# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Nature of Activities

The Jefferson Parish Justice of the Peace, 5th Justice Court (Justice of the Peace) assists with evictions, small claims, and tenant rights.

# Reporting Entity

For financial reporting purposes, the Justice of the Peace includes all funds, activities, etc., that are controlled by the Justice of the Peace as an independently elected parish official. There are no component units included or required to be included as part of the financial reporting entity. The Justice of the Peace is solely responsible for the operations of his office, which include the hiring and retention of employees, authority over budgeting, responsibility for deficits, and the receipt and disbursements of funds. The Justice of the Peace is financially independent. Accordingly, the Justice of the Peace is a separate governmental reporting entity.

# Basis of Presentation

The accompanying basic financial statements of the Justice of the Peace have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, *Basic Financial Statements-and Management's Discussion and Analysis – for State and Local Governments*, issued in June 1999.

# Government-Wide & Governmental Fund Financial Statements

For this entity, there are no differences between the government-wide and the governmental fund financial statements, and accordingly the governmental fund financial statements are not presented separately.

In the Statement of Net Position / Balance Sheet, the governmental activities are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Justice of the Peace has no long-term assets or liabilities.

The Statement of Activities / Statement of Revenue, Expenditures and Changes in Fund Balance reports both the gross revenue and related costs of each of the Justice of the Peace's functions and activities. These functions of the Justice of the Peace are supported by fees and charges for various services provided. The revenue earned is reduced by related program revenues and operating (including salaries and depreciation) to obtain change in net position (fund balance).

The net costs (by function) are normally covered by general revenue (program revenues, interest earned, etc). This government-wide focus is more on the sustainability of the Justice of the Peace as an

entity and the change in the Justice of the Peace's net position resulting from the current year's activities.

#### Measurement Focus / Basis of Accounting

The Statement of Net Position and Statement of Activities display information about the Justice of the Peace as a whole. These statements included all the financial activities of the Justice of the Peace. Information contained in these statements reflect the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Non-Exchange Transactions.

#### Revenues

Revenues from charges for services are recorded when earned. Interest earnings are recorded when the investments have matured and the interest is available.

#### Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

#### <u>Estimates</u>

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Cash and Cash Equivalents

The Justice of the Peace considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

#### Property and Equipment

Property, plant and equipment is stated at cost. For financial reporting purposes, the Justice of the Peace provides depreciation for its property and equipment at cost and records depreciation using a straight-line method over a five-year estimated life. Expenditures for maintenance and repairs are charged to expense as incurred.
