 39:1551-39:1775 (the state procurement code) or R.S. 38:2211-2296 (the public bid law), or the regulations of the Division of Administration and the State Purchasing Office, whichever is applicable; and report whether the expenditures were made in accordance with these laws.

There were no expenditures for the year ended December 31, 2022 that were subject to the public bid law.

Code of Ethics for Public Officials and Public Employees

2. Obtain a list of the immediate family members of each board member as defined by R.S. 42:1101-1124 (the ethics law).

Management provided us with the requested information.

3. Obtain a list of all employees paid during the fiscal year.

Not applicable

4. Report whether any employees' names appear on both lists obtained in Procedures 2 and 3.

Not applicable, the District has no paid employees.

5. Obtain a list of all disbursements made during the year; and a list of outside business interests of board members, employees, and board members' and employees' immediate families. Report whether any vendors appear on both lists.

Management provided us with the requested information; none are on both lists.

Budgeting

6. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with the requested information.

7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book, and report whether there are any exceptions.

No exceptions were noted.

8. Compare the revenues and expenditures of the final budget to actual revenues and expenditures. Report whether actual revenues failed to meet budgeted revenues by 5% or more, and whether actual expenditures exceeded budgeted amounts by 5% or more. (For agencies that must comply with the Licensing Agency Budget Act only, compare the expenditures of the final budget to actual expenditures, and report whether actual expenditures exceeded budgeted amounts by 10% or more per category or 5% or more in total).

These procedures were performed and no exceptions were noted or reported.

Accounting and Reporting

9. Obtain the list of all disbursements made during the fiscal year. Randomly select six disbursements, and obtain documentation from management for these disbursements. Compare the selected disbursements to the supporting documentation, and: (a) report whether the six disbursements agree to the amount and the payee in the supporting documentation, (b) report whether the six disbursements are coded to the correct fund and general ledger account, and (c) Report whether the six disbursements were approved in accordance with management's policies and procedures.

Each of the six selected disbursements agreed with the amount and payee in the supporting documentation.

Meetings

10. Obtain evidence from management to support that agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11⁴through 42:28 (the open meetings law); and report whether there are any exceptions.

No exceptions were noted.

Debt

11. Obtain bank deposit slips for the fiscal year, and scan the deposit slips in order to identify and report whether there are any deposits that appear to be proceeds of bank loans, bonds, or like indebtedness. If any such proceeds are identified, obtain from management evidence of approval by the State Bond Commission, and report any exceptions.

We scanned the bank deposit slips for the fiscal period and noted no deposits which appeared to be proceeds of bank loans, bond proceeds or like indebtedness.

Advances and Bonuses

12. Obtain the list of payroll disbursements and meeting minutes of the governing board, if applicable. Scan these documents to identify and report whether there are any payments or approval of payments to employees that may constitute bonuses, advances, or gifts.

We scanned the meeting minutes and other records and found no approval for payments in any documents or payments to employees that would constitute bonuses, advances or gifts. The District does not have paid employees.

State Audit Law

13. Report whether the agency provided for a timely report in accordance with R.S. 24:513.

The agency provided the required report late.

14. Inquire of management and report whether the agency entered into any contracts that utilized state funds as defined in R.S. 39:72.1 A. (2); and that were subject to the public bid law (R.S. 38:2211, et seq.), while the agency was not in compliance with R.S. 24:513 (the audit law).

We made the inquiries and the agency entered into no contracts or like agreements.

Prior-Year Comments

15. Obtain and report management's representation as to whether any prior-year suggestions, recommendations, and/or comments have been resolved.

Management has not yet resolved the suggestions and recommendations for items shown in the prior year findings. They have been advised of the importance of

correcting these items and management's response is that they plan to meet with their outside CPA to resolve the items, going forward.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Fire District's compliance with the foregoing matters. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

The purpose of this report is solely to describe the scope of testing performed on the Fire District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the Louisiana Governmental Audit Guide, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
